STILL SHIPPING LIQUOR

The little island of Miquelon, home port for a fleet of rum-runners throughout the prohibition era, is not yet finished with the task of supplying liquor for thirsty American citizens.

Examination of the liquor import figures for December, recently released by the Department of Commerce, shows that this tiny island in that month sent to the United States distilled liquors worth \$186,000 and wines valued at \$131,000.

Since the island itself ferments no wine and distills no liquor, these stocks obviously originated farther afield; and one probably is doing the islanders no injustice by suspecting that to a certain extent they represent stocks laid in in the smuggling days.

And one wonders: Will Miquelon cease shipping liquor to the United States, once these stocks are gone, or will it continue to maintain its place as a source of supply for the American market, making its shipments legally instead of surreptitiously?

The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything.)

Infants, kindled 26 kitchen fires, cut 175 arm loads of firewood, walked 4049 miles, shook hands 9008 times, attended 29 revival meetings and was baptized four times by immersion and twice by sprinkling, contributed \$40 to foreign missions, set dog bit 10 times, and lost the damned election.

A columnist asks, "What has become of the old-fashioned man who thought he had to act decrepit at the age of 50?"

Answer: He now thinks he has to act decrepit at the age of 40.

My idea of an enterprising unemployed man was the one who bought a car so he could go around and gather up the food and clothes that the people wanted to give his family.

Charley Robinson had a good dream the other night. He dreamed he could hear the frogs croaking over toward Mexico town.

A Midland man claims to have heard 840 to foreign missions, set dog bit 10 times, and lost the damned election.

Hard question to decide: Is a strong man tempted more than a weak man? Evil loves great triumphs. On that hypothesis, it could be said that temptation works hardest on a strong man; the weak man can be attended to later on.

Midland Took Strides Towards Health Consciousness in 1933—Annual Report

EDITOR'S NOTE: The following is a continuation of the third annual report of the Midland County Public Health Board, prepared by Mrs. Alberta Sloan, president, and Mrs. Pearl Witty, secretary.

Mrs. Phillips sought the aid of the city council, asking for more street lights, graded streets to prevent the standing of water and regular garbage disposal. Due to the economic program adopted by the council we were able to get only one street light at that time. We are still insisting on regular garbage disposal. Mrs. Phillips met with the colored health committee three times and urged an immediate report of all communicable diseases, births and the building of sanitary toilets and sanitation.

The census of the county, taken in 1933, revealed four colored babies had been born. A survey was made of all colored people who had jobs to obtain a list of names for the T. B. Clinic. The state colored itinerant nurse has been requested for work in Midland and to date no reply has been made to this request. An educational program is being planned for National Colored Tuberculosis week in 1934. The committee is awaiting the arrival of material.

A health program with an aim to get a sanitary toilet constructed at every house in the county not connected with the sewer had its beginning last spring when Mr. Grimes, state health engineer, was here several days explaining plans and giving directions for the building of pit toilets. As a result, 36 toilets were constructed in Mexican and colored towns and other parts of the county. It cost in the cost of this project the city of Midland appropriated \$100. The success of this campaign was greatly due to the personal attention given it by Judge Barron and the personal supervision of A. B. Cole, city engineer.

A resolution requesting the Midland chamber of commerce to encourage the West Texas chamber of commerce to sponsor a regional sanitary program was adopted by the board.

What may be expected to grow into a more extensive health program is the state-wide sanitary project being promoted by the state health department at this time. The aim of this campaign is to help the owners of existing houses without pit toilets construct them soon. Included in this sanitary survey is a health questionnaire to go to every home in the county. The future value to be derived from these statistics is expected to be unlimited. The state health department is supervising this project with the finances coming through the C. W. A.

The commissioners' court, always mindful of the value of representatives attending state health conventions, sent Mrs. Adeline Young, board secretary, to the state organization of Public Health Nursing at Austin in May, which was also attended by Miss Wilson. In November Miss Wilson also attended the State Public Health convention.

