

# SUNDAY The Hansford Plainsman

It just depends on whose shoe is pinching as to what remedy should be taken to ease the pain. It works for shoes and countries.

Almost 27 years ago when France and later only England were fighting Hitler's armies they were willing for any and everything in Germany to be bombed. But today when only America and people on the other side of the world are interested in stopping an enemy bent on destroying its neighbors, the English and French think the bombing of oil dumps is shocking.

We suspect parents and families of the soldiers of all nations involved in the war are wondering why we have waited so long to knock out this vital military supply.

Aggressors and dictators are the same whether they come out of a rice paddy or a beer garden. And each deserves the same fate even if some of the nations supplying the dictators with war goods object.

\* \* \*

This will get plenty disagreement, but we still believe it. Spearman lost a good school administrator this week when Jim Cherry resigned as high school principal to return to Brownfield as High School Principal.

It is a tribute to his ability that he was asked before coming to Spearman. He was a junior high principal before coming here.

Jim stepped into a tough job in Spearman. He found the student schedules unworkable. The activity fund was disorganized and out of balance. He was told to enforce the rules in the policy book, even though they had not been enforced before. He also had the normal duties of a principal.

Cherry did not know a thing about special privileged students and groups, he thought the rules he was told to enforce applied to all. He made them apply just that way and some people were very unhappy.

He had another big handicap for today's world. He has an old fashion black and white definition of right and wrong. There is not much grey area for him.

When the year was over he had done the job he was told to do and made some very vocal enemies. However, he was much more interested in doing a better job this coming year than he was in people who were unhappy.

We hate to interrupt the rejoicing, but we are afraid that the departure of Jim Cherry will not signal an end of impartial enforcement of policy, or some of the other "great problems" some seem to think exist in the school.

Cherry's successor will receive the same instructions and it is our prediction they will be followed.

Jim we thank you for a year of hard work and your help in improving the educational program of Spearman schools.

We are sorry to see you go.

PREPARING -- These sisters, LeAnn (left) and Deborah Smith, are busy making dresses for the 4-H Dress Revue Thursday, July 7. The daughters of Mr. and Mrs. Eldon Smith are members of the Busy Bee 4-H and are making a granny dress and a shift. They are first year 4-H members.

Plainsman Photo

## Line Begins Forming at 11 p.m. To Sign for ACP Payments

Farmers began lining up at 11 p.m. Thursday night to be first to sign-up for county Agriculture Conservation Practice payments at the Hansford ASC office Friday morning. There were a total of 29 applications accepted by the lo-

cal office and the total amount of funds available was \$27,000. ASC office-workers said everything went smoothly. One of the men waiting had started a list for the farmers to sign as they got in line and when the office opened the

applications were taken as the farmers were listed.

All of those waiting before the office opened, were signed up, the workers said, but some who came later had to be turned down.

The funds were for conservation practices other than chiseling to prevent wind erosion.

During the last fiscal year the county ASC paid \$77,000 in ACP cost-sharing conservation practices. There were 200 farms who received assistance.

The practices included seeding permanent grass, well for livestock, diversion terraces, reorganizing irrigation, land leveling, stubble mulching, emergency tillage and bindweed control.

## Kelly Will Miss Plaque Dedication

The designer of the Hansford County Plaque in the Pioneer Amphitheatre will not be able to attend the dedication of the plaques Sunday in Palo Duro Canyon.

Ray Kelly of Morse, who this paper called Larry Kelly last week, is attending school in New York and cannot attend. Kelly designed the plaque two years ago while attending Gruver High School. He is the son of Mr. and Mrs. Desmond Kelly of Morse.

Bill Devers of Spearman has a part in the Paul Green production "Texas" that opened in the canyon theatre July 1 and runs through Sept. 5.

Devers plays the part of a cowboy on the ranch in the play. The bass singer is a student at West Texas. He is (Continued on page 2.)

## Wheat Farmers To Get \$2 Million in Payments

Hansford County wheat farmers will receive about \$2 million of the \$2.4 million the federal government will soon begin paying for wheat, feed grain and cotton support programs.

Last year the 639 farms participating in the wheat program received \$1,822,873 in support payment for wheat, Local Agriculture Stabilization and Conservation office officials expect the payment to be larger this year, because of the increased production from irrigation.

