HOME REPAIR ASSISTS LABOR AND INDUSTRY

Every time a jobless member of the building trades is put to work, a family of four persons is taken off the public relief rolls.

This is the estimate of the Federal Housing Administration; and it emphasizes only one angle of the important new housing drive which the government is inaugurating.

Eighty per cent of the building trades workers are out of jobs, according to A. F. of L. figures. Many of them have been out of work for years. In a dismaying number of cases, the task of keeping them and their dependents from starving has had to be shouldered by the government.

If it had nothing else to recommend it, then, the housing campaign offers a chance to attack the problem of unemployment on one of its most difficult fronts.

And yet that is only part of it. You need more than workers to build or repair a house. You need materials—lumber, cement, bricks, nails, shingles, hardware, electric fixtures, plumbing fixtures, and so on.

Every contract that is let for construction or renovating of a dwelling is a stimulant for the industries which make and sell those commodities.

These things need to be carried from the site of manufacture to the place where they are to be used. Railroads, barge and steamship lines, trucking concerns—all these will share in the revival that comes to the industries involved in rehousing.

Then there is the idle money in the banks—money which lies a dead weight when it is not working. Rehousing means loans; loans which, in this instance, bear moderate interest rates and are guaranteed, up to 20 per cent of their face value, by Uncle Sam himself, and which require no collateral beyond the borrower's ability to pay his monthly installments.

Such loans mean that this idle money goes to work, to help spread prosperity across the nation.

Lastly, there is the householder himself. Perhaps he owns a lot, on which he plans to build his own home when times are ripe; perhaps he already owns a home, and has deferred needed repairs during the hard depression years; perhaps he would like to do a bit of remodeling to bring his place up to date and give it a better market value.

In any case, the housing campaign is made to order for him. By taking advantage of it, he can help not only himself, but his whole community as well.

The campaign offers us a great opportunity. It gives us a great chance to revive the whole building industry. Once that is done, full recovery will not be far away.

PERFECT, IN THEORY

It will be interesting to see whether the Ontario legislature puts through the "anti-ransom" law suggested by Attorney General Roebuck. This official would have the police given authority to close the bank accounts, seal the safety deposit vaults, and otherwise supervise the finances of kidnaped persons and their relatives.

The idea of this, of course, would be to make the payment of ransom impossible; and in theory, at least, it is a sound program.

It is perfectly obvious that if you make it impossible for a kidnaped man's family to pay ransom, and apply the rule without fail in any and all kidnaping cases, you are going to take all the profit out of the crime—which of course, means that it will presently cease to exist.

The practical obstacles in the way of such a course, however, seems pretty big. It will be interesting to see whether the Ontario authorities are able, first, to get the law passed, and second, to make it work.

The real test will face Chancellor Schuschnigg of Austria after the hay fever season. Almost anyone can pronounce his name now.

Side Glances . . . . . by Clark

"Now remember, it's costing us a lot of money to send you to a school with such social advantages, so you must not just bury yourself in books."

TREASURE ISLAND

CHAPTER IX THE FIGHT ON THE MAST

As Jim began paddling out towards the spithead, beyond which he could see the lights of the Hispaniola, the drunken voices of the pirates came to his ears. That meant only a few men were aboard the ship and probably no lookout was kept. As he approached the ship, he paddled very quietly. Once in the shadow of its side, he listened to the voices that floated down to him.

"Go on! Make your play!" Jim recognized the snarling and drunken voice as that of Israel Hands. It was the voice of William O'Brien which replied: "Let's talk. Silver's tangled everything, I tell you!"

"Stow your drunken gaff and play!" "I'm bent drunk, and Silver's a fool!" "You're the fool, William! And your face makes me fair bilious, it does!"

Jim heard sounds as of a fight, grunts, drunken oaths, a table crashing to the floor. Sure that no eyes would be watching outside the ship, the boy paddled softly to the bow and set to work cutting the hawser. The rope was thick and as he cut through the last strand he heaved back as it parted with a loud snap. The skin-boat upset, dumping Jim into the water.

He ran to the color lines and swiftly brought the Jolly Roger flapping down to the deck.

