Happy Mother's Day!

"I had the meanest mother in the whole world! While other kids ate candy for breakfast I had to have cereal, eggs or toast. When others had cake or candy for lunch, I had to eat a sandwich, and, so you can guess, my supper was different from the other kids too! My sister and two brothers had the same mother as I did.

My mother insisted upon knowing where we kids were at all times. You'd think we were on a chain gang. She had to know who our friends were, what we were doing. She insisted if we said we'd be gone an hour that we be gone not one hour and one minute. I am ashamed to admit it, but she actually struck us, not once but each time we did as we pleased. Can you imagine someone actually hitting a child just because he disobeyed? Now you can begin to see how mean she really was.

The worst is yet to come! We had to be in bed by nine each night, and up early the next morning. We couldn't sleep till noon like our friends. So, while they slept, my mother actually had the nerve to break the child labor law. She made us work. We had to wash dishes, make beds, learn to cook, and all sorts of cruel things. I believe she laid awake at night thinking up mean things to do to us. She always insisted upon our telling the truth, the whole truth, and nothing but the truth, even if it killed us — and it nearly did.

By the time we were teenagers she was much wiser, and life became even more unbearable. None of this tooting the horn of a car in front of the house for us to come running. She embarrassed us to no end by making our dates and friends come to the door to get us.

I forgot to mention, while our friends were dating at the "mature" age of 12 and 13, my old-fashioned mother refused to let us date until the age of 15 and 18. Fifteen, that is, if you dated only to go to school functions, and that was twice a year.

My mother was a complete failure as a mother! None of us has ever been arrested or beaten his mate! Each of my brothers served his time in the service of his country. And whom do you think we have to blame for the terrible way we turned out? You are right, our mean mother! Look at all the things we missed — we never got to march in a protest parade, take part in a riot, burn draft cards, or a million things that our friends did. She forced us to grow into God-fearing, educated, honest adults.

Using this as a background, I am trying to raise my three children. I stand a little taller and am filled with pride when my children call me "mean." Because you see, I thank God. He gave me the "meanest mother in the whole world!"

## Clean Up Campaign Extended

Robert Elliot, Chairman, Civic Improvement of the Spearman Chamber of Commerce announced today that the date for the Clean-up Campaign have been extended to May 31. The rainy weather has hindered yard work and the committee felt that this would give everyone an opportunity to complete their clean-up project. The Committee appreciates the cooperation of the community towards making Spearman a clean and attractive town.

Saturday, May 17, has been designated as the official clean-

up day. Each businessman is asked to please help by keeping the sidewalk and gutter swept and cleared of trash in front of his place of business. This would help keep our shopping area pleasant and clean for the customers. Let's all work together and make this Spring Clean Up a success. If you have trash that needs to be hauled off call the city and they will leave a truck in the alley for you to load your tree limbs, trash and/or junk, then they will take it to the city dump.

Without a dissenting vote and without objection from the audience, members of the Spearman city council passed a resolution, Tuesday night, accepting low bids for construction of an airport and a fire station and authorizing contracts with the supporting agencies necessary and an ordinance issuing certificates of obligation in the amount of \$200,000.

Bids had been opened a week previous at the regular meeting of the council and remanded to the city engineer and the city's employed architect for study. The special meeting Tuesday night was scheduled for the purpose of proceeding with plans to accept the low bids and issue certificates of obligation to finance the two projects.

Contract for construction of the airport went to J. Lee Milligan, Amarillo contractor, with a low bid of \$180,994.18. This was in sharp contrast to a previous low bid of almost \$270,000.

Contract for the fire station building went to Traeco Building Systems, Dumas, with a low bid of \$104,760.

The action was item three on the agenda approached with an aura of cliff-hanger suspense which quickly dissolved into the boredom of reading verbatim the ensuing resolution and ordinance necessary to proceed with the two building projects.

Rumors had been rampant regarding a petition seeking to force issuance of the certificates of obligation to a referendum vote of the people. Prior to a special emergency meeting May 1, the petition held the needed names of five percent of the qualified voters within the city limits. As that emergency meeting members of the city council explained the facts of the proposals as they existed and provided for the removal -- by signature request -- of names from the petition.

Although more than 30 names came off officially, it had been rumored more names had been secured.

At the meeting Tuesday night, Mayor Ralph Blodgett called for item three which, in turn, called for Bob Davis, representing Fred Baker and Associates, fiscal advisors on issuance of the certificates of obligation, to introduce the resolution and ordinance to accept the bids and state the purpose to issue certificates of obligation in the amount of

\$200,000. When the "speak now or forever hold your peace" point in the reading was reached, Mayor Blodgett noted this was the time to present a petition if one existed.