ASC office personnel said it would be August before the wheat payments are ready to issue to farmers.

There were 270 farms in the feed grain program and last year the payment for participation in the feed grain program was \$845,938.

In addition there were 25 farms still receiving soil bank payments that totaled \$59,545.51

Irrigation is increasing the average yields and since wheat payment are based on average or normal yields of farms the payments will increase.

In the wheat program farmers are paid for diverting acres from production and also receive certificates for support price on 45 percent of their

normal yields.

Feed grain payments are made on diverted acres and a price support on the number of acres planted.

The program for the 1966-67 wheat crop has not been issued, yet. Farmers have their allotments for next year and received an allotment increase.

In line with President Johnson's order, the allotment was increased almost 16 percent. Hansford County's allotment jumped from 200,546 acres this year to 230,607 for the crop this fall.

This increase was issued in the face of a rapidly declining reserve of wheat in this country. The big "surplus" that politicians have cried over for years is gone and wheat is in short supply.

No instructions have been issued, but it is possible there will be no diverted acres in the wheat program this fall.

### PLAINSMAN WILL BE CLOSED JULY FOURTH

The office of The Hansford Plainsman and Plainsman Office Supply will be closed Monday, the Fourth of July in order that office personnel might observe the holiday.

## Spearman Continues To Grow; Pace Slows

The pace has slowed, but Spearman's growth continued during the first six months of 1966 according to records of the city and Community Public Service.

Community manager Charles Gilliam said May and June are the biggest moving months of the year, and it is true in Spearman, but we have gained more than we have lost.

In May the electric company had 140 connects or disconnects orders and in the first two weeks of June there were 125.

However, when June was ov-

er the company had 1262 meters in service in the city as compared to 1261 at the end of May. The June total is 24 above the end of June total of last year, 1238.

Gilliam said there are new residents each day looking for homes to rent, but the few vacant houses in Spearman are mostly all for sale.

Even though there are houses for sale in Spearman, the construction of new homes continues. There were building permits issued for 11 new homes during the first six months of the year.

The homes were built in 11 months, since there were no permits issued in January.

Home construction totalled \$192,340 in the five months.

February had only one house valued at \$27,000. March had four with a total value of \$57,500. April's one was valued at \$21,000. The four in May totaled \$75,850 and in June the one permit was for a \$10,000 home.

## Market Regains Part of Loss

The erratic wheat market has regained some of its early loss of this week, but is still below the local high of \$1.80 per bushel, the high for the year.

Friday morning the market was \$1.74 per bushel, off a cent from the \$1.75 of Thursday.

The market opened this week at \$1.79 per bushel after reaching \$1.80 late last week.

A wild Monday in the market and the early maturity of a larger than expected spring red wheat crop in the north knocked the market down seven cents to \$1.72 on Tuesday.

It climbed back to \$1.75, then closed at \$1.74 on Thursday afternoon.

The Santa Fe Railroad July Crop Report issued this week said the states of Kansas, Oklahoma, Texas and New Mexico may be 25 percent under the earlier prospects of 500 million bushels.

Santa Fe experts were placing the crop in the states at not more than 375 million bushels. The reduction was because of inadequate moisture, late, hard freezes, hail, rain and wind damage over wide areas.

The states produced only 475,043,000 bushels last year.

The U.S. Agriculture Department on June 1. estimated the U.S. winter wheat crop at just over 975 million bushels as compared to a 1965 crop in excess of one billion bushels.

Santa Fe also reports poor range conditions in the states it serves, mostly southwest and western states. The blue-stem and Oage pastures in Kansas and Oklahoma have record numbers of cattle, but gains are slow. The grass growth has been slow because of cool weather and light moisture.

Grain sorghum on dryland will require moisture during the rest of the summer to produce, the Santa Fe reporters say, but irrigated acres are making good growth.

Soybeans are late in the north because of cool weather, but the acreage is being expanded in the Texas High Plains.

## '66 Model Cowboy Fits Old Myth

Texas cowboys of years ago were supposed to be long, thin and tough as rawhide. We doubt if there were many that could match the record of Keith Meddock, a 1966 model cowboy.

He fits the description perfectly. He is tall, thin and must be tough as steel. At least no many people walk out of a hospital three days after being run over by the wheel of a truck.

