Gruver Man Dies After Wreck Injuries

A Gruver man died at 4:20 a.m. Wednesday in Northwest Texas Hospital of injuries received in a pick-up truck ac-cident 2,5 miles west of Gru-

ver Sunday morning. Clarence Hall, 43, a farm worker, was injured when the pick-up he was driving went off the road and struck a culvert.

Investigating officers said the back wheels were knocked from under the pick-up when it hit the culvert. The truck went across the highway and came to rest in a field. Mr. Hall was thrown from

Mr. Hall was thrown from the truck in the accident. Officers said he was brought to his home in Gruver by a passing motorist, then he was brought to Hansford Hospital and later transferred to Northwest Texas Hospital in Amarillo.

His body was taken to Blackburn-Shaw Funeral Home in Amarillo and then taken to Elk City, Okla., Wednesday for services.

When the doctor put Burl on a 1200 calorie diet a week or two ago, he just about ruined December for me. Oh not really, but ago, he just about runed becember for me. On not really, but I do usually enjoy baking cookies, making candy and always a fruitcake or two before Christmas. This year I'm limited to ce-lery and carrot sticks because you and I both know there are 1200 calories in just the tiniest sample of any Christmas goodie worth the trouble of making.

Maybe I'm not the only one who isn't going to be doing any Christmas cooking this year though. I'm just judging by the re-sponse I've had to last week's request for holiday recipes for a December issue of The Plainsman.

Not a single, solitary recipe has been submitted yet, but now that December is here surely some of you will be kind enough to share a recipe or two with us. Or maybe you didn't like the idea? ...

I hanksgiving morning was rather eventful at our house. 1 couldn't believe my ears when Burl answered the phone and ex-claimed over and over "Oh no . . not Jean . . . how awful . . not really . . . how did it happen . . . well, we'll be right down to the hospital!"

By this time my dad and I were so curious we couldn't stand it. Finally, after he hung up and related the story of how one of our twin nieces had fallen down the stairs and broken her leg, I still couldn't believe it. My first reaction was "Not Jim's little baby Jean?

At first I think Jan wanted her leg in a cast too. Now though, she seems to be thoroughly enjoying some adventures all by her-self while Jean can't get around yet very well.

One of the proudest grandmothers I've seen in a long time is Holly Riley. You know Barton and Jo Riley have a baby son born Nov. 20 in Amarillo. He weighed 10 lbs. 9 ozs. and they're go-ing to call him Ron, his name is Ronald Barton.

Cut Unnecessary Spending Except That Affecting Me

I favor Motherhood and am against sin! That is about the extent of the stand that many of us take on vitual issues.

I favor government spending as long as the "gravy" is coming my way, but I am against all the other types of spending. Rates Reduced by General On Long Distance Calls

Christmas List.

Reduced long distance rates for most station-to-station calls within Texas will become effective Jan. 1 for

customers of General Telephone Company of the South-west, Southwestern States Telephone and Four States Telephone Companies, accord-ing to E.H. Danner, president of the three companies. State-wide reductions on three minute calls vary from five to fifteen cents on most station-to-station calls over 56 miles in distance within Texas. Reductions for calls over three minutes are even greater, according to Danner. The reductions apply to calls made during the time when

"day rates" are in effect as well as to all intrastate (within Texas) station-to-station calls made during the "night rate" hours after 8 p.m. and

rate" hours after 8 p.m. and all day Sunday. The new tariffs reflecting the reduced rates will be dis-tributed to all offices handling long distance calls at the ear-liest possible date, Danner states.

Saturday evening dinner guests of Mr. and Mrs. Jack Oakes and children were Mr. and Mrs. Bob Fletcher and Le-Ann of Amarillo.