No petition was presented. The meeting proceeded with the approval of the resolution and the ordinance.

The certificates of obligation will be donated "Series 1980" and will bear eight and one-half percent interest. Any or all of the certificates may be called in 1983 or upon any interest date of any year during the course of their maturing. If they are redeemed in part, then redemption must start with the longest term certificates or in inverse numerical order.

Optimism was high on the part of all the council members that sale of the land involved would proceed at a rapid rate and the certificates could be paid off well ahead of final maturity date.

There will be some time necessary for the signing of the contracts, the printing of the certificates but it was felt work could start on both the airport and the firehouse within 30 days.

Milligan had stipulated 180 days for completion of the airport.

Traeco had asked for 110 days days for constructing the new fire station.

It was noted that completion dates should be well ahead of these times but they are stipulated with space enough to deal with any exigencies that might arise.

The only other business to come before the special meeting, Tuesday night, was further discussion of a matter that grew out of the emergency meeting, Thursday night. The possibility -- and the feasibility -- of purchasing some property from Whitehouse Lumber Company adjacent to city hall arose. Mayor Blodgett said he did not see how the city could afford to buy it at any price but felt the complete proposition should be heard.

This involves an appraisal on the part of three separate qualified appraisers which the council moved to do.

Just prior to adjournment, Mayor Blodgett made a statement complimenting the people who had sought the referendum by petition:

"They disagreed without being disagreeable and I appreciate them for it."

## Bill McElreath Suffers Stroke

## Insurance Corner

### PUTTING INSURANCE DIVIDENDS TO WORK

When a life insurance company gives a policyholder his share of the distributable surplus under a participating policy, that sum is known as a dividend. It represents the insurance company's distribution of its earnings and savings in excess of anticipation. The most common use of a dividend by the insured is to reduce premium payments. The net amount of the premium is paid after the dividend has been deducted from it. There are, however, other optional methods of using the dividends. One of them is to increase the face of the insurance policy by the amount of single premium insurance policy by the amount of single premium insurance the dividend will purchase. This is, in effect, a way of purchasing paid-up additions. Another method is to let the company accumulate the dividends at interest compounded annually. Still another method is for the policyholder to take the dividends in cash. He will then receive an annual check from the insurance company.

## Mailbox Improvement Week

"It's time to do something for your winter-weary friend, the mailbox," says the Postmaster. "and the perfect time to do it is during Mailbox Improvement Week, May 19 - 24."

Residents are urged to examine their mailboxes to determine whether they have been damaged during the winter by weather or vandalism - particularly those located along rural routes.

"Some boxes may only need painting," says the Postmaster. "Others may need to be replaced. Mailbox Improvement Week is a good time to decide the best way to improve your mailbox. A damaged or improperly placed box will make it difficult for rural letter carriers to leave that special letter or package."

"The Postal Service does not restrict customers to a specific type of mailbox, but does say that all boxes - whether standard or custom-made - must meet certain specifications for size, strength and location. A variety of approved commercial mailbox designs are available for use with decorative posts. Customers should check with the Post Office for specifications," the Postmaster said.

"I would remind people that the mailbox regulations have been written with safety and efficiency in mind," said the Postmaster. "You should not use massive farm equipment or heavy objects like plows and milk cans filled with cement to hold up mailboxes. Supports of this type are potential accident hazards. They can damage vehicles and cause serious injury to people who accidentally strike them."

Other products include the 1978 and 1979 Mint Sets containing all commemorative and special stamps issued by the Postal Service during those years. New collectors can also obtain several topical stamp collecting kits being offered during the program.

The Postmaster explained that stamp collecting has become the world's most popular hobby, attracting more than 20 million collectors in the United States alone.

## Post Office Launches Spring Stamp Program

The Postal Service will launch a new program this month designed to acquaint its customers with the educational benefits of stamp collecting.

The Postmaster said the campaign, called "Collect the Spirit of America," will focus on stamps issued in recent years that commemorate various aspects of American life and history. "Our window clerks will be showing our various philatelic products to customers and answering questions about stamp collecting," the postmaster said.

Philatelic products offered by the Postal Service during the two-week campaign starting May 19 include **Stamps & Stories**, a 256-page book designed to introduce non-collectors to stamp collecting.

Other products include the 1978 and 1979 Mint Sets containing all commemorative and special stamps issued by the Postal Service during those years. New collectors can also obtain several topical stamp collecting kits being offered during the program.

The Postmaster explained that stamp collecting has become the world's most popular hobby, attracting more than 20 million collectors in the United States alone.

