VOLUME V., NUMBER 13

SPEARMAN, TEXAS

THURSDAY, JANUARY 9, 1964

We are now one week deep into the new year and it is time to get started working on plans to keep Spearman moving ahead with the giant strides being made in our local agriculture.

In 1963 dry weather ignited the fuse to the great agri-business expansion on the North Plains. Like the expansion that came with oil and gas, the growth will go to the towns that work to achieve it.

One only has to look at the towns on the South Plains to see the vast numbers and kinds of businesses that go with an intensified agriculture.

Lets look at a list of things that need to be done to make Spearman a better town.

Things that come under the immediate heading include:

A true clean-up campaign throughout the business district to rid the alleys of junk and weeds, to clean the vacant lots in the business and residential area and regular cleaning of walks and streets in the business area by the business firms and the city.

The striping of parking places on Main and other congested streets, so as much as half of the parking spaces will not be wasted.

Organizing a United Fund so all the fund campaigns can be coordinated into one drive. Under the present situation many of our worthy organizations are being shorted because people become irritated at being asked to work and donate on some drive every week or two.

Continuation and increased activities by the Chamber of Commerce Retail Merchants Committee to increase retail business in Spearman.

A stepped-up campaign by the Park board to get more improvements in the local parks. They need trees, grass, equipment and care. Let us get our "two-bits" worth in the parks.

A new spirit of cooperation among all local residents and businesses to work for what the majority feels will help Spearman. The greatest plans ever made are worthless without the brains and brawn to carry them out.

A "Teen-Town" Program. Under long range projects we would place these projects. Starting this year to begin (Con't. on back page.)

CHANGE OF COMMAND— Outgoing Chamber of Commerce President Charles Gilliam, left, presents the gavel to the new president, James Bramlett at an installation program held Saturday night. The annual Chamber of Commerce banquet is scheduled for February 3.

Beet Priority Gained By Early Sign-Up

Farmers who would like to sign up to grow sugar beets should not hesitate in signing the agreement forms, says County Agent, Robert Adamson.

Adamson talked to Don Anthony, Association President, about the agreement forms and pledge. These agreement forms are not binding, but only an indication that you would be interested in growing sugar beets.

Further arrangements with the sugar beet company would have to be made to get an allotment. By signing up, you probably would have priority over someone who did not sign up, Adamson said.

The pledge of \$1.00 per ton of beets produced on your farm for five years to be applied to purchase capital stock is only in the event that money is needed as equity. This is not final and Anthony says he does not think this will be required. This is in the planning stage. Anthony said this would not be like a co-op.

Much of this is in the planning stage and would be 1967 before the plant would be in operation, if built.

Anthony said that they would try to get an allotment of between 30,000 and 50,000 ac-

res. Adamson says a meeting would be held in Spearman to explain in the sugar beet program if farmers want such a meeting.

Two Arrests Made Here

Two men have been arrested this week on separate theft charges.

A local man was arrested on a misdemeanor theft charge and fined \$75 and court costs. (Con't. on back page.)

C-C Banquet Ticket Sales Begin Here

Tickets are now on sale for the annual Chamber of Commerce banquet to be held Feb. 3 in the Memorial Building.

All members of the chamber will receive tickets in the mail and directors of the organization have tickets available for persons not receiving ducats in the mail. They are also available at the Chamber of Commerce office.

Dr. Charles Jarvis of San Marcos has been selected as the speaker. The humorist and philosopher is a highly recommended. (Con't. on back page.)

Wedemeyer Speaks Tonight At Joint Farm Bureau Meet

Bill Wedemeyer of the Texas Farm Bureau will address a joint meeting of the Hansford-Hutchinson counties Farm Bureau tonight, Thursday, at 7:30 in the Morse School Auditorium.

A panel of local farmers will discuss the bureau's present position on crops, water and soil conservation, marketing, farm

labor, livestock and legislation. Members of the panel will be: Robert Novak, Willard McCloy and Elmo Dahl of Hansford County and Herbert Kirk, Phil Jenkins and Lee Richardson of Hutchinson County.

Wedemeyer will talk about the structure of Farm Bureau and the methods by which bureau farm policies are deter-

Officers Installed At C-C Program

Harry Cowan, manager of the Borger Chamber of Commerce, installed the new officers and directors of the Spearman Chamber of Commerce in a special program Saturday night in Son's Cafe.

Cowan discussed the duties of a Chamber of Commerce to

the community and the duties of the officers and directors in the chamber.

The manager said he knew the officers and directors could not neglect their businesses and jobs to work on the chamber, but the men should use some of their leisure hours to make the chamber a functioning organization.

