Anna Hauptmann on Stand; Substantiates Defense Alibi

CLAIMS HUSBAND AT HOME ON EACH DATE OF CRIMES

Says Visit to Home Of Mrs. Achenbach 1931, not 1932

FLEMINGTON, N. J., Jan. 30. (AP)—Albert Carlstrom, carpenter, testified today he saw Bruno Hauptmann in the Bronx at 8:30 p. m. the night of the Linsbergh kidnaping.

"He was in front of the bakery reading a newspaper," Carlstrom said.

FLEMINGTON, N. J., Jan. 30. (AP)—Bruno Richard Hauptmann's wife offered a tremulous alibi to his murder jury today, in an effort to save him from the electric chair for the kidnaping and murder of Charles A. Lindbergh Jr.

She said Hauptmann was with her on the night of March 1, 1932, when the Lindbergh baby was stolen. She upheld the contention of her husband that he spent the evening of November 26, 1933, at home when he was alleged to have offered one of the Lindbergh ransom bills at a New York theatre.

She disputed testimony of Mrs. Ella Achenbach, former employer, who said the Hauptmanns called on her in March 1932, after the kidnaping, saying they had just returned from a trip, Hauptmann limping. Mrs. Hauptmann said the call was paid in 1931.

She said her husband called for her at the bakery where she worked on March 1, 1932, remaining until about 9:30.

She said that on the night of April 2, 1932, when Dr. John F. Condon testified that he paid Hauptmann \$5,000 in the little ransom attempt, she, her husband and Hans Kloppeburg were at the Hauptmann home. She was unable to say definitely that the dead Isadore Fisch brought packages to her home before he sailed for Germany.

PAIR CHARGED IN 4 POISON DEATHS

HOUSTON, Jan. 30. (AP)—Eight indictments charging Mrs. Dora Bullock Frost and her second husband, George Frost, 40, with murder of four members of the woman's family by poisoning, were returned late Tuesday by the Harris county grand jury.

The bills of indictment named each of the defendants individually in the deaths of Mrs. Frost's first husband, J. M. Bullock, 43, and three of her children, Vernon, 11 months old, Leola, 10 years and Woodrow Wilson, Bullock, 17.

Both have been held since Jan. 19 when an investigation was opened by the district attorney's office of the death of Leola Bullock on Jan. 1.

The first husband and the other two children died during the past two and a half years.

An analysis of the viscera of the four deceased members of the Bullock family revealed that death in each case resulted from poisoning, Assistant District Attorney Tom Harris, who is in charge of the probe.

Jed Adams Loses Battle for Life

WASHINGTON, Jan. 30. (AP)—Official Washington paid tribute today to the memory of Jed C. Adams, member of the United States board of tax appeals, who died of pneumonia last night.

President Roosevelt sent personal representatives to the Adams home. Vice President Garner called early today and placed his automobile at the disposal of the family. Funeral services at Kaufman, Tex., will be Saturday, it was expected.

Little Time for Paying Poll Tax

Deputies in the tax collector's office were kept busy today, receiving tax payments, and did not have a total on the number of poll taxes paid.

Face Vengeance

A bitter foe of Huey Long's dictatorship, Mrs. J. S. Roussel, titan-haired Baton Rouge, La., woman, shown above speaking to her followers, heads the women's auxiliary to the revolting Square Deal association. Another "rebel" in a hot spot is Sheriff Robert J. Petit, below, in whose East Baton Rouge parish the Square Dealers seized the courthouse.

VICTIM'S NAME CAUSES REVERSAL MURDER VERDICT

AUSTIN, Jan. 30. (AP)—The court of criminal appeals today reversed and remanded the conviction in Bexar county of Frank McGinnis, sentenced to death in connection with the murder of "Helen Dorothy McGinnis."

The court ruled that the trial court erred in not submitting the issue of the woman's name to the jury.

STUDY CATTLE CENSUS

AMARILLO, (AP)—Effect of the drought on the number of livestock in the panhandle plains area will be the most important fact learned from the decennial farm census as far as that section is concerned, according to C. C. Gibson, district supervisor.