Especially pleasing to all board members is the wonderful health work in our North and South ward schools, which is continued to be carried on by the Parent-Teacher associations under the capable direction of Mrs. Lewis C. Link and Mrs. Herbert King. The practice of each child drinking milk at the recess hour is being continued with these organizations financing those unable to do so. This year a charitable plan was started. Some kind of hot food has been furnished the underprivileged children daily at the noon hour. The government relief department has paid the expense and the P.-T. A.'s have done the work. At this time 22 children are being fed at the South ward and six at the North ward. The physical development of children receiving this nourishment has been noted and late reports show that a majority have gained weight steadily.

Under the direction of Dr. K. F. Campbell, board dental advisor, and Miss Wilson, every school child in Midland county, with the exception of high school students who had previously been examined, underwent a dental examination in 1933. They were ably assisted by Drs. D. K. Ratliff and L. B. Pemberton and a corps of volunteer workers. This was a stupendous project and each

dentist is to be highly commended and thanked for his splendid services. As a successful result to this work, members of the Wednesday club appropriated \$100 to be used for the correction of acute dental cases among needy children. They are donating generously of their time in making home calls to investigate these cases. Again dentists have kindly given to the health program a large amount of money to finance operations, examinations and glasses for needy children. Dr. John B. Thomas is making the examinations without charge.

The climax of interest in the 1933 program was, without doubt, reached when Miss Evelyn K. Davis, assistant director of the National Organization of Public Health Nursing, made an official visit on November 15. This visit not only attracted many Midland people but 25 visitors from Nolan, Rains, Upton, Dawson and Panhandle counties came to the meeting. We feel that this visit was of unusual ability and the worthwhile things she is doing to promote health projects in every part of the United States. Her work has been nationally recognized and her services are sought constantly. To West Texas health-minded people who attended the meeting she imparted an abundance of practical suggestions for health board development. Her splendid advice was to every member of the board. During the past year, 70 articles have appeared in our local paper, The Reporter-Telegram. A majority of these has been in the form of timely articles, the remainder being feature stories. Miss Marguerite Carpenter has been in charge of the publicity and she has spent a great deal of time writing and revising stories for publication. Our sincere appreciation again goes to The Reporter-Telegram and its staff members for their continued cooperation. (See HEALTH REVIEW, page 4)

And Here Is Uncrowned Queen

Jesse Lou Armstrong, to right, finished second in an exciting race which was terminated Monday by selection of queen for the 1934 Calico, high school yearbook. She's a queen, as your glimmers will tell you, although uncrowned. She's a blonde, as were the first, third and fourth place winners. Eddie Blanche Cowden, Harriett Ticknor and Maxine Sills. She is a daughter of Mr. and Mrs. F. B. Armstrong, Newman was Miss Armstrong's campaign manager, and her success is shown in the results—Miss Armstrong lacking only 193 votes of deadlocking the election.

Two Midland Women District Officers

Two Midland women have accepted offices in the child welfare department of the general federation of women's clubs. Mrs. George T. Abell who is spending the winter at San Antonio has been appointed state chairman and Mrs. John Haley sixth district chairman.

These offices make a total of five held by Midland women. Mrs. Paul Vickers is district chairman of literature, Miss Lydia Watson district chairman of Texas music and Mrs. H. Cwyn district chairman of rural work.

Simmons U. Dean of Music Announces Piano Tournament

NEW YORK—Plans for the first annual national piano-playing tournament sponsored by the National Music Guild of New York and open to grades school, high school, and college students throughout the nation, have been announced by Irl Allison of Abilene, Texas, tournament director.

Allison, dean of music in Simmons university at Abilene, originator of the tournament plan of national competition in piano, will act as general director. Edwin L. Gunther, New York, is guild secretary.

The tournament will be held in 75 cities in 48 states and the District of Columbia during National Music week in May, 1934.

It will introduce a new type of competition for piano students, who will not compete against one another, but against a standard. They will play and receive a grade, perfect playing and extensive repertoire will be the objectives.

Judges, selected in each division, will receive instructions from a copy of the supreme judges headed by Edwin Hughes, New York, and John Thompson, Kansas City. A uniform system of judging will be used in each of the 75 units. The method will make a second elimination unnecessary. Awards will consist of certificates, red for unit honors, blue for state honors, and gold medals for national honors.