About a week ago Meddock was at a local elevator to visit his brother-in-law. While he was there a cable was hooked under the front end of a grain truck for some reason. It came loose and Meddock got under the front end of a grain truck to hook it.

The driver of the truck let the truck roll back and the front wheel passed over Meddock.

It not only passed over him, but when the wheel got on Meddock he said he started yelling so loud the driver stopped the truck on his chest. It stayed there for about a minute, then rolled on off.

Monday afternoon he was released from the hospital. The only things the doctors could find were some bruises, and skinned places on his chest and back.

Attend Gruver's Fourth of July Celebration This Weekend

## Child from Baptist Home Will Visit in WMU Home

The Executive Board of the W. M. U. met on Wednesday at 9:30 a. m. at the First Baptist Church with Betty Uptergrove presiding.

Minutes were read and approved and reports given by committee chairman. The mission study book "Great Is the Company" was discussed by missions study chairman Wren Holt. The group decided to have an all-day mission study class, luncheon and installation of officers on Sept. 21.

Peggy Archer gave the community missions report after which Betty Uptergrove read a letter from Donna Helms stating that the young boy from the Baptist Children's Home would be in Spearman for a 3 weeks visit July 17 to Aug. 6. He will visit in the homes of the W. M. U. women.

Patsy Gates program chairman announced that the program for the next quarter will be on cults. Mrs. Uptergrove and Mrs. Gates sponsored 25 G. A. girls who attended the G. A. Retreat at Lake Fryer.

Attending the meeting were

Francis Kilgore, Magda Garnett, Addie Novak, Edrie Jones, Peggy Archer, Marie Berry, Barbara Howe, Wren Holt, Patsy Gates, Betty Uptergrove and Florene Devers.

## Family Returns From Visit In Iowa

Mr. and Mrs. Hugh Banks who have been vacationing at Sutherland Iowa returned home Sunday. While there they attended the wedding of her brother Stephen on June 11 of which Mrs. Banks was a member of the wedding party.

They also spent at week at Lake Okoboji, and were accompanied to the lake by Hugh's mother Mrs. Rugna Banks of Paullina, Iowa and their sons, later returning to Sutherland for some time with her parents Mr. and Mrs. W. R. Steinert and other friends and relatives.

Kenny Banks stayed with his grandparents.

Kenny will return this weekend with Father James of Spearman who has also been vacationing in Toledo, Ohio and other points east.

## Fertilizer Purchases Are Down

Fertilizer tonnage purchased in Texas during the spring planting months of March and April was down compared to the same period last year.

Total for the two-month period was 264,594 tons, compared to 306,646 tons used in the same period in 1965, according to C. D. Welch, Extension soil chemist at Texas A&M University.

Reduced cotton acreage allotments and a lag between sales and reporting the sales, account partially for the lower tonnage figure, explains Welch.

Welch also reports Texas' five state laboratories analyzed 7,194 samples during the same two month period. Of these, tests were run on 191 out-of-state samples. The five leading counties sending in samples were: Wharton 228, Harris 218, Houston 194, Matagorda 143, and Hale 123. The A&M laboratories at College Station ran tests on 3,009 samples to lead the reporting laboratories in number of samples processed.

The soil chemist says as rates of nitrogen, phosphorus, and potash are increased and fertilizing becomes a regular practice, micronutrient deficiencies appear more often.

Spraying plants with dilute zinc sulfate, iron sulfate, or chelates should correct a zinc or iron deficiency within a week, Welch says.

NOTICE:

Persons between the ages of 18-55 who are interested in placing their names on file to receive material relative to the Licensed Vocational School which is tentatively scheduled to start Sept. 12 should come to the Hansford Hospital between the hours of 8:00 a. m. to 3:00 p. m. on Monday, Wednesday, or Friday from June 27 to July 8. Contact Mrs. Eloise Renner, R. N.

Miss Joyce McGuire Is Honored at Bridal Shower

Miss Joyce Ann McGuire was honored at a pre-nuptial shower Thursday evening June 30 at the Hospitality room of the First State Bank. Miss McGuire is bride elect of Donald Davidson of Dallas.

The honoree was presented a corsage of blue carnations and her mother Mrs. McGuire was presented a pale yellow carnation corsage.

