COURT TO MEET HEAVY DOCKET

Murder Cases Left Over From Other Courts—Four Week Term Begins Monday

First term of the district court in County since the creation of 8th district will open here next morning. Judge Gordon B. ...

Heavy rains have visited Lynn county on two different occasions since our issue of last week.

On Thursday afternoon and night the entire county and many other counties on the south plains and throughout West Texas were drenched with rain.

On Sunday night the heavens were again opened and the rain came down in torrents.

Just what the effect of these rains will be on the crops remain to be seen.

Edith Coming To Lynn County Fair

J. R. Farris of Edith was here Tuesday and stated that the people of his community were coming to the fair with an exhibit.

MORE RAIN IN NORTH COUNTY

Two And One Half Inches Of Rain Fall In North Lynn County Within Week

Heavy rains have visited Lynn county on two different occasions since our issue of last week.

On Thursday afternoon and night the entire county and many other counties on the south plains and throughout West Texas were drenched with rain.

On Sunday night the heavens were again opened and the rain came down in torrents.

Just what the effect of these rains will be on the crops remain to be seen.

Edith Coming To Lynn County Fair

J. R. Farris of Edith was here Tuesday and stated that the people of his community were coming to the fair with an exhibit.

VOTE TO SELL POWER PLANT

Council Decides To Resort To Referendum of People To Settle Question of Sale

By reference to an election notice appearing in this issue of the News it will be seen that the people of Tahoka are called upon to decide whether or not the City Council shall sell the municipal light and power plant and the ice factory.

It was decided to submit this proposition to a vote of the people at a meeting of the city council last Friday night. We understand that all four of the members of the council present were in favor of selling these properties provided the proposition meets with the approval of the voters of the city, while the mayor does not favor the proposition.

The News believes that the people should be thoroughly informed on the proposition and therefore bur. columns are open to any citizen or official of the city who desires to discuss the proposition.

The News believes that the people should be thoroughly informed on the proposition and therefore bur. columns are open to any citizen or official of the city who desires to discuss the proposition.

Bridal Shower Given Mrs. Webb Williams

A bridal shower was given Mrs. Webb Williams (nee Weatherford) at the hospitable home of Mrs. S. W. Sanford on Wednesday afternoon of last week.

The bride was the recipient of many gifts, for which she expressed her appreciation, and the donors were just as happy apparently as the bride.

Mrs. Sanford proved herself a delightful hostess, and all pronounced it a most pleasant occasion.

See Tahoka "Pour it on" Slaton at the Football game here Friday.

TO VOTE ON WATER BONDS

City Council Submits Bond Issue As Probable Remedy For Water Situation

At a meeting of the City Council last Thursday night, the council voted to submit a proposition to the people of the city for the issuance of bonds in the sum of \$60,000 with which to extend and enlarge the City's water system.

This action was taken as the culmination of a long period of discussion as to the best manner to proceed in order to obtain an adequate water supply for the city.

At a meeting of the City Council last Thursday night, the council voted to submit a proposition to the people of the city for the issuance of bonds in the sum of \$60,000 with which to extend and enlarge the City's water system.

We are not advised as to just what plans the city council has for obtaining the water needed, in the event the bonds are voted, but we are sure with the funds named in the bond election an abundance of water can be procured—such abundance as will meet the demands of the city and all her people for many years to come.

The people now have a chance to take a long step forward in the progress of our city, and we believe that they will do it.

Schools Are Crowded For Class Rooms

Every room in the school building is occupied and even the auditorium is being used as a study hall.

In order to get the maximum of service from the teachers and the teaching facilities, Superintendent G. H. Nelson has departmentalized the fourth, fifth and sixth grades.

The superintendent and faculty are anxious for the patrons to visit the school in order that they may acquaint themselves with the character of work that is being done and in order that they may see for themselves the crowded conditions of the various rooms.

W. A. Waller of Draw dropped into the News office Tuesday and renewed his subscription. In answer to an inquiry he stated that the worms are doing very little damage in his community, and crops are generally good.

**EUROPE TRACTOR DEMAND
STEADILY INCREASING**

That the farmers of Europe and South America are developing crop producing land through use of motorized equipment to a higher degree at this time than ever before in history is indicated in Fordson tractor foreign sales reports just made by the Ford Motor Company. Shipments of tractors during the seven months of 1925 ending July 31, were more than 74 per cent greater than during the corresponding period of 1924.

Foreign deliveries of tractors reached the new high record of 13,140 during the first seven months of 1925 and in view of the rapidly mounting demand for power farming machinery in the old world the outlook is bright for an even greater increase in foreign sales, it was stated.

A feature with the European shipments is the fact that in many instances, the farmers have advanced three or four generations in progress in turning to the tractor for motor power. On many of the picturesque farms in France, Belgium, Russia and the Slovak nations, the Fordson is taking over work that was heretofore done by oxen. In other instances, the new tractor is merely being added to a fleet on some of the larger farms.

Foreign deliveries of cars and trucks as well as Lincoln Cars set a new record during the first seven months of 1925. Sales of Ford cars and trucks totaled 124,345 or 22,900 more than were delivered in foreign countries during the corresponding period of 1924, not including foreign and domestic sales of the Ford Motor Company of Canada, Ltd., which totaled \$2,300 during the same months this year.

Although the absorption of cars and trucks is proportionate over Europe and South America, the remarkable increase in Fordson tractor deliveries is due to Europe's awakening to the need of maximum production from the limited areas under cultivation. In South America, the tractor has held a place as standard equipment and increased sales there, although less spectacular than in Europe are increasing to cover the normal expansion of agriculture.

A REAL SHOW COMING

Cooper Brothers' trained animal shows, and combined wild west will visit Tahoka on Thursday, September 24th for two performances. This is the only big show that will visit this territory this season, and this and surrounding communities will have the opportunity of seeing the show in its entirety, on the above date. Cooper Brothers Shows are not only well received everywhere they go, but has played so many return dates in the last few years and they are rated at the top as far as tented amusements are concerned. One is surprised at the vast array of talent that has been assembled to make this one of the premier amusement enterprises of all times. Here one will see wonders from every country and every climate gathered together to amuse the public. Here is a fairy wonderland brought to your very door, one trip through the menagerie where is assembled practically every known animal is worth coming many miles to see, together with a small army of the world's greatest and most daring performers, whose death defying and startling stunts keep you in high tension, and the performance will live long in your memory, after the show has faded into forgetfulness. In addition to the super-performance Cooper Brothers have added for full measure, a real Wild West performance, put on by the west's greatest riders, ropers, bulldoggers, etc. In fact a triple show for the coming season. The public is invited to bring in their bucking horses, and cowboys will ride them at every performance. A big free street parade daily at 1 p. m., so come early, bring all the children and see it all. Two performances given daily, afternoon, 2 p. m. night 8 p. m.

Claude Wells has some fine young peach trees up at his house. Moreover, they have some fine fruit on them. He brought around to the News office Saturday some peaches as fine as one ever struck a tooth in, large juicy fellows. He stated that he had gathered more than a bushel of one variety which he brought us off of one tree and still had peaches left. A little water mixed with this soil can produce wonderful results if there happens to be a tree near by. In time folks will find what kinds of fruit and what varieties of each particular kind are best adapted to this climate and when they do a world of fruit will be raised right here in Lynn county.

News Printing please.

LIGHT WEIGHTS

Queer Fish

In the Philippines there are fish that climb trees, fish that squirt poison through syringes, fish so small that 10,000 of them, matured, make a light breakfast for a native, and fish that live on dry land and drown when placed in water.

Raisins for Cereals

In some sections, and especially on some kinds of trip, it is difficult to carry milk, and powdered milk may not be available. In this event raisins cooked in breakfast cereals make them very palatable without milk or cream.

Warm Paper

If caught out motoring or camping in a sudden chilly spell and without extra clothing, newspapers tucked inside your shirt will serve the same purpose as a heavy sweater.

J. B. Lowe of New Home on last Friday brought to our sanctum some of the finest tomatoes that ever grew in any man's country. They were unusually large and were beautiful to look upon. Not being in the office when Mr. Lowe made his benevolent call we did not learn how many more of the same kind that he has nor did we learn the variety, but whatever the name or the number of these tomatoes we are convinced that somebody out at his house knows how to raise them. We enjoyed the tomatoes and we hope that Mr. Lowe will call again some time with another sample.

Here Last Week

MARVIN JONES, Congressman from this district

ed that somebody out at his house knows how to raise them. We enjoyed the tomatoes and we hope that Mr. Lowe will call again some time with another sample.

Mr. M. E. Lowe and children left Monday for Littlefield, where they will spend the fall and winter. Her home will be occupied in her absence by three families, Mr. and Mrs. Fred

Homan, Mr. and Mrs. Eugene Miller, and S. B. Goodrich and children. Mrs. Lowe will reside with her daughter and take a long earned rest.

Mrs. H. M. Larkin, Frank and Margaret arrived in due time at Winter Park, Florida, according to information received from them by Mr. Larrison, without any serious mishap of any kind en route. They went thru their car. Frank will attend college and Margaret high school there again this school session, while Mrs. Larkin will keep house for them. Mr. Larkin has been looking terribly lonesome the past few days and we guess he will be going down there about Christmas.

IT DRIVES OUT WORMS

The surest sign of worms in children is pale skin, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price 35c. Sold by THOMAS BROS. DRUG CO.

WEST POINT POINTERS

(Delayed from last week)
Well, we have been away for so long that some folks think that West Point has died out but we are very much alive.

Our farmers are getting busy making two-bale cotton frames, talking of new trucks, and getting ready to harvest a big cotton crop.

Mr. and Mrs. J. H. Bullman are the proud parents of a nine and one half pound boy, J. H. Junior, who arrived last week.