National competition is an outgrowth of the All-Southwestern tournament founded by Allison, now in its sixth season. Starting in Abilene in 1929 with one unit, last year it had grown to eleven units of 212 students in four states.

The 1934 tournaments units in Texas are: Dallas, Abilene, Waco, San Antonio, Beaumont, Austin, Ft. Worth, Houston, Plainview, Tyler, El Paso, and Wichita Falls, Mexico.

James Hilton Sharp Honored on Birthday

Friends and relatives gathered at the J. E. Feeler home Wednesday night to celebrate the ninth birthday of James Hilton Sharp. As the honoree entered the house with his parents, Mr. and Mrs. Tommy Sharp, guests who were grouped about a table centered with a lighted birthday cake sang "Happy Birthday to You."

Refreshment plates adorned with valentines were passed to Messrs. and Mrs. Clyde Gwyn, Feeler, Sharp, and Lige Brothers, Mrs. Elui Feeler, Messrs. Buster Howard and Coren Stephenson, Misses Mamie Lusk, Mahdeen Reising and Algerine Feeler and the honor guest.

France is the only European country whose present birth-rate shows an improvement on the pre-war figure.

Indoor games furnished entertainment for the evening, after which the honoree opened gifts brought him.

Playing were Misses W. P. Knight, W. N. Thurston, A. J. Cooper, Brown, Bowden, J. D. Chambers, W. E. Wallace, R. E. Kimsey, R. L. York, P. O. Moore, Don Davis and the honoree. Tea guests were Messrs. E. C. Crabb, Fred Turner and Joe Haygood.

Fort Worth Woman Honoree at Bridge Party Wednesday

Complimenting her house guests, Mrs. C. J. Davidson of Fort Worth, Mrs. A. Kulickbocker entertained with an attractive bridge party Wednesday afternoon at her home, 1005 W. Wall.

A Valentine motif was predominant in bridge appointments. At the conclusion of the games, a prize was presented to Mrs. W. R. Zowden for high score and Mrs. W. L. Brown for high cut. Mrs. Davidson also received a gift.

Playing were Messrs. W. P. Knight, W. N. Thurston, A. J. Cooper, Brown, Bowden, J. D. Chambers, W. E. Wallace, R. E. Kimsey, R. L. York, P. O. Moore, Don Davis and the honoree. Tea guests were Messrs. E. C. Crabb, Fred Turner and Joe Haygood.

Dramatic Students Give One-Act Play

Students of the dramatic department of the Vickers studio of which Mrs. Bryan Henderson is director were presented in a one-act play at the Yucca theatre Wednesday. The play was given twice—a matinee and an evening showing.

Characters of the play, "Not Quite Such a Goose," a humorous drama by Elizabeth Gale, were: Mrs. Bell, Catherine Beauchamp; Albert Bell, Roy Skipper; Sylvia Bell, Marceline Wyatt; Philip Flick, J. B. Thomas Jr.; Hazel Henderson, Betty Minter. Each member of the cast showed excellent training and was greatly improved at the evening showing. Only one member had appeared in a play before.

Before the evening performance, tap students of Mrs. Vickers were presented. Joyce and Marie Beauchamp, Jessa Lynn Tuttle and Frances Burrus tapped to "Who's Afraid of the Big Bad Wolf?" Perfect time and good footwork were seen in this number.

"Sailor Beware" Read Before Club

"Sailor Beware" was read by Mrs. Jack Hawkins Wednesday at a meeting of the Play Readers club with Mrs. De Lo Douglas.

Thirteen members and four guests, Miss Kathleen Mullino and Mmes. Allen, Homer Epley and Matthews, were present.

Health Review

(Continued from page 2)

For the first time in the history of the Midland County Health board, we were accorded this year the opportunity of sponsoring the sale of tuberculin Christmas seals in this county with the privileges of keeping 60 per cent of the proceeds for the furtherance of our own local anti-tuberculosis work.

