SUNDAY The Hansford Plainsman

PREVENTS FIRE -- A.V. Vardell just changed combines and continued cutting wheat Thursday after he saved a large wheatfield by driving a burning combine out of the

field. He and his crew were cutting wheat on the Joe Novak farm south of Spearman. He has been custom cutting for 25 years.

Plainsman Photo

Driver Saves Crop As Combine Ignites

Experience was worth many thousands of dollars Thursday in the wheat field of the late Joe Novak.

A combine cutting the heavy irrigated wheat crop caught fire on the south side of the field, but the operator, A.V. Vardel of Walter, Okla. knew what to do.

With 25 years of custom combining and many wheat fires behind him, Vardel had faced the same problem before. He raised the cutter head, threw the combine in third gear and raced to the turn row.

Three other men in the field on machines immediately jumped from their machines and followed the burning machine checking for any sparks that might blow from the machine.

Vardel said he knew there would be no stopping the fire if it got in the thick, heavy straw of the wheat field.

"In a dryland field where there is room to move around, I can put the fire out quicker with a combine than you can with water," he said.

"But in these irrigated fields you cannot move around and if a fire starts you do well to save a combine."

Not a grain of wheat was lost to fire and the only damage to the combine was the wiring burned off on the engine.

Vardel said he figured the fire started from a short in the wiring that set some straw on fire. The straw was being blown up around the engine by the strong south wind.

One witness said Vardel brought the combine out of the field so fast, he almost jammed the header into the ditch bank, but headers are cheaper than a field of irrigated wheat, the worker added.

Gruver Plans Celebration For Fourth

A three-day Fourth of July Celebration is being staged this year by the newly organized Gruver Junior Chamber of Commerce.

The first two days of the celebration will be softball and baseball competition. Monday, July 4 will be the big day of activities.

Saturday at 8:30 p.m. the Jaycees will play the TV-10 Tigers in a benefit softball game. It will be played at the football field.

At 3 p.m. Sunday the Gruver Babe Ruth league team will play Hooker, Okla.

Monday the activities will begin at the city park at 9:30 a.m. with a bicycle and tricycle parade and prizes for the best decorated. There will be races for tricycles and bicycles beginning at 10 a.m.

The horseshoe and washer pitching contests begin at 11 a.m.

(Con't. on page 2.)

Irrigation Increasing

As harvest slows down, the interest in irrigation wells is increasing, according to Dallasene Reynolds, secretary of the North Plains Water District office here.

There have been 33 irrigation wells completed in the county this year and there are 50 applications pending. Some of these

(Con't. on page 2.)

Devers, Kelly In 'Texas' Ceremonies Opening

Two Hansford County youths will have a part in the opening days activities of the outdoor musical romance of Panhandle history, "Texas", in the Pioneer Amphitheatre in PaloDuro Canyon July 1 through 6.

Bill Devers of Spearman and Larry Kelly of Morse will have parts in the opening ceremonies.

Devers is in the 50-member cast of the giant show and Kelly designed the Hansford County plaque that will be dedicated on July 3.

Devers will be playing the part of Archie, a cowboy who works on Uncle Henry's ranch. Uncle Henry, a wealthy rancher, will be played by Jerome Ballew.

The story of "Texas" is a dramatization of Texas life in the 1880's. It was written by Paul Green with musical arrangements by Isaac Van Grove.

The County Design Plaques will be dedicated in the Pioneer Amphitheatre at 8:15 p.m. July 3.

Kelly designed the plaque in county-wide competition held over a year ago. Each county in the Panhandle will have such a plaque on the wall of

the theatre.

Devers is a graduate of Spearman High School and West Texas University. He is the son of Mr. and Mrs. Ray Devers of

Spearman.

Kelly is the son of Mr. and Mrs. Desmond Kelly of Morse and a graduate of Gruver High

School. He attended art school in New York City after finishing high school.

The show opens July 1 and runs through Sept. 5. It is directed by William Angus Moore and Margaret Echols Moor, musical directors are Royal Brantley and Linda Adams, Choreographer is Deil Hess and technical director and designer Erin Werthenberger.

Car Insurance Will Rise About \$4 if Rates Change

The average motorist in Hansford County will pay \$4 more for automobile insurance if the proposed change in rates is made by the State Board of Insurance, according to the Southwestern Insurance Information Service of Dallas.