FLAMES OF STRIFE MOUNTING HIGH IN VIRGIN ISLANDS; FIR WILL FLY

By ROONEY DUTCHER
WASHINGTON, Jan. 30.—The Virgin Islands are a couple of small infected spots which for a long time have been acting like big bad boils. You can't tell where they'll spread next.

Apologies by Secretary Ickes and other liberals, as well as their inferentially along with their friend, Federal Judge T. Webber Wilson, sitting in the Virginis, was but the climax of a whole string of irritations.

Transportation Control Super-Agency Proposed

WASHINGTON, Jan. 30. (AP)—A vast plan to extend federal regulation to all important forms of land, sea and air transportation was recommended to congress today by Joseph B. Eastman, federal coordinator of transportation.

The super agency, in the form of a recreated interstate commerce commission would rule the nation's network of carriers.

AND SO ANOTHER YEAR OF ODDITIES BEGINS

As though to check the faintest hope for a really "new" type of year, the very first week of 1935 brought a suicide at Niagara Falls, and so another twelve months of inconsistencies and contradictions begins.

Thus, Fifth Avenue shoppers in New York get their annual laugh at Tony Sclafani, who appears again in a bathing suit while the thermometer sinks down to around 20 degrees above zero; and in Milwaukee a music critic insists that, except for only half a dozen of the greatest compositions, music generally leaves us as wicked as the day we were born—"and that's pretty wicked."

In Guayaquil, Ecuador, a father gave his son 300 lashes on his bare back for stealing 80 cents, after which the boy died; while in Los Angeles a 17-year-old boy proved that he was "boss" of the household by shooting his 20-year-old brother.

A 90-year-old resident of Long Island, N. Y., proposes construction of a tunnel under Long Island Sound to furnish a way for the escape of the island's inhabitants in case of invasion by a foreign power, while the American baseball players who have just returned from Japan can't get over the enthusiastic reception they got there.

A doctor, out all hours of the night, gets a ticket for parking his car on his own lawn overnight in Washington, while the same city's police are still looking for the burglars who stripped the Washington monument of its 107 gold-plated, platinum-tipped lightning rod points.

In Chicago, a restaurant owner, three patrons, and half a dozen lawyers are wrangling over the ownership of a \$1900 pearl found in an oyster served to one of the customers, and in Mexico City and Warsaw, Poland, workers threaten mass suicide unless their demands for more pay and better working conditions are granted.

A child specialist in Madison, Wis., tells us that cheese and beer are exceedingly beneficial in nervous cases of both children and adults; and in Martinsville, Va., a 10-year-old child threw away a piece of candy and nibbled at a miniature bomb, resulting in the child's death.

The great Abbe Moreaux, of the Bourges Observatory, informs us that the brightest rays of the sun on earth correspond to the heat of 103,000 candlepower from a distance of only 3 1/4 feet, while a woman in White Plains, N. Y., testifies that for the last six months she had been sleeping in kennels with her 19 English sheep dogs, to keep them quiet.

And so, you see, the new year goes on just as dizzily and as unconventionally as any of its predecessors.

WHAT REALLY COUNTS

Henry Ford is one of those men whom you're pretty apt to feel strongly about. Either you are one of the many who feel he is a great industrialist and a great man, or you are one of those who feel he is a man whom fortune has advanced beyond his actual talents and deserts.