### JENKINS MOTOR CO.

Arlin Jenkins—Owner

Tired of the rising prices and "hidden" costs found at most new car dealers? Maybe it's time for you to get some straight facts about automobile values and just what's important in today's confusing transportation market. THE people to see for straight talk and honest values are JENKINS MOTOR CO. at 1505 Ripley in Pampa, phone 665-6632. They're THE used car specialists!

With every manufacturer cutting corners, trying to get production up and costs down . . . quality must suffer. This is one lot where you can still get a car "built like they used to build 'em!" Every vehicle that comes in is completely inspected before it goes on the lot, and the result is a better, more reliable car than even many new car dealers can offer.

Sound too good to be true? There's only one way to find out for yourself, and that is to drop in at JENKINS MOTOR CO. and look over their lot full of values! The writers of this 1980 PANHANDLE BUSINESS REVIEW recommend this dealer for good used cars and deals.

# Powderpuff Here Saturday Night 6:30 P.M.

*"Welcome To Our World"*

by Criselda Vela

There are 7 kinds of football that I know of; the hard-contact Professional football; College football; High school football; Junior high football; 3 on 3 Celebrity-style football; Touch football; and finally PowderPuff football. All of these football games sound fun and exciting except for the last one, right? The PowderPuff football sounds as if the players, which are girls, will go to the restroom and fix their face and hair every chance they get, right? Well, not exactly. The game is not like that at all. I played PowderPuff football all four years of high school, and let me be the first to tell ya'll, the girls take it as serious as the Lynx boys take the Bi-District game or as serious as the Cowboys and Oilers take the Play-Offs.

fun; the girls fight hard, sometimes accidentally tackling, and the only thing they probably think is fun about the whole night is the dance after the game. The girls practice every afternoon, Jr. & Soph. from 3:30 to 5:00, Sr. and Fresh. 6:00 to 8:00. So ya'll go out and watch them practice and see how good they really are. The teams consist of the Seniors and Freshman together against the Juniors and Sophomores. I believe that this year the game is going to be **fast and slippery**. And if you look real close you can almost see famous players in those girls. Like the razzle-dazzle **Tony Dorsett** runs; the on target **Roger Staubach** passes; the one handed **Billy Joe DePree** catches; the I-can't-believe **Drew Pearson** catches, etc. If ya'll think I'm exaggerating, go out to the practice and see for ya'llselves; ask some of

the players why exactly they're playing; and then go out Saturday evening at 6:30 p.m. and see if I was exaggerating! Everybody in high school that wants to participate can: for example: the Senior boys can be the Coaches for the Senior Freshman girls; the Junior boys can be the Coaches for the Junior & Sophomore girls. Some of the Sophomore boys get "chosen" as the Queen and escorts for the game; and some of the Freshman boys get "recruited" as the Cheerleaders for both Powder Puff teams. The name of the Seniors/Freshman team is the Greedy's and the name of the Juniors/Sophomores is the Needy's.

is that the girls don't tackle purposefully and it's fun. Another reason so many girls play is that the girls that don't play competitive sports in high school can play if they want. The con-competitive girls will get a chance to beat those competitive girls in some places of the team. But I suppose that the biggest reason so many girls want to play in the Powder Puff, is that the non-competitive girls will get a chance to beat those competitive girls in some places of the team. But I suppose that the biggest reason so many girls want to play in the Powder Puff, is that the non-competitive girls sometimes don't even have time to talk to the girls that practice basketball or track or whatever, but they surely don't have time to talk to girls that are not in sports, right? Right! The other question is--Do Best-Friends

become Best-Enemies? Well, the four years that I played, we never had that problem and I believe we never will!! I interviewed a few players and coaches. The first one I interviewed was Penny Cummings, who is a Freshman or better yet a Greedy member, and she felt strong about winning this Saturday. I asked her why she really played in this PowderPuff. Her answer was unique "I know it will be fun, and, since, I've never played any kind of football! I know it will be a new experience." Then I asked her if the Greedy's lost if she would play again next year, and her answer was not unusual, that's for sure! "If my team loses this year, I will play next year to beat the other team." Smart thinking. Actually it's really Pride of oneself. I also interviewed Valerie Suzann Hagerman, a Senior--also a member of the Greedy's. She told me that this

was her 4th year in this PowderPuff business. So you all can tell she's had experiences. I asked her if the practices got harder each year and she said yes. I also asked her if she had to try harder for her position--since she's a Senior and the Coaches are Seniors too, everybody would expect Valerie to get her position with ease, right? Wrong!! Valerie said it herself: "A person has got to try harder each year so that new girls and faster girls will not be able to beat you." She told me that the practices got "Longer and longer" through the years. Ya'll girls starting out remember what Valerie said. "You've got to practice twice as hard as your opponent no matter how long the practices are!"

nesday. She showed me the arm, and, let me tell ya'll, it looked swollen to me. I went to the practice Thursday and it looked like to me that, with her throwing arm as swollen as it was, that she threw a lot better. Perfect passes. I WANT TO WISH THE GREEDY'S AND THE NEEDY'S THE BEST OF LUCK AND MAY THE BETTER TEAM WIN!

