## Women Charge They Brushed Off By GOP

By RUTH COWAN  
CHICAGO (AP)—Early-arriving women leaders of the Democratic National Convention say they believe the Republicans gave women "the brush-off" at their presidential nominating pow-wow last week.

## Mrs. Teele Visits GOP Convention On Trip To Mid-West

GARDEN CITY, July 15—Mrs. Walter Teele has returned from a trip to the Mid-west that included the GOP national convention. At Oklahoma City she had been joined by her brother, James Cummins, and they flew to Rochester, Minn., for her annual check-up at Mayos. Armed with the knowledge she was in top condition, they set out to visit Minneapolis, St. Paul and the scenic spots nearby including the waters of Minnehaha. They had no idea that they could get a room in Chicago because of the Republican convention and had planned to go on to Des Moines. Out of curiosity, they asked at the Conrad Hilton, headquarters for the candidates, and promptly got rooms.

"We just told them we were from Texas," she said. "I guess they thought we were Republicans." They got in the coliseum for the convention, too, simply by announcing they were from Texas, although neglecting to mention they were Democrats. Mrs. Teele got to see a number of celebrities, including Actor Gene Autrey. Simply by wandering across the street from the hotel into Grant Park, she and her brother got to hear Eisenhower make a talk.

Democratic national committee vice chairman, "the Republicans made votes for the Democrats among women by the way they treated women." She had special reference to enlargement of the Republican National Committee which she said was done in such manner that even Republican women protested. Women in both parties believe it will work out so that the new members will be mainly men. Mrs. Edwards said that the 32 additions to the Republican National Committee would be generally state committee chairmen. "And aren't they men?" she asked. Mrs. Edwards said she had heard of no similar move in the Democratic committee.

Democratic women who are arriving daily from all parts of the country to attend the convention are frankly gleeful that the Republicans preceded them. This gives them a chance to try to top them. The Republicans had one partitioned-off room in the basement of the headquarters hotel, the Conrad Hilton, for their women's division. The Democrats have a wing of about 12 rooms on an upper floor with a lake front view. The Democratic women's division announced that Democratic women delegates and alternates total 535—145 more than the Republicans.

## DeMolay Plans District Meet Here Saturday

Chapters from Odessa, Midland, Brownfield, Snyder, Sweetwater, San Angelo and Big Spring will convene here for a district DeMolay meeting Saturday.

Purpose of the party, which is due to draw several score young men here, is to select district representative to the state convocate at Waco on Aug. 23-24.

There will be competition in degree work, and the chapter with the winning team will compete with other district winners at Waco.

In addition, there will be competition in various sports including basketball, tennis, softball, swimming, golf, track and bowling. Winners will be named to represent the district in the state convocate.

Registration will be at the Big Spring Shrine Club, 710 Security. Competition in sports events will begin at 9 a.m., and the degree competition will begin at 2 p.m. in the (Staked Plains Lodge AFAM) Masonic Hall at Third and Main. All master Masons are invited to attend any or all events.

The evening meal is to be served at the Shrine Club from 6 p.m. to 8 p.m., and refreshments will be served at the Masonic Hall.

## Study Of Health Needs Is Opposed

HOUSTON, July 16 (AP)—A one-day hearing by President Truman's commission to study the health needs of the United States was opposed by the Harris County Medical Society yesterday.

The commission, which has stirred some amount of controversy in the American Medical Association and in other places, had designated Houston as one of the eight cities where open hearings would be held. The county society's executive board wrote Dr. Paul B. Magnuson, commission chairman, that it was refusing to co-operate with the program.

The open hearings were planned to gain a cross section of public opinion on the health needs of the country. Houston physicians, their letter said, feel that such information would be valueless. "For these, and other reasons, the executive board wishes to go on record as opposing the one-day study of the commission."

# Election Law Broken, Says Yarborough

By CLAYTON HICKERSON  
Associated Press Staff

Wrangling party factions—Democratic and Republican—and anxious committees for state office accented the Texas political story Wednesday.

The governor's race, at high temperature after a slow start, furnished most of the fireworks, but the quarreling Republican and Democratic factions promised more to come.

Loyalist and pro-Shivers Democrats Tuesday night released contents of explosive briefs they will present to the party's credentials committee Friday in Chicago.

Gov. Allan Shivers, speaking on the third anniversary of his inauguration, asked for re-election so he could push modernization programs for the state's hospitals and prisons.

Ralph Yarborough, trying to unseat Shivers as governor, urged higher salaries for teachers and charged the governor with violation of the state's election laws.

There were these other developments: 1. Jack Porter, new nation's GOP committee man from Texas, said his Eisenhower forces would not attempt to change the date of this month's Republican precinct conventions.

The conventions, set for July 26, same day as the Democratic primary, "will prove that we are not overcast Republicans," Porter said. State law forbids a voter taking part in the primary vote and the GOP conventions.

2. The Republican executive committee will have its harmony meeting in Dallas Monday morning instead of Saturday as originally planned.

Changing in the date for the "let's be friends" meeting came along with reports in Dallas that "faint but unmistakable notes" began to be heard. Eisenhower leaders obviously were skittish about the meeting proposed by Old Guard Republicans.

Orville Bullington, state GOP chairman, said the date was changed to allow more time for members of both sides to be notified.

3. Candidates for U. S. Senate kept up the furious pace they have set for weeks. Rep. Lindley Beckworth's schedule sent him steaming from Bryan up through Central Texas to Rockwall by 8 p.m. Wednesday night. Other stops included Waco, Hillsboro, Waxahachie and Terrell.

Atty. Gen. Price Daniel set appearances for San Marcos, New Braunfels, Seguin, Gonzales, Cuero and Victoria.

E. W. Napier campaigned at Crowell, Vernon, Electra and Wichita Falls.

4. Gov. Shivers cast his absentee ballot in Beaumont Wednesday and urged other Texans who planned to be away from home primary election day to cast their absentee ballots at their courthouses.

Shivers was to campaign in Beaumont and Houston during the day. Yarborough charged in his speech at Waco Tuesday night that the Texas Oil Jobbers Association, Inc., had mailed circulars advocating Shivers' re-election.

The candidate said Texas laws "forbid a corporation to contribute money or anything else of value" to any political campaign.

"This is the very law that your chief executive (Shivers) signed, saying it would purify Texas politics," Yarborough said.

George Hofmayer, secretary of the association, said the brochure was sent out, together with other literature advocating the candidacies of Price Daniel for U. S. Senate and John Ben Shepperd for state attorney general and with a "covering letter."

Hofmayer said the mailing went to "a list of 600 or 800 people" without the knowledge of the candidates and that his organization, a state association of wholesalers, did not know the mailing violated state law.

"If there was an error," he said, "it was ours."

Yarborough said the average teacher's salary in Texas is 12 per cent below the average worker's. If teachers salaries had increased in proportion to others, he said, they would be \$615 per year higher.

"Some people think today that because of the Gilmer-Alkin Bill that public school teachers are sitting pretty," he added.

The candidate again rapped the Shivers proposal that all gasoline taxes be used for highways. Now one of each four cents goes to the school fund. Yarborough said such a move would "virtually cripple our public school program."

The governor said in his state-wide radio broadcast that he found it significant that unbiased observers feel that his administration has done a good job. He continued:

"In an era when high taxes, debt and graft have been widespread throughout the nation, the honesty, efficiency and integrity of your state government have not been questioned—except by those who seek to undermine your confidence in all your public officials for their own selfish political purposes."

"If I have made mistakes, they have been mistakes of the mind and not of the heart."

He listed the prison program and the state hospital program as two

## Riding THE GRUB LINE With Franklin Reynolds

STANTON — There is certainly nothing backward or unprogressive about this Martin County capital, and yet it remains one of the few places, if not the only one, in the civilized world where a weary traveler can get a cup of coffee for five cents.

And that coffee served here for a nickel, isn't just coffee—it's coffee made with Martin County water and there's a big difference. No matter what brand of coffee Big Spring housewives use they are going to notice a big change when their town finally gets some of this Martin County water.

Once that pipeline is full and distributed into the Big Spring mains even the cheapest grades of coffee are going to taste better than the best grades taste now. In the meantime Big Springsers want to take a nice drive, with a delightful cup of coffee (Martin County water-made), should motor over to Stanton and refresh themselves.

The schedule for the Martin County Farm and Ranch tour planned for Friday, July 25, has been completed. It has been announced by County Agent Ray Hastings, chairman of the Agriculture and Livestock Committee of the Martin County Chamber of Commerce which is sponsoring the trip.

