

Preparing For Paving

City workers are shown above uncovering water line which runs down the center of Lancaster Street. This water line, like some other pipes of the street, City Manager H. W. Whitney says several strands of pipe about the city will have to be lowered before paving contractors can begin work over them. The above pipe is located between 8th and 13th Streets on Lancaster, which has been signed up for paving in the current program.

History Can Show That Nation Has Much To Be Thankful For

By ARTHUR EVERETT
NEW YORK (AP) — It was a Thanksgiving Day, with many an empty chair at the dinner table. Some such empty chairs never again were to be filled.

In Italy, the British 8th Army threw a beachhead across the River Sangro, "fighting in extremely bad conditions of mud and rain." Then the dead were counted.

British and American bombers were over France. Five failed to return. On Formosa, an Allied air raid wiped out 31 Japanese aircraft.

At home, a boys' parade in New York featured the hangings in effigy of Germany's Hitler, Japan's Tojo. And at the base of the Statue of Liberty, a religious group prayed for an end to the war.

That was Thanksgiving Day, Nov. 25, 1943, at the height of World War II—just 10 years ago today.

Americans have come a long way together through the past decade, and tomorrow is another Thanksgiving Day.

Beats there a heart anywhere in this great nation so forlorn that it can bespeak no thanks this holiday? If so, perhaps it can be softened by the moving finger of history, and the poet's pure, sweet song.

For what? Well, let's look back on the Thanksgivings of the last decade.

1944

The fortunes of war were improving for America but, nevertheless, in the words of a current historian, Thanksgiving was "the bleakest we have known in years."

Allied forces were fighting in the streets of Strasbourg. Allied bombs rained down on Tokyo in full daylight. American combat troops on Leyte were soaked with rain. But there were thanks in fighting men's hearts.

At home, turkey sold at 49 cents a pound—but there were few to be had. Civilians were urged to substitute unrationed roast veal.

Many a turkey dinner was served on a tray to a blind or maimed or mentally unhinged veteran, hopelessly imprisoned in a service hospital.

Seven states still adhered to the last Thursday in November as Thanksgiving, although President Roosevelt had moved the holiday ahead a week in 1939.

Roosevelt, incidentally, ate his last Thanksgiving dinner.

1945

Peace made this a day of profound Thanksgiving for the first time in four years—at least in America. But Gen. Dwight D. Eisenhower was in Washington to plead for congressional aid for war-ravaged Europe.

American religious talks were broadcast over Radio Tokyo. Stilled at last were the dulcet enticements of Tokyo Rose, the nasal hysteria of Japan's war lords.

Many fighting men ate their last holiday meal abroad, while awaiting a transport home.

Travel was heavy, almost at a prewar level. It rained in New York.

General Motors Corp. was on strike and 180,000 employees were in the midst of their longest, costliest walkout. In Washington, transit workers were out and the government was ordered to operate the lines.

A former senator from Missouri, Harry S. Truman, ate his first Thanksgiving dinner in the White House.

1946

Great was America's bounty this Thanksgiving and deep its thanks. But hunger crouched astride Europe like a vulture.

"Many have been our blessings in contrast to other people," remarked an American general, gazing at the despairing plight of conquered Germans.

Four hundred thousand soft coal miners were on strike. Railroads,

lacking coal, cut service and holiday travelers stood in the aisles.

Turkey was back in unlimited supply.

Soviet Foreign Minister Molotov talked disarmament at the United Nations. A French Cabinet fell—and so did French soldiers in Indochina.

1947

Europe's hunger touched the conscience of well-fed Americans this Thanksgiving. President Truman went without bread and eggs to symbolize the nation's food conservation program to aid the hungry overseas.

Jews took food gifts for Europe to their temples, Christians to their churches.

In Tokyo, Gen. Douglas MacArthur interrupted a heavy work schedule to eat turkey with his family.

At home, 107 Americans died in traffic. There was mixed weather, snow in the North, sun in the South, rain in the West.

1948

It was, perhaps, the finest Thanksgiving to the decade.

The Marshall Plan was funneling American aid overseas.

Displaced persons arrived in America in a steady stream, tasting for the first time the delights of a Thanksgiving holiday.

Turkey prices hit new highs, from 79 to 85 cents a pound.

A long, costly East Coast dock strike was settled.

An airliner caught fire in Los Angeles, but passengers and crew escaped unharmed.

On New York's Bowery, a lady bum got a free meal and a chance at rehabilitation, moving her to tears as she exclaimed:

"It's the best Thanksgiving Day I ever had."

1949

A quiet, peaceful Thanksgiving, the last America was to know in four years.

The traffic toll hit Thanksgiving high of 123.