When he awoke it was broad daylight; the ship was pitching and rolling jerkily; the swishing of a boom and the hulling of flapping sails was loud in his ears. Jim rubbed his eyes in amazement until he remembered the events of the night. Then he got hastily up and peered through the galley windows. The island was about two miles away. The jib sails flapped and cracked. He heard a moan and looked down on the deck and saw Israel Hands propped against the bulwarks, holding his side and groaning. William O'Brien was stretched out flat on his back several yards away, his teeth showing in a ghastly grin in the sunlight.

Jim ran out of the galley to the lee of the after deck. It was covered with blood, a pool of it under O'Brien's body. Hands was holding his thigh with a blood-smeared hand, his jaw hanging weakly open. He opened his eyes at hearing Jim's footsteps.

"And where might you come from?" asked Hands. "I've come aboard to take possession of this ship," said Jim, bold as brass, seeing Hands helpless. "and you'll please regard me as your Captain, Mr. Hands, until further notice."

"Well, now, Cap'n Hawkins, and who's to sail her? Without I gives you a hint, you ain't the man as far as I can tell—"

"Well, I . . . I . . ." mumbled Jim, taken aback. "Now, look here," said Hands, "you give me food and drink, and an old scarf to tie up my wound with, and I'll tell you how to sail her. And that's about square all around, I take it."

"Done, Mr. Hands!" cried Jim, looking aloft. "But I can't have these colors, Mr. Hands—and by your leave I'll strike them." He ran to the color lines and swiftly brought the Jolly Roger flapping down to the deck. "God save the King, and there's an end to Captain Silver!" he cried, jubilantly, as he flung the piratical emblem overboard. "And now your wound, Mr. Hands."

When he had gone to the cabin for a bandage, Hands painfully and deliberately crawled along the deck until he came to a coiled rope from which he picked up a bloodstained knife and then dragged himself back to his original position, the knife concealed in his shirt front. Jim returned to the deck.

The Town Quack

Reserves the right to "quack" about everything with taking a stand on anything.

"Well, what makes him stop so often?" asked the exasperated farmer. "All that's the matter with that mule is that he is so afraid you are going to say 'whoa' and he won't hear you, he stops every once in a while to listen."

A cowpuncher Saturday saw the posters advertising the Oym revival and remarked: "Let's see when this rodeo is going to be."

A recent headline in this paper said Oym would "fight wolves and the devil" when he comes here September 26. If he gets half as much help at fighting the devils as he has offered in fighting the wolves this meeting will go over with a bang.

A man told me yesterday he had already quit drinking beer. He remembered how the Rayburn revival caused a lot of old timers to quit smoking and chewing, so he wants to take a short out on the beer.

Farm Exodus to Quemado Valley

EAGLE PASS, (P)—Farmers from the dry areas of West Texas are coming to Quemado valley, 12 miles north of here, in considerable numbers. They arrive daily in autos loaded with household effects and pitch crude camps near the center of the district and await turns to sign contracts for acreage.

P. O. Anderson, chief developer of the irrigation district, stated last week he sold 13 farm tracts in one day, a record for sales since the project was opened. All the land north of Quemado townsite comprising about 3,000 acres, has been sold and some 2,000 acres more have been disposed of along the Spoford highway. Clearing of land is under way in many places.

Houses are being constructed on several lots at Quemado, the district's only town, and tenants are living in tents on others pending arrival of material with which to build homes. The first pasture across which cattle once plodded to water tanks now contains a sizeable town with grocery stores, filling stations, garages, lumber yards, a blacksmith habit.

An old, old story is about Pat who worked on the section. Pat was killed by a train and Mike was chosen to break the news to his widow. He was told to do it gently and he went out to the house to see her. "Mrs. O'Rielly where's Pat?" he asked. "Sure, an' he's down at the track a-wookin'," she replied. "You're a liar—he's dead," said Mike.

Safety Pin Found In Dog's Throat

LUFKIN, (P)—A police dog owned by Justice Smith, local resident, some two weeks ago was stricken with an apparent strange malady.

Examined by a physician the dog was found to have "sore mouth." The animal's tongue had turned black and it was impossible for it to swallow food or drink water.

KILLED FOR A DOOR KNOB

UNIONTOWN, O. (UP)—A bulge in a big blacksnake puzzled Edward McClintock and Bert Long, so they killed the reptile. They found a white door knob.

