As if that wasn't enough, he and his sister did a little newspapering back then, a weekly by the name of the Spearman Press which had one page of news on Page 1, or the front page, and the other page or pages contained motion picture advertising if there was more than one page printed back to back. He recalls having good times doing this, afternoons and on Saturdays when he wasn't in school or doing something with the family. Things won't be the same as the old days because surroundings, times and other circumstances are different, he opined, but he expressed the belief that a comparable effort through obtaining and showing G or family-type movies can lead to a family theater atmosphere.

Realizing that there is a pretty good trade area for the Lyric Theater to draw from with the theater in Gruver closed and the one in Stratford also out of business, Ellsworth and his crew have redone the lobby and enlarged the concession stand and thoroughly cleaned the theater floors, aisles, carpets and seats. Additional improvements will be installed from time to time as finances permit. Whatever that mysterious fascination was, Alton Ells-worth and his wife, Peggy, of Spearman will try to revive some of that old mystique about "the magic of the silver screen" through oper-ations at the Lyric Theater in Spearman which he and his wife recently nurchased from wife recently purchased from Wright Hale. Ellsworth is not forsaking Wright Hale.
Ellsworth is not forsaking the Gulf Oil Wholesale business he has built in the Spearman area, he is just directing his efforts in an additional activity in today's diversified interests climate. ## **Introducing The Lynxettes**

TRACIE KEETCH

"The most promising post forward prospect in four years" is the way some have described Tracie Keetch a 5'9" sophomore on the Lynxettes team. When the gym doors open for practice or a game one can probably find the friendly face of Tracie. She spends much of her time playing or watching basketball. A hard-working dedicated girl she is. One who loves her teammates and the game of basketball, as does Tracie, will most certainly be a success at the game and will play an important role in the success of the team. Tracie possesses a very good jump shot from close range and is now working on a hook shot which will make her much more effective when she gets the ball in close to the basket. Tracie is the daughter of Mrs. Joyce Frost and is a member of the Fellowship of Christian Athletes, and the Future Teachers of America. With a little experience and some time she is destined to become an excellent post forward on the Lynxettes' team.

CHRISTIE COLLIER

CHRISTIE COLLIER

"Thump, thump" that's the sound that's heard over in the neighborhood west of the high school most summer days and other days when school is out and the weather is decent. It may be someone kicking footballs out on the field, but more likely it is Christy Collier on her driveway with a basketball. Christy is that sophomore left hander who plays forward on the Lynxettes' team. Up from last year's B team Christy has become a quick success and an integral part of the success of this year's Lynxette team. She is a deadly shot from the fifteen foot range-shooting 51 percent thus far this season from the floor. Her free throw percentage is a phenominal 79 percent. In addition to her shooting skills Christy is steadily improving in all other phases of the game. Christy is a very conscientious worker with a great attitude and a tremendous love for the game. In addition to basketball her other endeavors include National Honor Society, Fellowship of Christian Athletes, SHS Cheerleader. Her parents are Mr. & Mrs. Bob Collier who will have many occasions to be proud of their daughter's basketball accomplishments.

#### Perryton near AA enrollment

They

The enrollment in the schools at Spearman is just about the same as it was last year with the high school at 343 to 345, Elementary 397, and Jr. high at 319. In the meantime, the Perryton Schools are dropping at an alarming rate; they now stand at only 448, about 100 more than Spearman High School in Perryton shows a drop of 27 students and Perryton now qualifies for a AA school, as the AA alignment is 450 and over. Lynx fans are excited about getting Perryton in the AA District, which would make the best class AA district in the state. The Rangers will not be in the district for a couple of years and by then, the Lynx and all of the other teams in the district will be large enough, and the Rangers small enough to make the district very "exciting"! Of course, we welcome the Rangers in AA and only wish that they were in the district already! We do hope that Brad Beck graduates before they get in AA! We are only kidding and we know that the AAA schools will have to re-align with the AA schools in the near future. There just aren't enough AAA schools in the state!

## Insurance Corner

PROTRUDING OBJECT PERIL

A photo in a medical journal provided gruesome evidence of how serious such an accident can be. It depicted an eye nearly tornfrom the socket by the projecting hook of a peg board.

The "run into" accident usually occurs unexpectedly. Your best defense is to get rid of the things that lie in wait for the unwary. Inspect your home for projecting men-

aces. A glass shelf over a sink is a sure trap for anyone bending over to rinse his face. Check your work bench and make sure that there is nothing you could strike as you bend over it. Also make sure that the lighting is adequate to give the potential victim an even shake.

The next Community concert will be Thursday, February 3, 1977, featuring The Four Freshman. They are a group of entertainers with a fresh, vibrant and invigorating blend of harmony. For two decades they have set the standard and have led the way. One of their very first records, "It's a Blue World" became an over whelming success, achieving for The Four Freshmen international acclaim and recognition. There followed a series of albums which have sold upwards to two million. There is no standard definition of The Four Freshmen. What has made them outstanding is a variety of things. They are singers, but they are more musicians, and their singing arrangments are as much orchestral as yocal. Each of the four is a superb musician.