## Donations Needed For Fireworks

This year, the Chamber of Commerce has NOT budgeted monies to finance the fireworks for the 4th of July. If we, the community, do desire fireworks, the money must come from private contributions.

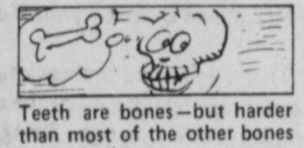

Commerce to accomplish the watermelon and fireworks festival. If you would be interested in having the Chamber of Commerce sponsor a July 4th festival, please call the Chamber Office and state your position and your contribution. Chamber Of Commerce telephone number is: 659-3330. CALL TODAY !!!

However, the Chamber of Commerce is thinking of having a watermelon feed free to the public before the start of the fireworks display.

In conjunction with this, on the 4th, the YMCA is planning an afternoon of fun and games.

We feel that altogether, a full afternoon and evening would keep our local people at home and even draw in people from the surrounding areas.

We will need approximately \$2,500.00 for the Chamber of

BEFORE THE TEXAS HEALTH  
FACILITIES COMMISSION

### AFFIDAVIT

I, \_\_\_\_\_, reside at \_\_\_\_\_,

\_\_\_\_\_, Texas. I am unable to attend the hearing in Austin, Texas on June 3, 1980 because of the great distance and cost, but would present the following for consideration by the Texas Health Facilities Commission:

- (1) I am aware of the application by Hansford Hospital in Spearman, Texas, to construct a 54 bed nursing home adjacent to the Hospital.
- (2) I fully support the application and efforts of Hansford Hospital and feel this facility is desperately needed.
- (3) I am \_\_\_\_\_ years of age and plan to use this facility when completed if necessary.
- (4) I will utilize the proposed nursing home if it is approved because I do not want to leave my home and friends to receive nursing care in Amarillo or Pampa, Texas.

I do solemnly swear or affirm that I have read the foregoing statements and they accurately and truthfully reflect the testimony I would have presented to the Texas Health Facilities Commission had I been able to attend the hearing on June 3, 1980.

We the members of the Hansford Hospital District and the Spearman Ministerial Alliance ask for your support and help in establishing sufficient documentation in order to support the need for the Hansford Convalescent Center. In order to fill out a copy of the Affidavit Please call Hansford Hospital 659-2535 or 733-2954. Your Affidavit must be in by May 19, 1980.

## HOW TO CREATE A DISASTER... A DIME AT A TIME

### An Open Letter to the Public

We, the Texas Oil Marketers Association, hereby express our total and absolute opposition to the proposed 10¢ per gallon Gasoline Conservation Fee to be imposed on May 15, 1980.

We believe the negative impacts of the program on all Americans far outweigh any possible reduction in crude oil imports and energy conservation. Specifically, President Carter's ten-cent per gallon gasoline fee will:

- Result in serious supply shortages in rural America and in agricultural communities.
- Drastically reduce 1980 farm crop output and raise food prices for American consumers.
- Add \$10.3 billion to the cost of gasoline during the first year of the program and unnecessarily increase the price of all other petroleum products.
- Place a disproportionate economic burden on low income families, rural areas and small businesses.
- Increase nationwide inflation the first year by at least 1%.
- Make it impossible for small businesses to assimilate the overnight increase of 8% in gasoline product cost.
- Bring about disastrous effects on American farms, businesses and consumers; no economic analysis of these effects has been prepared.
- Constitute taxation without Congressional representation.
- Inequitably places this tax on gasoline, which is only 45% of a barrel of crude.

For these reasons we have asked that President Carter withdraw the Petroleum Import Adjustment Program and the Gasoline Conservation Fee prior to its scheduled implementation on May 15, 1980. Absent Presidential action we have further requested that the United States Congress take appropriate and swift action to spare all Americans by halting this inflationary program.

It's not too late to stop it! Write your Congressman, U.S. House of Representatives, Washington, D.C. 20515, and your Senator, U.S. Senate, Washington, D.C., 20510.

Respectfully,

John Calhoun