Turkey prices were down a bit, but still high. Dinner at home for four averaged \$5.07—in a restaurant \$6 a head.

The weather was mostly fair.

Japanese students dined as guests in American homes in several states.

Mrs. Franklin D. Roosevelt, the President's widow, entertained the Shah of Iran at Hyde Park, N.Y.

Milton Berle, the hottest thing on television, tumbled from a lead float in Macy's parade, landed smiling and unharmed.

1950

War, again, and a Thanksgiving clouded by suffering, the taste gone from the turkey, the sparkle from the air.

America and the United Nations had made their choice in Korea.

There a final, home-by-Christmas drive was poised against Red Korea. It was to end three days later with China's entry into the war.

The weather was bracing, but a big storm was building up and 22 states lay in its path.

President Truman spent a third Thanksgiving in Blair House, awaiting the rehabilitation of the White House.

1951

Korean truce talks were under way. A hope for an armistice by Christmas buoyed America this Thanksgiving. American casualties neared the 10,000 mark.

Vice President Alben Barkley spent the day before his 74th birthday dining with American jet pilots at a rain-swept Korean base. President Truman ate turkey at Key West, Fla.

A record crop of 52 million turkeys had cackled their last cackle. Many of them ended up in front-line Korean bunkers or were dropped by helicopter to troops isolated on Heartbreak Ridge.

In Lansing, Mich., a mother marked the homecoming of her three sons from Korea—one dead, one crippled, one wounded. She sobbed:

"I'm so happy my boys are home."

1952

Still no peace in Korea and Gen. James A. VanFleet told the U.S. 8th Army there:

"Let us all thank God that we have allies to fight with us and that we have a united team in Korea. Let us thank God that we are still free to worship as each man feels in his heart he wants to worship Him."

Religious services were extended even to front-line dugouts, this third Thanksgiving in Korea.

Now Many Wear FALSE TEETH
 With Little Worry

Eat, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. PASTEETH holds plates firmly and more comfortably. This pleasant powder has no gummy, goopy, pasty taste or feeling. Doesn't cause nausea. It's alkaline (non-acid). Checks "plate odor" (denture breath). Get PASTEETH at any drug store. (Ad.)

U. S. Envoy Dean Says Russia Must Be Participant At Meet

PANMUNJOM (AP) — U.S. envoy Arthur Dean said today "some method must be worked out" to assure the attendance of Soviet Russia as a full participant at a Korean peace conference.

The Reds want Russia to attend as a neutral. Dean charged this would mean the Soviet Union would not be bound by conference decisions.

He said Chinese and North Korean negotiators working on plans for the peace conference are holding Russia "as a threat over our heads."

Allied and Communist diplomats met for 3 hours and 45 minutes, the longest continuous session since the preliminary talks opened Oct. 26. They will meet again Friday.

Meanwhile, explanations to war prisoners who have refused to go home remained stalled and there was no indication that the interviews would be renewed.

Dean read two long statements at the preliminary peace talks ridiculing the Communist position that Russia is a neutral.

"Why are you afraid to have the U. S. S. R. at the political conference as a full participant?" he asked.

"Is the real reason . . . because: (A) the U. S. S. R. does not wish to be bound by the agreement reached at the political conference and (B) you wish to use as a threat at the conference the possible non-aggression of the U. S. S. R. or its noncompliance with the agreements reached?"

The Chinese delegate, Huang Hua replied with what Dean called "a bitter denunciation."

Dean replied that Russia "is not and cannot be a neutral nation.

As to the role of truce neutrals at the (peace) conference we are willing to exchange views. That does not and it will not include the U. S. S. R."

Dean continued:

"We are continuously and constantly in a state of warfare against everything for which the U. S. S. R. stands.

"The entire world knows we stand for the complete freedom and dignity of man as a creature of God. The U. S. S. R. stands for the supremacy of the state and believes the individual unimportant except in so far as he can be used by the state. That, we can never accept."

Inauguration Of Ike Brought In Profit Of About \$100,000

WASHINGTON (AP) — A profit of about \$100,000 was made on President Eisenhower's inaugural ceremonies last January, officials of the Inaugural Committee said today.

The surplus is going to be distributed among charities, Committee Chairman Joseph C. McGarrah said. Just how probably will be announced within a couple of weeks.

Business firms and citizens of Washington who underwrote \$984,680 of the costs of the three-day ceremonies have had their advances refunded.

One of the committee's main sources of revenue was sale of tickets to the people who filed the stands along the inaugural parade route.

"Communists, directed by the U. S. S. R., are continuously and constantly trying to undermine and overthrow our government in an undeclared war but they shall not succeed."

The Communists for the ninth straight day made no effort to interview the more than 20,000 Chinese and Korean War prisoners who have refused to return to Red rule.

