## Two Spearman Science Students Selected for Research Fellowship

The selection of two students for a National Foundation summer science training program from one high school the size of Spearman might be classed as a very rare event.

It was announced this week that David McClellan had been selected for the program at the University of Texas and Linda Spoonemore as a alternate for the program at the Texas Women's University.

Science Instructor Bob Barker would not comment on the chances of this happening again in a small high school. He did admit that it was rare for it to happen in almost any size school.

"We had three real good students competing. They all placed in the top one percent of those taking the test," Barker said.

A senior, Bethany Donnell was one of the three taking the tests, but the program is designed for juniors and possibly an occasional sophomore, according to the information bulletin.

McClellan was one of 36 students selected to attend the program at the University of Texas. More than 500 of the 5,000 taking the tests wanted to attend the University.

The major objective of the program is to identify high-ability secondary school students and present these students with a special program in experimental biology. The program is extensive.

The students work as assistants to professors doing research at the university, they attend classes and lectures, do library work, individual research work and take field trips.

The lecturers will be some of the nation's top biologists and other scientists.

Students who show the greatest ability in research work will be given an additional three weeks at the university for additional research.

McClellan has had a great interest in science and math since he first entered the fields in junior high school a few years ago.

The studious youth said he was thrilled when he was selected, but was not surprised. "I managed to do well on the tests and felt like I had a good chance to be selected."

McClellan placed 73rd out of the 5,051 who took the tests. The tests took four hours, two hours, for two days. It covered science, math and the ability to read and understand.

The youth thinks he will go into medical research or he might be a teacher.

He and Miss Spoonemore said Dr. Vernon Scholes of North Texas University helped them this year. He lectured to Spearman High School students interested in science. He gave them encouragement about entering a science field.

Miss Spoonemore is a late entry in the science field.

"Frankly, I hated science until I took biology last year under Mr. Barker. Now, I want to continue my education and become a medical technician."

## Spearman Gets Needed Moisture

The much needed rain came to Hansford County farmers in what is hoped the nick of time to save the dry-land wheat.

Varied reports of moisture have come in throughout the county ranging from an inch down.

Spearman's official weather station recorded .35 in a shower early Friday morning, reported by Mrs. Pat Cates.

WORKOUTS BEGIN - These Astro players worked out Friday afternoon under cloudy skies in preparation for their first game Monday night against the Jets. The Astros are coached by Buddy Benton

**Enrollment Deadline Extended**

Older people in the North Plains who did not sign up for the voluntary doctor bill insurance under medicare before the

close of the first enrollment period on March 31 have been given a little more time, Virgil Holloway, social security officer-in-charge, announced today.

In legislation signed by President Johnson last week, Congress has extended until May 31 the deadline for enrollment by persons 65 or over.

Nearly 90 percent of the nation's elderly were enrolled for the doctor bill insurance when

social security offices closed at midnight on March 31, Holloway said. Only 5 percent had turned down the protection which supplements the basic hospital insurance provided persons 65 and over.

About 370,000 people 72 or older who may never have worked under social security at all were made eligible for monthly social security benefits of \$35 for a single person and \$52.50 for a couple under a change in the law enacted last month. The new payments will begin with the month of October 1966. An estimated 21,300 of these newly eligible people live in Texas.

Anyone 73 or older who is not receiving a monthly social security or railroad retirement benefit, or some other Federal, State, or local public retirement payment, a teacher's pension, for example, may be eligible for the special payments, Holloway pointed out. Those receiving public retirement payments (other than social security or railroad retirement) of less than \$35 per month for a single person, or \$52.50 for a couple, may apply for the difference between their present payments and the amount of the special social security benefit.

Persons getting public assistance payments from a State welfare agency may elect to get either the new social security benefit.

Persons getting public assistance payments from a State welfare agency may elect to get either the new social security payment or the public assistance payment, but not both.

Eligible persons 72 or older who have already applied for medicare will not need to make special application for the new payments. The Social Security Administration will be getting in touch with them to find out whether they are collecting another public retirement benefit. But others 72 or older by next October will need to apply, Holloway emphasized. At the same time they will be able to protect their right to the basic hospital insurance provided persons 65 or over under medicare, and also make a decision as to whether they want the voluntary doctor bill insurance.

People 65 and over, whether or not they have ever worked under social security, and whether retired or still working, get basic hospital insurance protection under medicare, he

