

All Italy Holds Memorial For Trieste's Dead

ROME (AP)—Italians from Trieste to the toe of the peninsula laid down their tools today in a 10-minute "memorial" work stoppage for the six persons killed by police during Trieste rioting last week.

Rome Police Battle Rioters

Rome police disperse and club rioters at upper left as other uniformed men duck stones thrown by demonstrators near the British Embassy in Rome.

The suspension was called by all three of Italy's big labor federations, representing nearly all Italian workers.

The nationwide demonstration followed a bitter accusation yesterday against the British commanders of the Trieste civil police by the Italian government.

Missing Greenlease Ransom Bill Is Found

PETOSKEY, Mich. (AP)—Police Chief Philo Wakeford of Petoskey said today FBI agents have found in Petoskey a \$20 bill from the missing \$308,000 in Greenlease ransom money.

Bobby. But the boy already was dead.

The Detroit Times story said the number of bills discovered is a closely guarded secret.

Trieste itself, where an estimated 150,000 persons turned out yesterday to bury the six riot victims, also remained quiet.

Italian newspapers continued to demand removal of Maj. Gen. Sir John Winterton, Allied commander in Trieste's Zone A.

Italian Prime Minister Giuseppe Pella called in a radio speech last night for a thorough parliamentary investigation to place the blame for the Trieste outbreak.

A 2,500-word government report issued after Pella spoke yesterday probably will be the basis for the Parliament's investigation.

The report charged the student demonstrations which sparked the rioting were a spontaneous outburst resulting from resentment "over refusal of permission to display the Italian flag on municipal buildings" on the anniversary of Italy's entry into the city at the end of World War.

The report named British Majors M. H. R. Darragher and Williams as leading police units which fired into the crowds.

Another British major, who was not identified, invaded Trieste City Hall "pistol in hand" and took an Italian flag from the balcony, the report added.

Mitchell says he plans to step out prior to convention.

WASHINGTON (AP)—Stephen A. Mitchell says he intends to step out as chairman of the Democratic National Committee in plenty of time to work for Adlai E. Stevenson for the party's 1956 presidential nomination.

The party chairman, he said on a CBS television program yesterday, should be neutral among various aspirants for the nomination, and "I'll be partisan."

Stevenson selected Mitchell for the post after winning the 1952 presidential nomination.

Mitchell said he intends to serve through next year's campaign for control of Congress, but that if the Democrats want a new chairman before then, "I'm awfully easy to get rid of."

AF Precision Jet Flier Dies In Crash

AUSTIN (AP)—Capt. Jere Lewis, 29, member of the Air Force's precision flying team, the Sabre Knights, was killed when his jet plane crashed and burned near Bastrop.

Texas Cotton Estimate Upped

WASHINGTON (AP)—The Agricultural Department upped its estimate of the 1953 Texas cotton crop today another 100,000 bales from the October estimate.

The latest Texas forecast was 4,150,000 bales with an indicated yield of 222 pounds per acre.

The department, in a semi-final report of the year, estimated the crop over the nation at 16,993,000 bales.

This is 957,000 bales more than its national forecast last month and compared with 12,215,000 bales for the 10-year average.

The estimate for Texas is more than 28 per cent above the 1952-51 average production for the state.

Compared with a month ago, prospective production is up 160,000 bales in Arkansas, 40,000 in Oklahoma, 25,000 in Louisiana, and 20,000 in New Mexico.

Except for some interference from rains in Texas and Oklahoma, weather for harvesting the crop continued nearly ideal in practically all states, the department said.

Despite deficient moisture, late bolts in the Central Belt developed satisfactorily and yields are exceeding earlier expectations, the agency said.

No estimate of cottonseed production will be made until all the crop has been ginned. The department said if the ration of lint to cottonseed is the same as the average for the last five years, production would be about 6,579,000 tons.

This compares with 6,176,000 in 1952.

A FEW MORE TICKETS DUE

Another 315 reserve seat tickets for the Big Spring-Snyder football game Friday night in Snyder has been promised local fans.

The department, in a semi-final report of the year, estimated the crop over the nation at 16,993,000 bales.

This is 957,000 bales more than its national forecast last month and compared with 12,215,000 bales for the 10-year average.

The estimate for Texas is more than 28 per cent above the 1952-51 average production for the state.

Compared with a month ago, prospective production is up 160,000 bales in Arkansas, 40,000 in Oklahoma, 25,000 in Louisiana, and 20,000 in New Mexico.

Except for some interference from rains in Texas and Oklahoma, weather for harvesting the crop continued nearly ideal in practically all states, the department said.

Despite deficient moisture, late bolts in the Central Belt developed satisfactorily and yields are exceeding earlier expectations, the agency said.

No estimate of cottonseed production will be made until all the crop has been ginned. The department said if the ration of lint to cottonseed is the same as the average for the last five years, production would be about 6,579,000 tons.

This compares with 6,176,000 in 1952.

The number of bales ginned to Nov. 3 this year compared with ginnings to the same date last year, respectively, by states included: Texas 2,414,942 and 2,602,515; Arkansas 1,090,584 and 1,082,257; California 515,855 and 769,033; Louisiana 602,682 and 677,124; New Mexico 155,971 and 182,116; and Oklahoma 253,939 and 208,108.

Humphrey Hints Tax Hike Sought

DETROIT (AP)—Secretary of the Treasury Humphrey said today the government faces a possible deficit of eight to nine billion dollars next year unless spending can be cut or taxes raised.

And, he said, "only relatively small reductions" in government spending can be made quickly.

This appeared to point, in Humphrey's view, to a solution combining: A, some tax increases; B, some red ink spending, and C, some reductions in spending.

Humphrey, in remarks prepared for the Detroit Economic Club, did not say what possible tax increases the Treasury might have in mind, but more revenue from excise or sales taxes seemed indicated.

Humphrey said the "dilemma" of how to meet the deficit next year is "our most urgent problem at this time."

It appeared, therefore, that his reference to possible tax increases, unless further heavy spending reductions can be made, was in other fields.

Put together with the President's program, Humphrey's remarks suggested that the new tax program being worked up for presentation to Congress in January might call for new sales taxes or increased rates on articles already taxed, to increase the government's income.

Eisenhower has ruled out any request for a general retail sales tax.

As he has done repeatedly, Humphrey hinted strongly that the Eisenhower administration will renew its request to Congress for a higher debt limit.

Congress last summer refused a White House request for an increase in the government's borrowing power from \$75 to 290 billion dollars.

Abducted Baby Found; FBI Arrests Woman, 17

Baseball Held Not Subject To Anti-Trust Acts

WASHINGTON (AP)—The Supreme Court today ruled professional baseball is still only a sport and hence is not subject to federal anti-trust laws.

The court's decision was given on three appeals attacking the much-discussed player "reserve clause," a keystone of organized baseball.

The appeals had asked the court to overturn a 1922 unanimous decision delivered by Justice Holmes that baseball is a sport, not a business.

The decision was announced in a per curiam opinion—that is, one not signed by any member of the court.

It said the tribunal was upholding the Holmes' decision of 1922 "so far as that decision determines that Congress had no intention of including the business of baseball within the scope of the federal anti-trust laws."

Today's ruling came less than a month after the high court heard three hours of arguments stretched over two days.

The appeals were taken by two former minor league players and the former owner of the El Paso, Tex., baseball club. They contended baseball exercised an illegal monopoly over activities of its players by use of the "reserve clause."

This clause—included in all baseball contracts—puts a player under complete control of the club that owns his contract.

The story in the Detroit Times said there was evidence that a rural mail truck driver in Mantion, Mich., received a \$20 note and paid it to Mrs. Krauser, unaware of the money's background.

Every operator of a business enterprise in Michigan's northern sector, and every bank, has been provided with a list of serial numbers from the unrecovered bills in the \$300,000 paid by Robert C. Greenlease, Oct. 4, for the return of his son, Bobby, who was already dead.

One speculation holds that the missing ransom came into Michigan through Chicago's underworld where the money may have been sold by professional fences.

All of the missing \$308,000 is in \$10 and \$20 bills.

The ransom was paid to Carl Austin Hall and Mrs. Bonnie Brown Heady who have pleaded guilty to kidnaping and killing Bobby Greenlease.

Police who arrested the pair in St. Louis Oct. 8 recovered almost half the ransom from Hall. Both he and Mrs. Heady denied knowledge of the whereabouts of the missing money.

KING IBN SAUD

King Ibn Saud Of Arabia Succumbs

BAHREIN, Persian Gulf (AP)—King Ibn Saud, the world's richest and most powerful absolute monarch, died today.

The crippled, one-eyed king was stricken with angina pectoris on Oct. 9, but on Oct. 27 a message reached the outside world that he had passed the crisis.

The king, 6 feet 4, a giant of a man in his prime, had been crippled in recent years by arthritis. He would have been 73 this month or next. His exact birth date was not recorded.

Ibn Saud's skill and daring as a desert warrior carved out for him his kingdom of Saudi Arabia, with six million subjects, American capital which tapped his country's vast oil resources gave him an income of more than 200 million dollars a year.

He had 40 sons, among them Crown Prince Saud, who was named Prime Minister of Saudi Arabia's first Cabinet on Oct. 10.

The message received here today said Saud had become king with Prince Faisal as crown prince.

The king also had more than 100 daughters by at least 135 marriages. He never had more than four wives at a time, however, in accord with Moslem law. He never drank or smoked.

Because of his one eye, some Bedouins who had fought with him in the desert wars called him "Old Cyclops."

His full name was King Abdul Aziz Ibn Abdul Rahman Al Faisal Al Saud. He was the son of the Sultan of Nejd, and through his acts of daring and skill not only recovered his father's kingdom but added materially to it.

When he was only 20 years old Ibn Saud and some of his brothers, cousins and servants invaded Riyadh by night, surprised the garrison, killed the governor and proclaimed that a new Saud had come to power. That was the start of his long career as a warrior and statesman.

In cooperation with the famed Lawrence of Arabia, Ibn Saud and his Wahabi army drove the Turks out of the Arabian peninsula. The British recognized the independence of Ibn Saud in 1915. Nine years later he defeated the Hashemite forces of King Hussein of the Hejaz. In 1926 he was proclaimed King of the Hejaz. He became protector of the sacred Moslem cities of Mecca and Medina.

