

Dooley May Take Oath Of Office By September

FORT WORTH, July 12. (AP)—Joseph B. Dooley estimates he will take his oath of office as new federal judge for the northern dis-

trict of Texas by September 1. He will use the intervening days to get his law practice in shape to pass on to other members of his firm in Amarillo, he said yesterday. Mr. and Mrs. Dooley were here between trains as they returned to their Amarillo home from Wash-

Week's Business

Permits For Home, Warehouse Boost Local Building Figures

Two permits, one for construction of a home and one for a warehouse, boosted local building figures during the past week. W. J. Sheppard was granted a permit to construct a frame and stucco residence at 1021 Bluebonnet Ave. at a cost of \$10,000 while Harry Stalcup received authority to build a brick and concrete warehouse at 610 Main at a cost of \$12,000. Only one other permit was issued for new construction. It went to R. E. Hughes, who plans to build a residence at 1610 Young street. Estimated cost is \$4,500. Four other permits for repairs and moving boosted the week's total to \$32,375. The new total for the year is \$753,124.

Only four warranty deeds were filed in the county clerk's office. They listed property valued at \$5,400, which increased the year's total to \$1,377,433. The county tax assessor-collector's office issued licenses for 14 new automobiles, two motor scooters and one truck during the week. Prices continued good at local livestock auction firms and receipts held up well for cattle. The market for sheep was strong, although receipts were light for some classes. Fat lambs set the pace, ranging up to 20-cents a pound.

Radar 'Clearance' Device Now On All Continental's Planes

Airline radar, an awaited safety device development, is now being installed on the planes of Continental Air Lines, it was announced Saturday by Robert F. Six, president of the air company.

Continental will be one of the first airlines in the nation to completely equip its entire fleet with this new safety device, a simplification of war-time radar. Six said the step was in keeping with company policy for safety which has contributed to 12 years of operation without loss of life or injury to passenger.

Under the technical name of "terrain clearance indicator," the 15-pound radar is adapted in cooperation with the Hughes Aircraft company in Los Angeles. It has undergone extensive testing by Continental. Six expressed the belief to CAB officials that all airlines should have the equipment. Utilizing the tall warning device for fighter pilots as well as more

FACES CHARGE
Elbert R. Walker has been lodged in the county jail on a charge of forgery. He was arrested by members of the sheriff's office Saturday morning.

Large Dairy Sale Scheduled

One of the largest sales of dairy animals ever conducted here will be held at 1:30 p. m. Monday when the Dillinger and Kelly herds are dispersed.

A total of 179 head, including Jersey, Holsteins and Durhams with ages ranging from six months to eight years, will be offered for sale.

The auction will be held at the Bill Dillinger dairy, which is located two blocks south of the College Heights school. Kenneth Bozeman will be auctioneer.

300 Cub Scouts And Parents Attend Big Barbeque At Park

More than 300 Cub Scouts and parents attended a barbeque in City park Friday evening which climaxed the annual Big Spring district Cub Day camp.

The barbeque concluded three full days of activity in the park for 127 Cubs who registered for the camp. Daily programs included swimming, ball games, scouting contests and handicraft projects. Approximately 35 Cubs and 15 adults remained at the camp site overnight after the barbeque.

The dippers of power shovels are often made of aluminum.

4-H Club Boys Study Grasses

Thirty Howard county 4-H club boys conducted an extensive study of grasses Saturday morning on the courthouse lawn in preparation for judging contests at the annual district 4-H encampment.

The encampment is scheduled for July 28-29-30 at Fort Stockton. E. J. Hughes, district conservationist for the Martin-Howard SCS district, and County Agent Durward Lewter assisted the club boys in their study Saturday.

Twenty-five club members from this county will be eligible to attend the district encampment.

TO CALIFORNIA
Mr. and Mrs. Reuben Creighton depart today on a two weeks' vacation trip to San Francisco, Los Angeles and other points.

QUESTION

Is Your Home Like An Oven?

Answer

Yes, because heat from the sun penetrates into your attic and side walls. From there it goes inside your home. When the sun goes down, this heat is trapped and it takes several hours for your home to cool inside. FI-Blak Insulation stops this heat from penetrating into your home.

Cosden Loads Crude Oil For Shell Company

Cosden Petroleum corporation, already hustling to meet an unprecedented demand, has entered into an agreement to load 8,500 barrels of crude daily for Shell Petroleum corporation. The arrangement became effective Thursday and will continue indefinitely. Cosden will receive crude from Shell pipelines, loading at the racks on siding immediately north of the refinery, and will dispatch for delivery at Shell refineries at Houston and Wood River, Ill. Doug Orme, traffic manager for Cosden, estimated this would call for around 1,200 cars per month to be loaded here. Volume will, of course, depend upon the tank car situation, which is momentarily aggravated beyond the terrific demand by high water and floods which have delayed movement and unloading in the North and East. The Texas & Pacific Railway company has furnished an additional switching crew so that loading may progress on a 24-hour basis at Cosden. Half of the rack has been revamped with special piping and pumping for the crude loading. The remainder will be kept busy meeting the heavy demand of 1,200 cars per month on regular orders, plus another 800 cars of fuel oil for the T&P. Cosden early in June entered into contract with the T&P to furnish 200,000 barrels of fuel oil per month to meet the railroad's rocketing traffic demand. Put-through for the refinery was boosted from 420,000 to 500,000 barrels per month in order to meet the contract.

Mary Louise Porter Wins Amateur Prize

Mary Louise Porter, who presented piano selections, won first prize at the weekly amateur program in the City park amphitheatre Friday night. Mrs. Gladys Dalmont took second place, while Aline Hester was third. Mrs. R. E. Blount was in charge of the program.

Does Stomach Gas and Bloat Make You Feel Miserable?

If so, here is how you may get blessed relief in freeing your stomach from this nervous distress. It works this way: Everlasting food enters the stomach a vital gastric juice must flow normally to break-up certain food particles: else the food may ferment, sour, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, twinges sleep, weakness. To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula, which contains special and potent activating ingredients. Also, SSS Tonic helps build-up non-organic weak, watery blood in nutritional ailments—so with a good flow of this gastric digestive juice, plus rich red blood you should eat better, sleep better, feel better, work better, play better. Avoid punishing yourself with overdoses of soda and other alkalis which counteract gas and bloat when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

Public Schools Hope To Keep Eight Million Surplus Fund

AUSTIN, July 12.—Local school authorities over Texas are awaiting with some apprehension the meeting next Monday, July 14, of the State Board of Education. The question is—will this year's surplus in the available school fund be applied against the 1946-47 school year apportionment, or the 1947-48 school year's?

Cotton Gins Prepare For Heavy Volume

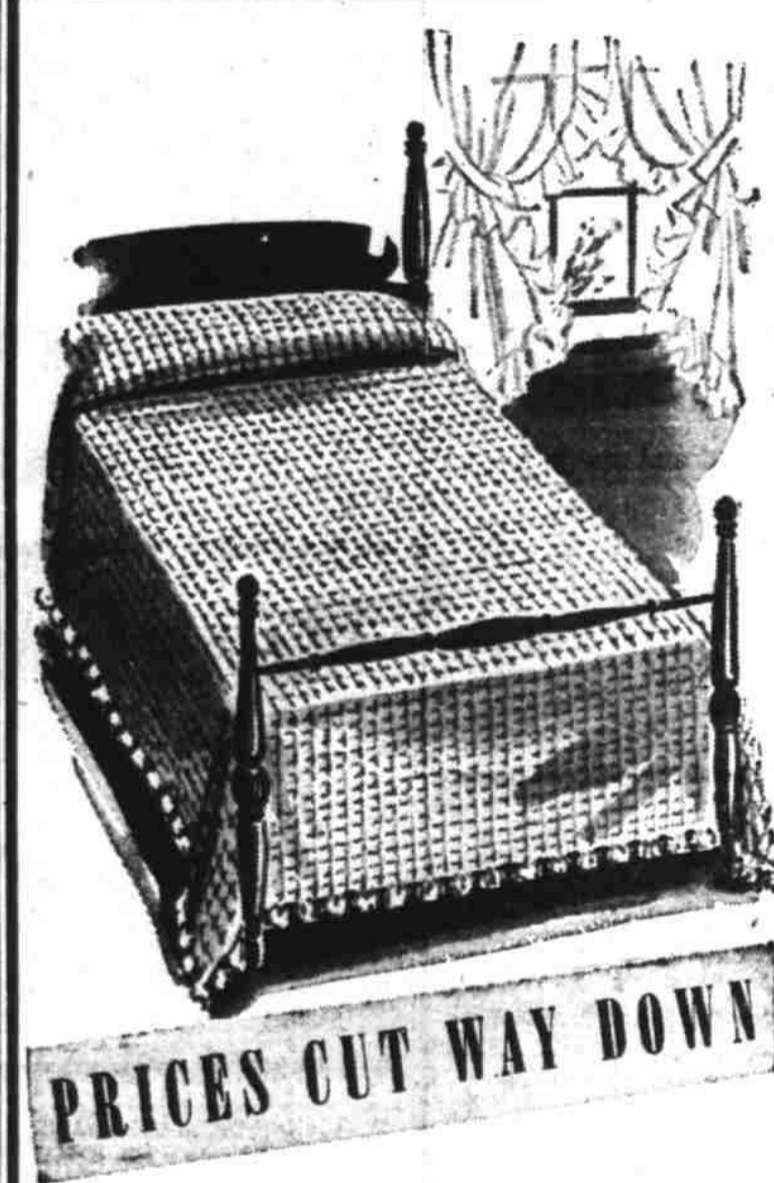

Howard county's cotton gins are preparing for a heavy volume which is in prospect for the fall harvest season, according to reports this week. Generally, giners have their equipment in good condition and they expect to be able to handle 1,200 to 1,300 bales a day during the peak of the harvest. Indications are that 13 gins will operate in the county this year, and, barring any unforeseen mechanical difficulties, each gin could process 100 bales a day, at least for a short period. The capacity per day however, will depend considerably upon labor conditions, some giners report. Some difficulty in obtaining a supply of workers sufficient to operate on a 24-hour a day schedule already is anticipated. However, in view of current crop prospects, the giners are making efforts to solve their employment problems in advance, and they expect to be able to keep their equipment in operation steadily after the season opens.

T&P Traffic Still Gaining

Traffic on the Texas & Pacific continues to maintain the busy pace, which has gradually increased in tempo throughout the first half of the year. Bulk of the plus movement still comes from the loading racks at Midland, where an average of 300 cars of crude per day is dispatched for Eastern markets. Empties are collected and dispatched from Big Spring and the cargo returned and broken into two trains. Cosden Petroleum corporation has been originating around 2,000 cars a month and a new arrangement with Shell for loading crude will about double the volume originating at the refinery in July. Cosden's products for delivery total around 1,200, plus 800 cars of fuel oil per month for the T&P. Through traffic includes a strong seasonal movement of fruits and vegetables, with an average of around 80 a day being re-iced at the Southern Ice company docks here. Employment demands are strong, trainmen being the pressing need. The T&P also is experiencing a need for more locomotive power, and several retired engines have been returned to service. Rumors of another loading dock around Wickett give promise of still greater volume on the T&P before the end of the year.

