## WIRT HIT BY ANOTHER REVERSE

### 200 at First Session of Newspaper's Cooking School

#### MRS. E. WARREN CULINARY EXPERT, CONDUCTS SCHOOL

Midland Merchants  
Give Away Variety  
of Products

With an enthusiastic crowd of 200 to greet her at the initial lecture of the four-day Reporter-Telegram All-Electric cooking school this morning at the Yucca theatre, Mrs. E. H. Warren, nationally known culinary expert, presented new recipes to women of Midland and surrounding communities.

Speaking from the stage of the theatre, which has been arranged as a model kitchen, the food authority gave instructive and helpful information on the selection and preparation of foods.

As her first demonstration, Mrs. Warren prepared an oven meal. As she outlined the method of procedure, she explained that such meals release women from their kitchens to gardens, golf and other open air hobbies, as food may be placed in the Top-Point range and entrusted to its heat and time control. By turning the heat control to the correct temperature and setting the start and stop time dials, women may leave this dish in the stove and be free from worry while away.

At her first demonstration, Mrs. Warren prepared an oven meal. As she outlined the method of procedure, she explained that such meals release women from their kitchens to gardens, golf and other open air hobbies, as food may be placed in the Top-Point range and entrusted to its heat and time control. By turning the heat control to the correct temperature and setting the start and stop time dials, women may leave this dish in the stove and be free from worry while away.

Two one-dish meals were featured in the lecture—rosettes and meat spaghetti. Use of a heavy aluminum skillet saves current, Mrs. Warren said, because additional current is not necessary after the skillet is well-heated. Something new and different were the veal rosettes she prepared in the heavy skillet. Sour cream was added to the slightly browned veal rosettes in order to make them tender and tasty. If sour cream is not available Mrs. Warren suggested that women try adding one tablespoon of vinegar to a cup of sweet cream.

Delightful and inexpensive is the frozen fruit salad made by Mrs. Warren. The recipe is especially good for hot weather. To create it, Mrs. Warren placed the frozen mixture in a refrigerator tray and returned the tray to the ice unit. Particularly tasty was the foundation cake. In connection with cake baking, Mrs. Warren gave women these rules: use unsalted shortening for greasing cake pans, or line the pan with wax paper; push the cake batter from the center of the pan toward the outside (this prevents the cake from rising in the center); test the cake by pressing it with a finger, if it returns to normal shape, the cake is done; remove from oven and remove from pan by See COOKING SCHOOL, Page 6

#### Ain't Scarlet Fever Wonderful!

They're making the best of it, these four unfortunate lads behind the ominous sign—as who wouldn't, with the help of beauty shown above to help them along? They're the four students quarantined in a sorority house at the University of California because one of the co-eds became ill with scarlet fever. They're whiling away their imprisonment with dances and other social events, with 26 co-eds doing their level best to keep them entertained.

#### DIRIGIBLE TO DARE WEST TEXAS AGAIN

The USS Macon, pride of the government air armada, will venture again into skies that have held out serious threats to every dirigible that essayed to navigate them—when she flies over West Texas about April 20.

This was learned this morning by attendees at the U. S. army air-drome at Sloan field. The big craft will leave Sunayvale, Calif., headed for Miami, Fla., and will make the return trip about May 20.

The German Graf Zeppelin was the first to experience difficulty in ruddering against heavy West Texas winds, having to change her route several times. Vertical currents disrupted her schedule. She was even fired, on several bullet holes being found in her hull.

The USS Akron was next, and the tales told by her crew after many hours of cruising back and forth over this area dodging electrical storms and powerful gales are rivaled only by those told by gale-swept mariners aboard a mastless wind-jammer.

The Macon spent several hours over Midland on her maiden trip over West Texas, flying in and out of clouds over the city and waiting for the dawn before daring the high mountains between Midland and El Paso.

