## HITLER HAILED ON VISIT TODAY TO SAAR BASIN

SAARBRUECKEN, Saar Basin, March 1. (AP)—Adolf Hitler came to the Saar today and the population of the erstwhile League of Nations territory went wild with adulation of him.

This was the day the Saar Basin, lopped from Germany by the World War and for the last 15 years under government of the League of Nations, was returned to German sovereignty.

Hitler drove through the streets for 25 minutes. Arms of storm troops, police and citizens raised the Nazi salute and formed a veritable arch of humanity through which he passed in triumph.

## MIGHTY CHALLENGE STILL FACES THE NEW DEAL; SUCCESS CONTINUES TO ELUDE PRESIDENT'S DEPRESSION WAR

Franklin D. Roosevelt is nearing completion of his second year in the White House, a year in which the tempo of his New Deal has slowed down. In a series of three articles, of which this is the second, Rodney Dutcher, NEA and Reporter-Telegram Washington correspondent, frankly discusses the triumphs and failures of Roosevelt's two years and what may lie ahead for the president.

By RODNEY DUTCHER Reporter-Telegram Washington Correspondent

WASHINGTON, March 1.—Anyone who can remember back to March 4, 1933, will realize that a great deal has happened to us since. Like it or not, President Roosevelt and the New Deal have produced as marked a reorientation of government policy as had ever been achieved without violent revolution. Millions of Americans feel the government has moved too fast and too far. Millions of others think it has moved neither fast enough nor far enough.

Either Roosevelt saved us from slipping further into the sinkhole of depression or an economic upturn which has been followed by a reduction of power and his emergency measures. You can decide that for yourself.

But the next time the band plays "Happy Days Are Here Again!" you can remind yourself that the nation's economic position is lower than it ever was in any previous depression and that it remains to be seen whether enough—or too many—boards have been thrown into the mire.

**Business Needs Spurt**  
Business activity lately has been running at about 70 per cent and needs an increase of about 50 per cent to get back to normal according to the more realistic New Deal economists.

In five previous long depressions, business activity was never below 83 per cent. These figures from government economists who say that to make a fair picture it's necessary to adjust their chart curves to population growth and business activity's normal expanding course.

Such economists, believing that the economic structure has been kept as strong as it is only by government expenditure, are not very hopeful about the immediate future.

It seems worth mentioning that while the national income increased from \$4 billion dollars in 1922 to \$22 billion in 1934, government has pushed out eight billions of emergency money in the two years. No one can guess what would have happened if it hadn't.

**Government Takes Reins**  
In listing the chief basic alterations brought about in the first two years of Roosevelt, it's very hard to find any other figures so much as stress these figures.

1. Government has asserted the right of control over industry, agriculture and finance. In each case it has asserted that central supervision over these vast fields has resulted in disaster.

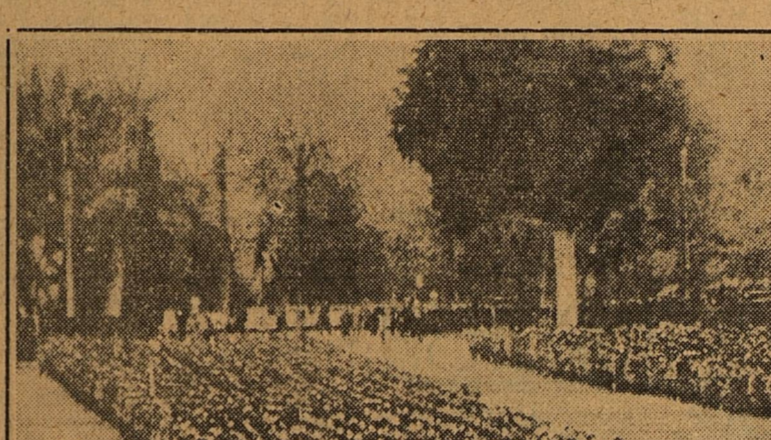

2. The beginnings of a redistribution of national income have been made by various devices. These have been slow, hesitant and unimpressive. The New Deal principle that income must be spread over all classes, both to keep Roosevelt's promise of "a more abundant life" and to provide a healthy market for products of both industry and agriculture.