The school began at West Point Monday with Miss Dalphia Carmack as teacher. Twenty-eight bright faces were in their places Monday. We are expecting a fine school this term, for if Miss Dalphia is not a fine teacher she has the West Point crowd fooled.

Mr. and Mrs. J. N. Noble, Terry Noble, and his family came in a few days ago from New Mexico, where they spent some time after the seri-

ous illness and reported Noble in El Paso. We report that Mr. Noble improved.

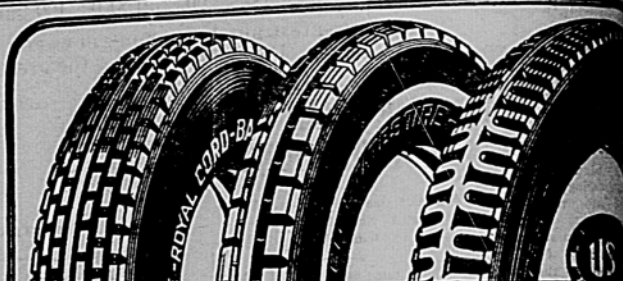

new Ford coupe. Hubert Tankersley and Miss Pearl Moore spent the night with Miss Violet W. A. Yates has her house and has it all weather and we are continues for a while.

Miss Leota Knight week from a short and Plainview.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of the News, will be gladly corrected when called to our attention.

President Coolidge has appointed a committee of nine well known citizens to investigate the air-craft policy of the army and navy departments. This comes as a result of the recent wrecking of the Sherandoah in a storm with the loss of 14 lives and the almost fatal consequence of an attempt by army seaplanes to make a flight from San Francisco to Honolulu and the consequent criticisms of the departments' administration of the aviation service by Colonel Mitchell and others.

The Lubbock Avalanche is authorized for the statement that 3400 school astics enrolled in the public schools of that city the first week. From these figures it may be safely estimated that Lubbock now has at least 12,000 people. At the rate Lubbock has been growing the past few years, it will not be but a few years more until she will be in a neck-and-neck race with Amarillo for first place among the cities of the plains. Both are splendid and rapidly growing cities, of which all plains people are proud.

Congressman Marvin Jones of Amarillo was in Tahoka last Wednesday and Thursday as a guest of his friend, Judge C. H. Cain. Of course he was meeting his other friends here while in the city. Mr. Jones has been in Congress a number of years though he is still a young man. That he is pleasing his constituency is attested by the fact that he has had no serious opposition since he was first elected. At the last session of Congress he made a speech criticizing and ridiculing the Republican party which was widely read and approved. Even the Republicans enjoyed his good natured thrusts. Mr. Jones made a pleasant call at the News office while here but the editor was so busy getting out last week's paper that we failed to get a statement from Mr. Jones for publication. We hope that he may call again before returning to Washington and give us his views as to national problems with which Congress must wrestle.

The Santa Fe railway company is surveying a route for a new railroad to be built from Post to Fort Worth. The survey will probably extend through Clairmont, Aspermont, Stanford, Breckenridge and Weatherford. Another survey is being made from Floydada eastward via Seymour to Fort Worth. The Santa Fe apparently means business. In all probability it will build from Post rather than Floydada. Such a line would be of considerable benefit to the south plains, giving a direct, one-line haul from most of the larger plains towns to Fort Worth and Dallas.

The Leaf worms are making terrible havoc in some of the cotton fields in Lynn County where the cotton grew rank. We took a swing around the circle Sunday afternoon and saw many fields in which the worms were doing great damage. Cotton that promised to make a bale per acre or more will probably make less than half that amount on account of the ravages of the worms. We believe that many farmers did not realize the seriousness of the situation until the pests had already gone to work in alarming numbers. Some of them possibly do not yet realize the seriousness of the situation. Of course the damage is being done only where the cotton weed is rank. We feel that if this county had had a farm agent who knew his business, he would have kept his eye on the situation and would have warned and helped the farmers in time to save them many thousands of dollars on this year's crop. You may not agree with us, but we believe that a farm agent in Lynn county would pay—provided, of course a wise selection were made.

At least one of our farmers and perhaps more of them visited nearby counties last week who have county agents to get poison remedies for the army worms. Why not have a county agent here in Terry County? Why don't you farmers ask the Commissioner's court to employ one? The U. S. Government pays most of their salaries, and you are paying for them in other counties just the same, but perhaps don't realize it. It won't do any good for the town people to request the court to appoint one—the initial move must be made by the farmers themselves.—Terry County Herald.

IS DAN MOODY THE COMING MAN IN POLITICS OF TEXAS?

Dan Moody's rise in Texas politics last year was meteoric. In the second primary his vote was 463,411 to 211,783 for Ward, his opponent. Mrs. Ferguson was given 413,751 for governor while Felix D. Robertson's vote was placed at 216,019.

Recently Dan was acclaimed as the next Governor of Texas at a meeting of the Rotarians at Austin. A few days later he was cheered at the State meeting of the American Legion and again acclaimed as the next governor of Texas.

Monday Mr. Moody was the principal speaker at the Labor Union celebration at Dallas and was accorded an ovation by the forces of organized labor.

Is Moody the coming man in Texas Politics? Will he win the governorship next year?—Rogers News.

AN ASS THAT HID AND BRAYED

There is some pitiable creature running around loose somewhere in West Texas that evidently visited Tahoka Monday afternoon and dropped an anonymous letter into the post-office, addressed to the editor of this paper. We are sure that he was a visitor in our town, for we know of no such creature living here, and besides the envelope bore evidence of having been carried in a pocket before being dropped in the post office. Enclosed within the envelope were three clippings, one from the Lynn County News, another from the Lubbock Avalanche and another from the Ferguson Forum, bearing no relation whatever one to the others. Accompanying each clipping was a comment of the sender written on a typewriter but the writer forgot to sign his name. In fact he took every precaution possible to conceal his identity. We do not know who he is and do not care. His comments were intended to be insulting but we always felt the deepest sense of pity for the ignorant and only contempt for the coward. Our unknown critic seems to be aggrieved because of the position which this paper has taken with reference to

the "carnival" on the one hand and with reference to the Ferguson administration on the other. He either willfully or ignorantly mistakes our attitude toward the carnival last year if he has courage enough to let his identity be known and fairness enough to be willing to accept the truth, we will show him his error. In the mean time the editor has no apologies to make for opposing the bringing of a carnival to this town with its usually attendant gambling devices and immoral shows. We are and for many years have been heart and soul against the unclean thing. You catch our drift? Our critic, who masks his identity if not his face, also seems to think it a crime on our part that Jim Ferguson occasionally reads the Lynn County News and comments in his paper on our editorials. In order to enlighten our benighted critic, if he is capable of being enlightened, the News will inform him that there is a custom among newspapers to exchange. We get many weekly papers and several big dailies on our exchange list. The Ferguson Forum is one of the many papers to which a copy of the News is sent each week. Your sarcastic comment, "So Jimmie gets your news," is therefore right. And we feel complimented when we note that he has been reading it, for we know that he hasn't time to spend on trivial matters, as we are now spending our time on one. Which reminds us that we haven't any more time to fool away on you, whatever you are, and must turn our attention to more important things.

WELLS-TAHOCA ROAD

By all means a public road should be opened and graded from Wells eastward to an intersection with the Tahoka T-Bar road at the earliest date possible. Such a road three or four miles long would shorten the distance from Wells and New Moore to Tahoka seven or eight miles. These people are entitled to a more direct route to their county seat and the chief trading point in the county. The commissioner of that precinct should be importuned by the people of Tahoka and Wells unceasingly until such request is granted. It would be little less than an outrage for present conditions to be allowed to continue long. What is Tahoka going to do about it?—Lynn County News.

LET

Whatever the purpose or the pretext for the passage of the present 'Seach and Seizure' law, its practical application has had but one effect—the protection of the lawless, particularly the violators of the liquor laws. The claim that this law is in line with the State and Federal Con-

stitutions is too far afield to fool the uninformed or the most profoundly prejudiced. The Constitutional provisions, as stated plainly in both instruments, were designated to protect the home and the person from "unreasonable" search or seizure. Both the authors and defenders of the present law are careful to ignore this particular feature of the law. Chief Justice Taft in a recent decision rendered for the U. S. Supreme Court in a Michigan case makes clear distinction between a reasonable and an unreasonable search, affirming a conviction in a Federal court district court involving the search and seizure of an automobile without any warrant whatever. To hold otherwise, Chief Justice Taft regarded as unreasonable, for automobiles containing contraband or loot could almost invariably escape while the officers

are securing a search wave at its height, the such a law is inexorable—even though its not its actual purpose, for with a wise and well vision of the Constitution right against "unreasonable search and seizure had been norant or unprincipled as alleged, the real officials from office and sage of a law to impede law enforcement.—Rogers News.

Mr. Miles is a splendid gentleman and is no doubt a good roads enthusiast, as the Index asserts. Our purpose is to get him enthusiastic over the proposition of opening up roads from New Moore, Wells and Three Lakes to the county seat. If Three Lakes to get him really enthusiastic we can get him really enthusiastic over this proposition, we believe that difficulties that the Index speaks of will dissolve. We do not believe that "lap-surveys," for instance would have delayed indefinitely the opening of a road from Wells to O'Donnell. But be that as it may, there are no lap-surveys that we have heard of that would prevent the opening of a road from New Moore via Three Lakes and thence north to an intersection of the Tahoka-Brownfield highway. In fact a road has already been laid out from this highway to Three Lakes but has never been opened up. The people of Three Lakes have importuned repeatedly, we are informed, that this road be opened up but they have met with the assertion that the county has no money to open the road with. If Mr. Miles is a good roads enthusiast, as the Index asserts and we admit, then there is a splendid opportunity for him to spend some of his enthusiasm and some of the county funds which have been appropriated to his district. It is not so much a matter of having the enthusiasm as it is of turning that enthusiasm loose on some of the roads of this district that lead to the county seat or should do so. Would be glad for you to interview Mr. Miles again in behalf of this proposition, brother Kellis.

