## Radio Auction And Show Is Sunday

Everyone will have a chance to help the March of Dimes, to be entertained and get some good bargains Sunday during the March of Dimes Radio Auction from 2 until 5 p. m. in the high school auditorium.

The three-hour program and auction will be broadcast on KBMF-FM here in Spearman. Persons may also attend the show and bid on items as they are shown in the auditorium.

Mrs. Louis Schnell has arranged a big array of talent for the afternoon of entertainment. Mrs. Roy Jones has many local women preparing baked goods to be auctioned.

Many of the items to be auctioned are now on display in the show window of Gordon and Lee's Drug on Main Street. There will be two phones available for persons to call in bids on items being auctioned. The numbers are 2584 and 2585.

Mrs. Schnell said this week that more talent is being added to the show all the time. The latest entries include the Lynx Quartet of Don Archer, Mike Morris, Rennie Berry and Ronnie West; the Gruver girls quartet of Arlene Barkley, Donna Lemons, Darlene Odom and Jane Hoy accompanied by Cathy Fletcher; the Gruver boys quartet of Jimmy Cooksey, Wayne Leatherman, Jerry Gumfory and Hody Porter.

Soloists who agreed this week to perform include Miss Dorothy Roden, Enoch Estep and Mrs. Sue Estep, Debbie Brock and Coy Palmer.

A group of Spearman speech students will do dramatic readings. They are Jane Allen, Paul-ette Hester, Patsy Kingsley, David McClellan, D'dee Col-lard, Pat Massad and Doug Lackey.

Anyone having a white elephant or other items to donate to the auction can call the Chamber of Commerce. Jaycees will pick up the items.

## Plainsman Is Closed Today

The office of The Hansford Plainsman and Plainsman Office Supply will be closed Thursday, January 23 until 1 p. m. in memory of Mrs. E. C. Womble, mother of Mrs. Faye Lynch of the Plainsman staff.

## Poll Taxes Moving Slow

Poll tax sales have increased but there are still almost half the potential voters in the county who have yet to pay their poll tax and become qualified voters.

Sheriff and Tax Assessor-Collector J. B. Cooke said this week that just a few over 1,100 persons had paid the tax. There are more than 2,000 in the county who must have a poll tax to vote.

Persons who are 21 must get an exemption to vote. Persons 60 and over can vote without a tax or exemption.

In order to help promote sales the Spearman Jaycees will be selling poll taxes Saturday in the First State Bank, the Post Office, Cut Rate Grocery and Ideal Grocery.

