## 4 Teachers Resign; 2 Are Hired

The resignations of four teachers were accepted and two were hired last week by the Spearman School Board, upon recommendation of Supt. Bill Reeves.

Resignations of Lewis Tilford, Mrs. Kay Hobbs, Mrs. Cecil Crawford and Mrs. Claudine Clark were accepted by the board.

Mr. and Mrs. Jerry Orr were hired.

Tilford resigned his position as choral music director to accept a similar job in the Durante, Okla., high school. He will be high school choral director there.

In his two years in Spearman Tilford's choirs and other choral music groups collected a host of trophies. It won firsts in Texas Interscholastic League competition and was named a sweepstake winner and the outstanding choir for two years at the Tri-State Music festival in Enid, Okla.

In Spearman he was in charge of the choral music for all 12 grades. At Durante he will work with only the high school program.

Durante is a larger school than Spearman and is a promotion for Tilford.

He was also director of music for the Methodist Church of Spearman.

Mrs. Kay Hobbs was an elementary teacher.

Mrs. Crawford and Mrs. Clark taught only half-time. Mrs. Crawford was the PESP program reading instructor for the high school. Mrs. Clark taught home economics in high school.

Dr. Reeves is visiting colleges and universities over the state this week and next, interviewing teachers.

4-H ROUNDUP WINNERS -- Hansford County produced the top Co-operative Demonstration team in the state at the 1966 Texas 4-H Roundup June 7-8 at Texas A&M University. Team members are Sylvia Parks, left, and Patricia Henderson, both of Morse. Mrs. H.B. Parks of Morse was coach. The roof of the model held by Sylvia and Patricia represent the American free enterprise system, and the pillars supporting the roof symbolize the four businesses that uphold it.

## Sheriff Cooke Undisturbed By Supreme Court Ruling

The new Supreme Court ruling regarding the rights of persons accused of crimes, did not cause too much concern with Hansford County Sheriff J.B. Cooke.

The veteran peace officer just considers it another of many recent court and legislative rulings that is making the protection of the law-abiding citizens harder for police officers.

Cooke said the ruling is about the same thing as Texas law enforcement officers have had to work with since the new state code of criminal procedure be-

came a law on Jan. 1, 1966.

The Sheriff said he believed the new Texas code was written anticipating this ruling by the Supreme Court. Under the new ruling by the court, police officers cannot question a suspect until he has been warned that anything he says may be used against him, and also that he may have legal council before making a statement.

Cooke said under Texas law an officer has always had to warn a suspect that anything he said could be used against him. However, under the Te-

xas code and the Supreme Court ruling, officers are going to have to be more careful about how suspects are warned.

After a suspect is properly warned, then if he wants to make a statement, it can still be used in court, Cooke said.

However, he admitted that many who gave confessions before will probably refuse to make them now.

Under the Texas Code an officer must warn a suspect about making a statement, then take the arrested person before a magistrate where he is again warned that any statement made can be used against him.

The magistrate must then allow the suspect to get a lawyer and if he cannot hire a lawyer, the court must appoint him a lawyer. Then after conferring with his lawyer, the suspect may make a statement.

Besides the statement warning, the magistrate must set an examining trial if the suspect requests such.

Cooke and many law enforcement officers and attorneys had hoped the Texas code might be changed in the next session of the legislature.

Now, Cooke says, there is no chance of the Texas code being changed since the Supreme Court's ruling.

Sheriff Cooke said he did not know just how the code and ruling would effect his office. He said he had not had a major crime to contend with since the code went into effect.

The officer thought the ruling would effect his own personal method of dealing with suspects. He said in the past he had been able many times to sit down with a suspect and discuss the situation, then get them to make a statement.

Now, he thinks the suspect will have their minds made up by the time officers get to question them and they will say nothing.

Although the court ruling did not upset the sheriff, he is upset by the general trend of laws and ruling that continue to go against officers.

"It seems the courts and law-making bodies have gone to the extremes in giving people the opportunity to conceal their guilt."

## Rev. Dayle Schnelle Will Pastor Christian Church

The Rev. Dayle Schnelle will begin his ministry in the First Christian Church of Spearman Sunday morning.

