If teaching is not enough of a job, the Spearman school faculty has taken on another job, with the help of a few laymen and educational experts. The job is a self-study of the strengths and weaknesses of the Spearman School.

Dr. Morris S. Wallace, head of the Education Department at Texas Tech, will head the entire study of the school.

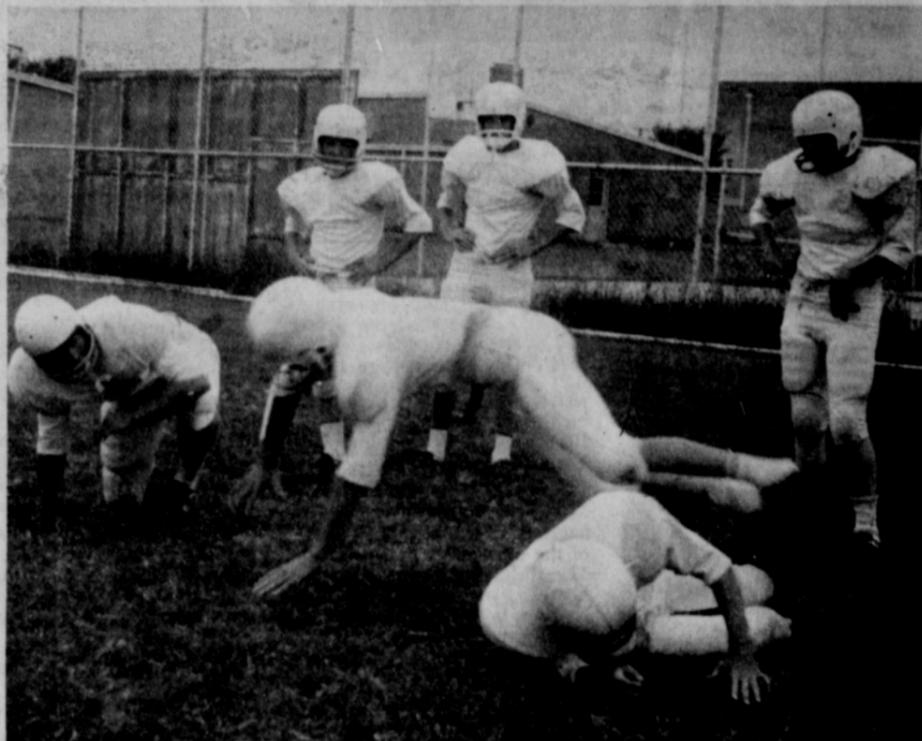

Meeting with the steering committee Tuesday afternoon, Dr. Wallace pointed out that this self-study of the school is also a self-study of the community.

He told the steering committee, composed of teachers, administrators and laymen, when the study is completed next spring, teachers, administrators, board members and patrons of the community will know much more about the school, its problems, aims, and the quality of instruction than ever before.

Dr. Wallace pointed out that by having all instructors, laymen, administrators and outside education experts study the school, all phases of the program will be studied and reported upon.

This is going to be a big project for the school, but as Dr. Wallace pointed out, great benefits can be realized by the school and the

## Freshmen Lynx Will Open Grid Season Against Borger

Twenty freshman are working for places on the freshman Lynx football team which opens its season against Borger on Sept. 15.

Under the guidance of freshman coach Eddie Clemmons and eighth grade coach Jerry King, the freshmen have been working since August 15.

Only 17 boys took physicals on Aug. 13, but three more have been added to the squad since workouts began.

Coach Clemmons said the boys are working hard and making a lot of improvement. We still have a long way to go, but the boys are giving 100 per cent and that is all we can ask of them.

Clemmons said that three outstanding boys from the eighth grade team last year moved away during the summer.

A big boy from Waka, Bobby Mosier, has been added

to the squad and the coaches consider him an outstanding prospect. Mosier weighs 182 and is about six feet tall.

He has never played football before, Clemmons said, but he is learning fast and really likes the game. He is going to be a good player.

The squad is composed of Richard Larson, Frank Willemeth, Thomas Collard, Keith Hutton, Mike Cox, Joe Bill Cochran, Randy Weston, Bobby Brown, Wally Windom, Kenneth Donahue, John Simmons, Terry Vernon, David Holland, Bobby Mosier, Joe Edd Crawford, Don Lane Whitefield, Jimmy Jackson, Stephen Slater, Joe Cummings and Joe Clemment.

The schedule is:  
At Borger, Sept. 15  
Phillips, Sept. 29  
Sanford-Pritch, Oct. 13  
Stinnett, Oct. 20  
At Shamrock, Oct. 27

## Council Negotiates New Electric Rate

A new and lower electric rate with Community Public Service was signed Monday night by the Spearman City Commission.

The new rate brings Spearman's rates in line with the neighboring towns served by Community Public Service.

The residential rate was lowered 1.28 per cent and the rates for street lights and municipal power for pumps and other uses were also lowered.

Foran Construction Co. was awarded the contract for installing the utilities on Bernice street in the Glover addition. The contract is for \$9,055.86. The developer of the addition pays the costs and the city engineer is in charge of the work.

City Manager Darce Foshee was instructed to advertise for bids for a new street sweeper and a new two ton truck.

An ordinance was passed giving the city control of the platting of land within one-

half mile of the city limits.

The council also voted to leave the speed limits within the city at 30 miles per hour. The Highway Department had recommended raising the limits on the highway streets through town.

A cost of living salary increase was approved for the city employees for the next fiscal year, beginning Oct. 1.

Mrs. Ed Mundy resigned as a city representative on the Library Board. She has accepted a teaching position in Gruver and will not have time for the work. Mrs. Ray Lackey was appointed to fill the unexpired term.

Approval was given for the city to borrow \$15,000 for a bond payment on Sept. 1. Because of an error when the bonds were sold, the payment is due before taxes are collected instead of after collection begins.

The interest and principal payment is \$29,000.

Mayor Bob Vaughn praised Manager Foshee for his strict handling of the city finances. Vaughn said last year the city had to borrow \$54,000 to clear up back debts made before Foshee arrived and meet bond payments.

Under Foshee's direction the city has no back debts, is meeting its payments and has cut operating costs, Vaughn commented. The mayor said the proposed budget for next year will allow the city to finish the year in the black, barring any large unforeseen expenses.

## Reception Will Honor Miss Lobo

A reception and welcoming party for Cris Lobo, Spearman's new exchange student will be held from 2 until 4 p.m. Sunday in the High School home economics department.

Miss Lobo arrived in Spearman from her home in Brazil and will live in the John Wilde home this year while attending Spearman High School. She will be a senior in high school.

Thieves broke into her hotel room in New York City and took her large suitcase containing most of her clothes and several gifts she was bringing to the school and the Wildes.

There will be a money tree at the reception for anyone who would like to help replace the clothes taken by the thieves.

The high school Student Council and the American Field Service Committee are sponsoring the reception.