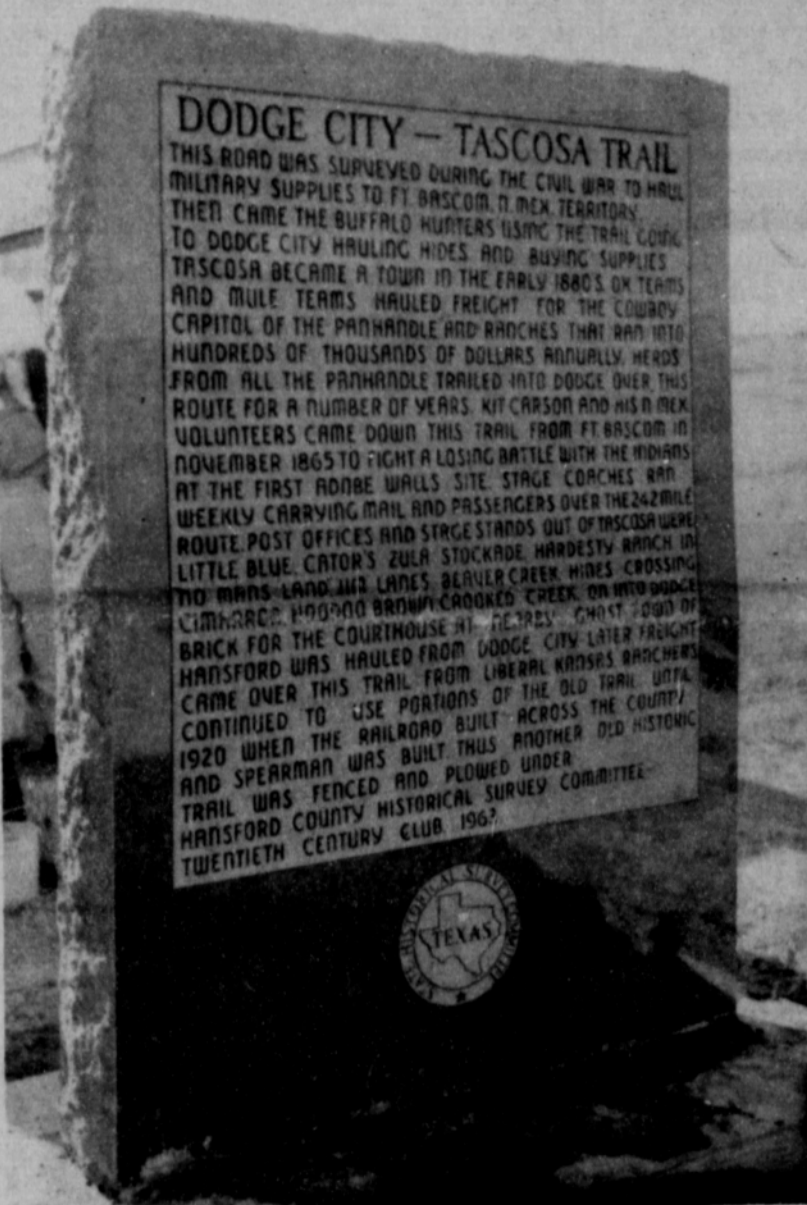

## Two Gassed By Furnace

Two more Spearman people were nearly suffocated by a faulty vent on the floor furnace in their home.

Mrs. Beula Burger and her son Bill were treated for carbon monoxide poisoning Saturday in Hansford Hospital after a neighbor found them about 9 a. m. Saturday.

A physician who treated the mother and son said they first summoned him about 4 a. m. He said he opened the house to let in fresh air and advised them to go to a motel for the rest of the night. He said after he left, they apparently decided to stay at home for the rest of the night and they closed the windows.

Investigation showed the vent pipe on the furnace had been knocked off and was letting the gas into the house.

**TRAIL MARKER-** Members of the Hansford Historical Society set a large Mahogany Granite marker Wednesday afternoon where the Dodge City-Tascosa Trail crosses the highway near Old Hansford. (Top) Lee McClellan checks alignment of the marker while Tom Jones and R. Y. Jones hold the stone. (Bottom) Gertrude Lackey, Mrs. N. F. Renner, Mrs. R. B. ## Injured Driver Trapped Nine Hours After Wreck

Alton B. Reimann, Jr., about 19, of Hardesty Okla., is in St. Anthony's Hospital in Amarillo recovering from injuries received in an accident near Morse Monday night.

Reimann was trapped in his

compact pickup for nine hours after it hit a bridge railing, bounced across the road and jumped a bridge railing, traveling 45 feet in the air to hit a creek bank, then falling to the bottom of the creek.

The attending physician here said the young man received a crushed chest, internal injuries, and dislocation of both hips.

Reimann told investigating officers the accident happened about midnight Sunday. He was found about 9 a. m. Monday by a passing truck driver who happened to see one wheel of the car sticking up.

Officers said the way the car fell, a passing automobile driver would not be able to see the wreck.

Reimann was pinned in the wreckage and it took awhile to get him free after he was found. He was brought to Spearman in the Gruver ambulance and after emergency treatment, was transferred to Amarillo.

## Fire Rate Cut in Half

The drive to improve Spearman's fire protection is now paying off in lower fire insurance rates, it was announced Monday at the City Council meeting.

Spearman's fire insurance key rate has been lowered to 28 cents. The rate was 51 cents last year and has been as high as 56 cents.

City Manager Ken Conrey said the new rate will cut fire insurance premiums almost in half. He said that in 1962 the fire insurance premiums in Spearman were \$34,519 at the 51 cent rate. Under the new rate of 28 cents, the premiums would have been \$18,592.

Conrey said although the fire rate is decreased, it is being offset by an increase in premiums on extended coverage because of the millions of dollars in losses in the hail storm last May.

