Morse Fire Takes Lives of Two Boys

A tragic fire early Friday morning in Morse took the lives of two small boys and destroyed the home and all of the belongings of the Dale Packard family.

The first call came in at approximately 1:15 A.M., Friday, Units from Morse, Gruver, and Spearman answered the call. Chuck Rigdon of the Spearman Volunteer Fire Department stated that by the time they arrived the walls of the house were gone. The men attempted to enter the house to rescue the

children but were unable to do so.

Killed in the fire were Curtis Packard, 3 years old and Christopher, 1 year old. The family includes the parents of the children, Mr. and Mrs. Dale Packard and two other boys, age 6 and 8.

Bond Election To Be Called

A special meeting has been called for Monday, May 17 at 1 p.m., for the purpose of calling a bond election to provide local marching funds for the EDA grant to rework the gas and water systems fo the city. The bond election will be for \$265,000 which will pay the \$217,000 matching funds and for \$48,000,00 for additional repairs to the water system. The \$48,000 will be used for cathodic protection, repairs and

that they lost \$35,000 of gas consumption this past year due to leaks in the present system. This past month which was a light month in gas usage, the estimate of loss was \$1,000. Before some of the gas lines were repaired last year the city estimated that they were losing some \$90,000 in gas yearly as well as the hazard that exists. The other \$137,000 part of the grant will be spent on the water system, drilling an additional water well in the south part of town, probably in the Rocket Slide Park, building a transmission line to the into the south gate of the water system, and installing a half million gallon ground level storage tanks. This will give the city 1.5 million gallons ground level storage tanks. This will give the city 1.5 million gallon overhead storage for water.

At the present time the city does have enough water with all wells pumping to fight a major fire if one should occur.

He suffered fractures of the jow, wrist and heel, concussion and possible internal injuries.

The Perryton ambulance taking Rogers to the Amarillo Emergency Receiving Center broke down at Panhandle, where a Metro ambulance from Amarillo picked up the injured man and completed the run.

The regular hospital board meeting held Thunday evening, was well attended by interested persons, and the hospital board. President of the board Everett Vanderburg welcomed everyone who was in attendance, and opened the meeting for regular business. First on the agenda was the approval of the last meeting held and a special meeting which was held. These minutes include discussions with

Gas Hearing To Resume Monday

Mayor Raiph Blodgett, city attomey J. E., Blackburn and city manager Mark Neff were in Austin Wednesday and Thursday at a hearing before the Railroad Commission which was a continuation of the case before the commission brought by High Plains Gas Company who is asking for a gas are increase from the cities of Spearman, Perryton, Booker, Higgins, Bobettle and Canadian, and all unincorporated communities being served by the company.

and all unincorporated communities being served by the company.

Wayne Brown, CPA of Pampa, was on the stand all day Wednesday giving testimony for the clites being involved and being cross-examined by the gas company attorneys. Engineer Bill McMorries, of Amarille, testified on Thursday, but the cross-

examining was not finished so the hearing will reopen Monday, May 24 at 9 A.M.

City manager Neff, and city attomey Blackbum will be going back Monday to the hearings, Neff stated that he thought the hearings would be ended by Tuesday at the latest but could not state just how the case was going. It is hoped by Spearman city officials as well as officials of other towns that a decision will be made that will give High Plains G as Company a fair amount of return on their investment and still keep the cost to consumers as low as possible.

--- LETTER TO THE EDITOR =

Dear Editor: I attended the regular meeting of the Hospital Board of Directors last night, being interested in the decision I understood would be made concerning the Hospital Administrator and, by extension, Dr. Thomas. As was mentioned by one of the Board Members in the meeting, it had come to the point that either Mr. Anderson would leave, or Dr. Thom-as would leave. After threshing the cuestion for two hours in a closed session the meeting was opened and the decision was announced to those of us still there. By a three-two vote Mr. Anderson was

requested to continue as hospital administrator.

This group of men has been under a great deal of pressure the past several weeks from people of the community who were worried sick about the prospect of losing, not one but two doctors. The Board has been presented with a petition asking them to do everything in their power to keep these doctors, containing 720 signatures -- and had the petition been more mildly worded, thre would undoubtedly have been many more names on it. They were also under the pressure of what amounted to an ultimatum to release the administrator or lose the doctor. Were I in their shoes, I'm afraid that I would have voted as the three did, out of resentment and irritation (not that they did) In fact I was surprised it wasn't 5-0. Much credit is due the two in the minority. I get the impression personal feeling to vote as he did. I'll concede each man voted his conviction of what would be best for the hospital and community, but gentlemen -- YOU MA DE A WRONG DECISION!