He and his family moved to Spearman this week from the Valley Heights Christian Church in Thornton, Colorado. The Rev. and Mrs. Schnelle have one son, David, who is 14.

## D. D. Stalders Move to Vera Where He Will Enter Ministry

"A complete change in our lives," is the way D. D. Stalder describe his family's decision to enter the Methodist ministry.

Stalder, his wife, Ann, and three sons, Brad, Scott, and Dean, are moving from Spearman today for Vera, where D. D. will be pastor of the Vera

Methodist Church.

"We made the decision to enter the ministry about six months ago," D. D. said. "I had thought about it for a long time, but could never make a final decision to make the complete change in my family's lives."

It will be a change for the family, but not as complete as Stalder would have it sound. They have been in church work most of their lives.

He and his wife have been active in the Methodist Church for many years. They have been the Methodist Youth Fellowship sponsors for seven years.

"We have sure had lots of fun with all of the young people in the church during this time."

He has also served on the governing board of the church and been a delegate to the annual district conferences.

Stalder will become the Rev. D. D. Stalder in about a month when he receives his licence as a Methodist minister. He said he would be licensed as soon as he completes some study courses.

The new pastor is preparing for seven years of college and advanced study along with his work as a pastor.

He will enroll in McMurry College in September and will attend school three days each week while pastoring his church.

Vera is a small community between Guthrie and Seymour in the ranch country north of Abilene. The church has about 75 members, with an average attendance of about 40.

Stalder said even though there are not many people in that ranch country, the church is an active one and he is looking forward to beginning his work there.

Stalder is the third member of the local Methodist Church to enter the ministry in the past two years. James Roy Patterson was recently licensed in services here and is a student at McMurry. Lloyd McWhirter, spring graduate of Spearman High School is entering McMurry this fall to study for the ministry.

Stalder is a native of Hugoton, (Con't. on page 2)

## Contract Let For FM Road

A contract for 6,902 miles on F.M. Road 2018 in Hansford County has been awarded to a Amarillo firm, it was announced in Austin this week by the State Highway Commission.

Ivan Dement, Inc. submitted the low bid of \$67,749.96 on the project. Grading, structures, base and surfacing is expected to take 80 working days, according to Charles W. Smith District Highway Engineer at Amarillo.

Lewis R. Loyd, Resident engineer at Perryton will be in active charge of the project while it is under construction.

Rev. Dayle Schnelle

The new minister was ordained into the ministry of the Christian Church in his home church, Sharon, Kans., in 1937 while a student in Phillips University, Enid, Okla. He received his A. B. degree from Phillips in 1938.

He began his full time ministry in March of 1939 as pastor of the First Christian Church in Pratt, Kans. He served there over three years and while there married the former Miss Mildred J. Riley.

After two years as a Chaplain in the Army Air Force he became pastor of the Central Christian Church in Arkansas City, Kans. He served there for nine years. In these nine years 1,373 persons were added to the membership of the church. Twelve young people entered Christian service and 15 more high school students went on to enter Christian Service.

He served four years as pastor of the First Christian Church in McAllen. He was in Great Bend, Kansas for two years before going to the Missionary Valley Heights Christian Church in Thornton in 1960.

## Day by Day

by Day McClellan

We survived the humidity downstate last week surprisingly well, vacationing most of the week at Cherokee Lake near Longview. It wasn't until the trip home, sealed up on the train sans air-conditioning, that we really suffered. Sitting there perspiring, hair plastered to face and neck, I was more than a little annoyed at us for deciding on train transportation. I wasn't nearly so provoked at myself though as I was at the two trainmen who displayed a maximum of grouchiness as they came through that hotbox every once in awhile.

When we finally went back to the diner, we passed through seven air-conditioned cars, all just partially filled. That made a big hit with us!

The Burlington line made probably 50 or so enemies among those of us who traveled with them Sunday. It seemed to bother them not in the least.

About the only pleasant part of our train ride was the fact that on the same car were 30 Air Force Reserve recruits from Montgomery, Alabama. Their first impressions of Texas were classic and their southern draws were almost enough to make you forget the heat.