And it's a considerable stake for which the school districts are playing: Possibly \$8,000,000. Statisticians for the office of Comptroller George Sheppard are preparing their estimates now for next Monday's meeting of the board. They'll give you an off-the-cuff estimate of an additional \$.50 per capita. Other experts—including the state headquarters of the Texas State Teachers Association—are hopeful for \$6—or a surplus of \$8,000,000 in the available school fund this year. While the independent school districts are vitally concerned about the state board's decision, the districts which get rural aid, or equalization, funds are indifferent about the whole thing. Because the new equalization law says that equalization aid will be granted only to supplement whatever funds the school district has on hand. If the per capita bonus is made a balance carried over to the next school year, it will mean that much less in equalization aid. Hence the small amount of apprehension. It's small because in the summer of 1944 the then attorney general, Grover Sellers held unequivocally that a balance of surplus accumulated in the available school fund during any school year. To change that opinion would require a new ruling by the attorney general.

Wonderful, too, is the tiny price—and the savings you accumulate! Savings in cleaning bills, in work in time . . . because these spreads wash easily and need no ironing (just fluff out in the breeze)!

Lamesa Boy Loses Hand In Accident

Lewis Hogan, 15, of Lamesa, suffered injuries which resulted in the loss of a hand in an accident at the Big Spring Mattress Co. Saturday morning. Hogan, who was employed at the Mattress factory, reportedly caught his hand in a piece of mechanical equipment used to process cotton for mattress making. His right arm was severed between the wrist and the elbow.

Glenn Smith, Jr. Made Corporal

Hospital Explosion In New Orleans

NEW ORLEANS, July 12. (AP)—One person is dead and four are being treated for injuries suffered here yesterday in an operation room explosion at Baptist hospital. Raymond Wilson, hospital business manager, said the explosion occurred while an anesthetic of ethylene and oxygen was being administered to Miss Lois Ellsworth, daughter of a retired bank-

er. She died several hours later of suffocation, Dr. C. Grenes Cole, Orleans parish coroner, reported. He classified the death as accidental.

YOUNGSTERS 'MANUFACTURE' FLYING DISC; FOOL ADULTS

TWIN FALLS, Idaho, July 12. (AP)—Four lads with an imagination that runs to flying discs may or may not be laughing up their sleeves today after their version of a flying saucer had practically the entire local populace, the FBI, army intelligence officers and police on the run yesterday.

The boys created and planted in a local yard an object that looked to them, as well as to the army and civilian officers just like a flying disc should look. Their hoax was exposed after Assistant Police Chief L. D. Mc-

Cracken was tipped one of the boys knew something about the disc.

The creation, which took two days to complete, was made from parts of an old phonograph, burned out radio tubes and other discarded electrical parts. It had a plexi-glass dome, radio tubes, burned wires and glistening gold and silver sides.

Since the boys are juveniles their names were withheld. They will not be prosecuted, McCracken said.

The disc, resembling two band

COMPACT SIGNED
WASHINGTON, July 12. (AP)—President Truman today signed legislation extending to September 1, 1952, an interstate agreement to conserve petroleum and gas. The pact has been effective since 1935.

FATALLY INJURED
DALLAS, July 12. (AP)—William H. Fletcher, 22, of Dallas was fatally injured here yesterday when the motorcycle he was riding was in a collision with a truck.

cymbals placed face-to-face, reposed today at Fort Douglas, Utah, where sixth army intelligence officers attempted to decide what to do with it.

MacArthur Wants Firm But Reasonable Jap Peace Treaty

TOKYO, Sunday, July 13. (AP)—General MacArthur declared today the peace treaty with Japan, "without yielding firmness in its essential mandates," should avoid "punitive, arbitrary and unrealistic provisions," and by its terms set the pattern for future peace throughout the world.

The supreme commander outlined his views on the principles to be embodied in the peace treaty in a statement lauding the Far Eastern commission's policy decision as "one of the great state papers in modern history."

The action by the 11-Pacific nation commission announced yesterday in effect approved the occupation directive MacArthur received from President Truman Sept. 6, 1945.

MacArthur said the agreement on basic allied policy provides the entire framework for the peace which "we shall win" in Japan. The treaty, he added, "may now be approached with assurance of complete understanding in principle and full unity of purpose in evolving its detail."

No date has been set as yet for the Japanese peace conference. MacArthur has advocated it be held as soon as possible.

The FEC decision chided allied policy on Japanese assets outside the home island because of the commission's inability to determine whether they should be included among reparations.

MacArthur commented, however, the decision "sweeps aside fears currently felt that great nations

of the world are unable to reconcile divergent views on such vital issues in the international sphere and demonstrates with decisive clarity that from an atmosphere of conflicting interests and opposing predilections may emerge common agreement."

The supreme commander's statement said the basic element of allied policy—disarmament and demilitarization of Japan—has been completed. And even without "external controls," he said, "Japan could not reach for modern war within a century."

Quarter-Million Wheat Crop Sets A Record For The County

The county's 1947 wheat crop—was all but knocked down Saturday for a gross of approximately a quarter of a million dollars.

Major buyers reported a total of 85 cars shipped up to Saturday with the movement all but complete. This was not the exact number of cars, but the corrected total on the basis of 1,500 bushels per car.

Handled through local elevators was a total of 127,500 bushels of wheat, most of it going for No. 1 and \$1.90 per bushel. In addition, a comparatively small amount was trucked out and there is no accurate means to estimate the total. This, plus the commercial carry-over for seed and feed, puts the total around \$250,000. Most of it

was Howard county wheat. A negligible amount of other small grain came to market, including one car of barley and part of a car of oats. This was being

retained locally for feed purposes. The crop goes into the record as having easily outdistanced any previous wheat production here, possibly by as much as 50,000 bushels. Harvested acreage has been estimated from 10,000 to 12,000 acres.

The slang phrase, "third degree," is believed to have been suggested by the third masonic degree, that of master mason, which is conferred with considerable ceremony.

Trend of the Family

There's Pop — and Mom — and the kids — somehow all of them have to get together on which car it will be for the family.

Well, if you go by the pollsters, there's no problem.

One poll asked the youngsters who are old enough to have fixed opinions which car they preferred.

It was Buick — head and shoulders.

Another went to the ladies, guardians of the family pocketbook.

And running way ahead of other cars at its price — staging a nip-and-tuck battle for second with one of

the "riced three" — was this safety, trim and fresh and gay, as a Paris bonnet, new as tomorrow in looks and line.

As for the men —

Is a poll necessary to show how men go for the lift and swing of eight great Fireball cylinders?

Do you have to ask to find out that they prefer a car big and steady and sure-footed on any road as this Buick is?

Is there any man who wouldn't rather have the smoothness of four gentle coil springs, the quick, deep-throated answer of this star performer to his treadle-foot, the sense of perfect mastery of two generous tons that are ever "obediently yours"?

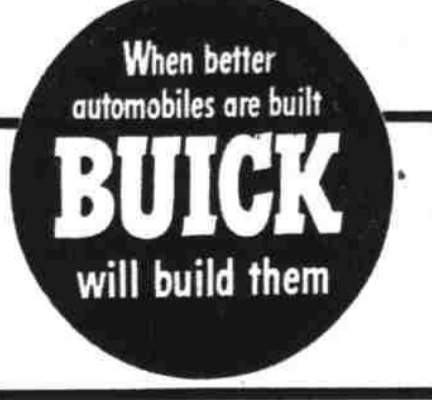

The answer's written on the order books of Buick dealers from coast to coast: This is America's most wanted automobile.

This is the one the whole family goes for — on style, on size, on room, on power, on performance — so why not join the trend?

We'll take your order any time you say — and give it equal consideration whether or not you have a car to trade.

Texas Congressmen Urge More Money For State's Waterways

WASHINGTON, July 12. (AP)—More money for Texas waterways was urged upon the senate appropriations committee today by Senator Tom Connally and Reps. J. Frank Wilson, Wingate Lucas and J. M. Combs, all Texas democrats.

The Texans asked the committee to approve all outlays voted by the House and to add funds for several other projects.

Connally urged that Congress provide \$2,500,000 for flood control work on the North Concho river at San Angelo, as a "compromise." The House voted no funds for the project, which received \$2,245,000 last year. Col. Peter Ferings of the Army Engineers, testified that the engineers could use \$6,500,000 economically there this year.

Connally urged that the \$1,103,800 approved for the Hords Creek dam near Coleman be hiked to \$1,585,500—"enough to finish it." He asked that the committee approve "at least" the \$4,825,000 voted by the House for Whitney dam.

A \$20,000 appropriation for planning work on the Cow Bayou-Sabine river navigation project was urged by Combs and Connally. The House voted nothing for this project.

Saying the Denton Creek dam, near Grapevine, is urgently needed for flood control and an adequate water supply for university park and Highland Park, Connally, Wilson and Lucas joined in urging insertion of \$500,000 for the project.

The Week

(Continued From Page One)

the Smith-Doxey act. The county agent can oblige.

Dallas To Be Focal Point For Probe

DALLAS, July 12. (AP)—Dallas Monday is expected to become a focal point from which will stem the North Texas phase of a state-wide investigation by Attorney General Price Daniel to determine whether recent gasoline price increases are in violation of the state anti-trust laws.

District Attorney Will Wilson said today his co-operation was requested by Daniel in a long-distance telephone conversation.

The attorney general told Wilson four of his assistants from Austin would arrive here Monday to launch the inquiry in this area.

WRONG PEDAL.

Benjamin Gragusta, driving instructor, was taken to St. Joseph's hospital with the injuries he received when his pupil used the accelerator instead of the brake at a street corner. Mrs. Blanche Shirk, 57, suffered a few scratches when the car nosed into the side of a fruit store.

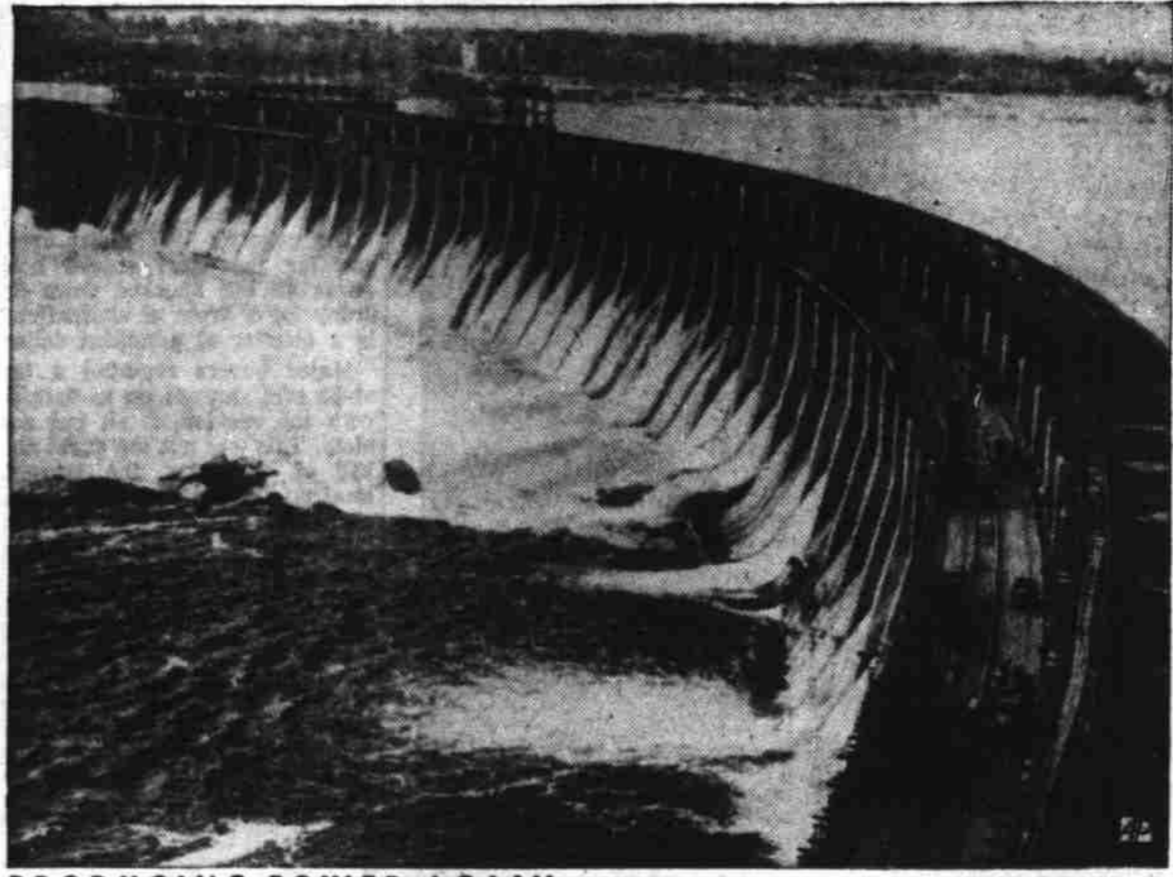

For a comprehensive review of business and agricultural activity here during the first half of 1947, we suggest you read a survey prepared by Wacil McNair for today's issue. Some facts may prove eye-openers.