Women of Martin and Midland counties will try their hands at corn growing this year. They will plant Honey June corn brought in to the counties by the home demonstration agent. The corn was developed by Texas A. & M.

Farm club women will raise the corn for canning and drying, and samples will be served at club meetings. Its adaptability and palatability will be specially noted.

Midland farm women who will grow the corn are: Mmes. D. A. Ray, J. C. Brooks, Herman Fisher, Bill Lockler, and W. S. Hudson. Martin county women who will conduct the experiment are: Mmes. A. J. Howard, M. L. Graves, M. A. Locke, J. O. Hardin, W. A. Kaderli, T. B. Stewart Sr., Loyal Carr, and Vernon Haggerton.

PLYMOUTH, Mass. (AP)—Inside of 10 months and 11 days, Mrs. Lucy V. Beuluppe's pet cat, Snowball, gave birth to 24 pure white kittens. The 25th had a tiny black spot on its forehead. Altogether, there were five litters.

WEST TEXAS: Partly cloudy to cloudy weather is forecast for West Texas, with probable showers in the north portion tonight and Wednesday.

#### Late News

WASHINGTON, Apr. 17 (UP)—President Roosevelt today told a delegation of Texas editors and business men that he hoped to visit Texas next year and have Vice President Garner prove the fish stories he has been telling.

AUSTIN, Apr. 17 (UP)—Senator Grady Woodruff of Decatur predicted today the repeal of the "sour gas law" at the next session of the legislature.

CHICAGO, April 17. (UP)—John (Jake the Barber) Factor, wanted in England on charges of swindling in a \$7,000,000 stock company venture, was ordered into custody of a United States marshal today for confinement pending extradition.

LONDON, Apr. 17 (UP)—No provision for war cost payment to the United States was made in the British budget presented to the House of Commons today.

AUSTIN, April 17. (UP)—Report forms with which the state railroad commission hopes to tighten the grasp on flow valves of East Texas oil wells were formally issued today. They comply with the general regulations issued April 3.

WASHINGTON, April 17. (UP)—Futures trading on grain exchanges by farmers is their code defense against arbitrary price control, J. M. Mell, grain futures administration executive, told the House committee considering the Jones commodity exchange bill today. He urged enactment of the measure.

WASHINGTON, April 17. (UP)—Futures trading on grain exchanges by farmers is their code defense against arbitrary price control, J. M. Mell, grain futures administration executive, told the House committee considering the Jones commodity exchange bill today. He urged enactment of the measure.

#### Crazed Mob Battles at Kidnaped Baby's Funeral

Victim of an abnormal boy kidnaped 2-year-old Dorette Zietlow was carried to the hearse which bore her to a Chicago cemetery through a howling, clawing mob of 10,000 morbid curiosity seekers that stormed the chapel where the rites were held. The crowd shown here, tore wreaths to bits, broke automobile windows, and pushed three chimneys from the chapel roof.

#### WILLIS BANDITS ESCAPE DEPUTIES

HOUSTON, Apr. 17. (UP)—Two bandits robbed the First State bank of Willis late yesterday and had apparently run into a network of officers of five surrounding counties, but managed to escape the cordon.

A recheck at the bank this morning showed the loot to be \$600.

#### NO PROBE SET FOR LINDY CASE

WASHINGTON, Apr. 17 (UP)—Senator Hugo Black, Dem. Ala., chairman of the senate air mail committee, "does not propose" to summon witnesses for investigation of the examination of Col. Lindbergh by a department of justice agent, he said today.

The announcement was made as the committee resumed hearings of activities of non-subsidized independent airlines to obtain mail contracts.

#### People Cheerful at Outlook, Says Crier

The country between Midland and Abilene reflects a great difference from that of this time last year, with from light to heavy rains having fallen this year.

So said Will Crier, Abilene man who was here Monday on business matters.

Whether it is optimism that keeps the people from mentioning the depression any longer, or a forgetfulness of the depression, Crier could not decide—but said the people are happier and more cheerful throughout the entire section.