The caravan will move out from the Courthouse in Stanton at 9 a.m. and the first stop will be made five minutes later at Norman Blocker's. At 9:30 it will reach Homer Lee Hull's place; at 10 o'clock Walter Kelly's irrigated farm; at 10:30 Owen Kelly's; at 11 at Les Hull's and at 12 noon it will drop in upon the J. C. Sale Ranch where dinner will be served by the Martin County Home Demonstration Council.

A charge of six bits will be made for this dinner which is one of the greatest food bargains ever offered in West Texas. The Grub Liner has seen the menu and it calls for a \$5 spread—all for six bits.

At 1 p.m. the group will move out to Leroy Mattingly's and at 2 o'clock the last stop will be made at Ghendinning's. Back home to Stanton by 3 p.m. and everybody will have an enjoyable time, a most excellent dinner and will be lots better informed on the agricultural situation in Martin County.

Mrs. Hila Weathers, manager of the Martin County Chamber of Commerce, has been telling her husband what wonderful malted milk shakes can be gotten in Stanton. Yesterday afternoon he came over to find out for himself—and while they were out of the office (and she was paying for his milk shake) the Grub Liner dropped in and found young Robert Whittaker occupying the manager's chair, and making out with a top job of running the place, too.

Robert, who is "eleven and a half years old is the son of Mr. and Mrs. R. B. Whittaker. The elder Whittaker is a past president of the Martin County C-C.

Weathers said he wished he could get the same kind of milk shakes in Midland. Stanton's milk shakes, like Stanton's coffee, are mighty good. The shakes are made with Martin County milk from cows that drink Martin County water. That's the secret.

Bruce Frazier Sr., owner and operator of the Mustang Ranch, about three and a half miles north-east of Germanis, and co-ordinator of the Martin County Veterans Vocational Schools, showed the Grub Liner some most unusual mesquite beans. Most of the surface of them is a cherry-red color and they're perfectly curled up in a rounded shape looking almost like a shrimp. The circumference of them is just slightly larger than that of a two bit piece.

Frazier has labeled them "shrimp mesquite" and has sent a box of them to J. Frank Dohse at Austin. The Martin County rancher says he has never seen such a thing and neither has anybody else to whom he has shown them. The only explanation he can find for them, he says, is that nature shaped them and colored them up that way so as to fool hawks and other large birds into believing they're worms in order to get them scattered and thereby increase the mesquite population. He doubts if the drouth has had anything to do with creating these freak beans.

He says he thinks it's just one of the mesquite's devious way of preserving itself and of enlarging its domain.

Frazier says there are 10 or 12 young mesquite sprouting from every cow chip in his pasture. This rancher and conservationist has already planted 70 acres of Guar in getting that much land ready for a native grass seedling next year. Yesterday he ordered another 500 pounds of Guar to seed another 50 acres, making him 120 acres of Guar in all. He says he believes this crop offers a wonderful opportunity to West Texans to build and protect their soil while at the same time getting a cash income.

As of August 1 Frazier is moving the office of the Vocational School program from its location in Stanton to Mustang Ranch. Now there are only 28 students in the school, in two classes of 13 each. Five of these are from Midland County and the other 21 from Martin. Frazier is now the only teacher and he will continue to hold classes in the Vocational School building just south of the T&P tracks in town.

The school was organized January 1, 1947, and Frazier has been co-ordinator ever since. All the students are veterans of World War II. In all there have been 275

# Truman Is Getting A Medical Check-Up

WASHINGTON, July 16 (AP)—President Truman entered the Army's Walter Reed Hospital today for a check-up.

The President was stricken with a mild virus infection on Sunday. It had been described by his aides as not serious, but all his appointments had been canceled this week.

Press Secretary Joseph Short told reporters the President may remain at the hospital for "two or three days."

The virus infection, Short said, has been pretty much cleared up. He said Truman's fever "has about gone."

The President left the White House at 5:40 a.m. (CST) and entered the hospital 20 minutes later. He was accompanied by Maj. Gen. Wallace H. Graham, presidential physician.

White House reporters could not recall that Truman ever entered a hospital for as long as two or three days since he became President more than seven years ago. Truman was admitted to the presidential suite at the big military hospital in northwest Washington.

This marked the first time the suite was used by the President since it was prepared for him several years ago.

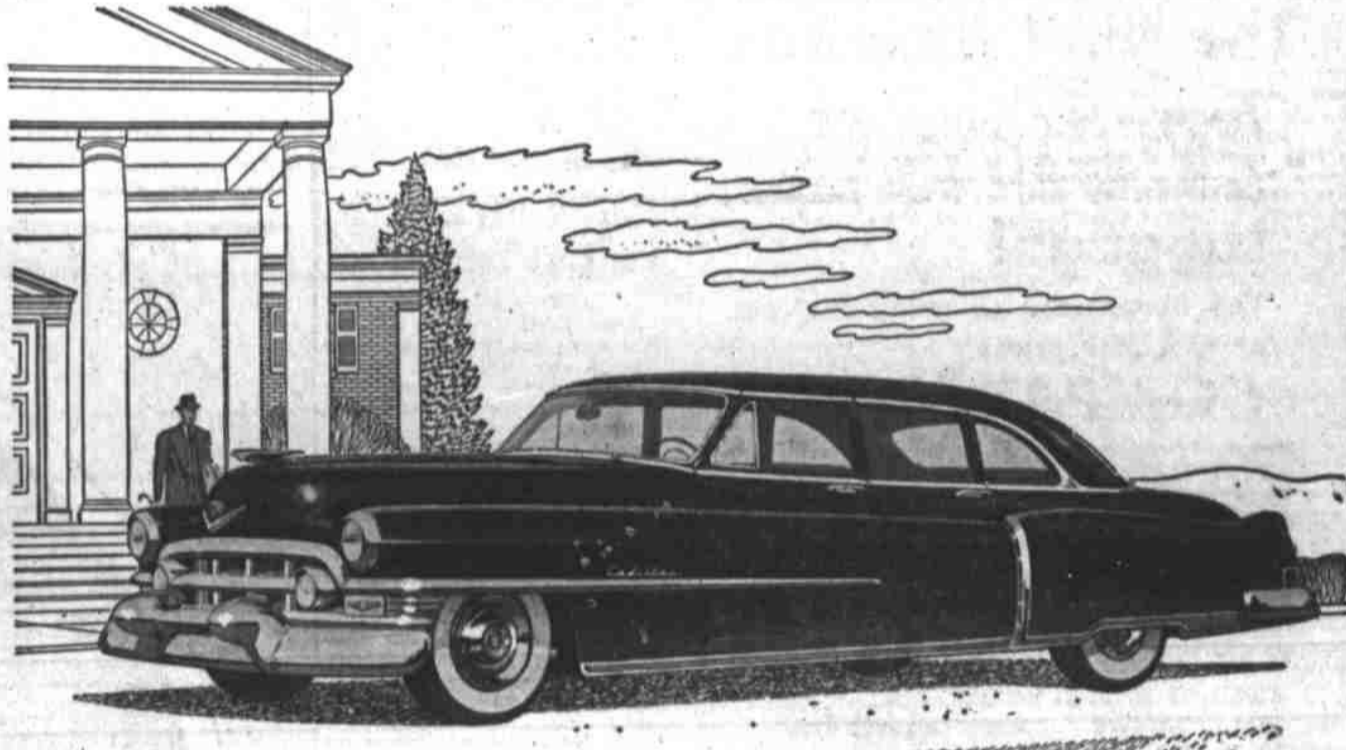

It has been used by others, including Gen. George C. Marshall and Premier Mohammed Mossadegh of Iran.

Short said the President was well enough to shave and dress himself before going to the hospital in his big black limousine.

It was Graham's decision that Truman go to the hospital. The decision, coming five days before the start of the Democratic National Convention, could have some influence on the results of the convention. Many Democrats believe that an announcement by Truman as to whom he favors for the party's nomination for President would decide the issue.

## More Eloquent Than Words!

It is true, of course, that a Cadillac owner is proud of everything about his motor car. But it is also true that he reserves a special place in his heart for the beautiful crest that rides high on the hood.

For here, as only he can fully appreciate, is one of the most wonderful and unique symbols in all the world of manufactured products.

In fact, it seems safe to say that no other mark of identification speaks so clearly or so eloquently of the product that bears it . . . and of the man who owns it.

It tells, for instance, of magnificent engineering and inspired design—and of experienced craftsmanship and painstaking construction.

It promises mile after mile of superlative motoring enjoyment—and it foretells year after year of dependable and enduring performance.

It proclaims, in short, the Cadillac pledge of quality—that here is an automobile built to the highest standards it is practical to enforce in the production of a motor car.

And, oh, the wonderful things it says about the man behind the wheel!

It reveals, more surely than if the words were spoken, that he is a man of position and achievement in his own private world of affairs.