A yellow color scheme was carried out in the table and refreshments. The serving table was laid with a white linen cut-work cloth centered with an arrangement of yellow and white daisies flanked

on either side with candelabra holding blue candles. Miss Mary Ellen Barkley presided at the punch bowl serving yellow punch from a bowl highlighted with tiny blue flowers frozen in an ice ring. Cookies and home made blue mints were also served.

The guest book was kept by Darlene Pool.

Hostesses for the courtesy were Mmes. Ruby Barkley, Gertrude Archer, Bob Archer, Peggy Archer, Louise Archer, Anna Belle Parrish, Evelyn Kingsley, Jo McLaughlin, Eva Lee Sheets and Deanna Mae Douglas.

Shower Is Courtesy For Mrs. Charles West

Mrs. Charles West, nee Kirk Allison, was honored by a group of hostesses at a bridal shower Thursday, June 30 at 3 p.m. in the Home Demonstration club room.

The honoree was presented with a corsage of pink carnations. Her mother, Mrs. Martha Delon Allison and the mother of the bridegroom, Mrs. West wore white carnation corsages.

Mrs. Delon Kirk, grandmother of the honoree, presented the couple with seven symbols that make a home outstanding.

Mrs. Barbara Wilson, sister of the bridegroom, Kathy Jenkins, cousin of the bride, Melinda Pearson and Betty Mathis presided at the refreshment table where white

cake squares decorated with pink rosebuds, and punch were served.

Hostesses for the courtesy were Mmes. Herb Butt, Ruth Caro, Ervin Hester, Medlin Patterson, Aubie Sparks, George Buzzard, Stanley Garnett, Bill Miller and E.D. Clement.

Approximately 60 guests attended the shower.

The population of Texas is over 10 million persons. Approximately one-half of this number are licensed drivers. So, the Texas Safety Association says, remember, you are not the only driver on the road. Drive the best you can and respect the rights of other drivers.

31 Will Die in Wrecks

Texas Department of Public Safety reports 31 persons will die in traffic accidents during the three-day Fourth of July holiday in Texas alone. July 4, 1965, 28 persons lost their lives in traffic accidents during the holiday period. Of course none of us want to be one of these 31 persons—so watch your driving and don't let your attention wander.

Music In Your Life

by

Mildred Alexander

Teaching Consultant  
Hammond Organ Company

Music Adds Vitality to Life

When President Johnson proclaimed May 1-8 as National Music Week he said, "Music adds both a vitality to the moment and a richness to our collective experience..."

Those 15 words say so much. Think about life without music. Wouldn't it be dull and empty? Imagine a bride and groom without the "Wedding March," or a graduation ceremony without "Pomp and Circumstance." A church service would be stark without hymns. A ball game wouldn't be nearly as thrilling without a lusty performance of the "Star Spangled Banner" before the first ball is tossed on the field. A circus wouldn't be a circus without the roll of the drum to build excitement and the gaiety of the organ to ease the tension. And a parade? Nothing!

In our private lives, many romantic moments are savored to the fullest with mood music. Think of the fellowship that would be missing without rousing college songs... or the sweetness that would be lost without a mother's lullaby.

As an organ teacher, I have seen countless lives enriched by music. Sometimes a family buys an instrument for an interested youngster and, before you know it, the mother or father — or both — are taking lessons, and a new closeness springs forth. In one family, a retired grandfather bought a Hammond Organ and he and his 8-year old granddaughter are taking lessons.

The wonderful thing about music is there is something for everyone, regardless of your age or your interests.

Margaret Bell Houston, granddaughter of General Sam Houston, died Wednesday, June 22 in St. Petersburg, Fla., leaving all her family effects to the Sam Houston Shrine in Huntsville.

Kelly...