Items that have been improved or corrected to give Spearman a better key rate on fire insurance include:

Improvements in the water pumping equipment and storage basins, also water mains that can be supplied from more than one direction.

Proper maintenance of fire equipment and regular reports to the state, plus a reserve pumper truck, helped cut the rates.

A new survey of houses in Spearman showing that the city has less than 75% combustible roofs in the residential section cut the penalty on that item in

## Womble Rites Are Today

Funeral services for Mrs. Edgar C. Womble, 73, of Spearman will be held at 10:30 a. m. today (Thursday) in the First Methodist Church.

The Rev. Charles Gates, pastor, will conduct the services. Boxwell's of Spearman will be in charge of interment in the Lieb Cemetery.

Bessie McGuiney was born Sept. 23, 1890 in Hill County. She was the daughter of Patrick Henry and Millie Ann McGuiney.

She and her husband were longtime residents of Hansford County. Both were active in civic and church affairs. Mr. Womble served as Mayor of Spearman for several terms during the 1930's. Mrs. Womble was an active member of the Methodist Church, Twentieth Century Club and Dahlia Flow-

## Mother's March Is Friday

The collection of funds for the March of Dimes in Hansford County gets into full swing this weekend, according to County Chairman Mrs. Virgil Mathews.

Friday evening the Mothers March for funds will be held in Spearman and the Mothers of Gruver will march Monday night for funds.

Rho Rho and Xi Zeta Upsilon Chapters of Beta Sigma Phi will conduct the Mothers March in Spearman.

Tuesday afternoon Cub Scout

Den Three of Pack 78 conducted a march for funds in Morse. Cub Scouts doing the collecting were Phil Lair, Mike Floyd, Bill Ownbey, Mike Conner, Mike Davis, Scott Beedy and Glen Ray Mackie. They were escorted by Mrs. Brad Meedy and Mrs. Don Floyd, Den Mothers.

The Radio Auction and Talent Show will be held Sunday afternoon in the High School Auditorium and broadcast over KBMF-FM from 2-5 p. m. Full details are elsewhere in this issue.

# Favorites Have Tough Battles In Subduing Two Opponents

Two highly favored basketball teams had their hands full here Tuesday night before they had won their games. The Spearman Lynxettes found the re-enforced Stratford Elkettes one of their toughest opponents of the year. The Spearman six won 38-32. The smooth Stratford Elks found the Lynx a different team from past games and it was late in the third quarter before Stratford moved away and went on

to win 61-44. A no-shooting first quarter pattern of past games was scrapped and the Lynx came out shooting Tuesday night. The offensive effort gave Spearman an 8-7 lead with 2:06 left in the first quarter. The locals had extended that to a 12-10 lead at the end of the first quarter. Stratford came back to lead 24-20 at the half and 39-31 at the end of three quarters. The Lynx came out with some new scrappers and shooters. Mac Crawford proved effective on the boards, as did Johnny Crawford and Jim Kirkland. Larry Butt gave a new scoring punch to the Lynx. The sophomore forward hit for 12 points on outside shots and driving lay-ups. Pat Pattison led the scoring with 15 points. Others scoring were Kirkland 8, M. Crawford 4, Ronald McDonald 3, J. Crawford and Loyd McWhirter 2 and Burton Williamson 1. The Spearman Lynxettes' two tall girls, Vicki Wilde and Kathi Pattison started moving like speed merchants as the Lynxettes were pushed to beat Stratford 38-32. Two Stratford starters who missed the earlier game, were back in action and put the Elk-

ettes in the thick of things. The defenses kept things under control in the first half and the scoring was 16-16 at half-time. In the third quarter a play pattern of Phyllis Patterson to Wilde to the bucket put the Lynxettes out in front to stay. Although Stratford had plenty of height on their guard end of the court, they could not stop Wilde from breaking under the basket and taking a shot pass to score. When the visitors finally got enough people under the basket to clog up Wilde's path, Patterson began to find the range from the outside. Wilde hit for 22 points and Patterson scored 14. Susan Hutchison hit the remaining two. They did not make a free shot. However they only got two tries as Stratford hit 12 field goals, eight free shots and made only two fouls. The Lynx hit 20 field goals and seven of 16 free throws, committing 23 fouls. Stratford had 21 field goals, 21 of 30 free throws and committed 13 fouls. Kathi Pattison teamed up with Sbarion Close and Joan Hackley to make the Lynxette defense tough. In the third quarter Close and Pattison were successful on numerous theft

half. Conrey pointed out that next year the city should get another reduction when the penalty for the Cactus fire and explosion runs out.