Wells Average Two Per Day In County

The cowboys of a few years ago had to watch for prairie dog holes while crossing Hansford County, if they came back now they would have to watch for irrigation wells. If the first few days of 1964 are any indication of things to come.

Applications in the local water district office for new wells are averaging two per day. Wednesday at noon, secretary Dallasene Reynolds said 14 applications for wells had been filed since Jan. 2.

Total applications for wells in 1963 reached 223, Miss Reynolds said. Of these applications, 19 were canceled and seven were dry holes, leaving 196. The records still show 56 of these as incomplete, but some have been completed and the office not notified.

The first few days of the year seem to bear out some of the irrigation supply dealers' ideas that 1964 will be an even bigger year for irrigation than 1963.

One dealer said he expected the number of new wells this year to total approximately 400.

Officers installed included President James Bramlett, Vice President J. L. Brock, Secretary Sam Greenway, Treasurer Roy McClellan, and Charles Gilliam, immediate Past President.

Directors are Bob Skinner, Bill Massie, Gene Cudd, E. J. Copeland, Joe Trayler and Tommy Gooch.

Directors going off the board are Dr. Damon Gregg, Bruce Sheets and Stanley Garnett, who filled the unexpired term of Jett Mason.

Charles Gilliam was master of ceremonies and Dr. Gregg introduced the directors and guests. Stanley Garnett gave the invocation. Tommy Gooch introduced the principal speaker.

After accepting the gavel of leadership from Charles Gilliam, the new President James Bramlett expressed confidence in the future growth of Spearman and requested the directors' assistance in making the coming year a success.

District Play Starts Tonight

After a month and a half of practice games and tournaments, the Spearman Lynx and Lynettes start playing for the district crowns this week. Past performances mean nothing, except on the season record.

Thursday night the Lynettes go to Perryton for the opening district clash with the Perryton Rangerettes. There will be A & B games and the B teams start at 7 p. m.

Friday at 7 p. m. the B team of the Lynx squad begins play at Boys Ranch.

The Ranchers are rated as one of the better teams in the race this season. Among the coaches the Ranchers carry the title as the team to beat. Stinnett, Dalhart and Shamrock are also expected to be high in the race for the crown.

**Lynxettes Win Tourney;
Lynx Lose Consolation**

The Lynxettes won the Claude tournament over the weekend and it took two overtimes to knock the Lynx out of the Consolation title.

Spearman won the girls' trophy by trouncing Miami 51-42 with a last quarter scoring splurge. Claude beat the Lynx for the consolation crown 48-46 in the second overtime.

The Lynx advanced to the

consolation finals by beating Groom 47-44 in a Saturday morning game. Thursday they lost their first game to McLean 50-46.

Saturday morning Jim Kirkland led the Spearman scoring with 1 points. A balanced scoring punch gave the Lynx the win. Pat Pattison hit 10, Ronald McDonald 8, Ken Shufeldt 6, Larry Butt 5, Burton Williamson 4, and Leroy Callaway 2.

Pattison carried the scoring load in the first quarter, as Spearman led 12-5 at the first step. Everyone pitched in the second go round to lead 25-20 at the half. Groom turned on points in the third quarter, but McDonald hit all four of his field goals in the third period to keep the Lynx in the running and a 38-38 tie at the end of three quarters.

Shufeldt got four of the Lynx nine fourth quarter points before going out on fouls.

In the consolation finals Pattison pumped in 13 field goals and five free throws for 31 points, but Claude still pulled the game out 48-46 in the second overtime.

The lead was never very wide at the quarter marks. Claude led 7-6, then Spearman had the lead 25-21 at the half, it was tied 33-33, then 40-40 at the end of regular play, 44-44 at the end of the first overtime.

As a team Spearman hit 19 field goals, eight free shots and committed 14 fouls. Claude hit 20 field goals, eight free throws and committed 10 fouls.

The rest of the Spearman scoring was Kirkland 6, Johnny Crawford 3, and Williamson, Callaway and Shufeldt 2 each.

The Lynxettes almost waited too long before taking their third victory from a battling Miami team. The score was tied 14-14 at the end of eight minutes. Miami led 29-28 at the half and 36-35 at the end of three quarters.

The Lynxettes hit 16 field goals, 19 of 25 free shots and committed 18 fouls.

Phyllis Patterson hit 30 points, Vickie Wilde 14 and Helen Greever 7.

Joan Hackley, Sharion Close and Robbie Ownbey carried the guarding load. Close fouled out.