3. Government has acknowledged a duty to see that "nobody starves." Lately Roosevelt has promised that it will be a government function to provide work at a meager pay for all employable while providing "security" for others.

4. Government has taken over the credit functions of the banks. It is financing 575,000 farms and 400,000 other homes and has lent money to banks, railroads, insurance companies and public construction projects.

**Opposed by Big Business**  
All this and many other adminis-

## ONE-HALF MILLION DAMAGE SUFFERED AT OKLA. SCHOOL

Administration Bldg At NW Teachers College Lost

ALVA, Okla., Mar. 1. (AP)—The historic old administration building at the Northwestern State Teachers College burned here today with an estimated damage loss of more than a half million dollars.

The fire was finally controlled after spreading to nearby buildings and destroying a ten room house and damaging two others.

The administration building, the largest educational structure in Oklahoma, was constructed in the shape of an ancient Spanish castle during Oklahoma territorial days.

## KING OF SIAM REJECTS THRONE

CRANLEIGH, Eng., Mar. 1. (AP)—King Prajodhipok of Siam today announced through his secretary M. R. Smakman, that he had abdicated his throne.

His rejection of the throne followed months of internal disputes in his country over government matters. Repeated conferences held in London with a delegation of his countrymen who attempted to patch the split between the monarch and his administration officials were unavailing.

Smakman said that the King did not plan to issue a formal announcement of abdication, leaving that to the government officials at Bangkok.

## NEGRO HIDDEN TO THWART VIOLENCE

LINDEN, Mar. 1. (AP)—Blackie Jackson, a white negro who was father and grandfather were lynched by mobs after attempted criminal attack, pioneer residents said, was hidden in the piney East Texas woods last night by officers when his arrest late today on a similar charge.

Crouched beneath the porch of an Atlantic, Tex., home, the negro was arrested by City Marshal Homer Carter after two sisters, 19 and 15 years old, had hysterically told a story of an attempted attack.

The negro was rushed to the county jail here but Sheriff Quimby Hardacre, fearing mob action, led the jail at 8:30 p. m. with the negro.

A crowd of close to 150 men gathered at an Atlanta drug store last night and feeling was running high. There seemed to be a lack of leadership, however, and no definite action was taken.

Officers said today that, until the intense feeling subsides there will be no preliminary hearing for Jackson.

## Strike Vote Called In Motorcar Industry

DETROIT, Mar. 1. (AP)—Francis J. Dillon, American Federation of Labor organizer, announced today that a strike vote has been called for among the members of 176 locals in the motorcar industry.

He said the vote will be in protest against the procedure of the National Automobile Labor board which has been holding collective bargaining elections in industry.

## NEW MEETING PLACE

The Naomi class will meet in room 307 of the Petroleum building Sunday morning, instead of in the former meeting place on the ground floor of the building, it was announced today.

The class will be the only organization using the room and it is planned to furnish it for the convenience and pleasure of class members.

## SOLONS APPROVE AUTHORITY CURB

AUSTIN, Mar. 1. (AP)—The Legislature finally approved today a bill curbing the authority of district judges to restrain the railroad commission in enforcing the oil proration. The bill requires that the commission be given a hearing before its orders are restrained. It becomes effective immediately upon the governor's signature.

## JUSTICE HOLMES RESTING BETTER

WASHINGTON, March 1. (AP)—A report was made today that former Chief Justice of the Supreme Court, Oliver Wendell Holmes, stricken with pneumonia, spent a very fine night.

The report was given to newspaper men by Francis Biddle, chairman of the National Labor Relations board. Biddle was an early caller at the famed jurist's home.

## 'Big Red' Comes To Head Nance's Thoroughbreds

He stands up like Man O' War, or perhaps more like that thoroughbred's stable mate, Crusader, at Samuel D. Riddle's farm near Lexington, Fla., is a mid-way entry introducing the newest entry in Midland's fast growing Thoroughbred horse industry.