Business in this area, at least, is at an all-time peak for the T&P. Loadings here are up sharply over last year and they will approximately double this month with a new crude shipment program underway. In addition, 300 cars of crude oil loaded at Midland are being made up here. For the moment, the T&P could wish for a double track, more tank cars and locomotive power.

Cubs, boys of pre-scout age, learned Thursday evening to "rough it" when thundershowers and high wind struck their dry camp. For a time they were marooned in the city park by flooded draws. But when it blew over, the youngsters went on with their activities.

Wheat yield here for 1947 has set a new record and the county's figure for the year will be around 125,000 bushels. In a few spotted sections, land to small grain will be planted to hegar, contributing an unusual double crop.

Re-appointment of Shine Phillips as a member of the state pharmacy board leaves Big Spring with two representatives on state boards. Dr. O. E. Wolf is a member of the state board of veterinary examiners.

PRODUCING POWER AGAIN—The Dnieper River dam in Russia, a large section of which was wrecked during the war, has been almost rebuilt and is producing power again.

Midland Man Takes Office As Head Of Underwriters

Roy McKee, Midland, was installed as president of the Big Spring Life Underwriters association at the Settles hotel Saturday evening as new officers assumed their duties.

The contributions of life insurance companies were lauded in an address by Dr. P. W. Malone, who cited the stability of the institutions, increasing values in benefits and flexibility of policies, research services as evidence of sound public service. Underwriters have contributed much through their recognition of obligation to others and the community, he said.

Clant E. Higginbotham, Big Spring, retiring president, announced that the Big Spring association was one of two in the state which had registered membership gains. McKee praised work of the Big Spring underwriters in keeping the association alive during war years and lauded H. P. Steck as program chairman for the year.

Besides McKee, other officers are Steck, vice-president; Doc Graham, Midland, secretary-treasurer; Higginbotham, national commissioner; W. W. Barker, Midland, Roy Reeder, O. A. Hickman, Herman McNabb and Julia Boyce, Big Spring, directors.

Roy Hickman, son of Mr. and Mrs. Hickman, entertained with novelty whistling arrangements, accompanied by Helen Duley, Harry Echols played his composition, "Concerto in C Minor," and while Mrs. R. E. Lee sketched with chalk, Helen Blount, accompanied by Helen Duley, sang "End of a Perfect Day."

Joe Pond served as master of ceremonies, and the program was arranged by Julia Boyce. Next meeting is in Odessa on Aug. 2, and on Sept. 13 George Butler, state insurance commissioner, will speak at Midland.

Rev. J. M. Scott of Magnolia, Ark., pictured above with his wife, will serve as principal speaker at a revival service at the Apostolic Faith church, 908 N. Lancaster, which gets underway at 8 o'clock this evening. The meeting will continue nightly through Sunday, July 27. Rev. Amos Watkins is the local pastor.

Atom Secrets

(Continued from Page One)

notes and other documents marked "secret" pertaining to the atomic bomb.

"In addition," Hoover continued, "a folder was located in the family vault at Mt. Lebanon containing confidential and highly restricted data pertaining to the development and construction of the atomic bomb."

"These documents, which von der Luft secured while assigned to the Manhattan Engineer district by the army prior to his discharge on March 9, 1946, were all recovered and promptly delivered by FBI agents to the atomic energy commission."

Hoover said that in connection with the investigation of von der Luft, "it was further disclosed that Ernest D. Wallis, who was assigned by the army in Nov. 1944 to the Los Alamos installation as an official army photographer, might be in possession of restricted data."

The FBI chief said Wallis was interviewed and that "some 200 photographs and negatives were located and seized" in his studio.

Hoover said these pictures "showed the various phases of the atomic bomb and the test explosion and were promptly turned over to the atomic energy commission where atomic experts found that numerous of the photographs and negatives were classified as "top secret."

Southwestern C-C Institute Prexy Named In Dallas

DALLAS, July 12. (AP)—Harold J. Bryant of Shreveport, La., today was announced as new president of the southwestern chamber of commerce institute for the ensuing year, succeeding William Holden of Fort Worth.

His election was announced at today's luncheon of the institute, meeting here, where new members of the board of managers were introduced. They include Max Hood, Albuquerque, N. M.; and J. E. Bell, Corpus Christi.

New members of the student affairs committee, who will help handle details of next year's institute include Bob W. Taylor, Corpus Christi.

Postal Supervisors End Convention

FORT WORTH, July 12. (AP)—Postal supervisors in Texas concluded their 25th annual convention here today with re-election of officers, selection of San Antonio as the 1948 convention city, and referral of two highly controversial issues to field committees.

Re-elected were R. R. Royal, Houston, president; W. H. Hubbard, Fort Worth, first vice-president; Cecil W. Fouts, Dallas, second vice president; N. G. Pauling, San Antonio, secretary-treasurer; and Carl M. Bessner, Austin, and Walter T. Clark, Lubbock, executive committeemen.

Mansfield

(Continued from Page One)

Mrs. Frank Schmidt, Kingsbury, Tex.

At Austin, Gov. Beauford Jester said the state highway patrol would escort the funeral cortege, including a congressional delegation, from Columbus to Eagle Lake.

The governor paid tribute to Mansfield as a "tried and true public servant." He voiced regret that absence from the state would prevent him from attending the funeral services Tuesday.

"No member of our national house of representatives was more respected by members of that body than this senior member of the Texas delegation," Jester said in his tribute.

Governor Jester said he would call special elections for August 23, if possible, to fill the congressional posts left vacant by Mansfield's death and the appointment of Rep. Ewing Thomason of El Paso as a federal judge. Elections to fill two legislative vacancies have been set for that date, which coincides with the statewide constitutional amendment election on the college building program.

Airfield

(Continued from Page One)

the purchase of the machine.

The WAA blamed the incident on a mix-up in its property disposal division, and immediately took steps to transfer another machine here from Marfa.

The Marfa vehicle, which is virtually identical to the one held here, arrived Saturday morning," and City Manager H. W. Whitney said the other truck would be sent to Rosebud as soon as that city dispatches another representative here.

Local men who sat in on the conference in Dallas included Whitney, Commissioner H. W. Wright, Harold P. Steck, commander of the local American Legion post, and J. H. Greene, chamber of commerce manager.

They conferred with Morgan Lewis, regional WAA manager, and several of his department heads.

A Cub In Size... but a BEAR for Work!

and Now—

INTERNATIONAL HARVESTER PRESENTS

THE Farmall Cub!

● For all operations on farms of 40 crop acres or less—and truck gardens.
● For special operations on truck farms.
● For large farms that need an extra tractor.

That's the Farmall Cub, the first tractor in history that's built right and priced right for a great new group of tractor owners.

The Cub is the newest member of the famous FARMALL FAMILY. It brings the advantages of the FARMALL SYSTEM OF FARMING to the small, family farm.

It's a Cub in size, but "a BEAR for work." You get big-

Farmall quality and design, plus scaled-down, small-tractor economy. And there is a full line of matched, quick-change, easy-to-control implements.

The smooth-running 4-cylinder engine develops approximately 9 1/4 h.p. on the belt. It uses considerably less than a gallon of gasoline an hour. There's a comfortable, roomy seat... ample crop clearance under the chassis... and "Culti-Vision" to give a clear, unobstructed view of your work.

Fit the Cub into your farming operations. We'll have one on hand soon, so you can climb in the seat and drive it. You'll find it handles as easily as your car.

Registered trade-mark.
ONLY International Harvester builds FARMALL Tractors.

Czechs Make Treaty With Soviet Union

PRAGUE, July 12. (AP)—Klement Gottwald, communist premier of Czechoslovakia, announced today a new five-year economic treaty with Soviet Russia by which Czechoslovakia would receive 200,000 tons of Russian wheat.

In a brief speech on the Prague radio 30 minutes after returning from Moscow with Foreign Minister Jan Masaryk, Gottwald said the text of the pact would be announced tomorrow.

"Among its provisions," he said, "Czechoslovakia is to receive from Russia 200,000 tons of wheat and 200,000 tons of fodder, presumably within the next 12 months. This will be in return for exports and manufactured products of Czechoslovak heavy and light industries."

Gottwald said the results of the Moscow trip were a "great victory," and that the visit had shown "what a great help the friendship of the Soviet Union is both from the standpoint of our security and our economy."

A telephone call from Gottwald in Moscow to the cabinet last Thursday night caused the government to reverse its decision to attend the economic conference which opened in Paris today, Gottwald in his speech made this short reference to the conference:

"It is impossible to talk about economic reconstruction without it being explained how this is in-

Howard County Falls Short On E Bond Sales

With an unofficial deadline set for Tuesday, Howard county is falling short on its E bond purchases during the U. S. treasury's current campaign.

Sales here last week amounted to only \$318.75 in this series, although one G bond in the amount of \$1,000 was sold.

This inched the E bond figure for June and July to \$40,372, or 67.3 per cent of the \$60 quota. Sale of G bonds have amounted to \$132,860, contributing to a grand total of \$173,232.50, far in excess of the \$110,000 over-all quota.

Ira Thurman, county bond chairman, said it was possible that payroll deductions, credited to Howard county, might increase the E total.

In appealing for substantial purchases Monday and Tuesday, as well as continuation of a systematic E bond program throughout July and the remainder of the year, Thurman pointed to an analysis of the saving bond program by Dr. Arthur A. Smith, head of the SMU economics department.

Dr. Smith pointed out that management of the record public debt is imperative, that "the treasury seeks to spread ownership of the public debt as much as possible through a continuation and expansion of the sale of savings bonds. . . . These sales are used to meet maturities and redemptions on bonds previously sold and to help retire bank-held securities that mature."

This overcomes turning the debt into money, which creates inflationary conditions. Banks may use securities for expanded credit, hence the advisability of retiring as much as possible of this portion, and also of selling enough additional bonds to meet redemptions by private individuals.

Grandmother Takes First Plane Ride

Mrs. Ida Hilburn, 85, took her first plane ride Saturday—and it was a long one.