W. H. Davidson and from Gainesville Saturday their home here. Mr. employed during the ter at Allen's gin.

Thieves Get Small Loot Here Sunday

Some petty thieving was done east of town Sunday afternoon. The residences of J. B. Reece living three miles east of town and Ott Patterson living one mile east were both entered and ransacked. Six shirts and one pair of trousers were taken from the Reece home while a pair of trousers, a belt and a number of other minor articles were taken from the Patterson home. Both families were away from home, we understand, when the thefts were committed. Officers are at work on the cases but thus far no arrests have been made.

ANOTHER LEAF WORM WARNING FROM LUBBOCK

The leaf worm situation in Lubbock is fast nearing the stage that if precaution is not taken by the farmers, the cotton crop will be cut at least half, according to an announcement Wednesday morning by County Agent David F. Eaton, who in company with J. D. Tinsley, Agricultural Agent of the Santa Fe and R. R. Reppere, extension entomologist of the A. and M. College has just made a complete survey of the county in connection with the situation.

"There is no cause for undue alarm at the present time," Mr. Tinsley said, "but if something is not done in the next few days to curb the rapid increase of the pest, the cotton crop will suffer. After watching the worms and its growth, we find that within a week's time it will grow from the egg stage, and another week play havoc with the crop unless preventative steps are taken to curb the spread of the pest. Every moth is capable of laying 400 eggs which within two weeks time or a little more, will in turn hatch out four hundred more each, showing the rapidity with which the pest will increase."

The county agents' office is besieged daily by farmers wishing information in connection with how to fight the pest, and is offering every assistance possible in the fight. Poison is being handled by the agent through the Farm Bureau, and is sold to the farmers at actual cost. Orders were placed today by wire for 4,000 pounds of calcium arsenate, which is suggested by the agent as the best method of combat against the worms.

This poison is used in a powdered form, sacked up in sugar sacks or cheese cloth bags, and is thoroughly dusted over the infested area. The agent says that usually a farmer, if he has no help at home, will co-operate with his neighbor, strapping two bags of the poison on a pole between two horses, shaking the dust vigorously over the foliage. A fog of dust must be made near the ground, the agent says, so that the poison will thoroughly cover the leaves on the bottom, where the pest stays. The arsenate can be used in the form in which it is received, he continued, or mixed almost equal parts with lime. The user, however, is cautioned that if the mixture is too strong with arsenate, it will burn up the foliage which is just as bad as letting the pest take it.

Another mixture that is in common usage here is Paris Green and lime, which should be mixed in equal parts and added to by either one part of flour or lime. The Paris Green should not be used in concentrated form, the agent said, for it likewise will burn up the foliage.

Bids Wanted

Notice is hereby given that the Board of Trustees of the Tahoka Independent School District, at its meeting to be held on the 25th day of September, A. D. 1925, will receive proposals from any Banking Corporation, Association or Individual Banker in Lynn County that may desire to be selected as the Depository of the funds of the said Tahoka Independent School District.

Any Banking Corporation, Association, or Individual Banker in Lynn County desiring to bid shall deliver to E. I. Hill, president of the Board of Trustees of said Tahoka Independent School District, on or before 8 o'clock p. m. on the 25 day of September, 1925, a sealed proposal stating the rate of interest that said Banking Corporation, Association or Individual Banker offers to pay on the daily balance of funds of the said Tahoka Independent School District, payable every thirty days, for a term of two years and until a successor is duly and legally selected.

Said proposal shall be accompanied by a certified check for not less than One Hundred (\$100.00) Dollars as a guaranty of good faith on the part of the bidder, and as a guaranty that if his or its bid should be accepted said Banking Corporation, Association, or Individual Banker, as the case may be, will enter into a bond as provided in article 2771 of the Revised Statutes of the State of Texas, as amended by the thirty-ninth Legislature; and upon the failure of said Banking Corporation, Association or Individual Banker, that may be selected as such depository to give bond as required by law, the amount of such certified check shall go to the Tahoka Independent School District as liquidated damages, and the said Board of Trustees shall re-advertise for bids.

Given under our hands at Tahoka, Texas, on this 31st day of August, A. D. 1925.

E. I. Hill,
President of Board of Trustees of Tahoka Independent School District
Attest: J. S. Weatherford,
Secretary. 1-3c

LUBBOCK MEN GO ON TRIP

Fifty automobiles, bearing Lubbock booster and the high school band, will make the trip to Brownfield, Wilson September 18th, if early reports on those who have promised to go can be secured. Mr. Woods, with Garland Woodward, J. A. Raley and Mose Hood, has been busy getting business men interested in the jaunt, which is one of a series of annual trade trips to advertise the Panhandle and South Plains Fair. The Lynn County Fair at Tahoka on the 18th will be the big feature of the trip, Mr. Woods says.

—Plains Journal.

Methodist Revival Has Closed At Draw

A great revival meeting came to a close at Draw last Sunday night, according to reports from some who attended. The services were conducted by Rev. Watson, pastor of the Methodist Church at Brownfield, and Rev. Hicks, Methodist pastor at O'Donnell.

There are said to have been about fifty conversions and about seventy five additions to the various churches as a result of the meeting. About fifty of these joined the Methodist church while most of the remainder joined or expressed the intention of joining the Baptist church. Among the converts were some of the hardest sinners of the community, it is said.

At the close of the services Sunday night a collection was taken in appreciation of the services of Rev. Watson and Rev. Hicks amounting to \$210.00.

TEN MILLION LINKS

Nearly ten million words a week now are knitting the two sides of the Atlantic together. That is the really significant story revealed by the recent opening of a new cable.

No doubt wars have been waged for trade; but commercial relations are much more likely to prevent wars. And the war fever cools when you know your man.

About four hundred million amiable words we have exchanged with Europe this last year—business, personal messages, news. The latest cable is of a new alloy and much faster than the old ones. Wireless is being tuned up to higher speeds. Shortly, experts say, long messages will be "photographed" across the ocean. Shot through the air as a half-tone is now transmitted; and then static will be a dead obstacle.

NEW CALOMEL BREAKS A COLD OVERNIGHT

When the purest kind of English Calomel was combined with pepsin by a smart young chemist, the world was given an ideal mild medicated laxative for breaking colds. One night is long enough for this new, mild and non-sickening pepsin-treated calomel, called "Pepsinated Calomel" to break the most stubborn cold. Before breakfast time it vanishes and leaves you feeling fresh and fine.

"Pepsinated Calomel" does not sicken, gripe, salivate or upset you, but it does clean you out thoroughly, tone up the appetite, purify the blood, stop dull headaches, relieve stomach and bowel disorders and make you feel like a new person. Never take the old drastic Calomel.—Insist on "Pepsinated Calomel," for it is better. Prepared by the Pepsinated Calomel Co., Atlanta Ga. Sold by
TAHOKA DRUG COMPANY

All of these things mean cheaper communication, an increase in our knowledge of each other and a consequent decrease in quarrelsomeness. The North doesn't quarrel with the South, or the East with the West so much anymore, since the motor car has shuffled us up and made out the distances we learned in our geography ceases to be gross exaggerations. The exchange of ten million amiable words a week reduces the war risk.

Wash Johnson of Three Lakes has raised some sure-enough corn this year. We know, for he brought a fine bunch of roasting ears to the News editor Saturday. We certainly did have a good square meal at our house too. Usually it takes about ten ears of corn and a bundle

EGGS EGGS EGGS

More eggs or your money back if you feed "MARTIN'S EGG PRODUCER". Cure and prevent disease with "MARTIN'S ROUP TABLETS". Satisfaction guaranteed by Thomas Brothers. 3-8c.

BACK HURT BAD

Lady Had Severe Pains in Back and Got Very Weak.

"I think very highly of Cardui for I have had great benefit from its use," says Mrs. Cora Nicholson, of Ware Shoals, S. C.

"I was in bed quite a while. It looked like my strength would not come back, and I suffered with severe pains in my back whenever I would try to get up. Sometimes I would scream out, my back hurt me so bad.

"My husband got me some Cardui and I took two bottles. Very shortly after I began to take it I could notice I felt better. I began to get stronger. My appetite was improving and I could see that I was much better.

"After I had finished the second bottle I was able to be up and do all my own housework, so of course I think Cardui is fine. It is the best tonic for women that I know anything about, and I am glad to recommend it. Not long ago I told a lady friend of mine about it, and it did her as much good as it has done for me."

At all drug stores. C-32
CARDUI
The Woman's Tonic

of fodder to make a meal for the editor, but this time we had enough for the editor and all the family. Mr. Johnson has quite a patch of this corn and he says that it will make 30 or 40 bushels per acre. There is quite a bit of corn in the county this year that has done well.

WELLS-TAHOCA ROAD

By all means a public road should be opened and graded from Wells eastward to an intersection with the Tahoka T-Bar road at the earliest date possible. Such a road three or four miles long would shorten the distance from Wells and New Moore to Tahoka seven or eight miles. These people are entitled to a more direct route to their county seat and the chief trading point in the county. The commissioner of that precinct should be importuned by the people of Tahoka and Wells unceasingly until such request is granted. It would be little less than an outrage for present conditions to be allowed to continue long. What is Tahoka going to do about it?—Lynn County News.