The new stallion is Over Lord, chestnut horse foaled in 1924, by Superman out of Gloucester. He has been consigned by the S. Remount service to Tom Nance and was brought here Wednesday by J. J. McCarthy from Fort Reno, Okla., where the stallion has been in service as a depot sire for the past seven years.

Over Lord, which will be used at the head of Nance's string of thoroughbreds, and his famous sires, carries, brings to this section of the country a strain of breeding which includes some of the world's best known thoroughbred names. Nance calls him "Big Red."

Superman, sire of Over Lord, is by Commando, he by Domino, founder of a famous strain. Supermam's dam is by Bend Or, said to share with St. Simon the reputation of being the greatest imported stallion ever brought to America.

Over Lord's dam is a grand daughter of Hastings, the sire of Fair Play, which is by his record as a sire, with five crops of colts already in use, all of uniform size, type, color, good disposition and ability of heart. Over Lord himself stands 16 hands high and when filled out, weighs 1,300 pounds. He was slightly drawn and bruised by the trip here from Reno. He is stabled at Cowboy park pending the construction of quarters at Nance's ranch, No. 17, which he has recently taken back under lease.

## SABOTAGE CHARGED

WASHINGTON, Mar. 1. (AP)—High army and navy officials told the house military subcommittee today that communists had increased efforts to breed disloyalty in the nation's armed forces, that some of their literature urged sabotage in munition plants in time of war.

## First 'Baby Bonds' Bought Here Today

The first of the Government's new "Baby Bonds" were sold here from the offices of the Reporter-Telegram were the first local people to buy them.

James P. Harrison, business manager of The Reporter-Telegram, was the first person to buy one of the bonds after they were put on sale by Postmaster John P. Howe and immediately after his purchase, his wife, circulation manager of The Reporter, claimed the second one.

## Against Hitler

Most relentless foe of Adolf Hitler is Dr. Otto Strasser, above, chief of the Black Front, who waxes by radio and every other means at his command against the Nazi dictator, from his refuge in Prague. Strasser was one of Hitler's champions during his rise to power, but turned against him, branding him traitor of Germany.

## ENROLLMENT AT SCHOOLS CLIMBS TO HIGHEST MARK

At the close of the sixth month today, the public school enrollment shows 185 more than at same time one year ago, and 64 above highest enrollment in schools' history. The present enrollment is 1,522, as compared with 1,337 at the close of the sixth month one year ago. This number is 64 above the highest previous enrollment in 1930-1931 when the enrollment went to 1,458.

The following table will show the comparative enrollments for the past two years at the close of the sixth month:

School	1933-1934	1934-1935
Senior high school 314	335	468
Junior high school 497	498	249
N elementary school 166	215	249
S elementary school 221	249	142
Mexican school 142	142	113
Negro school 88	113	152
TOTALS	1,337	1,522

It is rather significant that the increase in enrollment appears rather uniformly throughout the schools. During the sixth month the superintendent made 162 visitations to the various schools and classes; the principals made 193 such visits, and 399 similar visits. Two teachers were reported tardy during the month, while eight teachers were out on account of personal illness.

The following high per cents of attendance were recorded for the sixth month:

Miss Cartwright's room	99.17%
Mr. Henderson's room	98.14%
Miss Lomax's room	97.69%
Mrs. Phillipus's room	97.57%
Miss Burris's room	97.50%
Miss Helmer's room	97.15%
Mr. Barnes's room	97.03%
Miss Zant's room	97.00%
Mrs. Schrag's room	96.61%
Mrs. Hawkins's room	96.52%
Miss Frazee's room	96.31%
Miss Milley's room	96.24%
Miss Green's room	96.19%
Miss Ripley's room	95.80%
Miss Crawley's room	95.22%
Six rooms	94.00%
Five rooms	93.00%
Three rooms	92.00%
One room	91.00%
Six rooms	80.00 to 90.00%
Two rooms	70.00 to 80.00%

## PREPARE DEEPEN MONUMENT TEST

Amerada No. 1-D State, new pool oner southwest of Monument, Lea county, started pulling tubing this morning preparatory to deepening in search for further production.