Infant Unharmmed, Physician States

HUGO, Okla. (AP)—A 17-year-old former carnival strip teaser was arrested today and quickly arraigned on a federal charge of kidnaping a 5-month-old baby boy while baby sitting with him at Evansville, Ind.

FBI agents arrested Mrs. Tommie Dene Doughty and recovered the baby, Richard Lee Stammer, alive.

They were found at the home of Mrs. Doughty's father, Buford M. Mason, North of Bokchita in Red River Valley farm country.

Mrs. Doughty was arraigned before U. S. Commissioner D. A. Stovall six hours after she was captured. Stovall placed her under \$20,000 bond and she was turned over to U. S. Deputy Marshal W.

A. White for removal to Muskogee federal jail.

"I'm just glad it's over, but I still wish I could have kept him for a few more days," Mrs. Doughty told The Associated Press in Oklahoma City by telephone.

She was permitted to talk on the phone after her arraignment and she haltingly answered questions about her trip by bus and hitchhiking since she took the baby Friday night.

"He is just the age of the one I lost," Mrs. Doughty said. "I fell in love with him when I first saw him. He reminded me of my child. He didn't give me any trouble at all during the trip.

"I had some money when we left Evansville and I bought what he needed along the way. He didn't cry at all. . . . Was just a perfect baby."

The child is the son of Richard Duane Stammer, 20, a sailor, and Shirley Stammer, 18.

Asked how she felt, she quickly replied: "How would you feel?"

The FBI said that Mrs. Doughty lost a child at birth in June 1953 in Chicago.

The agents said that Mrs. Doughty told them she gave birth to a child at Dallas in 1951 but two weeks later her husband took it away and she never has seen it since. The FBI said the father was Lamar Mitchell.

The Stammer baby apparently suffered no ill effects from the two days and nights of travel.

A physician checked the baby at Durant and said he was in perfect physical condition.

Wilbur Martin, Associated Press staff writer who is at Durant said the baby woke up this morning smiling, gurgling and cooing.

The FBI said Mrs. Doughty told her parents the baby was hers. At her arraignment, Mrs. Doughty was neatly dressed in a grey print dress. She wore a bright red coat with sports shoes but no hose. Her short, black hair appeared to have just had a permanent wave.

Mrs. Doughty's arrest occurred only a few hours after she arrived at her father's home. For two days she had traveled with the baby through four states.

Big Spring's Low Was 38 This Morning

The forecast here was for a low of 43 tonight. Last night's low was 48, according to forecasters at the local Weather Bureau office. Big Spring had frost this morning.

Clear skies brought frosty weather to North and West Texas Monday.

Forecasters said the disappearance of the state's gray cloud cover also meant the weather should warm up during the day.

The only Texas spot still reporting clouds to the Weather Bureau was Corpus Christi. Cloudy, chill weather had hung on in Texas for almost a week.

Early morning temperatures included: Abilene 30 degrees, Marfa 31, Wichita Falls and Salt Flat 32, Amarillo 34, Childress 34, Austin 37, Houston 41, Palacios 45 and Corpus Christi 47.

Rains tapered off in the storm-lashed East and in the deep South, and ground fog blanketed snow covered portions of the Central Plains.

Temperatures generally were lower, ranging down to 5 at Fraser, Colo. and 17 at Lexington, Neb., and Grantsburg, Wis.

The North Atlantic Coast and eastern Great Lakes sector, target of a storm Friday night and Saturday which cost at least 21 lives and millions of dollars of property damage, had further soaking Sunday. The fall ranged up to Buffalo's 38 inches of rain and 3 inches of snow.

Fog early Monday extended from central Kansas through Nebraska and eastern South Dakota.

Two Men Crushed Under Load Of Pipe

FORT WORTH (AP)—Two men were found crushed to death under a load of three-inch pipe today in a railroad coal car here.

McCarthy Plans GE Red Search

WASHINGTON (AP)—Sen. McCarthy (R-Wis.), extending to private firms doing secret government work his avowed hunt for subversives, plans hearings later this week at the General Electric Co. plant at Schenectady, N. Y.

Preliminary reports from the staff indicate the situation may be rather bad there," McCarthy told the forthcoming hearings by the Senate investigations subcommittee he heads.

At Schenectady, GE said in a statement issued by A. C. Stevens, manager of relations and utilities at the plant there, that it "takes great pains and goes to considerable expense" to safeguard secret areas and materials.

But, Stevens added, "the company itself does not, and cannot, grant 'secret' security clearances to its employees. That is the function of the government."

The Stammers said they had gone to bed but hadn't slept since their baby disappeared Friday night with the baby sitter, who lived across the hall from the apartment of Mrs. Stammers' mother.

Ellsworth reported Mrs. Doughty said she fed the infant condensed milk.

See BABY FOUND, Pg. 6, Col. 1

MAJOR SPEECH Lodge Tells U. N. Peace Up To Reds

UNITED NATIONS, N. Y. (AP)—The United States told the U. N. today disarmament and world peace depend on a "change of mind and attitude" by Russia's rulers.

In a major policy speech prepared for the U. N. Assembly's 60-nation Political Committee, chief U. S. Delegate Henry Cabot Lodge said:

"The fighting in Korea obviously made disarmament talk unreal. But now we have an armistice, and the United States continues, therefore to hope that despite the discouraging nature of the Soviet note of Nov. 3 in connection with a four-power conference on Germany, the Soviet leaders will yet give concrete indications that they actively desire to remedy the current state of international affairs."

"We hope they will join with us in practical steps to reduce international tension which will be reflected in developing a disarmament program. . . . It is possible once international security has been achieved, disarmament cannot be conducted without proper safeguards."

ment program can be put into effect "until world tensions have been reduced by settlement of some of the major political issues between the Soviet Union and the free world."

Lodge headed a week's lineup of Western speakers calling for new attempts by the U. N. disarmament commission to win world agreements next year on arms reductions. A 14-nation resolution before the committee provides that course.

The U. S. delegate detailed statements by President Eisenhower, expressions by the U. S. Senate, and hopes of scores of private U. S. organizations aimed at getting a safeguarded disarmament program.

Lodge said the Russians have attacked the idea of Western bases overseas without offering a look at Communist air bases under its own flag or in other countries.

See U. N., Pg. 6, Col. 8

THE WEATHER

BIG SPRING AND VICINITY: Mostly fair this afternoon, tonight and Tuesday. A little warmer Tuesday.

HIGH today 70, low tonight 43, high tomorrow 73.

Highest temperature this date in 1942; lowest this date in 1926; maximum rainfall this date 2.25 in 1928.

Talks Continue In Two Aircraft Plants

LOS ANGELES (AP)—Negotiations are continuing in two major segments of the aircraft industry—Lockheed and Douglas—but there is no sign of a break today in the 11-day-old strike that has virtually halted production at North American Aviation plants.

North American produces the Sabre jet and Super Sabre, interceptor and fighter planes for the Air Force at plants in Los Angeles and Fresno, Calif., and Columbus, Ohio.

Fears of a general tieup in the aviation industry were eased still further yesterday when members of the AFL International Association of Machinists turned down the latest offer of Lockheed but voted for a continuation of negotiations while they stay on the job. Last week Douglas workers represented the IAM at Santa Monica did the same thing and those at El Segundo voted to accept a company offer of a 5-cent hourly wage boost.

The IAM at Lockheed seeks a 12 per cent wage boost. The company has offered 5 cents and an additional cent in cost of living. Current wages range from \$1.27 to \$2.61 with about 16 categories. Average wage is \$1.98 1/2.

But although further talks are scheduled at North American, statements by both management and the union indicate no change in their positions.

"We have no intention of offering a single point under strike pressure that we have not already offered in peaceful negotiations," said J. H. Kindelberger, chairman of the board at North American. "We believe that the fantastic demands made by the CIO United Auto Workers would put us in a handicapped competitive position

and unrealistic operating condition. "Instead of yielding to the CIO-UAW demands under strike pressure we will continue to use every lawful means to get the plants back into full production at the earliest possible date."

Paul Schrade president of the UAW Local 887, declared strikers are holding to their demands which include a 26-cent hourly wage boost. The company has offered a 4 per cent boost over wages which have ranged from \$1.42 to \$2.32 hourly.

"Workers are fed up with second class wages and working conditions spooned out by the gold-plated panhandlers doing business by courtesy of the Defense Department," declared Schrade. "As far as the corporation is concerned, when they decide to grant their employees a decent pay and job security enjoyed by other aircraft workers then we'll settle this dispute. Until then progress may be slow."

The union has maintained long, but carefully spaced picket lines as ordered by court injunctions. The next negotiating session is scheduled tomorrow.

Short-Lived Fire Hits GM Plant

DETROIT (AP)—A short-lived but potentially dangerous fire disrupted operations at General Motors' hydraulic transmission division last night.

The blaze broke out in the heat treat department of the division's recently leased quarters in the Kaiser Motor Corp.'s Willow Run plant. It was the second time in three months that fire has struck the GM hydraulic transmission division.

Company officials said the fire started near a number of cyanide tanks in the heat treating department. When streams of cold water from the plant's fire-fighting equipment poured on the tanks, they exploded, spreading flames throughout much of the plant.

A night force of 1,200 workers was sent home, but company officials said the midnight shift reported on schedule.

One person was hospitalized for treatment of smoke inhalation. Three others received first aid treatment for injuries suffered in fighting the blaze.

Less than three months ago, a disastrous fire destroyed GM's transmission plant in Livonia, Mich. Four persons were killed.

Transmission production was transferred to the Kaiser Willow Run plant. The first transmissions rolled off assembly lines there last week.

Missing Sculptures Recovered By Museum

HOUSTON (AP)—The Museum of Fine Arts had its two missing bronze sculptures back today. The statues, on loan from the Brooklyn Museum, were found Saturday night behind a maintenance building in Hermann Park, a few blocks from the museum terrace. They were taken Friday night. A museum guard received a telephone call telling where the statues could be found. He said the call apparently was from a boy.

The sculptures were valued at \$5,300.