It attests to the high regard he places on the safety and the comfort of his fellow passengers.

And it says, with unmistakable clarity, that he is a person of discernment and good taste.

Little wonder that the man who owns a Cadillac takes special pride in the beautiful crest that identifies it and adorns it.

The Cadillac crest tells its most eloquent story when it adorns the magnificent car illustrated above. For here is the illustrious eight-passenger Cadillac "75"—so luxurious, spacious and distinguished that it stands alone among the world's motor cars.

# Punishment Is Scheduled For Riot Leaders

LINCOLNTON, N. C. (AP)—Four ringleaders of yesterday's Lincoln County Prison Camp uprising, in which a guard was held hostage for 16 hours, have been sent to Central Prison at Raleigh where they will be punished for their part in the convict mutiny.

North Carolina Prisons Director Walter Anderson promised last night that an investigation would continue. He said that any of the 51 mutinous prisoners, out of 64 in the cell block, found to be involved in instigating the revolt would be similarly punished.

Anderson met with the prisoners for several hours last night and heard their complaints, which ranged from poorly cooked and insufficient food to complaints about yard privileges and handling of prisoner mail.

The uprising started yesterday morning when the men returned to the cell block to receive work assignments. Slamming the door behind an unarmed guard, Carlos Reynolds, the convicts barricaded themselves in the cell block. They refused to release Reynolds to camp officials until they had a chance to talk to Anderson personally. When the prisons director appeared at 4 p. m., Reynolds was released unharmed.

Prison officials identified the riot leaders as members of a group of prisoners recently transferred from Central Prison after a June 3 riot there in which 10 hostages were held until the prisoners demands were met.

# Reds Recognize Geneva Rules On Germ Warfare

By OLEN CLEMENTS TOKYO (AP)—Red China conditionally recognized the Geneva Conventions banning germ warfare and setting rules for treatment of war prisoners today.

United Nations officials here and in Korea would make no official comment on the Red announcement which were made in separate broadcasts.

Observers speculated the statements possibly meant:

1. The Reds had found a way to break the stalemate in Korean armistice talks over prisoner exchange.

2. Or it was a continuation of Communist charges that the United States had employed germ warfare in the Korean fighting. The U. S. repeatedly has denied the charges.

Added significance was attached to the Peiping broadcasts since they quoted Foreign Minister Chou En-lai. Important pronouncements by the Red radio frequently have been reserved for Chou.

One broadcast said Chou had been authorized to recognize the Geneva Protocol of June 17, 1925, and acceded to by Nationalist China on Aug. 7, 1928. It prohibits the use in war of poisonous gas and germ warfare.

The radio said, however, that "all other contracting and acceding powers" must observe them reciprocally.

The U. S. has not ratified the germ warfare provision and has withstood efforts of Russia's Jacob Malik in the United Nations to force the U. S. to sign.

A second broadcast said Red

China would recognize part of the Aug. 12, 1948, Geneva Convention dealing with the treatment of prisoners of war. This also was signed by the Nationalists.

On the surface this suggested that the Chinese Reds might be willing for the United Nations to turn over to a mutually agreed neutral third power or organization the captured Reds who resist repatriation.

Red China has not signed either convention. The broadcast said Red China's minister to Switzerland was instructed to give Chou's statement to the Swiss Federal Council for communication to the

# Finns To Protest Circling Of Plane

HELSINKI, Finland (AP)—Finnish authorities, touchy about their Russian neighbors, said today they would complain officially about an athlete-laden British plane which flew over the Soviet naval base at nearby Porkkala.

The four-engine plane with 40 was waiting its turn to land yesterday at Helsinki's new Seutula Airport when it apparently circled too far to the southwest and passed over part of Porkkala, only 12 miles from the Finnish capital.

Porkkala is on Finnish territory but was leased to the Russians under the terms of the peace treaty following the Russo-Finnish War.

governments of the contracting powers of these conventions. Korean armistice talks at Panmunjom have been bogged down for weeks over the fate of nearly 100,000 captured Communists who say they will resist return to Red rule. The U. N. refuses to force anyone to return. The Communists demand back all their soldiers.

The 1949 Geneva Convention provides that disputed prisoners can be turned over to a third power or "a humanitarian organization such as the International Committee of the Red Cross."

Chou made these reservations to Red China's adherence:

1. That the substitute for a protecting power shall be subject to the consent of the power to which the protected persons belong.

2. That the detaining power shall not be entitled the benefits of its liability even after the prisoners of war or the wounded and sick have been transferred to another power.

3. That the prisoners of war who have been convicted of war crimes according to the principles established by the international military tribunals of Nuremberg and Tokyo shall not be entitled to the benefits of the Geneva Convention.

# Marine To Refuse Leave For Funeral

WITH 1ST MARINE DIVISION, Korea (AP)—A Marine spokesman said today that Pfc. Ronald Leo does not want a leave to attend the funeral of his sweetheart, shot to death in New York Monday.

Leo said he would not attend services for Eileen Fahey, killed by a gunman on Columbia University campus as she read a letter from him.

Leo, who arrived in Korea last January, broke into tears when told of Miss Fahey's death. He declined to be interviewed or to pose for pictures.

## Calm seas on a sunny day...

THIS CRUISE is no vacation for sweating Navy lads handling heavy ammunition aboard a U. S. warship. Dangerous? Yes, it is. But it's all in a day's work for the Navy crew... it's their job for defense.

Would you like to do something to help, too? —Something that is just as valuable to your country as the job these boys are doing? You can, you know. And one of the best ways is by buying United States Defense Bonds.

When you save regularly with bonds or any other method of saving, you're building up a healthy backlog of security for yourself and your family. You're becoming financially independent. And only when you're secure can America keep a strong economy behind the power of our arms.

So why not start buying United States Defense Bonds right now? Join the Payroll Savings Plan where you work and save a regular sum out of every check—before you have a chance to spend it. Because, no matter how small your income, you can never afford not to save something for yourself. Join the Plan today. Thousands have found it the one sure way to save!

Here's How I Bonds Now Earn More Money For You

Now safe, sure U. S. Series E Defense Bonds pay an even better return than ever before... thanks to 3 brand-new money-earning features just announced by the U. S. Treasury.

1. Now every Series E Bond you buy begins earning interest after only 6 months. It averages 3% compounded semiannually. It reaches full maturity value earlier (9 years, 8 months) and the interest it pays is now bigger at the start!

2. Every Series E Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date—without your lifting a finger!

3. During the 10-year extension period, every unretired bond earns at the new, higher interest (average 3% compounded semiannually). Your original \$18.75 can now repay you \$33.67. \$37.50 pays back \$67.34. And so on.

Start now! Invest more savings in better-paying Series E Bonds—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank!

Peace is for the strong! For peace and prosperity, save with U.S. Defense Bonds!

## DESIGNING WOMAN

### Inexpensive Cover Can Change Style Of Couch

By ELIZABETH HILLYER

If there is one piece of furniture in the house that you can change completely, it's a studio bed. It's so plain in itself, its style or lack of style depends on its cover. It looks like a frumpy make-do if it suffers from these two mistakes—a cover that's too buffed and complicated, a cover fabric of in-different quality, especially if it is too lightweight. But the studio bed can be one of the most attractive pieces of furniture in the house if it changes its cover, and the simplest kind is one of the smartest, a one-piece throw type like this which couldn't be easier to make. The fabric needn't be an expensive one—this year's crop of handsome denims, for example, do very well. Count on perfectly tailored pillows and bolsters to complete a well turned out look. For the black and white plaid denim cover here, pillows and bolsters might combine black and white or black and white and bright colors, and the black might be velvet.

## Coahoma Methodist Church Plans Stewardship Campaign

COAHOMA, (Sp)—Committees met Monday evening in fellowship hall of the Methodist Church to plan a stewardship campaign the church is sponsoring.

One topic will be discussed each week for four weeks. They are as follows: "Our Plan" for the first week, "Our Need" the second week, "Our Responsibility" the third week and "Our Pledge" the fourth week. Purpose of the campaign is to increase attendance, build up finance and secure new members.

## New Liquid Kills Roaches and Ants

New Way to Kill Pests Discovered by Scientists

ROACHES and ants are the most difficult household pests to control, and they can be brought into the home at any time. Science has just come forth with a new discovery, a colorless coating that kills cockroaches and ants, and that stays effective for months. It is called Johnston's NO-ROACH.

It's just as simple and easy to use as it looks. You paint the coating on surfaces frequented by roaches and ants, woodwork near the sink, baseboards, garbage pails, window and door sills. When these crawling pests come in contact with this invisible, odorless, stainless coating they slowly become paralyzed, turn over on their backs with legs waving in the air, and die. Then the coating stays effective for months to kill any strays that get into the home and that walk over it.