Present cost of insurance on a new Ford or Chevrolet private passenger car driven to and from work and not driven by a male under 25 years of age is \$138. The new cost would be \$142. This includes basic liability coverage of \$10,000 for injury or loss of life of one person, \$20,000 for two, and \$5,000 property damage; \$100 deductible collision; and full coverage comprehensive insurance.

Under the new rates, motorists would pay \$1 more for bodily injury and property damage liability and \$5 more for comprehensive. But the cost of \$100 deductible collision would be reduced \$2.

Cost for the same coverage but with \$50 deductible collision would be increased \$4 also, from \$151 to \$155.

Other types and older cars would have different rates. Texas has 26 rating territories and eight automobile classifications. The cost estimates given are for cars in classification 1B, which includes about half of private autom-

biles in Texas.

For cars in this classification and insured under \$100 deductible collision policies, insurance would cost less in nine territories and remain unchanged in two. Costs for \$50 deductible policies would be lowered in seven territories and unchanged in one.

Even with the rate increases, Texas would rank about 30th among the states in the cost of automobile insurance to policyholders.

Grasshopper Spraying Is Available

Ranchers should sign-up for spraying their grassland for grasshoppers by Monday or Tuesday, County Agent Robert Adamson said this week.

Grasshoppers are damaging the late emerging grass on the ranges and control measures will be taken in the county, Adamson said.

There is already enough rangeland signed up to begin the

(Con't. on page 2.)

Guilty Plea In Theft Case

A man was tried in county court here Friday on a misdemeanor charge of theft under \$50.

He entered a plea of guilty and was fined \$50 and court costs.

The man admitted taking a drive shaft from the National Auto Salvage yard on the Gruver highway.

Greever-Batson Vows Read

The marriage of Miss Helen Lee Greever and James David Batson was solemnized at the Apostolic Church in Spearman on Monday, June 20.

The bride is the daughter of Mr. and Mrs. W.R. Greever of Spearman. The groom's parents are Mr. and Mrs. Jack Batson, also of Spearman.

The double-ring wedding ceremony was performed at 7 o'clock in the evening by Rev.

Robert Girovard of Pampa, Texas.

Mrs. Tom Sutton, aunt of the bride, played compositions of wedding songs for the prelude. She played the traditional wedding music and accompanied Rev. Jimmy Wallis of Liberal, Kansas, who sang "Almost There," "Because" and "One Hand-One Heart."

The candle lighters were Steven Greever, brother of the bride, and Tommy Batson, brother of the groom.

Mrs. Leslie Reynolds of San Antonio served her sister as matron-of-honor. Bridesmaids were Miss Susie Hughes of White Deer, Miss Jo Ann Thomason of Seminole, and Miss Jo Williams of Estelline, Mor-

ris Campbell served as best man. Groomsmen were Joe Mack Close, Ted Scroggs and Keith Meddock.

Ushers were Charles Batson, brother of the groom, and Glenn Ayers. The guests were registered in the foyer of the church by Mrs. Fred Groves.

The couple were married before a prayer altar, which was placed beneath an arch adorned with pink and white gladiolas and crystal white wedding bells. The altar area featured greenery garlands and white trim highlighted by matching candelabra. The impressive service was concluded when the couple lit a large memory candle.

The bride, given in marriage by her father, wore a formal floor length gown. The stately sheath style was designed of imported chantilly lace over taffeta, with long fitted lace sleeves terminating in a petal point on the hand. The encrusted seed pearls formed a beautiful design upon the bodice and scalloped neck line. A removable Grecian cape designed a crystal silk over bombazine edged in Chantilly lace fell into a cathedral train. Her tiered

buffant veil of shoulder length fell from a rose bud and petal design, trimmed with seed pearls with a center forehead teardrop. She carried a cascade of white roses and stephanotis, centered with a large white orchid, atop a white Bible.

Her attendants wore pink floor length satin strapless gowns, with the tops of the gowns covered by pink lace jackets. The empire jackets featured long sleeves, scalloped neck lines, which were repeated in borders around the bottom of each jacket. Each girl wore a pink satin and lace trimmed pill box and pink satin shoes completed their accessories. The bridesmaids carried cascade bouquets of white fugii mums and pink asters. The matron-of-honor carried a cascade bouquet of pink roses and white glamelias.