Marshall Resting Well

WASHINGTON (AP)—Gen. George C. Marshall, 72, under treatment for an inflamed lung following influenza, was reported "resting very well" last night. The retired soldier-diplomat is a patient at Walter Reed Army Medical Center.

Harassed Motorist

Donald Everett, of Levittown, Pa., symbolizes the typical Philadelphia area motorist as he pauses to wipe snow from windows and headlights of his automobile. Everett's hair also was covered in a few minutes in the first widespread snowstorm of the season. (AP Wirephoto).

NO MARKET Farouk's Floating Palace Up For Sale

By EDWARD POLLACK

CAIRO (AP)—In the market for a yacht?

Ex-King Farouk's floating pleasure palace is up for sale, but nobody can figure out who'd want to buy it.

The ornate ship Mahroussa—it means "Protected"—has been in dry dock since Farouk's exile in 1952. It used to be an ordinary royal yacht. A luxurious to be sure, but nothing extra special. Then Farouk gave it his extravagant touch.

On his orders, the yacht underwent several transformations—at a cost to the state of more than \$2,570,000. Solid gold doorknobs were installed. Suites, living rooms, a music room, ball room and several studios all were furnished with priceless works of art.

Even India's wealthiest maharajah would pause before shelling out to buy the Mahroussa.

Some have suggested Egypt's President Naguib take over the ship as a presidential yacht. But it's far from likely the modest, austere President would even consider the idea.

A plan to use the yacht for luxury cruises by millionaires is under study, but no decision has yet been made.

Meanwhile, maintenance costs are mounting daily.

An accurate estimate of the wealth Farouk left behind when he was exiled has yet to be made. It once was thought his estates in Egypt would amount to more than 28 million dollars. But later government figures show Farouk's confiscated assets, including the Mahroussa, may well run more than 43 million dollars.

Main assets include more than 35,000 acres of Egypt's best land; \$562,520 worth of corporation shares; two large palaces, a number of smaller homes and rest houses; and several seagoing launches and river crafts. A valuable art collection, liberally stocked with nudes, rounds out the list.

The government plans to sell everything at public auctions starting early next year. Some of the proceeds will go to pay Farouk's personal debts and to reimburse those who were forced to make "donations" to the ex-king. The balance, if any, will be used "for the benefit of the people," a government spokesman says.

Texas Cities' Water Supply Replenished

AUSTIN (AP)—Texas cities have reason to rejoice for water supplies replenished by rain in October, the State Water Board said yesterday.

The outlook was brighter everywhere but in the extreme west, the board said.

Squalls that swept the state brought the "most beneficial rains in several years" and greatly alleviated drought conditions in most sections.

Average rainfall for the state was one and one-half times normal. City water supplies improved as small and large reservoirs and rivers caught water. Ground water storage improved in many areas.

The water level rose in observation wells in Comal, Bexar, Atascosa, Medina, Uvalde, Zavala and Galveston counties.

Stream flow was deficient west of the Pecos River and the Canadian River near Amarillo. East Texas streams were near normal. Moderate runoff elsewhere helped city water supplies.

Possum Kingdom Lake on the Brazos held 713,000 acre feet after a gain of 200,000 acre feet to reach its highest level since 1942. Combined storage of Lakes Travis and Buchanan on the Colorado was nine-tenths of usable capacity.

In the Wichita Falls area lakes held about a quarter of a million acre feet, which the Water Board said "was cause for jubilation."

Combined storage in Bridgeport and Eagle Mountain reservoirs increased Fort Worth's supply by 60,000 acre feet. Red Bluff lake on the Pecos picked up 10,000 acre feet after a steady decline. It was the largest gain since December of 1950.

Costa Rica Against Outside Investments

SAN JOSE, Costa Rica (AP)—Jose Figueres, Costa Rica's new American-educated President, has taken office and declared his opposition to "permanent large-scale investment" in this banana-growing Central American republic.

Speaking at inaugural ceremonies yesterday at the National stadium, Figueres said such outside investments constitute "an economic occupation similar in some aspects to military occupation."

Lady Driver Couldn't Let Well Enough Alone

DELAWARE, Ohio (AP)—Mrs. Mildred Louise Buster, 35, of Indianapolis, was insulted yesterday when the highway patrolman suspected she might have been drinking.

He didn't book her for drunken driving when he clocked her car at 70 miles an hour. But he did insist she delay her trip to Cleveland for a while.

Mrs. Buster was indignant. She demanded and got an intoxication test.

Today she's facing a drunk driving charge.

Probers Say \$10-Million Taxes Lost After Officials Intervene

By EDMOND LE BRETON

WASHINGTON (AP)—Congressional investigators say the Treasury lost 10 million dollars less in taxes as a result of cases decided under the Truman administration after top Treasury officials went to bat for taxpayers.

Two former high officials named have denied any improper action.

A House ways and means subcommittee, summing up in a report yesterday if two years' investigative work, said also that a "surprising list" of government officials and private citizens had dealings with Henry W. Grunwald, reputed influence peddler now in jail.

The estimate of revenue loss "in excess of 10 million dollars" was made on six cases. The subcommittee said it received evidence that such officials as former Secretary John W. Snyder and former Under Secretary Edward H. Foley intervened on behalf of taxpayers in various cases of this group.

Two 1948 cases were cited as illustrations:

1. A capital gains tax ruling on insurance received by the Monsanto Chemical Co. on fire destruction of its Texas City, Tex., plant. Former Treasury General Counsel Thomas J. Lynch testified before the committee that Snyder's interest in this case expedited it, but Lynch insisted it was decided on its merits by himself and other technical experts.

2. A capital assets ruling on drug patents which resulted in reduced taxes for a foundation established by William S. Lashon.

The subcommittee said it was handed down after Welburn Mayock, then counsel to the Democratic Committee, discussed the case with Snyder. Snyder has previously said that the case dragged on and at Mayock's request he asked Foley and others for reports on progress, but made it clear "I had no interest whatever in how it was settled." Foley has said he discussed the case with Mayock, but has denied any political interest on his own or Snyder's part.

The subcommittee named former Asst. Revenue Commissioner Daniel Bolich of New York as Grunwald's "chief bureau contact" in most of the tax cases involving him which it investigated.

Bolich is under indictment on income tax evasion charges. The subcommittee said an internal revenue investigation showed his 1946-50 expenditures were at least \$115,000, while his 1945-50 known income was \$52,000.

The subcommittee said former Revenue Commissioner Joseph D. Numan Jr., now also under indictment on tax evasion charges, had unreported income of more than \$161,000.

The congressional group said Grunwald listed a race track betting to account for more than \$395,000 income in seven years, but that it found "a variety of sources of his income, none of which came from betting."

Grunwald, 63, is now serving a 90-day jail sentence. He was cited for contempt of Congress for refusing to answer questions, pleaded guilty and was put on parole, then ordered to jail for violating parole conditions.

The proposal may meet strong opposition. Two regional dairy producer association officials said they would fight the plan. They declined to be identified by name at present.

Four Candidates Vie In Far West House Seat Vote

LOS ANGELES (AP)—Republicans and Democrats, their forces split by two candidates on each ticket, wound up their campaigns today in the 24th District, where the year's final congressional contest will command national attention tomorrow.

To the Republicans the race may mean further jeopardy for their slim House majority. To the Democrats the balloting may mean a crowning triumph for recent victories east of the Mississippi. There are now 215 Republicans and 215 Democrats in the House of Representatives.

The registrar of voters has forecast a 49 per cent ballot—perhaps 66,000 votes—in the special election. In the district there are 81,691 registered Democrats and 75,289 Republicans.

The seat was vacated by a Republican.

The one who gets the highest number of votes will win, even though his total may not represent a majority of the ballots cast.

Candidates are Glenard P. Lipscomb and John L. E. Collier, both Republican state assemblymen; and George Arnold, attorney, and Irving Markheim, veterans' service officer. The Republican party is supporting Lipscomb. Arnold has Democratic party endorsement.

The Republican campaign in Lipscomb's behalf has concentrated on the theme that his election will constitute a vote of confidence in the Eisenhower administration. Lipscomb, an accountant in private life, was executive secretary of Richard Nixon's vice presidential campaign.

Arnold, whose father, Thurman Arnold, was assistant attorney general in the Roosevelt administration, is the son-in-law of columnist Drew Pearson. He has the backing of several labor organizations, as well as his party's support, and he has campaigned in favor of tax reduction, against a national sales tax and against "Communist aggression wherever it occurs."

Milk Producers Go On Inspection Trips

HOUSTON, Nov. 9 (AP)—National Milk Producers Federation delegates inspected farms and ranches near here today. They'll hear Asst. Secretary of Agriculture John Davis tomorrow.

One of the biggest questions before the convention was a proposed "self help" program under which the nation's dairy farmers would relieve the government of the cost of disposal of surplus domestic dairy production.

The proposal may meet strong opposition. Two regional dairy producer association officials said they would fight the plan. They declined to be identified by name at present.

Hoover Jr. Returns

NEW YORK (AP)—Herbert Hoover Jr., State Department consultant on the Anglo-Iranian oil dispute, returned yesterday from London and conferences with British and Iranian officials. He said he is optimistic about an eventual solution to the dispute.

Dean Says We've Lots To Learn About Reds

WASHINGTON (AP)—Maj. Gen. William Dean says the Korean War seems to have given Americans "a bigger comprehension of what communism is, (but) we still have a great deal to learn."

Dean, who spent nearly three years in Communist prisoner camps in Korea, said on an NBC television program yesterday the United States should not seek to persuade prisoners who have elected to stay with the Reds to return home.

"We should tell those individuals what they can expect there but we should not make an emotional appeal for their return," he said. "If we have nothing to offer—let them stay."

Feel Like This After Eating?
(Gas, Heartburn, Acid Stomach?)

TUMS Neutralize Excess Acid Fast
If you suffer from after eating distress, try this top-speed way to relieve gassy fullness and acid indigestion. Just eat 1 or 2 Tums after meals—of whenever over-indigestion makes you feel upset. Tums neutralize excess stomach acid fast. Can't over-alkalize. Always carry Tums in pocket or purse. Guaranteed to contain no soda. Get a roll today!

