Old Glory Marches to New Milestone

Waving triumphantly through the years, the Star Spangled Banner has been an inspiatiron to Americans since its birthday on June 14, 1777. Below: A group of war

veterans featuring Old Glory in a patriotic parade. Above: U. S. Marines are shown raising the Stars and Stripes at a tropical outpost in the West Indies and

Graham McNamee will describe the fight from the ringside. The fight will start at 8 p. m., Midland time. WBAP is a representative station.

In addition, short wave broadcasts will be made in Spanish to South American countries and in Italian to Italy.

displaying the National Flag and their regimental colors while or parade in China.

HOLLYWOOD NOT INTERESTED IN BIG

Refund Is Refused

missioners court was busy Wednesday approving bills which must be paid by George Bond, county treasurer, and at the same time the commissioners.

HOLLYWOOD, June 14. (uP)—Maxie Baer, who thinks himself are a screen actor, can win, loss to fine the paid for his services during the remainder of the year.

The count announced Wednesday that a request filed with J. A. Mother of the year.

The count announced Wednesday that a request filed with J. A. Mother in the late county treasurer, J. M. Harper, for the return to the county of \$1.315 which he had received on his \$2,000 annual salary and which was termed unearned, had been received by plans to file suit at once to attempt to recover the \$1.315. The catate administrator held to the opinion that the treasurer had justly laken his stairy from the fees cordance with the law and was entitled to the full salary thereby deducted although he had served only a fraction of the year.

A successor to the words was demanded to the board stellar who had been received by the commissioners. The county resource that the first left received the state of the county of state administrator held to the opinion that the treasurer had justly laken his stairy from the fees and the state of the state of the point of the county resource with the law and was entitled to the full salary thereby deducted although he had served only a fraction of the year.

A successor to the county resource where the first left is the point of the point of the county resource which he had received on his \$2.000 annual salary from the fees and the point of the county resource where the first left is the point of the county resource where the first left is the point of the county resource where the first left received the state of the county resource where the first left received the state of the county resource where the first left received with the law and was entitled to the full salary three by decided administration to state the point of the county resource where the first left received with the law and w

today by the commissioners. They expected to confer with other members of the board before naming another in Johnson's place. Johnson had been chairman during the period of his service.

45-cent Spread on Hay Paid by the Midland Farmer

Maybe this is one reason why farmers forfeit their land for non-payment of taxes.

A Midland farmer paid 50 cents a bale for hay grown on the farm of his Coleman brother-in-law. The hay, mixed sheep oats and johnson grass, brought the Coleman farmer 5 cents a bale!

The 45-cent spread was listed thus: 10 cents to the one who baled the hay and 25 cents to the man who trucked

To make money on his hay the Coleman farmer would have to buy a bailer and a truck—but his credit would not allow such investment, not after having sold hay in the past for such trivial sums.

POSTAL ROBBERY IS INFUSED INTO FORT WORTH CASE

Stevens Faces Charge Of Murdering H. Rutherford

FT. WORTH, June 14, (U.P.)-The state today brought last year's \$72,000 postal robbery into the trial of O. D. Stevens, charged with the willing of Harry Rutherford, one of three men whose bodies were found in the Trinity river.

Weldon Routt testified that Stevens had planned to keep a part of the loot, which the state claims was the motive for the slayings by other members of the alleged gang

RELIEF DIRECTOR DRESDEN VISITOR

Miss Marie Dresden, director of the Texas Relief commission, Win-throp D. Lane, special engineer with the federal administration, Washington, D. C., and J. Howse, field representative of District 5, visited Midland late Wednesday in connection with a visit to the drought stricken area of West Texas.

Texas.

Miss Dresden and Lane landed at noon at Big Spring aboard two Texas national guard planes from

Texas national guard planes from Austin, piloted by Lieuts. G. C. Gifford and L. E. Hobbs, whose bases are at Houston. Howse, Fort Stockton man, met them at the Big Spring airport.

Miss Dresden said the inspections are being made to determine the amount of need of relief for drought stricken sections in this area in terms of the recent designation of 16 counties for "secondary" relief. The counties are Midland, Borden, Cochran, Dawson Ector, Gaines, Howard, Loving, Martin, Reevs, Scurry, Terry, Ward, Winkler and Yoakum.

Miss Dresden and Lane are to Ify via American Airlines plane Friday to Fort Worth.