Forty-six health magazines have been bound by the library during the last year. Our appreciation for this service goes to Miss Marguerite Hester, librarian.

To the chamber of commerce, all clubs and organizations which have at all times been very ready to assist us in many ways we are grateful.

There is no reward so satisfying as that which comes from service rendered to others and already that reward is coming to members of the Midland County Health board. Ours is a county service. Our aim as stated is a yearly physical examination for every man, woman and child; a health unit; a standard milk ordinance strictly maintained; elimination of smallpox, diphtheria and typhoid and the maximum control of, and the minimum amount of, contagious diseases.

We cannot close an annual report without paying our heartiest respects to our commissioners' board and our county judge, Elliott Barton, and acknowledge the steady, sturdy, encouraging support which these gentlemen always give us.

A report of such work as this can only be produced by many, many minds and hands giving considerable thought and energy. Our active friends are constantly increasing in our community and to them we are very grateful.

Respectfully submitted, Pearl Wilky, Secretary

Alberta Sloan, Chairman

NEW CHEVROLET PLAN PLEASES

Instantaneous public response in terms of orders for retail delivery greeted Chevrolet's announcement that hereafter their dealers would quote only actual delivered costs instead of the ambiguous "f.o.b." prices on new cars and trucks, reported J. K. Elder of the Elder Chevrolet Co., local Chevrolet dealer, upon his return from El Paso where he attended a meeting of dealers from this vicinity conducted by Felix Doran Jr., assistant general sales manager of Chevrolet Motor company.

In the 38 counties comprising the El Paso zone, more than 1500 bona fide orders are now on the books, it was reported by J. B. Hancock, zone manager, at the dealers' meeting, February, March and April shipments to this area are expected to exceed 3000 units.

The "new deal" in automobile merchandising, Elder said, quoting Doran's address to the dealers, is designed to drive into the open every item entering into the cost of a car to the purchaser. "The immediate result of the new policy," Doran reported, "was a flood of wires and expressions of appreciation from both dealers and public. Accompanying these expressions, too, were more than 100,000 bona fide orders for the immediate delivery of the new 1934 'knee-action' models.

"We are now in production on the new cars and our 21 plants throughout the United States are working night and day. Shipments are being rushed to our dealers: Within two weeks we expect to be in a position to make immediate delivery in quantities to retail purchasers."

Doran came to the Southwest district from the New York and Detroit automobile shows where he found a new note of optimism in his contacts with dealers and the public, Elder said. "My optimism increases as I gather reports from different localities on my present trip," Doran said to his dealers.

The outlook for El Paso is one of the brightest that has been reported. Conditions in this locality continue to improve each day, and we look to El Paso as one of the large volume areas in the country in 1934."

Returning to the policy of quoting only actual delivered costs to the purchaser, the Chevrolet sales executive told his dealers that he considers this one of the most revolutionary merchandising plans ever introduced into automobile sales practices. Chevrolet is, he said, basing the success of its entire sales administration upon the soundness of the new policy. The new delivered price policy will save millions of dollars to car buyers this year, he stated. For example, according to Elder, the average list price of Chevrolet is up 14 per cent over 1933, but the actual difference will be only 8 per cent.

El Paso dealers were guests of Doran, K. M. Chase, Southwest regional manager, and J. B. Hancock at a luncheon at the Hilton hotel. More than 50 dealers were present, Elder said.

Health Department To Investigate the Causes of Quarrels

EL PASO, (AP)—The city-county health department will try to stop spats between husbands and wives and teach them how to get along. To do this job, Dr. T. J. McCamant, city-county health officer, will employ a trained social worker to investigate conditions leading to the break-up of homes and attempt to stop separations by teaching husbands and wives the necessity for living together harmoniously to rear their children properly.

The social worker will investigate cases of poverty, ill health, delinquency and other conditions that may affect a couple's marital bliss.

Continues to Make Money with Cattle

Cattle feeding at Midland paid handsome profits this year to one man who knows how. J. C. Miles netted about \$11 per head on the first load he sold. Miles was paid \$5.75 for a load of fat heifers in Fort Worth this week, which was the top of the year for their class. Miles bought 100 heifers averaging 406 pounds at 3 1/2 cents. The heifers have been on feed for 95 days at an average cost of \$10 per head, as all feed had to be bought.