Effective for Months

Science has seen to it too, that this product contains no DDT, no sodium fluoride, and no phosphorus. Johnston's NO-ROACH is not a contaminating spray or a messy powder. It is colorless, and may be brushed just where you want it, without having to move all your dishes and pots and pans.

Guard against crawling insects this modern NO-ROACH way.

Prices are 8 oz. for 99c, pint for \$1.69, and a quart for \$2.98.

# A Bible Thought For Today

We are not familiar with the names nor character of the divine attributes, but we should welcome any consciousness of the divine presence so eager to fill our lives. "God's love has been poured into our hearts through the Holy Spirit." — Rom. 5:5.

## Super Carrier Symbol Of Ability To Carry Struggle To The Enemy

The keel of the mightiest aircraft carrier in the world, appropriately called the Forrestal in honor of the late secretary of Defense, was put down at Newport News, Va., Monday. Navy authorities estimate the Forrestal will be ready for delivery the latter part of 1954, earlier in case of emergency. She might have been in service today had not the administration stopped construction in 1949 after part of the keel had been laid. The argument over the super-carrier was long and loud, but the Navy was finally able to convince Congress and the administration that it was both practical and essential to the global defense. The carrier now under construction will be duplicated later on. The cost of this ship is \$218 million. Stopping work on the original super carrier in 1949 led to the resignation of Navy Secretary John L. Sullivan, who was invited to the ceremony Monday. Time and the impact of hard facts have a way of changing men's minds.

## Direct Primary Has Its Pitfalls, But It Offers The Most Promise

When the Democratic Committee on Resolutions (platform) meets in Chicago it will have before it a petition signed by 53 Democratic members of Congress, including 14 senators, calling for a law providing for a direct preferential primary in the selection of a party nominee. The petition bolsters its case by citing "the disastrous events in a number of states revealed at the Republican convention" which "could of course be repeated in any party's nominating procedures. Senator Smathers of Florida has proposed a constitutional amendment providing for going away with the convention system and calling for direct popular primaries. But this might take years, so the petition to be presented to the Democrats will call for a law providing that the attorney general would work out agreements with the several states authorizing them to conduct preferential primaries, with the federal government sharing the cost to the extent of twenty cents for each vote cast. The results would not be binding on the delegates, but would exert "a strong persuasive influence" on them, its sponsors claim. For that matter, presidential electors are not legally bound to cast their votes for whoever gets the biggest vote, but no one has ever violated the moral obligation. A preferential primary not binding on delegates leaves much to be desired, but the Democrats' proposal offers a quick partial remedy for an existing evil, and if it proves out in practice it would then be easy to get a constitutional change that would bind the delegates to obey the people's mandate just to be sure. One thing is certain, people are disillusioned and disgusted with the set-up under which the politicians rather than the people make the rules, enforce or fail to enforce the rules, pick the delegates and the nominees, and generally operate the whole procedure to suit themselves rather than consult with the people or abide by their wishes. Reform is clearly indicated.

## Gallup Poll

### Survey Shows Where Efforts Required To Get Out The Vote

PRINCETON, N. J.—The most ambitious drive in history is being conducted by civic and political organizations this year to get out the vote on Election Day, Nov. 4. The question which arises is where these groups should concentrate their efforts. Who are the voters and the non-voters? What segments of the population show the lowest voting turnout? A series of surveys of the U.S. adult population by the Institute, which has taken more than a year to complete, shows clearly where the "get-out-the-vote" groups must concentrate if they wish to increase substantially the turnout on Election Day. In these surveys, using an area sample design, a total of 14,696 persons was asked whether they had or had not voted in the presidential election of 1948. Omittted from the cross-section were people in various institutions, hospitals, in the Armed Forces, those ill or bed-ridden and the non-English speaking groups. The surveys clearly show that better-educated people are more inclined to vote than people of little education; that people living in the larger cities vote to a greater extent than people in smaller cities or towns; that older people are more interested in voting than younger people, and that people who classify themselves as regular Republicans are much more likely to get to the polls than people who describe themselves as Democrats or Independents. The widely different voting rates for the various groups can be seen in the following table:

|                      | Voted in 1948 | Didn't Vote |

## They Like To Kiss

CAIRO (U.S.—Ethiopians are the world's greatest kissers. This is the conclusion of an observer who recently visited Ethiopia. Men and women, meeting on the streets, kiss one another three times on the right and left cheeks. There is much mouth kissing, too. Kissing of walls around churches, and even the pavement and ground in front of churches, is widely practiced. Foreign doctors frown on these common kissing habits, warning that they can further spread syphilis, which already is widespread in Ethiopia.

## The Big Spring Herald

Publisher: Howard ... AFFILIATED NEWSPAPERS, INC. Entered as second class matter July 18, 1928, at the Postoffice at Big Spring, Texas, under No. 103. The publication of this newspaper is guaranteed by the Big Spring Herald Association. NATIONAL REPRESENTATIVE: Texas ...

On a smaller but comparable sample the results of the major religious groups showed the following:

|              | Voted in 1948 | Didn't Vote |
|--------------|---------------|-------------|
| By Religion: |               |             |
| Protestant   | 62%           | 38%         |
| Catholic     | 71            | 29          |
| Jewish       | 78            | 22          |

Obviously some people have difficulty in remembering whether they voted or didn't vote. There is confusion in the minds of some between the 1948 presidential election and previous congressional or presidential elections. Furthermore, when people are in doubt about whether or not they voted, the tendency is for some people to say they voted rather than to say they didn't vote. Largely for these reasons the over-all percentage of persons in these surveys who said they voted in 1948 is higher than a study of actual voting records would disclose. The political implications of how a get-out-the-vote campaign will affect the Republican and Democratic chances for victory in November will be reported in another article.

## 92 Years In House

BROWNSVILLE, Tenn.—A century-old house, built of logs hand-hewn by her father, has always been "home, sweet home" to Mrs. Laura Cornwell. For all of her 92 years, Mrs. Cornwell has lived in the house. She was born, reared and married there. And there she'll remain, she says, until she dies. "I always felt home was the place for me. I had rather be home than anywhere."

### Taft's Leaders Were Mostly Political Veterans Who Used Old-Time Methods

WASHINGTON (U.S.—) "Just a bunch of amateurs." That was the appraisal of Sen. Taft's braintrusters given with a grin by one of the men most responsible for Gen. Eisenhower's victory. Pro or amateur, Taft's advisers were mostly political oldtimers. Maybe that was their trouble. They used the oldtime approach: Bull your way through. When that failed all they had left was the primitive tactic of personal attack. They used that on Gov. Dewey but it didn't work there, either. Perhaps nothing would have worked. Perhaps Eisenhower's nomination was clinched before the convention started. At any rate, Taft's right-hand men are blaming one another now for what happened in Chicago. By sheer force, because they controlled the convention machinery, they rolled over Eisenhower before the convention started by leading the speakers' list with pro-Taft people. But, looking back, it's plain now that Taft began losing ground when his Southern followers got into a wrangle with the Eisenhower people.

### Radar May Soon Call A Halt To Speeding On Nation's Highways

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald—Editor's Note. Motorists who now only have to keep an eye peeled for an approaching police car or for the motorcycle cop may have a surprise in store in due time. The miracle of radar is being applied to chronicling speed of on-coming cars. Unlike some other electronic devices which have to catch a car at a beginning point and clock it in at another point to gauge speed, the "eye" simply looks down the road and tells whether the car behind is coming up too fast. This ingenious contraption perches in a compact box behind the rear seat of a conventional sedan. Beside it is a little focusing affair which picks up the impulse and transmits it to the box. Instantly, the information as to the speed of the car down the road is transmitted to a dial (which shows at a glance what the score is) and a graph unit (which makes a permanent record). Experience has proven that the errand driver is quite apt to debate the question of whether he or she has exceeded the lawful limit. That's when the officers tell what the dial said—and if any more proof is desired, reference is made to the graph unit which has it all traced neatly on the chart. All this is not so new that it's untried. As a matter of fact, communities in 31 states now have the radar equipment. Some are putting up signs which say "Speed Limit Radar Enforced." There are still more few bugs in the apparatus. For instance, when two or more cars enter its range simultaneously, the "eye" becomes confused. Hence, for multiple-lane and heavily travelled highways it is impractical. However, in time, the brain boys will whip that kink so that it can be aimed like a water pistol at any vehicle coming or going, or busting like a rocket across the intersection. The operator will take notes on license numbers and radio to other patrol cars or motorcycles in the area. When that time comes, you'll feel like Big Brother is watching you on the road. It may not be safe to speed any more. —JOE PICKLE.