As exponent and sponsor of specialized relief programs for the special programs for the special progra

He has been in boy scout work since he was 14 years old, and now is commander of Troop 84. He has been teaching mechanical drawing at Austin high school and likes to build houses.

During the World war he was in the navy.

Wimberly has been teaching in El Paso 10 years. Before coming here he was principal of a school in Eliasville, Tex.

"I am sure I can get along fine with the boys at Bowie," said Wimberly.

"I predict that Bowie will have another winning football team next year."

\$750,000 Fine

Because Jenny Dolly (above), of the famous dancing Dolly twins, was chaged by French authorities of evading payment of a luxury tax on a diamond ring, a Paris court has fined her \$750,000. "I was the biggest hit in France and now I get the biggest fine," said Miss Dolly. "Not so fine!"

DALLAS, June 14, (U.P.)-Richard Rehm denied at his murder trial today that he fired the shots which killed Patrolman Bell May 18. He said Bell himself held the trigger when the gun discharged during a scuffe as Bell tried to arrest him. WASHINGTON, June 14, (U.P.)-The White House denied in a formal statement today reports that Roosevelt asked General Hugh Johnson to withdraw from steel strike negotiations.

WASHINGTON, June 14, (U.F.)—A general default on the June 15 war debt installments was virtually asured today when Italy, Poland, Roumania and Hungary notified that they would default.

Late News

FT. WORTH, June 14, (U.P.)—A bronze plaque inscribed with poetry is being made for Bonnie Parker's Dallas grave. The inscription reads "as the flowers are all made sweet-er by the sunshine and the dew, so this old world is made brighter by the lives of folks like you."

WASHINGTON, June 14, (U.P)—Rear Admiral Joseph Taussib said today that papers and chemicals taken from baggage of a chemical engineer killed in the airplane crash in the Catskill mountains contained no naval secrets. FT. WORTH, June 14, (U.P)—Howard W. Peak, first child born in Fort Worth, today celebrated his 78th bithday.

AUSTIN, June 14, (U.P.)—The Ferguson Forum, weekly publication of James E. Ferguson, former governor, and supporter of unions, appeared today without the union printing label because of a strike at the shop where the paper is published.

ANIMALS DUMB? NO!

The average man or woman who likes animals and is convinced that his or her pet understands a half dozen familiar commands may be surprised to learn that several "animal dictionaries" have been written.

Gabriele D'Annunzio, the Italian poet, has announced that he will include a complete glossary of the canine

that he will include a complete glossary of the canine language in his new book, "Lives of Illustrious Dogs."

The book is to be modeled after Plutarch's "Lives."

Other animals whose vocabularies have been recorded are the monkey, the horse, and the cat. An American woman, Miss Blanch W. Learned, was responsible for classifying 32 terms of the chimpanzee, together with the meaning of each. Other scientists have tabulated 12 "words" of the marmoset language and 14 of the gibbon's.

The horse is said to speak with "six words and three kinds of neighing." Cats produce 15 sounds, according to the experts, each with its distinct interpretation. There are 12 "words" in the hen's vocabulary and 5 in the rooster's.

Something awful.

An economist is a man who talks in terms of billions but who can't raise \$10.

When the bridgeroom makes a remark and pins wife gives that funny little tee-cold simle women have in storage for lasbands, and then the bridgeroom gives her a scared look, that settles it—their honeymoun is over.

A blind man of Charleston, W va., shot and killed his wife one day this week. "I could not see her to the experts, each with its distinct interpretation. There are 12 "words" in the hen's vocabulary and 5 in the rooster's.

From all this it seems that it is high time that the

is used only by Firestone. Every fiber of every cord in every ply of the tire is saturated

and coated with pure liquid rubber; there are eight extra pounds of rubber to every 100 pounds of cotton cords. This is the most valuable rubber that goes into the tire, but

you pay no more for it. It is your assurance of extra safety, extra blowout protection.

Firestone High Speed Tires withstand the terrific racing speeds because they are built with Gum-Dipped high stretch cords which provide an extra margin of safety. This

extra margin of safety is built into the Firestone High Speed Tires that you buy from

between the body and the tread. As a result of this patented process of Gum-Dipping

Firestone engineers have been able to build a wider tread of flatter contour, with more and tougher rubber and deeper non-skid, giving you more than 50% longer non-skid

CONSTANCE

T.&P. Offers Low Fare to New York

If one needs an incentive to go places and see things this summer, he will find it in the extraordinary low railroad fares offered now Commenting on "the little money it really takes now to go where you have always wanted to go," Frank Jensen, general passenger agent of the Texas and Pacific railway, pointed out that the person who had always wanted to go to New York could get a round trip ticket from Midland for the unprecedented low fare of \$64.85 children half fare.