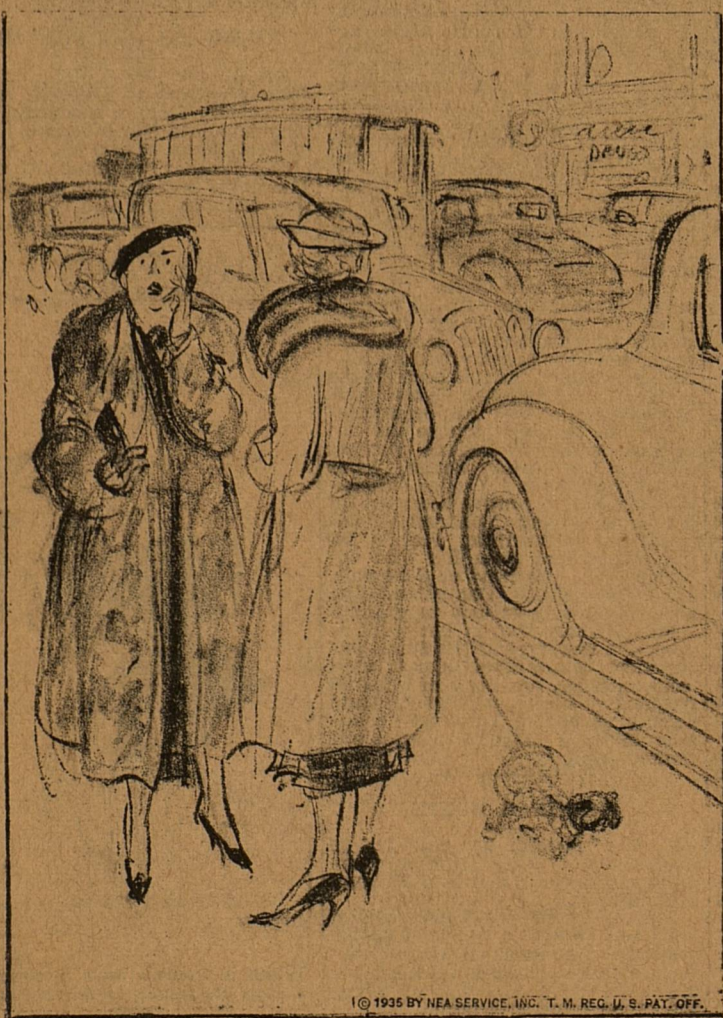

Lots of people didn't like Ford's defiance of the NRA, didn't like his attitude that his plant must be an exception. And some liked him all the better for that. In the same way, opinion divides on his attitude towards organized labor.

But neither partisans nor enemies can quite laugh this off: That today in his River Rouge works there are 70,000 men at work, more than at any other time since 1929. Addition of 10,000 more men since the new models were announced has stepped up his production to a 3000-a-day pace, and he may soon achieve 5000.

If more employers could show a similar employment record, there would be a less precarious situation confronting us today.