## Self-Study Program Is Initiated

A self-study program for the Spearman Public Schools has been initiated, according to an announcement by Lloyd Buzzard, President of the Board of Education.

Dr. Morris W. Wallace, head of the department of Education at Texas Tech, will direct the study. The first meeting was held Tuesday at the high school.

Tuesday, in three different meetings, Dr. Wallace explained the work of the study to the faculty, steering committee and school board.

A steering committee of school personnel and members of the community has been appointed to be a sounding board and directional finder for the study. The committee is composed of Buzzard, Dr. B.E. Reeves, Kenneth McKay, James Pendergraft, Allen Alford, Mrs. Fern West, Marshall Benton, George Robinson, Gary Ellsworth, Mrs. D.E. Spoonmore, Ralph Blodgett, P.A. Lyon Jr. and Burt McClellan.

The school staff, with the help of citizens selected by the board, will formulate in

## Collards Walk Away From Plane Accident

John R. Collard Jr., is still in a Borger hospital with injuries received when his airplane crashed about 10 miles north of the Borger airport about 11:30 p.m. Tuesday.

Mrs. Collard was with him, but she was released from the hospital Wednesday morning after being treated for minor

injuries.

Reports reaching Spearman said Collard had facial lacerations and a possible back injury.

Mr. and Mrs. Collard were returning from a meeting of the Masonic Grand Lodge in Rock Springs, Wyo., when

## Jerald Scribner Elected Captain of West Team

Jerald Ray Scribner of Morse, center in picture, played in the all star eight man football game at Abilene last Saturday. Other boys from this district who participated are Jodie Rapp, left, and Danny Longbine, both of Estelline. The boys from this district

played on the West squad. According to the report of the game in the Abilene paper, the East had trouble moving the ball against the West, but when they did move it was for paydirt. The West team seemed to be able to move the ball up and down the field at will, but were unable to get on the scoreboard the first half.

The final score was 22-14 in favor of the East with the West leading in first downs, yardage in both rushing and passing and passes completed. Scribner was one of the captains of the West team. The team members elected their captains.

## Women's Bowling Association Meets Friday

The Hansford County Women's Bowling Association will hold an open meeting Friday Aug. 26 at 7:30 p.m. at the Cattleman's Cafe. Every one interested in bowling please plan to attend.

## Farmers Reminded To Certify ASC Ballot Envelopes

Farmers were reminded of a very important part of the election process for Agricultural Stabilization and Conservation (ASC) community committees, especially where ballots are mailed in to the ASCS county office. In Hansford County, the deadline for returning ballots in the community elections is Sept. 7.

Jewel Ward, Chairman, ASC (Hansford) Committee, points out that two envelopes will be mailed with the ballots sent to all eligible voters of record in the county office. One envelop will be plain, and the other will have a statement printed on the back which the farmer needs to sign. A witnessed mark will also qualify as a signature.

The ballot should be marked and sealed inside the plain envelop; growers are cautioned not to enclose any other material. This plain envelop should then be put inside the envelop with the statement on the back. This statement is a certification that the ballot was marked by the farmer personally without undue influence by any person. The envelop should then be mailed or otherwise delivered to the ASCS County Office.

"Be sure to sign this statement on the back of the envelop," the Chairman urges. "If it is not signed, the ballot will not be considered as a vote."

an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of General Revenue funds.

"Said Boards are severally authorized to pledge the whole or any part of the respective interests of Texas A & M University and of The University of Texas in the income from the Permanent University Fund, as such interests are now apportioned by Chapter 42 of the Acts of the Regular Session of the 42nd Legislature of the State of Texas, for the purpose of securing the payment of the principal and interest of such bonds or notes. The Permanent University Fund may be invested in such bonds or notes.

"All bonds or notes issued pursuant hereto shall be approved by the Attorney General of Texas and when so approved shall be incontestable. This Amendment shall be self-enacting provided, however, that nothing herein shall be construed as impairing any obligation heretofore created by the issuance of any outstanding notes or bonds under this Section by the respective Boards prior to the adoption of this Amendment but any such outstanding notes or bonds shall be paid in full, both principal and interest, in accordance with the terms of such contracts."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment withdrawing Arlington State College from participation in the Permanent University Fund."

"AGAINST the Constitutional Amendment withdrawing Arlington State College from participation in the Permanent University Fund."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the constitution and laws of this state.

### Proposed CONSTITUTIONAL AMENDMENT NUMBER EIGHT ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

HOUSE JOINT RESOLUTION NO. 24 proposing an amendment to Article VI of the Constitution of the State of Texas by adding a new Section thereto, Section 2a, to provide for voting on electors for President and Vice President, and on all state-wide offices, questions or propositions by persons qualified to vote in this State except for meeting county or district residence requirements, and to provide for voting on electors for President and Vice President by otherwise qualified United States citizens who have moved into or out of the State preceding a presidential election.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Article VI of the Constitution of the State of Texas is amended by adding a new Section thereto, Section 2a, to read:

"Section 2a. (a) Notwithstanding any other provision of this Constitution, the Legislature may enact laws and provide a method of registration, including the time of such registration, permitting any person who is qualified to vote in this State except for the residence requirements within a county or district, as set forth in Section 2 of this Article, to vote for (1) electors for President and Vice President of the United States and (2) all offices, questions

or propositions to be voted on by all electors throughout this State.

(b) Notwithstanding any other provision of this Constitution, the Legislature may enact laws and provide for a method of registration, including the time for such registration, permitting any person (1) who is qualified to vote in this State except for the residence requirements of Section 2 of this Article, and (2) who shall have resided anywhere within this State at least thirty (30) days next preceding a General Election in a presidential election year, and (3) who shall have been a qualified elector in another state immediately prior to his removal to this State or would have been eligible to vote in such other state had he remained there until such election, to vote for electors for President and Vice President of the United States in that election.

(c) Notwithstanding any other provision of this Constitution, the Legislature may enact laws and provide for a method of registration, including the time for such registration, permitting absentee voting for electors for President and Vice President of the United States in this State by former residents of this State (1) who have removed to another state, and (2) who meet all qualifications, except residence requirements, for voting for electors for President and Vice President in this State at the time of the election, but the privileges of suffrage so granted shall be only for

such period of time as would permit a former resident of this State to meet the residence requirements for voting in his new state of residence, and in no case for more than twenty-four (24) months."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment permitting persons qualified to vote in this State except for the residence requirements in a county or district to vote for Presidential and Vice Presidential Electors and for all state-wide offices, questions or propositions, and permitting citizens of the United States recently arrived or departed from the State to vote for Presidential and Vice Presidential Electors."

"AGAINST the Constitutional Amendment permitting persons qualified to vote in this State except for the residence requirements in a county or district to vote for Presidential and Vice Presidential Electors and for all state-wide offices, questions or propositions, and permitting citizens of the United States recently arrived or departed from the State to vote for Presidential and Vice Presidential Electors."