In other action, councilmen were informed by letter that the High Plains Gas Company is going to ask for a gas price increase. The council said if it was granted, the Railroad Commission would have to do it.

Firemen were given more insurance protection when a new program was approved. They now have \$6,000 life insurance, \$50 per week disability income and \$1,000 medical expense protection if killed or hurt fighting a fire. Under the old program, the firemen had \$1,000 life insurance, \$15 per week for disability and \$15 for medical expense.

## Washington And Small Business

By C. WILSON HARDER

Perhaps the most frustrating job in the entire world is that of holding down the office of U.S. Secretary of Agriculture.

His primary job, of course, is to work toward bettering the lot of the farmer. The farmer is only well off when he gets a sufficient price for his produce, and yet the price to the consumer is not too high to stop consumption.

But as long as C. W. Harder is saddled with the promoters of monopoly labor in government, plus the promoters of an expanding welfare state, the Secretary of Agriculture may as well spend his time fishing.

The Dept. of Agriculture points out in recent publications that the farmer only receives 2.4c for the wheat in a 25c loaf of bread, and about 11c for the milk in a 25c bottle.

The biggest expense item in these articles is created by Jimmy Hoffa, whose teamsters get the lion's share. For example, the cost of delivering bread to the grocery store now accounts for about 40% of the wholesale cost. In other words, it costs 8c to move from bakery store shelf a loaf of bread that contains 2.4c worth of wheat.

The same report says farmer receives only 11c for oranges in a 25c can of orange juice.

On other canned fruit and vegetable products, the value of the farm product is even less, due largely to the welfare dippy-doodling that set up unemployment insurance. The entire premiums are paid by the employer.

Unemployment insurance was originally set up to help those losing steady jobs to tide over until securing another job. It was never intended to be a gratuity for seasonal workers.

Yet, each summer, in the nation's canning and processing plants, housewives, students and others who want part time work make up the bulk of the working force. They neither want, nor seek employment for the rest of the year.

But the idea of the welfare state has so been developed that for anywhere from 26 to 39 weeks, depending on the state, unemployment checks are paid out to them.

Who pays for this? In the long run it is the consumer, because the cost of the unemployment insurance premiums, which furnishes checks for doing nothing, has to be added to the canning costs.

## W.M.U. Meeting Held at Church

Betty Thomas, program chairman, presented the missionary program "Northwest and Midwest" at the W.M.U. meeting held Wednesday, Jan. 15.

The Bible study was given by Mrs. Hazel Loftin and parts pertaining to mission work were given by Lila Williamson, Betty Thomas and Pat Denham.

The program was concluded with a song and the closing prayer.

Attending were Mmes. Florene Devers, Dorothy Woolley, Wren Holt, Betty Thomas, Verma Jarvis, Lila Williamson, Alma Bradford, D. W. Hazelwood, Marshall Walker, Edrie Jones, Marie Berry, Frances Kilgore, Addie Novak, Angie Sheets, Gray, Delores Guthrie, Omega Chisum, Linda McAllister, Patsy Gates, Viola Huston, Hazel Lodtin, Madga Garnett, Eva Adkison, Peggy Archer, Abbye Ownbey and two visitors, Edna West and Mrs. Morlar.

The next meeting will be Friday, Jan. 24, an associational quarterly W.M.U. meeting from 10 until 2 at the First Baptist Church.

## Jaycees To Sell Poll Taxes Here

As a public service, the Spearman Jaycees will have booths at Cut Rate and Ideal Groceries, the bank and post office Saturday, January 25, so that people can pay their poll tax.

If you have not paid your poll tax yet, the Jaycees urge you to do so Saturday, according to Jim Davis, Jaycee president.