Tammy Scroggs, flower girl, wore a dress identical to the bridesmaids with a large satin pink bow in her hair. She wore a wristlet of pink carnations and carried a basket filled with pink rose petals.

Brent Blythe, ring bearer, carried the rings on a heart shaped pillow made from satin

overlaid with lace.

The bride's mother wore a champagne dress and jacket ensemble with shoes and gloves to match. Her hat was of multicolored shades of pink flower petals and she carried a pink handkerchief.

The groom's mother wore a navy and white ensemble with navy and white accessories. Both mothers wore corsages of cymbidium orchids.

Immediately after the wedding a reception was held in the Home Demonstration Building. Miss Noreen Sutton, Miss Lynda Batson, and Mrs. Jerry Taylor presided at the serving table. Musical selections were presented by Mrs. Fred Groves.

The reception table was covered with a lace cloth over pink and held a lovely tiered wedding cake, topped with a bride and groom. Completing the table arrangements were a crystal punch service, groom's cake and an arrangement of pink gladiolas, roses and asters atop a silver candelabra.

Out-of-town guests for the wedding included Mr. and Mrs. V. Lee Matney, Mr. and Mrs. Roy Matney, Mr. and Mrs. Jerry Taylor all of Amarillo; Mrs. Jimmy Weatherly and daughter,

Liz, of Panhandle; Mr. and Mrs. H.E. Campfield of Canyon; Dr. and Mrs. H.M. Loveless and Dr. and Mrs. H.S. Loveless of Colorado Springs, Colo.; Mrs. Josie Batson, Mrs. Lloyd Clark and daughter, Celia, Mrs. George Mulligan all of Borger; Rev. and Mrs. Jimmy Wallis of Liberal, Kansas; Rev. and Mrs. Robert Girovard of Pampa; Mrs. Tommy Davis of Gruver; and Mrs. Johnny Gloyd of Sayre, Oklahoma.

For traveling the bride wore a beige linen dress with a sleeveless three-quarter length top of beige and brown. She wore the white orchid from her bridal bouquet.

The couple will honeymoon en route to Ft. Monmouth, New Jersey, where the groom is an instructor in electronics in the U.S. army.

Mrs. Johnny Close, Mrs. Joe Mack Close and Mrs. Jack Batson were the hostesses for the rehearsal luncheon at the home of Mr. and Mrs. Joe Mack Close, Monday at noon for the members of the wedding party.

Mr. and Mrs. George Miller of Hereford spent Thursday night with her sister Mrs. Nealson and visited other relatives.

Wall Coverings
Provide A
Wide Choice

Wall coverings today give the home a wide choice of textures, colors and prices.

There's more to shopping for wall coverings, however, than just choosing the right color and style from paper roll goods, says Mrs. Jane Berry, Texas A&M University Extension housing and home furnishing specialist.

You, as a consumer, should also consider style and design elements and relate these to other factors within and outside your home.

Some of the factors for your consideration include price, care and durability of such materials as vinyl, paper, metal, jute, cotton, silk, saran, olefin and nylon.

Research shows that some wall coverings withstand scrubbing longer than painted surfaces. However, the appearance of other materials may be ruined by water.

So, before you buy, study the type of materials and care recommendations for each. Then relate these factors to the cost of the materials and the life expectancy for each. Price-wise, you have a choice of materials which range from less than 50 cents a roll to more than \$50 for a comparable amount of material.

Your choice of wall covering may vary greatly from that of your neighbor, but it should please your family, the specialist emphasizes.

Avoid, whenever possible, mowing grass when it is wet. Dry grass is easier to cut, does not build up and clog the mower and gives the lawn a neater and more finished appearance.

Water Board Unveils Plan

Agriculture will continue to provide a half-billion dollars to the economy of the High Plains of Texas in 2020, the Texas Water Development Board and area residents were told recently at a "town hall" type meeting held by the Water Development Board in the Lubbock Municipal Auditorium.

The prospect for the future of agriculture in the area was contained in a 56 page report by the 2020 Committee, a group of High Plains agriculture, education, industry, and business leaders, to the Water Development Board. The report provided the information about High Plains water resources and needs for "Water For The Future", the 50 year program of the TWDB. The 50 year plan was unveiled to the public for the first time at the meeting.