### Strong Pressure In California To Grab Kefauver's Delegates

WASHINGTON.—While most Democratic candidates are operating on a shoe-string, Gen. Eisenhower's oil millionaire, seems to be spending money right and left. Delegates to the forthcoming Democratic convention receive staggering amounts of printed material from the senator; several were offered \$500 as "expense money" to attend a Kerr meeting at Salt Lake City, and Kerr flew a number of delegates to Salt Lake in his private plane. On the heels of this, there turned up in Los Angeles the other day State Senator George of Kansas, who announced that he was working for Senator Kerr. George called at Kefauver headquarters, explained that he realized the delegation must vote for Kefauver on the first ballot, but wanted them to know about Senator Kerr and vote for him in case the Tennessee senator was no longer in the running. In the afternoon of the same day, a man appeared at the office of the ticket agent for the Santa Fe who is handling the special Kefauver delegation train to Chicago. He called himself J. G. Wilson, and answered to exactly the same description as Senator George, even wearing exactly the same clothes—a lightweight summer suit of fine grain with a thin blue cord running through it. Mr. "J. G. Wilson" took out of his pocket a bundle which when opened contained approximately \$1,700 in ten and twenty dollar bills. He told the ticket agent that he wished to purchase seven lowers and one double bedroom on the Kefauver train to Chicago, plus the regular train fare. The total cost was \$1,607.52, which Mr. "J. G. Wilson" paid, and received deposit receipts. Mr. "Wilson" asked the ticket agent to keep his deposit confidential and instructed him to issue Pullman tickets when any person came into the office with the ticket receipt. The agent inquired where Mr. "Wilson" could be reached in case the people did not come for their tickets so that the deposit could be returned. Mr. "Wilson," however, said he was leaving town, would not be back and that the Santa Fe railroad would stand to earn a lot of money if the people did not come in for the tickets. He said he was temporarily staying at the Clark Hotel, but a check of its records showed that no man named "Wilson" was registered. Next morning three Kefauver delegates received anonymous letters containing ticket receipts, instructing them that they could pick up their tickets at the Santa Fe office on presentation of the receipt. The delegates had no idea who the tickets were from or why they were getting them. However, one delegate from Long Beach, L. A. Pipkin, who was eased out of the chairmanship of the original Kefauver committee, has been bitter against the other delegates and lunched with Senator George. Significantly, the delegates to whom free tickets were sent happened to be those friendly to Pipkin. Significantly also, when it looks as if whoever is trying to buy Kefauver delegates in California isn't getting very far.

### Summer Tourists Fill Broadway Musical Shows

NEW YORK.—The summer tourist from Main Street, USA, has come to the Gay White Way and most any of these hot nights can be seen roaming the bright light area to see for himself what blatant Broadway has to offer. Only a handful of the hardier, long-run Broadway shows remain open and some of these with substitutes in the star roles. And the grass-roots patrons are filling up most of the seats at such Broadway perennials as "South Pacific," "Guys and Dolls" and "The King and I." Before the after shows the tourist wanders slowly up the Main Stem where crowds of seemingly aimless, indolent pedestrians try to decide where to go next with their entertainment dollars. He watches fantastic electrical neon delights squirm over the sides of the Broadway buildings like the 3-story-high sign of the Mayfair Theater, the clothing store eyecatcher with the genuine waterfall high above the street, the cigarette ad, smoker who puffs a never-ending succession of smoke rings over the heads of passersby, and the ribbon of neon news headlines that chase each other around the triangular New York Times Building. Broadway looks more like carnival time back home. People munching hot dogs at stand-up dispensaries, raucous music coming from cheap souvenir shops and musical delicatessens, playland concessions which never close, shooting galleries that rend the night air with sharp blasts. An old woman hobbles by with a cane, a younger one pushes a baby carriage, and a sightless guitar player with his dog arouses little interest. Verbose pickets rant at patrons of a Broadway movie palace, taxi-dance ballrooms offer partners for the dance, and on a Broadway corner a preacher in shirt-sleeves shouts the Lord's message to the interested and the curious. The tourist has to pick his way among the hundreds of pigeons in Duffy's Square, an island in the center of Broadway. The statue of Father Duffy, World War I chaplain of New York's famed 69th Rainbow Division, with a pigeon atop his head stolidly looks out at the stream of traffic that converges and then parts as Broadway crosses 7th Avenue. At the police booth in Times Square, the tourist time after time comes up with these favorite queries: "Where is Yankee Stadium?" "How do I get to the Statue of Liberty?" "How far am I from an Automat?" "Toughest to answer is 'How can I take a subway ride and end up back here?'"

### Boredom Most Widespread Disease In Modern World

NEW YORK, July 16 (U.S.—) What is the most widespread disease in the modern world? A good case might be made for that, called boredom. It is the high price modern man pays for having so much leisure—he doesn't know what to do with himself. It is peculiarly virulent in civilized nations. Savages aren't so susceptible to the ravages of boredom. They are too busy trying to stay alive. Many physicians, if pressed, will admit that perhaps one third of the patients who crowd their waiting rooms are suffering basically from nothing but boredom. They go there hoping the doctor will find something wrong with them, something to give them the excitement of a real worry. But the medical profession so far hasn't been able to concoct a really effective anti-boredom pill. "You are too tense—you need to relax," such patients often are told. This only encourages them to feel more bored with it all. My theory is it would be better if the doctor said to them: "You have a bad heart—you may die at any moment." There is nothing that gets rid of boredom faster than the fear you won't live to enjoy it. More people, weary of living, commit suicide in hotel bedrooms in peacetime than destroy themselves on the battlefields of war. We do our children wrong in educating them to believe freedom from worry will bring them happiness. A man with nothing to worry about can only do two things—be

## Farm Boys Begin Judging Poultry

FORT WORTH, July 16 (U.S.—) About 100 farm boys from several states were to spend today judging poultry here at the American Poultry Association's annual contest. It was scheduled for the Dick Anderson ranch at Handley. The association, in convention here, set aside today as Junior Poultry Day. State Agriculture Commissioner John C. White was in present awards in the winning teams at a dinner. Today marked the third day of the annual convention.

### Olympic Champs Show Strength

Now and then men on the stage perform playful stunts in lifting weights. The audience sees objects which look like huge dumbbells or bar bells. These may be marked "One Ton" or "Two Tons." A husky fellow picks one of them up and raises it above his head without trouble. Actually the strongest man would fail to treat a one-ton weight like that. The lifting is make-believe. Whatever the object is marked, it is largely hollow, and the total weight may be only 50 pounds. Nevertheless there are strong men who can lift very heavy weights. Contests in this field are held at the Olympic games and elsewhere. The Olympic athletes who lift weights are divided into classes—featherweight, lightweight, middleweight, light heavyweight and heavyweight. Strict rules are obeyed in the Olympic contests. The judges know exactly how much a man is lifting. The athletes must follow special methods in handling the weights. The best Olympic featherweight record was made by an Italian 28 years ago when he lifted 885 pounds. At the same meeting a French lightweight lifted 888 pounds, and an Italian middleweight raised 1,083 pounds. Charles Rigoulet, light heavyweight of France, lifted a weight of 1,103 pounds in 1924. The biggest weight was lifted in that year by a heavyweight of Italy, J. Tonani, who took care of 1,138 pounds. Those feats of strength were performed with the hands. Other ways of lifting have been used elsewhere with more startling results. A strong man may employ a harness to help him raise a huge weight from the ground. An old record tells us that W. B. Curtis used a harness to lift a weight of 3,230 pounds in New York City 83 years ago. Another record says that Louis Cyr (with a harness) lifted a still greater weight—3,641 pounds—while performing in a village in the province of Quebec 74 years ago. ## Policy Conferences Are Urged By Wiley

By JOHN CHADWICK  
WASHINGTON (AP) — Sen. Wiley (R-Wis) today urged consultation on foreign policy by the administration and Republicans selected by Dwight D. Eisenhower, the GOP presidential candidate, to end uncertainty at home and abroad.

He asked that President Truman and Secretary of State Acheson invite Eisenhower to authorize leading Republican foreign policy experts to confer, formally or informally, with the administration regarding basic and continuing international problems and challenges that may arise between now and next inauguration day (Jan. 20).

"Unless there is such a basis laid for continuing high-level consultation between the two parties, there will be a period of uncertainty and indecision at home and abroad, existing between July and next January," Wiley said in a statement.

"That type of period could only serve to the advantage of Soviet Russia which could in turn fully exploit it by an intended K. O. blow."

Wiley is the senior Republican on the Senate Foreign Relations Committee and is in line for the committee chairmanship if the Republicans win control of the Senate in the next Congress.