Julie Harrison, niece of Mrs. J.D. Helms, spent last week in the Helms home. They met her mother in Canadian Satur-day and Julie went back to her home in Allison.

the Word

"Thy word is a lamp unto my feet; and a light unto my path." - Psalm 119:105

If you are a Christian, you are blessed with a great heritage. It is a heritage of truth and has nothing to do with imagination or myths. It is a truth that remains unchanged, no matter how many times someone attempts a rewrite or offers a "studied" translation. This truth is the word of

God. It is found in the Holy Bible. It is found in Ten Commandments, which form a guidepost for Christian living.

Accept this truth; it is useless to argue against it. Conscience and common sense will not permit you to be unaware. You fool no one, not even yourself, if you pretend to ignore or disbelieve.

Amen dments **Change Many** S.S. Benefits

The Social Security Amend-ments of 1965 made several important changes in the disability benefits program. Un-der the old law, disability in-surance benefits were payable only if the worker's disability was expected to result in de was expected to result in death or to be of long and indefinite duration. The new law re-moves this requirement. It provides that an insured work-er who has been totally disab-led for a continuous period of led for a continuous period of 6 months, and whose condition is expected to continue for at least 6 more months, may re-ceive disability payments be-ginning with the seventh mon th after he became disabled. For example, a worker who contracts tuberculosis can ge erally be expected to recover after a period of treatment. This period when he is unable to engage in any gainful work because of his condition may cause undue hardship becau the worker is without the in come needed to support of his family. Because of the new amendments he would now be

amendments he would now be eligible for payments for him-self and his dependents. There has been no change in the definition of severity of the disability or in the work re-quirements. The impairment must still prevent the worker from engaging in any subtan-tial work. His age, education, experience, and the nature of the disabling ailment are all considered in deciding if he is able to do any kind of work. The amount of work under social security needed to be eligible for disability benefin is still 5 years of work covered by social security in the 10-year period before the disabil-ity began. However, there are special provisions for some

ity began. However, there are special provisions for some blind people. It is possible for some persons who became blind before age 31 to qualify for disability benefits with less than 5 years of work. Under the old law it was possible for some individuals entitled to both social securi-ty benefits and workmen's

ty benefits and workmen's compensation to receive compensation to receive can bined payments equal to or exceeding their earnings whi they were employed. This was not in keeping with the aim of social insurance-to concern a provide in replace aportion of lost in-come. The new amendment limit the total amount pay ble to persons who receive both workmen's compensat and social security payments A person under 62 who is en-titled to both benefits may have his social security bene-fit amount reduced so that the amount he receives each month will not exceed 80 cent of is average monthly earnings credited to his social security account before he became disabled. Anyone who might qualify under the new disability pro-

visions of the social securi law is urged to visit a so security office soon. A delay Anyone too disabled to visit the social security office should request that a representative from the office come to see him. For more information about disability benefits or any pro-vision of the social security vision of the social security law, get in touch with your social security office in the Hughes Bldg., 400 W. King-mill, Pampa, Texas, The phone number is Mohawk 4-3381. We will be glad to belower help you.

the Renaissance Era, now hang-ing in the National Gallery of Art in Washington, D.C. The stamp was designed from the central portion of Memling's oil, "Madonna and Child with Angels" which was paint-ed on wood about 1480.

Postmaster Jacobs noted that the use of the stamp for the sending of greeting cards as-sures first-class handling. That means the cards will be forwarded if the addressee has moved or will be returned if there is a return address avoid-ing the destruction of numerous undeliverable greeting cards.

This is the fifth in a series of holiday stamps and the Postal Service expects it to be another best seller. The initial print order was for one billion, two hundred million stamps. The Postmaster estimated that 10,000 of the stamps will be sold locally.

Temptation Fruitcake Is Favorite of Yule Season

HOME MAKING NOTES

Thus has begun a new holiday sion was almost all fruits and season. With this season, home nuts with barely enough batmakers are looking for new ideas and recipes with which to tempt family and friends. Fruit cake, a favorite of this season, has been a holiday fa-vorite through the contribution

vorite through the centuries. The original old English ver-

By Linda Webb, Home Demonstration Agent nuts with barely enough bat-ter to hold them together. This was more like a fruit pudding than a cake.