THE OPEN DOOR

Take a Good Look at a HUMBLE STATION

ALL service stations are not alike. Humble Stations, for example, have been expertly designed to offer you complete and efficient service. They are kept clean and neat as a new pin; they are regularly inspected with the thoroughgoing methods of a good housekeeper. Still, we want to know what you—the practical buyer—think. So we extend this open invitation: stop and inspect a Humble Station. Then send us your opinion. It is our desire to please you, and to please you we must know what you want. We invite criticism, we invite suggestion; the door is open to both.

DEAD OF BASEBALL INJURY JEFFERSON, O. (UP)—Struck in the head last May while playing ball, nine-year-old James Bertram died here three months later of a brain injury. He had appeared perfectly normal in the meantime.

HE FOUND THE LEAK WATERBURY, Conn. (UP)—Anthony Mancini lighted a match to search for a leak in a gas pipe in the cellar. Fire apparatus arrived in time to save the house. Read the classifieds!

### MORE THAN 150 EX-SERVICE MEN

Midland county has more than 150 ex-service men living within its boundaries, it was disclosed in a survey recently conducted through the American Legion, the American Legion auxiliary, the department of child welfare and the department of health.

The information came indirectly when a child welfare survey was taken. An effort was made to ascertain the number of children 7 and under in families handicapped by physical misfortune and those in families low in the standard of living scale. A full report on the survey is promised for next Sunday.

Feed Middleton, ex-service man and an official of the American Legion, asks that any veteran whose name has not gone on the list be supplied him. The ex-service roll, as compiled by the recent survey, follows:

Tivis Rebel Abbott, John Emery Adams, Guy Franklin Aldrich, James Stacey Allen, Clifford E. Anderson, Orus Ben Baker, Elliott H. Barron, Fred (col) Bass, Thomas Lawrence E. Becham, Ben Schmon Bell, Wm. Vance Bennett, Charles Erwin Black, Archie G. Bohman,

Kenton S. Boone, Oliver Bosden, Bertram Brinson, Wm. L. Brown, Lucius Bryan, Ralph Townes Bucy, Wm. Frank Cain, Andy David Campbell, Lois Abijah Campbell, Wm. Blake Chapman, Joe Dawson Chambers, Wm. Henry Chewing, Ray Robert Coates, Lonnie (col) Coffield, Harvey Hill Conger, James M. Connor, Chay R. Cottrill, Hugh Corrigan, Joseph Gordon Crankill, Henry Slinger Currie, John Lee Dabbs, Don Carlos Davis, J. L. Dairies, Will (col) Dawkins.

Thomas E. Dozier, Julius E. Drives, Ben W. Dublin, Troy K. Eiland, Nevine Wesley Ellis, Earl Fain, Clarence Garrett Farris, David J. Finley, Thomas Bernard Flood, Joe Bishop Ford, Harold S. Forgeron, Eugene (col) Franklin, Wesley F. Gardner, Henry S. Glenn, Sam Green Gouley, Thomas Harvey Grammer, John Thomas Hamon, Henry Reynolds, Fred T. Gilcrease, David L. Green, Lionel Franklin Hall, Sidney Preston Hall, Henry Coke Haniador, Jessie C. Harmon, James Thomas Harris, James Gray Howard, Lewis Elmer Haynes, Bruce McKinley Hays, Wm. Frank Hejl, Tommie Med Herren, Elmer Alfred Hoffman, John D. Hall, Charlie (col) Jackson, Harrison Franklin Johnson, Paul Henry Jones, John Richard Joyner.

Otis Allen Kelley, Charles Wm. Keel, Luther Lee Kincaid, Clint Kuykendall, Raymond Y. Lewis, Albert Wilfred Lester, Claude Everett Lewis, Luther Glenn Lewis, Clarence B. Ligon, Otis Warren Ligon, Alvin F. Loskamp, Charlie John Lovkes, Fred Lantz, James Russell Martin, Walter Lee Martin, Ralph Dale McBrian, Sam Goode McLaughlin, Gus L. McLean, Howard Miller, McReynolds, Fred Gordon Middleton, Elliott M. Miller, Percy J. Mims, John S. Mitchell, Charles A. Mix, David Walker Montgomery, George Washington Montgomery, Howard Moore, Earl Joseph Moran, Dave L. Moran, Robert Cecil Myers, Harry J. Neblett, Horace Greely Newton, Charles Edward Nolan, James S. Noland, Harold C. Nyquist.