The Monument well, cause of considerable activity in the county for the past six months, was originally drilled to 3,885 feet, where drill stem tests failed and the hole was unloaded to test only a small amount of oil. Deepened then to 3,929 feet a production rate of 945 barrels on a 24 hour test was established, oil being lifted by upper gas pressure to the production zone.

## MIDLAND MEN TO SCOUT MEETING

Five Midland Boy Scout workers, including Claude O. Crane, Jno. Crump, Wallace Wimberly, G. E. Brock and Buster Howard plan to attend the Boy Scout leaders meeting at Sweetwater, Sunday, Crane said today.

Activities from 10 West Texas and New Mexico councils are expected to attend this sectional meeting, one of four being held in Region nine.

J. P. Fitch of Dallas, regional director, Thomas J. Keane, national director of Sea Scouting, and Chas. N. Miller, assistant national director of the division of operations, are among those prominent in Scout work who are scheduled to take part on the program.

## State Dispensary Hearing Put Off

AUSTIN, March 1. (AP)—The Senate deferred until Monday a consideration of a State monopoly dispensary system, in the proposed amendment to repeal State constitutional prohibition.

## Farm Sections Making Strong Comeback, Babson Says

EN ROUTE, March 1. (AP)—Business in the Central West is very good. With the possible exception of the South, conditions have improved in the Prairies more in the last year than in any other section. When we have a good farm year, business in the Prairies States is bound to be good. All the trade barometers which I follow show excellent increases for the agricultural sections. That is the reason why I am urging concerns doing a national business to push sales efforts in the South and West.

**More Rains Probable for 1935-40**  
Last year was an unusual year from the weather standpoint on the prairies. But, in spite of the terrific drought, Minnesota, Montana, Iowa and Kansas had big increases in cash income, Nebraska and Missouri, and particularly the Dakotas, were hit very hard but they have been generously aided by the government. So high prices plus government aid have brought a big gain in cash income to the farmers of the Central West. Now again this year their fortunes depend almost solely on the weather. If heavy rains and snows fall in the spring, 1935 may be a normal crop year. However, unless subsoil moisture is replaced, this year's harvest may not be much better than 1934.

**Babson Outlook on Livestock**  
Livestock raisers in the Central West, after suffering great hardships through the past five years, should get their reward before long. Cattle and hog prices are very strong and I feel they will move still higher during the year. Dairy-cattle are in a similar position. Although their prices have not been rising as fast as feed costs. Milk prices in the Minnesota area have finally reversed their downward trend and are now about twenty-five per cent higher than last February. Butter and cheese quotations have

also moved upward. Unless we have a tremendous improvement in pastures and feed conditions, the overproduction problem in the livestock and dairy industries has been eliminated until 1936.

Industrial concerns in this section are showing in the huge improvement which is now sweeping the country. Reports from Colorado, Montana, the tri-State area and northern Minnesota are encouraging. Automobile activity at Detroit has boosted iron operations and all types of mining have been resumed. Mines which have been shut down for years are resuming operation.

The high price of gold is the major factor in the excellent trade conditions in the South Dakota Black Hills district. These should be still further helped by the recent Supreme Court Gold Decision. Other factors such as shoe production, furniture orders, flour millings, iron and steel products, and coal output are all showing increases over 1934.

**Jobs and Payrolls Gaining**  
Livestock supply concerns in the Plains States, as in every area, are still in the dumps. The value of per-mile granted in the Central West in the past few weeks is much higher than in the early weeks of 1934, but the present rate is only a fraction of normal. Here, as throughout the country, the biggest boon to trade and employment would be a sustain-

revival in building activity. Such a development, however, awaits a rise in rents for, at the present rate of return, real estate investment is still unprofitable. Employment is better and payrolls are higher than a year ago in company with the general improvement which has been in evidence since last autumn.