Together with her sister-in-law, Mrs. L. T. Hilburn, 68, Harlingen, who had made some pleasure hops before, Mrs. Hilburn boarded a Continental Air Line plane Saturday morning for El Paso, where they transferred to one of American Airlines' big DC-6 super-liners for a non-stop flight into Los Angeles.

They plan to spend about two months in California, visiting with relatives in Los Angeles and Oakland. Mrs. Ida Hilburn, mother of 11 children, all of whom are living, has four sons in California.

DESIGNS IN PLASTER—Edward Krumpe, New York sculptor and wood carver, looks over a plaster figure which he designed. Busts, lamps and chandeliers also were made by Krumpe, who calls this work "creative-plaster."

Fifty Farmers From Mexico To Make Seven Day Texas Tour

COLLEGE STATION, July 12. (AP)—A group of about 50 farmers from Mexico will tour Texas for seven days beginning July 21 to observe agricultural practices north of the border with a view to adapting them to Mexican farming.

Texas A&M College will be host to the group July 24. The visitors will spend the day on the campus and at the college farms and studying research methods in livestock

and field crops. Dr. Ide P. Trotter, director of the extension service, said today.

The trip, sponsored by the national confederation of small land owners, is the first in a proposed semi-annual series to southern and western states. Another tour is planned in October during the Texas state fair.

The group, traveling in two buses, will be met at McAllen July 21 by E. C. Martin, extension service assistant state agent, and Calvin T. Johnson of Dallas, director of the Sears-Roebuck foundation. At McAllen, the visitors will inspect citrus orchards. They will visit the Beville experiment station and see a brush clearing demonstration. July 22, will be devoted to a demonstration of agricultural machinery by San Antonio dealers and visits to poultry producers in the area.

At Austin the next day the party will be received by Commissioner of Agriculture J. E. McDonald and later will see the processing of turkeys and other foods at a frozen locker plant.

ACTRESS—Pretty Patricia Alphin of the movies poses beside a country fence in her new bathing suit.

Charles Sheppard Succumbs Here

Charles Sheppard, 63, brother of George H. Sheppard, state comptroller, died in a hospital here Friday night.

The body was sent by Nalley Funeral home Saturday to Sweet-internment will be made today. Sheppard was a farmer and rancher.

R. W. Brown Funeral Set

Last rites will be said at 4:30 p. m. today for Raymer W. Brown, 51, commander of the VFW post, who died in his sleep Thursday night at La Junta, Colo. where he was visiting a brother.

The Rev. Cecil Rhodes, West Side Baptist pastor, and N. C. Dalton, president of the board at Main Street Church of God, will be in charge. Burial will be in the city cemetery.

Mr. Brown enlisted in the army June 27, 1918 at Camp Cody, N.M. and arrived in France in October of the same year for 10 months of overseas duty. He was married in 1917 to Miss Jesse Moore at Caddo, Okla. They came here in 1929, and Mr. Brown had operated a grocery business since.

Besides his wife, he leaves three daughters, Mrs. Bledsoe O'Brien and Floyce Brown, Big Spring, and Mrs. H. M. Hubbard, Jr., Crane; one son, Glenn Brown, Big Spring; two grandchildren, Kerry and Deanna O'Brien; a brother, D. T. Brown, La Junta, Colo., and a half-brother, Gay Cabler, San Diego, Calif.

The CHIROPRACTOR and You
 No. 19 of a series of articles published in the public interest to explain and illustrate the practice of Chiropractic.

CASE HISTORY No. 555. For fifteen years this woman suffered with rheumatism and was in a crippled state. Pain in the joints was so severe it became necessary to take tablets each night in order to secure some sleep. Many remedies, diets and treatments were tried but recovery seemed impossible. When eventually a friend suggested that she try Chiropractic, she at first objected, having heard that Chiropractic adjustments would hurt a person in her condition. But finally she consented. X-rays were taken and the site of nerve interference located. Then adjustments were commenced to remove this interference. In the patient's own words: "I was not hurt in any way, and within a few weeks the pain had left my joints. I could sleep without taking tablets. In a short time the swelling in the joints started to disappear and in four months' time I was again well."

CASE HISTORY No. 229. For twelve years this middle-aged woman had suffered with high blood pressure and associated symptoms of headache and dizziness. She was unable to do housework unassisted and life was miserable for her. Many treatments were tried without permanent relief. As a final hope, she decided to try Chiropractic and a series of spinal adjustments was commenced. After the first adjustment the headache was considerably relieved, and at the conclusion of the adjustments, blood pressure had returned to normal and headaches and dizziness had completely disappeared. Today this patient is able to do her housework without help.

CASE HISTORY No. 26. For years this man suffered with chronic lumbago. He could obtain no relief whatsoever, professionally or from remedies. He was strongly advised to seek the advice of a Chiropractor and did so. Routine analysis indicated interference with the nerves feeding the lumbago region. Spinal adjustments removed this nerve pressure and immediately the patient began to get well. Within a short time Nature had effected a complete recovery.

THE CAUSE OF DISEASE. Chiropractors have found that illness and disease are most often caused by pressure upon the nerves which carry vital nerve force from the brain to various parts of the body. The nervous system radiates from the spinal column, and it is here that even slight pressure from a displaced segment of the spine can impede the flow of nerve force from the brain, thus interfering with the function of one or more parts of the body. This nerve interference can be located accurately by the Chiropractic technique. The Chiropractor can then remove the pressure by a simple adjustment with his hands only. Drugs and surgery are not employed. Once the cause of the illness is removed, Nature itself restores the affected part to normal.

FOR FURTHER INFORMATION concerning the modern Chiropractor and what he can do for you, Phone 418. Appointment only.

No Evidence Of Increased Rents In City

If there has been any increasing of rents in Big Spring under terms of the new rent control act, the area rent control office has been scooped. A number of landlords have secured the required form for voluntary lease agreements involving increases not to exceed 15 per cent. But through Friday evening, none had been executed and returned. This does not necessarily mean that no mutual agreements for rental increases have been reached, but under the law the returned forms and lease agreement signed by both landlord and tenant must be returned to the office in the Petroleum building within 15 days after signing. Increases not to exceed 15 per cent are possible only when the landlord and tenant reach mutual agreement. Several Big Spring landlords have expressed the belief the increase in many instances would not be worth the trouble.

Dawes Issues Challenge To Lion Workers

Bill Dawes, president, challenged committee chairmen, officers and directors, to put every member of the Lions club to work during the year. He called for individual participation and committee functioning as the club's new fiscal year gets underway. From more than a score attending the quarterly meeting at the St. Mary's parish house Friday evening, the president received suggestions for club activity and other matters. Present were Dawes, Joe Pond, international counselor, Dan Conley, Joe Pickle, Dewey Martin, W. E. Greenlee, K. H. McGibbon, Boone Horne, Lulu King, Rev. R. Gage Lloyd, Avery Falkner, John Reutter, Jack Y. Smith, Wayne Williams, Willard Sullivan, Truett T. Thomas, Schley Riley, district deputy governor, Gilbert Gibbs, Harold P. Steck, Otis Grafa, immediate past president, Dr. Ed Strauss, C. W. Norman, George Melear and Dr. P. W. Malone. All but one of the 20 committees had representation.

U. S. Agrees To Help Turkish Army

WASHINGTON, July 12. (AP)—The United States and Turkey signed today a formal agreement under which approximately \$100,000,000 of American assistance will be supplied to "strengthen the security forces which Turkey requires for the protection of her freedom." Announcement of the signing at Ankara after a month and a half of negotiation was made here by the state department. This is the second agreement signed under the Greek-Turkish \$400,000,000 aid program which Congress authorized in May. The Greek agreement for \$300,000,000 of economic and military assistance was the other.

Man Pleads Guilty To Assault Charge

Johnnie Littlefield entered a plea of guilty in justice court Saturday morning to the charge of assault and was fined \$1 plus costs. He elected to work out the fine. Littlefield allegedly drew a gun on another man on the north side one night last week.

Twisting Power Noted In Late Thunderstorm

Reports from the area Saturday reflected some twisting power wrapped up in the thunderstorm which struck this area Thursday evening. At Forsan, a garage was picked up, without even scratching a car inside, and deposited on top of a residence. Several other garages and outhouses were demolished by a twister which was both narrow and short. One garage between the old and new telephone exchange buildings was smashed, yet neither of the other buildings was harmed. Nearby a new outhouse was demolished, while an adjoining shack, in process of being dismantled, was not disturbed. An estimated three inches of rain fell at Forsan, inundating the highway and roads. Wednesday evening a blinding rain fell at Forsan. Seven miles southwest of Garden City, Bud Perry, a wrangler on the Ronald McDaniel ranch, escaped unharmed when lightning struck a chimney and ignited the bunkhouse. The structure burned to the ground although an inch rain lashed at it while it was in flames. A small twister struck Bethel, near Snyder, and demolished a two-room home of Mr. and Mrs. Milam Fowler, who were not at home.

Physician Takes Stanton Post

STANTON, July 11.—Dr. Landon R. McIntire assumed his duties with the Martin County Memorial hospital in Stanton Friday. For approximately two years, he has been associated with the Malone & Hogan clinic-hospital in Big Spring following his separation from service in 1946. The last two of five years in service were devoted to practice of internal medicine and he was chief of the hospital section at the army hospital in Fort Snelling, Minn. Dr. McIntire is a native of Mexico, Mo. and did his pre-medical work at the University of Missouri. In 1933 he earned his doctor of medicine degree from Washington University at St. Louis, interned at Santa Clara hospital in San Jose, Calif. and St. Louis county hospital. He engaged in private practice in St. Charles, Miss. until he entered service. For the time, Dr. and Mrs. McIntire and their children, Kathleen and Patrick, will continue their residence in Big Spring.

THE TEXAS POLL

Texans Mostly In The Dark About College Building Plan

AUSTIN, July 12.—Texas voters will decide at a special election on August 23 whether or not the State's colleges and university may launch a 30-year building program, but more than half of the people say they have neither heard nor read anything about the building proposal. Approximately 61 per cent of all adults—and 55 per cent of the qualified voters—admitted that they knew nothing about the college building program amendment when questioned by Texas Poll interviewers.

However, in response to a question briefly sketching the main proposal in the amendment, about two-thirds of the qualified voters said they would vote for it. There was relatively light opposition to the proposal, although many people were undecided how they would vote. A larger majority of those who have heard or read something about the amendment favored it than did those who had not heard or read anything about it. Texas Poll interviewers first questioned a cross-section of Texans on their familiarity with the amendment which was approved and submitted to the people for a special election by the recent Fifth Legislature. Persons interviewed were asked: "Have you heard or read anything about the proposed constitutional amendment to finance new buildings at our state colleges?" Here are their answers:

Men	42%	58%
Women	37%	63%
All adults	39%	61%
Qualified voters	43%	57%

Then Texas Poll interviewers asked:

"This amendment would allow the University of Texas, A & M, and the other state colleges to build about sixty million dollars worth of new buildings within the next 3 years. If you were voting on this amendment today, do you think you would vote for it or against it?"

Speech Study To Be Given Monday

The second in a series of eight studies on the elements of effective speaking will be held at the Toastmasters club Monday at 6:30 p. m. in the St. Mary's Episcopal parish house. Any person interested may take part in the meetings by payment of the \$5 monthly fee for meals and incidentals. The club is offering the training as a public service.