One boy kept asking us questions about Texas cowboys and jack rabbits and millionaires. He wanted to know what Texans thought about civil rights marches, how one farmer could cultivate so many acres and whether or not it was true we really say "carry" instead of "tote".

He may have been putting us on a little, but he couldn't hold a candle to the answers the Tall Texan was giving him.

Those recruits will only be in boot camp, or whatever it's called, four weeks at Amarillo Air Force Base before becoming civilians again, but the military will have them long enough to shear their long, wavy locks. From all the combing going on in that car, I think they dreaded the haircuts most of all.

Sometimes when items for a column are few and far between and clever ideas are non-existent, a short vacation does wonders for me.

The last trip we made was when we got Stephen F. Austin's original room in Austin's Driscoll Hotel. Now that we've traveled with the ghost of Jesse James on Burlington's line, I can hardly wait until vacation time again.

This trip to the lake was my first fishing trip. I don't care much for fish, they're too scaly and slimy, but I thought there must surely be something to fishing. Kind of like golfers, people who fish seem to do so with a passion.

There were about eight of our group of 11 who fished and fished and fished, but you know, we had hamburgers and ham and beef on that trip. Never any fish.

I guess I still haven't been on my first fishing trip if you mean the kind where real fish are caught.

We had homemade ice cream three times last week, not to mention many other rich culinary delights, so the only recipe I can think about this week is that one about chilling Metrecal.

gown of silk organza fashioned with long tapered sleeves, a scoop neckline and an empire waist. A yoke of re-embroidered lace adorned the bodice and sprays of lace extended from the waist to the hemline of the bell type skirt which flowed gently into a chapel train. A shoulder length veil of silk illusion was secured by a headdress formed of lilies of the valley. The bride carried a white Bible crested with three white orchids and french-carnations.

Bill Ellis served as his brother's best man. Groomsman was Joe Taylor and ushers were Danny Shaver and Terry Cummings of Seagraves.

Mrs. Jackson, the bride's mother, wore a three piece suit of pale green silk with black patent accessories. She wore a matching hat and a corsage of white carnations.

The groom's mother was attired in a pale pink silk two piece suit with white hat and accessories. Her corsage was of white carnations.

Bud Ainsworth and Miss Donna Ree, both of Dallas were weekend guests of his parents Mr. and Mrs. Cy Ainsworth. Added guests were Mr. and Mrs. Dan Collins of Amarillo, who also visited his parents Mr. and Mrs. Roy Collins.

Eight years where her parents were teachers.

The bridegroom is a graduate of Seagraves High School and plans to attend Texas Tech this fall.

For traveling to Houston and other points of interest in Texas, the bride wore a Kelly green silk blend two piece suit with black patent accessories. She wore the white orchid corsage from her bouquet.

The couple will be at home at the Lubbock Mobile Home Lodge in Lubbock.

Out of town guests for the wedding were Miss Sylvia Parks of Morse, Walter Graves of Sunray, Dinah Dennes of Tyler and Sunshine Dolch of Lubbock.

## Miss Phyllis Patterson Is Bride of Jimmy Kirkland

Double ring wedding vows were exchanged Friday, June 10 at 7:30 p.m. by Miss Phyllis Ann Patterson, daughter of Mr. and Mrs. Sam Patterson, and Jimmy David Kirkland, son of Mr. and Mrs. W.E. Kirkland, in the home of the bride's parents.

The vows were directed by the Rev. Wesley Daniel, pastor of the First Methodist Church before a mantle arranged with picardy gladiolas flanked by white wedding bells with leather-fern greenery. Another arrangement of the apricot-colored gladiolas highlighted with white mums was placed atop the piano where Miss Mary Ellen Barkley presented a medley of wedding selections and the traditional wedding marches.

Miss Sheila Nan Patterson, sister of the bride, was maid of honor. She wore an apricot-colored A-line dress designed with bell-shaped sleeves and highlighted in front with a bow of matching fabric. Her headpiece was a matching bow and she carried a single long-stemmed white rosebud.