Observers said the Reds apparently have given up all explanations, at least for the time being. The U. N. Command, meanwhile, continued work on ground rules before announcing when it will start trying to woo home 22 Americans, 1 Briton and 328 South Koreans who have refused repatriation.

The South Korean government stepped up its attacks today on Indian neutrality and issued a statement declaring India never would be allowed to attend the peace conference except as a supporter "of the Communist cause."

Karen Rebels Derail Burmese Train Sunday

RANGOON, Burma, Nov. 24 (AP) — Reports reaching here tonight said Karen rebels had derailed with dynamite Sunday a Rangoon-Moulmein passenger train, killing three women passengers and two escort police, and seized 30 other passengers as hostages.

The reports said the rebels fired on the derailed train, removed all valuables from the passengers, and burned five coaches before fleeing with the hostages. It was the second attack on the rail line in a week.

Here's why thousands of TEXAS motorists are switching to

New Conoco Super Gasoline

with TCP*

The Greatest Gasoline Development in 31 Years

Restores "new car" power! Increases spark-plug life up to 150%! Gives you extra gas mileage, too!

All over Conocoland the story is the same. Every day, thousands upon thousands of motorists are switching to new Conoco Super Gasoline with TCP.

What's the reason for this big switch? Why are motorists leaving brands they've been loyal to for years? The reason is simple: **New Conoco Super Gasoline with TCP is the greatest improvement in gasoline since the introduction of tetraethyl lead in 1922!**

Motorists tell us they can actually feel the difference in car performance after just two tankfuls. For new Conoco Super with TCP dramatically overcomes the greatest single cause of power and fuel waste affecting most of the cars on the road today.

Combustion deposits reduce power

When you drive your car, deposits constantly build up on spark plugs and in the combustion chambers. These deposits can "cheat" you of power in two ways. First they short-circuit spark plugs—causing them to mis-fire. Second, deposits in the combustion chambers cause fuel to ignite before it should. This is called pre-ignition or "wild ping."

How Conoco Super Gasoline with TCP works

New Conoco Super with TCP—a cresyl compound—dramatically overcomes the loss of power and fuel caused by combustion deposits. TCP actually neutralizes harmful deposits on spark plugs and in combustion chambers. With new Conoco Super Gasoline, your plugs spark as they should. Your fuel ignites as it should. You get and keep "new car" performance.

The combined effect of mis-firing and pre-ignition is loss of power, lack of "pep" and wasted gas.

See what Conoco Super with TCP can do for your car—

Start the "TWO-TANK TEST" today!

- When your gasoline tank is one-quarter full or less, fill it with Conoco Super Gasoline with TCP. Now, there will still be some ordinary gasoline mixed in with your Conoco Super, so . . .
- Make sure your next tankful is Conoco Super, too. So rapidly does Conoco Super work that with this second tankful, chances are you'll feel as if your engine has had a tune-up. You'll feel a boost in power. Try it today. We're sure you'll stay with Conoco Super.

CONOCO

Tension Will Not Halt Pilgrimage

JERUSALEM (AP)—Border tension between Israel and Jordan will not hold up the traditional Christmas pilgrimage to Jerusalem and Bethlehem, authoritative sources said today.

Details of the pilgrimage have been discussed by Dr. Abraham Biran, district commissioner for the Israeli-held section of Jerusalem, and Najadi Nashashibi, chief liaison officer of the Jordan Foreign Ministry.

An Israeli spokesman said his government "is this year making it possible for a larger number of local Christian residents to cross than ever before."

License Is Changed

WASHINGTON (AP)—The Communications Commission was asked today to approve this corporate change by a radio station: KGKL, San Angelo, assignment of license by Lewis Selbert to Angelo Broadcasting-Telesetting, Inc.

Chevrolet Shows New Truck Line

Typical of the completely re-engineered Chevrolet trucks making their 1954 model debut is the three-quarter ton (5500 GVW) stake, on which dual rear wheels are now available. Loading height has been lowered and floor area between stakes increased. More horsepower, greater durability and optional automatic transmission are among the advances. The Chevrolet trucks will be shown Saturday at the Tidwell Chevrolet Co.

ON DISPLAY SATURDAY

Chevrolet Trucks Offer New Features

Completely re-engineered to give outstanding performance in meeting modern hauling requirements, a new line of 1954 Chevrolet trucks will be introduced by dealers Saturday.

Truck operators will have an opportunity to see the new vehicles in an exclusive truck display at the Tidwell Chevrolet Co. here at that time. Improvements in every part of the vehicle—engine, chassis and body—have been designed with an eye to current and future needs of truck owners and drivers. Among the more important advancements are the following features:

1. Three new engines, with increased horsepower and outstanding, economical performance, include the most powerful truck engine ever built by Chevrolet.
2. Automatic transmissions op-

tion through the one-ton (10,000 lbs. GVW) model range.