Men	65%	19%	16%
Women	48%	12%	26%
All adults	66%	18%	16%
Qualified voters	66%	18%	16%

In a breakdown of this tabulation, Texas Poll figures show that those who have read about the amendment are more certain of how they would vote than those who have not heard anything about it. Only 6 per cent of all adults and 5 per cent of the qualified voters familiar with the amendment were undecided about their vote, while 27 per cent of all adults and 24 per cent of all qualified voters who were unfamiliar with it were still undecided.

NEW SERVEL WITH FROZEN FOOD LOCKER

Up to 60 packages of frozen foods—a whole bushel basketful—fit easily into the big Frozen Food Locker of the 1947 Servel Gas Refrigerator. And that's only one of Servel's new conveniences. For fresh foods, there's moist cold and dry cold to keep vegetables crisp, fruits appetizing, meat tender. There's extra roominess, too, for clear-across shelves adjust to eleven different positions. Famous for silence, the Servel Gas Refrigerator is basically different from all others. It has no moving parts in its freezing system. Instead, a tiny gas flame does all the work. That's why, as more than 2,000,000 owners know, Servel stays silent, lasts longer. New 1947 Servels are now on display.

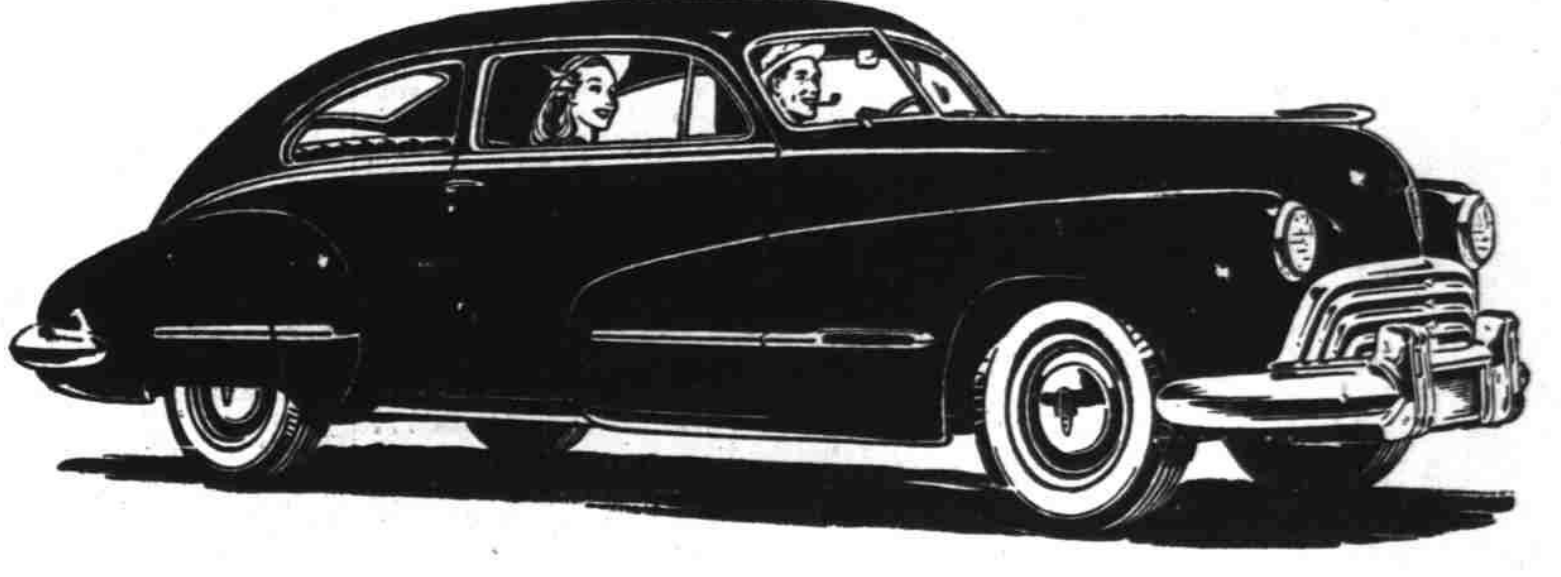

STAYS SILENT... ONCE

"What a Thrill!"
 ...to take the wheel of a smart new Oldsmobile!"

You've probably heard these words on the radio—these catchy, up-to-the-minute words from the brand new Oldsmobile song.

THE LOWEST-PRICED CAR WITH

HYDRA-MATIC DRIVE
 Optional at extra cost

What a thrill! :: to drive a car so smart in appearance, so advanced in styling, that people turn admiring eyes as you go sailing by.

What a thrill! :: to drive a car so smooth in performance, so soothing in its cushioned riding ease, that the last mile of your vacation trip seems just as restful as the first.

And what a special thrill! :: to drive mile after mile, through town and cross-country, without ever shifting gears or pushing a clutch! That's what motoring is like with GM Hydra-Matic Drive®—the fully proved, fully automatic drive that is available only in Oldsmobile among low and medium-priced cars. Hydra-Matic Drive shifts gears automatically—eliminates the clutch pedal completely. And Hydra-Matic Drive brings stepped-up performance—improved economy—greater safety, too!

No wonder so many enthusiastic owners agree... "It's SMART to Own an Olds!"

Until your new Oldsmobile is here...

OLDSMOBILE SERVICE

...let us help you keep your present car in shape. Summertime is vacation time—you drive more often and make longer trips. That's why top-quality service—Oldsmobile service—is particularly important during these next few weeks!

Slight Recession In May—

Business Shows Gain Here During First Half Of 1947

Although a slight recession was apparent in May, when general statistics revealed a decline on a state-wide scope, business conditions in Big Spring gained during the first half of 1947, according to several of the conventional yardsticks.

Actually, most of the commonly accepted criteria paralleled or approximated the records of 1946, but increases noted in a few and the influence of certain circumstances on others which would require consideration in any analysis, indicates a moderate gain over the first half of last year.

Steadiness might be singled out as the principal factor which upheld local business between Jan. 1 and July 1. The six-months period produced few incidents which could be tagged as even mild "booms." Instead, averages which were established early in the year were maintained for the most part for the entire half.

Unemployment records, regarded by authorities as one of the chief business indicators, set the pattern which was confirmed by a majority of other time-honored factors.

Figures made available by L. O. Connally, manager of the local Texas Employment Commission office, showed little basic change between Jan. 1 and July 1. However, an analysis of TEC activity during the period might suggest a slight "turn for the better." For example, reception contracts at the office registered a steady gain, month by month, up to May when a decline was registered. New applications for jobs, however, dropped after reaching a peak during March, and at the same time reception contacts were increasing, local referrals to positions also were mounting. Placements followed a different pattern, moving from a seasonal low in January to a May peak before dropping back slightly below the monthly average during June.

Spring mounted at a steadier rate than those of last year. More than one third of the complete total for 1946 was accounted for during the first quarter, and the summer months provided a distinct recession. During the first half of this year, however, a mild recession in the spring was overcome when June figures climbed. On July 1, totals were only \$90,000 behind those of 1946, and the steady pace indicates that the annual grand total will exceed that of last year.

Warranty deed records accounted for the sharpest decline this year, dropping from \$2,102,569 for the first half of 1946 to \$1,372,023. However, approximately half of the 1946 figure was accounted for by one transaction when the Crawford and Settles hotels changed hands.

Although a slight decline has been noted, postal receipts actually held up better than expected, with less than \$5,000 separating the 1946 and 1947 first half totals. Some sources predicted a sharper decline as men were discharged from the armed forces and returned to their homes. Totals for the first half of 1947 amounted to \$52,543.35, as compared to \$57,298.28 for 1946.

Railroad shipments in carload lots originating from Big Spring registered a healthy gain, starting in January with an increase over 1946 and varying little on through June. Outbound shipments fell below the 1946 record only twice during the first half on monthly records, and the six months total showed 6,561 cars for 1947 through June 30, as compared to 5,174 during the same period in 1946.

Inbound shipments dropped in the second quarter, although monthly figures staged a recovery in June. Figures for the first half show 1,906 cars for 1947, as compared to 1,340 for 1946.

Farm and ranch cash income exceeded the three-million dollar mark easily during the first half of 1947, principally through two major sources. Local livestock sales concerns reported gross receipts from regular auctions totalling approximately \$2,900,000. Large numbers of livestock were brought here from other points to be sold, but at the same time some Howard county livestock sold at other markets.

Represented in the livestock figures were some 38,300 head of cattle and calves, approximately 1,750 head of hogs and 4,100 head of sheep. Weekly sheep sales did not start here on a regular schedule until May 15, however.

Howard county farmers also realized approximately a quarter of a million dollars from their wheat crops, which produced a new source of revenue. Commercial sales have exceeded 130,000 bushels, by far the largest wheat crop ever grown in the county.

Deposits in Big Spring banks dropped \$1,368,746 during the first

half of the year, but total resources declined only \$711,000, a relatively small amount for the season.

Robert Boykin Gets Release From Navy

Ens. Robert Boykin, former Big Spring resident and graduate of the local high school, has just received his discharge from the Navy, and Friday returned to his home at Midland to be with his parents, Mr. and Mrs. Calvin Boykin.

Ens. Boykin served as a naval aviator, and has been stationed recently at Okinawa. He flew home last week, making stops at Guam and Pearl Harbor, and received his discharge at San Diego.

TWO HUNDRED YEARS—That's about the aggregate length of time these four old timers have been in Martin county. Among the early arrivals for the annual reunion at Stanton last week were, left to right, J. R. (Dick) Arnett, former sheriff, who came to Stanton in 1904; Carl Houston (1890), former commissioner; John Atchison (1907), former county judge; and Bill Epley, who went through to the Pecos in the 80s and returned in 1891 to settle in Martin county for keeps.

THREE GENERATIONS are represented in this group attending the Martin County Old Settlers reunion. Left to right are Mary Jane and Don Forrest and their mother, Mrs. F. A. Forrest; Mrs. G. W. Tom; Mrs. Dee Rogers, daughter of Dick Arnett; and Mrs. B. F. Smith, mother of Mrs. Forrest, and whose father-in-law, the late W. D. Smith, was the first of her family group to settle in Martin county. Several family groups at the reunion had three generations present. (Photos by Jack M. Hazden)

FOR THE RECORD—No reunion is complete without signing in the record book which shows the name and year of arrival in Martin county. Shown above, left to right, are J. C. Scott, who came to Stanton in 1924, Wilmer Jones, who arrived Dec. 7, 1906, to be exact, Mrs. Mattie Clinton Larsen of Blythe, Calif., who came in 1905, and her nephew, Mac Clinton, whose residence dates back to 1924. Mrs. Larsen qualified as the person having come the greatest distance to the reunion.

RENEW ACQUAINTANCES—These "old" timers were among those renewing friendships dating back over many years for some. At the Martin County Old Settlers reunion, left to right, were Mrs. Jendo Turner, Mrs. Mace Howard, who has been a resident since 1910, Mrs. C. M. Houston, whose 1887 stands as about the earliest arrival date at the reunion, Mrs. Flora Lewis Rogers (1890), Mrs. Houston Woody, Mrs. S. M. Wilkerson (1900) and her nephew, George Tom, one of the youngest at the reunion, James Rhodes, Mrs. Ray Wright (1920) and her two children, Norman and Baby David.

REUNION TIME AT STANTON—Part of the 150 pioneers and their families gathered for the annual Martin County Old Settlers reunion at Stanton last week square off for informal visitation, always the best feature of such gatherings. At extreme left some of the early day settlers, most of them cowhands on the open range, spin tall tales and recall the good old days. And like any other group of people, the women folk gather for their own sessions, too, while others placidly wait in the shade near the lemonade barrel for the moment when bulging picnic baskets were spread for the annual feast.