Malcolm Kirkland was his brother's best man.

### THE BRIDE

Given in marriage by her father, the bride wore a white A-line street-length dress of heavy white brocade lace over ecru taffeta. The fitted bodice was designed with a low, rounded neckline and three-quarter length sleeves. Tiny satin buttons and a bow highlighted the front.

Her shoulder-length veil of silk illusion was held in place by a comb which belonged to her maternal grandmother and she carried a white Bible crested with a white orchid surrounded by french-carnations and white satin streamers tied in love knots.

The bride's only jewelry was a gold necklace with two pearls, a gift of the bridegroom. She observed the tradition of wearing something old, the comb which held her veil; something new, her necklace; something borrowed, the white Bible; and something blue, a blue garter.

Mrs. Patterson, the bride's mother, wore a pink rayon sheath trimmed in white braid. Her accessories were white and she wore a corsage of white rosebuds.

Mrs. Kirkland, mother of the bridegroom, wore a blue nylon lace dress with bone accessories and a corsage of white rosebuds.

At the reception following the ceremony, the serving table was laid with beige lace over pink and centered with fern and greenery holding the bride's bouquet. The white three-tiered wedding cake was highlighted with apricot-colored roses and topped with a miniature bride and bridegroom. Crystal and silver and appointments were used and cake, punch, mints and nuts were served.

Miss Janie Kirkland, sister of the bridegroom, served the cake another sister, Miss Jo Ellen Kirkland, served the punch.

When the couple left on their wedding trip, the bride wore a yellow two-piece nubby-cotton suit with white accessories and the orchid from her bridal bouquet.

Both the bride and bridegroom are graduates of Spearman High School. They will make their home in Spearman this summer before resuming their studies at West Texas State University in Canyon where they will be sophomores this fall.

The bridegroom is employed at Panhandle Eastern Pipeline for the summer and the bride is employed at the Hansford Plainsman.

### REHEARSAL

Mr. and Mrs. Larry Hays hosted the rehearsal supper at their home. Mrs. Hays is a sister of the bridegroom.

Individual tables were laid with white and centered with apricot-colored daisies, carrying out the bride's chosen colors. The menu consisted of steak, potatoes, green beans with cheese, congealed salad, relishes, iced tea, hot rolls and cherry pie with ice cream.

Guests attending the wedding from out-of-town were Phil Hawkins, uncle of the bride, and children, Jerry and Mrs. Theron Howard, all of Panhandle, and Mr. and Mrs. Fred Sloan, great aunt and uncle of the bride, of Pampa.

### INVITATION

The family of Alice and Orville Walker cordially invites everyone to celebrate with them their Golden Wedding Anniversary on Sunday, June 26, from 2 to 5 p.m. at the First Christian Church Fellowship Hall in Gruver.

Jackson of Seagraves and formerly of Morse, and the bridegroom is the son of Mr. and Mrs. Robert Jack Ellis of Seagraves.

The Rev. Hank Scott officiated at the ceremony held in the First Baptist Church of Seagraves. The altar arrangement of greenery and white candles on a white archway was flanked by baskets of white gladiolias on either side.

## Right Timing Is Essential To Kill Weeds

COLLEGE STATION — Successful pasture weed control, like many agricultural operations, is a matter of keen timing when using the hormone herbicide 2, 4-D.

For 2, 4-D to hit weeds the hardest, the plants should be in sappy, flush spring growth. If the stockman waits until dry, hot weather sets in, the plants are woody-tough and more resistant to herbicides.

On the other hand, when 2, 4-D is applied too early, a second growth of weeds can come on and compete with grasses.

G. O. Hoffman and B. J. Ragsdale, Extension Service range specialists at Texas A&M University, have received reports that many land operators don't plan to do any annual weed control work in native grasses until the last of June or July.

"Annual weed control should be done earlier in the growing season so the grass can take advantage of the moisture that the weed normally uses," Hoffman said. "Late weed spraying does not produce the outstanding forage increases as early weed control. Late application of herbicides with high temperatures can cause some burning of the grass leaf tips. Most of the soil moisture is used by July."