ADD A ROOM TO YOUR HOME

Making your home large enough for your needs is an easy matter with our add-a-room plans and know-how. Only good quality materials and expert workmanship go into our jobs. Phone us to come to your home with full particulars and prices.

For Comfort and Economy **INSULATE**

For greater home comfort in Winter and Summer and to save money on heating bills, install insulation in the attic of your home. It's easy—it's profitable. Buy it on easy payments.

IDEAL Overhead Garage Door

For Silent, Easy Operation

For appearance, for safety to your car and storage, install an IDEAL overhead door on your garage. Preservative treated, highest quality hardware. Easy payments.

Window Glass
It's time to check windows for cracked and broken panes. Let us replace them.

THE GRUB LINE

With Franklin Reynolds

Col. Jim Kelley, veteran Southwest newspaperman, editor of the Stanton Reporter, and a gentleman who, in his younger days, drank tea made from the roots of the old-fashioned tumble weeds and then tickled his itching feet with tumble weed leaves, now editorially bemoans the Russian invasion that hit this country some 30 years ago.

He refers to the invasion of Russian thistles, hard from observation to distinguish from the old fashioned West Texas tumble weed, and comments that it's sure easy to tell the difference if you start to pick one up. Touch a Russian thistle and you'll get thistled, explains Col. Kelly.

Jim remembers when the Russian thistles first moved in on West Texas. At that time he was living at Hereford. The winds that winter and spring had all been from the west and they had been high and continuous. They brought in the Russian thistle infestation from Arizona and New Mexico, he says. That summer he and his fellow Deaf Smith countians noticed there were an unusually large number of "tumble weeds" dotting the High Plains but they didn't think so much about it until the first freeze broke these things loose and sent them rolling across the prairie to lodge against the fences.

When the cowboys started in to dislodge them with bare hands they noticed the difference for the first time. The Russian thistle had a bite the old tumble weed didn't have.

And Jim says they grew some pretty good size Russian thistles up in that country in those days. He relates how one dark fall day he was driving up the road and saw what he took to be a drunken driver in an unlighted truck coming toward him. Jim pulled over into a ditch to let the truck pass him and when he looked up, lo and behold, it was just a medium size Deaf Smith County Russian thistle. He says men who could brave the thistles used to cut up the stems for stove wood, and some of the main stalks were split into planks for boarding up the sides of shacks.

Now the Stanton newspaperman is wondering about two things—what happened to the big breed of Russian thistles, and what has happened to the old-fashioned tumble weeds that the thistles seem to have crowded from the range as the British bred breeds have crowded out the old Longhorn cattle.

And then Jim went on to tell about the clover invasion of the Panhandle that the ranchers were sure was ruining their ranges and that the farmers were sure was going to ruin their farms.

It seems that the Santa Fe started hauling clover seed through that part of Texas and some of it leaked out of the cars and along the right-of-way. The next spring the railroad was bordered with clover. Along came the winds and in another couple of years there was clover all over that country.

J. C. McAnear, reporter for the

Nothing But Truth, Claims Magazine Under Postal Ban

NEW YORK (AP)—The magazine New World Review says its October issue has been held up by postal authorities for the past two weeks pending an examination of its contents.

The monthly magazine—which says its predecessor was the publication Soviet Russia Today—adds that the Post Office Department says it is objecting under regulations banning matter "advocating or urging treason, insurrection, or forcible resistance to any law of the United States."

In a formal statement, the New World Review said yesterday that it "does not and never has advocated any of these things."

The monthly said it "is devoted to bringing the American people the facts about the Soviet Union, the Chinese Democratic Republic and the Eastern European people's democracies."

FHA Drought Loan Total By Spring Seen At \$52-Million

FORT WORTH, Nov. 9 (AP)—The Farmers Home Administration chief says he believes FHA drought aid loans to Texas ranchers and farmers will total at least \$52 million dollars by spring.

FHA Administrator R. B. McLeish spoke last night on the Republican State Executive Committee's weekly "Report to Texas," broadcast over the Texas State Network.

McLeish said 4,800 Texas farmers and ranchers had borrowed 17 million dollars under the drought relief program and reports indicated another 35 million dollars in loans will be made before winter is over.

This drought loan program, he said, is in addition to other administration steps.

"Feed has been made available at greatly reduced rates," he said. "Hay will soon be available in quantity, freight rates have been lowered, a special credit program has been set up and additional funds appropriated for existing programs."

A well fed riding camel can cover 60 to 70 miles in a day.

Filipino Election Set Tomorrow; Islands Tense

MANILA (AP)—President Elpidio Quirino and challenger Ramon Magsaysay wrapped up their free-swinging campaigns tonight and left it to the voters to decide tomorrow who will be the new chief executive of The Philippines.

Despite military precautions, violence grew in the last tense hours before the polls opened.

Both sides claimed victory—the incumbent Liberal party by 400,000 votes and the opposition Nacionalista-Democratic party coalition by a million to 1 1/2 million votes.

The election board said definite results probably would not be known for three days.

The angry, hot-worded campaign ended in Manila with both candidates home from quick, last-minute trips to the outlying districts.

Quirino returned from the north for a last pre-election broadcast and a rally.

Magsaysay flew back from the south for rallies.

From throughout Manila torchlights flickered in the humid night as parades from various districts converged in the downtown area.

In his prepared radio speech, President Quirino again stressed his charge of American intervention in the election—the issue on which he has based his campaign.

"I cannot and shall never willingly be a party to any plot to revert our country to the ignominious status of a colony of any foreign power," he said.

Both candidates repeated their themes of the campaign.

The aging, frail Quirino called Magsaysay a dangerous political fledgling backed by Americans. He praised his own recent long-range economic and development program.

Quirino laughed off charges of corruption hurled by the bulky Magsaysay, a tough ex-soldier who quit his job as defense secretary with the administration in a bitter argument with the President.

Magsaysay, well known in the islands as the scourge of the Communist led Huk outlaws, drummed repeatedly on the corruption charges.

He said it has caused the United States to lose faith in The Philippines, but denied Quirino's charges that he is an "America's candidate."

Magsaysay's domestic program is based generally on a government cleanup and economic measures aimed at improving the lot of the large farm population.

A huge turnout is expected for the balloting. Officials predicted more than 93 per cent of the 5 1/2 million voters would go to the polls in 28,072 precincts.

Philippine News Service reported three election eve incidents: A jeepload of campaigners was ambushed and one was seriously injured in Quirino's home province of Ilocos Sur.

Just outside Manila in Quezon City, a blast smashed the speakers' stand at an opposition Nacionalista party rally. People stampeded but no one was injured.

On Samar Island, armed terrorists dispersed a political meeting in the Taft Town Plaza.

Highland High School Chapter of the FFA, says his chapter has been organized under the direction of Raymond Holt, adviser, and has its work program outlined.

This is Holt's first year as vocational agriculture instructor at Highland (mail address Roscoe).

Miss Duella Bell Barnes has been elected chapter sweetheart and presented with a sweetheart jacket.

Chapter officers, in addition to McAnear, include, Irwin Blair, president; James Brown, vice president; Joe Roy Alexander, secretary; Eugene Fullwood, treasurer, and John Brasuell, sentinel.

Chapter members have 14 lambs on feed and they plan to show these at Sweetwater in February.

At the Lone Wolf District Leadership Contest held at Colorado City recently, the Highland Junior Farm Skill team won first place and this entitles them to participate in the Area Contests which will be held at the Big Spring High School in December.

The Highland senior skill team placed third, and the Highland radio broadcasting team also placed third in the Colorado City event.

Fred Raney has been re-elected president of the Dawson County Farm Bureau; D. G. Chiles, first vice president; Bill Snellgrove, second vice president; and Herbert Greene, secretary-treasurer.

Delegates to the state convention of the Texas Farm Bureau Federation which convenes at Mineral Wells today, are Raney, Green, Tom Ford, D. L. Adeock Sr., and Sam Allen.

Allen has been at Mineral Wells several days working on the resolutions which will be offered there before being sent on to the national convention of the American Farm Bureau Federation at Chicago next month.

All too often orchards in this country don't get enough attention, Allen says. He, whose farm is located two miles north of Ackery, has applied a thick layer of silage spoilage to his orchard, which will help hold rainfall while also adding nitrogen, organic matter and other materials to the soil.

Many West Texas orchards are piled full of blow sand and the trees have died or are dying.

White takes care of his orchard from most any time a weary traveler can drop in there for a meal and be served fruit canned from that orchard.

He says that some years the frost gets the fruit or a part of it and so calculating on that happening once in a while, in the good years the Whites can enough to tide them over the frost-bitten years.

Because of the great interest shown in Guar by Dawson County farmers, John Esser, manager of the General Mills Guar plant at Kennedy, has accepted an invitation to meet with the Dawson County Farm Bureau, guests and other interested persons, at a date to be announced later.

General Mills buys Guar seed from farmers to be processed in their Kennedy plant.

Elsewhere and otherwise in Dawson County: Eldon Moody's 95 acres of Austrian winter peas have responded well to recent rains, and since Eldon is now drilling an irrigation well the peas have a better chance of making a good crop.

Several farmers drilled hairy vetch in their cotton middles during August and September. On some of these farms a perfect stand was not gotten because the ground dried out before the seed germinated and the farmers were afraid to irrigate for fear of causing their cotton to put on new growth.

But recent rains caused the remaining seed to germinate and perfect stands can now be observed on the farms of Toady Morris, L. E. Jones, D. L. Adeock Jr., E. C. Mahoney and J. H. Jones.

Warning Shot Used To Halt Sports Car

CULVER CITY, Calif. (AP)—A policeman said he had to fire a warning shot to bring actor Steve Cochran's \$6,000 sports car to a halt yesterday. Cochran posted bail of \$325 on booking of reckless driving and evading arrest.

"I just wanted to show my friends how my new sports car would corner," police said Cochran explained.

Officer Roger Deveux said he quoted Cochran as saying, "You never would have caught me if you hadn't shot—that wasn't very fair."

With Cochran were Sue Mortimore, 25, a model, and Air Force Sgt. Ralph S. Hodges, 24.

Doctors Disapprove

CHICAGO (AP)—The American Medical Assn. will drop all cigarette, tobacco and alcoholic beverage advertisements in all of its publications starting Jan. 1, 1954, because "a large number of physicians interviewed expressed their disapproval" of such ads.

