BLOODED STOCK ON EXHIBITION

Saturday's miniature stock show, at which time there were exhibited in the downtown section of Midland some outstanding registered and pure bred breeding animals, greatly surprised the general public.

Midland county farmers and ranchers, and those of neighboring counties, have gone through the hardest succession of lean years ever recorded in this section.

But during that time there was a gradual improvement of quality in breeding stock, applying to work horses, mules, dairy cattle, range cattle, saddle horses, sheep and poultry.

The exhibition Saturday gave an inkling of what may be displayed here in another year or two, when the "get" of these well bred animals are shown.

What then? We must have a real county or regional fair and stock show. Midland long has been notorious as a breeding center for range cattle. But since these animals have been exhibited there have been produced some good herds of blooded dairy cattle, horses and mules.

Never was the time for promoting an expansive livestock show more propitious. As the monthly trades day grows in interest and value, no better goal could be set than to organize one of the state's best annual stock shows.

HERITAGE OF DEMOCRACY

The career of the late Prof. Michael I. Pupin, who came to America as a boy in search of democracy, is abundant proof that he found precisely what he was looking for.

Young Pupin was a Hungarian peasant youth when he ventured across the sea. Democracy lured him—democracy, under which a lad of the humblest birth would have ample opportunity to exercise the best talents that were in him. He seems to have come to the right place to find it.

For he became, in democratic America, one of the world's best-known scientists. His inventions in the fields of the X-ray, telephony, and radio were used all over the earth. Democracy gave him its finest fruit—the chance to develop and use to the utmost the potentialities that Providence had given him.

Fulfillment of a quest like his is one of the most priceless heritages of our country.

ALIBI, BUT NO EXCUSE

Big-Navy Lobbyist William B. Shearer, grilled by a Senate committee, attempts to justify himself by asserting that every fight he made in the interests of a larger fleet was made at the request of officers in the U. S. navy.

It is time for everyone to realize that this does not justify Shearer, or any other lobbyist. It simply means that the naval officers themselves have something to explain.

Army and navy officers, in a democracy, are the servants of the civilian government. It isn't up to them to decide on policies. Their job is to execute the policies the civil government lays down.

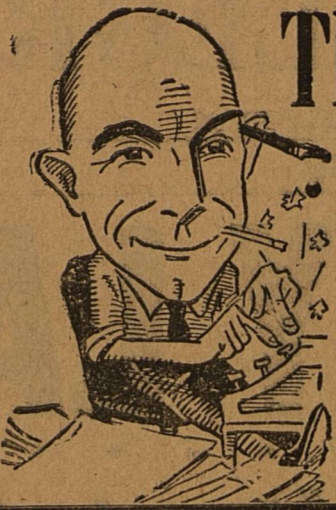

If Congress votes for a smaller military establishment, the officer has no business whatever trying to nullify that decision.

Naval officers who assist the schemings of a Shearer need to be reminded very sharply just who is boss in this country.

To Germany, in 1914, European peace pacts were mere scraps of paper. To Europe they've been scraps on paper ever since.

The Town Quack

(Reserves the right to "quack" about anything without taking a stand on anything).

I'm in favor of the movement they launched out at the stock show yesterday, of holding a first Monday on the first Saturday in each month.

The stock show grounds, around the new hitching rack, had a much neater appearance Friday evening than it had Saturday evening.

Golladay's big jack, on exhibition Saturday, looked out of the corner of his eye every time a tractor was parked, as if he thought, "That's where our business has been going."

George Romans believes he has a "believe it or not" His milk cow farmed out to Jack Wilmoth, had a calf and the next day the calf had taken up with Jack's work mule. Try as she would, the cow couldn't induce the calf to follow her. The midget stayed with the friendly mule. Finally Jack had to put the cow and calf in the corral and the mule in a pasture where he couldn't even come near the fence. Just another case of alienation of affection.