#### Students Perform For Two Visitors

Pupils of the Pleasant Valley school taught by Miss Tommy Smith, gave demonstrations of sign reading and punctuation usage for the county superintendent of schools Tuesday morning. The county schools' head and the chamber of commerce secretary made brief talks.

The Pleasant Valley school has not only been doubled in size, but has been renovated throughout, making both interior and exterior like new. This work was done without any increase in taxes or bond issue, and in the face of a 20-cent cut in the tax rate. The work was done with the normal tax income from 1933 plus CWA labor grants. The county judge praised the school for its efficient work.

CAT LIVES WITH CHICKENS  
BROOKSVILLE, Me. (UP)—Ernest Clossen is worried over the strange actions of his cat. It eats and sleeps with the chickens and has become so wild that it can't be coaxed to leave the hen yard. The only food the cat will eat is the cracked corn fed to his hens.

#### DINNER HOSTESS SAYS 'KERENSKY' NOT MENTIONED

In Fact, No One Was  
Talking But Wirt,  
She Complains

WASHINGTON, Apr. 17 (UP)—Miss Alice Barrows, brain trust "satellite" named by Dr. William Wirt as one of his "red plot" informants, denied before the house investigating committee today that any of her Virginia dinner party guests discussed government policy questions.

"The remarks were confined to occasional attempts to interrupt Wirt," she said. "The dinner was unsuccessful because Wirt talked all the time."

She said that she, at no time, heard the name Kerensky. Wirt, a week ago, charged that Laurence Todd, newspaperman, said Roosevelt was the "Kerensky" of a revolution in this country.

WASHINGTON, Apr. 17 (UP)—Samuel Insull, en route to the United States to face trial under fraud charges, arrived here today under close guard to prevent a possible bid for freedom.

He was followed constantly by seamen to prevent an attempt at suicide. A request to use the engines of the ship was refused just before the ship docked.

#### VIEW OF ENGINES REFUSED INSULL

SATANIA, Sicily, Apr. 17. (UP)—Samuel Insull, en route to the United States to face trial under fraud charges, arrived here today under close guard to prevent a possible bid for freedom.

He was followed constantly by seamen to prevent an attempt at suicide. A request to use the engines of the ship was refused just before the ship docked.

#### Did They Think Annie Didn't Live There Any More?

Two shots from a pistol fired by Miss Annie Midkiff changed the plans of burglars at the T. O. Midkiff home, 1002 S. Marientield, one night this week.

Hearing a noise on the ground floor, Miss Midkiff seized a pistol and looked over the top of the stairs. Two men. Two shots. Two running figures. Too bad.

#### Wardrobe School To Be Conducted

Wardrobe demonstrators of Midland and Martin counties will attend a wardrobe school to be conducted at the assembly room of the courthouse Friday, under direction of Miss Dora Russell Barnes, extension specialist in clothing from Texas A. & M. college.

Individually fitted patterns will be studied in detail. The school begins at 9 a. m. and will be broken briefly at noon, when a covered dish luncheon will be served.

#### CHILD IS BORN

A boy was born to Mr. and Mrs. G. L. Jackson at a Midland hospital this morning.

Miss Cordelia Taylor, who underwent surgery last week, is reported improved this morning.

#### CHILD IMPROVES

Patsy Lou, 3, daughter of Mr. and Mrs. L. A. Arrington, 1310 W. Texas, was improved today from several days' siege of cold.

#### FLAPPER FANNY SAYS

REG. U. S. PAT. OFF.

The more beaux a girl has the better her chance of tying up.

Speaking of brain trust satellites, the question is did Dr. Wirt also see any stars at that Virginia party?

Problem in political economy: Figure out how the New Jersey ex-jurist, who says he gave \$25,000 for his appointment, came out ahead.