### Experiment Station Feeds Grain Supplement to Cattle

An old-time cattleman would be shocked. Researchers at Texas A&M University's Coastal Bend Experiment Station here, feed grain to cattle that are knee-deep in grass. The idea, according to Ed Neal and Bill Conrad, A&M researchers in charge of the recent tests, is to eliminate the big drop in gains that comes during the hot summer months. During hot weather and short moisture periods, grass loses some of its nutritive value, and an animal's forage intake decreases. The result is a drop in gains. In the A&M experiments, steers averaging about 500 pounds of sorghum grain each day and the other half got

none. Gains of the steers on Coastal without supplemental feed began to drop about the first of July and continued down, reaching a low in August. During one period in late August and September, these cattle lost weight. Those on Coastal without the grain supplement gained 1.2 pounds a day from April 18 to July 7 and gained 0.4 pound per day from July 7 to September 15. The steers getting supplemental grain averaged 1.7 pounds per head a day from April 28 to July 7 and averaged 1.1 pounds a day from July 7 to September 15. U.D. Thompson, Extension animal husbandman at Texas A&M University, figures on the basis of this test, it may pay cattlemen to feed supplemental grain during the summer. It would be well to consider feeding grain or other high energy feeds during periods of short moisture, Thompson said. At the end of the grazing season, the cattle on Coastal without supplement were rough and had a general unthrifty condition, but the steers on Coastal plus supplement were slick, alert and appeared thrifty.

### Barbecues In The Royal Manner

Outdoor barbecues—a popular and pleasant summertime entertainment—have recently become internationally famous and potentates are discovering the appeal of good food in an informal atmosphere. Mastering the art of the barbecue is relatively simple and to help you become an expert at

the grill, here are a few pointers. Use good equipment for best results. Barbecue should be easy to clean, have an adjustable grill, a firebed or vent for heat control and a good-sized cooking area. Especially serviceable are stainless steel barbecues that won't corrode even when left out-of-doors and are easily cleaned with hot soapy water and a stainless sponge.

Build the right kind of fire. Select a long-burning fuel that will give strong, steady heat with little tar, smoke or odor. A gravel bed one inch deep under the fuel helps the fire to "breathe" and acts as drainage; grease settles between the stones and does not flare.

Control the fire. Whether you use kindling, liquid or solid fire starters—never alcohol or gasoline—keep the fire burning at the proper temperature. For high heat, concentrate the coals; for low heat spread the coals out.

Keep the proper tools close at hand. Essential for tending fire and food are a set of long-handled stainless steel implements—tongs, spatula, fork, knife and

spoon. Stainless utensils are rust-resistant, efficient and never mar delicate flavors with a foreign taste.

Don't undercook or overcook. Because wind conditions and the amount of fuel used can vary fire temperature, use a grill thermometer to achieve the right heat for each type of food. For roasts, a meat thermometer provides the best guide to doneness. To avoid the embarrassment of dried-out chicken or underdone lamb, consult a time chart to determine how long foods should cook and at what temperature.

Some people complain because roses have thorns; others are glad because thorns have roses. It's largely a matter of viewpoint.

A vicious cycle: a child's emotions determine his social status; his social status in his status affects his application—and his application determines his achievement, which in turn affects his emotions.

### Plan New Interests For Retirement

Planning to retire within the next several years? If so, now's a good time to decide how you will spend your time, says Miss Leota Lane, Texas A&M University Extension family life education specialist.

For good mental health at any age, a person must have a feeling of achievement, of accomplishing something. All too many people drift without a purpose after retirement and start feeling sorry for themselves because they're no longer "needed," the specialist emphasizes.

"In other words, they 'rust out' rather than 'wear out' because they fail to keep their minds busy," says Miss Lane. So this is a good time to make sure your later years will find you alert and interested, not bored and lonely.

"Have something to retire to, as well as from," the specialist says.

After retirement, it will be fun to "load" for a while and just take it easy. But, before too long, you may find yourself wishing for "something to get up for" in the morning.

Friends can help serve as insurance against boredom and loneliness. In addition to your old friends, you'll want to cultivate new friends. And since it's sometimes harder to keep up social contacts after retiring, belonging to a group of some sort and taking part in social activities are important for satisfying older years.

Hobbies, too, can help keep you alert and young in spirit.

# Wagon Train Will Roll Toward Dodge City Celebration

Festus and his mule will have plenty of company up in Dodge City, Kan., July 14, 15 and 16 when Spearman's Rolling Plains Mule Train gets to town for the Dodge City Celebration.