Too early control, he says, also has drawbacks. This spring is an example of what can happen. The first applications kills the weed and a second crop is now emerging since the late April and early May rains.

Much of the second weed crop on many places could have been reduced had the early spraying been deferred for three to four weeks. A good grass cover can compete favorably with weeds, the specialist pointed out.

But if the stockman is faced with late season weed control, it's a good idea to boost the herbicide rate per acre. Hoffman suggests at least 1 1/2 to 2 pounds of 2, 4-D amine per acre.

Late season application also should have a higher rate of solution per acre. Recommended rates are: Aerial, 45 gallons per acre; boom-type sprayers, 15 gallons; and boomless, 25 gallons per acre.

## Designs Colorful

Most major wallpaper manufacturers bring out new wallpaper books in the fall. If you haven't shopped for wallpaper lately, here's a preview of what you'll find. Stripes are most colorful and unusual. Florals are more brilliantly colored with many new designs in larger scale. Paisley and flocked patterns are much more in evidence this year.

# the Word

"Thy word is a lamp unto my feet; and a light unto my path."  
— Psalm 119:105

If you are a Christian, you are blessed with a great heritage. It is a heritage of truth and has nothing to do with imagination or myths. It is a truth that remains unchanged, no matter how many times someone attempts to rewrite or offers a "studied" translation. This truth is the word of God. It is found in the Holy Bible. It is found in Ten Commandments, which form a guidepost for Christian living. Accept this truth; it is useless to argue against it. Conscience and common sense will not permit you to be unaware. You fool no one, not even yourself, if you pretend to ignore or disbelieve.

Warm weather and summertime call for everybody's favorites--homemade ice cream and watermelon. Ice cream I've talked about recently, but now I'd like to say a little about watermelon.

I've noticed that watermelons are reaching our markets in good supply. From news that has reached my desk, prospects are good for an abundant crop this year. So whatever your needs, you will be assured of an ample supply during the coming weeks.

One interesting note is that the watermelon was a native of Africa and was first brought to the United States by European colonists. The Indians immediately recognized a good thing and grew them in many areas of the country. Florida Indians were growing them by the mid-1600's; today, Florida is still a big watermelon producing state.

Sewing on sheer fabrics such as voiles and dotted swiss, which are popular this season? Their transparency call for special treatment of the seams.

There are three different ways to make seams in sheer fabrics: The first method is to stitch a plain 5/8 inch seam with the right sides of the fabric together. Make another row of stitching within the seam allowance, 1/8 inch from the first seam. Then trim the seam close to the second stitching line.

Another method is to make a French seam by placing the wrong sides of the fabric together. Stitch a plain 3/8 inch seam, and trim the seam allowance to 1/8 inch. Then turn the garment with the right sides together and press the garment flat along the seam line. Baste and stitch along the regular 5/8 inch seam line so that the finished seam will be 1/4 inch wide.

A third method of seaming sheer fabrics is a mock French seam. Stitch the right sides of the fabric together along the 5/8 inch seam line. Next turn the raw edges in 1/4 inch toward the seamline and sew together by hand or machine to make a 3/8 inch seam.

Best results are usually obtained by using the French seam on straight seams and the mock French seam on curved seams where fitting is necessary.

When you are choosing a pattern for a sheer fabric, check to see that sheers are recommended; the garment will look better if few seams are in evidence.

THE LAST NOTE: It's remarkable what a good architect can do. He can make an ole house look better just by talking about the cost of a new one.

### Separate Eggs

If the recipe for hotcakes, pancakes or waffles calls for eggs, try separating them. If you beat the whites until fluffy before adding to the batter, you will be amazed at the lightness and tenderness of the resulting product. If your pancakes tend to stick to the griddle, add more shortening to the batter.

### Commissioners Hire Two

Linda Thompson of Gruver was employed as a deputy for the Sheriff's office and Tax Assessor-Collector's office. She will be a radio dispatcher. Raymond Gilley was hired as custodian of the Courthouse. He replaces T.J. Pittman whose resignation the court accepted.