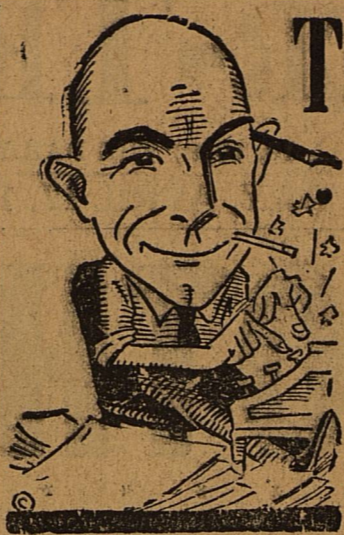

The trans-Atlantic flyers are beginning to pop up—although they'd like to do much more than just that.

### Borger's Housing Condition Serious

**BORGER (P)**—A serious housing condition faces Borger. An "apartment for rent" or "house for sale" ad in a Borger newspaper caused almost a riot. Borger is essentially an apartment city and those two and three room living places are very scarce. The oil and natural gasoline companies have put hundreds of men at work in recent months. Every carbon black company is working its plants 24 hours a day. "The short work-day is here to stay," industrial leaders declare.

No 30-hour week could be devised in the Borger district now because there would be no living quarters for the extra men and their families. Many families are living in shacks. It is a common sight to see a late model automobile standing outside a tumble-down shack. Often the shack is that only from outside view. It may contain an electric refrigerator and a radio. It is the temporary home of a family until better quarters become available.

About 700 kinds of butterflies are found in the United States.

## The Town Quack

(Reserves the right to "quack" about everything without taking a stand on anything.)

and characterized by logic, but can he tell us why pig dogs disappeared?

Personally, we think the buff cochin faded out because it was the German carp of poultry.

'Tis the entrancing time to make a garden. And it is terrible how a boy hates to work in a garden.

One time we saw a boy working in a garden, and we asked him, "How much do you get for hoeing?" "Nothing if I do and hell if I don't," he replied.

During the World war a local man was a pacifist.

"The swords should be beaten into plow shares" he often cried. "But since peace was declared he has consistently refused to follow plow shares."

Last Saturday three farmers offered jobs to the old loafer and he turned them all down.

Men are unreliable. Yes, all of them.

Many a man has promised to buy a can of fish worms to our desk, but many a worm have we seen.

This world needs more integrity.

### Harold Teen, Famous Cartoon Strip Hero, In Film at the Ritz

The characters of Carl Ed's famous comic strip, "Harold Teen," known to millions of newspaper readers, will be brought to life on the screen of the Ritz theatre today and tomorrow in the Warner Bros. picture of the same title.

A hilarious story with exciting incidents, painting the joys and sorrows of Young America, is said to have been incorporated in the screen play which was written around the characters by Paul Gerard Smith and Al Cohn.

Hal LeRoy, Broadway stage star of musical comedy shows, was sent to Hollywood by Warner Bros. especially to play the title role. He is said to be typical of the Harold Teen of the comic strip. In addition to enacting the lover's role, he does some of the specialty dancing for which he is famous.

Supporting LeRoy are such well known players as Rochelle Hudson, Patricia Ellis, Guy Kibbee, Hugh Herbert and Howard Cavanaugh. While the picture is not a musical there are several spectacular numbers, with music and lyrics by Irving Haffal and Sammy Fain. Murray Roth directed the picture.

St. Simeon Stylites, the Syrian ascetic, built for a pillar 60 feet high and then, for the good of his soul, sat on top of the column for 30 years without once descending.

### DEVELOPMENT OF MACHINERY ASSURES PLENTY IN MIDST OF UNEMPLOYMENT

**EDITOR'S NOTE:** The following is the last of a series of articles written for The Reporter-Telegram by Max Agress, vice president of the Texas Potash corporation.