Fire Breaks Out On San Diego Hotel Roof

SAN DIEGO, Calif. (AP)—Fire broke out in the Marine Roof Garden on top of the Hotel San Diego last night, forcing 35 persons on the sixth floor to flee their rooms. There were no injuries.

The fire was brought under control in about an hour after virtually destroying the roof garden. Firemen said a smoldering cigarette was believed to have started it.

Improved again!

No. 1 in Texas by a wider margin than ever

A few weeks after the Japanese surrender in World War II, the Humble Company introduced a vastly improved Esso Extra gasoline to Texas motorists.

At that time, the Company promised a policy of continuous improvement: Humble told motorists that Esso Extra would never take second place in quality.

That promise has been kept. Improvement of Esso Extra has been continuous. Statewide, Esso Extra has consistently led other Texas gasolines in quality. Statewide, Esso Extra has been No. 1 in quality every year.

And now, because Texas motorists driving modern automobiles have learned that Esso Extra gives them extra performance, Esso Extra is also No. 1 in sales.

The improvement in the quality of Esso Extra announced by this advertisement is substantial—it is a major improvement. It places Esso Extra far ahead of other gasolines in the qualities that are reflected by performance in your car.

Today, Esso Extra gasoline is No. 1 in Texas by a wider margin than ever before.

Esso Extra gasoline, statewide, has consistently led all other Texas gasolines in quality; now, new improvements have widened the margin between Esso Extra and the rest! Humble Esso Extra has no equal throughout the state of Texas.

Tests prove Esso Extra's superior quality!

There are three qualities of a gasoline that are brought out in the performance of your car. In all these three qualities, Esso Extra leads.

Extensive and continuous laboratory testing of Esso Extra and other gasolines proves Esso Extra's superior qualities, and these laboratory tests have been confirmed by road testing in specially equipped automobiles.

Esso Extra leads in anti-knock performance: In today's automobile engines, with their high compression ratios, anti-knock performance is the most noticeable quality of a good gasoline. There is no substitute for this quality. Only a gasoline with a high octane rating—that is, high anti-knock performance—burns so evenly and completely that it transfers all the usable energy from the gasoline to the pistons. When your car's engine pings or knocks, you're losing power. Esso Extra has the highest anti-knock performance in Texas.

Esso Extra leads in power: High anti-knock performance assures more power. Since Esso Extra has the highest anti-knock performance in Texas, it gives you more power than any other Texas gasoline. This conclusion has been verified by special laboratory testing equipment which actually measures the power delivered by a gasoline burning in an automobile engine. Road tests by both Humble technicians and independent research facilities have confirmed the laboratory tests. Your car will develop extra power when you use Esso Extra.

Esso Extra leads in quick starting: In comparative tests with other gasolines, Esso Extra's quick starting characteristics were rated "Excellent," while those of other popular gasolines ranked from "poor" to merely "adequate." When you use Esso Extra your engine starts at almost the instant you press the starter button. But quick starting is more than a convenience. It saves gasoline, and it prevents gasoline dilution of the crankcase oil. If you use your car mostly for town driving, you will especially appreciate Esso Extra's quick starting qualities.

And for good measure, Esso Extra contains a patented solvent oil: This oil is not a lubricant. Its purpose is to dissolve the gummy substances that collect carbon on top of pistons and under valves, and thus help to prevent carbon deposits in the upper parts of your engine.

See for yourself—test Esso Extra in your own car

Esso Extra will give you the same results obtained by researchers when you test it in your car. Its quality is so superior that you will notice at once that Esso Extra gives you extra quick starting, extra anti-knock performance, extra power.

Make these tests.

First, please, fill your fuel tank with Esso Extra, so that the gasoline you're testing won't be adulterated by a different brand. Then drive your car for eight or ten blocks to use what gasoline is in your fuel line and carburetor. Stop and turn off the ignition.

Now, test Esso Extra's quick starting quality. You'll notice that your engine "catches" quicker than ever before.

Second, after you've shifted to high gear,

slow your car down, then accelerate suddenly. This will demonstrate Esso Extra's extra anti-knock performance.

Third, take your car through traffic. Note how quickly and smoothly it accelerates on Esso Extra—you're away sooner than before. Then drive out on a highway and notice that you can actually feel the extra power that your car has—extra power for present needs, with plenty in reserve for emergencies.

Those three simple tests will convince you that Esso Extra is the best gasoline you've ever used. You'll discover that you enjoy your car more, that it runs better, that you're getting—at last—the performance you expect from a modern automobile. No other gasoline can duplicate Esso Extra's performance in your car, because no other gasoline matches Esso Extra's quality.

Fill up with Improved Esso Extra gasoline at any Humble sign—it's the same extra performance gasoline at every Humble sign.

'Guys And Dolls' Star Has Weight Formula

By LYDIA LANE
HOLLYWOOD — I first met Pamela Britton a number of years ago when she came to Hollywood for a term contract. Now, and for the past two years, "Guys and Dolls" has kept her busy. She has traveled with this show to most cities in America.

When the famous Broadway musical was here recently I had tea with Pamela at the Town House and asked her how she liked touring.
"You get used to being on the go," she said and explained that experience was the great teacher. "You learn to streamline your personal wardrobe and your cosmetics. You choose clothes which require the minimum of care, crease resistant fabrics, and you choose cosmetics which have non-breakable containers and which are adaptable. There is no reason why a good oil can't be used on your face, nails and hair. It may be more luxurious to have something special for different parts of your body, but I am not sure that

Chef's Specialty!

With the current emphasis on style for a purpose, these two aprons will be very much in the limelight! In one pattern, the popular cobbler's style to wear with slacks as well as skirts—and a pocketed party apron, too!
No. 2668 is cut in one size. Cobbler's apron takes 2 1/2 yds. 35-in. Party apron, 1 1/2 yds. 35-in.

Also available — the 1953-1954 ALL-WINTER FASHION BOOK, beautifully illustrated, in color and presenting over one-hundred new fashions to bridge the seasons. Easy-to-make practical pattern designs for every age and type of figure. Order your copy now—the price is only 25 cents.

Juanita Hobbs Weds Robert Milton Lee

Juanita Ann Hobbs, daughter of Mrs. Jewel Riddell, became the bride of Lt. Robert Milton Lee in a candlelight ceremony Saturday night at the Wesley Memorial Methodist Church.

The bridegroom is the son of Mr. and Mrs. R. E. Lee of Fort Worth. The Rev. Marvin E. Fisher, pastor of the church, read the double ring ceremony at 7 p.m.

Two seven-branched candelabra, fern and arrangements of pink and white gladioli decorated the church. Vesta Jean Harrison and Mary John Harrison, cousins of the bride, wearing gowns in tones of pink lit the tapers.

Mrs. H. J. Jarratt accompanied Mrs. Janet McShaw Tinsley of San Angelo, who sang "Because" and "Oh, Promise Me."

Given in marriage by her brother, Johnny Alvin Hobbs Jr., the bride wore a gown of Chantilly lace over nylon net, fashioned with a fitted bodice. Her nylon head-

piece was embroidered with pearls, and she carried a bouquet of French carnations and a yellow-throated orchid on a white ribbon.

Pauline Sheets of Texico, N. M., was maid of honor. Bridesmaids were Beatrice Hobbs, sister of the bride, of Big Spring, Janell Lay of San Angelo and Peggy Bicknell of Kilgore. The bridal attendants were gowned in Chantilly lace over tulle.

Miss Sheets wore blue and carried a bouquet of bronze and yellow mums. Miss Hobbs wore dusty rose, Miss Lay pink and Miss Bicknell bronze. The bridesmaids carried yellow mums.

Lyle B. Pattle of Fort Worth was best man. Ushers were Lt. Donald A. Scott of Boise, Idaho; Warren Johnson of Phoenix, Ariz., and Edward H. McConnell of Big Spring. Belva Hughes, cousin of the bride, was flower girl and carried a basket of white net and satin. Eddie Cole, another cousin, was ring bearer.

A reception was held in the church parlor. The bride's table was centered with an arrangement of white and pink mums. The three-tiered wedding cake was served by Doris Dankworth of Balinger and Mrs. Barbara Ervin.

Mrs. Ervin registered guests. Out-of-town guests included the bridegroom's parents, Alicia Chavez of Fort Stockton, Mr. and Mrs. Richard W. Burford of Lubbock and Mr. and Mrs. Doyle Dunbar of Corpus Christi.

For a wedding trip to New Orleans, La., the bride wore a gray wool-two-piece suit with black accessories. The couple will live in El Paso, where the bridegroom is stationed at Biggs Air Force Base.

The bride was graduated from Big Spring High School and San Angelo Junior College. She completed nursing training at Shannon School of Nursing in San Angelo and has been employed by the Medical Arts Clinic-Hospital.

The bridegroom was graduated from Arlington Heights High School in Fort Worth and attended Texas Tech.

Powder Horn Illustrates Talk At Club

An old powder horn carried in the Battle of Bunker Hill illustrated the talk Mrs. H. C. Stipp gave at the 1950 Hyperion Club Saturday in the home of Mrs. Horace Garrett. Mrs. H. G. Keaton was co-hostess.

Mrs. Stipp spoke on "Our Historical Heritage." She also showed an original deed to land acquired when the Oklahoma Territory was opened up and pioneers "ran the strip."

Her talk was part of the club's year-long emphasis on "Our American Heritage."
Mrs. Elmo Wasson, city federation representative, asked members to sell subscriptions to "The Reader's Digest" to raise money for a federation clubhouse.

Mrs. Roy C. Sloan, Mrs. Mickey Butts and Mrs. Vic Alexander were welcomed as new members. Mrs. Jim Carter of Odessa was a visitor.

HD Club Discusses Floor Coverings

Floors and floor coverings was the program topic at the meeting of the Vealmoor Home Demonstration Club in the home of Mrs. Gene McClaugherty.

Mrs. W. O. Cox and Mrs. McClaugherty gave the program. Roll was answered with ideas for easy desserts. Mrs. Olga Clem won the white elephant prize. The next meeting will be in the home of Mrs. Carl McKee Nov. 20. Ten attended.