With all due respect to the dealers in trucks, tractors and machinery, all of whom I am strong for and hope to get a lot of ads from, their exhibits were used largely to sit on while the spectators looked at the horses and mules Saturday.

You can't keep the eye off of a fine looking horse.

Italy Aids Honeymooners

ROME (U.P.)—During the past two years 70,000 honeymoon couples, a large portion of them from foreign countries, have taken advantage of special railroad rates offered newly weds, official statistics revealed. Couples married abroad are granted a 70 per cent reduction in railroad fares throughout Italy while those married here are given 80 per cent discount.

European nations spent \$3,000,000,000, or approximately 16 per cent of their total governmental revenue, for national defense in 1933.

Dingy Teeth Draw Biting Comments, So Brush Twice Daily

By ALICE HART
NEA Service Staff Writer

"She's a marvelous dancer and really quite lovely looking," a male voice at the next table was saying. "If she had nicer teeth, she'd be the most attractive woman here. I don't think she bothers to brush them."

I almost wished that the girl in question could have overheard the conversation, too. It might have hurt her feelings for a moment, but even so, it probably would have made her resolve to be more fastidious about her teeth.

It's pretty bad beauty management to spend hours getting skin, hair and figure, into the pink of perfection yet show stained, ugly teeth when you smile. It isn't a bit necessary either. Twen-

ty minutes a day and two visits a year to a dentist will keep them in a condition that will bring forth favorable comments.

Get a dentifrice that is efficacious as well as pleasant to taste. The taste of the paste or powder may not seem important at all, but if you use something you hate, the chance are that you'll stop brushing before the ten minutes are up.

Scour up and down as well as acrossways. Be careful not to push the gums away from the teeth, but brush vigorously enough to remove not only particles of food, but actual stains. Use ordinary baking soda once a week. It doesn't taste good, of course, but it is an excellent stain-remover.