Within the short span of fifty years we have crowded in this country productive machinery, and have developed our natural resources, transportation, energy and power, to an extent that those now employed could in a four-hour day and a four-hour week and forty-week year produce enough to maintain our entire population on a standard of living that mankind has never dreamed of before. For the first time in the history of man we have achieved through the development of the machine an economy of plenty in the midst of unemployment. Why do we shut our eyes to the truth that man and machine can not work on the same basis? The machine can out-run him and out-work him. The machine is better and cheaper, more accurate, more reliable than man. There is not much need for the toil of men, but this instead of being a cause for lamentation should be the greatest cause for joy and thanksgiving to the Almighty for man's emancipation from drudgery. Let us hail with prayers on our lips the blessing of the machine, which lifts the burden of toil from the backs of men and gives man the freedom and leisure he has been wanting since he left Paradise. The question is: How can we find work for all the workers of this country, when we have an over-supply of everything? The answer is: If there is less work to do then the laboring day must be cut down so as to divide the work to be done among the workers who

are willing to work, and if an eight-hour day is too long, then a five or three-hour day, and a five-day week, with pay for full time. Those who own the machinery and the capital can make no better investment than to put the workers back to work on a shorter day schedule, with pay for full time, until purchasing power is restored and normal consumption is resumed. Then the laboring day may be lengthened to strike a balance between supply and demand. If such a system of adjusting the laboring day to the amount of work to be done, and allowing the machine to cut down hours of work instead of cutting out man from work, would be adopted, the improvement of the machine would only reduce the hours of work, not the worker, the inventor, the scientist and the artist to a life of poverty, and want because he has lifted the drudgery from the backs of men, and thereby lifted himself out of employment, the "means" to gain a livelihood. A survey of the work that lies ahead of us in this country will give sufficient cause to look into the future with confidence, and if this new work and rebuilding which must be done is properly handled and the benefits of this production better distributed, there is every indication that this country is headed for an era of prosperity that will make 1929 look like a depression year by comparison. Our primary consideration is to do away with unemployment by shortening the laboring day without shortening the purchasing power, and even increase it. The question is: Who will pay the difference of a four-hour day's work on a schedule of eight-hour pay? The answer is: The same public who now pays for unemployment by less income, by greater giving, by charity, both private and government. Where does the money come from now to keep the unemployed? From the people, through taxation, through charity, through forced giving, all of which is taken out from the day's earnings, but in a way that it ruins our moral, hurts our pride, and lowers our level as men. If working days were cut down without cutting down the day's earnings, this must immediately make for reemployment and greater purchasing power, which will bring about a greater consumption and create a greater demand; greater demand will manifest itself with electrifying rapidity in better profit, in higher prices of raw material, of farm products, of land, of buildings; the cycle of gloom will have spent itself, and what is more, by adjusting the length of the laboring day to needs of production through governmental agencies trained and capable for such direction, chosen not on the basis of demagoguery and politics, but on the basis of proven ability and knowledge, we will indeed emerge from this chaos into a better, more sensible world, where human happiness, and not human suffering, is going to fill the life of man. Our president is on the right track, his leadership so far has only one goal, security and the happiness of our people and the preservation of our liberty. Let's cooperate in this effort, not as Democrats or as Republicans, or as any other political brand, but as American citizens, working for the common good of our common country.

At Potsdam, Germany, is a school for shepherd dogs; it has turned out 1,000 animals as guides for German veterans who lost their sight during the World War.

### Haltom Recognized By Contest Award

As an award for having won third place among 60 dealers for the sale of GE Mazda lamps, George Haltom, Midland manager of Peary Brothers, Inc., has been advised by Tennant Brothers of Dallas he will receive a GE Telechron clock. His sales methods have been asked, the company hoping to pass his sales campaign plan along to other dealers.

# Make sure their food is fresh and wholesome-

## with time-tested and home-proven ELECTRIC refrigeration

When you buy food for the family, you take care to select only the freshest and most wholesome foods. You trade with a store that has modern refrigerating facilities, so that you will be sure the food IS fresh and wholesome.