Edward G. Weber of Amarillo, a member of the group, presented a commentary on the 2020 Committee's report at the meeting.

The report shows a 1959 value of agricultural production at just under 500-million dollars. It projects to a high of 616-million dollars in 1980, but still sees agriculture as a half-billion dollar business in 2020. And production of a half-billion dollars in farm products will be a major contribution to this state-and our nation," the committee's summary, as delivered by Weber, said.

Dr. Herbert Grubb, agricultural economist from Texas Tech, who made the projections on production and irrigation contained in the report, said the 2020 farm income figure was based on 1959 commodity prices, and didn't take into consideration increases in value or increased crop yields that will probably take place in the next 50 years.

Dr. Gerald Thomas, dean of agriculture at Texas Tech and a member of the 2020 Committee, said: "There is no area in the State of Texas that lends itself to agricultural science and technology as the High Plains does. Improvement in agronomy and management technique will reduce our use of water and our farm economy will remain high although, if additional water is not available, we will have a higher percentage of dryland production."

In this connection, the Committee's report urged the committee to take the high productivity record of the area into consideration in the allotment of several million unassigned acre-feet of water from other sections of the state.

"We ask that before you put undeveloped-and unproven-acres in irrigation in other sections of the state, that every means of bringing water to the High Plains-where the productivity of the land is already a proven fact-be studied in detail. So, before it is determined that it is not feasible to bring excess water from other areas of this great state of ours to the High Plains, let us determine together how much water is available and how much it will cost.

Concerning the earlier report by the Water Development Board that new resources for the High Plains would have to be imported from other states, the committee said: "We would urge you that if this is truly a statewide water plan, that every avenue within the power of the state government be investigated before the conclusion is reached that our sole solution is importation. This solution is obvious. The question is--Is it inescapable?"

Earlier in the summary, Weber, speaking for the group, said: "Several billions of dollars would be a conservative estimate of the investment in the future of this High Plains area that was represented in the membership of the 2020 Committee."

"Now, this fact is important for two reasons. First of all, it assured the area that the information provided for the Water Development Board would be realistic. You don't kid when you're talking about billions of dollars. And the second thing that was important about this several billion dollars in investment is that it is evidence of

confidence in the future of this area--long-range confidence." The 2020 Committee derived its name from the fact that the statewide water plan is designed to meet the needs of Texas through 2020. The group began

meeting in early 1965 to provide High Plains water sources and needs information for the Texas Water Development Board. Its members include the leading hydrologists and agricultural economists of the ar-

Food for the Fourth by Betty Crocker

To get into the spirit of things, let's plan a picnic for the Fourth — at the seashore, in the park, or at home in your own backyard. And for food that's fun, what's more appropriate than good old American hot dogs — ballpark-style with relishes and mustard, or turned into Coney Islands with chili con carne. Balance the menu with deviled eggs, tossed vegetable salad, potato chips and fresh fruit. Add a Yankee Doodle Velvet Crumb Cake for dessert, a few patriotic colors — and, whee, it's a red-white-and-blue celebration. The cake is fudge in flavor and frosting, because that's the all-American favorite. The perfect choice, wouldn't you say, for Independence Day?

YANKEE DOODLE VELVET CRUMB CAKE

- 1 1/2 cups Bisquick
- 1/4 cup sugar
- 1/4 cup cocoa
- 3 tablespoons soft butter
- 1 egg
- 1/4 cup milk
- 1 teaspoon vanilla

Heat oven to 350°. Grease and flour a square pan, 8x8x2 inches. Mix Bisquick, sugar and cocoa. Add butter, egg and 1/4 cup of the milk. Beat 1 minute with electric mixer at medium speed. Add remaining milk and the vanilla. Beat 1/2 minute. Pour batter into prepared pan. Bake 35 to 40 minutes. Frost. 9 servings.

This cake is a new variation of our old favorite, the Velvet Crumb Cake. Since the original is so popular, we turned it into a fudge cake — just as simple to do, just as fine and even in texture. And to double the fudge

pleasure, here's a quick-as-a-wink chocolate icing for it.