# CHEVY-VAN!

## Chevrolet's new low-cost quality delivery truck!

This introduces you to Chevy-Van—our new economy delivery truck.

It has a low price tag, over 40 sq. ft. of completely usable flat floor 7½ ft. long, the engine up front, and a lot of quality features which make it a better buy. The body and frame-floor are welded together. The truck is strong, rigid, stable. Doors are double-wall construction.

Chevy-Van has unusual resistance to rust and corrosion. Especially vulnerable areas such as front stepwells are galvanized. Sealers are used at all critical joints inside

and out. Certain sections are treated with high-zinc-content primers; others with an aluminum-wax preservative.

The windshield is a big flat practical one-piece unit. The big 90-hp 4-cylinder standard engine is more powerful than some 6s, yet is remarkably economical. If you need more power, Chevy-Van offers a 120-hp six at extra cost. Side doors and rear windows also cost extra.

Last but not least, it's a Chevrolet. Which means that it is built to work for you a long time at minimum cost.

Telephone your Chevrolet dealer about Chevy-Van or any type of truck!

## County Agent's Report

Nothing is impossible to the man who doesn't have to do it himself.

### RELEASE COTTON ACREAGE

All cotton producers in Hansford County who do not intend to plant their cotton acreage are encouraged to release this acreage by the closing date of March 4, 1964. This will enable other cotton farmers to plant this acreage. March 4 is also the last day to request re-apportioned cotton acreage.

Any farmer requesting a new grower's cotton allotment has until January 24 to do so.

### SUGAR BEET MEETING

Don't forget the Sugar Beet meeting that will be held this Friday, Jan. 24 at 2 p. m. in the Farm Bureau meeting room.

### CATTLE LICE

Cattle lice may not create

much of a problem in the warm months but it's a different story in the winter season. Closer confinement aids the spread of lice from infested to clean animals.

By the time the lice are easily seen, much of the damage has been done. The time to treat for lice is now while the infestations are light.

Sprays which are recommended and have Food and Drug Administration approval for use on dairy cattle are pyrethrins, rotenone and cioldrin. The manufacturer's directions on the label of these should be followed closely.

Malathion, lindane, co-ral, ronnel, toxaphene, cioldrin, methoxychlor, ruelene, sevin, and delvan are materials which may be used for lice control on

beef animals. They are usually applied as dips or sprays. A second application, usually two or three weeks after the first, may be needed to get new lice as eggs hatch. Usually two treatments will control the pest on beef cattle for the winter unless new animals are placed in the herd or feedlots. New stock should be treated before putting them with clean cattle.

Lice generally cause milk production to drop in dairy cattle and weight loss in beef cows and reduced efficiency in feedlots.

You can't be too careful in carrying out the manufacturer's directions. Treating milk cows with the wrong insecticide, treating them while they are in milk production or treating beef cattle too near slaughter time can get you in trouble with the Food and Drug Administration.

## Sugar Meet Study Shows Cattlemen Set Friday Labor 12 Hours Per Cow

A meeting to discuss the sugar beet situation will be held Friday afternoon, Jan. 24 at 2 p. m. in the Farm Bureau meeting room, according to Robert Adamson, County Agent.

Troy McNeil from Dumas will present the program which will consist of slides about production, equipment and other aspects concerning sugar beet production in this area. McNeil assisted in presenting the brief at Washington a few weeks ago when the North Plains Sugar Beet Association was trying to get an allotment for the North Plains area.

All Hansford County farmers interested in sugar beets are urged to attend this meeting.

How many hours do you spend annually caring for your beef cows? This information should be helpful in determining how to better use your labor next year, says Tom Prater, farm management specialist with the Texas Agricultural Extension Service.

Operators who have other enterprises competing with their beef program for labor, and those that work off the farm or ranch will be especially interested in knowing how much time they spend with their cows, he says.

A recent USDA report indicates that about 12 hours of labor were required annually per cow on beef operations in Texas, says Prater.

The hours required per cow will vary on each operation depending on management, and other factors of production. Texas studies indicate that 18 hours per cow annually are needed on the Blackland farms of the state, 14 hours on Grand Prairie farms, just over 18 hours on the Northeast Texas farms, and some West Texas ranches indicate labor requirements of about 10 hours, according to the specialist.