Washington P-TA

The Washington Place P-TA will have a panel discussion on "Education for What" at a meeting tonight at 7:30 p.m. at the school. An executive board meeting will be at 7 p.m.

Kiwanee Queens

Kiwanee Queens will meet Thursday at noon for a luncheon at Carlos Cafe. Canasta and bridge will follow in the home of Mrs. Bob Heine, 702 Birdwell.

Twin Dolls

By CAROL CURTIS
Regular "dude" ranch folks are — brother and sister dolls, 13 1/2 inches tall, dressed for a life on the western range! Blue denim skirt and trousers, felt boots, bright red 'neckerchief, yellow felt hair, pink cotton bodies, bright pleated features embroidered on the chubby young faces, the dolls are easy and inexpensive to make.

Send 25 cents for the Brother and Sister Dolls (Pattern No. 326) complete pattern chart, actual size for embroidering features, all sewing and finishing instructions. YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS

Big Spring Herald Box 229, Madison Square Station New York 10, N. Y. Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

THIS IS GOOD EATING

NUTMEG SQUASH

Ingredients: 2 cups hot cooked mashed yellow squash, 2 tablespoons butter or margarine, 1/4 teaspoon salt, 1/4 teaspoon ground black pepper, 1/4 teaspoon ground nutmeg, 2 tablespoons fresh lemon juice.

Method: Have squash in saucepan over low heat. Add butter, salt, pepper, nutmeg and lemon juice; beat with spoon until butter

melts and squash is very hot. Makes 4 to 6 servings. Your family will love this served with the menu below.

- Meat Loaf
- Baked Potatoes
- Green Peas
- Nutmeg Squash
- Bread and Butter
- Cottage Pudding
- Beverage

(Clip this for future use. It may conveniently be pasted on a recipe file card.)

Exotic Fare Served In Washington

By JANE EADS

WASHINGTON — You may not know what you're eating, much less how to pronounce it, but the exotic fare served at dinner tables and party buffets around town leave no unmet appetites for those who pass up dinner at home and try the "free-loading" technique.

You're likely to find whole steak at the Finnish legation, curry at the Indian Embassy, caviar at the Russian or kangaroo at the Australian.

Here's a sample of the luncheons Mme. Koo, wife of the Chinese ambassador gives:

A first course of shredded chicken, pork and radishes in sweet and sour sauce and deviled eggs; then chicken broth with floating spinach leaves and bits of cooked egg white; friu shrimp, pork tidbits, mushrooms and bean curd cakes and small meatballs; a serving of herb-flavored roast duck with hot wilted lettuce; a dessert of crushed dates with a ginger sauce, and almond custard squares.

Attractive Yvonne Abdy, talented musician daughter of an Australian movie actor and producer, who is a member of the Indian Embassy staff, peeps up the taste buds of her guests with a sumptuous cake soaked in Scotch.

At the huge Indonesian Embassy, once the home of Thomas F. Walsh, "Father Struck It Rich"

papa of the late socialite Evalyn Wash McLean, they serve highly seasoned Eastern dishes of chicken and rice, beef and hot peppers, bamboo sprouts with salmon colored peanut sauce and cakes of honey and nuts. Such were the delicacies to grace the reception given for the new U. S. ambassador to Indonesia, Hugh S. Cumming and his wife.

Cumming, who served as deputy Secretary General of the North Atlantic Treaty Organization (NATO) in Paris after two years with the American Embassy in Moscow, is the son of the late Dr. Hugh S. Cumming, former surgeon general of the U. S. Public Health Service. Mrs. Cumming is the daughter of a Washington "cavewelder" socialite, Mrs. Frank West.

Jolene Meek Is Feted At Shower

Jolene Meek was honored at a shower Sunday in the home of Mrs. Oscar Glickman, 700 Washington Pl.

The table was centered with red berries and ivy and laid with a brown cloth. Appointments were in silver. About 52 attended.

North Ward P-TA

Pauline Talton's fifth grade class will be in charge of the program at the North Ward P-TA meeting Tuesday at 3:30 p.m. at the school. The class represented by the largest number of mothers will be presented a banner.

Mary Margaret McBRIDE SAYS

It's never happened before and probably it never will again, but I've just had a really lovely time at a Broadway First Night. The reason was a woman named Mary Bradley.

Mostly I loathe First Nights because I feel so drab and unsure of myself amid the slabs and ermine, diamonds and emeralds, snobbery and arrogance that invariably accompany the presentation of a new play to New York's most sophisticated audience.

They were all there, too—the men and women who have let a little success or money swell them up like puff adders, critics with sharpened weapons, Hollywood and Society preening and posturing, celebrity-hunters pecking and pestering. It's the very setup that always depresses me. But this time there was Mary for an antidote.

I went to school with Mary Quayle in Missouri. She came from Moberly, population 13,000, and I from Paris, population 1,500. Most of the girls at our co-educational college played the field when it came to boys but Mary stuck to one beau, a tall, quiet-mannered young man who was a West Point cadet. His name was Omar Bradley and when they finished school they got married as they'd apparently known since they were 14 they would do.

I lost track of Mary for awhile and then there she was at West Point and her husband had become one of the most famous of all the generals in the second World War. Since then Mary and Omar have seen a good part of the globe, met most of the people worth meeting, had honors heaped upon them, been sought after and fawned upon. You'd certainly think by this time Mary would be just another base cosmopolitan in a first night audience. That's why it was so wonderful to see her, enjoying herself as excitedly and eagerly as if she'd just come on from Moberly, for her first visit to the big city.

A friend was pointing out all the sights—Frankie, Marlene, George Jessel, a plutocratic playboy—and Mary was staring unashamed, so thrilled she could hardly speak. She didn't feel drab nor inferior among the slabs, emeralds and preening. You could tell that she was having such fun she wasn't thinking of herself at all. I felt a glow of pride for Missouri as I watched and found myself saying, "She hasn't changed a bit." For that matter, neither has Omar Bradley.

I remember when he first came back from the war, sought-after hero and multi-starred general. Our radio station was started to find the two Bradleys standing quietly and as a matter of course in the line that was waiting to get into my broadcast. It had never occurred to either of them to ask for special favors.

It's just wonderful to me to find two people whom no honors, no elevations can spoil. I like to think that the Middle West has something to do with it, but maybe I'm prejudiced.

I'VE GOT TO FIND A REAL GOOD HIDING PLACE FOR THIS SIX DOLLARS I HAD LEFT OVER THIS WEEK.

NOBODY WILL FIND IT IN A MILLION YEARS, STUCK UP HERE BEHIND THIS LOOSE WALL BOARD.

LOOK, DAGWOOD, I'VE FOUND SIX DOLLARS BEHIND A LOOSE WALL BOARD.

HOW DID YOU FIND IT SO QUICKLY?

THAT'S WHERE I HIDE MY OWN MONEY.

ANNIE ROONEY

HONEST, MR. COBB— THAT DARTY MRS. MODELY GAVE FOR YOU YESTERDAY WAS JUST LIKE THE PARTIES MILLIONAIRES HAVE IN A MOVIE PICTURE WHEN A KING COMES TO VISIT THEM.

MOLLY MODELY IS A WONDERFUL LADY WITH LOTS OF FRIENDS— THAT WAS ONE OF HER FANCY PARTIES— WHAT MAKES ME LOVE HER, IS HER ME LOVES HER— POOR PARTIES—

SHE GIVES WHAT YOU CALL A FANCY PARTY ONCE A YEAR— BUT DAY IN AND DAY OUT SHE IS GIVING SOME POOR DARTY WHO IS IN NEED OF HELP A NADDY SURPRISE PARTY—

GOLLY— YOU MEAN THE "POOR PARTY" IS POOR PEOPLE— ANYBODY WHO AINT GOT ANY MONEY— NO FOOD, NO FRIENDS— GEE— AINT SHE GRAND?!

SNUFFY SMITH

I RECKON YO'RE RIGHT, SILAS.

BUT JEST THINK HOW MANY FOLKS WOULD SWARM INTO HOOTIN' HOLLER AN' ALL THE MONEY THEY'D SPEND— AN' YE GOT T' ONLY STORE IN TOWN, SILAS— HOWSOEVER, I'LL CALL OFF T' DURR TRIAL.

HAVE A SEEGAR, JUDGE!! UH—HOW LONG DO YE S'POSE T' TRIAL COULD BE DRUG OUT?

GRANDMA

YEAH, I TRY AN' BAKE CAKES FOR T' KIDS T' FIT THEIR ACTIONS!

I BAKE 'EM GINGERBREAD IF THEY'RE FULL O' PEP...

...ANGEL FOOD WHEN THEY'RE GOOD...

...BUT RIGHT NOW I'M MIGHTY TIRED O' BAKIN' DEVIL'S FOOD CAKE!!

LITTLE SPORT

BANG! BANG!

BANG! BANG!

BANG! BANG!

SCORCHY SMITH

KAR BEHIND IN THE RACE, SCORCHY CHECKS HIS MOTOR AND FINDS A BROKEN FUEL LINE WHICH THREATENS TO EXPLODE—

I—GOTTA (COUGH) FIX THIS— BEFORE IT—BLOWS!

I—HOPE THIS— GASP—HOLDS UP— GOT TO GET BACK IN— TO THE RACE!

I'VE GOT AS MUCH CHANCE OF WINNING (COUGH) AS A SNOW-BALL IN A BLAST FURNACE!

(CHOKES) BETTER CHECK IN AND TELL THEM I'M OUT— WAIT! THE SECRET ACCELERATOR!

OAKY DOAKS

I WUZ JEST TAKIN' A LITTLE SPIN ON ME BROOM WHEN I SAW IT COMIN'!

YOU MEAN THE FALLIN' STAR?

I AIN'T SURE IT WUZ A FALLIN' STAR!

BUT IT JUST MISSED US!

AND IT FELL INTO THE LAKE!

SEE WOT IT DID TO MY BROOM! AN' I JEST BOUGHT IT YESTIDDY!

IT'S GITTIN' SO'S THE SKY AIN'T SAFE NO MORE!