More Women Make Their Own As New Ankle Length Skirts Cause Excitement

Everywhere in the nation the advent of near-ankle sweeping skirts is causing a buzz of excitement. And more and more women are making their own!

Housewives past 40 years of age are making ventures into the realm of seams and buttons who never threaded a needle before. Young girls are finding that sewing is simple—and not unpleasant at all.

Evidently Big Spring women intend to tolerate the longer skirt fad, for saleswomen maintain that each sale of piece-goods is one-half to three-fourths more than a similar sale a year ago. Three of the leading fabric counters measure off an average of 300 yards a day each. One establishment has often sold double that in one day.

Longer skirts with drapes, yes, but not blueprints for unrecognizable garments. For this reason the higher priced patterns are not selling as rapidly as those under a dollar. One store reports an out-go of 50 patterns each day, while several others sell fewer. Women who wear sizes 12 and 14 contribute most to the purchase of patterns.

These made-at-home wardrobes are very often given the professional touch of fabric belts and covered buttons, a survey of button and belt shops reveals.

This popularity of sewing will continue far into the year as managers can prophesy. Fall materials are resting in most local store basements already and they include luscious satins in many colors, velvets and velveteens, corduroys, crepe-back satins and new sheer woolsens.

Heavy worsteds, fine gabardines, tweeds are being ordered for coats. And color choice even includes red and green.

Unlike what you read in the magazines, women do not buy the extreme designs in patterns.

Debra Bradford To Become Bride Of James Felts

Mr. and Mrs. P. L. Bradford are announcing the betrothal of their daughter, Debra, to James Ernest Felts, son of Mr. and Mrs. J. E. Felts, Jr.

The couple will be married July 18 in the home of the bride's parents, 815 West 17th street, in a single ring ceremony to be solemnized by Dr. C. A. Long, pastor of the First Methodist church.

Miss Bradford was graduated from Big Spring high school in 1942 and for the past three years has been employed by the school board. Felts, a graduate of Adamson high school, Dallas, is associated with the Big Spring Motor company.

Following the ceremony, the couple will live at 1602½ Gregg street.

Homemaker's Class Members Organize New Sewing Club

Plans were made to organize a Homemaker's sewing club to meet every Friday afternoon when members of the Homemaker's class of the First Baptist church met Friday morning in the home of Mrs. Roy Green.

Assisting Mrs. Green in entertaining was Mrs. Jim Skalksky.

Others present were Mrs. A. T. Lloyd and Mrs. Frank Wilson, guests, Mrs. V. W. Fuglaar, Mrs. W. A. Stall, Mrs. G. C. Potts and Mrs. G. C. Smith.

Party Compliments San Diego Visitor

Helen Jo Franklin of San Diego, Calif., who is in Big Spring visiting her grandmother, Mrs. H. L. Mason, was complimented with a party at the City park on her sixth birthday, Friday.

Highlight of the party were the honoree's mother, Mrs. Willie Mae Franklin and her aunt, Mrs. Dorothy Webb, both of San Diego.

Games were played and first prize in archery went to Bud Hill. Others present were George Lee Hill, Annabelle Lane, Raymond James, Lenord Tyler, Harry Ed Martin, district agent, Mrs. P. C. Lane and Mrs. George Hill.

Theresa Huestis, Paul Crabtree To Marry In August 29 Ceremony

Announcement is being made of the engagement and approaching marriage of Theresa Huestis, daughter of Mr. and Mrs. Henry G. Huestis of Forson to Edward Paul Crabtree, son of Mr. and Mrs. Edward Crabtree of Big Spring.

The couple will be married August 29 in the First Methodist church. Their attendants will be Grace Callahan of Sand Springs and a nurse in the Malone and Hogan Hospital and Bill Hix of Big Spring. The bride-elect is a graduate of Electra high school and nursing school in Wichita Falls General Hospital. For the past three years, she has been employed as nurse to Dr. J. M. Woodall, in the Malone and Hogan clinic.

Crabtree, formerly of Jackson, Miss., served in the Navy and has been a student in Howard County Junior College.

Two Guests Attend Sewing Club Meeting

Mrs. Roy Spivey and Mrs. John Stanley were guests Friday afternoon of the Variety sewing club which met with Mrs. Lee Wright.

Mrs. Paul Morris and Mrs. Wayne Morris were presented birthday gifts.

The hostess served refreshments to Mrs. C. E. Sandridge, Mrs. Lyndell Ashley, Mrs. Audra Vee Lewis and Mrs. Orbin Daily.

Tri-County Camp For 4-H Club Boys To Open July 16

Big Spring and Howard county 4-H club girls will be hosts Wednesday and Thursday for a Tri-County 4-H Club girls encampment in the Big Spring City park.

Taking part in the encampment will be approximately 150 girls from Howard, Mitchell and Martin counties.

Highlight of the camp will be a style show, in which every girl is to model something she has made during the year, and a pageant, both Wednesday evening at the amphitheatre. Big Spring Business and Professional Women's club is to sponsor the style show.

Handicrafts and recreation including swimming and games to be used in club work will be included on the program. Mrs. Grace Martin, district agent, will discuss records with the girls.

Esther Leinen, James H. Stiff Wed. In Lubbock

The marriage of Esther Leinen of Austin, daughter of Mr. and Mrs. William Leinen of Kinbrae, Minn., and James H. Stiff, Jr. of Lubbock, son of Mr. and Mrs. J. H. Stiff of Big Spring, was solemnized Saturday afternoon.

The double ring ceremony was read by the Rev. Father Blakeslee in the rectory of St. Elizabeth's Catholic church, Lubbock.

The bride wore a beige crepe afternoon dress fashioned with a cutout neckline and a diagonally draped skirt. Her accessories were brown and she wore white lace fingerless gloves. Her corsage was of small white orchids.

Mary Laubenthal of Austin was the bride's only attendant. She wore a teal blue street length dress with black accessories and a corsage of pink and red rosebuds.

John R. Freeland of McAllen served as best man.

Following a wedding trip to Colorado the couple will live at 2410 20th street, Lubbock.

Mrs. Stiff is a registered nurse, having graduated from Saint Mary's school of nursing at Rochester, Minn. Stiff attended the University of Texas and for the past three years has been employed with radio station KFYO. He was formerly with KBST, Big Spring.

Mrs. Gerald Hart Is Party Honoree

Mrs. Gerald Hart, the former Vernell Payne, was honored with a miscellaneous gift party recently in the home of Mrs. E. H. Wood.

Attending were Mrs. Matria Riddle and daughter, Anna and Mrs. Bill Pinkston of Odessa, Mrs. A. F. Angel of Stanton and Mrs. H. E. Payne, Mrs. M. W. Buecker, Mrs. McGary, Jany June Payne, Mrs. Grant, Mrs. Elmer White, Mrs. W. T. Jackson, Mrs. D. G. Hart, Mary Hart, Mrs. C. M. Wood, Mrs. Weidon Wood, Mrs. F. D. Rogers, Mrs. W. N. Wood, Mrs. D. W. Adkins, Mrs. Miller Russell, Mrs. T. E. Sanders, Mrs. W. C. Killough, Shirley Jean Killough, James Earl Killough, Willie Joe Killough, Dorothy Weatherman, Juanetta Wood, Joan Kilgore and Mrs. Maurice Meek.

Dolores Horne Marries Noel Hull In Service Read In Local Church

In a double ring ceremony read Saturday evening in the First Baptist church, Dolores Horne, daughter of Mr. and Mrs. Boone Horne, became the bride of Noel Hull, son of Mr. and Mrs. Britton Hull.

The vows were solemnized by the Rev. Cecil Rhodes, pastor of the West Side Baptist church before an altar of ferns, palms, candelabra and baskets of white and pink gladioli.

Traditional wedding music was played by Mrs. H. M. Jarratt, organist. Olene Leonard sang "Always" and "I Love You Truly," accompanied by Mrs. Jarratt.

The bride, given in marriage by her father, wore an aqua blue crepe street length dress fashioned with a lattice work high neckline and a drape bow at the side. Her accessories were white and she carried an orchid on a white prayer book. For "something old and borrowed" she wore an antique gold bracelet belonging to Mrs. Ray King. Her wedding dress was "something new" and for "something blue" she carried a blue lace handkerchief.

Jacqueline Skeeter was maid of honor. She wore a pink crepe dress with brown accessories and a corsage of white carnations.

Serving as best man was Clinton Hull, brother of the bridegroom.

Arlis Atkins and Lynelle Sullivan lighted candles.

Immediately following the ceremony, a reception was held in the home of the bride's parents, 1509 Nolan street. The three-tiered wedding cake was cut by the bridal couple.

Mrs. Ray King presided at the refreshment table, which was centered with an arrangement of pink and white gladioli. She was assisted by Miss Atkins.

The couple will live at 1908 Runnels street following a week's wedding trip.

The bride, a graduate of Big Spring high school, attended Baylor University two years. The bridegroom graduated from Big Spring high school before entering the Navy for two years. He is now employed by Big Spring Hardware Company.

Four Hostesses Entertain Ladies Golf Association Of Country Club

Mrs. W. E. Ramsey, Mrs. Carl Madison, Mrs. Tommy Hutto and Mrs. Rob Adams were hostesses for the luncheon meeting Friday of the Big Spring Country Club Ladies Golf Association. The head table was centered with a large arrangement of peach gladioli and other table arrangements were assorted summer flowers.

Bridge prize winners were Mrs. M. K. House, high, Mrs. J. M. Bower, second high and Mrs. R. W. Thompson, bingo. Luncheon guests were Mrs. L. Knight of Joplin, Mo., Mrs. Joe M. Bower, Mrs. M. C. Grigsby and Mrs. L. E. Phillips. The next meeting will be August 1 with Mrs. Sam Goldman, Mrs. Ted Groehl, Mrs. George Oldham and Mrs. Carl Blomshield as hostesses.

Travelers From Cosden Visiting Other Refineries

Mr. and Mrs. R. L. Tollett and daughter, Kay, spent last weekend in Wichita Falls. M. M. Miller returned to Big Spring Friday after an absence of nearly three weeks spent mostly in California on company business. Mrs. Miller and the daughters, Marilyn and Carolyn were with him on his trip. L. E. Maddux returned to the office last Monday after an absence of two weeks, spent in part visiting refineries in California. Mrs. Maddux and daughter, Patsy, were with him on the trip. A. J. Haines and family returned Friday night from a vacation trip to Houston and Port Arthur. Haines visited the Gulf Refinery laboratories while in Port Arthur. E. W. Richardson left Saturday on a trip to the west coast where he will visit refineries in California, Oregon, British Columbia and Wyoming before returning in about three weeks. Mrs. Richardson and his son, Ross, are with him on the trip. Mrs. Marnie J. Mayfield left Friday night for Long Beach and Catalina Island. She will join her son Dann, who is stationed with U. S. N. A. F. at Litchfield Park, Arizona, and they will visit in Las Vegas, Nevada, and Utah. Mr. and Mrs. R. E. Dobbins and baby left Friday night on a two-week vacation trip to Indiana. Isidor E. Silveria left yesterday on a two-week vacation which he will spend at Santa Maria, California.