He said his proposal for consultation between the administration and Eisenhower representatives would "not wrap any cloak of immunity from criticism" around the Democrats during the election campaign.

In fact, he said the consultations he recommended would take place on these two conditions:

Both sides would retain the right to (1) continue criticizing each other's foreign policy position during the campaign, and (2) break off discussions in the event it was found either party was not acting in good faith.

However, he said he believed "both parties could fulfill their role with discretion and good judgment."

He said reports of the consultations would help combat Communist propaganda that (A) American foreign policy will be paralyzed during the rest of this year and (B) that no agreement or pledge made by American diplomats during these next six months will be worth the paper it is written on.

## Mass Flight Of Thunderjets Is Completed

By MILO FARNETI  
TOKYO (AP) — Fifty-eight U. S. Thunderjets darted down onto Yokota Air Force Base near Tokyo today, completing the biggest mass jet overwater flight in history — 10,865 miles across the United States and the Pacific Ocean from Turner Air Force Base, Albany, Ga.

Fifty-nine were due but one exploded yesterday over Iwo Jima, south of Japan, killing the pilot, Lt. Col. Elmer de Rosa, Sacramento, Calif.

Gen. Otto Weyland, commander of the U. S. Far East Air Forces, met the pilots and told them they will go to Korea occasionally for combat.

He called the mass flight "one evidence of our beefing up in the Far East, a beefing up in all types of planes."

The planes from the 31st Fighter Escort Wing took off from Turner Air Base July 4 and made seven landings en route. They were refueled in flight several times from B-29 Superfort tanker planes.

Weyland told newsmen more Sabre jets — the only American fighter able to stand up to the Communist MIG-15 — are on the way also, "but we don't want to be too specific."

Reports from the United States indicate the Air Force is increasing its plane strength perhaps as much as 40 per cent to meet the Red Air Force potential.

Weyland said the new Thunderjets are reserve strength "in case anybody wants to start up anything bigger."

The long flight demonstrated the Air Force now can fly fighter planes to the combat theater instead of sending them by ship.

Normally, the tanker planes refueled the Thunderjets in 2 1/2 minutes.

## Camera Club Holds First Meeting Here

Organization of a Big Spring Camera Club began Tuesday night as a group of 19 met in the YMCA to form the club.

Dwight Jones, a former member of such a club in Memphis, Tenn., acted as temporary chairman. The group named Raymond Grant, Hugh Mathis, and Mrs. Betty Crippen to serve as a committee to nominate a president, vice president and secretary-treasurer for the organization.

The group voted to hold their next meeting July 24 and also to their regular meetings on the second and fourth Thursdays of every month.

Dr. P. W. Malone showed some color slides of his trip to Europe after the meeting adjourned.

WASHINGTON (AP) — A Defense Department list (No. 607) today identified 66 more Korean war casualties. Of the total, 14 are dead, 40 wounded, four missing in action and eight injured in battle-zone accidents.

## Twelve Local Youngsters Are At Scout Camp

BUFFALO TRAIL SCOUT RANCH—Twelve Big Spring youngsters were among the 141 Boy Scouts that flooded the Ranch Sunday for the next-to-the-last week of summer camp for the year.

All in all, counting leaders, the at the Ranch, enrollment of the camp is 177.

Ten of the Big Spring scouts are members of Troop No. 15 and two members of Troop No. 9 accompanied them. Cliff Ferguson, Scoutmaster of Troop No. 15, is in charge of the group.

Jimmy Hale, Lone Star District field executive, noted that Dell McComb, Post Advisor of Explorer Post No. 106, and Henry Hicks, Explorer Scout of Post No. 15, both of Big Spring, are serving on the staff.

He also noted that the Buffalo Trail Council carries blanket insurance on every boy, from the time he leaves for the Ranch until he returns home. They also have a resident doctor at the Ranch.

Hale added that every District in the Council had representatives at the Ranch, located near Balmerbe, in the Davis Mountains, this week.

Included in the week's activities are marksmanship, archery, nature study, horseback riding, Scouting skills and hiking.

Another group of Scouts from over the 17-county Council, including another group from Big Spring, will attend the Ranch next week, the final session of the summer.

## Two Loggers Are Burned To Death

CONCRETE, Wash. (AP) — Two loggers were burned to death and two others narrowly escaped when a slashing fire broke out of control today and jumped into high timber.

One victim tentatively was identified as Purl Cook, about 60. The other was reported to be his son, name unavailable.

## Big Forest Fire

WHITE SALMON, Wash. (AP) — More than 3,000 acres of timberland near this Southern Washington town have been charred by a forest fire which has raged out of control since Monday.

The fire, the first of major proportions in the Pacific Northwest this year, is racing toward additional thousands of acres of timber. Winds of 20 to 30 miles an hour are pushing the blaze.

## FOE OF NEW DEAL

# Byrd Wins Smashing Victory In Virginia's Demo Primary

RICHMOND, Va. (AP) — Sen. Harry F. Byrd, a bitter foe of New Deal Fair Deal spending, won a smashing victory for re-nomination in yesterday's Democratic primary.

Byrd, who said the major issue was "Trumanism," led his Oxford-educated opponent, Francis Pickens Miller, 210,625 to 124,803, on the basis of returns from 1,673 of the state's 1,783 precincts.

The primary victory places the senator in a strong position at the Democratic State Convention in Roanoke Thursday, when 28 delegates will be named to the Democratic National Convention. Byrd is supporting Sen. Richard Russell of Georgia for the presidential nomination.

During the campaign, most heated in a generation in Virginia, Miller contended that Byrd was more Republican, on the basis of his votes in Congress, than Sen. Robert A. Taft of Ohio. Byrd made much of Miller's statement before the campaign started that on everyone of the great issues which had confronted him President Truman had made the right decision. However, during the campaign Miller denied that he supported many of the Truman-backed measures in Congress.

The lively three-month campaign brought out a record primary vote.

The Democratic nomination normally means election in Virginia. For Byrd, a newspaper publisher at Harrisonburg and Winchester, and one of the nation's largest growers of apples, the nomination

was for a fourth full term. He was appointed to the Senate in 1933 after a term as governor to succeed the late Claude A. Swanson, who became Roosevelt's secretary of the Navy. He is now 63 years of age.

Byrd said he was "more gratified than I can express at the great vote of confidence that has been given me. . . . I will do my best to be worthy of their (my friends') confidence and will continue to give the very best that is in me to the service of the people of Virginia."

Only two congressional races figured in yesterday's primary. Rep. Clarence G. Burton of Lynchburg buried Moss A. Plunk of Roanoke under a landslide, 26,007 to 9,921, in the 6th District.

In the new 10th District Edmund D. Campbell, anti-organization Arlington attorney, won the nomination in a field of four. He had 12,204 votes to 10,250 for J. Maynard Magruder, member of the House of Delegates from Arlington, who ran second.

Byrd said he was "more gratified than I can express at the great vote of confidence that has been given me. . . . I will do my best to be worthy of their (my friends') confidence and will continue to give the very best that is in me to the service of the people of Virginia."

## Thornton Would Take Federal Post

DENVER, July 16 (AP) — Dan Thornton, a native of Lubbock County, Texas, who became governor of Colorado, would accept appointment as Secretary of the Interior.

That is if Gen. Dwight D. Eisenhower becomes President and the job is offered.

Gov. Thornton, 41, told newsmen simply that he would take the position if offered.

He talked to reporters who questioned him about an article published by the U. S. News and World Report which said Thornton meets the requirements for Secretary of the Interior.

Thornton took a leading part in booming Eisenhower as candidate for the Republican presidential nomination.

Eisenhower headquarters here said: "We have never promised anything to anybody."

## Jailers To Hold Meet In Houston

HOUSTON, July 16 (AP) — Because Houston has the largest jailhouse west of the Mississippi River, if you don't count Chicago and Los Angeles, it's going to get a convention.

Roy Casey, jail inspector for the federal government, said yesterday jailers from Louisiana, Oklahoma and Texas will hold their convention in Houston in 1953.

## Ohio Oil Company Executive Dies

HOUSTON, July 16 (AP) — Ross C. Williams, vice president and district manager of the Ohio Oil Company, died here last night of a heart ailment.

Williams, native of Ogden, Utah, had lived in Houston 15 years.

## Number Four of a Series: JUVENILE DELINQUENCY

Twice in the last two years I have been called upon to defend 17-year-old boys charged with murder! Our dockets show many shocking teen-age crimes.

Your District Attorney must work actively with other youth agencies and the Probation Office in the interest of the boys and girls. I am particularly interested in this phase of the office. I believe it is as much my job to keep young people from getting into trouble as it is to send them to the penitentiary after it is too late to do anything else.

I believe my record of activities shows my interest and willingness to work on this problem.