The Index is interested in seeing every community in the county linked with the towns by good roads and upon reading the above the editor interviewed Commissioner J. B. Miles in regard to it. Mr. Miles stated that owing to lap-surveys a peculiar condition exists along any of the proposed routes for the permanent location of the road, the land owners not being able to come to an agreement as to the land lines, which fact leaves him powerless to

relieve the situation. When the people decide upon a permanent right-of-way, then, according to Mr. Miles the road will be graded.

In the mean time the good people living in the Wells and New Moore communities have access to a graded road leading to O'Donnell, the best trading place in the county.

Commissioner Miles is regarded as one of Lynn county's most enthusiastic "good roads" men and is always willing to do anything in his power to help the people he represents.—O'Donnell Index.

Mr. Miles is a splendid gentleman and is no doubt a good roads enthusiast, as the Index asserts. Our purpose is to get him enthusiastic over the proposition of opening up roads from New Moore, Wells and Three Lakes to the county seat. If we can get him really enthusiastic over this proposition, we believe that the difficulties that the Index speaks of will dissolve. We do not believe that "lap-surveys," for instance would have delayed indefinitely the opening of a road from Wells to O'Donnell. But be that as it may, there are no lap-surveys that we have heard of that would prevent the opening of a road from New Moore via Three Lakes and thence north to an intersection of the Tahoka-Brownfield highway. In fact a road has already been laid out from this highway to Three Lakes but has never been opened up. The people of Three Lakes have importuned repeatedly, we are informed, that this road be opened up but they have met with the assertion that the county has no money to open the road with. If Mr. Miles is a good roads enthusiast, as the Index asserts and we admit, then there is a splendid opportunity for him to spend some of his enthusiasm and some of the county funds which have been appropriated to his district. It is not so much a matter of having the enthusiasm as it is of turning that enthusiasm loose on some of the roads of this district that lead to the county seat or should do so. Would be glad for you to interview Mr. Miles again in behalf of this proposition, brother Kellis.

Whatever the purpose or the pretext for the passage of the present 'Seach and Seizure' law, its practical application has had but one effect—the protection of the lawless, particularly the violators of the liquor laws. The claim that this law is in line with the State and Federal Con-

stitutions is too far afield to fool only the uninformed or the most profoundly prejudiced. The Constitutional provisions, as stated plainly in both instruments, were designated to protect the home and the person from "unreasonable" search or seizure. Both the authors and defenders of the present law are careful to ignore this particular feature of the law. Chief Justice Taft in a recent decision rendered for the U. S. Supreme Court in a Michigan case makes clear distinction between a reasonable and an unreasonable search, affirming an conviction in a Federal court district court involving the search and seizure of an automobile without any warrant whatever. To hold otherwise, Chief Justice Taft regarded as unreasonable, for automobiles containing contraband or loot could almost invariably escape while the officers

are securing a search warrant. With a State-wide—a nation wide—crime wave at its height, the passage of such a law is inexcusable—unpardonable—even though its real effect, if not its actual purpose, be coupled up with a wise and well intended provision of the Constitution. If the right against "unreasonable" search and seizure had been abused by a norant or unprincipled peace officer, as alleged, the real remedy would have been to remove such unworthy officials from office and not the passage of a law to impede or prevent law enforcement.—Rogers News.

W. H. Davidson and family arrived from Gainesville Saturday to make their home here. Mr. Davidson will be employed during the fall and winter at Allen's gin.

Thieves Get Small Loot Here Sunday

Some petty thieving was done east of town Sunday afternoon. The residences of J. B. Reece living three miles east of town and Ott Patterson living one mile east were both entered and ransacked. Six shirts and one pair of trousers were taken from the Reece home while a pair of trousers, a belt and a number of other minor articles were taken from the Patterson home. Both families were away from home, we understand, when the thefts were committed. Officers are at work on the cases but thus far no arrests have been made.

ANOTHER LEAF WORM WARNING FROM LUBBOCK

The leaf worm situation in Lubbock is fast nearing the stage that if precaution is not taken by the farmers, the cotton crop will be cut at least half, according to an announcement Wednesday morning by County Agent David F. Eaton, who in company with J. D. Tinsley, Agricultural Agent of the Santa Fe and R. R. Reppere, extension entomologist of the A. and M. College has just made a complete survey of the county in connection with the situation.

"There is no cause for undue alarm at the present time," Mr. Tinsley said, "but if something is not done in the next few days to curb the rapid increase of the pest, the cotton crop will suffer. After watching the worms and its growth, we find that within a week's time it will grow from the egg stage, and another week play havoc with the crop unless preventative steps are taken to curb the spread of the pest. Every moth is capable of laying 400 eggs which within two weeks time or a little more, will in turn hatch out four hundred more each, showing the rapidity with which the pest will increase."

The county agents' office is besieged daily by farmers wishing information in connection with how to fight the pest, and is offering every assistance possible in the fight. Poison is being handled by the agent through the Farm Bureau, and is sold to the farmers at actual cost. Orders were placed today by wire for 4,000 pounds of calcium arsenate, which is suggested by the agent as the best method of combat against the worms.

This poison is used in a powdered form, sacked up in sugar sacks or cheese cloth bags, and is thoroughly dusted over the infested area. The agent says that usually a farmer, if he has no help at home, will co-operate with his neighbor, strapping two bags of the poison on a pole between two horses, shaking the dust vigorously over the foliage. A fog of dust must be made near the ground, the agent says, so that the poison will thoroughly cover the leaves on the bottom, where the pest stays. The arsenate can be used in the form in which it is received, he continued, or mixed almost equal parts with lime. The user, however, is cautioned that if the mixture is too strong with arsenate, it will burn up the foliage which is just as bad as letting the pest take it.

Another mixture that is in common usage here is Paris Green and lime, which should be mixed in equal parts and added to by either one part of flour or lime. The Paris Green should not be used in concentrated form, the agent said, for it likewise will burn up the foliage.

Bids Wanted

Notice is hereby given that the Board of Trustees of the Tahoka Independent School District, at its meeting to be held on the 25th day of September, A. D. 1925, will receive proposals from any Banking Corporation Association or Individual Banker in Lynn county that may desire to be selected as the Depository of the funds of the said Tahoka Independent School District.

Any Banking Corporation, Association, or Individual Banker in Lynn County desiring to bid shall deliver to E. I. Hill, president of the Board of Trustees of said Tahoka Independent School District, on or before 8 o'clock p. m. on the 25 day of September, 1925, a sealed proposal stating the rate of interest that said Banking Corporation, Association or Individual Banker offers to pay on the daily balance of funds of the said Tahoka Independent School District, payable every thirty days, for a term of two years and until a successor is duly and legally selected.

Said proposal shall be accompanied by a certified check for not less than One Hundred (\$100.00) Dollars as a guaranty of good faith on the part of the bidder, and as a guaranty that if his or its bid should be accepted said Banking Corporation, Association, or Individual Banker, as the case may be, will enter into a bond as provided in article 2771 of the Revised Statutes of the State of Texas, as amended by the thirty-ninth Legislature; and upon the failure of said Banking Corporation, association or individual banker, that may be selected as such depository to give bond as required by law, the amount of such certified check shall go to the Tahoka Independent School District as liquidated damages, and the said Board of Trustees shall re-advertise for bids

Given under our hands at Tahoka, Texas, on this 31st day of August A. D. 1925.

E. I. Hill, President of Board of Trustees of Tahoka Independent School District
Attest: J. S. Weatherford, Secretary. 1-3tc

LUBBOCK MEN GO ON TRIP

Fifty automobiles, bearing Lubbock booster and the high school band, will make the trip to Brownfield, Wilson September 18th, if early reports on those who have promised to go can be secured. Mr. Woods, with Garland Woodward, J. A. Raley and Mose Hood, has been busy getting business men interested in the jaunt, which is one of a series of annual trade trips to advertise the Panhandle and South Plains Fair. The Lynn County Fair at Tahoka on the 18th will be the big feature of the trip, Mr. Woods says

—Plains Journal.

Methodist Revival Has Closed At Draw

A great revival meeting came to a close at Draw last Sunday night, according to reports from some who attended. The services were conducted by Rev. Watson, pastor of the Methodist Church at Brownfield, and Rev. Hicks, Methodist pastor at O'Donnell.

There are said to have been about fifty conversions and about seventy-five additions to the various churches as a result of the meeting. About fifty of these joined the Methodist church while most of the remainder joined or expressed the intention of joining the Baptist church. Among the converts were some of the hardest sinners of the community, it is said.

At the close of the services Sunday night a collection was taken in appreciation of the services of Rev. Watson and Rev. Hicks amounting to \$210.00

TEN MILLION LINKS

Nearly ten million words a week now are knitting the two sides of the Atlantic together. That is the really significant story revealed by the recent opening of a new cable

No doubt wars have been waged for trade; but commercial relations are much more likely to prevent wars. And the war fever cools when you know your man.

About four hundred million amiable words we have exchanged with Europe this last year—business, personal messages, news. The latest cable is of a new alloy and much faster than the old ones. Wireless is being tuned up to higher speeds. Shortly, experts say, long messages will be "photographed" across the ocean. Shot through the air as a half-tone is now transmitted; and then static will be a dead obstacle.

NEW CALOMEL BREAKS A COLD OVERNIGHT

When the purest kind of English Calomel was combined with pepsin by a smart young chemist, the world was given an ideal mild medicated laxative for breaking colds. One night is long enough for this new, mild and non-sickening pepsin-treated calomel, called "Pepsinated Calomel" to break the most stubborn cold. Before breakfast time it vanishes and leaves you feeling fresh and fine.