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

### Proposed CONSTITUTIONAL AMENDMENT NUMBER SEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

HOUSE JOINT RESOLUTION NO. 13 proposing an Amendment to Sections 2 and 4 of Article VI of the Constitution of the State of Texas so as to repeal the provision making payment of the poll tax a requirement for voting and so as to authorize the Legislature to provide for the registration of all voters. BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2 of Article VI of the Constitution of the State of Texas be amended, effective February 1, 1968, by deleting the following language:

"and provided further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Or if said voter shall have lost or misplaced said tax receipt, he or she, as the case may be, shall be entitled to vote upon making affidavit before any officer authorized to administer oaths that such tax receipt has been lost. Such affidavit shall be in writing and left with the judge of the election. The husband may pay the poll tax of his wife and receive the receipt therefor. In like manner, the wife may pay the poll tax of her husband and receive the receipt therefor."

provided, however, that before offering to vote at an election a voter shall have registered annually, but such requirement for registration shall not be considered a qualification of an elector within the meaning of the term 'qualified elector' as used in any other Article of this Constitution in respect to any matter except qualification and eligibility to vote at an election. Any legislation enacted in anticipation of the adoption of this Amendment shall not be invalid because of its anticipatory nature. The text of this Section, as so amended, is shown below, with the deleted language marked through by a broken line and with the new

language underscored:

"Section 2. Every person subject to none of the foregoing disqualifications who shall have attained the age of twenty-one (21) years and who shall be a citizen of the United States and who shall have resided in this State one (1) year next preceding an election and the last six (6) months within the district or county in which such person offers to vote, shall be deemed a qualified elector; and provided further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Or if said voter shall have lost or misplaced said tax receipt, he or she, as the case may be, shall be entitled to vote upon making affidavit before any officer authorized to administer oaths that such tax receipt has been lost. Such affidavit shall be made in writing and left with the judge of the election. The husband may pay the poll tax of his wife and receive the receipt therefor. In like manner, the wife may pay the poll tax of her husband and receive the receipt therefor."

provided, however, that before offering to vote at an election a voter shall have registered annually, but such requirement for registration shall not be considered a qualification of an elector within the meaning of the term 'qualified elector' as used in any other Article of this Constitution in respect to any matter except qualification and eligibility to vote at an election. Any legislation enacted in anticipation of the adoption of this Amendment shall not be invalid because of its anticipatory nature. The Legislature may authorize absentee voting. And this provision of the Constitution shall be self-enacting without the necessity of further legislation. Any member of the Armed Forces of the United States or component branches thereof; or in the military service of the United States, may vote only in the county in which he or she resided at the time of en-

tering such service so long as he or she is a member of the Armed Forces."

Sec. 2. That Section 4 of Article VI of the Constitution of the State of Texas be amended by changing the word "may" to "shall" in the last clause thereof and by deleting the words "in all cities containing a population of ten thousand inhabitants or more."

The text of this Section, as so amended, is shown below, with the deleted language marked through by a broken line and with the new language underscored:

"Section 4. In all elections by the people, the vote shall be by ballot, and the Legislature shall provide for the numbering of tickets and make such other regulations as may be necessary to detect and punish fraud and preserve the purity of the ballot box; and the Legislature may shall provide by law for the registration of all voters in all cities containing a population of ten thousand inhabitants or more."

Sec. 3. If any other Amendment to Sections 2 or 4 of Article VI of the Constitution of the State of Texas, being for a different purpose, is adopted at an earlier election or at the same election, the adoption of this Amendment shall not be construed as nullifying any change made by such other Amendment.

Sec. 4. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR repealing the poll tax as a requirement for voting."

"AGAINST repealing the poll tax as a requirement for voting."

Sec. 5. If the foregoing Amendment is adopted, the proclamation of the Governor declaring the adoption of the Amendment shall set forth the full text of the amended Sections, as amended herein and as amended by any other proposed Amendment which is submitted by the 59th Legislature and which has been duly adopted prior to such proclamation.

Sec. 6. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

community if the findings of the study are put to use. Parents who have doubts about the number of activities in which their children participate at school will find reassurance in the opening remarks Dr. Bill Reeves made to his faculty this week concerning activities.

He told the teachers to schedule their activities so they will not interfere with the academic program.

When the activities are such that inference cannot be avoided, the teacher will schedule them well in advance and let all teachers involved know who will be absent.

Also, the teacher in charge of the activity will encourage all participating students to have their make-up work done before being out of school.

Dr. Reeves said Spearman students will continue to participate in activities, but emphasis will remain where it belongs---on academics.

but bad weather here apparently forced them to attempt to go to Borger.

writing what they believe to be the functions of the public schools in this community.

The school staff will then apply the Southern Association of Schools and Colleges Evaluative Criteria to every facet of the educational program. The staff, working in committees, will report their findings both orally and in writing to the total staff, the steering committee and interested citizens.

The target date for culmination of the study will be April 11, 1967. At this time a visiting team of nine to eleven quality people who have demonstrated expertise in a particular field will spend three days in the school to analyze in depth the existing program.

The staff and the visiting committee will each report strengths and weaknesses of the school and make recommendations for improvement.

These findings will serve as a spring board for the continued improvement of the educational opportunities for the youth of the community, Buzzard said.

**THE HISTORY OF WALL DECORATIONS**

When Humpty Dumpty fell from his wall, he left one of the world's oldest sites of artistic effort.

Unlike all the king's horses and all the king's men who couldn't put Humpty together again, historians have pieced together a fascinating account of man's efforts to decorate his walls.

Ten thousand years ago, the walls of most homes were done in blue, brown and red bison. And there is reason to believe that cave drawings, as a form of communication, preceded the use of verbal sentences.

The ancient Egyptians painted large wall areas with colors extracted from plants growing on the banks of the Nile. The Romans installed colorful frescoed panels on the walls of their homes and public buildings; some of these can still be seen in the ruins of ancient Pompeii.

One of the world's most famous paintings, Leonardo da Vinci's "The Last Supper," had as its "canvas" a wall at Santa Maria delle Grazie in Milan.

As a substitute for the costly tapestries which had been a favorite wall decoration in wealthy homes, Europeans in the 16th and 17th centuries began using wallpaper.

**Totals 2.56**

**Since Friday**

It has been a wet, cool week for Hansford County as clouds and a slow drizzling rain have soaked the area.

Since last Friday Spearman has received 2.56 inches of rain, according to Mrs. Pat Cates, the official weather observer here.

Friday, Spearman measured .40 of an inch for the past 24 hours, then Sunday the big amount was measured with the total reaching 1.25. Tuesday the amount was .23 and Wednesday the total was .68.

Temperatures have not reached 80 degrees since Saturday, Sunday the high was 75 and has been going down since the. Monday it was only 73 and Tuesday it was a cool 65.

The "dog days" of ancient Greece and Rome affect people today much as they did 3,000 years ago.