Candidates For Connally Post Have Few Things In Common

(Editor's note: This is the first in a series on candidates for major office in the July 26 Democratic primary election. Tomorrow: Congressman-at-large.)

By TIM PARKER Associated Press Staff About the only thing that Price Daniel, Lindley Beckworth and E. W. Napier have in common is that all have their eyes on the same U. S. Senate seat.

The seat is the one which Tom Connally of Marlin is giving up after establishing himself as a world figure. Connally's black string tie, boiled shirt and long locks won him renown as "the senator who looks most like a senator."

erty's first alcalde under the Spanish crown), Daniel got into public service early. He won degrees in both law and journalism from Baylor University, opened a law office at Liberty, worked for newspapers at Fort Worth and Waco, and bought weekly newspapers at Liberty and Anahuac. But, at the age of 29, Daniel was elected to the Texas House of Representatives in 1939 and has been in public office since.

Three terms later he was named speaker. While he was in uniform overseas during World War II, friends boomed him for attorney general. He won handily in 1946, regained office without opposition in 1948 and 1950. National recognition came for his Texas Texas defense fight, and his program against organized gambling. An anti-administration Democrat, he has campaigned principally by speaking before organized groups and has done little of the traditional street-corner handshaking. Mrs. Daniel, the former Jean Houston Baldwin of Houston, is the great-granddaughter of the rugged hero of San Jacinto, Gen. Sam Houston. They have three sons and a daughter.

# Gil Guerra Blanks Artesia Drillers With Two-Hitter

## Visteur Drives In Two Tallies

ARTESIA — Gil Guerra turned in his finest pitching job of the 1952 season, limiting Artesia to two hits as he paced the Big Spring Broncos to a 3-0 victory here Tuesday night.

In achieving his 13th win of the season, Gil struck out 12 and did not allow a hit until Rudy Briner lined a one-baser into the hole between short and third with one out in the seventh.

In the ninth, Bill Haley doubled for the only other safety off the red-hot Bronco moundman.

Guerra was never in trouble, allowing no Driller to reach third base. He walked only two.

A walk to Ricky Gonzales and singles by Ozzie Alvarez and Pat Stasey loaded the bases with Broncos in the first inning. Juan Visteur lifted a long fly to left to plate Gonzales with Big Spring's first run of the night, all Guerra needed to win.

The Broncos were then held helplessly before the pitching slants of Erwin Armin, who fanned 11, until the sixth when they tallied twice.

Consecutive singles by Witty Quintana, Stasey and Visteur accounted for one run. And when Costa reached first on an error, the bases were loaded. Al Valdes hit into a double play, with Stasey scoring to complete the run-making for the night.

The two teams are scheduled to meet here again tonight.

Big Help To Guerra

When the Big Spring Broncos blanked the Artesia Drillers in Artesia Tuesday night, Juan Visteur (above) proved a big help to Pitcher Gil Guerra. Visteur batted in two runs for the Steads. Visteur is one of the top producers of RBIs in the Longhorn League.

## Conrad Claims Trans-Miss Medal; Plays Ted Hart

DALLAS, July 16 (AP)—Records are due to take another beating during the National Skeet Tournament opened here Sunday.

Supporting this contention is the fact that four new world's records have been established during the last month and have been recognized by the National Skeet Shooting Association, Col. E. F. Sloan, manager, announced. One of them fell during the recent Pan-American Open in Dallas, where Mr. and Mrs. L. S. Amburgey of Odessa raised the husband-and-wife team standard for 400 targets to 385. They bettered by one bird the old record held jointly by them and by Mr. and Mrs. R. H. Hecker of Tucson, Ariz.

Three new marks were set during the Southeastern zone national at Spartanburg, S. C., June 13-15. A Florida five-man team composed of George Hodges Jr., Francis Ellis and Emmett Lee of Jacksonville, Tommy Spicola of Tampa and

## DOZEN IN ROW

# Walt Dropo Is In Midst Of Hot Hitting Streak

By RALPH RODEN  
 Associated Press Sports Writer

Walt Dropo, the amiable "Moose" from Mooseup, Conn., once again is striking fear into the hearts of American League pitchers.

Dropo, who has experienced more ups and downs than a roller coaster in his bid for major league stardom, has been the hottest batter in the league since Independence Day.

The husky Joe Collins first baseman of the Detroit Tigers shined the pennant races to the sidelines last night by tying a rare major league record—best consecutive hits by a batter in the record in 1938 with the Boston Red Sox and Dropo is the first to equal the mark.

Dropo missed a chance to break the record when he fouled out in the seventh inning of the second game of a two-night doubleheader against the Senators in Washington. The 28-year-old slugger then singled home two runs in the ninth. Despite Dropo's lousy hitting the

tail-end Tigers dropped both ends of the twin-bill to Washington, 8-2 and 9-8.

Meanwhile, the Cleveland Indians reduced the Yankees' lead to 2½ games by downing the Bombers, 7-3, at Yankee Stadium. The Red Sox took over third place from Chicago by beating the White Sox, 7-5, and the Philadelphia Athletics swept a two-night twin-bill from St. Louis, 7-4 and 11-3.

In the National League, the second-place New York Giants climbed to within five games of Brooklyn's pacesetter Dodgers by turning back the St. Louis Cardinals, 6-3. The Dodgers' game with Cincinnati was rained out. In other games, the Philadelphia Phillies trounced Pittsburgh, 10-3, and the Boston Braves snowed under the Chicago Cubs, 10-3, in the majors' only day game.

Early Wynn, backed by a ninth-inning attack that included home runs by Harry Simpson and Luke Easter, coasted to his 10th victory in the opener of the important five-game series at Yankee Stadium. Home runs by Yogi Berra, Joe Collins and Mickey Mantle counted for all of the Yankees' runs but by the time the New Yorkers

found the range the Indians were enjoying a 7-0 lead.

Rookie first baseman Dick Gernert chipped two home runs and George Kell one to account for all of Boston's runs in its victory over the White Sox.

The A's pulled the opener out of the fire from the Browns with a six-run ninth-inning rally that was climaxed by a grand-slam homer by Eddie Joost. Joost's winning blast came at the expense of Satchel Paige.

Venerable Bo Bo Newsom went the distance in the second game and scattered 10 hits.

Lefty Dave Koslo, although relieved in the sixth by relief ace Hoyt Wilhelm, gained credit for his 12th straight victory over the Cardinals since mid-season of 1950. The Giant veteran, hitless prior to the game, batted in two runs on a double and single and scored once.

Curt Simmons breezed to his ninth victory in beating the Pirates. Rookie Mel Clark's grand-slam homer in the third, his first of the season, staked Simmons to a 4-0 lead and the Phils sewed it up with three more in the fifth against Howie Pollet.

The Braves scored seven unearned runs to beat the Cubs.

Civil Rights Fight Heading For Climax

By HAROLD OLIVER
WASHINGTON (AP)—The old feud between Southern and Northern Democrats over civil rights and party loyalty is headed for another boisterous showdown at the Democratic National Convention starting Monday.

The issue which split the party four years ago comes first before a Democratic National Committee and subcommittee which starts hearings in Chicago tomorrow on contests for convention seats by rival state delegations from Texas and Mississippi.

Calvin Rawlings, Utah national committeeman, heads the subcommittee. Seventy convention votes are involved—52 in Texas and 18 in Mississippi.

The outcome may well determine whether the Southern States Rightists will bolt the party again this year if the national ticket and platform are not to their liking.

They formed their own ticket in 1948 and took 39 electoral votes away from the Truman-Barkley banner in Alabama, Louisiana, Mississippi, South Carolina and Tennessee.

The fight is between the anti-administration or "regular" factions in the two Southern states and pro-administration "loyalist" delegations.

The "regulars" oppose the administration's civil rights program and favor the states handling racial problems. They have reserved the right to support another third party ticket if the presidential ticket and platform displease them.

Mississippi's 18-vote delegation is endorsed to the candidacy of Sen. Richard B. Russell of Georgia. An Associated Press poll of

the Texas unattached "regulars" showed Russell a 224-vote first-ballot favorite among those replying, with another 104 going to Gov. Allan Shivers, who also favors Russell.

The "loyalists" largely see eye to eye with the "regulars" on civil rights, but agree to support the party nominee in advance. They favor working out the racial matter within the party without a bolt.

The Mississippi "loyalist" group has not indicated a candidate choice. A poll of the Texas unattached pro-administration faction showed 13 1/2 votes favoring Speaker Sam Rayburn, a Texas; Sen. Estes Kefauver of Tennessee 7 1/2; Gov. Adlai E. Stevenson of Illinois 6; President Truman 5 1/2 among those replying.