Temptation Fruit Cake is in the modern mode. It offers a perfect balance of both batter and filling with sugar and

spice and everything nice. There's even a taste of coffee and brandy flavoring in the ingredients. For those who wish it, an un-tsual icing, "Frosting Au Cafe" gives a delectable blend of sugar, instant coffee powder, but-ter and cream. TEMPTATION FRUIT CAKE 1 jar (1 lb.) glace cake mix (equal to 2 cups 1 cup slivered almonds cup raisins cup dried currants

1 teaspoon allspice 1 teaspoon cinnamon

1 teaspoon nutmeg 1/2 teaspoon mace

- 1/2 cup strong coffee 1/4 cup molasses
- 2 tablespoons brandy flavoring or 2 more of coffee

4 eggs 1 1/2 cups sifted all-purpose

flour

1/2 teaspoon salt 1/4 teaspoon baking soda 2/3 cup firmly packed brown

Combine first 11 ingredients in large mixing bowl. Stir in eggs. Mix well, Mix and sift flour, salt and baking soda. Stir in. Add brown sugar. Mix well. Stir in melted butter. Spoon batter into 2 greased loaf pans 8 $1/2 \times 4 1/2 \times 2$ 5/8 inches lined with greased wax paper or aluminun foil. Bake at 300 degrees approxi-mately 1 3/4 hours or until finger tip touch leaves no imprint. Cool on racks. When cake is cold, cover with brandy soaked cloth, wrap in wax paper or foil and store in tightly closed tin box. If desired, frost with Frosting au Cafe before serving.

Many impressions children have about foods are established during the elementary school years. Such impressions can develop into strong likes and dislikes that may mean a child will avoid the most nutritious foods.

It is important for parents to encourage positive attitudes toward foods and good eating habits, and there are several ways to do it.

Research shows that the diets of many school children lack the essential nutrients -calcium, ascorbic acid, and vitamin A. This deficiency can become more serious as the child grows older because he tends to eat less of the food he needs.

To correct or avoid this nu-tritional deficiency, parents should provide adequate amounts of milk, citrus fruits, and dark green or deep yellow or orange vegetables in each day's meal pattern. Parents reinforce good eat-ing habits by setting a good example. Children hardly see

the importance of eating a good meal when adults don't. Since breakfast is the most important meal of the day, the family should eat onefourth to one-third of the daily food needs at this meal.

Texas Museum Directory Ready for Distribution

AUSTIN--The new 1967 Texas Museum Directory com-piled by the Texas State His-torical Survey Committee is now available for distribution, TSHSC President John Ben Shepperd of Odessa said today. The directory was published by Humble Oil & Refining Company of Houston, Individ-uals or organizations may write to the Humble Touring Service (P.O. Box 2180, Houston, 77001) to request copies.

Reflecting the recent rapid rowth of museums in Texas, the fourth edition of the direc-tory lists 243 museums and tra-

vel in.ormation on other places to see the story of Texas his-tory attractively displayed. The directory it replaced list-ed only 172 museums. Texas has more museums

than any other state. In addi-tion to the existing 243 mu-seums, there are 70 in the

planning stages. Last year more than 15,561,700 persons visited Texas museums, showing the

tourist attraction, The U.S. Travel Service has reported that museums are a top-ranking tourist attraction.

The new museum directory is readily available to tourists, as copies are distributed by the Texas Highway Department at its eight Tourist Information Centers located at key highway entrances to Texas. The booklets also are distributed by chambers of commerce and other tourist-oriented organizations.

The Texas State Historical Survey Committee has long encouraged the development of county historical museums. This year it expanded its ser-vices by offering professional guidance to the state's smaller museums: the first Texas Institute for Small Museums was sponsored by TSHSC in Woodsons attending.