"Pepsinated Calomel" does not sicken, gripe, salivate or upset you, but it does clean you out thoroughly, tone up the appetite, purify the blood, stop dull headaches, relieve stomach and bowel disorders and make you feel like a new person. Never take the old drastic calomel—insist on "Pepsinated Calomel," for it is better. Prepared by the Pepsinated Calomel Co., Atlanta, Ga. Sold by

TAHOKA DRUG COMPANY

All of these things mean cheaper communication, an increase in our knowledge of each other and a consequent decrease in quarrelsomeness. The North doesn't quarrel with the South, or the East with the West so much anymore, since the motor car has shuffled us up and made out the distances we learned in our geography ceases to be gross exaggerations. The exchange of ten million amiable words a week reduces the war risk.

—Dearborn Independent

Wash Johnson of Three Lakes has raised some sure-enough corn this year. We know, for he brought a fine bunch of roasting ears to the News editor Saturday. We certainly did have a good square meal at our house too. Usually it takes about ten ears of corn and a bundle

BACK HURT BAD

Lady Had Severe Pains in Back and Got Very Weak.

"I think very highly of Cardui for I have had great benefit from its use," says Mrs. Cora Nicholson, of Ware Shoals, S. C.

"I was in bed quite a while. It looked like my strength would not come back, and I suffered with severe pains in my back whenever I would try to get up. Sometimes I would scream out, my back hurt me so bad.

"My husband got me some Cardui and I took two bottles. Very shortly after I began to take it I could notice I felt better. I began to get stronger. My appetite was improving and I could see that I was much better.

"After I had finished the second bottle I was able to be up and do all my own housework, so of course I think Cardui is fine. It is the best tonic for women that I know anything about, and I am glad to recommend it. Not long ago I told a lady friend of mine about it, and it did her as much good as it has done for me."

CARDUI The Woman's Tonic

of fodder to make a meal for the editor, but this time we had enough for the editor and all the family. Mr. Johnson has quite a patch of this corn and he says that it will make 30 or 40 bushels per acre. There is quite a bit of corn in the county this year that has done well.

NOTICE OF ELECTION

WHEREAS, the City Council of the City of Tahoka, deems it advisable to issue bonds of the said City for the purpose hereinafter mentioned.

THEREFORE BE IT ORDAINED BY THE CITY COUNCIL of the City of Tahoka, Texas, that an election be held on the 17th day of October, 1925, at which election the following proposition shall be submitted:

"Shall the City Council of the City of Tahoka, Texas, be authorized to issue the bonds of the City of Tahoka, in the sum of Sixty Thousand Dollars (\$60,000.00) payable serially or otherwise within forty years from the date thereof, bearing interest at the rate of Six per cent (6 per cent) per annum, payable semi-annually, and to levy a tax sufficient to pay the interest on said bonds and create a sinking fund sufficient to redeem them at maturity, for the purpose of extending and improving the waterworks system in the City of Tahoka, as authorized in Chapter 1, Title 18, R. S. 1911, and Chapter 9, Acts 37th Legislature, Regular Session, and the Constitution and laws of the State of Texas."

The said election shall be held at the County Court House in the City of Tahoka, and the following named persons are hereby appointed managers of said election, to-wit: A. M. Sullivan, Manager.

The said election shall be held under the provisions of Chapter 1, Title 18, R. S. 1911, and Chapter 9, Acts 37th Legislature, Regular Session, and the Constitution and laws of the State of Texas, and only qualified voters, who are property taxpayers of said city, shall be allowed to vote. All voters who favor the proposition to issue the bonds shall have written or printed upon their ballots the words:

"For the Issuance of Bonds."

And those opposed shall have written or printed upon their ballots the words:

"Against the Issuance of Bonds."

The manner of holding said election shall be governed by the laws of the State regulating general elections.

A copy of this order, signed by the Mayor of the City of Tahoka, attested by the City Secretary of said City, shall serve as a proper notice of said election.

The Mayor is authorized and directed to cause said notice of election to be posted up at the City Hall, and at one public place in each of the voting places of the City of Lynn not less than thirty full days prior to the date of said election.

The Mayor is further authorized and directed to have notice of election published in some newspaper of general circulation published in said city, and which notice shall be published once each week for four weeks the date of the first publication being not less than thirty full days prior to the date of the election.

J. R. Singleton, Mayor, City of Tahoka, Texas
Attest:
Chas. N. Tunnell, City Secretary. 17-24-1-8.

Nobby fall suits for young men. Nice assortment of pants for young men. Long pants and long pant suits for the kiddies.—H. M. Larkin.

NOTICE TO FARMERS

The Higginbotham-Bartlett Company has announced that it is giving away a cotton pickers' account book, which is specially ruled and will be of great help to the farmers in keeping their cotton pickers' accounts, and inasmuch as the book is free for the asking we would suggest that you go by the next time you are in town and get a copy, as it will greatly facilitate the handling of your cotton crop.

Judge and Mrs. G. E. Lockhart were here Saturday from Lubbock, to which city they recently removed from Tahoka. They are now having a residence constructed which will be one of the most handsome in that city, the lots and building costing considerably more than \$20,000. They resided in Tahoka so long and have so many interests here that we feel that they still belong to us. Lubbock gained a great deal at Tahoka's expense when the Lockharts removed from here to that city.

Good farms, IMPROVED at \$12.50 to \$20 per acre where fair to bumper crops have been raised each year for the 15 years where cultivated well.

You don't have to fight blue weeds johnson grass or hoppers. Winters are mild and summer nights are always cool, no hot winds or cyclones; you have lots of "pep" and life is worth living. This is in "Little Texas" (Curry County New Mexico). Reagan-Estes Land Company, Clovis, New Mexico. 3-11

Nobby fall suits for young men. Nice assortment of pants for young men. Long pants and long pant suits for the kiddies.—H. M. Larkin.

PHEBE K. WARNER CLUB

Will not have a meeting this week but will have their next meeting on September 25.

WINTERS MEN BUY LYNN COUNTY LAND

Messrs. Neely, Hancock, Odell, and Ganaway, all of Winters, were here Monday and each bought a tract of land out of the Butler Ranch lying west of New Home. Two half sections and two quarter sections were purchased. These gentlemen will move upon these tracts with their families a little later and convert these lands into farms. All of them are experienced and successful farmers. Mr. Hancock is a brother-in-law of H. W. Calaway of this city. The Butler lands are said to be among the most productive in the county. The sales were consummated through the Zappe Land Company.

Uncle Ike Metcalf, who recently spent ten days in the West Texas Hospital at Lubbock and who has been sick for several weeks, is able to be in his office again this week.

TWO YOUNG MEN JAILED

Two young fellows, one about 22 years of age and the other about 17, are now occupying a couple of cells in the Lynn County Jail, charged with burglary and theft. They were arrested in Lamesa and brought to Tahoka Tuesday. It is said that they confessed to the officers to having broken into several houses and stolen numerous articles of personal property. A watch and other articles were taken from the home of Larken Weathers and a watch and fountain pen from the room of Hubert Davis Monday afternoon. The homes of J. B. Reece and Ott Patterson were also entered and ransacked Sunday afternoon, some clothing being pillooned. It is thought that the same band of thieves committed all these offenses. Their case will probably be investigated by the grand jury that convenes next week.

W. M. S. HAVE MEET

The W. M. S. of the Baptist church met Tuesday afternoon at the home of Mrs. W. G. Briley. The lesson study was Home Missions. There were twenty four members present and a profitable hour was spent. Refreshments of hot chocolate and cake were served.

FOOTBALL FRIDAY

The first football game of the season will be played on the home grid-iron beginning at 4 o'clock, Friday afternoon, when the Tahoka Bull Dogs will be matched against the Slaton Tigers. Come out and see this first game. It promises to be a good one. Besides, you will want to be there to root for the home team. It is reported that Slaton is coming strong.

PARENT-TEACHER CLUB TO ENTERTAIN TEACHERS

The Parent-Teacher Association will give a reception Tuesday evening beginning at 8 o'clock in the basement of the Methodist Church in honor of the members of the faculty of the Tahoka public schools.

A special invitation is extended to all parents and to all other citizens of the town who feel an interest in the school and its work, whether they have children in school or not.

WE HAVE a few good used Fords For sale.—Briley Grain Co.

E. N. Weathers and C. C. Barnes were called to Tulia Wednesday by the death of Judge Billie Hendricks of that city, who was a brother-in-law of Mr. Barnes. He was County Judge of Swisher County for a number of years. Mr. Weathers also expected to visit a brother at Lockney before his return.

HAS FINE MULES

The W. G. Briley Grain Company is now doing a big mule and live stock business. They now have in their pens in this city ninety fine work mules, which Mr. Briley recently bought in the city of Fort Worth. Mr. Briley is undertaking to furnish the farmers of this county with all the additional work stock that they need this fall and during the coming year.

W. B. Gollehon, who was in the News office Wednesday, stated that he had cotton would make a bale per acre except for the ravages of the leaf worms. They have greatly damaged the crop, he thinks. The county agent of Garza county inspected the crop Tuesday and inasmuch as the worms are just now webbing up he advised that Mr. Gollehon wait till they begin to hatch out again and then poison.

Latest novelty dress goods. See the new patterns and colors at H. M. Larkin's.