Party chiefs both North and South have been trying to soft-pedal talk this year. The fact that Truman, strong civil rights plank advocate, is not a candidate, has helped to minimize it.

But just as National Chairman Frank E. McKinney was throwing an olive branch to the Southern "regulars" recently in recognizing a new Mississippi national committeeman from the "regular" camp, other Northerners were presenting statements and Gov. Shivers of Texas and Gov. Hugh White of Mississippi implying another party walkout if the convention did not do what they wanted.

Gov. Shivers, who heads the "regular" delegation in his state, has said it is "all or nothing" for him. He said he would accept no such compromise as the one at Chicago in 1944 when the convention seated both "loyalist" (pro-Roosevelt) and anti-administration forces in the Texas battle.

The Mississippi "regulars" are led by Gov. White, nominee for the four-year term of national committeeman, and State Atty. Gen. J. P. Coleman, whom McKinney recently recognized to fill a vacancy on the committee until the end of the coming national convention.

The "loyalists" are captained by Mrs. John A. Clark, acting national committeewoman who last week presented her case to President Truman.

In addition to the Texas and Mississippi contests, the Convention Credentials Committee will have to settle the matter of six over-strength delegations from Idaho, Iowa, Maryland, Massachusetts, Michigan and North Carolina.

Border Patrolmen Round Up Aliens
U. S. Border Patrolmen stationed in Big Spring still are rounding up aliens at the rate of about 10 per week, Roger D. Bushner, inspector in charge of the four-man unit, reports.

All illegal immigrants apprehended thus far have been Mexican Nationals. Lack of time and limited personnel restricts the number of apprehensions, Inspector Bushner said.

The patrol unit works an area of several counties from headquarters in Big Spring. Some 30 aliens were detected by the quartet of patrolmen during their first month of activity here and the number of apprehensions has risen to around 40 per month since mid-June.

Martin Treasurer Back In Office
STANTON, (SC)—Mrs. Pauline Cook, Martin County treasurer, who has been a hospital patient here for about two weeks, has fully recovered and returned to her official duties at the Courthouse.

Mrs. Cook, who succeeded her late-husband in the office through appointment, is a candidate to succeed herself in the office and is the only Martin County candidate without opposition.

Mobile X-Ray Unit Checks 380 Persons
STANTON, (SC)—Approximately 380 persons took advantage of the opportunity to have chest X-rays made by the mobile unit from the State Health Department which was here Saturday and Monday.

Col. Wackwitz Will Visit Stanton Club

**Miraculous Well Water Polluted**  
BAWBURGH, England (U)—For a thousand years Britons have been drinking the waters from St. Walston's Well, outside the Bawburgh Church, believing it effects miraculous cures.  
And now a 20th-century analyst reports the water is so impure it's not fit to drink.  
The church vicar, Herbert L. Davies, gets scores of requests for bottles of the water to be mailed to invalids. He says he's in a "difficult position—I don't want to destroy peoples' faith."  
Dr. Irene M. Green, the local health officer, told the Town Council the people would just have to strike a balance between spiritual and physical benefits. But if the well is too popular, she added, she might have to put up a warning notice, "unfit for drinking."

## Housing Down Payments May Ease By September

By CHARLES MOLONY  
WASHINGTON (U)—If you have a dream house in mind but not much cash in the bank, you may be able to swing the deal in September, or possibly August. Government requirements for stiff down payments may be eased by then.  
Government officials expressed this belief privately today, following announcement by two agencies administering housing credit controls that curbs fixing minimum cash payments on houses will be eased "not later than Oct. 1."  
The Federal Reserve Board and the Housing and Home Finance Agency said yesterday if the number of houses started under construction in June, July and August holds below the rate of 1,200,000 a year, the required down payment will be cut to 5 per cent "not later than Oct. 1" under terms of an act of Congress.  
But officials told a reporter later that the agencies, acting on their own, probably will drop the controls in September—and possibly late August — if they see the drastic easing is inevitable anyway.  
In either event, the benefits will be the upper-cost brackets—particularly those in the \$25,000-up go chiefly to buyers of houses in class.  
At present, the controls already permit houses costing under \$7,000 to be bought by veterans for nothing down and by the general public for only a 5 per cent down payment — if they can swing a deal on that little cash.  
It's only on the more expensive houses that buyers get pinched hard by the controls. Down payment requirements graduate up with cost. They amount to 40 per cent for the public and 35 per cent for vets for the \$25,000 or more house.  
Even if the government eases controls and approves 5 per cent down payments, most banks may balk at lending more than 60 or 65 per cent of the cost of a house, especially one costing over \$20,000. The Federal Housing Administration itself couldn't go more than \$15,000 on a house costing \$20,000 or more.  
But a buyer will, however have one big advantage he doesn't have now: He can try to get extra money on a second mortgage, to keep down his own cash outlay; now, the controls are rigid about the amount of cash he must put up out of his own pocket.

## Convict Suffocates In Escape Attempt

SALEM, Ore. (U) A convict suffocated in a 15-inch sewer pipe yesterday in a daring but futile escape attempt from the Oregon State Prison.  
He was 20-year-old Harold Allen Hayes.  
Another convict, Franklin Clingenteel, 17, also was involved in the attempt. His calls that he was stuck in the narrow pipe, five feet underground, brought guards to the prison yard manhole which the two convicts had hoped was the way to freedom.  
Hayes' body was found in the pipe about 375 feet from the manhole the convicts had entered.

Impressed and fined her \$50 and sentenced her to 60 days in jail for indecent exposure. The jail sentence was waived on condition Ginger get out of the county.

## Twenty-Six More Texans Are Stricken With Polio

By The Associated Press  
Paralyzing, deadly polio, still spreading dangerously in Texas, had struck down at least 26 more Texans Wednesday.  
Stricken Houston, where parents are almost in panic over the spread of the disease, counted 16 new cases.  
Dallas County had six new cases, bringing the county's 1952 total to 146.  
Four new polio victims were reported at San Antonio.  
Death toll in the polio cases approximated about one in every 25, but the damage in crippled bodies hardly could be counted.  
So far this year there have been 393 city and county cases in Houston and Harris County compared to 318 for 1950 and 316 for 1948. During 1950 there were 18 deaths, 25 in 1948, but this year there have been only 13 fatalities so far.  
Last year at this same time there were 26 cases and one death in San Antonio while there have been three deaths in the city's 76 cases this year.  
Meanwhile, physicians considered possibilities of a new formula that may ward off polio's paralyzing effects.  
Dr. Jose R. Perez, 64, of Manila, P. I., said Tuesday he had an accidentally-discovered amino acid formula compounded by him to treat malaria patients. The formula has produced "dramatic results in treatment of other virus diseases such as mumps, measles, and influenza," Perez said.  
"It is possible the formula may treat polio as effectively," he continued, if it is given before the disease reaches the central nervous system.  
Dr. Perez called the compound iron casenlate which he used during World War II to treat malaria when he could not get adequate supplies of quinine.

## Ambassador Is Due To Arrive In Argentina

By FRED L. STROZIER  
BUENOS AIRES, Argentina (U)—The new U. S. ambassador to Argentina, Albert F. Nufer, arrives in Buenos Aires today to find a violent anti-Yankee campaign under way from both official and unofficial sources.  
It is assumed that Nufer, a 56-year-old career diplomat, will follow the "correct but cool" policy set for his predecessor, Ellsworth Bunker.  
This means that he probably is under instructions to make no deals, ask no favors and ignore the daily attacks on the U. S. and its government from the press and officials, led by Argentine President Juan D. Peron.  
The Argentine anti-U. S. campaign has taken several forms lately. Among them are:  
1. The recent bombing of the U. S. Information Center in Buenos Aires. Washington made an official protest to the Argentine government over this. Argentine officials blamed the bombing on Communists.  
2. A detailed press campaign both in Argentina and in neighboring countries against mutual aid treaties which the U. S. has concluded with six Latin American nations.  
3. Persistent charges of U. S. economic aggression against such Latin American raw materials as Bolivian tin and Chilean copper.  
4. Claims of cultural aggression through the entry of U. S. books, magazines and movies into Latin America.

## Rebels Reported Calling On Chiang

RANGOON, Burma (U)—Official sources reported today that rebel Karen tribesmen fighting Burma's government have gone to Formosa for arms aid from Chiang Kai-shek and his Chinese Nationalist Army.  
These sources said a Karen delegation led by Saw Shwe, a tribal chief, was flown from Mowghsat, near the Northern border of Siam, to Taipei, the Formosan capital.  
Chinese Nationalist irregulars in North Burma, who fled from Southern China after the triumph of the Chinese Communists, have been reported supplying arms to the Karen rebels, who have suffered severe reverses recently.