Several Cosden employees attended the funeral of H. R. Goinick in Fort Worth last Monday. Goinick was the husband of the former Alma Borders, who was employed by the company for many years and who was here in Big Spring until December, 1944. Those attending the funeral from Big Spring included: R. L. Tollett, Mr. and Mrs. A. V. Karcher, Mr. and Mrs. Douglas Orme, Mr. and Mrs. J. W. Burrell, W. H. Wharton, Lee Harris, Helen Duley and Glynn Jordan. Ora Claire Yates was out of the office most of the week due to illness. Mrs. T. H. Greenfield was in the hospital the past week. Norma Griffin was out of the office part of this week due to a minor operation. This afternoon at 2 o'clock, six of the Cosden employee golfers will be hosts to six golfers from Coltex Refinery, Colorado City, in a golf match at the country club. Following the match the visitors will be entertained with a Dutch lunch. The following refinery employees are on vacation: H. C. Tidwell, H. D. Drake, W. J. Fike, M. B. Howell, W. A. Henderson, W. O. Washington, Geo. P. Amos, J. L. Banks, W. W. Moesser, James J. Smith, Adrian A. Porter, Milas Wood, and B. T. Bridges.

Cosden Chatter
NEWLYWED—Dolores Horne, daughter of Mr. and Mrs. Boone Horne, above, and Noel Hull, son of Mr. and Mrs. Britton Hull, were married Saturday evening in the First Baptist church. The couple will live in Big Spring following a wedding trip.

Jean Jenkins I. L. Reddell Marry Here

Jean Jenkins, daughter of Mr. and Mrs. J. D. Jenkins and I. L. Reddell, son of Mr. and Mrs. Luther Reddell of Moore, were married Friday evening. The ceremony was read by the Rev. Cecil C. Rhodes, pastor of the West Side Baptist church, in his home. The bride wore a white summer wool suit with white accessories and a corsage of gardenias and roses. For "something borrowed" she carried a white Bible; for "something new," she wore white gloves; "something old" was a gold bracelet of the bridegroom's mother and "something blue" was a blue blouse. Attending the couple were Mr. and Mrs. Charles Bell, Mrs. Bell is a sister of the bridegroom. Following a wedding trip to Carlsbad Caverns, the couple will live at 1100 Main street.

More Daughters Than Sons Born In Local Hospitals This Week

Daughters were in the majority in births this week, according to reports from the three local hospitals. At Cowper-Sanders clinic Friday Mr. and Mrs. Billy R. Spiers became the parents of a six-pound, four-ounce girl. The infant was named Peggy Sue. Royce Evans Gregory arrived on Friday also to Mr. and Mrs. R. E. Gregory. He weighed six pounds, 11 1/2 ounces. Arrival to Mr. and Mrs. Charles Keel at Malone and Hogan clinic July 6 was Pamela Ann, who weighed eight pounds, 10 ounces. Mr. and Mrs. Fred Ward became the parents Tuesday of a six-pound, eight ounce daughter who has been named Theresa Lois. Born Tuesday to Mr. and Mrs. Finley Woodull of Lamesa was a girl, Peggy Joan. The infant weighed six pounds, 15 ounces. Saturday at the Big Spring hospital a six pound, eight ounce son was born to Mr. and Mrs. J. Gordon Bristol. The child has not yet been named. Mr. and Mrs. Thomas Hammond became the parents of a girl Friday. She weighed seven pounds, 11 ounces and has been named Sue Gail. Betty Ann Carper is the new daughter of Mr. and Mrs. James Carper. The infant weighed four pounds, 12 ounces when born Friday. Born Thursday to Mr. and Mrs. H. L. Brewer was a seven-pound, one ounce girl who has been named Linda Kay. Kashmir, about the size of Utah, is India's largest native state.

CASTING FOR TOMORROW

A father teaches his son the thrill of fishing. And one day his son will teach his own son. Thus the world moves on. And whether it be the thrill of fishing, or the art of noble living, one generation teaches the next.

Many a great lesson of life is learned in such a humble setting as this one. For the foundation of education and growth is the "man to man" fellowship of father and son.

But Dad's free time is limited—these fishing trips are few and far between. Where else can this boy get the help he needs?

School and college will provide many of the resources for a successful career. And the Church School will instill the spiritual understanding from which noble living springs.

Wise is the father who gives the Church opportunity to help mold the life of his son—yes, and his own life as well.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

C. E. Talbot Grows Knee To Waist High Hubam Clover

Hubam clover on the farm of C. E. Talbot, operated by H. L. Mundell, six miles west of Fairview in the East Knott conservation group, is making good growth, reports L. H. Thomas, chairman of the board of district supervisors. The clover is from knee high to belt high, Thomas states and is making numerous nitrogen nodules which will greatly improve soil fertility and control weed and water erosion by adding needed organic matter to the soil.

New Cosden Plants Nearly Completed

Work is about complete on blending plants at Abilene and Orme, near Arlington, Cosden Petroleum corporation has announced.

Initial deliveries to these plants are possible in about 30 days. Currently, Cosden is delivering to its blending plant at Sweetwater, where 18 trainloads of gasoline have been shipped from the Big Spring refinery since February.

While there is no means of ascertaining the volume at this time, it is possible that around 15 cars a month will be required to meet demand at the three points where Abilene and Orme plants go into operation.

Shipments are being made under a special rate quoted by the T&P railroad, under a "pipeline on wheels" experimental structure. Savings up to 60 per cent off single car quotations are available on the trainload lots. Cosden ships in a minimum of 20 cars at a time, the equivalent of a reasonable tender through a four-inch line.

AB Club Plans New Projects

Projects for the coming term were discussed Friday at the American Business club's luncheon meeting, and C. Y. Clinkscales, new club president, announced the term committees and chairmen.

Committee and heads include Justin Holmes, membership; Charlie Stagg, program; Lee Harris, attendance; Doug Orme, social; Lloyd Hawkins, publicity; Roy Reeder, projects; Bill Horne, athletics; G. G. Morehead, civic affairs; Jake Morgan, bulletins.

Projects to be placed for club vote include six-man football coaching school, and a "soap-box" derby. Other projects are to be taken up at an immediate session of the projects committee.

Out-going president Ray Griffin was presented a past president's pin and Blundy Crane received the National club's "big hat" award for inviting three new members into the local unit.

Joe Clark, vice-president of the Fort Worth National bank, Fort Worth, was present as a guest.

board of supervisors, harvested 25 bushels of spring oats per acre off his newly constructed terraces last week. Stone completed nine around the first of the year and drilled them to oats the first of February to protect them against erosion and to provide needed oats for creep feeding his calves.

Terry Elkin who farms directly north of the tank farm four miles east of Midland on highway 80 is a staunch advocate of trashy farming and is definitely leading many of his neighbors to change their pattern of farming, according to Albert T. Jordan of the local Soil Conservation Service staff.

"Uncle" Terry last year plowed his land with sweeps, leaving the litter and residue on or near the surface. This spring he had no trouble with wind erosion. Elkin recently combined his rye, wheat and barley cover crop, plowed the stubble with sweeps and is planting the stubble to combine maize this week. Elkin has been handling his crop residue in this manner for the past two years thus leaving his litter on the surface and cutting down on evaporation by less plowing and with the use of mulch cover on or near the surface. Elkin is planting combine maize following the small grain cover crop.

C. R. Reed, cooperating with the Martin-Howard Soil Conservation District, is planning a special treatment on 50 acres of his farm located southwest of Elbow. The plot is deep sand that is subject to severe wind erosion. Reed plans to seed cane or grain sorghum on the plot this summer to be followed this fall with hairy vetch and Abruzzi rye.

Delegates Leave For Farm School

Several delegates from the Howard County Farm Bureau were to leave today for San Antonio, where they will attend the Southern Farm Bureau training school which opens Monday.

Several prominent agricultural men are scheduled to appear on the program at the training school. Clinton P. Anderson, secretary of agriculture, will address the group Monday evening, and Ransom Aldrich, president of the Mississippi Farm Bureau, will give a report on the recent meeting of the International Federation of Agricultural Producers.

Dr. Bob Montgomery of the University of Texas economics department, will be principal speaker at a banquet Tuesday night.

Regular classes will be conducted daily through Wednesday in the Plaza hotel.

Among those from the Howard county organization attending are Mr. and Mrs. J. D. Speers, Mr. and Mrs. Ellis Iden and Mr. and Mrs. C. H. DeVaney.

Recent Winds Helped In Insect Fight

Howard county crops may have benefitted from conditions that caused temporary suffering during the past week, late reports from farmers indicate.

Driving wind storms which carried banks of sand in front of showers whipped across cotton fields, and terraces and small portions of crop land were washed out in the eastern part of the county. However, the heavy damage was confined chiefly to small, spotted acreage and the winds greatly aided the battle against insects.

Some cotton also suffered from sand burns, but most of it is expected to recover. This damage may be totally offset by the aid it afforded in the control of insects.

Flea hoppers were increasing prior to the wind storms, but some farmers expressed belief that these insects suffered telling blows as a result of the storms.

County Agent Durward Levter said he believed that most farmers had completed application of poi-

son bait for grasshoppers. However, more poison bait will be available Monday at the farm labor camp for those who need additional supplies.

There was a larger pest causing crop damage during the past week, however. Week end reports indicated that a bumper crop of rabbits had been causing problems for many farmers. Consequently, poison bait for rabbit extermination was in heavy demand. Estimates were that more than 300 pounds of the bait had been distributed by Saturday.

'The Yearling' Is Feature Attraction At The Ritz Today

Marking a new Hollywood milestone, M-G-M's triumphant film version of "The Yearling" has its first local showing today and Monday at the Ritz theatre. The production, filmed in Technicolor with most of its footage photographed in the original Florida swampland locales, stars Gregory Peck and Jane Wyman in the respective roles of Penny and Ma Baxter, characters familiar to more than five million readers. The beloved character of little Jody, whose love for a yearling deer motivates the stirring plot is enacted by Claude Jarman, Jr., new juvenile acting discovery.

to his credit such screen hits and Academy Award caliber pictures as "The Human Comedy," "National Velvet" and "The White Cliffs of Dover." Sidney Franklin, teamed with Brown on "White Cliffs of Dover," again is united with him as producer. Such other memorable pictures as "Random Harvest" and "Mrs. Miniver" were produced by Franklin.

In keeping with the high stellar quality of the leading characters is the supporting cast, with such names as Clem Bevans, Margaret Wyckley, Forrest Tucker, Chill Wills, June Lockhart and young Donn Gift prominently featured.

The Weeks Playbill

RITZ
SUN.-MON.—"The Yearling," with Gregory Peck, Jane Wyman and Claude Jarman, Jr.
TUES.-WED.—"T hat Brennan Girl," with Mona Freeman and James Dunn.
THURS.—"Ghost Goes Wild," with James Ellison and Anne Gwynne.
FRI.-SAT.—"Blaze of Noon," with Anne Baxter, William Holden and Sonny Tufts.

STATE
SUN.-MON.—"Ramrod," with Joel McCrea and Veronica Lake.
TUES.-WED.—"Perfect Marriage," with Loretta Young and David Niven.
THURS.-FRI.—"Stagecoach," with Claire Trevor and Andy Devine.
SAT.—"Stranger Of Pecos," with Johnny Mack Brown.

LYRIC
SUN.-MON.—"The Jolson Story," with Larry Parks and William Demarest.
TUES.-WED.—"Vacation Days," with Freddie Stewart and June Preisser.
THURS.-FRI.-SAT.—"Homesteaders Of Paradise Valley," with Allan Lane.