This shows that Texas compares favorably with other beef producing states in the amount of labor required per cow for beef operations, Prater says.

Highly successful eradication measures, cold weather and the need to conserve funds have prompted screwworm eradication officials to cut the production of sterile screwworm flies by 50 percent.

An average of 70 million flies per week will be reared in the weeks ahead; production had been hovering near the 140 million per week mark during the fall. Eradication workers are confident this number will be sufficient to adequately treat those areas of Texas where native screwworms can survive the cold temperature.

The sterile flies, which are released by airplane over

screwworm-infested territory, mate with native, fertile female flies, but no offspring are produced. Nearly six billion sterile flies were reared and sexually-sterilized at the huge "fly factory" near Mission last year.

Eradication officials stated that the decrease in fly production, as well as a cut-back in personnel of nearly 175 employees, was made possible by a significant reduction in the number of screwworm infestations in the past month. At the time that the decision to hold back production was made, several weeks had elapsed with no cases being reported in any of the five states in the eradication area. Authorities also said that it is important to conserve funds now to insure that money is available to initiate emergency measures that may become necessary later in the season.

During 1963, producers in 182 Texas counties reported 4,916 screwworm cases; the previous year, 49,484 cases were detected in 242 counties. While this indicates a 90 percent decrease, officials feel reporting was so much more effective than during 1962 that an even greater degree of control may have been achieved than the totals indicate.

### VISITS IN TEXHOMA

Mrs. V. E. Rossen spent two days recently in Texhoma with her niece, Mrs. Ted Berry and children, so that Mrs. Berry could spend some time with her husband who is in Northwest Texas Hospital in Amarillo.

### HOSTS CANASTA CLUB

Mrs. B. M. Maize entertained her Canasta Club Tuesday afternoon.

Attending were Meses, W. E. Bratton, A. W. Mobley, M. E. Jagers, Myrtle Russell and J. H. Buchanan.

Mr. and Mrs. Harold Groves attended the wrestling matches in Amarillo Tuesday evening.

**RETURNS FROM TOUR**

Jack Gillispie of Morse has just returned from the Sugar Beet Development Tour that was promoted by the West Texas Chamber of Commerce in Abilene. He reports a very educational and interesting time on the trip.

Seventy five men were on this tour and attended the National Western Livestock show and rodeo held in Denver, toured the Great Western Sugar Beet Refinery in Longmont and visited a number of sugar beet farms in the area.

## Local Building Program Promotes Hansford County

Hansford County has a County Program Building Committee such as mentioned below. Mrs. Frank Davis is chairman and Robert Novak is vice chairman. Over 50 members are on the committee representing each phase of our agriculture, industry, organization, etc.

A County Program Building Handbook outlining some of our opportunities and suggesting projects has been developed. Contact a member of the committee or your County Agent if you would like to see this book. You are urged to get behind this committee. If you have been asked to serve on this committee give it your full support. Help Hansford County to go forward.

The projects listed in this example will not fit our needs, but will give you an idea what can be done.

Close cooperation brings success in Sumter County, Ga. There was no stopping a team of 29 business and agricultural leaders once they decided to carry out local projects in their area. These men, members of the local County Program Build-

ing Committee, rolled up their sleeves and went to work in 1961 joining forces with the Americus and Sumter County Development Corp., which has been working on area economic problems since 1955.

The results: A fully equipped 400 acre industrial park creating 884 new jobs, lakes for fishing, water skiing, improved community services, and FHA credit to diversify farming and build new rural homes.

Faced with a serious exodus of its rural citizens, people in Sumter County, Ga., decided to do something rather than just talk about their problems. In 1955 they formed the Americus and Sumter County Development Corporation and raised a \$650,000 revolving fund to develop new industry. Here's how it worked:

By issuing 3% debentures, the Corporation raised \$35,000 to help build a refrigerated body plant. This money, repaid within a year, was then used to purchase about 400 acres at the edge of town. The tract was subdivided into industrial sites, streets paved; and the city built a water

tank, dug wells and ran in electricity, natural gas, and sewage lines. Then the Corporation made a loan to a mobile home builder. This 20-year loan is being repaid in monthly installments.