In 1920 there were 45,000 miles of electrified trolley tracks in the U. S.

Mrs. Howell Ray Phelps

Davis - Phelps Nuptials Read in Lubbock Church

Miss Sandra Davis, daughter of Mr. and Mrs. Otis Ransom of Lubbock, became the bride of Howell Ray Phelps, son of Mr. and Mrs. Ray Phelps of Spearman Dec. 22 at 3 p. m. in the Second Baptist Church of Lubbock, Rev. Chapmond Davis of Longview, brother of the bride officiated at the double ring ceremony.

The bride was given in marriage by her father. She wore a floor-length sheath dress of satin brocade. The dress featured a portrait neckline, bracelet-length sleeves and a detachable full chapel train which swept from the waistline. The bride's headpiece was a small pillbox of satin and lace trimmed with seed pearls with a tiered veil of imported silk illusion. She carried a bouquet of white cattleya orchids surrounded by stephanotis and caught by an antique jeweled holder.

The matron of honor was Mrs. Jo Hatler of Ore City, sister of the bride and bridesmaids, Miss Janice Phelps, sister of the bridegroom, Miss Vala Dawn Taylor, Miss Angela Kay and Miss Mary Ruth Thomas of Midland.

The attendants wore street-length dresses of emerald green brocade satin featuring empire bodices with full controlled bell skirts and bracelet-length sleeves. Their headpieces were matching fabric pillbox hats

with silk illusion and they carried long-stemmed white roses.

Ray Phelps was his son's best man. Groomsmen were Robert Spoonemore of Los Angeles, Calif., Joe Mike Bryan, cousin of the bridegroom, Jerry Davis of Houston, brother of the bride, and Curtis Hart, Sherril Davis, brother of the bride and Sam Lange of Grand Falls will be ushers.

Beverly Davis and Melody Jo Davis of Longview, both nieces of the bride, were candlelighters.

Flower girl was Jill Hatler of Ore City, niece of the bride.

Mrs. Frank Finch, organist, accompanied Miss Connie McMillan and Miss Babs Davis, niece of the bride, soloists, in traditional wedding music.

A reception in the church parlor followed the ceremony.

Immediately after the ceremony, the couple flew to Colorado Springs for a week of honeymooning at the Broadmoor Hotel and ski resort. For traveling, the bride chose a suit of tan wool accented with a beige crepe blouse. A brown suede hat, alligator accessories and a beige mink-trimmed coat completed her ensemble. She wore an orchid from her bridal bouquet.

The bride is a graduate of Monterey High School of Lubbock and is presently a sophomore student at Texas Tech where she is majoring in

ATTEND CHURCH

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

THE HANSFORD PLAINSMAN

Jay Taylor Is Named Man of Year in Livestock

Jay Taylor, a rancher and financier of Amarillo and President of Baker-Taylor Drilling Co. of Spearman, this week was named Man of the Year in livestock by the Record Stockman, a 74-year-old weekly livestock newspaper.

Taylor, 61, will be the 21st to receive the annual award which will be presented during the National Western Stock Show in Denver next week.

In naming Taylor as recipient of the "Oscar" of the livestock industry, the Record Stockman cited the Texas rancher for his years of leadership in state and national organizations; his dedicated work toward the improvement and marketing of livestock; his perseverance in the promotion of beef; his earnestness in providing opportunities for young people; his faith in the land and in the cattle industry; and his devoted leadership in community and civic affairs.

Jay Taylor was born Jan. 24, 1902, on the Suggs Ranch in Montague County, Tex. His father, the late James Taylor, was a wagon boss for the Suggs

spread. The Taylor family later moved to Walters, Okla., where Jay received his early education and grew to manhood. Here, on the Taylors' Oklahoma stock farm, which is still owned by the family, Jay worked with his father in developing a registered Short-horn herd of cattle.

He later went to work in the oil fields to earn money for college and enrolled at the University of Oklahoma to

Jay Taylor

study Petroleum engineering. During this time, he went to work for the far-flung Halliburton enterprises, a firm of which he was later to become general manager and executive vice president. He moved to Amarillo during the oil boom in the mid-1920s, and in 1927, he and the former Imogene Herring were united in marriage.

In the years that followed, Taylor became known as one of the nation's leading cattlemen, raising Herefords on the Rafter O Ranch near Vega and on the Double H spread near Magdalena, N.M. Here, he established one of the finest strings of Herefords in the Southwest, along with becoming an outstanding leader in the oil industry and in finance.