Even though Dodge is a modern, progressive city, the mule skimmers will feel right at home on Front Street, or the replica as Dodge citizens call it, where one square block of authentic western lore features three buildings which house part of the famous Beeson Museum Collection, Rath and Wright's General Store, the Long Branch Saloon and a Tonsorial Palace, each a perfect site for a bit of western make-believe. One of Dodge City's "landmarks" is the famous Long Branch Saloon, as successful today as it was in early frontier days. "Mis Kitty" still runs the place, today's "Miss Kit-

ty" being Rosie Mock, a native of Dodge City who directs and stages one of the most professional productions west of Broadway. Her husband, Dr. Lewis E. Mock, a Dodge City optometrist, is the "Old Professor." He's at the piano pounding out honky-tonk music for the show seven nights a week during the tourist season. Mandy Mock, their daughter also stars in the show singing old-fashioned camp trail ballads. Another "sight to see" in Dodge City is the Cowboy Statue on Boot Hill, a memorial to the city's early residents. The inscription reads: "On the Ashes of My Campfire, The City Is Built." The Rolling Plains Mule Train members will be special guests in Dodge City, with its flavor of yesterday, during the celebration.

Spearman's famous mule skimmers have traveled to many important occasions in the past, including the re-dedication of Old Fort Richardson at Jacksboro, the dedication of the Cowboy Hall of Fame in Oklahoma City, Ft. Belnap at New-castle, the Fort Worth Livestock Exposition, and the unveiling of "Old Pete" the only statue in the world to a mule at Muleshoe, to name a few. Now they will add the Dodge City Celebration with its "Historical Events of the Old West" theme to their list. The mule skimmers will haul mules and rigs from four states and 15 cities to assemble the train at Liberal, Kan., on July 9. They will leave Liberal on the morning of July 10 and will travel an average of 21 miles per day, camping each night along the way. The run will take them through Kismet, Meade, and Minneola, Kans. where night stops will be made. The train will arrive on the afternoon of July 13 at Dodge City in time for the celebration.

The women of the group dress in the 1870 tradition and many of them harness, hitch, drive and care for the mules while their husbands rush back home to tend to pressing business. During their travels, the group has met Governors, Lt. Governors, mayors and movie stars including James Drury "The Virginian" and John Wayne. Much publicity has been brought to Spearman by the Rolling Plains Mule Train. The train has received publicity in national magazines and newspapers with Associated Press stories and has been featured on major network television. They were recently featured in "The Furrow" John Deere magazine, with an article and colored pictures. The organization is made up of a about 30 families who have mule teams and covered wagons. Many vocations are represented in the group including farmers, ranchers, oil-field workers, merchants, and other professional people.

should contact County Judge Johnnie Lee, president of the organization, or Earl Riley, Wagonmaster. the train invite other families with mules and covered to join them in the trip to Dodge City. Anyone interested

Incorporating May Solve Many Problems  
 More and more Texas farmers are wanting to know if incorporating will pay. Generally speaking, the farmer with large holdings involving high risks, gains more by incorporating than a small farmer. Following are some of the advantages of incorporation:  
 1. Corporations have an independent existence.  
 2. Share holders are not personally liable for the obligations of the corporation beyond the value of their investment in the corporation.  
 3. The corporation may be used to help keep the farm assets within a given group by giving or selling stock to children before death of any one investor and by permitting stock to pass to designated heirs.  
 Formation costs, taxes, additional paper work, and limitations on government loans may make incorporating unadvisable for some farmers.  
 It is a good idea for each farmer to weigh the yeas and nays and obtain legal advice before developing articles of incorporation.  
 Some men have savings accounts, while others have daughters.  
 Sao Paulo (St. Paul) Brazil is larger than Cleveland, Detroit, and Pittsburg, combined.

**Automating Washers and You**  
 Most Americans take automatic washing machines for granted, whether we own them or use them in the automatic laundries, says Mrs. Elsie Short, Extension home management specialist at Texas A&M University. But did you know that there are countries where any washer is considered a luxury? In Europe, an automatic washer is a major investment. The average American worker puts in about 80 hours to buy an automatic washer while the Italian must work 377 hours for his; the Frenchman, 270 hours; the Belgian, Dutch or German, 307 hours; the British, 225 hours; and the Norwegian, 190 hours. There are many points an American family needs to consider before owning a washing machine, even if it is more of a bargain in our country, says Mrs. Short. Some of these considerations are:  
 1) How much will it cost you to own the equipment? Include cost plus interest, carrying charges, insurance and installation.  
 2) What would it cost to take your laundry to a self-help laundry, including cost of transportation plus machine use for the same number of loads you would do at home?  
 3) Do you have a good supply of water?  
 4) Is your water heater large enough to supply the extra amount needed for the washer? Can the washer be installed near the water heater? Hot water is a must for satisfactory laundry.  
 5) Are you permanently located? The next place you live may not have space or water for efficient home laundry.