felt that he could not continue to work with the hos-pital administrator? Simple non-cooperation. This is not a situation that devloped over night. In the three only been our Doctor, but a personal friend (he neither authorized me to speak for him or knows that I am), and I know that as long as 1 1/2 to 2 years ago he was considering other possibilities, just to get out of a sit-uation of constant frustration where any suggestion concerning hospital supplies or equipment or training programs met a negative reaction from the adminis-trator. Not that he wanted to "run the hospital", but trator. Not that he wanted to "run the hospital", but he thought he could make useful suggestions from his special knowledge on how the hospital (OUR hospital) could function more efficiently and effectively. The lack of a flashlight in the emergency room or the little rubber hammer that tests reflexes (that I heard mentioned last night) was never the bone of contention, they were simply the ultimate, silly conclusion of such a policy of non-cooperation. I don't think Mr. Ander-

son's relations with the other Doctors have been cordial either. Low key effort on Dr. Thomas' part to make the Hospital Board aware of the way things were developing did not meet with much success, perhaps because they were of necessity closer to Mr. Anderson's side of the story, because they meet with him at least once a month. The hospital's by-laws and regulations provide that the staff (that includes the doctors who practice in the hospital) will meet with and consult with the Board regularly, concerning hospital opera tions. This has not been done -- if it had, I don't think we'd be where we are now. (However one Board mem-ber stated it would be dore in the future.) At any rate, it's my belief that Dr. Thomas, in desperation, finally, reluctantly, came to the conclusion that drastic mea-

sures were required to get the Board's attention.

One visitor at the Board meeting inquired whether the Board was in contact with other Doctors about locating here. On receiving an affirmative answer-("yes--2 or 3"), he inquired as to their nationality,
and the reply was two Philipinos, and I think another
overseas resident--that's the route you have to go these
days to even get a hint of a possibility of a Doctor. And if an MD, a US Native, should look into this situa

tion, one of his first questions would be "What happen-ed to your other doctors?" And then--"10-4, Good buddies, I'm gone". I have heard it stated several times recently that "Administrators are easier to find than doctors", and that's a blunt, even brutal, way of stating a cold, hard fact.

WE CAN'T AFFORD THIS ADMINISTRATOR AT THE that he is one of the best. I have heard it said of him that he has kept the hospital in the black—that's not too hard to do when you have the power to tax. Local taxes raise about \$100,000 a year for the hospital—AND THIS YEAR'S \$100,000 IS ALREADY GONE—the Board had to vote last night to seek to borrow against next year's taxes \$20,000, just to pay the fills that they had before then. What's going to happen if this kind of deficit arises every month until the end of the year? (And with fewer doctors, it will,) I foresee a breathtaking increase in the Hospital taxrate for next

year.

Not only was there overriding concern evidenced by the citizens in the form of the petition, but the Hospital Staff also overwhelmingly supports Dr. Thomas. So I am pleading with the Hospital Board--"Gentlemen, PLEASE reconsider this decision", If you don't, the only way I can see to salvage anything is for Mr. Anderson to voluntarily, unequivocally resign.

white wicker baskets of blue daisy mums and yellow gladiolas decorated the altar. Two gold fron wrought candleabra's were placed to the side of the two seat kneeling bench. A spray of yellow and blue daisies decorated the center of the bench. Each of the six stained glass windows were lit by three candles trimmed with greenery and bows. The unity candle was placed on blue satin with a white candle on each side. A daisy wreath circled the candle.

Mr. Vernon Zollars played traditional music and accompanied Mrs. Loren Bamgrover, Jr., as she sang "Wedding Second".

ed traditional music and accompanied Mrs. Loren Bamgrover, Jr., as she sang "Wedding Song" and "We've Only just Begum". Mrs. Barngrover also accompanied Mr. Zollars as he sang "The Lords Prayer", both are of Dodge City.

Escorted and given in marriage by her father, the bride chose a gown of satapeau over satin, Imported venice applique's dotted with pearls accented the bodice, High neckline and bishop sleeves. Her a-line skirt was accented with applique's and the hemline of the skirt and chapel length train was edged in lace with pleated fluting.

She carried a cascade of yellow sweetheart roses and white babysbreath surrounding an Orchid, which was later lifted as her going away corsage. Yellow streames hung in love knots. The bride carried out the traditional something old, something new, something blue. Her something old was a New Test-

ament Bible given to her great great aunt in 1888. It was covered with white satin and lace from her aunts' wedding dress. She carried as her something new a white Bible given to her as a present from the groom. A diamond necklace was borrowed from her mother, and she wore the blue garter and the lucky penny in her shoe.

drive systems.

We even designed the size of the water drop so it gets way down where it does the most good.

And the people who installed it will be the same people who service it. Whether you need a pivotal system, an underground PVC system, or an aluminum surface system, you just can't outdo us.

All you have to collect the dat your part. That should give you a very good idea about what to expect in the future.