OLD GLORY CHOCOLATE ICING

Combine 1 package (6 ounces) semisweet chocolate pieces, 2 tablespoons butter and 3 tablespoons milk in saucepan. Stir over low heat until chocolate is just melted. Remove from heat. Stir in 1 cup sifted confectioners' sugar. Beat until smooth, glossy and easy to spread. Enough frosting for 8- or 9-inch square cake. Decorate with tiny American flags at serving time. One jaunty flag in the center of each slice of cake.

RED WHITE AND BLUE TABLE TRIM

Blue oilcloth as a tablecloth, white fingertip towels for napkins, bright red apples in the center. OR large white beach towels — red and blue bandanas.

Happy Fourth, everybody!

SINGERS -- Members of the Brownie Day Campers line-up to sing camp songs for their parents and friends attending the cook-out Thursday night. The camp was held in the grove of trees at the home of Mrs. Joe Novak.

Plainsman Photo

Highway Department Issues New Travel Fun-Tier Brochure

The immense variety of Texas pleasure travel is portrayed in an entirely new edition of the popular travel brochure,

"Texas-America's Fun-Tier," released today by the Texas Highway Department.

The 32-page color brochure

incorporates maps, photographs and art work in a glossy, magazine-style format. It provides the traveler with a short, vivid course in Texas geography, spiced with colorful pictorial glimpses of things to see and do in the "Friendship State."

So vast is Texas, the new brochure divides the state into

six recreational regions, focusing on attractions which are depicted by caricature maps, drawings and photos. Designed to give equal representation to all parts of the state, the new publication illustrates a cross section of Texas vacation variety. Historical, amusement and recreational features are portrayed in each section, outlining a brand of fun for everyone.

Also included are informational sections on hunting and fishing, highway regulations and tourist services provided by the Texas Highway Department.

Nearly a million free copies of an earlier edition have been distributed since its introduction some three years ago. Demand for the new publication is expected to be even larger.

The new brochure joins other pieces of travel-oriented literature which are now being distributed by the Highway Department. More than three million pieces are annually provided free to Texas travelers.

Supplemental literature includes the Official State Highway Map, Texas Calendar of Events, State Capitol Guide, Texas Facts Sheet, State Parks Guide and an invitation to visit Highway Department Tourist Bureaus.

Those Tourist Bureaus—seven located at major highway entrances to the state, and one in the State Capitol rotunda—served more than 750,000 travelers last year. Visitors were provided free maps, literature, travel tips, and encouragement to stay a while longer in Texas. A ninth Tourist Bureau is under construction in Amarillo.

Additional travel services were rendered in reply to more than 224,000 mail inquiries handled by the Highway Department last year.

Circles Meet For Mission Study Wednesday

The Circles of the W.M.U. of the First Baptist Church met on Wednesday.

Alma Reed Circle met in the home of Mrs. Jim Fowler. Mrs. Don Jones presided over the business and also read the prayer calendar. Mrs. Jerry Ralls led in prayer.

The Mission study, "Meet the American Jew" by Belden Menkus, was given by Mrs. Fred Holt and Mrs. A.F. Loftin.

Present were Mmes Major Lackey, Eddie Gales, Jerry Ralls, A.F. Loftin, Fred Holt, Don Jones and the hostess Mrs. Jim Fowler.

Mrs. A.L. Johnston was hostess for the Kezzia Mae Seawright Circle which met at the church Wednesday morning.

Mrs. Dick Kilgore presided and the meeting opened with prayer.

The Mission study book, "Panama--The Land In Between" was presented by Mrs. Charles Eaton.

Present were Mmes L.L. Anthony, D.W. Hazelwood, R.L. Uptergrove, Ed Hutton, Charles Eaton, G.R. Kilgore and the hostess.

The home of Mrs. Florene Devers was the meeting place for the Betty Morris Circle.

Mrs. Herb Howe presided over the meeting with an opening prayer by Abby Ownbey. Mrs. Howe read the prayer calendar followed with prayer by Florene Devers.

Magda Garnett completed the Mission study book on "Panama--The Land In Between."

Mrs. Bob Johnson from Plains has been the guest of Mr. and Mrs. Mose Lamb.