3. Increased durability, with heavier axle shafts in the two-ton models, bigger clutches on light- and heavy-duty models and more rigid frames on all models. Optional heavy-duty three-speed transmissions available on light- and medium-duty models offer greater gear reduction, more rugged construction and a steering-column gearshift lever on one-ton models.

4. Dramatically improved comfort for the driver through a new Ride-Control seat, standard on cab-over-engine models and optional in all other cabs.

5. Appearance improvement with a new, more massive radiator grille and front-end design, while a one-piece curved windshield increases visibility and safety as well as adding to the distinction of the vehicle.

6. More space for payloads and easier loading. The body height of pickup, platform and stake models has been lowered through modified body mounting. Unobstructed loading space has been lengthened on several models.

Changes in the new Chevrolet trucks, according to the company, have been made to meet and anticipate the needs of drivers and operators. They are the results of suggestions made by users to Chevrolet field men, and long range planning by designers and engineers.

Most of the truck models are easier to load. In pickup bodies, al-

though the sides are higher, the over-the side loading height is less. The rigid, grain-tight tall gate will support long loads when lowered.

The new Chevrolet stake bodies are wider and longer. On the 161-inch heavy-duty chassis, the body of this multi-purpose truck measures a full 12 feet inside the stakes. Loading heights on the stake models are lower, rear corners have been rounded and the stakes themselves are higher, extending 42 inches from the body floor on the nine- and twelve-foot bodies.

Russian Newspapers Losing No Chances To Blacken U.S.

By TOM WHITNEY (Former Moscow Correspondent) NEW YORK, Nov. 24 (AP)—The Soviet newspaper Pravda, which called for Soviet-American cooperation in a half page editorial today has on some recent days been devoting a quarter or more of its total space to anti-American propaganda.

The theme today was that improvement in relations between the Soviet Union and the United States would be "a paramount factor in lessening international tension."

But for many weeks past the editors of this Communist party organ and other Soviet papers have been losing no opportunity to give all kinds of material they print an anti-American slant.

Copies of leading Moscow press organs such as Pravda, Izvestia and Trud reaching here show the current volume of material attacking the United States is probably as great as it ever was under Stalin.

After the Soviet dictator's death last March there was a period of several months when the Russian press relaxed markedly its direct attacks on the United States.

At the time many Western diplomats and observers of the Soviet scene considered this to be a significant sign, possibly indicating a Soviet desire to ease tensions with the outer world.

But the lull did not last long. It's all over now. A few days ago Pravda devoted nearly an entire page to per-m-warfare charges, of which little

had been heard since Stalin's death.

Here's one day's crop of anti-American material in Pravda, the showing on Nov. 17:

"The American bloc is against cessation of the arms race," read a headline on a report of United Nations debates.

The headline over a news report from Korea: "The American side is frustrating the conduct of explanatory work among war prisoners."

An editorial attacked President Eisenhower for his trip to Canada, depicting him as attempting to

force Canada to break away from the British commonwealth.

A cartoon showed the United States in the form of a snake whose body formed the "S" of a dollar sign, darting its tongue out at a bedraggled British lion.

A long editorial entitled "the

dirty dollar war" was a general attack on American foreign policy in the form of a review of a British book.

The total of anti-American space in this issue amounted to eight columns — one third of the four-page paper's space.

Peron Sets Special Argentine Session To Prepare Amnesty

BUENOS AIRES, Argentina, (AP)—President Peron Tuesday called Congress to meet in special session Thursday to approve legislation freeing political prisoners and permitting Argentine exiles to return home.

Under terms of a proposed general amnesty, persons jailed or exiled for opposing Peron will be pardoned.

The Radical party, chief opposition group, recently estimated that 67 of its own members, and 154 others are held in jails throughout the country, while 4,000 Argentines are exiles in Uruguay, Peru and Chile.

Prisoners Living On A Water Diet

GEORGETOWN, British Guiana (AP)—British Guiana's government said today that the five People's Progressive party leaders it is holding in detention are living on water only.

The five leftists launched their hunger strike last Thursday to protest their indefinite arrest.

Prisoner Calmly Walks To Freedom

DETROIT (AP)—Albert Torrance, 28, in custody at Recorder's Court as he waited a hearing in a writ of habeas corpus, was unhandcuffed because the metal bracelets had jammed.

While police were busy opening the jammed cuffs on two other prisoners, Torrance walked away. Torrance's wife and mother and two alleged accomplices are still in custody in connection with a series of holdups in Detroit and Grand Rapids.