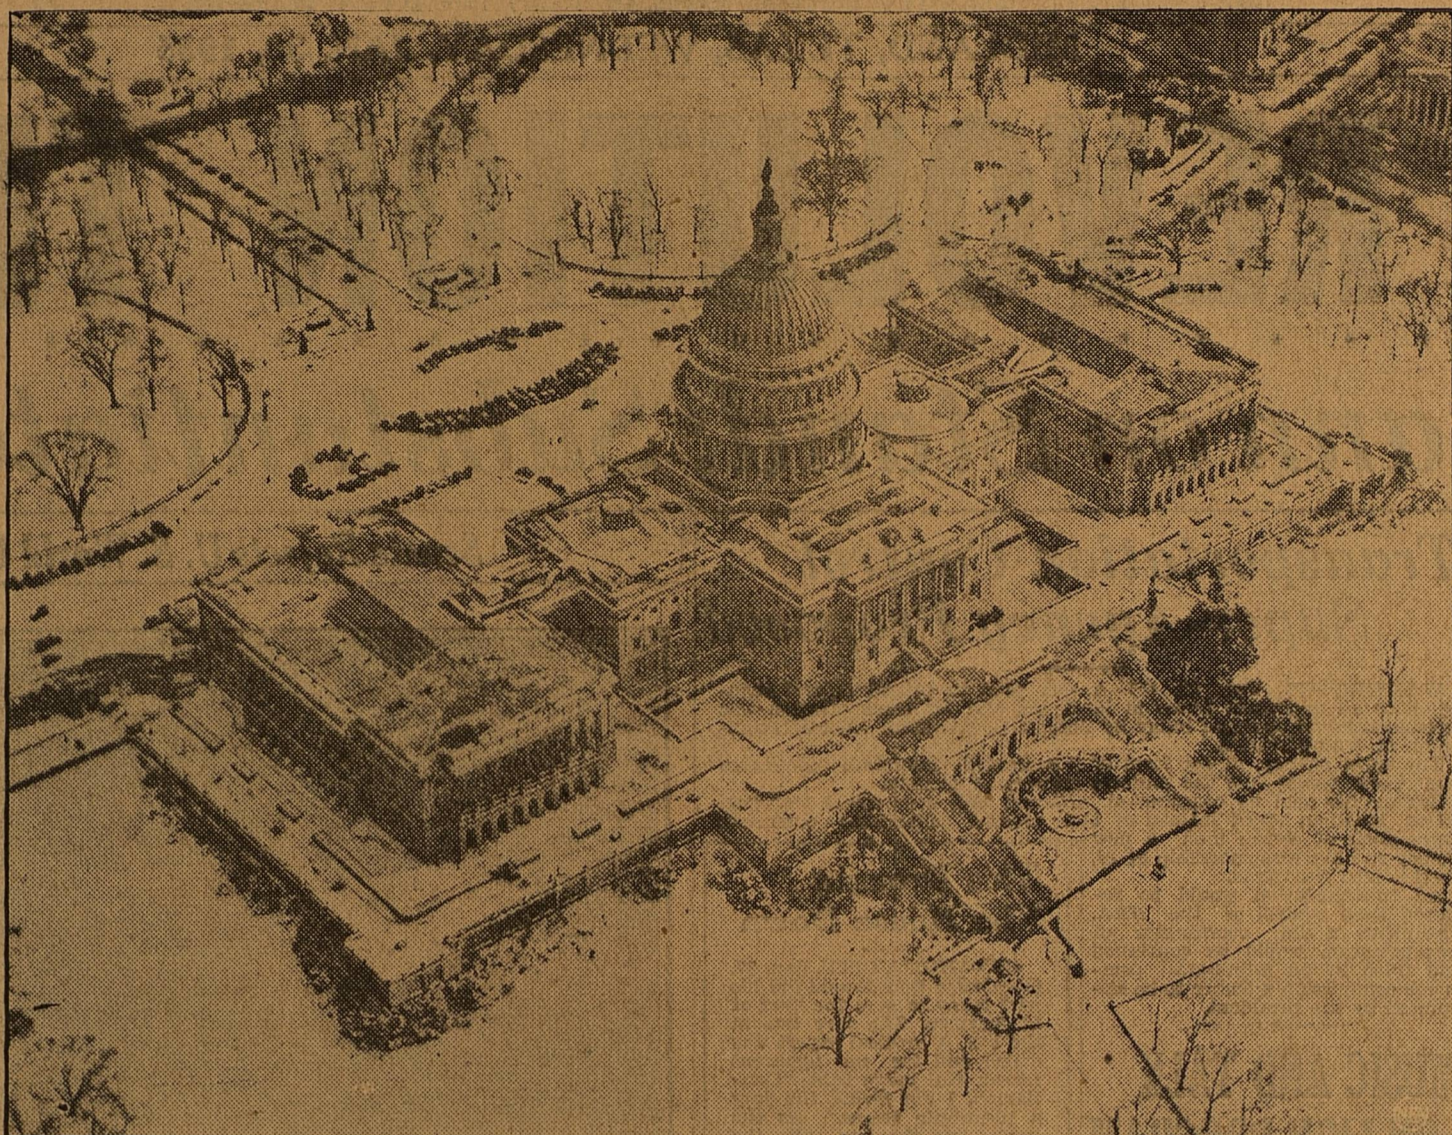

That story of a big gusher coming down in Oklahoma has been denied. It was just Alfalfa Bill Murray tuning up for his farewell speech.

Side Glances by Clark

"Maybe I can remember where we parked, if I can only think which car we were using."