RIO
SUN.-MON.-TUES.—"Aima de Bronce," Spanish language show.
WED.-THURS.—"Legion Of Missing Men," with Ralph Forbes.
FRI.-SAT.—"Tartan And His Mate," with Johnny Weissmuller.
SAT. MAT.—"Rustlers Roundup."

A BOY'S PROBLEMS—Heart-warming story of childhood is told in "The Yearling," the Ritz theatre's feature for today and Monday, and a film adaptation of Marjorie Kinnan Rawlings' prize novel. Made in Technicolor, the picture features Gregory Peck and Claude Jarman, Jr., (shown here) and Jane Wyman.

WESTERN MELODRAMA—Joel McCrea organizes a posse in this scene from "Ramrod," a costly western melodrama which headlines the program for today and Monday at the State theatre. Veronica Lake, Donald Crisp and Don DeFore are other principal players.

--Highlights On KBST--

PAUL WHITEMAN CLUB
 Showing how time ravages a great singing voice, recordings made 19 years apart by that notable tenor, Jimmy Durante, will be played on the KBST broadcast of the Paul Whiteman Club, Wednesday, at 2:30 p. m. The first record "Can Broadway Do Without Me" will permit listeners to hear the Durante who was nosing his way to fame in 1928. A 1947 disk, "Joe Goes Up, I Come Down," will offer some fancy musical ear witnessing of the substantial, rasp-toned Durante of today.

BOSTON SYMPHONY
 From the theatre-concert hall at Tanglewood, Mass., on the spacious grounds of the summer home of the Boston Symphony Orchestra, KBST, via the American Broadcasting Company on Tuesday will present the first of a series of four programs from the Berkshire Music Festival. Dr. Serge Koussevitzky will conduct the Boston Symphony Orchestra in the four Tuesday broadcasts, which will be heard at 7:30 p. m.

PRIZE SLOGAN
 The writer of the grand prize-winning "Fight Cancer" slogan, to whom the Damon Runyon Memorial Fund will award a completely furnished six-room Celotex house, will be announced by Walter Winchell on the KBST commentator's broadcast this evening at 8. Winchell also will read the winning slogan on his Sunday broadcast, climaxing the contest which brought more than 25,000 entries from every State in the Union.

HOUR OF MUSIC
 Sixty mirth-filled minutes of music and sparkling fantasy will be presented by the American Broadcasting Company and KBST when the "Hour of Music" bows at 9 o'clock this evening as summer replacement for Theatre Guild on the Air. The ABC salon orchestra, under the direction of Rex Maupin, music director of the Central Division; the Honey Dreamers, vocal swing quintet; June Browne, 21-year-old coloratura; Earl Tanner, tenor; a chorus of eight voices; and a dramatic cast including Studs Terkel, Sid Breese, Norm Gottschalk, Stan Gordon, Alma Platts, Phil Bowman, and Cliff Norton will congregate talents to present what promises to be one of the gayest hours in summer

- RIO -
 Sun. - Mon. - Tues.
"Aima De Bronce"
 Con Pedro Armendarez Maria Luisa Zea also "Three Double Doors"

Joel McCrea Stars With Veronica Lake In Western Drama

"Ramrod", a \$1,750,000 spectacle based on the widely-read novel by Luke Short, is the film offering at the State theatre today and Monday.

The picture is the inaugural presentation of the recently-established studios of Enterprise Productions, Inc. Headed by Charlie Einfeld and David Loew, the company is also set to produce "Arch of Triumph," the long-awaited film based on the novel by Erich Remarque, "Tennessee's Partner," based on a Bret Harte story, "The Other Love," "Body and Soul" and "Maggi Julot."

'Jolson Story' Brings Melody To Lyric Screen

Columbia Pictures' "The Jolson Story," enriched with Technicolor magic and told in the melodies that all of us have always loved, will play today and Monday at the Lyric theatre, featuring Larry Parks, Evelyn Keyes, William Demarest and Bill Goodwin.

Based on the music, the magic and the times of America's greatest entertainer "The Jolson Story" is described as a glowing cavalcade of this country's colorful show business. Any such story would have to be told largely in songs, and the new film is said to contain close to a record number of hit tunes for any one picture.

The list is indeed an imposing one. Included are "California, Here I Come," "Swanee," "You Made Me Love You," "My Mammy," "Waiting for the Robert E. Lee," "April Showers," "I Want a Girl," "Goodbye My Bluebell," "There's a Rainbow 'Round My Shoulder," "Liza," "Rock-A-Bye Your Baby" and "By the Light of the Silvery Moon."

Larry Parks portrays Jolson in the film and has been proclaimed as the sensation of the season because of his remarkable performance. Evelyn Keyes has the feminine lead opposite Parks, while Demarest and Goodwin enact characters familiar to the history of show business.

The screenplay for "The Jolson Story" was written by Stephen Longstreet. Alfred E. Green directed for producer Sidney Skolsky.

Wildcat Is Located Northeast Of Here

Staking of a wildcat seven miles northeast of Big Spring highlighted oil developments here last week. A. M. Lacey of Amarillo spotted his No. 1 P. L. Buchanan, on a farm-out from Cosden, 660 feet from the south and west lines of section 29-31-in. T&P, and planned to spud July 16. The test is projected for 3,600-feet as a rotary venture. It is a mile and a half north and slightly east of the Cox et al. No. 1 W. J. Flowers estate, which was dry at 3,670 feet. It is two and a quarter miles southeast of the Sloan & Lewis No. 1 Daniel, which was dry and abandoned at 3,464 feet. Nearest production is in the East Howard, about five miles to the southeast.

Humble Oil & Refining staked No. 1 A. C. Pratt, an 8,000-foot Ellenburger exploration in northeast Mitchell, approximately four miles northwest of Loraine. It is 12 miles southeast of production in the Sharon Ridge pool of southwest Scurry. The test will be 660 feet from the north and west lines of section 28-25-in. T&P.

Magnolia No. 1-A Guy Guffee, one mile northeast of Vincent production in extreme northeast Howard, was below 2,200 feet in lime. It is 660 feet from the north and east lines of the north half of the northwest quarter of section 58-20 LaVaca.

Six miles southwest of Big Spring, Stanolind No. 1 T. H. Gaskins, C NW SE 7-33-1s, T&P, was below 8,700 feet in broken lime and shale. The test is being drilled tight and rumors of a slightly high structure were not confirmed.

Cecil Guthrie No. 1 Lucy Mildred Coleman, 1,650 feet from the south and 330 feet from the east lines of the north half of the southwest quarter of section 76-97, H&TC, in the Coleman Ranch pool of northwest Mitchell, waited on tubing and storage. Location reportedly was staked for No. 2 Coleman 990 feet from the west and 330 feet from the north lines of the lease.

Wilbanks Bros. moved in clean-out machinery on their No. 1 Lucy

Mildred Coleman, 330 feet from the south and east lines of the north half of the southwest quarter of section 25-97, H&RC after shooting with 1,125 quarts from 2,584-2,810. The bridge kicked out and the test headed several times.

In the East Howard pool, Cecil Guthrie No. 1 W. H. Read, in proven territory, shot with 711 quarts from 2,670-2,918 after showing 30 barrels a day natural.

Dave Duncan No. 1 Roberts-Barkhurst, north central outpost to the small Carter pool, drilled past 2,100 feet in broken lime. It is seeking the White Horse lime, anticipated around 2,600 feet. The rotary exploration is 990 feet from the south and east lines of section 7-33-3s, TP.

Two Extensions Are Indicated For Dollarhide

By JOHN B. BREWER
SAN ANGELO, July 12. — Indicated northwest and south extensions to Silurian production in the Dollarhide field in southwestern Andrews county and the drilling in of the second well in the Owens (crinoidal) pool in western Crockett shared West Texas attention this week with the staking of locations for seven wildcats in six counties and leasing of a block for an eighth. Two of the wildcats are projected to the Ellenburger.

Locations for the first half of 1947 totaled 1,040, of which 61 were for wildcats, compared with 815, including 91 for wildcats, during the first six months in 1946.

The Jameson (Strawn) field in northwestern Coke county, with five wells completed and three tests drilling, all by Sun Oil Co., was insured a pipeline outlet. Scurlock Oil Co. of Houston, which now trucks the crude to Bronte and ships it by rail to a refinery in Canada, will lay a 6-inch, 25-mile line from the pool to Colorado City, whence rail shipments will be made. The line, costing around \$200,000, is due for completion in September.

Pure-Humble No. 1 E. P. Cowden and others, 1 1/2 miles northwest of Humble's discovery Silurian well in the Dollarhide field, topped Silurian pay at 8,493 feet. On the third drillstem test, from 8,605-55 feet, it recovered 7,115 feet of free oil, and drilled ahead. Location is the C SE SW 25-A52-psl.

Union of California No. 3 E. P. Cowden and others, C SE NE 7-A55-psl, extended Dollarhide Silurian pay one-half mile south and a quarter mile east when it flowed 50 barrels of oil to storage in 1 1/2 hours on a drillstem test from

8,470-8,530 feet. Five inch casing was cemented at 8,429 feet for completion.

Plymouth No. 2-O-A J. W. Owens, north offset to Cities Service and others' No. 1-B Owens, crinoidal discovery in western Crockett county, flowed oil at a rate estimated at 30 barrels hourly on a drillstem test from 5,662-90 feet. It is in the C NW NW 6-GG-H&OB.

Ellenburger production on the east side of the south part of the Todd field in Crockett was defined further by the abandonment of Humble No. 8-C fee, near the C SW SE 65-UV-GC&SF, at 6,740 feet. It probably is on a fault.

Amerada plugged No. 1-CTA University, northeastern Crockett wildcat, C SE SW 23-42-U, at 9,104 feet in barren Ellenburger topped at 8,012 feet, 5,399 feet below sea level.

Liner & Demplas of Big Spring spudded No. 1 Mrs. R. H. Spiller, slated 2,500-foot wildcat in southwest Menard county, 2,742 from the south, 660 feet from the east line of section 8, A. N. Poteet survey.

Rodeo Fever Symptoms Noted As Box Seats Sell Rapidly

First symptoms of rodeo fever are beginning to be evidenced here, for by Saturday—with almost a month to go—box seat sales were moving at a rapid clip.

Prospects were that they will be gone well in advance of the annual production of the Big Spring Rodeo association on Aug. 6-7-8-9.

Meanwhile, other developments are taking shape. Charlie Creighton, representing the association, said that arrangements had been made for two shows. Charles Shultz of Ponca City, Okla., and Ike Tacker, Waco, Tacker performed here last year.

In addition, Fagin Miller, Vernon, Paulene Nesbitt, Nowater, Okla., and Ruby Tacker, Waco, Okla., have been booked for trick and fancy riding.

Of special interest to fans is the announcement that white sand is being hauled in to carpet the arena floor. Not only will this help to control the dust problem, but it also will increase the lighting arrangement because of its reflecting power.

The arena is being reduced in size to speed the show, said Creighton. Time has been lost in previous productions because of the distance required to chase animals for second loops, etc.

Jack and Earl Sellers, Del Rio, who have produced the show for the association the past two years, will arrive here around Aug. 1 to make final advance arrangements, said Creighton.

GETS TRUMAN RETORT—A statement by former Missouri Rep. Roger Slaughter (above) in Tulsa, Okla., that a "scandal threatens" the office of the President brought a statement from President Truman that he is not worried about Slaughter's assertion. (AP Wirephoto.)