Wright L. C. Odell, Howard Alanson Palmer, Tom S. Patterson, Oswald Phillip, Henry Johnson Phillips, George Henry Phillips, Howard D. Pool, Carl William Post, Willey Powell, William Edgar Pigg, Irving J. Prager, Foy Proctor, Leonard C. Proctor, Alvin James Ramsey, Grover Cleveland Rans, James Edward Roberts, Wm. Frank Roberts, Charles Viggo Romer, Vergil Otto Sanders, Hollis L. Scarborough, Alvin F. Schaefer, James Wm. Seale, Joseph A. Seymour, Quannan Mozart Shelton, John Marquis Shipley, William Simpson, Erastus Burrows Soper, Ben Martial Stanley, Neal Dowell Staton, Charles Elmer Strawn, Louis Jefferson Stephens, Gerhard Paul Synaschek, Wm. Clayton Tatum, Wm. Francis Tedford, Thomas Earl Thorp.

Clair M. Thompson, Wm. Roy Tillman, Allan B. Tolbert, James Holton Truelove, Wm. Elmathan Umberson, Clint E. Vaughan, Ezra D. Ward, Franklin Delaney Ward, Sam Ray Weaver, George W. Wren, Fred A. Wemple, Tolle Wilson, Thomas Rayburn Wilson, Walter K. Wilson, Clarence M. Willis, Charles C. Wise, Edgar Rufus Wolfe, James G. Wright, Arthur W. Wyatt, Oscar Yates, Wilbur Arthur Yeager and John Bradford Zant.

Six American miles are equivalent to one Swedish mile.

### Red Raiders of Tech Loom as Powerful Team

Above are a few of the remarkable men Head Coach Pete Cawthon will attempt to groom into sufficient power to meet the heaviest schedule in Texas Tech's history. The Mafadors will go to the west coast for a game with Loyola, Texas U., Baylor and the Oklahoma City Gold Bugs in connection with a session otherwise sprinkled with games in their own conference.

Graduation has hurt the Scarlet Clads, but you know Pete Cawthon. T. H. Williams, the team's business manager was in Midland Monday.

### Second Dodo Made On San Marcos Links

SAN MARCOS (AP)—L. N. "Deacon" Wright considered his golf and found it good.

Playing at Spring Lake golf links last Wednesday with C. E. Chamberlin, C. L. Key, and Dr. Paul Milan, Wright stroked his ball a perfect stroke and the "apple" rolled up to the eight hole and disappeared.

It was the second do in the history for the layout, the first being swallowed by Coach O. W. Strahan of the Southwest Texas Teachers college Bobcats. Wright is professor of English in the college.

Because of the ball's non-slip 150-yard flight from tee to bucket, Wright received two cases of soft drinks offered as prizes by local concerns for such rare performances.

AUSTIN (AP)—Austin's city council has under consideration a proposal to install limited fire fighting equipment in each of its police radio patrol cars.

Councilman C. M. Bartholomew instructed the city manager to investigate the feasibility of his plan. He asserted radio patrol cars so equipped might give material aid in extinguishing flames before arrival of fire trucks.

### Texas Registration Begins on Sept. 19

AUSTIN (AP)—Fall semester registration for the 1934-35 long session of the University of Texas will begin Sept. 19 and 20 and first classes will be held Sept. 21.

Newcomers to the state's largest educational institution were instructed to report for convocations Sept. 18 in which faculty members will offer freshmen and transfers a few tips on how to conduct themselves as university students.

Students with insufficient high school credits will be examined for admission Sept. 12. Other special examinations, including those for students who made low grades in previous terms or postponed their tests, will be given Sept. 15.

MEMPHIS (AP)—When rains finally came to the central Panhandle country a pastor turned farm advisor for a short time.

The Rev. A. D. Rogers of the First Christian church at Belton and former pastor here, told farmers they should plant Indian corn and turnips as soon as they could get into the fields.

These crops, he said, will give more feed than anything else at present, adding that under favorable conditions, Indian corn will grow better in the fall than in the spring.

### Staunch Ally of British Labor Is an Archbishop

By MILTON BRONNER  
NEA Service Staff Correspondent

LONDON, Sept. 11.—While it has always been true that cats could look at kings, the workingman generally has found it difficult to get a hearing in the high places. That's because cats can't embarrass the throne with urgent and unusual requests for assistance or succor.