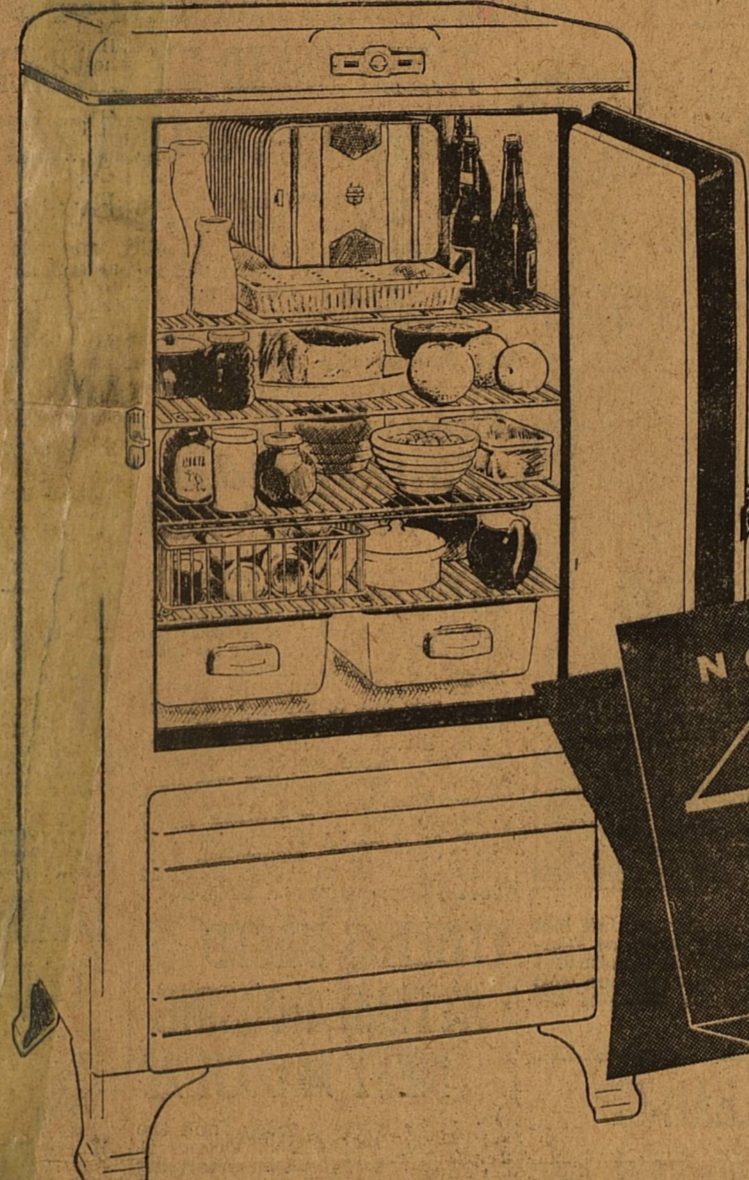

Vernon Davies, Caruthersville, Mo., counted the feathers of a chicken to settle a classroom question. His count was exactly 8537 and cost him hours of effort.

Takes Fire to Firemen
BELLAIRE, O. (U.P.)—This time, the fire was brought to the fire department. When a bus caught fire here, the driver calmly drove it a half block to the central fire station, instead of calling firemen to the bus. Charles Jewell, fire truck driver, quickly put out the blaze with a small extinguisher.

FRIGIDAIRE '35

**ON DISPLAY
AT OUR STORE**

**EVERY MODEL EQUIPPED
WITH THE SUPER FREEZER**

AND EVERY MODEL HAS THESE ADDED FEATURES

Of course every model of the Frigidaire '35—from the smallest to the largest—has the famous Super Freezer. And each one has automatic reset defrosting. Refrigeration starts automatically when defrosting is completed. Each one has automatic ice tray release. Trays can't stick—they slide out at the touch of a finger. And every model has a Hydrator that keeps fruits and vegetables crisp and garden fresh. And last but not least, each model has the famous Frigidaire Cold Control.

Today three million Frigidaires have been built and the manufacture of the Fourth Million has begun. No other electric refrigerator has ever won such amazing popularity.

Constantly through the years, Frigidaire has been made more efficient. In an endless flow, General Motors has added to Frigidaire conveniences and improvements that have set this one make apart from all others.

And now comes the greatest of all—the Frigidaire Super Freezer.

The Super Freezer makes possible a complete refrigeration service. It provides the right kinds of cold for

every purpose—all in the same cabinet. There's fast freezing for making ice cubes and desserts; frozen storage for meats and ice cream; extra-cold storage for keeping a reserve supply of ice cubes; moist storage for vegetables and fruits; and normal storage for foods requiring dry, frosty cold.

PAYS FOR ITSELF

There's greater economy, too. Operating costs are so low, and you can save so much money on ice and food bills, that your Frigidaire will pay for itself with the money it saves.

But see the Frigidaire '35 for yourself. Learn how easy it is to buy on our liberal terms. Come in today.

Easter Season Is Forecast in Entre Nous Party

Miss Theresa Klapproth entertained for the Entre Nous club at her home, 402 S. Marienfeld, Friday evening with a bridge party whose playing appointments forecast the Easter season.

Guests for the evening were: Misses Helen Milby, Fanny Bess Taylor, Marion Cartwright, Mrs. DeLo Douglas, and Mrs. Susie G. Noble.

Game prizes went to Miss Lotta Williams for high score among club members, to Mrs. Douglas for high score among guests, and to Mrs. J. B. Zant for high cut.

At the conclusion of play refreshments, with plate favors of Easter rabbits and chickens, were served to guests and the following club members: Misses Jerra Edwards, Juliette Wolcott, Cordelia Taylor, Lotta Williams, Mrs. Edredge Estes, Zant, Chas. Blalock, and the hostess.

Miss Edwards, who is soon to leave Midland and make her home in South Texas, presented each club member with a farewell gift packaged in white.