THE STATE OF TEXAS

To the Sheriff or any Constable of Lynn County, Texas, Greeting:

You are hereby commanded to summon Royal A. Ferris, Carrie A. Slaughter, E. Dick Slaughter individually and as president and a director of the C. C. Slaughter Company, a corporation, at the time of its dissolution, and Robert L. Slaughter, if living, and if any of said defendants are deceased, the unknown heirs, their heirs and legal representatives, respectively, of the said Royal A. Ferris, Carrie A. Slaughter, E. Dick Slaughter, Minnie Veal, George T. Veal; Dela Wright Gilbert G. Wright; Carrie R. Dean, John H. Dean, Nellie L. DeLoache, Ira P. DeLoache, Robert L. Slaughter, C. C. Slaughter, Alec A. Slaughter, Allie D. Slaughter, George M. Slaughter, Jr., Joe Dick Slaughter; Eloise Slaughter, D. T. Rogers and G. E. Lockhart, and the unknown heirs, their heirs and legal representatives of said Royal A. Ferris, Carrie A. Slaughter, E. Dick Slaughter and Robert L. Slaughter, if deceased, are defendants, the nature of which demand is as follows to-wit:

Suit for the collection of certificates of special assessment, No. 55 for the sum of \$319.08, and No. 57 for the sum of \$202.41, payable to the Plains Paving Company, and portion transferred to W. Mills & Company, issued by the City of Tahoka under date of May 25, 1923, by virtue of ordinance passed by said city on January 11, 1923, and other ordinances and resolutions of said city, whereby a special assessment was levied against Lot No. One (1), in Block No. Twenty-One (21), Original Town of Tahoka, in Lynn County, Texas, for improving the highway abutting said premises, and a personal liability and charge against the real and true owners of said property, whether named in said proceedings or not, said certificate being payable in three equal installments, one thirty days after acceptance, which plaintiff alleges was May 24, 1923, and one on or before one and two years after said date, respectively, with interest at rate of eight per cent per annum, payable annually, and providing if default be made, holder at his option may declare full amount due, together with reasonable attorney's fees and costs of collection, if incurred, declaring said assessment to be a first and paramount lien, superior to all other liens, except taxes; that said installments are in default and have been declared due and suit brought for the collection thereof, together with foreclosure of said special assessment lien wherein plaintiff prays for judgment for amount of said certificates, interest, reasonable attorney's fees and costs of collection, and for foreclosure of said lien.

HEREIN FAIL NOT, but have you then and there before said Court, this writ, with your return thereon, showing how you have executed the same.

WITNESS, W. E. Smith, Clerk of the District Court of Lynn County, Texas.

GIVEN under my hand and seal of said Court in Tahoka, Texas, this 18th day of August, A. D. 1925.

(Seal) W. E. SMITH, Clerk of District Court, Lynn County, Texas.

COTTON DUSTING MACHINE

In many areas of North Texas and

the eastern coast section, following recent rains, the damage from leaf worm is becoming severe. In a

large part of this area it will probably be profitable to poison for a period of three or four weeks yet, if necessary.

Many farmers are inquiring where dusting machinery may be obtained. The ready supply of such machines is limited and in most cases, before a machine can be shipped the damage will have been done; hence, the method being used by the McLennan County farmers as advised by County Agent Eudaly should be of extreme interest.

A cultivator, without shovels, is fitted up with a 2 x 4 placed crosswise behind the seat, of such length as to cover five rows. Lengths of 2 x 4 running backward from the tongue and used to raise; this the necessary height above the cotton. At intervals on the cross piece, so as to hang directly over each row, are hung bags of cheese-cloth filled with calcium arsenate. The necessary shaking of the bags is secured by rope wrapped about the tires of the wheels at two-foot intervals. In sandy soil it may be necessary to the two-inch blocks of wood on the tires in place of this rope.

If the cotton is large, the quality of poison applied is increased by driving the team fast, while in small cotton the team may be slowed down. The McLennan County farmers are reported as having full success in poisoning by this method.

We are attempting to keep in touch with supplies of poison and if farmers are unable to locate same, they should communicate with the Experiment Station Entomologist, or with the Extension Service Entomologist, both of College Station, Texas.

J. S. Wells & SONS

Many School Buildings Constructed Over County

We doubt if there is any county in Texas with a population anywhere in the neighborhood of Lynn County which has ever made as much progress in the construction of splendid rural school buildings in a single year as Lynn County has made during the past twelve months.

At least seven brick buildings, ranging in size from two to six rooms and auditorium, have been constructed in the county within the past twelve months. Some frame additions have also been built in other districts and a few teacherages have been provided.

The brick buildings constructed or under construction are as follows:

- Midway, two rooms;
- Joe Baily, four rooms;
- Draw, six rooms and auditorium;
- Dixie, six rooms and auditorium;
- Three Lakes, four rooms;
- Wells, six rooms and auditorium;
- New Home, six rooms and auditorium, construction about to begin.

The cost of these structures ranges as high as \$25,000 including the furniture. There are three towns in the county, Tahoka, O'Donnell and Wilson. The scholastic population of the county is about 3,200, according to the census taken last March. Is there a county in Texas that can beat this record in the building of rural school buildings?

Damage To Cotton From Leaf Worms

J. R. Hardwick, who lives about 3 miles east of Tahoka, was in the News office Tuesday exhibiting a collection of punctured cotton bolls, as evidence of the ravages of the boll worms in his cotton. He says that they are doing serious damage not only to his cotton but to that of a number of his neighbors. If the ravages of these pests are general over the country and are as serious generally as they appear to be in Mr. Hardwick's field, it is evident that they will cut down the cotton yield in the county considerably. No method has been discovered by which to successfully combat the worm, since they bore into the boll and do not feed on the leaves or the outside portion of the bolls, and thus are immune from poisoning.

The army worms are too doing much damage in the county. They are to be found only where the cotton weed has grown rank and the foliage is heavy, but in almost all such places they are literally riddling the cotton. Many farmers have refused to dust arsenic on their cotton for fear of poisoning in the picking of the crop. Some contend also that it is difficult to get pickers in cotton that has been poisoned.

The editor is not a farmer and has no advice to give to the farmers. However, he knows that when he was a boy his father, who farmed in the black land section of Central Texas, fought the leaf worms most successfully by spraying the poison on the cotton. From a barrel of water mounted on a wagon, in which water the proper amount of London Purple was dissolved, the poison liquid was pumped through a spray on the cotton. That it was a great success was demonstrated several different years. We know that it was a success then. We believe

that it would be successful now. In those days we never heard of any one's being poisoned or injured in any way from picking cotton that had been poisoned.

Ten Santa Fe Years

How the Santa Fe has grown in ten years and what that growth means to Santa Fe patrons. Better service at reasonable rates, due to efficiency of operation and millions spent for improvements.

That Santa Fe freight moves promptly, that Santa Fe journeys are enjoyable—doesn't just happen.

Wise economies, 284 million dollars spent between 1914 and 1924 on track and equipment, and the co-operation of patrons and employes—these have helped to build up a great transportation machine which is at your instant service for a most reasonable charge. And this in the face of heavy increase in costs of operation without corresponding increase in rates.

In these ten years the Santa Fe and the Southwest have grown together. The Santa Fe's growth has been not only in mileage and facilities, but also in ability to serve patrons better.

This decade has been a period of expansion. In it the Santa Fe's operated mileage has increased 922 miles. Each locomotive now hauls 54 per cent more. Nearly 14,000 more Santa Fe freight cars are available. There has been an increase of 15 per cent in passengers carried one mile and 79 per cent in revenue tons carried one mile.

Other important items have grown, too. Such as expense of maintenance of the railroad, which increased 121 per cent, or \$1,700 a mile. Maintenance of locomotives showed an upward trend of 137 per cent, or \$6,141 each. Passenger cars 85 per cent, or \$999 a car. Freight cars 155 per cent, or \$161 per car. All operating expenses combined jumped 114 per cent. Taxes advanced for each mile of track 196 per cent, or \$993. Total taxes in 1924 were \$17,730,961 or \$1,499 per mile.

Yet Santa Fe freight rates have gone up only 28 per cent and passenger fares only 47 per cent.

Freight loading carried by each car has increased 3.12 tons, or 14 per cent. Freight loading carried by each freight train has increased 226 tons, or 54 per cent. These are gratifying marks of progress.

The Santa Fe hopes to keep on growing and to keep on giving satisfactory service.

W. B. STOREY, President
The Atchafalaya, Topoka & Santa Fe Railway System

Ancient Land Guards

Secrets of the Past

Where next will the seeker after ancient treasure pursue his romantic quest? asks Martin Pugh.

The answer is to be hoped, he continues, in Syria. One of Professor Petrie's ablest lieutenants remarked to me not long ago when we were coasting along the Syrian seaboard: "When the excavator can get at the treasure this country holds, discoveries will be made that will put the wealth of ancient Egypt in the shade," quotes the Family Herald.

"We were passing Tyre. This ancient seagirt port stands guard over secrets which may one day set before us in undimmed colors, the romance of the Phoenician merchant adventurers. Diggers have, so to speak, scratched its surface, but hardly more. All Syria knows the legend that, from time to time, pieces of gold are found on its historic beach—fragments of the wealth its mariners won a score of centuries ago.

"Sidon, too—sleeping peacefully in the midst of its orange gardens and vineyards—has, as yet, yielded little to the searcher after objective history. Yet what wonders must lie beneath that ancient city!

"Relics of a hundred histories—Roman, Greek, Persian, Hittite and Chaldean, and who shall say how many more?—lie, above and beneath the soil, in the country guarded by snow-clad Lebanon.

"Excavators hardly dare disturb the treasure-laden soil of Syria; for the law at present runs but feebly there, and once native cupidity were aroused no ancient site would be safe.

"Yet even scratches of the soil yield daily relics of successive conquering nations: I myself have turned over, in the dim shop of an old man who buys the petty spoils of grave-diggers, an alabaster image with queer (I think, Cune) inscriptions, a florin of the last crusading count of Tripoli, and neo-Greek statuettes dug from the mysterious hilltop of ex-Istanbul.

"Southward, in Palestine, there are ample harvests of historic worth to be won. Already Mount Zion is marked down for investigation. We may learn, ere long, whether the golden vessels of Israel do really lie beneath that magic, hollow-sounding stone in the Haram-es-Sherif (often wrongly called the mosque of Omar) which is held by Moslems to be the lid of hell.