THINK IT OVER!
Many years ago John Ruskin said: "It is unwise to pay too much, but it is worse to pay too little." When you pay too much you stand to lose a little money. When you pay too little you may lose everything because that which you bought is incapable of doing that which it was bought to do.

- 1951 CADILLAC '63' 4-door Sedan. A one owner car that's really ready. More beauty, comfort and service still left here than can be found in 95% of the new cars being sold today. **\$2695**

Calf's Stomach Yields \$850

Bank officials Hazel Martin and C. O. Webb (left photo) count \$850 found in the stomach of a calf belonging to W. G. Dinsmore (right photo), shown examining another calf that swallowed the remainder of the missing \$890, lost by Dinsmore on his farm near Roswell, Ga. He shot one calf and found nothing but grass inside. He shot another calf and recovered the \$850. He suspects the remainder of the money was eaten by the third calf, but did not kill it because he felt the calf was worth that. (AP Wirephoto).

Kemal Ataturk Singlehandedly Made Great Changes In Turkey

By FRED ZUSY
ANKARA, Turkey, Nov. 9 (AP)—Kemal Ataturk, hard-living, hard-drinking dictator, was right at home in the era of Hitler and Mussolini. But his aim was freedom, not slavery.
From 1920 to his death in 1938, Ataturk wrought a great revolution in Turkey. He fought everything from Islam to the Arabic alphabet to make his country modern, strong and democratic.
On the 15th anniversary of his death Tuesday, Turkey will enshrine Ataturk, its greatest hero in one of the world's most magnificent tombs.
Under construction for nine years and costing more than 12 million dollars, the tomb is a massive, square-pillared structure of native yellow kaysir stone. It stands atop a hill overlooking the capital city Ataturk ordered built on marshes once infested with malarial mosquitoes. Wide boulevards and new public buildings make it one of the world's most modern capitals.
A 300-yard long, tree-lined terrace surrounds the tomb which fronts on a great public square the size of two football fields. Thousands will jam this square Tuesday when Ataturk's body is moved from its temporary crypt.
Thronges of dignitaries will accompany the casket, traveling the four miles between tombs on foot. The ceremonies will include full military honors for the man who built the modern army which freed Turkish soil of foreign occupation forces in the 20's.
Ataturk threw out the last of the Ottoman sultans, abolished the Moslem caliphate, banned the fez and the veil, replaced the old Arabic script with a new Latin alphabet and substituted Western legal codes for the ancient law of the Koran. His drastic reforms paved the way for Turkey to assume the important role she plays today as Middle Eastern anchor of free world defense against Communism.
Ironically, Ataturk made his first international gestures of friendship not to the West but to the Russians. A Russian-Turkish friendship pact signed in March 1921 was the first formal foreign recognition either government had. Russia supplied Ataturk's armies with arms, ammunition and economic aid in his fight against British, Italian, Greek and French forces occupying Turkey after World War I.
But as Ataturk grew stronger, Turkish-Russian relations grew

Man Sinks To Death On Mud Island

HOUSTON (AP)—A Green's Bayou man, buried in mud to his neck, died on a tiny island near Morgan's Point early today.
His bride of less than a week and two other companions were rescued by the Coast Guard and an Air Force helicopter.
The tragedy ended a shivering night on the mud flat known as Atkinson Island off the Houston ship channel.
The Coast Guard officials said the small out-board craft occupied by the party "was probably blown on the island by strong winds Sunday afternoon."
The two married couples had "gone fishing or duck hunting; we don't know yet," the Coast Guard said.
The victim was W. T. Lee Jr., 23, of Greens Bayou. His widow, Mrs. Joyce Lee, 18, was one of the three rescued. She is in Baytown's hospital suffering back shock and exposure.
The other woman was identified as "Marie", a sister of Mrs. Lee. Her husband is known as "Blue."
Mrs. Lee's sister, mired in the mud up to her neck, was pulled out by the Air Force's helicopter. A hook was dropped down, fastened to a buckle and strap fastened under her arm pits and she was pulled up by the helicopter. Coast Guardsmen worked in mud to make the rescue.
Atkinson Isle is a mile below Morgan's Point. The Coast Guard said it is "an island of mud which is completely under water at high tide and soft and dangerous during low tide."
The Galveston Coast Guard operations officer, Lt. F. H. Schone, said "that mud is so soft that it won't hold a person's weight."
He said the party probably was blown on the mud flat by Sunday night's strong winds.
"They probably got out of their boats, attempted to walk on the ooze and sank quickly," he said.

Farm Meet Delegates Are Split Over Benson

By BRUCE HENDERSON
MINERAL WELLS (AP)—More than 1,000 Texas farmers and ranchers met today, many openly dismayed with sagging prices and Secretary of Agriculture Benson.
Others said give Benson "a chance" to come up with a workable farm program.
Pressing national problems such as falling prices, acreage allotments, cattle price supports over-shadowed state issues and even drought talk as the three-day Texas Farm Bureau Federation annual meeting started.
The bureau represents 50,000 rural Texas families and calls itself the biggest agricultural group in the state.
"Benson is a big man's politician," snapped Ruel Alexander of Dodson when asked his opinion of Benson.
"We've got to get him out of there," said Lee Pating of Williamson County.
Federation President Walter Hammond of Tye said:
"I don't think the members as a whole are overly upset about Benson. They're willing to give him an opportunity to make good."
Widespread concern showed up yesterday when a deluge of more than 1,000 "grass roots" ideas on farm problems forced the resolutions committee into extra session.
Committee Chairman J. H. West of Bishop said it was a record number of suggestions from the 183 counties with federation members.
Each year the counties send in resolutions, sifted by the committee and presented for adoption as policy for the new year.
The resolutions committee worked until the early this morning getting the tentative program into shape.
Virgen Blessen of Amarillo said he had submitted a resolution from Potter County urging that the Livestock Sanitary Commission be changed to include what Blessen called "A more representative group."
Blessen said the commission is composed mostly of beef cattle raisers. He said the commission should be representative of beef, dairy cattle, poultry and hog producers plus one veterinarian.
H. H. Hogue of Dalhart said Dallam and Hartley counties had endorsed his resolution outlining "the Hogue plan," a new farm program which he has discussed with Benson and President Eisenhower.
The plan proposes the creation of an agriculture commission with a basic duty of establishing "fair prices" for various agriculture products.

Contesting Lone Star Young Demo Groups To Clash

By DAVE CHEAVENS
AUSTIN (AP)—Two feuding factions of Young Democrats head for St. Paul this week to put another Texas political fess in the national spotlight.
It's really a playback of a long-familiar record: Opposing groups battling for control, each claiming the Democratic label and political legitimacy.
This ruckus was handed over to the national Young Democratic organization formally yesterday when the executive committee of a recently-held Young Democratic convention at San Antonio named delegates to the Nov. 12-15 national session.
Last week at Fort Worth, leaders of the Young Democratic organization that has been inactive at least since 1951, named a rival slate of delegates to go to St. Paul.
Heading the delegation named here and authorized by the San Antonio session is President Bill McKnight of Dallas, with Joan Hockett of Houston, Roscoe Martin of Austin, Sturge Steiner of San Antonio and six others to be selected.
From the rival meeting held last week at Fort Worth delegates named were state Rep. Joe Pyle of Fort Worth, Max Triplett of Hillsboro, Mrs. Polly Ferrell of Houston, Frank Oltorf of Marlin, Claude Fleet of Fort Worth and Maynard Herbert of Corpus Christi.
Triplett claims he is the last legally-constituted president of the Young Democrats in Texas. He was elected in 1949. McKnight and his rival organization say that the Triplett group let the Young Democratic statewide organization die and didn't seem to care until just recently.
Actually the Young Democrat fess is something of a preview of the fight for control of the senior party in 1954.
The conservative Democrat state organization under leadership of Gov. Shivers and state Executive Committee Chairman Wallace Savage of Dallas has endorsed the Pyle-Triplett group. Joining with them is Hilda Welner of Seguin, Democratic national committee woman.
Shivers and Savage were active Eisenhower supporters last year. Mrs. Welner backed Adlai Stevenson.
The San Antonio convention-McKnight group has generally been credited with backing from state leaders for Stevenson in last year's presidential campaign. Foes of Shivers have been among its behind-the-scenes movers. This faction is hoping Rep. Sam Rayburn, who spearheaded Texas funds for Stevenson, will speak a kindly word for them at St. Paul.
At yesterday's executive committee meeting here, charges that the San Antonio meeting were hasty and semi-secret were denied.
McKnight said that Triplett and other leaders of the inactive Young Democratic group had been informed many months ago of the planned reorganization, and said they were not interested.

Water Line Is Relocated Near Filtration Plant

A large 20-inch water line is being relocated at 16th and Virginia Streets in connection with the enlargement of the city filtration plant.
The line is being moved from filtration plant property on the south-east corner of the intersection to a position under 16th Street. This will make way for the construction of a half million gallon water storage tank on the city property. It was announced by City Manager H. W. Whitney.
The water line now leads from the filtration plant and goes across the site where the water storage tank will be located. Both 16th and Virginia Streets have been blocked off for the change.
Whitney said the relocation might make some difference in the water pressure in the area served by the line for the next few days. The changeover accounts for the Washington Place area at various times lately.
A 12-inch water line is also being lowered on Lancaster between 9th and 11th Streets. This project is to clear the paving grade for the street. Whitney said other lines would probably have to be lowered as the paving program progresses.
A satisfactory progress report was issued by the city manager in connection with the filtration plant enlargement. He said the Kasch and Sons, contractors, are now doing excavation work. All the brick necessary for plant enlargement is on hand along with most of the steel and some pipe and fittings.
The firm has 275 working days to complete the enlargement, and starting date was Sept. 18. Whitney estimates completion in early July.

Sale Of Poppies Shows Increase

Mrs. Culin Grigby expressed thanks Monday for the good public response to Poppy Day sponsored here Saturday by the American Legion Auxiliary.
Initial count indicated sales of poppies totalling \$532.28. This was slightly more than receipts for last year.
There was far greater response by the public this year, but the average gift was down.
"We had less poppies left this year than before," said Mrs. Grigby, the auxiliary Poppy Day chairman. "We are grateful for every person who expressed his appreciation for the sacrifices of veterans by purchase of a poppy. We are thankful, too, for all the junior high girls in selling the poppies. The members of the auxiliary of the Negro Legion post and their Girl Scout troop did a fine job."
Proceeds from the sale are used to finance rehabilitation and welfare work for veterans and their families. Most of the funds go for financing the auxiliary's volunteer work at the Veteran Administration Hospital.