The Corporation put up its lease on the mobile home company in borrowing \$100,000 from a memorial fund. Two local banks added \$35,000 so the Development Corporation could loan \$135,000 to a company that would manufacture mobile home furniture.

The Corporation also deeded a 20 acre tract to local citizens who built a second mobile home plant, costing \$200,000. Two years later, with \$74,000 raised by selling 5% debentures, the Corporation helped build a hardware manufacturing plant. All this adds up to 884 new jobs created since 1960 and 20 new or expanded businesses in the area.

Here's what the Sumter County Program Building project is doing in other fields: Community Improvements—New schools, expanded library services, a new expressway, a \$1.6 million urban renewal project, expansion of airport runways, a new \$4 million home for the aged, and two new churches; Recreation—A new 160 acre lake for water

Mrs. Abbye Ownbey left Monday morning to return her granddaughter, Nancy Archer to El Paso. Nancy has been visiting here during spring vacation. Mrs. Ownbey will spend a few days in El Paso and then go on to Truth or Consequences, N.M. for a vacation.

Mrs. Herman Die has returned to her home near Vota in Southeast Texas.

skiing and three hunting and fishing preserves head the list; Public Facilities—A \$289,000 Corps of Engineers' flood control project provided temporary construction jobs. The city expanded its water supply and sewage systems; Housing—100 new rental homes and apartments were built by the Americus Housing Authority and another 31 new rural homes were built with the help of \$191,180 in Farmers Home Administration loans; Farm Credit—FHA is supplying credit not otherwise available. Farmers have substantially increased their income by including livestock in their operations. Through both the Farm Ownership and Rural Housing program, rural people are building new homes and essential farm service buildings.

# ATTEND CHURCH

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

**...to better study - better grades:  
PROPER LIGHT**

Homework is more effective when it's done at a regular time and place, and with proper lighting to reduce eyestrain and fatigue. Good lighting also makes study time more productive and helps keep young minds alert. Check now to be sure your children have proper study lighting, consisting of: a good table lamp with diffusing bowl to soften glare; at least 150 watts of light; a shade wide enough to spread light over the entire work surface. Better light means better sight — better study.

## THE MORSE CODE

With the Rabies Clinic for animals held on Monday, the Community Improvement Program is now in full swing at Morse. The Vet from Spearman was present to administer shots to 28 dogs.

The safety committee sponsored this particular project and members working on the activity were Lynn Davis, Lloyd Poole, Grand Miner and Mrs. Earl Henderson.

Also the rural directory committee reminds anyone who would like to have their name placed on one of the four rural directories that they must send \$4.25 together with the name and directions as they wish them in the directory, to David Johnson before Feb. 1. The committee needs time to get the letters ordered and in place before the April 1 deadline on the community project. Repairs will need to be made to some names already in the directories.

Other projects underway include the making of picnic tables for the park. The Morse HD Club donated money for one table and other donations were secured for supplies for the other two. The shop class at Morse High School, under the direction of Frank Lewis, is making the tables. They have one completed and in place in the park.

Other completed projects are the library which was promoted by the education committee and

church participation committee which helped to bring about the community revival and the sing-spiration which have been held throughout the year.

# WHEAT PROFIT

Each 80 pound bag of JOHN DEERE 45 contains 36 pounds of solid nitrogen. That's 36 pounds of profit-power for your wheat. No wonder wheat farmers like to top-dress with 45! You store 1/3 less bags . . . You carry 1/3 less bags . . . cover 1/3 more acres. The extra "N" in JOHN DEERE 45 means more work saved, more money saved . . . more profit for you. JOHN DEERE 45 is non-corrosive . . . won't harm expensive equipment. JOHN DEERE 45 is non-leaching . . . it stays put! And, it dissolves fast, even in dew, and gets right down to the root zone.

TOP-DRESSING WITH JOHN DEERE 45 IS A MOVE TO MORE WHEAT PROFIT. GET ALL THE FACTS FROM YOUR LOCAL JOHN DEERE FERTILIZER DEALER . . . HE'S A NEIGHBOR.