**Does a firm mattress have to be uncomfortable?**

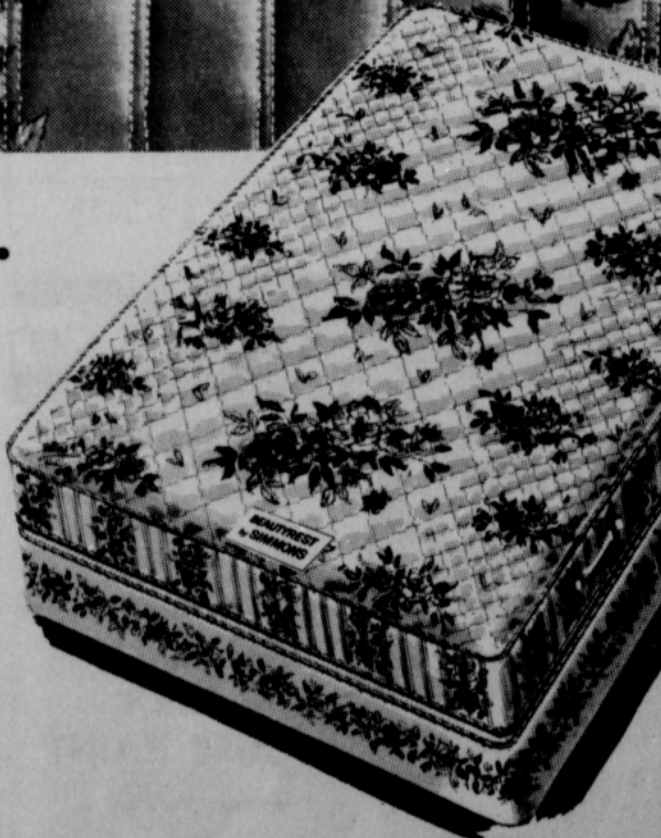

**Many Of Them Are... But Not Beautyrest!**

Most 'firm' mattresses are as hard as a concrete slab. But Beautyrest is different. It has separate, independently pocketed coils that give under your shoulders and hips, yet firm up to support your side and back . . . you get just the right degree of firmness you want and need. The result? Body-fitting comfort!

Come in and stretch out on a Beautyrest. Shift, turn, roll over. See how Beautyrest adjusts to your size, shape, weight. It's firm or extra-firm, but never rigid . . . just plain comfortable! What more could you ask?

## Baptist Circles Meet

The Alma Reed Circle of WMU met Wednesday with Mrs. Eddie Gates, Mrs. Don Jones presided and also read the prayer calendar followed with prayer by Mrs. R.H. Gray. Mrs. Don Denham was in

charge of the program titled "My Family, Witnessing to Each Other." She was assisted by Mmes. A.F. Loftin, Don Jones, Eddie Gates and Lloyd Gilley.

Others present were Mmes. R.H. Gray, Major Lackey and Fred Holt.

The Betty Morris Circle met at the church, Chairman, Barbara Howe served refreshments of coffee and fried pies.

The lesson "Witnessing to Each Other" was also given by Mrs. Howe. Deloris Guthrie read the prayer calendar and prayers were given by Mmes. Bob Bailey, Woodville Jarvis and Alma Kizziar.

Present were Mmes. Guthrie, Jarvis, Kizziar, Howe and Bailey.

Barbara Reger was hostess at the church for the Naydene Brewer Circle Wednesday morning.

Wanda Widener opened the meeting with prayer and the program was "Witnessing to Each Other."

Attending were Barbara Reger, Wanda Widener, Vicki Adkison, Jane Moyer, Garry Jones and Joan Chisum.

## Catholic Guild Holds Meeting

The Sacred Heart Catholic Guild met Tuesday evening at the Rectory.

President Evelyn King presided and opening prayer was led by Father James.

The group continued their work on the constitution and reports were given by Mrs. Clementine Renner and Mrs. Jackie Banks on the Deanery meeting and workshop they recently attended.

Seven members and Father James were present.

On Sunday morning coffee was served by Mmes. Frank Porter and Joe Granato.

## Hansford County Second In Wheat Acreage

Hansford County has the second largest wheat acreage of any county in Texas according to the Texas Crop and Livestock Reporting Service.

Ochiltree County continues to be the leading county with 218,778 acres. Hansford County has 200,374 acres.

Deaf Smith County is the only other county in the state to exceed the 150,000 acre mark. It has 169,000 acres. Sherman County is the fourth largest with 145,000 acres.

According to the report Texas has 3,582,489 acres of wheat seeded this year. Oats,

barley and rye bring the state's small grain total to 4,512,043 acres.

Of the 79 counties reporting on their wheat as of April 15, 44 report that conditions were average. Only 22 said conditions were good and 13 reported conditions as poor.

Some dryland wheat in the Silverton area was reported as being plowed up.

The damage to the wheat on the high plains from the freeze Tuesday night may be extensive, but it will take time to tell.

## Science...

(Con't. from page 1.)

This is the field she will study at Texas Women's University this summer, if she gets to go.

There were 28 students accepted at TWU and if any one drops out, she will get to go.

Since she entered the science field late, Miss Spoonemore was surprised at doing so well on the tests and more surprised when she was selected as an alternate.

Barker said the selection of the students will mean much more to them than just the work this summer. He said there is a great number of scholarships, grants and fellowships available for science students. These high ability students will be in line for this help in years ahead.

We have come close several times," Barker said, "but this is the first time we have had anyone in the program."

Members of the First Baptist Church attending the annual Baptist Vacation Bible School Clinic in Pampa Tuesday, were Mmes. Glen Hiller, Woodville Jarvis, R.L. Uptergrove, Ray Devers, Joe Novak, Bob Gray, Arthur Adkison, Tommie Reger, Herb Howe, Don Jones, R. E. Bradford, Eddie Gates, J.D. Helms, John L. Brown, Jerry Chisum and the Rev. Luther Berry.

**Vocational Courses Offered at OST**

The Okmulgee Branch of the Oklahoma State University was founded in 1946 to serve in the areas of vocational and technical education. The school, known as Oklahoma State Tech, is located on the eastern edge of Okmulgee.

The campus contains 94 buildings composed of modern shops, classrooms, library, chapel, food services, recreational and housing buildings.

All single students are required to live campus housing if it is available unless their home is in Okmulgee.

Students should submit an application for admission to the Office of Administration, which authorizes enrollment. An application for admission may be requested from the Office of the Director, Oklahoma State Tech.

Oklahoma State Tech was designed to provide a vocational and technical education program for the student with the initiative and talents to become a skilled craftsman or an industrial technician. The basic techniques and skills which apply to each specific occupation are emphasized. The ultimate goal of each technical course is successful employment in industry.