Winter's Wings Flutter Over the U. S. Capitol

The blizzard sweeping across much of the country left the Capitol grounds in Washington under an unusual 11-inch blanket of snow, and gave a flying photographer a chance to make this unusual picture of the Capitol and its surrounding grounds. Note the rows of autos parked in the oval Plaza before the Capitol building, and how clearly this aerial top-side view marks the division of the two wings, Senate on the left, House on the right, of the ancient building.

OIL INDUSTRY STILL WORRIED DESPITE BILL

By WILLIAM VOIGHT, JR.

TULSA, Okla. (AP).—Not even the Senate's approval of the new National Industrial Recovery Act could erase the frown from the face of the petroleum industry today.

Passed without a record vote, the measure cannot become law until 90 days after House approval and the president's signature are obtained.

Meanwhile, the flow of "hot" oil in East Texas is reported from several sources as showing a gradual increase. From 24 to 26 refineries were reported running early this week.

The gasoline market continued severely depressed and there was complete absence of enthusiasm by dealers and jobbers. Unusually cold weather was partly to blame for the lack of gasoline buying.

The adverse court ruling in Texas late last week, which unless reversed in higher courts, will permit oil estimated from 1,500,000 barrels upward to move into commerce. The state refused a stay of execution by the district court, nevertheless was granted a five-day delay in order to perfect an appeal.

One firm was granted permission to move 10,000 barrels of gasoline allegedly processed before the Texas Railroad Commission issued its order of December 10 outlawing products not bearing approved state tenders.

As a result the market showed a decided softness. The firm offered this gasoline at 3 1/2 cents but found no immediate takers because only a portion is clean.

The current fear was that lacking takers at the price offered the gasoline might be dumped at best

price obtainable, thus depressing a market already weak.

A buying program of several large firms, designed to take off the spot market a quantity of distress gasoline in North Central Texas, in Oklahoma and in Kansas, was abruptly terminated when it became known a single 10,000-barrel lot was available in East Texas.

More interest was shown in the question of how Texas' new oil control bill will be drafted than in the congressional action which came yesterday.

There was a current of uncertainty whether the Texans would permit "market demand" clause to remain in the forthcoming legislation. Texas' present oil law automatically terminates in September unless renewed.

If a simple "physical waste" measure passes operators in the remainder of the industry fear there will be a real flood of oil from Texas.

EASIER, SAFER DRIVING... YOU SHIFT GEARS AT THE WHEEL... floor all clear in front

"A great idea!" say thousands who are enjoying this brand new driving experience — this vastly better method of gear control — in 1935 Hudson-built cars. With the Electric Hand, you shift as you always have, yet never take your hands from the wheel. You can select in advance the gear you want to use next; the Electric Hand does the shifting.

Crowds are flocking to see this "surprise feature." It's standard on Hudson Custom Eights and optional, for a small amount extra, on all other 1935 Hudsons and Terraplanes. And these cars offer many other things that are new.

The first steel roof. Steel all around you, a steel floor beneath, steel overhead. Bendix Rotary-Equalized Brakes that stop you more quickly, more smoothly, in a short, straight line. Great performance made greater. But you will want to check for yourself. Come and see these cars. Look at the others, too. Compare.

FEMININE FANCIES

Buttons we are inclined to think will be important decorations for frocks this season. Apropos of this, we saw some very pretty ones in a downtown store yesterday—oval ones covered with braided black-and-white straw with a buckle to match. What could be more cool-looking for a summer frock?

Then there are the new buckles of bright-colored leather which are shaped exactly like a doughnut with the hole cut near one side inside of in the exact center. They look as if some one had jabbed the leather with a blunt instrument that would not cut through but left a dent on the surface.

Fashion signal: Watch rather large white collars both on wash dresses and more dressy clothes.

For Wee-est moderns there are bibs that give attention to appearance as well as service and deck themselves out with small roundish collars of pink above their sober white. The white is quilted, however, and if pink is thought too gay, a bit of lace is used as a border and the soft little collar is omitted.