Mr. and Mrs. Johnnie Crawford and Kelly had as dinner guests Thursday night for a cook-out Mr. and Mrs. Jimmy Kirkland.

Anthony Wilkerson took his aunt, Neola Wickham and her granddaughter, Brenda, and his cousin, Tommy Counts back to their home in Enid, Oklahoma Friday. Anthony was accompanied by his mother, Mrs. W. L. Wilkerson, his sister, Darlene, and Linda Hand. His aunt and cousin have been visiting here in Spearman this week.

Classified advertising pays great dividends for just a little cash. Use Plainsman classified ads and see!

Mrs. Sam Patterson and Mrs. E.J. Calloway Jr. took Sheila Patterson, Janiece Calloway, and Catherine Lyon to Lubbock to play tennis on Friday. The group left Thursday afternoon for the trip.

Phone 2466 or 3258 to report local news.

The meeting closed with a prayer by Alma Kizzair followed by the social hour.

Present were Eva Adkison, Peggy Archer, Bob Baley, Magda Garnett, Abby Ownbey, Alan Kizzar, Barbara Howe, M.W. Walker and the hostess Florene Devers.

What a dreary world this would be, without children! Aren't you glad we aren't all started out as adults, like Adam and Eve?

Sometimes, silence may be golden: again, it may be guilt.

USE THE CLASSIFIEDS

PAMC Pre-Enrolls One Local Student

Only one Spearman student has pre-enrolled at Panhandle A&M College in Goodwell, Oklahoma, for the fall semester.

The student is Mary Ellen Novak, daughter of Mr. and Mrs. Robert Novak of Spearman. Freshman Orientation and Advisement clinic will be held Sept. 6 and 7. Registration for upperclassmen will be Sept. 6. Classes begin Sept. 8.

Boat-Ski Toll Off, Total Up

Deaths from water recreation continue to climb ominously, according to the Texas Parks and Wildlife Department's unofficial tally.

But of the 22 fatalities reported during the last two weeks' period none was blamed on boating as concerned high speed operation or water skiing.

This development coincides with a concentrated effort, shared by the Department, in enforcing the new water safety code.

A few drownings involved boats, but of the fishing variety and were classified as occurring while the occupants were on angling forays.

Bathing accidents were the major killers, since 11 persons perished while playing in the water.

Four victims were wading, three of them very young children.

The 1966 pace to date is running ahead of the 1965 rate when an even 200 persons died in water recreational accidents, as totaled by the Department.

The total this year was 95 on June 6. Last year it was 90 on June 9.

A Department spokesman suggested that the three summer months ahead that entice millions to Texas vaunted water areas will provide a self-preservation challenge.

He noted that the fishing fatalities might have been avoided had the persons involved been wearing life preservers.

The new safety code stresses availability of life preservers in watercraft.

Two Outposts, Wildcat Set in Area Oilfield

Two outposts and one wildcat are to be drilled in the area.

In Hansford County Anadarko Production Co., of Fort Worth staked a three-quarter-mile southeast outpost to its dually completed white dolomite and Council Grove gas discovery in the Collard area of Hansford County.

This will be the No. 1-A Van Cleave, 1,980 feet from north and west lines of section 11, block 3, SA&MG survey, a 3,800-foot test nine miles southwest of Spearman.

Phillips Petroleum Co. will drill a one-mile north outpost to the east side of the Southeast Feldman Tonkawa sand gas area in Eastern Hemphill County.

It will be the No. 1-T Jones, 1,980 feet from south and west lines of section 16, block 42, H&TC survey, an 8,350-foot test 14 miles southeast of Glazier.

The wildcat will be in Lipscomb County were Midwest Oil Corp., Fort Worth, will drill a 7,700-foot Cleveland and wildcat.

It will be the No. 2 V.G.

Schultz, 1,980 feet from south and west lines of section 7 8 4, block 43, H&TC survey, 15 miles northwest of Higgins.

The location will be one and three-fourth miles southwest of Cleveland oil production in the Mammoth Creek multipay area and half a mile east of its No. 1 Schultz, a Tonkawa sand gas producer.

Grasshopper . . .

(Con't. from page 1.)

program, 10,000 acres is required to begin the work.

Adamson said the heaviest infestations seem to be in the northeast part of the county, but all grassland should be checked for the insects.