Early astronomers noticed that Sirius, the most radiant star in the sky, rose with the Sun in midsummer; they believed its heat intensified that of the Sun. Since Sirius is in the constellation of Canis Major, or "Larger Dog," ancients called the hottest period "dog days."

## Time for Fun Party Monday

## County Agent's Report

### FIELD DAY PLANNED

The annual Field Day at the South Plains Research and Extension Center has been set for 1 p.m. Tuesday Sept. 20, according to Charles Fisher, research superintendent.

Projects tentatively scheduled to receive major emphasis at the field day include crop varieties of the future, conservation of water, chemical and cultural weed control and weather studies.

The South Plains Research and Extension Center is one of the largest experiment stations in the Texas A&M University system, Fisher said.

Visitors at the event will have a chance to see experimental stormproof cotton varieties with longer and stronger fiber and better spinning performance, Fisher said. Improved sorghums will also be on display.

The researchers also plan to stress some of their "water stretch" experiments. This work features planting and irrigation schemes designed for maximum flexibility to make efficient use of both rainfall and irriga-

tion. Other highlights of the field day will be displays of commercial and experimental farm machinery, and reports of studies with soybeans, castors and vegetables.

The field day, which is open to the public, traditionally attracts a large crowd of farmers and agricultural and business leaders from throughout the High Plains area.

### INTERNAL PARASITES IN CATTLE

Internal parasites can rob you of profits on cattle. Even though your cattle don't "look" wormy they may be. Internal parasite infestations often get pretty far along before the animal shows any obvious symptoms.

Probably the number one cause of internal parasites in Texas beef cattle is malnutrition. Although cattle have an inherent high resistance to parasite damage, this resistance is lowered by malnutrition.

The animal's immunity mechanism cannot function properly if the diet doesn't provide enough fuel.

Another cause is sanitation. Keeping water clean, feed clean, and grazing areas clean goes a long way toward reducing internal parasites.

A third cause of internal parasites is improper pasture management. This comes from overgrazing, and from high stock-

## Agricultural Display Set At 10th Annual Field Day

Halfway, Texas---The Government Agricultural Services have been invited to display materials and charts of their activities in the conference room of the Killgore Building at the Tenth Annual Field Day of the High Plains Research Foundation on Thursday, September 8, according to Bedford Forrest, Head of Education and Public Relations.

Displays of the Running Water Draw project and other exhibits will be presented by the Soil Conservation Service board and staff. The Noxious Weed Control program in Hale, Floyd and Swisher Coun-

ing rates. With overgrazing, animals are forced into grazing near the ground where more larvae are likely to be on each mouthful of forage.

On highly developed pastures where high stocking rates are used, you have another problem--contamination of pasture from excessive manure. Manure is often where the eggs hatch into larvae.

Once the parasite larvae are inside the stomach, they reach maturity in 2 to 3 weeks. They mate and lay eggs that are passed out in the manure. The eggs hatch in the manure or on the ground and develop into the infective larvae stage in another week or so. Then they are ready to repeat the cycle.

ties will be on display by officials of the weed control program in these three counties. The Home Demonstration personnel and representatives of Home Demonstration Clubs in the County, Activities of the County Agents Service and 4H Club programs will be included in the display for the first time.

Visitors to the Killgore Building and Laboratory will be welcomed and shown through the building by members of the Board of Trustees, Olan Alexander, Board member and Executive Vice-President of the Tulia Savings and Loan Association is chairman of the host committee for this tour on Field Day.

## Homemaking Notes

By Linda Webb  
Your Home Demonstration Agent

Plums have been in plentiful supply for a few weeks now, and they are mighty fine eating. If you are a plum fan, as I am, perhaps you will enjoy trying the following fresh plum recipes.

### Old Time Fresh Plum or Prune Crumb Pudding

You'll need three pounds fresh plums or Italian prunes, 1-1/4 cups sugar, 1-1/3 cups sifted all-purpose flour, 1/2 cup butter or margarine and 1/4 teaspoon salt.

Wash and cut prunes or plums into quarters. Measure. There should be 6 cups. Combine 3/4 cup of the sugar and 4 tablespoons of the flour and mix with prunes. Turn into a 10 x 6 x 2-inch baking dish. Mix remaining sugar and flour.

Add butter or margarine and cut into crumb consistency. Sprinkle over prunes. Bake in preheated moderate oven, 375 degrees, for one hour or until fruit is tender and crumbs are brown. Yields 6 servings.

### Fresh Plum Pudding

You'll need 1 cup sifted all-purpose flour, 1/2 cup sugar, 1/2 teaspoon salt, 1-1/2 teaspoon double-acting baking powder, 1/2 cup milk, 3 tablespoons melted shortening, 2 cups sliced fresh plums, 1 cup sugar and 1 cup boiling water.

Sift the first four ingredients together into a mixing bowl. Add milk and melted shortening. Beat until well blended. Turn into a greased 8 x 8 x 2-inch baking pan. Cover with the sliced plums and sprinkle with sugar.

Pour boiling water over all. Bake in a preheated moderate oven at 375 degrees F. 45 minutes or until done. Serve warm, with cream if desired. Yields 6 servings.

Peach season is also in full swing. From now into September we'll find a good selection of this luscious fruit on the market. Select plump, firm, smooth

peaches that have very few if any blemishes. Peaches should show a full flush of pink. Pale yellow peaches with a green cast were probably picked while still green.

Peaches contain vitamins A and C. They are very low in calories--only 46 for one medium sized, fresh peach.

One pound will serve four people. This allows 2 medium sized halves per person.

Bill Smith, Texas A&M University Extension forester sent us this news--the value of shade or ornamental trees damaged by high winds, tornadoes or other acts of nature is deductible from income taxes.

The value can be determined by the decrease in assessed value of the real estate, or by a formula based on tree size. The formula applies to many trees grown in Texas, including red-bud, black walnut, American and Chinese elm, cottonwood, red and white oaks, maples and others.

A \$5.00 per square inch of trunk at breast height has been the value determined by the National Shade Tree Conference Committee on shade tree evaluation. Based on diameter at breast height or measurement at 4 1/2 feet above the ground, the basic value of a 4-inch diameter tree would be about \$62.--A 20-inch diameter tree at breast height is valued at over \$1500.

Small trees, under 4 inches in diameter, are valued at replacement cost, plus expense of planting with the same size tree. Property owners should measure the trunk of damaged trees before removal and keep this measurement for tax records.

The Last Note: Some Doctors have found it's the easy going types who suffer heart attacks. In these times, the human body just can't stand the effort it takes to relax.

## Day by Day

by Day McClellan

If you complained about that hot spell we experienced back in July, I guess this simulated December is really too much. Don't get carried away and put your summer things in storage yet. It's not winter yet, not by a long shot.

Now I know just about how parents feel when it's time for their young son's first haircut. Well maybe not really, but I did sit through some anxious hours while TreBeau, my puppy, got his first "trim" last week.