Busy mothers who have birthday parties to give should appreciate the little invitations neatly printed in blue on a white background with little pictures. These come in packages of a dozen with accompanying envelopes and are quite inexpensive.

More and more new wash goods are piling up to tempt the expert seamstress and the one who is not so expert.

Certainly if one wants to walk in the fashion parade of wash goods this year, she must choose plaids, stripes, or checks with emphasis on the former. There are corded cottons and cottons with a heavy, soft, thick finish and seersucker sheers (whose praises we have sung before in this column) and checked tissue ginghams with Swiss dots and—doubtless many more which we have not yet observed sufficiently to describe.

Even drapery materials are catching the spirit and tending to plaids.

For a soft light for your study lamp choose the "daylight" globes of blue.

Dowdiness Will Dim Glamor All Women Long to Possess

By ALICIA HART
 NEA Service Staff Writer

There probably isn't a woman in all the world who doesn't want to be considered glamorous. Regardless of how many other nice things are said, she gets a special thrill whenever anyone even intimates that there's an air of glamor about her.

The dictionary says that glamor is a noun, meaning charm on the eyes, causing them to see things differently from what they are in reality. An American designer who, by the way, is glamorous himself, insists that glamor is what

makes a person stand out as a distinctly different individual.

I think the young couturier's theory is probably a little more helpful to women who go in quest of the elusive trait. If you take the dictionary's definition literally you may start thinking that in trying to be glamorous you are replacing it with the illusion of something you are not. This, of course, is wrong. On the contrary, as the designer hints, the more individual you are, the more glamor you are apt to have. In other words, be yourself!

Remember that dowdiness is the antithesis of glamor. The most charming personality in the world can't make up for a dingy neck, soiled or unpressed clothes, stringy hair and makeup that is haphazardly applied.

You feel better and have a more confident outlook when you

THE NEW 1935 FORD V-8 PICK UP

The proved power, speed, economy of the V-8 engine... plus improvements that make it a more rugged hauler than ever

The Ford V-8 Pickup has always been a car that could take punishment. This year, improvements have been added that enable you to use the Ford V-8 Pickup harder than ever—and to do it at less cost.

Even the proved V-8 engine has been made more economical, more dependable. It has new crankcase ventilation that rids the engine of water vapor, minimizes sludge, reduces oil dilution and corrosion. It has copper-lead connecting rod bearings that resist burning and pounding out. It has cast alloy camshaft and crankshaft that outwear forged steel.

The front axle is stronger—20%. The frame has been strengthened—with a new X-member, double reinforced side rails, new cross members at front, center and rear. The chassis is mounted on the Ford Full-floating Springbase—giving more uniform tire wear, longer brake life, better brake action, improved over-all operation, easier riding and handling.

But the way to find out what this new Ford V-8 Pickup will do for you—and save for you—is to put it through a tough trial on your own job. Your Ford dealer will let you have one any time you say.

WE have buyers in all the tobacco markets of Turkey and Greece, including Xanthi, Cavalla, Smyrna and Samsoun.

And at Smyrna Chesterfield has built the most modern tobacco plant in the Near East.

Here the spicy, aromatic Turkish leaf is sorted and graded under the eyes of our own tobacco men.

Then it is put away to age in its own climate for two years or more to make it milder and better-tasting.

When you blend and cross-blend the right kinds of aromatic Turkish tobacco with mild ripe home-grown tobaccos as we do in Chesterfield you have...

the cigarette that's milder
 the cigarette that tastes better

**CELEBRATE
PRESIDENT ROOSEVELT'S
BIRTHDAY**
By Attending The
BALL
At
**HOTEL SCHARBAUER
TONIGHT---9 O'CLOCK**

Here's What It Means!