The agent said the grasshoppers are in all stages and the spraying must be done soon to keep the insects from laying more eggs.

It takes only eight ounces of the chemical to kill the hoppers, Adamson said it does not seem possible, that so small amount would do the work, but it is getting a good kill where it is being used.

This is the first time since 1958 that the grasshopper menace has been damaging enough to necessitate county-wide and area wide control work.

Irrigation . . .

(Con't. from page 1.)

applications are for wells that were never completed in earlier years.

The completed wells and pending applications now give the county a potential of 833 wells, plus 22 industrial wells. Increased interest in wells may push this year's total above the 87 drilled last year, but is not endangering the record years of 1964 when 192 wells were completed or the next largest year, 1963, when 166 were drilled.

The record years were the two that changed the county from a dryland to irrigated economy.

There are 22 city and industrial well drilled was in 1964.

Gruver . . .

(Con't. from page 1.)

with the forty-two and domino contest starting at the same time.

At noon there will be a sack lunch served by the Jaycees for 50 cents.

At 1 p.m. there will be a pie eating contest and at 2 p.m. a pie throwing contest. The watermelon eating contest begins at 3 p.m. and the pancake race at 4 p.m. At 5 p.m. there is horseshoe and washer pitching contests again.

The fireworks display will be at 8 p.m. at the football field. The winners of the essay and oration contests will be awarded.

Mr. Sam Patterson was the dinner guest of his daughter and son-in-law, Mr. and Mrs. Jimmy Kirkland Friday evening for supper.

Mr. and Mrs. Larry Hays and Mark and Joanne went to Berger Thursday night to eat barbeque at Sutphen's.

HEALTH AND SAFETY TIPS

From The AMA

SWIM SAFETY

As the outdoor swimming season approaches once again, the safety experts predict with certainty that more than 6,000 Americans will drown in the coming months.

They will drown in swimming pools, in lakes and streams, at ocean beaches. Some will drown while in for a refreshing swim and others will fall out of boats or off docks and piers.

Many, if not most, of these drownings need not happen.

Today's Health, the family magazine of the American Medical Association, offers some basic safety rules that will help to avoid a tragic water accident for your family--

Learn to swim and to relax in the water.

Never swim alone.

Do not swim when overly tired or when the water is extremely cold.

Do not overestimate your ability and endurance.

Swim at protected pools or beaches under the supervision of a trained lifeguard.

If a boat overturns, stay with it and don't try to swim a long distance to shore.

Never dive into waters of unknown depth.

Try new activities, such as water skiing or scuba diving, only after learning the skills from qualified instructors.

The tallest structure ever built by man is a television tower near Columbus, Georgia. It is 1749 feet tall, as compared with Empire State's 1472.

Some people are really good, when only in neutral.

Mrs. Adamson DPS Warns Motorists of Hazards Has Program In Effort To Lower Traffic Deaths For Circles

The W.S.C.S. Circles of the First Methodist Church met in a general meeting at 3:00 p.m. on Wednesday at the church.

Mrs. Doug Grimes presided over the business and the meeting was opened with prayer by Mrs. Wesley Daniel.

The program titled "Values" was presented by Mrs. Robert Adamson.

Refreshments were served by the hostess, Mrs. Jean Sell, to Meses, Kenneth Williams, Robert Adamson, Bill Strawn, Richard Baxter, S. Beck, Roy Jones, George Buzzard, Larry McIntire, Hubert Hays, Bruce Sheets, Ray Messer, Wesley Daniel and Doug Grimes.

The Director of the Texas Department of Public Safety today reported that DPS estimates indicate that 31 persons will die in traffic accidents during the three-day Fourth of July holiday, and cited incidents from last year's Independence Day holiday as examples of how these mishaps might occur.

Col. Homer Garrison, Jr., DPS director, said the estimate was compiled by the DPS Statistical Services on the basis of past experience and the current trend of traffic deaths. Last year, 28 persons lost their lives in traffic accidents during the holiday period.

"On the first day of last year's holiday period," Garrison said, "a speeding driver lost control of his car and struck a guard rail. His car flipped high into the air and landed upside down. A passenger was killed."

"In another accident, a car pulled from a country road onto a major highway, directly in-

to the path of an oncoming truck. The truck skidded 134 feet but couldn't stop in time. The driver of the car was killed.