But—are you as careful after this food is in your home? Science has proven that food should be kept at a temperature of 50 degrees or less if bacterial growth is to be properly retarded. With an ELECTRIC refrigerator, you can rest assured that food for the family will be kept as fresh and wholesome as when you bought it.

Don't Miss The Reporter-Telegram Electric Cooking School—Hear Mrs. Warren As Often As Possible.

## Panhandle Business Reactions Improved

PAMPA (AP)—Business reactions in this part of the Panhandle are much improved.

A snow which left 1 1/2 inches of moisture in the wheat belt will mean the possibility of a crop of nearly normal proportions if there are rains between now and harvest. The wheat farmers are smiling and business men have renewed faith in what has been a drought area for two years. Federal wheat land rentals also are helping.

Cattlemen look for the domestic allotment plan to give them vital assistance in marketing. Cotton plans have raised the price of cottonseed cake fed to cattle, and increases in price of corn have been a blow to feeders. Cattle as a basic commodity will provide the first help from the government.

Basically, business in the Pampa area reacts most noticeably to oil development. Drilling is increasing rapidly, particularly in eastern Gray and western and central Wheeler county. Several oil companies have granted small wage increases. More than 600 men still are dependent upon drought relief projects but business as a whole is the best in more than a year.

Odessa Oilers Win Two Games in Week

ODESSA, April 17.—Starting this season with a 12-2 win over the Midland Indians, the Odessa Oilers, Permian basin league leaders, last year, defeated the Cosdon Oilers, Big Spring Highway Eighty leaguers 16 to 5, Sunday afternoon.

Lefty Briggs held the visitors to eight scattered hits and got two for himself, one a long homer that scored Rip Hinson, Wharton, Odessa and Baker, Cosden, also hit for the circuit. Out of six trips up, White, Odessa first sacker, had four timely hits.

Chet Fowler, former Texas leaguer, played a nice game at first for Big Spring and Miller Harris, Cosden outfielder, connected for two doubles out of four times up.

More than 1500 different types of automobiles have been produced in the United States, but only about 30 survive.

YUCCA TODAY ONLY 10-25c

WED. ONLY! 10-15-25c JAMES DUNN CLAIRE TREVOR In "HOLD THAT GIRL"

Oil Field Beginning Where Indian Boys And Girls Played

ADA, Okla., (AP)—Where Chickasaw Indian boys and later girls, once studied and played there now is the flurry and noise of an oil field development just beginning to get into full swing.

Ten miles southeast of Ada, Collins institute, a national boarding school of the old Chickasaw nation, had a part in training Indian youth from 1887 to 1905. The school was established by act of the Chickasaw legislature and named for J. D. Collins, Methodist minister who sponsored the bill through the legislature.

Originally the institute was a manual labor school for 40 boys but later it was converted into a school for Chickasaw girls who were taught the equivalent of the high school curriculum of that day, with training in the domestic arts and sciences added.

Many former students of the school still live within a radius of 50 miles of the place where the institute nestled in a quiet valley protected by hills on the northwest and by the range of the Arbuckle at the south.

The Manahan oil producer in 18-2-7 is on the crest of the hill overlooking the one-time school campus from the northwest. Around this well and just to the south are a dozen rigs or locations.

Frigidaire Sales Volume Mounting

DAYTON.—March sales volume of Frigidaire corporation, world's largest manufacturer of refrigeration and air conditioning equipment showed an increase in every classification of the business of this General Motors division, it was reported today by E. G. Blocker, president and general manager.

Household refrigerator sales to purchasers were 432 percent higher in March than in February, Blocker stated, and 184 percent higher than in March of last year. This tremendous sales gain, he said, proves the better financial condition of families that is being registered in every section of the country, in both urban and industrial localities.

Sale of refrigerating equipment to retailers of foods and beverages, to ice cream retailers and to business concerns requiring water cooling facilities increased 71 percent in comparison with the same thirty day period a year ago.