Of their children, Steve Taylor lives at Dimmitt; two daughters, Mrs. Barry Young and Mrs. Armin Rembe live in Dallas and a third daughter, Mrs. R.F. O'Toole, resides in New York City.

FARMER'S TAX GUIDE HERE

I have received in my office the 1964 edition of the Farmer's Tax Guide. Any farmers wanting a copy, please drop by my office or call me and I will send you one.

The investment credit feature is something most farmers will be particularly interested in. If you acquired new or used depreciable property for use in your business, you may be able to reduce your income tax liability by 7% of the amount of your qualified investment for the first year the property is placed in service. With the large number of irrigation wells put down last year, this investment credit feature could be very important. This is explained in the new tax guide

on page 3.

TAKE SOIL SAMPLES NOW

The next few weeks would be a good time to take and send in soil samples to determine your crops fertilizer needs. Don't guess on your fertilizer requirements but take a soil sample, which is a very good guide for the amount of fertilizer you need to apply. I have an information sheet in my office that you need to send

with the soil sample.

NEW BEEF GRADES

Presently, the Agricultural Marketing Service of the USDA is proposing a new type of grading system for beef carcasses.

The yield grade proposed by the USDA uses thickness of fat over the rib eye, area of the rib eye muscle, amount of kidney fat, and carcass weight as factors in determining the percent of trimmed retail cuts from the carcass. Such yield grades are numbered from 1 through 5, the lower numbers indicating a higher cutability.

Use Irrigation Pipeline For Efficient Irrigation

It is a common opinion that seepage and evaporation from irrigation ditches result in the loss of a considerable amount of water pumped from wells for irrigation. Seepage losses are more serious in soils of the zita, dalhart, mansker and portales series. These soils are the most common "loose" soils being irrigated in this area. In all of these soils the average seepage rate is approximately 26% higher during the daytime than at night. Part of this 26% is due to the higher rate of evaporation during the day.

Tests have shown that seepage rates may average 13% on zita soils and 14% on mansker soils. This compares with 6% seepage loss on Pullman soils.

For example, if you have a well pumping 1,000 gallons per minute, you would be losing 13% or 130 gallons per hour using an open ditch on a zita soil. On a 24 hour set this would amount to 3,120 gallons of water lost. In dollars and cents, this would amount to \$2.10 per 24 hour set. This isn't even taking into consideration what this water would have produced had it been used to water a crop. The \$2.10 per 24 hour set only takes into consideration the cost of pumping the 3,120 gallons. Seepage losses may vary from 12% to 28% on the same soil. The ditches used in this test were in use before the tests were made. They were not dry.

This information serves to point out the importance of irrigation pipeline in making your irrigation system more ef-

ficient. Water conveyance structures such as irrigation pipelines are especially effective on the "loose" soils of this area.

Irrigation farmers are advised to consult with their Soil Conservation Service technicians for types of soil found on their farms.

Some of the other advantages of irrigation should also be considered. Practically all of the transport system is buried, consequently no significant amount of land is removed from crop production. Better and easier control of water is another factor to be considered. Irrigation pipeline can also save labor since the water is more easily distributed and there is no ditch bank week problem.

This article has been intended to bring out some of the reasons why an irrigation pipeline can make your irrigation system operate more efficiently.

There were 500 horse-drawn transit lines in 300 cities in this nation in 1880.

Indians worked flint by flaking and grinding to produce weapons and tools.

Tortoise shell combs are made from the shell of a tropical marine turtle.

Many horsecar lines in the 1880's had funeral cars with a hearse compartment.

School Census Begun

The Spearman Independent School will begin taking the 1964-65 School Census Jan. 8 extending through Jan. 31.

All children who will be six and under 18 years of age on Tuesday, Sept. 1 must be enumerated.

Census blanks will be sent home with the students in school for parents to complete and return to school the next day.

Parents of first graders of the 1964-65 school year who do not have other children in school are asked to contact Mrs. Nan Ballinger at the Superintendent's Office, phone 3233; so that they may be added to the census roll.

Any parent who fails to have their children's name on the census rolls will not be eligible for state funds for the education of their child. The census

prescribed by law, has two purposes: (1) It is employed as a basis for the distribution of funds to schools by the Texas Education Agency; (2) Census data is used to plan and project the needs of the local school program.

The great highway performer

'64 Chevrolet Impala Sport Sedan and (background) Impala Convertible

'64 Jet-smooth Luxury Chevrolet

What does it take to make a car a great highway performer?

If the car happens to be a '64 Chevrolet, one thing only. A highway.

You'll find everything else already neatly packaged for you—on the car exactly as you pick it off the showroom floor.