The 30 Miles shipped to Fort Worth average 654 pounds there and brought \$37.50 per head. The difference in selling price and cost plus feed was \$13.36. After freight, commissions and other expenses were paid, Miles cleared about \$11 per head. This farmer made good money feeding cattle last year.

Conoco Broadcasts Aid Local Business

General business in Midland should benefit this year from an increase in tourist traffic which is expected to result from a series of unusual radio broadcasts by Continental Oil company, sponsor of the Conoco Travel bureau, beginning Wednesday night, February 14. Figures just released show that the Conoco Travel bureau during 1933 routed a total of 48,775 tourist groups to and through Texas, many of whom were visitors in Midland.

Conoco's radio programs this year, while including some comedy and a wide variety of music, both vocal and instrumental, will feature dramatized vacation tours to outstanding scenic and pleasure resorts throughout America. Towns visited by these radio motorists will be described, thereby receiving some valuable tourist publicity, as the broadcasts will go out over 27 N. B. C. stations.

The February 14 program, 9:30 to 10, central standard time, will feature a thrilling trip from Wichita, Kansas, to the Southern Colorado Rockies, and will also include a talk by Tony Sarg, internationally famous artist who created the funny illustrations for the Conoco Bronze gasoline advertisements now appearing in this newspaper.

In promoting vacation travel the Conoco Travel bureau is making a definite contribution to improvement of general business conditions. This is proved by a survey just completed, showing that the average Conoco Travel bureau vacation tourist spends \$250 and travels 3,400 miles, and that the sum he spends is expended in the following way: Amusement, 20 per cent; amusements, 8 per cent; confectionery, 6 per cent.

Chevrolet Payroll Near All-Time High

DETROIT—With a payroll almost equal to its all-time high, Chevrolet entered February well on the way toward capacity operation. M. E. Coyle, general manager, announced here today. Production increased more than 50 per cent during the first week of January—2,141 cars Jan. 24 to 3,304 on Jan. 31—and coordination of activities in the 21 domestic plants was proceeding at a rate which indicated steady progress from this time on. Dealers throughout the country, Coyle said, will soon be making immediate delivery of any model desired.

Payrolls on Jan. 31 totalled 53,203 persons, as compared with 33,727 at the corresponding period last year. The payroll increase for the week was nearly 2,400 persons. These figures include only the workers on Chevrolet's own payroll. Inclusion of Fisher Body workers producing bodies for the new Chevrolet would practically double that total.

Coyle, "breaks all Chevrolet records since the spring of 1929, and is the largest we have ever had at this time of year. As a matter of fact, it is within 2.6 per cent of our greatest payroll of all time."

Coyle also emphasized the fact that the company is taking back its old employees, and will have no need for new personnel at any of its plants.

Claudette Colbert, Herbert Marshall, Mary Boland, William Gargan and Leo Carillo head the imposing cast which brings this E. Arnot-Robertson novel to the screen. It was adapted by Bartlett Cormack and Lenora Cole. It is a story of a young girl, Judy Jones, prim little school-marm; Arnold Alinger, quiet, dignified chemist; plump, loquacious Mrs. Mardlok, and Stewart Corder, smart-aleck newspaper correspondent, all extremely satisfied with themselves, escape from their boat when a plague breaks out.

Ashore, amid sinister shadows, they finally get a native guide to take them through the dense, danger-infested Malay jungle. What was intended to be a three-day trip turns into months of primitive life, and it is then that the thin covering of culture and civilization is stripped away, revealing four primitive humans.

New Amplifiers Asked at Austin; Some Can't Hear

AUSTIN, Feb. 8. (AP)—Members of the "amen" corners of the Texas house of representatives have started a movement for installation of a more effective loud speaker system. The "amen" corners are those portions of the house where members have difficulty hearing what is going on, even though the present loudspeaker appears to have plenty of volume. The speaking horns are placed about half-way between the floor and the ceiling and are several feet out from the speaker's platform. The platform is flanked on both sides with the seats of the members who are protesting.