HEALTH HASH Cooked by MRS. ADDISON YOUNG

Not all accidents are unhappy. When the great Pasteur injected some dead cholera germs into a chicken by mistake, instead of live ones, an important discovery in preventive medicine was made—by accident!

Based on that accident have been the later discoveries of rabies vaccine, typhoid fever vaccine, diphtheria antitoxin, and toxoid; and new vaccines are being used in the prevention of infantile paralysis, common colds and pneumonia. These last three have not been universally accepted by the medical profession, but judging from the names of the men who have announced these discoveries, we may expect them to be accepted.

For many years conscientious men have been trying to perfect a vaccine for tuberculosis. Dr. Calmette of the Pasteur Institute in Paris worked for 25 years on a vaccine which he called "B. C. G." He died in 1933 and yet it has never been accepted by the medical societies of the world. However, two public health men in the United States have used "B. C. G." without any harmful results. One of these is Dr. William Hallock Park, of New York City health department, who announced last fall his discovery of

Parliamentary Drill For Fine Arts Club

The Fine Arts club will observe government and Federation day at its meeting Wednesday, March 27, at the home of Mrs. E. H. Ellison, 901 W. Kansas.

A preliminary drill will be held and all members are asked to reply to roll call with an answer to the question "Why I belong to a woman's club?"

The meeting will be opened promptly at 3:30 o'clock.

The infantile paralysis vaccine. The other is Dr. John Overton, city health officer of Nashville, Tenn., who has been using B. C. G. since 1928.

Dr. Overton says that if the vaccine is prepared by a laboratory man who will follow Calmette's instructions and employ safeguards, it's used without danger. Whether the disease cannot be known until the children who were given the vaccine have grown up, and control studies made of these individuals.

Other men have claimed discovery of vaccines against tuberculosis, but as yet the only sure method of prevention against this most prevalent of disease is to be born healthy, and stay healthy.

Mrs. Henry Butler and Mrs. B. H. Pope have gone to Abilene to give Myrtle Jean Butler dental treatment.

FORD V-8

First Car to Close the Gap Between Low Price and Fine Performance

THE FORD V-8 occupies a distinctive place among automobiles. There is no way to compare it with any other car because there is no other car like it.

The Ford enables you to step up into the fine-car class in performance, beauty, comfort and safety. But there is no stepping up in price. That is kept down by Ford low-profit policies and unique manufacturing methods. These are as different as the car itself.

What the Ford has done is to establish a new standard of value. Fine-car performance isn't limited to the well-to-do these days. The Ford V-8 has made it possible for the average motorist to have the kind of car that used to be beyond his reach.

It takes eight cylinders to give modern performance. And the Ford is powered by a V-8—the finest type of eight-cylinder engine. You have to pay more than \$2000 for that in any other car.

FROM THE \$2000 PRICE CLASS COMES THE V-8 ENGINE TO POWER THE MOST ECONOMIC FORD CAR EVER BUILT

Ford cars are priced at \$495 up. F. O. B. Detroit. Standard accessory group including bumpers and spare tire extra. Easy terms through Universal Credit Company. All body types have Safety Glass throughout at no additional cost.

Excursion Rate to California Posted

The Texas and Pacific Railway, through Frank Jensen, its General Passenger Agent, has announced three Popular Rate Excursions to California for the coming summer. The first excursion will fall on June 15th and 16th, the next on July 20th and 21st, and the last on August 17th and 18th.

According to Mr. Jensen, the tickets for each excursion will bear limit of twenty-one days and permit stopovers at any intermediate point. These tickets will be honored in chair cars of coaches, also in Sleeping Cars upon payment of pullman fare for space occupied.

Mr. Jensen said that similar excursions, operated during previous summers, have always proven very popular, and in view of the fact that the California-Pacific International Exposition will be in full swing at San Diego, during the entire summer, the demand for these excursions will, no doubt, be greater than ever.

