Board to Have Power To Control Its Destinies

WASHINGTON, Jan. 23, (U.P.) —
The administration's gold bill has been amended by the senate banking and currency committee to provide for the establishment of a board of five members to handle the two billion dollar gold stabilization fund. As the bill passed by the house, the treasury secretary was given full control. The amended bill given the five-member board control.

#### MILK-A PUBLIC UTILITY!

Dispatches from Washington assert that the farm administration is thinking of making the milk distributing industry a public utility, subject to all the government regulation that any other public utility must undergo.

Milk distributors have been asking the government to guarantee their prices and their profits, and this suggestions of a public utility's status is reported to be the farm administration's answer.

There are some ways in which this looks rather like a good idea. Supplying milk to the inhabitants of a large city is a business in which the public interest must, at certain points, take precedence over private interests.

If society exercises control over such business as supplying transportation, electricity, and gas, might it not very properly extend such control to the business of supplying milk? At the very least, the idea is worth extended

## BUSINESS SUPPORTS THE NATION BANKS SUPPORT BUSINESS

And, what is true on a national scale, is true on a local basis.

To make the explanation clearer, this country depends upon its industries to support it; every industry is dependent upon stabilized banking for its continuance; every bank is dependent upon the financial condition of the nation for its stability.

Thus, we are all parts of an endless chain which must continue unbroken if we are to sur-

## A Safer, Better Way of Lubricating Your Car

O a Magnolia Man the lubrication I of your car is a serious, scientific job. He has been trained to think and work that way. If your car is to serve you efficiently and economically, each point must receive the right amount of the right grease at regular mileage intervals.

Before any Magnolia Station is permitted to display the Mobilubrication Shield, the men in charge must first complete a course of instruction and pass rigid examinations on scientific lubrication.

Talk to a Magnolia Man about lubrication. You'll be surprised at how much he knows about his job. Let him show you a "Chek-Chart" of your particular make and model, prepared with the cooperation of your car manufacturer. He will explain why several different grades of Mobilgrease are needed to protect your car against heat, water, road shocks and speed.

Don't wait until a chorus of squeaks

and rattles signal that a repair bill is on

the way. Drive in to a Magnolia Station at your first opportunity and save your car with Mobilubrication.