Complaint was made that members in these places couldn't hear the proceedings and often could not be sure of the propositions on which they were voting. "We could not hear what was going on," said Rep. A. W. Griffith of Austin, a former holder of an "amen" corner seat who has moved to a more central location. "You don't know how lucky you are," someone in the back of the hall remarked.

There was surprise at the complaint. On occasions the loudspeaker has been heard at a distance of at least a block from the legislative hall.

NOTICE OF HEARING

Notice of hearing on application of the Southwestern Greyhound Lines, Inc., of Fort Worth, for authority to change schedules between Dallas and El Paso, also between Mineral Wells and Graham, has been issued by the motor transportation division of the Railroad Commission of Texas. County officials of all counties concerned have been advised the hearing will be held Feb. 15 at the Jefferson hotel, Dallas.

Tony Calls Mother After Each Victory

FORT WORTH, (AP)—For Tony Herrera there is no glory in winning a prize fight unless he can share that glory with his mother. After each fight the young Scottish-Mexican, Texas' outstanding pugilist, calls his Castilian mother in El Paso to tell her the good news—for Tony seldom loses a fight. "Mama! Es Tony," Herrera cheerfully greets his mother over the telephone. He then lapses into a flood of Spanish, tender and full of admiration for his mother, who does not speak English.

Perhaps his admiration for his mother is one of the reasons the 26-year-old boxer, clean cut and gallant, has been successful in the ring. Tony, eldest of several children, entered the ring nine years ago to help support his widowed mother and her children. Out of each fight he sent home something to help educate his brothers and sisters and to provide them with life's necessities.

Herrera undoubtedly is one of the cleanest men in the fight game, both in private life and in the ring. He always keeps in good physical trim, which goes a long way in explaining why some of the hard punches he has met have failed to knock him out.

An equally important reason, too, is the fact that a blow has to land to have effect, and Tony usually isn't there when the hard-driven fighter comes smashing his way. His ambition is a try for the junior welterweight championship of the world, now held by Barney Ross. Ross is one of the greatest fighters since Benny Leonard, and Herrera realizes full well that it would be a tough assignment.

The dream may be realized late in March, however, if the efforts of Dixie Griffin, Fort Worth, who manages and has developed Herrera, are successful.

A crippled right hand, injured two years ago, has about healed. Herrera has favored the right hand in all his recent bouts, content to let his flicking left jab win his fights.

He will have to have the right, however, in a fight with Barney Ross and is guarding it closely against recurrent injury.

A victory over Ross if an engagement can be arranged, would be Herrera's greatest desire and undoubtedly would create a flow of Spanish via telephone such as has not been heard since the Maine blew up in Santiago harbor.

Genuine Whiskers, Plenty of Frills Mark Clayton Hop

CLAYTON, N. M. (AP)—Genuine whiskers for the men—Van Dykes, goates, mustaches and burnisides—and frills, bustles and "trads" for the women, mark Clayton's annual rip-snorting costume party.

In a setting that depends for authenticity upon trailing arbutus whiskers and the famous Buckhorn bar, dancing does on continuously for three days and nights.

The feature of the celebration is the western dance. A few do the Virginia reel, but the square dance continues to lead in popularity.

INSTRUCT SHEEP RAISERS

BROWNWOOD (AP)—Instruction in shearing sheep and handling the wool for market were given here recently to more than 100 growers from ten or twelve surrounding counties by S. P. Davis, wool and mohair specialist of A. & M. College.

Opening of a warehouse at Brownwood has made marketing facilities available to growers of this section and it is estimated by growers that eight to ten million pounds of wool will be marketed here yearly.

Belgium is the most densely populated country in Europe, having 686 inhabitants to the square mile.

Let his flicking left jab win his fights. He will have to have the right, however, in a fight with Barney Ross and is guarding it closely against recurrent injury.

A victory over Ross if an engagement can be arranged, would be Herrera's greatest desire and undoubtedly would create a flow of Spanish via telephone such as has not been heard since the Maine blew up in Santiago harbor.