Retail trade reports from all over the Great Plains area confirm encouraging reports I have received at first hand. The farmer has always been a good spender when he had the cash. Hence, a sharp increase in retail sales at this time is to be expected. Actually, trade has been running about fifteen per cent above 1934 and the increase is closely in line with the gain in farm income. City stores are handling about fifteen per cent more merchandise than last year, while country department stores report that increases are as high as twenty per cent. Wholesalers are doing a huge business in farm tools, electrical supplies, automobiles and trucks.

**No Prosperity Without The Farmer's Sharing**  
Most economists recognize that conditions in the Central West govern to a very large extent business activities throughout the nation. Hence, from a national standpoint, the farm outlook is vitally important and employment would be a sustain-

STORMS RAGING ON THE SUN

If those scientists who see a direct connection between sunspots and earthly climatic conditions are correct, we may well be in for a period of very disturbed and unusual weather.

German astronomers report a sudden and surprising development of new sunspots—the largest seen since 1917. One group of spots developed from nothing to an area ten times the size of the earth in 48 hours, swirling and rotating in a manner to suggest a "storm" of almost unimaginable violence on the sun's flaming surface.

What this may mean for earthly weather is something for the scientists to argue about—and for experience to show. For the ordinary reader, meanwhile, there is something exceedingly fascinating about the thought of these titanic disturbances—unimaginably vast cyclones in flaming gas—taking place far off in space, with a few astronomers at telescopes as the only spectators.

Men like Morgan and Rockefeller should not be denied the Townsend relief, if it passes. If they won't get it from the government, they'll get it from the people.

Society and Clubs

FEMININE FANCIES BY KATHLEEN EILAND

It must be true that in the spring a young man's fancy "lightly turns to thoughts of love" (and a young woman's ditto). Here it is the first day of the first month of spring, and already, at 8:35 o'clock in the morning we have heard of two weddings, one supposedly past and one scheduled to take place later. The March for Midland is to come in with wedding bells, it would appear.

We have been looking at a collection of unusually lovely corages which a Midland woman is displaying for sale. They are made in a variety of shades and flower-types and are of wood fiber which has a soft, satiny-shining surface. The woman who first introduced these to the town is a former Midland county teacher, who learned the art of making them while in a hospital.

Another proof that trifles make perfection is the fact that the proper corsage adds the finishing touch to a new spring coat. It's just one of the minor crosses of life that a limited bank account can't be stretched indefinitely so as to include all the finishing touches as well as the fundamentals of a wardrobe.

We don't know whether to feel complimented or the opposite when we wear a bright yellow blouse to work and are greeted by comments on our "pink shirt."

The faculty play on Tuesday night should be worth seeing. If the audience has as much fun seeing it as the faculty members seem to have in teasing each other about it, it should go off very successfully. Anyway, it should be interesting to see a group of teachers project themselves into characters very much the opposite of the ones they must display in their daily pursuit of bread-and-butter.

That statement, by the way, is not an attempt to be too clever. Having taught for a number of years, we know just how much public opinion molds the actions of the average teacher, willingly or unwillingly, into a more or less standardized type. We believe this tendency is weakening with the passing years, and, for the sake of all teachers, are glad to think that it is so.

They certainly CAN take it

ROUGH, tough, tumbling, glorying in gruelling punishment, how the Behemoths of the Mat can "take it." Trained to a T, the acme of physical perfection, of strength, stamina and grit, with bodies of steel and cartilage, skins of leather and muscles sinewy as rubber, they're ready for any sort of a rough and tumble bout. FEDERAL tires can "take it" too. Magnificent specimens of the art of making tires, strong, sturdy, ready for a rough and tumble with any road in the world, Behemoths themselves; road wrestlers, built to "take it" plenty, and they certainly can and do.

**MEASLED FAMILY**  
**KENDALLVILLE, Ind. (U.P.)**—Three generations of one family here had the measles at the same time. Dr. H. O. Williams, local physician reports. Clarence Lasho, 9, came home from school with the measles. His father, Clarence, Sr., 34 and his grandfather, Eugene, 64, contracted the disease.

**CLASSIFIES THE DEANS**  
**WINSTON-SALEM, N. C. (U.P.)**—Said General Alvin Crowder, Detroit Tiger pitcher, of the famous Dean Brothers, at a club luncheon here: "Dizzy talks a lot—and is as good as he talks. Paul doesn't talk so much—and is as good as he talks."