Three Committees To Meet At C-C

Three Chamber of Commerce committee meetings have been slated this week.
First session will be that of the Special Events Committee at 10:30 a.m. Tuesday, Wednesday at 10:30 a.m. The Publicity Committee will meet, and Thursday at 5 p.m. an Infantile Paralysis Committee session has been called.
All meetings will be in the new Chamber of Commerce conference room in the Permian Building.
Manager Jimmie Greene said more committee meetings will be slated toward the end of the year.
All meetings will be in the new Chamber of Commerce conference room in the Permian Building.
Manager Jimmie Greene said more committee meetings will be slated toward the end of the year.
All meetings will be in the new Chamber of Commerce conference room in the Permian Building.

Bracero Fees Are Drastically Reduced

WASHINGTON (AP)—Fees for contracting Mexican farm workers brought into the United States under the migrant labor agreement have been drastically reduced.
The reductions were announced yesterday by Secretary of Labor James Mitchell. He said the new fees are lower than government costs in bringing the braceros but that the former fees were so high a surplus had built up.
The fee charged for initial contracting of Mexican workers and bringing them into the U.S. was lowered from \$11 to \$6. The fee for re-contracting workers finishing a contract for one employer and contracted for by another employer was reduced from \$5.50 to \$2.
It was the second cut this year in the fees. Earlier they were \$15 and \$7.50 respectively.
Mitchell said the fees may have to be raised later, if reserves are depleted.

Local Man Fined At Garden City

GARDEN CITY — A Big Spring man was fined a total of \$56 following his arrest Thursday night at Bigby Corner.
He pleaded guilty in Justice Court to charges of drunkenness, defacing and mutilating public property and indecent exposure. Officers said the man "almost wrecked" the Bigby cafe.
The tanker situation in the United States merchant fleet has concerned government leaders, Murray told the oil men, and a trade in and build program for tanker operation has been proposed to Congress.

Mossadegh Warns Tribunal He Might Boycott His Trial

TEHRAN, Iran (AP)—Angry executor Mohammed Mossadegh, challenging the competence of a military tribunal to try him as a traitor, today threatened to commit suicide, fired his lawyer and warned the court he might boycott future sessions.
Clad in his customary pajamas, the 73-year-old former Premier told the court he would not appear any sentence it might mete out.
"I will not accept any forgiveness. I will stay in this prison until I die. If you release me, I will commit suicide as soon as I get hold of the means," he shouted.
"I am not going to attend the coming sessions even if you cut off my head," he declared at the climax of a heated argument with Gen. Nasrollah Moghbell, chairman of the five-man tribunal.
It was the second day of the trial for his life. As he did on the first day, he wept, panted, pounded the table and gesticulated. He made fiery speeches against the British, whom he had fought to a deadlock over this nation's vast oil riches.
At both sessions, Mossadegh declared the military court was not competent to try him on charges he tried to overthrow the monarchy, defied the Shah and illegally dissolved the Majlis (lower house of Parliament). And at each, he used the old argument—the British were the cause of Iran's woes—that once had brought him unprecedented power until his overthrow and subsequent arrest after a bloody Aug. 19 coup led by supporters of the Shah.
Today's session got off to a start a half-hour late because of the ailing defendant's failure to appear on time. He started out by declaring he would not appear this court's sentence, which could be death by hanging.
"And if the Shah-in-Shah pardons me I will not accept it," he declared, adding sharply, "Forgiveness is for traitors."
As on the first day, the ex-premier stumbled and staggered into the courtroom, weaving his close-cropped head from side to side. Court officers escorting him had all they could do to keep him from falling in a heap.

Gamma Globulin Shots Might Have Stopped Paralytic Polio

ATLANTA (U)—Gamma globulin, first used widely last summer in an attempt to ward off the crippling effects of polio, may actually have prevented some persons from developing paralytic polio at all.

Some scientists at work on a nationwide survey to measure the effectiveness of GG think as many as 800 cases may have been prevented—but they don't expect to be able to prove it.

However, said Dr. Alexander D. Langmuir, one of the key specialists in the survey: "We confidently expect that the survey will give the first conclusive answer to the question whether or not gamma globulin, if given in the week just before a person comes down with a paralytic attack of polio, actually modifies the paralysis."

If it were established that GG can prevent crippling, he said, "it would be extremely important from the public health standpoint—almost as important, in fact, as actually preventing paralytic polio."

The Public Health Service's communicable disease center in

Atlanta, headquarters of the evaluation work, hopes for other important findings also when information is collected about GG injections given 185,000 children in 23 epidemic areas.

Langmuir said the survey is expected to:

1. Point to leads that might suggest improved methods for preventing polio epidemics in specific areas.
2. Provide some indication whether it is possible "to set up a program of mass immunization with gamma globulin in a given epidemic area in time to be effective."
3. Determine the value of giving GG to household and other contacts of established polio cases.
4. Provide guidance in allocating and distributing GG for various uses.
5. Furnish the largest body of consistently collected, standardized records ever obtained on polio.

Some of the handicaps scientists face in drawing conclusions about GG's performance during this year's polio season, Langmuir said in an interview, are:

1. Necessarily, the blood derivative was used under field circumstances rather than the previous carefully controlled laboratory conditions.
2. The disease itself behaves so unpredictably it is hard to tell whether a dip in the number of cases, recorded during the season,

might not have occurred anyway.

Last April and May, at the beginning of the polio season, weekly totals were running ahead of comparable weeks in 1952—and because 1952 was a record year, some health officials voiced concern. But, during June and July, the weekly totals were running about equal to last year's, and thereafter they rapidly fell below. The peak of this year's outbreak was reached in mid-August, about a month earlier than in 1952.

At the time of the peak this year, there had been a total of 15,978 cases, compared with 19,830 through mid-August in 1952. Latest available figures show a total of 30,730 cases as of Oct. 31, compared with 50,249 for that span in 1952.

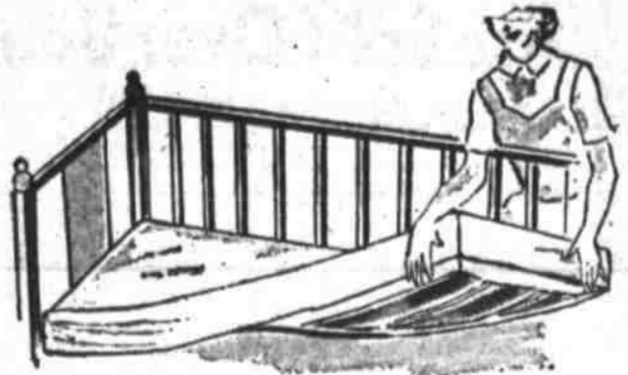

He cited another possible indication—in general, where mass shots of GG were administered to children, subsequent cases developed in greater proportion among older persons. But, he said, such a shift had occasionally been observed during epidemics before the days of GG.

Here's how the researchers expect to get conclusive evidence on whether GG actually lessens a paralytic attack:

Experts on evaluating the power and functions of muscles are studying a number of people who came down with a paralytic attack within a week after receiving GG in mass injection programs. These same people are being examined 60 days later to see if the paralysis lessened in the meantime.

These cases are then being compared under similar circumstances of study with people who came down with paralytic polio just before GG was administered.

"One thing is certain," he said, "Gamma globulin is not the answer to the polio problem, it is at best only an interim measure."

Vanta Knit Crib Sheet . . . of fine combed cotton fits standard size crib mattress (27"x52"). Elastized end and mitered corners allow ease of change and assure freedom from wrinkles. Guaranteed by Good Housekeeping . . . white, pink, mint, blue or yellow. **2.35**

Howard Hughes Sells RKO Theatres Shares

CHICAGO (U)—Howard Hughes, industrialist and movie producer, has sold out his holdings in RKO Theatres Corp. for more than \$4,400,000.

The sale of Hughes' 929,000 shares of RKO stock to a group headed by David J. Greene, New York investment counselor, was announced here yesterday. The price was \$4.75 a share.

GOP Solon Urges Manufacturer's Levy

LASALLE, Ill. (U)—Rep. Mason (R-Ill.) plans to propose a 5 per cent federal manufacturers' excise tax to replace what he calls the present "hodge-podge system of excise taxes."

In a radio speech yesterday, Mason said he would introduce a measure when Congress reconvenes in January proposing to levy such a tax on all manufactured products except food and medicine, and to repeal all federal excise taxes except those on liquor and tobacco.

BEAUTIFUL CHRYSLER FOR '54

INTRODUCES

POWERFLITE

... the most automatic of all no-clutch transmissions today
... the better, safer way to drive without strain, without tension, without shifting!

PowerFlite frees your hand, foot, and mind completely from all gear-shifting work . . . frees you from all strain and tension. Here is new ability to pass a car more safely, and in less time and distance. Here is a new gift in safety and unflustered ease when you're caught in the downtown traffic snarl. Here is the newest in Chrysler engineering . . . that masters steepest grades without asking a thing of you . . . that gives you new surety of escape from mud, sand, and snow . . . that's so simply and sturdily built that it's by far the easiest of all to service. One trial will show you Chrysler PowerFlite is the finest and most automatic transmission ever built!

... that masters steepest grades without asking a thing of you . . . that gives you new surety of escape from mud, sand, and snow . . . that's so simply and sturdily built that it's by far the easiest of all to service. One trial will show you Chrysler PowerFlite is the finest and most automatic transmission ever built!

Come see and try All the great New Chrysler features!
Now, for the first time in any car, you enjoy Complete Driver Control . . . yours in the Imperial and New Yorker FirstPower V-8's with 235 or 195 H.P.—or in the Windsor Deluxe with the world-famous Splitfire engine! Yours with new Full-time Power Steering . . . new Power Brakes . . . new Electric Window Lifts . . . new Chrysler Airtemp Air-Conditioning . . . and stunning new beauty that says you drive the leader!

"The Power of Leadership is yours in a Chrysler"
