House Votes Down a Proposal to Shut Down Saturday

AUSTIN, ept. 4, (U.P.)—Texas representatives today voted down the senate proposal to fix Saturoay night for adjournment of the special relief session. Before being killed, the senate proposal was ridiculed before the house.

With the proposal for adjornment ended, both houses resumed the relief ingelifies. Relief Commissioner Jack Reed of Mountain Home continued on the senate stand. The house heard J. T. Drake, special auditor, detail relief expenditures and the cost of administration.

Senate relief inquisitors found Reed a difficult witness. Question after question was asked in an apparent effort to force the admission that Miss Marie Dresden, former Texas relief director, was a "transient rolling stone."

Reed testified that he believed political motives prompted Miss Dresden's removal but declined to admit that political motives also were responsible for her election as director. He refused to disclose the source of some of the information given in his testimony. With the proposal for adjornment

have left their jobs.

In New England it was estimated that the strike was 45 per cent effective and communist agitators temporarily were quieted. Violence flared up in Georgia and the Carolinas and pickets were active.

Only 25 per cent of the Georgia workers were reported out. More than 100,000 in the Eastern Pennsylvania area struck but 60,000 refused to join the walkout.

Strike leaders claimed the strike to be a "tremendous success" already. Francis J. Gorman, strike chier, predicted that 300,000 nonunion workers would join the walkout by the end of the week and bring the industry to a shut down.

## \$15,232 SETS

Receipts Monday of \$15,232, representing five contracts, established a record for funds paid here in one day during the government emergency cattle buying.

The total money received was boosted to \$86,535 for Midland county, representing 264 applications. On these 264 places there are 49,610 head of cattle left, 7,935 cattle have been appraised and 1,601 condemned, leaving 6333 that have been shipped.

HOUSTON, Sept. 4. (U.P.)—Textile strikers and non-union workers fought the first battle today at the gate of the Houston textile company. Women dived into the scramble, scratching and pulling hair.

The fight started when 30 or 40 men and women tried to push their way through about 200 union workers who blocked the gate.

A few minutes previously, both the president of the Houston local of the United Textile workers and the mill manager made a plea for peaceful handling of the situation. Several bore marks of the fight but none was hurt seriously. None gained entrance to the mill.

## NO BLOODSHED OVER LABOR DAY

WASHINGTON,, Sept. 4 (P)—Reports of bloodshed were absent as the nation finished the first day of the textile strike, but troops were ordered to duty in South Carolina in apprehension of what the morrow may bring.

Claims of industry and labor as to the resudts of the strike order were at variance. Francis J. Gorman, chairman of the United Textile Workers strike committee, said he was "more than pleased" by preliminary reports while George A. Sloan, president of the Cotton Textile Institute, said only 31,000 of the south's 145,000 mill hands were on strike.

Some 200 southern mills were idle, but of this number it was esti-mated that not more than 100 were closed by pickets. Some observed the Labor day holiday, others closed rather than face possible dis-order from pickets.

DARING HOLDUPS PROVE WE ARE UNSETTLED

That \$427,000 Brooklyn holdup, aside from being one of the most spectacular and lucrative robberies ever committed, is one of those things that make a man sit down and wonder nervously just where we are heading.

A bit of violence of this kind is not simply a corner filling station holdup magnified to the nth degree. It is in a class by itself; a brazen defiance by lawless elements who have reason to feel that they can operate with immunity.

Things of this kind usually happen in one of iwo kinds of society: in a wild and lusty frontier community, where everybody is on the make and where the energy and vitality of the mass of people are so great that they buildle over into criminal outbreaks, or in a land where the processes of government are in decay.

They are phenomena, that is, either of a society that is to full of get-up-and-go to be entirely law-abiding, or of a society that is drifting aimlessly down a long slope.

The president of the local Rotary is a solution of the processes of a society that is drifting aimlessly down a long slope.

Centennial for

Davis Mts. Urged

PECOS.—Pecos, joining with other towns of this section, hopes to have Fort Davis and the Davis mountain section designated as one of the minor Texas Centennial points in 1936.

Plans for participation of this section in the great Texas patriotic festival were made at a meeting of the Reeves county centennial committee held Wednesday at the chamber of commerce offices. The committee went into permanent organization, electing Jack Hawkins as chairman and H. P. Davis as secretary. The other committee members are Mrs. J. E. Starley, Mrs. Tom McClure, Mrs. Clarence Bell and Ray Lewis.

Letters are now being prepared asking representatives from Fort Davis, Alpine, El Paso and all other towns of this section to a conference at which time definite plans for the observance in this section will be formulated. Meantime, a summary of the plans are being sent to the Texas Centennial News, in order that some preliminary publicity may be afforded.

"Fort Davis is the ideal loca."

not afraid. There isn't anything
more they can do to us than they
have done." Her wages have been
reduced from \$20 a week to the
government minimum, \$13. She
says it is because she is suspected
of belonging to the union.

"Fort Davis is the ideal location for a centennial point," said the Reeves county chairman. "First it is steeped in history, both from the Indian occupation and the Spanish. Second the old fort remains as an unusual replica of the past. Third, the state will have a mountain playground completed by 1936 and good roads should be connected through the section by that time."