### Drag Racers Win Trophies At Guymon

Local drag racers went to Guymon last Sunday and captured four trophies with five cars in competition. The fifth trophy was escaped by the local racers. Fred Cullen won K stock with a 1966 Chevrolet and E Stock with his 1966 Plymouth. Bear Brightwell won the G stock with his Pontiac and the car was runner-up for the Junior Stock Eliminator trophy. Jerry Darnell ran his E gas try "The Lemon" and won the division trophy in that class. Brightwell is leaving this week for California for a vacation and said he was picking up some racing car parts from relatives in the business out there.

Mr. and Mrs. Joe Wright of Amarillo were dinner guests on Thursday of last week of Mr. and Mrs. George Buzzard.

### 4-Hers Have Workshop

Members of the Busy Bee 4-H club attended a clothing workshop for two days this week.

Junior Leader Janice Trindle directed the work on the 4-H dress revue projects.

The members were taught how to take measurements and how to cut material by patterns. They also studied other basic steps in sewing.

Members attending were Sharon and Karen Hamilton, Paula Hagerman and Belinda Head who worked on her record book.

Mr. Graves and Sam are visiting in Oklahoma City with his sister Mr. and Mrs. W.L. Graves. They are to return home Friday.

Mrs. Geo Dick of Perryton spent Thursday visiting with Mrs. Loydell Hollar and Linda.

### Miss Trindle Has Program For HD Club

Hansford Home Demonstration Club met June 13 at the Home Demonstration Club Room.

The demonstration was given by Connie Trindle, a state 4-H participant in public speaking. Her speech was entitled "What America Means To Me".

Refreshments were served to Mmes. Harry Shedeck, Roscoe Nelson, L.W. Rosenbaum, Glen Mackie, Herb Howe, Gordon Parrish, Ellezy Vanderburg, Hartley Simmons, and guest Connie Trindle.

Plan summer activities for youngsters with safety in mind. The Texas Safety Association reports that well-planned recreational activities include safety precautions. Do not spoil a memorable summer by forgetting to put safety first.

### Services Held For Grandmother Of Jett Mason

Funeral services were conducted Tuesday, June 28 in the First Methodist Church of Estelina for Mrs. Charles Tildon Jarvis, grandmother of Jett Mason of Spearman.

Mrs. Jarvis, 82, was born in Alabama. She and Mr. Jarvis were married in 1905 and moved to Hall County in 1919 where they have since made their home.

Mason and Mrs. Jarvis' other grandsons were pallbearers.

Other survivors include her husband; three daughter, Mrs. Orela Monzingo of Odessa, Mrs. Otis Mason of Amarillo, and Mrs. Mary Ellen Eddins of Estelina; one son, Henry of Sacramento, California; two sisters; 10 grandchildren and 21 great-grandchildren.

TO REPORT NEWS CALL 2466 or 3258.

### Letter To The Editor

Dear Editor:

This is for the 14,395 crippled children and adults whose names are on the patient rolls of affiliates of the Texas Society for Crippled Children and Adults and whose current source of pride is the collection of 1966 Easter Seal Campaign stories clipped from your paper.

The agreement is unanimous: the Spearman Hansford Plainsman is a very special friend of the disabled.

Our patients thank you for the financial help you have fostered through your thorough and accurate reports of the Easter Seal Program in Texas. The assurance is theirs that treatment will continue in the year ahead.

And then they say thanks for the understanding you have persistently conveyed to your readers. This, perhaps most of all, bolsters their conviction that independence--for each of them--is in the offering.

Sincerely,  
Lloyd J. Gregory  
Publicity Chairman,  
Texas Society for  
Crippled Children and  
Adults

### Boaters Urged To Observe Safety Rules

Today in Austin the Texas Safety Association urged Texas boating enthusiasts to join in observing National Safe Boating Week, July 3-9.