These tickets, Jensen explained, are good in sleepers as well as coaches, and the usual amount of baggage may be taken along. Stopovers are also allowed at all points.

Tickets at this special low fare to New York and return will be on sale June 16 and 17. Return limit is twenty-one days.

Personals

Mr. and Mrs. Ward B. Chapman moved back to Midland today from Sanger. He will be connected with the Ford company.

BIG SPRING.—Unless weather runs in twenty six vear cycles, this county is due to get more rain this year than last.

Rain records since 1900 show that rarely ever does one drought year follow another. The one exception was in 1917 and 1918.

In 1917 only 4.68 inches of rainfall visited the county. The following year was much better but the part year was much better but the part year on the parched area. The next year completely broke the spell with 34.01 inches, second greatest rainfall since 1900.

The 1933 drought here was not nearly so acute as the 1917 drought. Last year total precipitation amounted to 11.29 inches but a great part of it fell after cotton planting time had past. This year thus far, has been a repetition of 1933, but if the weather chart runs true to form, this county is to receive additional precipitation.

Rainfall for the past 34 years follow another. If one needs an incentive to go

Mr. and Mrs. J. Dreves are re-turning to Midland from Austin. He will do sheet metal work for Howe

to carry on relief in this state. In the event the funds relating to rural school extension are received, as expected, this will increase the total fund acquired by Miss Dresden for Texas to the total of a million and a half dollars.

Such are the accomplishments of sixty days in office!

Drought Destroys

LAREDO (A)—It is estimated that 60 per cent of the 1,000 or more acres of corn planted in Webb county this season has been destroyed by the drought and severe hot weather. Many fields that a month ago promised a heavy yield are now yellowish, dried stalks, which are being stacked for fodder. Corn planted early this year made a good crop as a result of rainfalls during February, Mach and Apil, but corn planted later, which repesented the greater part of the crop, perished.

After years of efforts to rid their land of a species of cactus known as the spineless prickly pear, South African farmers have begun to cultivate it for stock food in dry

Weight Reduced From 180 to 137

"Wonderful," She Says

Here's to-day's story of a woman who knew she carried too much fat and decided the right way to get rid of it—just a few words that wise fat folks should heed-worth

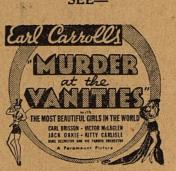

"I use Kruschen Salts to reduce. It's wonderful. Take it daily and eat what I want and still lose. I did weigh 180, now 137. Want to get down to 125." Mrs. Leonard Bass, Ft. Atkinson, Wis., Feb. 6,

When you take one half teaspoonful of Kruschen in a glass of hot water—you not only lose in weight but you put healthy activity into your whole body—you feel younger and look it—get it at City Drug Store or any drugstore in the world. (Adv.)

Webb County Corn Tax Savings Account Law Will Be Sought

DALLAS. (A).—A state law permitting tax collectors to open savings accounts for tax funds similar to Christmas savings accounts carried by banks, will be sought by Tax Assessor Ed. Cobb, county tax assessor, at the next session of the legislature, he announces.

Cobb, who is president of the Texas Tax Assessors association, has contacted several candidates for the legislature and finds them sympathetic with the idea.

"The tax collector is a bonded

"The tax collector is a bonded officer but under present laws he is not authorized to carry such accounts. Neither is he permitted to

receive partial payments of taxes, except where half payments of taxes, except where half payments semi-annually are allowed.

"Under the savings account fund tax payers would be given a pass book on request. During the year they could pay into the fund when they had money to spare. When taxes come due they could check out their deposits, add to them if necessary, and pay their taxes in full. The same arrangements would permit delinquent tax payers to pay their old taxes by installments.

"Deposits received by the collector could be placed in a special trust fund in the same manner he handles other trust moneys."

Read the classification.

Five - sevenths of the estimated coal reserves of the world are in North America. More than half of the bituminous coal of the world is in the United States.