"Transjordan, with its magnificent amphitheatres and forums—indeed, all that desert which stretches from the Suez canal to the confines of Mesopotamia—has forgotten cities buried beneath its sand, and even the green plain of Sharon may one day deliver up secrets locked in it since the days of Solomon."

When the Two Met

Several days ago, while the moon-tide of pedestrians was sweeping East Washington street, it happened that an unusual number of persons attempted to pass through the temporary arcade in front of the partly completed Selig building.

An ample and rather jovial fat man had elbowed his way almost through the crowd and was breathing a sigh of relief when the unexpected happened. Just as he started to turn from the arcade to the street he ran into a large colored woman of equal size. Both took the count.

"Why don't you put out your hand when you all in goin' to make a left turn?" exclaimed the colored woman as she picked herself up.

The fat man said nothing, but arose and dusted himself off. Before resuming his amble down the street he asked, "Did anybody get the number of that truck?"—Indianapolis News

Bumpers for Faucets

The faucets at the kitchen sink often cause trouble because they are so exposed that now and then a dish is broken on them. At the 10-cent store (and at others, too) you will find rubber tips based on cones and crutches which sell for five cents each.

Two of these will fit over the ends of the faucets and, when the rubber is bored out to allow the water to flow, make admirable bumpers for the faucets at practically no cost. Twenty cents will equip both hot and cold water faucets in the kitchen and bathroom. They can be removed instantly for cleansing.—New York Herald-Tribune.

Two Helpings

Linton B. Arnold, director of the recent Atlantic City Hotel exposition, said on the steel pier:

"A good many people dislike music with their food. The finest food, as a matter of fact, is always served without music, just as the finest music is always served without food.

"The only advantage of the combination of food and music is that the food helps you to forget the music, and the music helps you to forget the food."

Large Waste Basket

Berne, Switzerland, has established a "community waste basket." It takes the form of a huge tin receptacle placed in the heart of the public square, where the citizens of Berne will be expected to throw all their trash. The receptacle has a capacity of several hundred tons.

Elderly Victim of Cupid

Charles A. Warner, seventy, of Washington, a widower for less than two months, was married to Miss Charlotte Belle Nell, twenty-two, also of Washington. Warner's first wife died November 30, last. He declared that the marriage was a case of love at first sight.

MORE ABOUT THE COTTON LEAFWORM AND BOLL WORM

The cotton leafworm infestation has not developed as rapidly as was feared two months ago. This is doubtless due to the continued dry weather and excessive heat.

In certain sections considerable damage has been done, however, and with showers the infestation may be expected to spread with resulting heavy damage.

It seems advisable to repeat, at this time, the suggestions for control given in our previous press letter of June 19th.

The insect is easily controlled by dusting with arsenicals. Whenever cotton dusting machinery is available, the poison is best applied by this means. Where machinery is not available, the pole and bag method will answer. The poisons recommended for the purpose are, Paris Green, lead arsenate or calcium ar-

senate. Calcium arsenate is most easily obtained and will, perhaps, be cheaper. It would be applied at the rate of about four pounds per acre. If the cotton growth is very rank, this should be increased to five or six pounds.

Lead arsenate should be applied at about the same rate as calcium arsenate. This will make the lead arsenate treatment very expensive. Paris green, if used, is best diluted at the rate of one part of Paris green, one part of flour and from one to five parts of lime. It is important to add the lime to decrease the danger of burning foliage. The flour causes the poison to stick to the leaves better. This mixture should be applied at the rate that about two pounds of Paris green per acre is used.

The same mixture may be applied in the form of a liquid spray but this method will be impracticable, except in unusual cases. The dust meth-

od will obtain the results desired and will obtain the results desired and will be very much cheaper. If spraying is to be done, about one and one half pounds of either lead arsenate or calcium arsenate should be used in fifty gallons of water. If Paris green is used only one pound should be mixed with fifty gallons of water and it is advisable also with Paris green to add the milk of lime obtained from slacking one pound of quick lime in a small quantity of water, this being strained through cheese cloth before adding.

Spraying with stock dip, or mixtures of white arsenic and sal soda or arsenate of soda or any other soluble arsenical is apt to destroy the plant growth and it is not recommended from this office.

We do not recommend the burning of lights to trap the parent moth.

Severe damage, by the bollworm, has already been reported from one section in South East Texas. It is quite likely that infestation by this worm will be severe in a number of other areas.

This is the worm that bores into the bolls. When full grown, it is somewhat over an inch long. It varies in color from almost black through the various shades of green to almost white, some individuals being a pinkish color. This has led many persons to fear the pink boll worm has appeared. The pink boll worm never attains the size mentioned.

Except in its very young stages, this worm feeds almost entirely with in the boll and so does not, at this time, get enough of any poison that has been applied to kill it. When very young it feeds upon the cotton foliage and poison applied at that time will result in a considerable degree of control. Many new individuals at this time of year, however, are hatching every day and applica-

tion of poison to be effective must be made at intervals of from four to five days, over a considerable period. Hence it is doubtful if results obtained pay for the cost of poison and application.

If poison for the boll worm is applied it should be done the same as directed for the leaf worm.

In some sections complaint is being made of the bolls rotting. This is, in most cases, due to some disease of the cotton and those experiencing this difficulty should communicate with Dr. Taubenhans, Plant Pathologist, Experiment Station, College Station.

Giving a genuine Gillette razor with each Carhartt overall—the best overall made.—H. M. Larkin.

SANTA FE SURVEY IS BEING MADE TO STAMFORD NOW

STAMFORD, Tex., Sept. 12.—It is now no longer a secret in Stamford concerning the surveying of the Santa Fe cut off from Fort Worth to a point on the main cut off that runs from Galveston to Amarillo. This proposed line is being surveyed from Post toward Stamford and the route so far is ideal.

The line is surveyed south of the for over a hundred years in Texas. Double Mountains, old land marks. The route lies on a direct line thru Stamford and on to Fort Worth, where connection will be made with the Chicago-Galveston section of the road. The line will run through a portion not now served by a railroad and the people all up and down the line are jubilant over the prospects of having a new road.

WHAT IS EVAPORATED MILK?

Did you ever stop to figure out the exact meaning of "Evaporated Milk"? The word "evaporated" may give you the idea that in the process of evaporation the milk has lost some of its valuable qualities. It hasn't. It has and it comes fresh from the cow. The first step in processing the milk is the evaporation, when a portion of the water content is removed. The second step is the homogenization, which insures the cream being distributed evenly throughout the milk. The third is the canning. The fourth is sterilization, which takes place in the can when the milk is subjected to sufficient heat to destroy the bacteria. Thus evaporated milk remains as pure and fresh in the container as when it foamed into the pail in the farmer's barn.

Evaporated milk is now generally recognized as the freshest milk available to those not living on farms and producing their own milk. For freshness in milk means purity. Transportation of milk from the dairy country to the city is well systematized and rapid and yet owing to the immense quantities of milk that must be rushed in daily, much of it must be obtained at considerable distances and a large per cent is necessarily some days old when it is delivered by the milkman.

Evaporated milk, on the other hand, is last night's and this morning's milk. From the dairy barn, always under rigid inspection, it is hurried by farmers to factories located in the heart of the dairy country and delivered when it is fresh. Evaporated milk is canned just at its "freshest moment," when it is in its finest state. It is never allowed to get old. The whole process from cow to can requires only a few hours. It may be interesting to know that the process of sterilizing takes place after the milk has been sealed in its container. Once in its sterilized containers, there is no possibility of deterioration.

The sterilizing of evaporated milk insures its purity—it makes a safe milk for the children. Evaporated milk is boiled milk, and this makes it more digestible.

It may be used for any milk need with safety and economy. For ordinary cream needs, use it just as it comes from the can. When a rich milk is desired, add an equal part of water. For cooking and baking, two parts water and one part milk will usually suffice.

He Can't Be Shown

Mrs. Mildred Melville Mallison, Eugene's fame said in a recent lecture in Council Bluffs:

"Men declare that they are just to women, but it is not true. A man grows grey and fat and wrinkled, but he expects his wife to remain slender and blooming. He grows bald, but he would be horribly aggrieved if she did not retain all her hair."

Mrs. Mallison smiled grimly. "Show me the man," she cried, "who will agree that it's as fair for his wife to snore as for him to."

Copper in Africa

The last year in copper was marked by the ascendancy of a new producing area outside of the American interests. The great property of the Union Miniere du Haut Katanga, Belgian Congo, Africa, has forged into the first place as a copper producer, its monthly output now ranking greater than that of any other single mine. Future production will be still heavier if present metallurgical plans are carried out. Other new African deposits of copper are also reported.

Ed Goode and son, Jack, of Jones county, George Goode and John Newsom and the latter's son, Ernos, of Homiton were in the News office Monday morning in company with Rev. W. H. Horn of O'Donnell. Mr. Newsom and the latter's son, Ernest, of Hamilton were in the News office Monday morning in company with Rev. W. K. Horn of O'Donnell. Mr. Newsom is a brother-in-law of Bro. Horn and all of them are old time friends of the editor. They were here looking the country over and Mr. Newsom is preparing to move his family to Levliland. It was away back somewhere in the dim vistas of antiquity that John Newsom and the editor first began going in swimming together down in old Stmpede creek in Bell county. It seems now like a hundred years ago but it was not in fact more than three fourths that long ago. John has just now discovered that the south plains is the best country on earth and is now moving out. Hope that many more of his sort will keep coming till all this country is converted into farms.

WEST TEXAS NEWS
(By W. T. C. of C.)

CISCO: R. Q. Lee, President of the West Texas Chamber of Commerce, has just returned from a second tour of the Plains country. Mr. Lee was received with courtesy at each point and the business men and the farmers were well pleased with his diversified talks.