The court also authorized the taking of bids for a motor grader.

Local Non-federal funds are used in Hansford Soil & Water Conservation District for support of conservation work.

Local Government, private individuals and contractors help support conservation work. This support is given in various ways. "In recent years increased support, by rural and urban folks alike, of the vital work Texas conservation districts are doing, is evidenced by the most tangible evidence of all—money." Smith goes on to say.

Figures recently released comparing dollar estimates of non-Federal contributions of

Texas conservation districts for 1963 and 1965 amply back up Smith's statements.

Total non-Federal contributions for 1965 were \$3,576,000 an all time high.

Local units of government, primarily cities and counties, contributed about \$1,114,000 an increase of more than \$200,000 over 1963.

State government assistance to soil, water and plant conservation rose \$20,000 over 1963, from \$291,000 to \$311,000.

Financial help from private individuals and institutions approximated \$2,151,000 during 1965.

Purpose for which non-Federal funds were spent during 1965 as compared to 1963 reveal changes of emphasis in conservation. For example, local, and state funds spent for flood prevention increased from \$1,725,000 in 1963 to almost \$2,500,000 in 1965.

Non-Federal expenditures in other categories, such as information and education also increased.

Smith, in conclusion, pointed out the foregoing estimates do not include donated time and expenses of more than 900 busy and dedicated soil and water conservation district supervisors.

## THE MORSE CODE

The table was laid with a white net cloth over pink and centered with an arrangement of pink roses. The three tiered wedding cake was topped with a miniature bride and groom.

Hostesses were Mmes. Robin Giblin, Walter Schick, Willard McCloy, H.B. Parks, Pete Cator, Sonny Cator, R. C. Womble, Annie Clifton, David Reid, Henry Reid, Eris Pittman, Jim Womble, and Orville Smith of Stinnett.

A white lace cloth covered the serving table on which was featured an arrangement of red roses.

A pink and blue shower honoring Mrs. Dean Lieb was held at the Community Building on Thursday afternoon.

Hosting the shower were members of the Morse Home Demonstration Club.

A miniature bassinet was used as a centerpiece for the serving table which was laid with a white net cloth over pink.

A little over three years ago a community building was secured for the use of residents of this area. Almost everyone in the community contributed to the fund to purchase this building. The 4-H spearheaded the drive to collect the money and helped set up the governing board for the building.

The first year two bathrooms and a kitchen were added to the building by the board of directors. Since then various other improvements have been added.

This building is for the use of all, but it is also the responsibility of all to take care of it. Several times when the building has been used, it has not been left as clean as it should be.

The latest complaint is that somebody took the trash barrel from the community building. These barrels are not as easy to obtain as they once were and cannot be had just for the asking. They cost money! Will whoever took the barrel please bring it back?

The only source of income the building has is the rental fees paid by those who use it. This is a very small fee, \$2.50, and just barely covers the utilities on the building. Whenever improvements are needed, a fund drive must be held. Recently some memorial contributions have been left to the building.

The present board of directors are Lynn Davis, Lloyd Poole, Mrs. Jerald Scribner, Mrs. Pete Cator and Mrs. Tom Dortch. The late Jim Womble was a member of the board. Mrs. T. Dortch is secretary and takes care of renting the building.

This building is used a great deal so let's all join together to take care of it.

(Con't. from page 1.)

Kans. He and his family moved to Spearman when he was employed as a welder of Northern Natural Gas Co. He recently has been employed by R.E. Lee Oil Co.

A year and a half ago Stalder opened a club for local teenagers, named the Kon-Tiki.

It has been open almost each weekend with live music for teen-age dances.

He has been assisted in the operation of the club by several high school students.

He said the Kon-Tiki has been very successful as an entertainment place for teenagers and the students have conducted themselves in the highest manner.

The only misconduct has been occasional out-of-town youths and Wayne Pierce and Lee Phillips have quickly and quietly handled the situation. Pierce and Phillips are local police officers.

Mr. and Mrs. Ray and Carroll Messer are replacing the Stalders as leaders of the MYF and have also assumed the management of the Kon-Tiki.