Barker on Trial In Ft. Stockton

FORT STOCKTON, March 23.—Houston Barker, 26, paroled convict, went to trial in 33rd district court here yesterday on a charge of robbery with firearms. He was indicted last week by a Pecos county grand jury for holding up Mrs. Kate Padgett on a ranch near here last March 7.

Barker was arrested in San Angelo on March 8 by a posse of West Texas officers after an all-night chase starting at McCamey, in which he stole three cars, shot one officer and himself was wounded in exchanging gunfire with authorities.

Barker is also under indictment in Upton county on charges of robbery with firearms and assault with intent to murder.

Bermuda Onion Acreage Down

GARLAND, Tex. (U.P.)—A survey of the farming district here has indicated that the Bermuda onion acreage this year will be much smaller than was expected. About 7,500 acres of onions were badly damaged by freezing weather. Planters reset some 4,500 acres and this, too, was damaged by later frosts.

Salmon and Diver Pals

FORT ANGELES, Wash. (U.P.)—Walter McCray, diver working 20 feet under water drilling foundations, has a friendly salmon for a pet, he claims. "Fish hangs around a diver for days at a time," he said. "I have a salmon friend who comes each day to watch me. He gets closer and closer until now he is so tame I can pet him."

Aviatrix Sees Ocean Schedule

BOSTON, (U.P.)—Regularly scheduled transatlantic passenger flights are a possibility within two or three years, Amelia Earhart Putnam, noted aviatrix, believes. In an interview here she also predicted that automobile manufacturers in the not far distant future will be making inexpensive, fool-proof planes for the average man on a mass production basis.

Charlotte Hodgkinson, 22-year-old lass, made her first solo flight after only two hours and 27 minutes of instruction. She practiced imaginary flying while perched on a chair, with a broomstick as the "stick" of her plane.

Terraplane De Luxe Coach \$645 f. o. b. Detroit (Rear Wheel Shields Extra)

Steel All Around You ... Sides, Floor and the First Steel Roof!

In 1935 there is one subject, at least, on which every automobile engineer agrees—steel bodies, for greatest strength, greatest ruggedness, greatest safety! Steel—more steel!

But when you look at 1935 cars you find only one manufacturer who gives you bodies all of steel. Hudson, in the new Hudsons and Terraplanes! You want complete protection in your car. You get it in the 1935 Hudsons and Terraplanes. No compromise here! Front and back of steel. Floor of steel. Sides of steel. Steel doors, steel pillars, steel bulkhead in front—and the first steel roof—sound-deadened, solid, permanent. Not a single bit of wood in any structural part.

And how these cars do go! How they keep on going! Visit any Hudson and Terraplane dealer's showroom and try this new motoring experience.

THE ELECTRIC HAND
Easier, safer driving—faster, smoother shifting, with both hands always on the wheel. An exclusive feature, standard on Hudson Custom Eight; optional (for small amount extra) on all other 1935 Hudsons and Terraplanes.

SCHOOL MEET IS HELD SATURDAY

Indoor events of the county rural school meet were held in Midland yesterday afternoon and last night with Stokes, Pleasant Valley, Prairie Lee, McClintic, Valley View, and Cotton Flat all having entered in the literary events.

At press time the debates had not yet been heard and as a result final scores for the schools had not been announced but at last count, 6 p. m., Prairie Lee boasted a fair lead.

Individual winners in the events announced at six o'clock follow: Fourth Grade Spelling; Mazelle Brooks, Stokes was first and Ida Mae Reeves was second. Jerry Cook of Pleasant Valley finished third. Fifth grade spelling; Lotia Sanders, Pleasant Valley, Jesse Roy Hart, Prairie Lee, Iva Hart, Prairie Lee. Sixth grade spelling; Iva Grace Collier, Stokes, Evelyn Lewis, Stokes, Raymond Wright, Prairie Lee. Seventh grade spelling; Marion Taylor, Prairie Lee, Bernie Blalock and Carl Ward finished second and third respectively.