Even sale of equipment for apartment houses, a source of business that has been very dormant for several years because of the cessation of building activities, showed an increase, Blocker said.

The corporation's newly formed air conditioning division showed a large gain in comparison with March, 1933, he said, indicating the new interest being shown in this field.

"With a field organization of more than 15,000 men reporting to its United States offices are fuller, than merchants' cash registers are seeing more money than they have in years, there can be no doubt that the American people, as a whole, feel a stability in their employment

PROGRAM OF ELECTRIC COOKERY

MIDLAND, TEXAS

April 17, 18, 19, 20, 1934

Mrs. Ethyl J. Warren, Director

SECOND DAY

CROWN ROAST OF LAMB Have 12 to 15 ribs of lamb arranged and tied into a crown, trimming the bones carefully. Fill center with mixture of ground beef and lamb trimmings, well seasoned. Wrap bones in thin strips of salt pork, or insert each in a cube of fat to prevent burning. Roast 2 hrs., at 350°.

NEW POTATOES WITH PARSLEY Scrape new potatoes and remove eyes. Place in cooking utensil with 1/2 cup water. Cover tightly. Steam until tender. Dip potatoes in melted butter and sprinkle with finely chopped parsley. Arrange on platter around roast.

CREOLE PEAS 2 lbs. peas 1/8 tsp. thyme 4 tsp. butter 2 small pieces celery 2 tsp. sugar 1 small head lettuce 1 small onion Place in covered utensil and simmer until tender. Remove lettuce, celery and onion. Season with salt and pepper.

THRIFT COOKER ECONOMY DINNER Select a 4 lb. arm roast. Preheat cooker 5 mins. Roast may be browned in cooker or in skillet in 2 tsp. fat. Place in cooker, add seasonings and vegetables. Cover and cook on high heat until steam appears. Turn heat to low and cook until meat is tender. Add pudding last hour of cooking.

COTTAGE PUDDING 1/4 cup butter 1 1/4 cup flour 1/2 cup sugar 2 tsp. baking powder 1/8 tsp. salt 1/2 cup milk 1 tsp. flavoring 1/2 cup milk Cream butter and sugar. Add beaten egg. Sift flour and measure. Sift again with dry ingredients. Add alternately with milk and flavoring. Turn cooking time short and place over roast, on perforated rack. Turn current to high again until steam appears at vent. Continue steaming 1 hr. on low heat. Serve with lemon sauce.

SOUTHERN SPICY GINGERBREAD 3/4 cup brown sugar 2 1/2 cups flour 3/4 cup melted shortening 1/2 tsp. baking powder 3/4 cup molasses 1/2 tsp. cloves 2 eggs beaten 1/2 tsp. nutmeg 1 cup boiling water 1 1/2 tsp. cinnamon 2 tsp. ginger 2 tsp. soda Mix sugar, shortening, and molasses. Add well beaten eggs. Sift flour and measure. Add all dry ingredients and sift 4 times. Add to mixture, beating well. Add boiling water. Pour into 10" square pan, well greased. Bake 45 min. at 350°.

VEGETABLE MOULD 1 pkg. lemon jello 1 cup celery chopped 1 cup boiling water 1 cup cabbage chopped 1 cup cold water 1/2 cup sweet pickle chopped 1/2 tsp. salt 3 tsp. green pepper chopped 2 tsp. vinegar 3 tsp. pimentos chopped 1/16 tsp. red pepper Dissolve jello in hot water, add cold water and let cool. Mix all other ingredients and add. Pour into molds and chill in refrigerator until set. Serve on lettuce with mayonnaise.

VANILLA ICE CREAM 2/3 cup Eagle Brand 2 cups cream 1/2 cup water 1/4 tsp. vanilla 1/4 tsp. vanilla Whipped stiff Mix condensed milk, water, and vanilla. Pour into tray and allow to chill thoroughly. Whip cream stiff and fold in first mixture and return to tray. Freeze until mushy. Stir well and continue freezing until hard. About 2 1/2 hours.