First I thought surely he would whine just a bit when I left him. He didn't. Then during those hours while I waited to pick him up, I could almost cry at the thought of that sweet, furry face all shaved and different.

While I anxiously waited, Joan Hackley stopped by the office with the Hackleys' poodle, Sallie. I didn't see Joan, I just saw the poodle and thought "Oh, no, she changed him. Much too much!" (Really, Sallie is adorable but she just didn't look like my puppy.)

When I finally went for TreBeau, he did look different all right, but it didn't take me long to get used to him. He has a mustache now and he's much, much neater looking. The perfume has long since worn off, but I've decided I like him this way even better. Wouldn't you know it!

Bea Ainsworth gave me a bit of news this week about her little nine-year-old granddaughter, Donna Foster who had visited here. Donna flew by jet to her home in Houston last week, all by herself on her first plane trip.

Her grandparents need not have worried, but you know how grandparents are.

Anyway, Donna made the one hour stop in Dallas and changed planes assisted all that time by airline personnel.

When she called from Houston to tell her grandparents she had made the trip without a bobble, she said "Oh you did not need to worry about me, I had a secret service escort all the way."

This quickie recipe comes from my neighbor, Barbara Patterson. She noted that you could use a cake mix instead of the flour, sugar, and soda, which I did. It's yummy.

### QUICKIE EGGLESS CAKE

Sift 2 cups flour, 1 1/2 cups sugar and 2 teaspoons soda. Add one number 2 can of crushed pineapple and 1 teaspoon vanilla. Pour into greased baking dish. Cover top with chopped pecans. Bake at 350 degrees for 30 minutes.

Cook 3/4 cup sugar, 1 stick oleo and a small can of evaporated milk. Boil 3 minutes and pour over cake.

### Pounding Away

MEMPHIS, Tenn. -- As they neared the big entrance doors that first day, Mrs. L. M. Nelson looked down at her 6-year-old.

"Phyllis, are you excited about going to school?"

The answer was barely audible.

"No, Ma'am . . . but my heart sure is."

Part of all you earn -- should be yours to keep.

Pearson, F.S. Ayers, John Pipkin and Orville Fullbright all of Spearman. Approximately 100 attended.

## Club Enjoys Program on Easter Pageant

The Dahlia Flower Club met Monday afternoon in the home of Mrs. E.D. Clement.

Mrs. Olin Sheets presided over the business session at which time plans were made for the annual dinner to be held on Oct. 3. Roll call was answered with "A bit of Humor".

Three flower arrangements were displayed with Mrs. Ervin Hester winning first.

Mrs. J.W. Walker brought the program, "The Story of the East Pageant," which is held in the mountains near Lawton, Okla. This pageant has been given each year since 1925 and Mrs. Walker gave an account of various scenes of the play.

Present for the meeting were Meses H.M. Shedeck, J.W. Walker, Ervin Hester, Olin Sheets, Earl Riley, Irvin Delk, A.F. Loftin, Frank Davis and the hostess, Mrs. E.D. Clement. Next meeting will be held on Sept. 5 with Mrs. Major Lackey.

# Cook-Cluck Vows Read Recently in Dumas Church

Mr. and Mrs. Laddie Cluck are at home at Gruver, Texas following their recent marriage in the chapel of the First

Baptist Church of Dumas. The Rev. E.M. Rogers performed the double ring ceremony.

The bride is the former Miss Connie Cook of Dumas, daughter of Mr. and Mrs. Curtis Cook of Channing, Texas. Mr. Cluck is the son of Mr. and Mrs. Gene Cluck of Gruver. Mrs. Tommy Cain, sister of the bride, was matron of honor. Bobby Archer, cousin of the groom, was best man. The bride wore an oyster white knit suit with a tea rose corsage.

A dinner, following the ceremony, for the couple's immediate families was held in the Phillips-Manor Motel dining room.

## Mrs. Rosenbaum Is Selected as Woman of Month

Mrs. L.W. Rosenbaum, a member of the Hansford Home Demonstration Club was honored by being selected as the "Woman of the Month". She is known to her friends and club members as "Tot".

Tot came to Spearman in 1951 from Lubbock. Mr. and Mrs. Rosenbaum are both graduates of Texas Tech. They have one daughter, Vicki who is 14 and a freshman in Spearman High School; two boys Kelly, 13 in the 6th grade, and Everett, 8 years old and in the third grade.

In 1955 the Rosenbaums moved to Delta, Colo., but moved back to Spearman in 1957 and now reside on the Rosenbaum farm at Old Hansford.

Mrs. Rosenbaum is County THDA chairman. Her hobbies are cooking, sewing and needle work and trying to keep up with her family.

She will attend the State meeting to be held in September at Corpus Christi as the THDA delegate.

## Mrs. Davis Is Hostess for Jonquil Club

Jonquil Flower Club met Aug. 19 at 2:30 p.m. in the home of Mrs. Travis Davis.

Dolly McWhirter gave the program on "Flowering Shrubs Are For Every Garden". Dolly won the specimen vase with a lily. Joe McLaughlin won the arrangement vase of roses.

Those who attended were Effie Hackley, Peggy Archer, Joe McLaughlin, Verna Gail Keim, Dolly McWhirter, and hostess, Elvonna Davis.

Major Martin Plocher of Eilson Air Force Base at Fairbanks, Alaska is visiting this week in the home of his daughter and family, Mr. and Mrs. Mike Garnett and son Jon Slade.

## Engaged-

Mr. and Mrs. Marvin H. Kunkel announce the engagement and approaching marriage of their daughter, Vicki Monet, to Lindell A. Warren, son of Mr. and Mrs. Ray D. Warren of Ozone, Arkansas. A September wedding is planned.

## Homemaking Notes

By Linda Webb  
Your Home Demonstration Agent

Plums have been in plentiful supply for a few weeks now, and they are mighty fine eating. If you are a plum fan, as I am, perhaps you will enjoy trying the following fresh plum recipes.

### Old Time Fresh Plum or Prune Crumb Pudding

You'll need three pounds fresh plums or Italian prunes, 1-1/4 cups sugar, 1-1/3 cups sifted all-purpose flour, 1/2 cup butter or margarine and 1/4 teaspoon salt.

Wash and cut prunes or plums into quarters. Measure. There should be 6 cups. Combine 3/4 cup of the sugar and 4 tablespoons of the flour and mix with prunes. Turn into a 10 x 6 x 2-inch baking dish. Mix remaining sugar and flour.

Add butter or margarine and cut into crumb consistency. Sprinkle over prunes. Bake in preheated moderate oven, 375 degrees, for one hour or until fruit is tender and crumbs are brown. Yields 6 servings.

### Fresh Plum Pudding

You'll need 1 cup sifted all-purpose flour, 1/2 cup sugar, 1/2 teaspoon salt, 1-1/2 teaspoon double-acting baking powder, 1/2 cup milk, 3 tablespoons melted shortening, 2 cups sliced fresh plums, 1 cup sugar and 1 cup boiling water.