"Boating has become one of America's favorite family sports," J.O. Musick, TSA General Manager, said. "And with more and more families taking to the water for fun and recreation each year, a special effort must be made to call attention to the need to know and observe basic rules of common sense and courtesy afloat."

The safety director pointed out that despite the heavy increase in boating in the past 10 years, boating has maintained a fine safety record.

National Safe Boating Week, proclaimed annually since 1957 by the President of the United States, pays tribute to the many persons and organizations who have contributed toward maintaining boating's fine safety record, and provides a medium for focusing nationwide attention on the need to "keep boating safe."

It is estimated that more than 39 million Americans will take to the water in nearly eight million boats of every description for recreation and relaxation this year.

Musick urged Texas boatmen to observe National Safe Boating Week by brushing up on nautical know-how and by displaying "caution and courtesy in the water at all times."

### Teacher Attends Training School In Indiana

Mrs. Omar Cotter was in Indianapolis, Ind., last week attending a training school for reading consultants.

The Economy Co., publishers of books on the phonetic approach to reading.

There were 19 teachers from over the nation invited to attend. Mrs. E.N. Flathers of Perryton was the only other teacher from this area.

The teachers will conduct workshops for the publishing firm during the summer.

The Texas Safety Association urges Texas drivers to display courtesy to tourists in our state. Many of them will be driving on our streets and highways for the first time and frequently slow down in traffic to check road signs and street markings. Be patient and courteous to these drivers--you may be traveling in their state some day and need the same kind of courtesy.

Mrs. Roberta Parrott of Pierre, S. Dakota was a guest on Thursday of Mr. and Mrs. Bob Hohertz and family.

Mr. and Mrs. Russell Welch and Gene returned recently from a vacation trip to Dewitt, Nebraska, where they visited her parents Mr. and Mrs. S. P. Welch, her father Mr. Milo Garrison and other relatives and friends. They spent one day at Fremont, Nebr. visiting her sister Mr. and Mrs. L. D. Mead.

House guests this week of Mr. and Mrs. Lee Keys are Mr. and Mrs. Keat Bowen of Ponca City, Okla.

Mr. and Mrs. Mike Barry and family of Odessa are spending the holiday weekend with his mother Mrs. John Barry.

Jim David Crawford returned this week after spending the last month with his dad, Jimmy Crawford at Big Lake, Tex.

Mr. and Mrs. Jerry A. Morris and family returned recently from a weeks vacation spent in Omaha, Nebr., visiting his parents Mr. and Mrs. H. L. Morris and her parents Mrs. Adalove Tookeay and Edward Ditson.

Dismissed were Jimmy Hester, Kay Robinson and daughter, Nita Sterling and son, Edwin Slaughter, Barbara Hiller, Margaret Novak, Melba Stegoll, Lila Carpenter, Shirley Rollman and son, Harvey Holdeman, Melvin Willis, Mary Lou Barnes, Lawa Wilson, Tennie Elledge.

**Future Readers of The Plainsman**

Mr. and Mrs. Don Dees of Stinnett are the parents of a baby girl, Michelle Renee, weighing 6 lbs., 13 1/2 ozs. She was born July first.

Mr. and Mrs. John R. Miller who have spent the past 3 weeks vacationing in California and visiting in the home of their son, Jack Miller and family, and their daughter, Mr. and Mrs. Roger Johnson and boys, returned home on Wednesday. Mrs. Miller came home sick and is recuperating in her home from a bronchial cold. Mr. Miller went to Kansas a few days to see his mother and other relatives before returning to work at the Skelly Gasoline Plant.

Ray Lackey returned to work Saturday after being on vacation from the Skelly Plant for the past month.

Mrs. J.K. Morris and daughter, Suzanne of Grand Junction, Colorado left for their home on Friday after spending the past two weeks in the home of her brother Guy Remy and family and with her sister and family Mr. and Mrs. Don Roberts at Fritch. Another sister, Mrs. Bunny Floyd of Duncan, Oklahoma, has also visited in the Remy and Roberts homes. On Thursday evening they were dinner guests of the Remy's, Lynanne Kendrick and daughters.

Mr. and Mrs. Russell Welch and Geni are spending the weekend at Burk Burnett, Tex. visiting her sister Mr. and Mrs. J.H. Higgins.