There's a choice of seven engines—all the way up to a twin-carb high-compression 425-hp V8*—and four transmissions, including a finely honed 4-speed stick shift.*

And underlying it all—a bump-skimming Jet-smooth ride that helps keep the performance great even when the highways aren't so great.

What about special performance equipment? Professional driving skills? Forget them.

Nobody has to doctor or coax or soup up these Chevrolets to get the best out of them.

And that's really the test of a great highway performer: Just about anyone can get a kick out of driving one, just about anywhere, just as it comes out of the showroom.

Next time you're out your dealer's way, allow a few extra minutes to sample one of these highway performers on your own. A few are really all you'll need. That's enough time to do a lot of driving in a Chevrolet. *Optional at extra cost

Lynx Are Victorious Over Sunray Bobcats

Spearman's rebuilding Lynx pulled their third victory of the season out of the hat Tuesday night against Sunray in Lynx gym. Spearman won 38-30.

A tough defense, led by the rebounding of Jimmy Kirkland, in the second half pulled the game out of the bag for the Lynx.

Pat Pattison hit 15 points to lead the scoring for Spearman. He was helped by some timely field goals by six other Lynx. Larry Butts had 7, Kirkland, Ken Shufeldt and Mac Crawford 4 each, Leroy Callaway and Bob Phillips each had 2. Pattison had seven field goals and one free shot.

Spearman came out shooting and held a 12-8 first quarter lead. Sunray closed the gap in the second quarter and the score was tied 19-19 at the half.

In the second half Spearman kept shooting and turned on the defensive pressure. Callaway stopped the inside shooting with aggressive defensive work and the Bobcat outside shooting broke down with Kirkland coming up with a big share of the rebounds.

Benny Johnson picked up 10 points to lead the Bobcat scoring.

The female Bobcats were not much at shooting, but they played a clawing, roughhouse style of defense on both ends of the court that kept the Lynx-ettes awful busy. Spearman won 36-29.

Vickie Wilde pushed and shoved her way to the top of the scoring list with 14 points, six field goals and two free shots. Judy Mathews led Sunray with 16 points.

Coach Dean Weese revolved

his squad in and out of the contest all night. Forward Phyllis Patterson, who had been battling a virus infection, was used sparingly.

Wilde and Joan Hackley went most of the way as forward and guard, while the other 10 members of the team ran in and out of the game. Hackley was working out front as a guard instead of post guard much of the night.

Itger scoring for the Lynx-ettes were Patterson's 13, Helen Greever 7 and Linda Bengé 2.

THE WAY I SEE IT

by Robert Cordes

Do you often run away from your conscience, hoping to gain peace?

Glen Leonard, a bulldozer operator, while driving to his home in the country decided to test the acceleration of his new automobile. Passing the driveway to his farm, he made a sharp U-turn at the next road, sped back and turned into the farm road, satisfied with the test.

Meanwhile, the rapid U-turn and burst of speed was observed by the driver of a station wagon, who apparently mistook the light blue machine for an unmarked police car. He turned into the road to Leonard's farm to escape detection, but was closely followed by Leonard, who was only interested in getting home. The alarmed driver continued at high speed to the dead end of the road, abandoned the station wagon, fled into the nearby corn field. The car was loaded with stolen goods, cigarettes, shotgun shells.

The Bible says, "The wicked flee when no man pursues," (Prov. 28:1) How often it is that men run away from nothing more than their own conscience, carrying it with them all the time.

Perhaps even you have had a guilty conscience and carried the burden. You may have pretended to be a good citizen, or even kept things from your family...hoping they never would find out the truth. Guilt wears into our soul with great fear.

Like the thief, he imagined

great things when guilt was upon his mind. So too you may be dragging around great weights of guilt.

Where do you find peace of mind? Running away will never bring peace. But Jesus Christ will receive your confessions and offer to you peace of soul. "If we confess our sins, He is gracious to forgive us our sins and cleanse us of all unrighteousness." (John 1:9)

Why carry around unconfessed guilts when you can go with a cleansed conscience? Come to Christ. Come in true confession. Go in peace. It works!

Organization of a industrial foundation to help secure business and industry for Spearman. This organization should have the power to secure building sites and other assistance needed by sound firms.

These suggestions are not listed in any order of importance except immediate and long range. By long range we do not mean waiting 10 years to begin the program.

We have probably omitted some that you think are more important and if they were brought to our attention, we might agree.

However, there is no need of arguing over what needs to be done, there are so many important things we need to tackle, everyone will have a job.