Sift the first four ingredients together into a mixing bowl. Add milk and melted shortening. Beat until well blended. Turn into a greased 8 x 8 x 2-inch baking pan. Cover with the sliced plums and sprinkle with sugar.

Pour boiling water over all. Bake in a preheated moderate oven at 375 degrees F. 45 minutes or until done. Serve warm, with cream if desired. Yields 6 servings.

Peach season is also in full swing. From now into September we'll find a good selection of this luscious fruit on the market. Select plump, firm, smooth

peaches that have very few if any blemishes. Peaches should show a full flush of pink. Pale yellow peaches with a green cast were probably picked while still green.

Peaches contain vitamins A and C. They are very low in calories--only 46 for one medium sized, fresh peach.

One pound will serve four people. This allows 2 medium sized halves per person.

Bill Smith, Texas A&M University Extension forester sent us this news--the value of shade or ornamental trees damaged by high winds, tornadoes or other acts of nature is deductible from income taxes.

The value can be determined by the decrease in assessed value of the real estate, or by a formula based on tree size. The formula applies to many trees grown in Texas, including red-bud, black walnut, American and Chinese elm, cottonwood, red and white oaks, maples and others.

A \$5.00 per square inch of trunk at breast height has been the value determined by the National Shade Tree Conference Committee on shade tree evaluation. Based on diameter at breast height or measurement at 4 1/2 feet above the ground, the basic value of a 4-inch diameter tree would be about \$62.--A 20-inch diameter tree at breast height is valued at over \$1500.

Small trees, under 4 inches in diameter, are valued at replacement cost, plus expense of planting with the same size tree. Property owners should measure the trunk of damaged trees before removal and keep this measurement for tax records.

The Last Note: Some Doctors have found it's the easy going types who suffer heart attacks. In these times, the human body just can't stand the effort it takes to relax.

## F.H.A. Plans Swimming Party

Friday evening, August 26, the Future Homemakers of America will have a swimming party and watermelon feast for all present and prospective F.H.A. members. We will meet at 6:00 p.m. at the swimming pool park for a social and get acquainted period. Swimming will begin at 6:30 and at 7:30 they will eat watermelon. There will be a fee of 50¢ for swimming. We urge all F.H.A. members and every girl who plans to enroll in homemaking this year to attend.

## Officers Plan New Activities

The F.H.A. Officers met for an executive meeting in the Homemaking Department on Friday, Aug. 19.

Plans were made for the beginning school activities. Present for the meeting were Linda Edge, Penny Sanders, Sue Sloan, Thel Daniel, Mrs. Edge, Chapter Mother, and Frances Hudson, home economics teacher.

Mrs. Troy Sloan, Sue and Pat visited from Monday until Wednesday in Pampa with Mr. and Mrs. Zane Hall and in Miami with the Cy Carrs.

Mrs. James Maxwell daughter Melissa of Roswell, N. Mex. are visiting this week with her parents Mr. and Mrs. Gordon Parrish.

### SPECIAL NOTICE

Mrs. Joe Chase invites the public who have helped most graciously through the past year giving Beth her patterns to drop by any afternoon from 27 thru the following week and participate in celebrating Beth's 17th birthday, but no gifts please.

PRETTY -- brown haired Laura Gass of Comfort is the new Texas Rural Electrification for 1966-67. The 18-year-old beauty was chosen for the honor during the 26th annual membership meeting of Texas Electric Cooperatives, Inc., in San Antonio, Aug. 17-19. She will compete for the title of Miss Rural Electrification of America early next year in San Francisco.

## Day by Day

by Day McClellan

If you complained about that hot spell we experienced back in July, I guess this simulated December is really too much. Don't get carried away and put your summer things in storage yet. It's not winter yet, not by a long shot.

Now I know just about how parents feel when it's time for their young son's first haircut. Well maybe not really, but I did sit through some anxious hours while TreBeau, my puppy, got his first "trim" last week.

First I thought surely he would whine just a bit when I left him. He didn't. Then during those hours while I waited to pick him up, I could almost cry at the thought of that sweet, furry face all shaved and different.

While I anxiously waited, Joan Hackley stopped by the office with the Hackleys' poodle, Sallie. I didn't see Joan. I just saw the poodle and thought "Oh, no, she changed him MUCH too much!" (Really, Sallie is adorable but she just didn't look like my puppy.)

When I finally went for TreBeau, he did look different all right, but it didn't take me long to get used to him. He has a mustache now and he's much, much neater looking. The perfume has long since worn off, but I've decided I like him this way even better. Wouldn't you know it!

Bea Ainsworth gave me a bit of news this week about her little nine-year-old granddaughter, Donna Foster who had visited here. Donna flew by jet to her home in Houston last week, all by herself on her first plane trip.

Her grandparents need not have worried, but you know how grandparents are.

Anyway, Donna made the one hour stop in Dallas and changed planes assisted all that time by airline personnel. When she called from Houston to tell her grandparents she had made the trip without a bobble, she said "Oh you did not need to worry about me, I had a secret service escort all the way."

This quickie recipe comes from my neighbor, Barbara Patterson. She noted that you could use a cake mix instead of the flour, sugar, and soda, which I did. It's yummy.

### QUICKIE EGGLESS CAKE

Sift 2 cups flour, 1 1/2 cups sugar and 2 teaspoons soda. Add one number 2 can of crushed pineapple and 1 teaspoon vanilla. Pour into greased baking dish. Cover top with chopped pecans. Bake at 350 degrees for 30 minutes.

Cook 3/4 cup sugar, 1 stick oleo and a small can of evaporated milk. Boil 3 minutes and pour over cake.

the Word

"Thy word is a lamp unto my feet; and a light unto my path." — Psalm 119:105

If you are a Christian, you are blessed with a great heritage. It is a heritage of truth and has nothing to do with imagination or myths. It is a truth that remains unchanged, no matter how many times someone attempts a rewrite or offers a "studied" translation. This truth is the word of God. It is found in the Holy Bible. It is found in Ten Commandments, which form a guidepost for Christian living.

Accept this truth; it is useless to argue against it. Conscience and common sense will not permit you to be unaware. You fool no one, not even yourself, if you pretend to ignore or disbelieve.