STRAWBERRY PIE 1 baked pastry shell 4 tsp. granulated sugar 1/2 cup strawberries 4 tsp. powdered sugar 2 egg whites 1 cup cream—whipped Make a meringue of whites and granulated sugar. Spread over cold baked shell. Over this slice one half of the berries and sprinkle with 2 tsp. powdered sugar. Whip the cream stiff and fold in remaining powdered sugar. Spread over berries and decorate with remaining berries, left whole. Store in refrigerator until chilled.

ORANGE SPONGE CAKE 7 egg yolks 1 1/2 cups sugar 1 1/2 cups orange juice 1 1/2 cups flour 1 1/2 cups sugar 1 1/2 cups flour Beat yolks with cream tartar until stiff. Carefully fold in sugar. Combine with egg yolk mixture. Fold in flour, which has been sifted and measured, and sifted again three times. Pour into ungreased pan. Bake 50 mins. at 350°. Invert and cool. Ice with orange icing.

and their incomes that has not been apparent for almost five years," Biechler said.

"Our household sales volume has been gaining so rapidly for months that most departments in our manufacturing plants now are on a three shift basis, but sales gain in the division supplying equipment to other business men reflects the increases food and beverages retailers have been enjoying and is a pretty sure key to the present condition of the country."

Biechler said that every one of the corporation's forty-four sales districts in the United States showed higher percentages of sales.

George Frederick Handel, great composer, completed "The Messiah" in 24 days and never realized one penny on it.

hold water for stable needs. Hunter already has shipped 16 thoroughbreds here, including "Stratosphere," a five-year old stallion formerly owned by the Waggoner Three D stables at Arlington Downs. With him, came 15 registered brood mares, being cared for at a neighboring estate, the Seagraves ranch, until the Hunter project is finished.

Three recently foaled colts have increased the 16 animals first brought here. Among the fillies Hunter has sent here from Epsom Downs, Houston, are "Brookstone," "Primrose," and "Milepost." Elmo Wilson, young Kerr county rancher and horseman, has been made manager of the Hunter stables.

J. A. Nix and Hunter, associated in breeding and racing thoroughbreds, also are partners in the ownership of 30,000 acres of range land near the new stables. The site of the 12-room, two-story residence in connection with the stables, is a 90-foot bluff overlooking the north fork of the Guadalupe river, near its headwaters. The home will be 104x76 feet. An eight-foot dam will be built across the river.

MUSICAL DEBUT AFTER 60 YRS. CLEVELAND (UP)—Frank Alderman, 76-year-old musician of New Lynn Station, O., had been playing the dulcimer for 60 years before he ever made a public appearance. His debut came in a radio program here.

VILLAGE 100 YEARS OLD MECHANICSBURG, O. (UP)—This Ohio village has just celebrated its centennial observance. An entire week was devoted to a community celebration of the town's progress and freedom from financial difficulty.

SIX ESCAPE INJURY AVON, Conn. (UP)—Six persons in an automobile plunged over a 65-foot embankment, extricated themselves from the wreckage, and after a hasty check-up found no one was injured.

STORK LOST THIS RACE HARTFORD, Conn. (UP)—The stork doesn't always win the race. An eight and one-half pound baby was born to Mrs. Michael Dellapina while she was being taken to a hospital in a taxicab.

PAID 173 MURDER CLAIMS BOSTON (UP)—The John Hancock Mutual Life Insurance Company during 1933 paid claims for 173 persons who were murdered. It was a new high for murdered policy holders.

Remember it is not necessary for you to have card corresponding to your stub in box for tonight's award. Your identity and presence is all that is needed!

Doors Open 6:45 COME EARLY On Screen Today & Wed. "HAROLD TEEN"

And all of his comic page pals, brought to life in a peppy collegiate musical comedy.