In the ready writers contest, Sidney B. Hart, Prairie Lee, Eula Jean Parker, Stokes. In the arithmetic contest, Idus Ray Flowers and Coleman Collier, Stokes, Earl Fain and Willis B. Brunson, Valley View, Raymond Wright and Marion Taylor of Prairie Lee.

In the choral singing contests; Stokes was winner of division 1, and Prairie Lee the winner of division 2. In music memory Stokes was the winner.

High school spelling, Arlie Bryant of Prairie Lee finished first and Sydney Hart of the same school second.

In extemporaneous speaking Eula Jean Parker of Stokes was winner. In the story telling, Willeatta Cook, Pleasant Valley, Imogene Johnson, Valley View, J. C. Flowers, Stokes.

ADMINISTRATION PLAYED BY HOOVER

SACRAMENTO, Mar. 23. (P)—Ex-President Herbert Hoover in a letter to the California Republican Assembly today, said that the recovery theories of this administration do not work and that the country must decide between government based on American principles of liberty and one of regimentation and bureaucratic domination.

Hoover further said that the paralyzing efforts of the mistaken governmental policies and activities must be removed.

More Tenderfoot Requirements Passed

Additional tenderfoot requirements such as knot tying, trail signs, and lags, were passed by Chaparral troop of Girl Scouts in their meeting at the American Legion hall Saturday afternoon.

Miss Scott was elected treasurer of the troop and it was voted to change the time of meeting from 3 o'clock until 4:30 o'clock each Saturday afternoon until Saturday morning from 10 o'clock until 11.

Million Swords Back Italy Peace Desires

ROME, Mar. 23. (P)—Premier Mussolini today increased the Italian standing army by 220,000 men to bring the total number of men in the Italian army to 675,000 men.

Following the announcement of the added army strength Mussolini said that Italy was ready for any threat of war, adding that the Italian desire for peace and European collaboration was based upon some millions of bayonets.

Approve Philippine Constitution Sat.

WASHINGTON, Mar. 23. (P)—President Roosevelt today approved the recently drafted Philippine constitution.

The action completed the last American step necessary for the establishment of home rule for the Philippines.

Senate Lays Aside Thomas Amendment

WASHINGTON, Mar. 23. (P)—The Senate today voted to lay aside the Thomas silver amendment to the relief bill. Thomas then offered the silver rider in modified form, eliminating two of the provisions in the first.

The move was the first drastic step by the Democratic leaders to speed passage of the long pending relief measure by preventing any undue argument on the silver bill.

Hal Peck's Racing Steeds at Dallas

Hal Peck's partner in horse racing, C. R. Parker passed through Midland last week with their string of 13 thoroughbreds, shipping by freight from California to Dallas. The animals will be stabled there for the season, "wanning" over to Arlington Downs the entries to be run each day there. They then will run at Dallas.

Parker, a Kentuckian, personally supervises the training and racing of the string. He and Peck, Midland and Amarillo oil man, have raced only five horses for the past few seasons but "picked up" a string of nine at California recently.

One of the horses broke a track record at six furlongs at the recent Phoenix race meet and rodeo, and the following day one of the Peck and Parker fillies followed up and broke that record.

Outlaw Files Motion For a New Trial Sat.

DALLAS, Mar. 23. (P)—Defense for N. C. Outlaw, Post attorney, sentenced to 15 years in federal prison on charges of subornation of perjury, said they would file an appeal motion today.

Outlaw was convicted on charges which grew out of a federal grand jury investigation of the slaying of Narcotic Agent Spencer Stafford at Post Feb. 7.

He was attorney for Sheriff W. F. Cato, one of four men charged with Stafford's slaying.

The attorneys said they would ask that bond be granted Outlaw while the case was on appeal. The hearing was set for 10 a. m. before Federal Judge W. H. Atwell.