#### Proposed CONSTITUTIONAL AMENDMENT NUMBER TWELVE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966. HOUSE JOINT RESOLUTION NO. 48 proposing an Amendment to Article IX of the Constitution of the State of Texas, providing the method and manner for dissolution of hospital districts created under Article IX of the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 9, Article IX of the Constitution of the State of Texas be amended to read as follows:

"Section 9. The Legislature may by law provide for the creation, establishment, maintenance and operation of hospital districts composed of one or more counties or all or any part of one or more counties with power to issue bonds for the purchase, construction, acquisition, repair or renovation of buildings and improvements and equipping same, for hospital purposes; providing for the transfer to the hospital district of the title to any land, buildings, improvements and equipment located wholly within the district which may be jointly or separately owned by any city, town or county, providing that any district so created shall assume full responsibility for providing medical and hospital care for its needy inhabitants and assume the outstanding indebtedness incurred by cities, towns and counties for hospital purposes prior to the creation of the district, if same are located wholly within its boundaries, and a pro rata portion of such indebtedness based upon the then last approved tax assessment rolls of the included cities, towns and counties if less than a

the territory thereof is included within the district boundaries; providing that after its creation no other municipality or political subdivision shall have the power to levy taxes or issue bonds or other obligations for hospital purposes or for providing medical care within the boundaries of the district; providing for the levy of annual taxes at a rate not to exceed seventy-five cents (75c) on the One Hundred Dollar valuation of all taxable property within such district for the purpose of meeting the requirements of the district's bonds, the indebtedness assumed by it and its maintenance and operating expenses, providing that such district shall not be created or such tax authorized unless approved by a majority of the qualified property taxpaying electors thereof voting at an election called for the purpose; and providing further that the support and maintenance of the district's hospital system shall never become a charge against or obligation of the State of Texas nor shall any direct appropriation be made by the Legislature for the construction, maintenance or improvement of any of the facilities of such district.

Provided, however, that no district shall be created except by act of the Legislature and then only after thirty (30) days' public notice to the district affected, and in no event may the Legislature provide for a district to be created without the affirmative vote of a majority of the taxpaying voters in the district concerned.

The Legislature may also provide for the dissolution of hospital districts provided that a process is afforded by statute for:

(1) determining the desire of a majority of the qualified voters within the district to dissolve it;

(2) disposing of or transferring the assets, if any, of the district; and

(3) satisfying the debts and bond obligations, if any, of the district, in such manner as to protect the interest of the citizens within the district, including their collective property rights in the assets and property of the district, provided, however, that any grant from federal funds, however dispensed, shall be considered an obligation to be repaid in satisfaction and provided that no election to dissolve shall be held more often than once each year. In such connection, the statute shall provide against disposal or transfer of the assets of the district except for due compensation unless such assets are transferred to another governmental agency, such as a county, embracing such district and using such transferred assets in such a way as to benefit citizens formerly within the district.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the constitutional amendment providing the method and manner for dissolution of hospital districts.

"AGAINST the constitutional amendment providing the method and manner for dissolution of hospital districts."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

#### Proposed CONSTITUTIONAL AMENDMENT NUMBER FIFTEEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966. SENATE JOINT RESOLUTION NO. 33 proposing an Amendment to Section 6, Article XVI, Constitution of the State of Texas, to authorize state participation in programs financed with funds from private or federal sources and conducted by local level or other private, nonsectarian associations, groups, and nonprofit organizations, in establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitating and restoring the handicapped, and in providing other services determined by the state agency to be essential for the better care or treatment of the handicapped.

"The state agencies may deposit money accepted under this subsection either in the state treasury or in other secure depositories. The money may not be expended for any purpose other than the purpose for which it was given. Notwithstanding any other provision of this Constitution, the state agencies may expend money accepted under this subsection without the necessity of an appropriation, unless the Legislature, by law, requires that the money be expended only on appropriation. The Legislature may prohibit state agencies from accepting money under this subsection or may regulate the amount of money accepted, the way the acceptance and expenditure of the money is administered, and the purposes for which the state agencies may expend the money. Money accepted under this subsection for a purpose prohibited by the Legislature shall be returned to the entity that gave the money.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 6, Article XVI, Constitution of the State of Texas, be amended to read as follows:

"Section 6. (a) No appropriation for private or individual purposes shall be made, unless authorized by this Constitution. A regular statement, under oath, and an account of the receipts and expenditures of all public money shall be published annually, in such manner as shall be prescribed by law.

"(b) State agencies charged with the responsibility of providing services to those who are blind, crippled, or otherwise physically or mentally handicapped may accept money from private or federal sources, designated by the private or federal source as money to be used in and establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitating and restoring the handi-

thorized to render services to the handicapped from contracting with privately-owned or local facilities for necessary and essential services, subject to such conditions, standards, and procedures as may be prescribed by law."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment authorizing assistance to the blind, crippled, or otherwise physically or mentally handicapped, in the form of grants of public funds obtained from private or federal sources only, to local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities to assist the handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

## The Morse Code

Morse students in grades 6-12 will pre-register Friday, Aug. 26 at 2 p.m.

The first day of school will be Monday, Aug. 29. Buses will make their regular runs on this day and there will be a full day of school with meals served in the cafeteria.

Classes will begin at 8:25 a.m. and will dismiss at 3:40 p.m. with the exception of the first grade which will be dismissed at 2:45 p.m.

The prices for lunches have been increased this year with pupils set at 40¢ and adults at 60¢. The special milk program will be in operation on a cash basis at 3 cents per one half pint of milk.

An additional elementary teacher has been employed in order to split the fourth and fifth grades which has been combined under one teacher. A junior high coach has been employed to coach boys and girls athletics and to assist with high school coaching duties.

A partition in the home-making cottage has been completed in order to provide additional classroom space.

The school board has let a contract to Pete Hamzy School Specialty Company in Lubbock for the purchase of \$3500 worth of science laboratory furniture which will be installed by Nov. 1, 1966. This will accommodate 15 students.

Homemaking III will be made

available for the first time this year.

There will be a general assembly at 8:45 a.m. on Aug. 29. Parents and patrons are invited to attend.

First grade students are required to bring a copy of their birth certificate and a statement from a doctor stating they have had the smallpox vaccination.

The faculty includes Mrs. Louise Gillispie of Borger who will be teaching the first grade. She has a bachelor degree from West Texas.

Second grade will be taught by Mrs. Alta Fall McCall of Borger who holds Bachelor and Master's degrees from North Texas State.

Mrs. Anna Glover of Borger will teach third grade. She holds a bachelor degree from West Texas University.

Mrs. Betty Clemmons of Skellytown will be the fourth grade teacher. She has a bachelor degree from WT.

### God was first again

Every since Eve tempted Adam with the apple, man has been trying to run his own world without the rules laid down by God. All of these efforts have led to nothing but anarchy for the wayward mortals.

The Communist Party is the latest major group to try making their own rules and regulations only to find them unworkable. The Communists in Russia in past years have tried to take the importance of the home and parents out of the life of the nation.

They made marriage and divorce a simple legal thing, they took the children from the parents and put them in schools and training camps.

What was the result of this brave experiment into man planned living. According to stories being printed in the Red press the idea is not working. It seems to be a failure with both children or adults.

And, while the Russians are not ready to admit there is a God, they have indicated they are going to bring out "new" plans to strengthen the place of the home and parents.

Since the Russians have invented everything and developed all the leading philosophies of the world, we doubt if they admit their "new" plans have been around for a few countries.

### Putt Powell

Putt Powell, the Amarillo Globe-Times sports writer, is always wondering what happened to some person of past sports fame. We are wondering what happened to Dee Miller. You remember, he is the man Amarillo nominated as the Democratic candidate for Representative of the 18th Congressional District.