"In still a third fatal accident one car attempted to pass another on the right hand side. The car in front moved to the right, causing the passer to swerve, lose control and overturn. One person was killed, one was injured.

"Our files contain the details of each tragedy," he continued, "and each of them is made even more tragic by the fact that, with proper awareness, they could have possibly been avoided."

Garrison pointed out that the responsibility for avoiding an accident rests with each individual driver.

"Most drivers are basically good drivers," he said, "but too often even the best driver lets his attention wander... and lack of attention to one's driving can be a fatal fault... for instance, last year one man was driving a car with five children as passengers. He entered a curve too fast, hit his brakes and lost control of his car. The vehicle overturned, killing one of the children."

"Focus attention on the added dangers of holiday travel and the need for awareness while driving, the DPS will conduct 'Operation Motorcide' during the holiday period. From 12:01 a.m., Saturday, July 2, through 11:59 p.m., Monday, July 4, traffic fatalities will be tabulated by the Department and the totals will be announced officially three times daily as a means of keeping safety uppermost in the minds of the motoring public.

"If each driver will assume an attitude of watchfulness and awareness toward the actions of other drivers," Garrison said, "the number of accidents can be materially reduced. Paying attention could well make the difference of a split-second between a near-miss and a fatal crash."

As a part of the DPS' operation, calling for maximum enforcement and public support, additional personnel from other uniformed services of the DPS will augment the regular High Patrol force.

In addition, Garrison added, numerous agencies, organizations and individuals will help in the coordinated program to cut down on traffic accidents by taking part in the "Operation Motorcide".

Six Local Boys Attend Tennis Camp

Six Spearman tennis players return today from a week's tennis camp at Texas A&M University.

The six boys have been at the Texas Tennis Camp for instruction and competition all of this week.

Boys attending this year are P.A. Lyon III, Frank Wilmeth, Wally Windom, Phil Windom, James Lyon and Billy Brown.

Girls Compete in Lubbock Tourney

Three girls competed this week in the Lubbock Open Tennis Tournament. The competition began Thursday and continues through today.

Sheila Patterson and Janiece Callaway entered the 14 and under girls doubles competition. Catherine Lyon entered the 18 and under girls singles competition.

First year medical students are expected to learn 13,000 new terms, more than half of them anatomical.

Most lives are very similar to our thoughts: hence, the importance of constructive, honest thoughts.

Vernons Leave For New Jersey

PR3, and Mrs. Eldon Vernon left here Thursday for Lakehurst, N.J. where he will be stationed. They have been here a month visiting her parents, Mr. and Mrs. Everett Greene and Wanda Sue and his parents, Mr. and Mrs. Pete Vernon and Terry. Vernon has been stationed at Cecil Field, Jacksonville, Fla.

On Wednesday evening a birthday observance was held at the Greene home honoring Eldon with both families attending.

Rev. and Mrs. Luther Berry left Monday for a vacation and will visit their parents in Okla. and their daughter Mr. and Mrs. Wendell Crittendon and baby.

Mr. and Mrs. Bill Brown went to College Station Friday to see some of the tennis games at the Texas A&M Tennis Camp. Their son, Billy and five other Spearman boys attended the camp. Mr. and Mrs. Brown and Billy and P.A. Lyon, III went on to Lake Buchanan where they visited Mr. and Mrs. Asbury Coostan.

Terry Vernon is visiting in Steamboat Springs, Colo. in the home of his sister, Mr. and Mrs. R.C. Banister and boys.

Mr. and Mrs. Don Jones, Wanda and Billie spent Fathers' Day weekend in Pampa visiting her parents Mr. and Mrs. W.R. Morrison and his parents Mr. and Mrs. C.A. Jones.

Tourney Climaxes Summer Tennis

A tournament Thursday and Friday will end the summer tennis lessons, instructor Perry Coursey announced this week.

The tournament is for all 45 boys and girls who have been under Coursey's instruction this summer.

Several of the players will be participating in tournaments throughout the state this summer.

Mr. and Mrs. Pete Vernon and Mr. and Mrs. Eldon Vernon visited in Amarillo recently with relatives from Chicago, Illinois.

The United States is the largest market for Hong Kong products.