**HAPPINESS RECIPE**  
**SENECA, Kan. (U.P.)**—On the 60th anniversary of their wedding Mr. and Mrs. August Haeffel gave their recipes for marital happiness. "Be silent if your companion is provoked," said Haeffel. Said the "companion": "Never start anything."

**DIGESTION RECORD**  
**BURLINGTON, Vt. (U.P.)**—W. Russell Pillsbury of Barre, a University of Vermont freshman, holds what is believed to be a new intercollegiate record—even if it isn't in the books. He recently ate 20 doughnuts in 29 minutes, 26 seconds.

**"DOG" WAS A SEAL**  
**NEW LONDON, Conn. (U.P.)**—Embarrassing moments. Chester Patches thought he saw a small dog drowning in Shaw's Cove, dived in fully clothed and was surprised to see the "victim" swim speedily toward the open sea. It was a small seal.

CEREAL RELIEVES DAUGHTER SO WHOLE FAMILY USES IT

Kellogg's ALL-BRAN Corrects Constipation\*

An enthusiastic and voluntary letter: "We have a daughter who has been troubled all her life with constipation."

"We have become 'ALL-BRAN' users, and now it is a part of our daily diet. We have told many of our friends and they, too, are getting results."

All-Bran provides gentle "bulk" to aid regular habits.

The "bulk" in ALL-BRAN is often more effective than the "bulk" in fruits and vegetables.

Isn't this food much pleasanter and safer than rickety patent medicines?

Keep on the Sunny Side of Life

Trade, employment, and manufacturing activity in the Prairie States are considerably better than the average for the entire country.

In closing I want to pass along the following idea which I have been thinking over as my train rushes eastward.

I would try to weed out all who are doing business below cost and discourage new ones who do.

to banks, the administration is still unable to get the banks to lend money—business to borrow. Bank loans continue to decline.

Whether dollar devaluation and the gold policy have been a success or a failure is a matter of argument.

Point to Past Triumphs The Roosevelt admirer, however, will mark back to the first year of the Roosevelt administration and point out many high spots in the record.

Bank rehabilitation. Repeal. NRA and its minimum wages and abolition of child labor.

And he will add that the New Deal has barely begun.

NEXT: Looking Forward With Roosevelt.

Allred Proclaims Prayer, Fasting

AUSTIN, March 1. (AP)—Governor Allred today proclaimed March 3 a day of prayer and fasting.

He would try to weed out all who are doing business below cost.

Stories in STAMPS

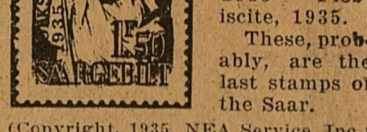

GETTING OUT the VOTE

UNIQUENESS in the experience of political spellbinding is the issue of a set of stamps urging the inhabitants of the Saar to vote in their recent plebiscite.

The stamps that brought the people to the polls were those of 1934, six showing figures of the Ludwigskirche at Saarbrücken.

Your Income Tax (CLIP THIS DAILY)

No. 29 Deduction for Losses Other Than From Sale or Exchange of Capital Assets

Deduction for losses are divided into four classes, and to be allowed must follow closely the wording of the income-tax law.

A loss sustained in the theft of an automobile purchased for pleasure or convenience is deductible.

All losses are deductible only to the extent to which they are not compensated for by insurance or otherwise.

Dramatic Thriller 'Red Hot Tires' at Yucca Theatre

First National's new melodramatic thriller, "Red Hot Tires," opens at the Yucca Theatre today.

The picture, based on "Fristam Thumper's" drama of the automobile race tracks, is filled with breath-taking action and death-defying stunts.

There also is a sensational court trial, a jail break and man hunt.

Lyle Talbot, Mary Astor and Gavin Gordon participate in a triangular love affair which ends in the death of one suitor and the success of the other.

Roscoe Karns adds a comedy touch to the otherwise melodramatic scenes as the loyal but somewhat dumb pal of Talbot.