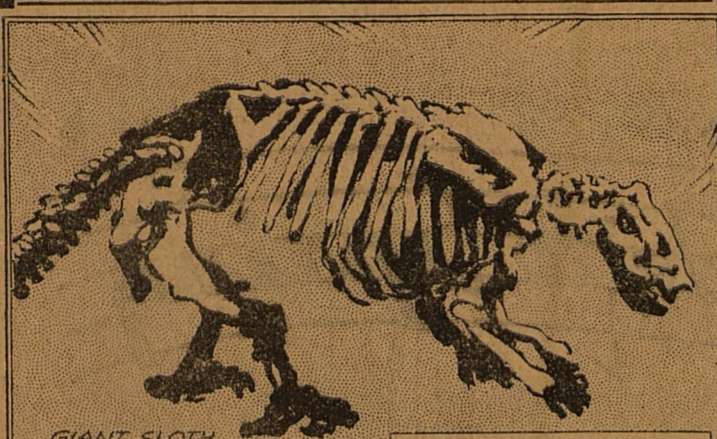

Among those things that President Roosevelt holds dear to his heart, is the Warm Springs Foundation. This Foundation is for the sole purpose of combatting infantile paralysis. A President's Birthday Ball will be held in practically every town in the United States tonight. Of every dollar taken in, only 30 cents will be sent to the President for his use in furthering the cause at Warm Springs and 70 cents will remain in each city to fight the dreaded disease. A million-dollar check was sent to the President last year. Of that amount a \$650,000 fund was set aside to stimulate and further the present work of the Foundation at Warm Springs, especially to enable it to co-ordinate the fight on infantile paralysis by all agencies in every state.

Also, a fund of \$100,000 has been put up to stimulate and encourage infantile paralysis work in other centers than at Warm Springs. Another fund was set up for building, maintenance and other contingencies at Warm Springs. About \$150,000 of the million received has been actually spent. There is reason to believe that the number of infantile paralysis cases in the country is gradually decreasing, and that the number of those stricken who are saved from lives of hopeless invalidism is growing. Thus every person who dances in honor of the President's Birthday tonight may justly feel that he is lending worthwhile aid to the blotting out of a particularly vicious scourge.

Texas Coast Vast Cemetery as 50,000 Cattle Freeze

Death rode a howling blizzard out of the north which struck with record fury along the Texas coast and 50,000 cattle were its toll, freezing in the marshes and beaches over a wide area along the Gulf of Mexico. Carcasses are shown strewn along the beach in this picture, the animals having died by hundreds as they huddled together, vainly seeking warmth as the norther raged over the vast grazing ground. Cattlemen estimate the loss at more than \$1,000,000.

Wadley Learned This—Years Ago

It may be that the store is not large enough to hold all of his merchandise, but anyhow Addison Wadley has stacked 83 cases of new shoes in the cases, representing a purchase amounting to \$5,000.00. Bill Hembree, head shoe man, says there are about 2,500 pairs of shoes on the walk in front of his department store.

GAINESVILLE, (P)—Laverne Bivin, 16 year old high school junior, is believed to be one of the youngest licensed airplane pilots in the United States. He received his student pilot's license two months after reaching his 16th birthday and at the time of his solo flight in December had had only two hours and 15 minutes of dual instruction in the air.

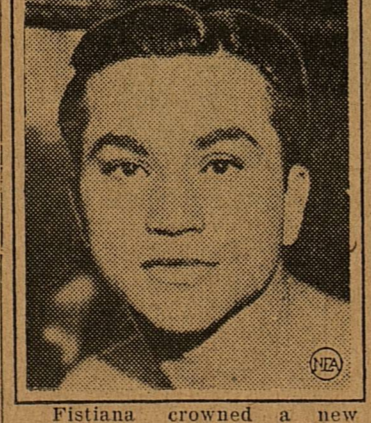

HOLD RABBIT DRIVE

PLAINVIEW, (P)—About 3,000 jack-rabbits, part of the vast army which has been feeding on West Texas farm crops, were killed in a recent drive near Hart in Castro county. About 100 hunters closed in on the rabbits, shooting those that broke through the lines and hemming in the others. Other hunts are planned soon in an effort to thin the ranges of the long-eared pests which cause thousands of dollars damage annually.