### Great Apportunity

Another school year begins this week and students will again plunge into the task of learning. There is much more to today's education than just learning the information presented by textbooks and teachers. How well the student absorbs the vast amount of information he will be confronted with, depends a lot on the kind of help he receives at home.

Parents who encourage their children to learn, to think, to develop sound reasoning and make decisions based on facts will be doing the child and the mankind a great service.

In America today everything is planned for the masses, government, education, entertainment, production, and even leisure time activities. The masses are fitted into nice patterns and led to conform. No one is supposed to upset the established routine. Decisions are passed on to higher authority. Few want to take responsibility.

This makes nice comfortable living in a nice safe rut for the masses; but as on a muddy road, someone has to go first and make the ruts.

For the young man or woman who has a solid, well-rounded education which has taught him to think, reason, and make sound decisions the horizon is unlimited in any field he chooses. In fact, his only problem will be sorting out the opportunities.

### LARGEST LIBRARY

The largest library in the world is the Library of Congress on Capitol Hill, Washington, D.C. It contains well over 43 1/2 million items—including close to 14 million books and pamphlets. The two buildings cover six acres and contain 270 miles of book shelves.

## Winner of Television Is Visitor from McPherson

A visitor from McPherson, Kan., was the winner of the portable Airline television set given away Saturday at 5 p.m. by Mr. and Mrs. Bob Presnell in the grand opening of their Montgomery Wards order store.

The 12" television was given to Mrs. Ernest Markle who was here visiting her sister and family, Mr. and Mrs. Willis Sheets.

Mrs. Markle was in the store earlier Saturday and registered for one of the door prizes. The winner was picked at 5 p.m. Saturday.

There were three portable radios given away each day and the nine winners were all women. They were Mrs. R.L. Driscoll, Mrs. Wesley Garnett, Mrs. Charles Ward,

Mrs. Charles Beck Jr., Mrs. W.H. Nielson, Mrs. Viola Frite, Mrs. C.F. Bennett, Mrs. B.A. Byers and Frankie Walker.

Presnell said he and company officials were well pleased with the acceptance of the store by the public. We had almost a thousand people to register during the three days. We know that many people came in and did not register, Presnell said.

The store will be operated by the Presnells and an employee, Mrs. L.F. Hand.

Mr. and Mrs. Guy Remy returned on Sunday from a weeks vacation spent in Kansas, Arkansas and Missouri sightseeing and visiting relatives and friends.

In loving memory of Bernie Sparks who was taken from us one year ago, Aug. 26-- if we had seen you to the last and held your dying hand and heard the last sigh from your heart we would not feel so bad. # What to do while the line is busy

**1** Take for granted that whoever is talking on the line will hang up soon.

**2** Hope that no one left his receiver carelessly off the hook.

**3** Think about how reliable a telephone connection is once you get it. And how Gen Tel is constantly at work to modernize and improve service.

**4** Be patient. After all, you may have talked for 20 or 30 minutes once yourself. So decide not to call the telephone company to report an out-of-order phone.

**5** Think again about trouble-free telephone service. Then, when you get a line, think of the other party, too.

# ASC Committee Election Announced by Chairman

The approaching election of ASC community committees for farm program administration in Hansford County was announced today by Jewel Ward, Chairman, Agricultural Stabilization and Conservation County Committee.

The community committees assist the ASC county committee in administering the price support, acreage diversion, agricultural conservation, and other farm-action programs in the county, they are particularly responsible for keeping

their neighbors informed about the programs. The county committee supervises the ASCS county office and is responsible for the administration of the various programs.

Voting will be by mail, the Chairman explained, and ballots are being sent to each known eligible voter. Pick one up at the office. Generally, a farm owner, tenant, or sharecropper is eligible to vote if he is eligible to take part in one or more of the programs administered by the ASC committees. Eligibility to vote or to hold office as a committeeman is not restricted by reason of race, color, creed, or national origin.

Envelopes containing marked ballots may be mailed or returned to the County Office, anytime before Sept. 7. Ballots will be tabulated publicly by the county committee Sept. 12. The public is invited to witness the vote counting.

For each committee, three regular members and two alternates will be elected. The chairman, vice chairman, and third regular member of the elected ASC community committee will also serve as delegates to the county convention to be held Sept. 21. The alternate committeemen will also serve as alternate delegates to the convention. Delegates to the convention will elect farmers to fill vacancies on the ASC county committee and they will also determine which of the regular county committeemen will serve as chairman and vice chairman for the coming year.

Questions on eligibility to vote and hold office, or on the election procedure will be determined by the ASC county committee subject to appeal to the ASC State committee.

# Beef Cattle Industry Needs Better Program

COLLEGE STATION, -- The beef cattle industry, like other business ventures, often is afflicted with low or lack of return on investment.

Dr. O.D. Butler, head of Texas A&M University's Animal Science Department and a speaker at the 16th annual Beef Cattle Short Course Aug. 15-16, said the situation shows a need for better credit programs.

He said the estimated cost of maintaining a beef cow in Texas is \$95.64 per year. The calf crop is about 81 percent. Each calf, then, costs about \$117. Calves weighing 400 pounds at weaning time would have to bring \$29.25 per hundred-weight just to pay costs on a rented pasture operation. Interest on owned land investment would increase the cost to a much higher figure.

This illustration, Butler said, shows the extreme pressure under which cow-calf producers operate. Increased fertility of breeding herds, high milk production of dams, and genetic ability for rapid growth are imperative.

"The illustration also points up the need for long term, low interest credit for cattle production," he emphasized. Many pasture improvements are not made because of lack of funds, the speaker told the estimated 300 persons attending the short course. Credit for such practices is usually short term, whereas the amortization is long term.

"Landowners simply can't operate on this basis," Butler said. "Long term credit at low interest is essential for improvement of Texas' for-

age lands." And there is the problem of inflated land value. Butler said rate of return from livestock production based on such land values is usually less than 3 percent. A greater return often can be had from banks or savings and loan institutions.

As a result, many landowners are selling to the moneyed investors. The investor can buy and improve land either as an investment or as a tax advantage, often as both," he pointed out.

Butler said he believes the greatest improvement in forage production will come from this type of ownership and this type of ownership will continue to increase. This, perhaps, will be the main source of financing in the future.

When camping out, blotting paper soaked in insect-repellent and wrapped around the legs of tables and cots will keep ants and other insects out of beds and off tables.

## Commissioners Negotiating for Railroad Overpass

Hansford County commissioners are negotiating with the Rock Island Railroad to build an over pass over the tracks west of the intersection of farm road 520 and highway 136 six miles north of Morse. The railroad goes through a deep cut where the road crosses it and the court believes the overpass can be built at a reasonable cost. It will be built to State Highway specifications, so it can be used later if FM 520 is extended across to the Sunray highway.