Circumstances, however, has given British labor one spokesman who has free access to the heads of the government, the privy councils and even the court of St. James—a man who is an able pleader, a superb diplomat and a qualified statesman.

That spokesman, friend and staunch ally is Dr. Cosmo Gordon Lang, Archbishop of Canterbury, whose views are accepted by a greater audience than those of any other person except the royal family and the prime minister.

Dr. Cosmo Lang . . . labor's friend.

As the head of the Church of England, his sermons, speeches and epistles to the press are regular items of important news; and the effectiveness of his pronouncements can be judged by the fact that a single letter to the press undid the results of several months of anti-Jewish propaganda.

His has been a strangely successful career. He is a Scot, born into a Presbyterian family, his father being Moderator of the Church of Scotland and Principal of Aberdeen University. He studied for the bar at Glasgow and Oxford Universities. Then suddenly at the age of 26 he was born in 1884—he took Holy Orders in the Church of England.

His first church job was that of curate in Leeds in the slum parish. Ten years later he was Bishop of Stepney, in one of the poorest districts of London. His experiences at Leeds and in Stepney made a life-long impression upon him and he has ever been a friend of the poor working man.

**Then Chaplain to Queen**

In a few years he got his chance to show it in resounding fashion. He had been made chaplain to Queen Victoria and became Archbishop of York in 1908. As such, he had a seat in the House of Lords. In November, 1917, in the most critical period of the World War, some of the effete peers had been making supercilious remarks about the unrest among the laboring classes. Up rose the Archbishop of York to say:

"Fast numbers from the overcrowded houses in the slums came forward with the greatest readiness to help their country to which apparently they owed so little . . . That pre-war conditions shall not be restored . . . Having borne the greater part of the strain and sacrifice of war, they are determined the rewards of their labor shall be adequate."

"The first cause of unrest is the unequal distribution of rewards in industry . . . The second cause is the demoralizing of industry, which leads the worker to feel that he is but a cog in the machine, liable to be scrapped like the machinery he attends . . . It is a commonplace that industrial peace depends upon labor and capital joining together, but it is mockery to speak of partnership when labor is denied any real controlling voice in the settlement of conditions of work. They resent this Prussianizing of industry."

**Backed Sunday Movies**

Two years ago there was up in Parliament a bill which would permit communities to have movies open on Sundays if they chose. Many churchmen and laymen fought it. Dr. Lang supported it, saying:

"People go to church because they want to. If there be any who do not want to, but go because there is no other comfortable place, I doubt whether their presence is an acceptable act of worship . . . There is no proof that the cinema prevents people attending public worship. There is no use arguing people should spend a quiet evening at home. How can families, confined in one or two rooms find any rest or recreation there? The result is the elder people go to the 'pub' and the younger ones to the street—a great source of evil."

He has expressed the same common sense British view on the necessity of disarmament, upon Germany's refusal morally to disarm, upon the vast importance of the press and films.

**4 SANDIES BACK**

AMARILLO (AP)—A quartet of lettermen will be the nucleus of the Golden Sandstorm football team this fall.

John Harlow, full; John Peterson, end; Cliff Mathews, tackle, and Glenn Burkin, half, stars of last year's scoring team, are the lettermen. Coaches Blair Cherry and Howard Lynch said training will open Sept. 3.

### WOULDN'T LET HER VOTE

EATON, O. (AP)—Charging that her husband refused to let her vote, Mrs. Cora Gertrude Thrisher filed suit here for a divorce from Charles J. Thrisher.

## The Centennial will not Cost... IT WILL PAY

The Texas Centennial Commission has said that it contemplates a self-liquidating celebration. It has given positive assurance to the people of Texas that it will not involve any increased taxation. The Centennial is the biggest job proposed for Texans since wresting its liberty from foreign despotism. Texans in all the past have liked big jobs. The Commission is relying upon that old Texas spirit as enunciated by Col. Travis, "Victory or Death," to make sentiment unanimous for celebration of its historic birthday in 1936. Every Texan now is challenged. For a century of trial and triumph every Texan has stood in solid phalanx. Every challenge has been accepted. No greater work was ever presented a Texan, native-born or adopted, than that presented by the plan for the Texas Centennial.