Mr. Lee was accompanied on the last tour by B. M. Whiteker, Agricultural Manager of the West Texas Chamber of Commerce also Olin F. Hardy of the Amarillo News and Henry Ainsley of the Amalilo Globe.

PECOS: Recent rains in the Pecos river section has made the grazing range of the Southwestern part of Texas one of the most attractive in years and the only regret is that there is not at this time sufficient livestock here to take care of the splendid crop of luxurious grass that is covering all of the mountains and valleys as well as all water holes and tanks are overflowing with water. Cotton prospects for the Pecos Valley are at this time far above the average for cotton production.

RUIDOSO, N. M.: According to statements made by J. D. Jones of New Mexico at the meeting of the Southern N. M. Association held at Eagle Creek Lodge, August 27-29 New Mexico has one fifth of her acreage covered with pine forest and around Cloudercroft as much as 50,000 feet of lumber can easily be cut per acre; more than 100,000 horses and cattle graze in the National forests and 260,000 sheep roam over these forest lands. The revenues derived from the grazing under the National Forest Control amounts to hundreds of thousands of dollars and about one fourth of this applicable to building National Forest roads.

HASKELL: Dirt was broken for the new hotel here recently and it is hoped that the structure will be complete by January 1st. The hotel will be very modern and the foundation will be sufficient for the 3rd floor when the demand is sufficient to require the addition.

ALMOGORDO, N.M.: One of the most interesting district meets of the West Texas Chamber of Commerce was held here recently and after a most bountiful feast at the noon hour the executive session was held. The meeting next year will be held at Artesia, N. M.

STAMFORD: Porter A. Whaley, Manager of the West Texas Chamber of Commerce attended the Southern New Mexico Association at Ruidoso. He reports a fine meeting and states that many things of importance were discussed concerning both Texas and New Mexico.

MEMPHIS: Memphis is to have a modern three-story hotel, fifty rooms, steam heat, running water, baths elevator service, and all conveniences of an up-to-date hotel. H. G. Stephens, who is letting the contract for this hotel, says that he expects work to begin by March 1st, 1926.

RALLS: According to announcement made by Dr. P. W. Horn, President of the Texas Technological College, W. D. Watkins, Jr. of this city is the first to make application and be accepted as a student in the Texas Tech. Other applications are being received daily and it is expected that Texas Tech will open with a large enrollment.

HEREFORD: The biggest Hereford show in the Panhandle will be staged in connection with the Deaf Smith County Fair, September 18-19. More than twenty Hereford breeders have

been invited to take part in this show. The Hereford breeders are asking for no money as prizes. Only blue ribbons will be given as premiums because the big breeders here volunteered to enter the show rings just to show the world what the breeders here have to show in the Herford line.

LAMESA: The West Texas Electric Company has recently closed a deal with the city of Lamesa taking over the light equipment and two hundred and fifty new lights will be installed in the near future. About twenty light posts will be around the square which will give Lamesa one of the outstanding 'white ways' in West Texas.

DEL RIO: A. W. Ewing of Duncan, Okla. has been elected Secretary of the Del Rio Chamber of Commerce and according to information received by E. K. Adams, President, Mr. Ewing has accepted the place. He will take up his duties here in a few days and expects to put over a big civic program for Del Rio and surrounding territory.

BIG SPRING: The Big Spring Veterinary Hospital is the name of the latest institution of that city. Dr. O. E. Wolfe, surgeon is now having a building erected which will be occupied by this institution. The building will be a stucco structure, 24 x 40 feet and modernly equipped thru out.

CLYDE: J. N. Watts of this city is making arrangements to locate a plow factory here. Mr. Watts has invented a cultivator attachment which has proved to be of much value to the farmers and he has made arrangements to finance the manufacture of his invention and in connection with this operate the new plow factory.

EL DORADO: A permanent Fair Association for El Dorado was organized this week at a mass meeting of the citizens. The following officers were elected who will serve as the directors: Geo. Williams, Tom R. Henderson, Lon L. Hoover, J. E. Hill, E. C. Hill, T. K. Jones and O. K. Enoch. El Dorado will have a Fair this fall but the dates have not been announced yet.

CHILDRESS: The Hays Lumber Co. of Cotton Valley, La. have established headquarters in Childress for the South Plains territory. Construction will begin immediately on the yards and the approximate cost will be \$5,000. C. G. Cleery will have charge of this office.

SEWING MACHINE INVENTOR WAS A FORMER TEXAN

It is a fact probably known to few people that the financing of the sewing machine invention was done by an early day resident of Texas. The story is told in the musty file of a Texas newspaper which reposes in the archives of the library of the University of Texas. The article was written by G. D. Kingsbury in 1867. It says:

"John V. Singer, a muscular old sea captain who had 'followed the sea' for twenty five years landed at Brazos Santiago about 1847 and settled on Padre Island. He got title to a strip of land, made butter, raised stock and picked up wrecks on the coast. Always he visited at Brazos known everywhere as the brother to Santiago and Brownsville, being Singer, the sewing machine man. During one of these visits to Brownsville he told me about his brother's invention.

John V. Singer left home when quite young to go to sea. Several years later he met in New York City his younger brother whom he hadn't seen since that time when he left home. The younger brother told him of his invention of the sewing machine and expressed his belief that it would be one of the greatest mechanical improvements of the age. Young Singer, however, did not have the money to get a patent and finance the deal. John V. Singer said: "I shared his faith, and he shared my purse." He lent his brother \$500 to finance the deal.

"John V. Singer then went to Texas, and it was many years later that he heard first of his brother's success in a letter from him in which he said: 'Should you desire to adventure in some enterprise draw on me for \$150,000 and do what you desire. Evidently John V. Singer accepted the offer, for he made definite plans to build a steamship to run between Brazos and New Orleans in opposition to Harris and Morgan's ships, a plan that was frustrated by the civil war."

J. B. Inman and son, Floyd, of Boulder, Colorado, spent last week end with Mr. Inman's brother, W. P. Inman of the South Ward community. They like the South Plains but like all good citizens they are boosters for their own city.

OUR WEEKLY SERMONETTE
By R. E. Shugart

THE HEAVENLY VISITORS

One Sabbath morning Jesus said to Peter, James and John, Let's go on top of that high mountain away from the multitude and spend the day. When they had reached the top Jesus was transfigured before them, and his face did shine as the sun and his raiment was white as the light; and behold, Moses and Elijah appeared unto them talking with Jesus. Peter said, Lord, it's good to be here, let us make three tabernacles, one for thee, and one for Moses, and one for Elias. Peter was willing to take the weather if he could only make Jesus and the distinguished visitors comfortable.

This was a great day in Peter's life. It was the first day in all of his life that he had to shuffle off all worldly cares just one day and look on Perfection in its Heavenly beauty. Then the Heavenly conversation was music in his soul. He could not report what was said. He was like Paul, who was caught up in a vision and heard things that were not lawful to be uttered. Peter was willing to give all the comfort the mountain solitude offered to just remain there.

Now, we do not know just why the other disciples were not invited to this great feast; but we do know that the ones who had lived nearest to God have always got more out of life. The mountain top is a great place to rejoice.

But the battles of life must be fought out in the Valleys. When Jesus and his disciples reached the foot of the mountain they found a man waiting for Jesus to rebuke an

NOTHING LIKE IT ON EARTH

The new treatment for torn flesh, cuts, wounds, sores or lacerations that is doing such wonderful work in flesh healing is the Borozone liquid and powder combination treatment. The liquid Borozone is a powerful antiseptic that purifies the wound of all poisons and infectious germs, while the Borozone powder is the great healer. There is nothing like it on earth for speed, safety and efficiency. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by THOMAS BROS. DRUG CO.

unclean spirit that was torturing his son. Casting out demons, healing the sick, and preaching the Gospel are more important and a far greater work than building tabernacles on top of mountains for Moses and Elias. So let us content ourselves at the foot of the mountain where we can be on the level of humanity and give and take, spend and be spent, and be useful.

E. J. Adami of Winters spent several days here with his brother O. B. Adami. Winters is in the heart of a great cotton raising section and Mr. Adami estimates the town will gin 18,000 bales this year. He was well pleased with this wonderful south plains country, however, and found this to be some cotton country itself. If the frost and the leaf

worms will just be kind enough to let our crop alone until it is made, old Lynn county is going to show some class as a cotton producing country this year and it is possible that we will surpass old Rumlens. The official emblem worn by those attending the school of experience is the blister.

SAFETY WITH CONCRETE

Marble and granite monuments cost four or five times as much and are no more durable and artistic than those I build of white concrete with GRAFALOI inscription plate. Why then delay another year? Let me submit designs and estimates. Chris L. Adair, Builder, phone 13, box 11, Tahoka, Texas.

Better BUICK owners are Masters of the Road

Once you have driven the 75 horsepower, 75-mile-an-hour Better Buick;

Once you have wheeled it over some particularly tough hill—in high gear—gaining speed all the way;

Once you have observed the way it assumes the lead in traffic;

Once you have checked its economical gasoline consumption against your friends' cars—

Then you will realize fully that the Better Buick, with its 75 horsepower Valve-in-Head engine, gives you power—speed—and inexpensive performance like no other car you have known.

The best way to discover how very much the Better Buick has added to the pleasure of driving is to drive a Better Buick. We have one waiting for your telephone call.

"When Better Automobiles are Built, Buick Will Build Them"

Economical Transportation

Now 2,000,000 CHEVROLETS

Why?

QUALITY AT LOW COST

Chevrolet has now built 2,000,000 cars—the first manufacturer of automobiles with modern sliding gear transmission to reach this tremendous production.

This achievement has been made possible because Chevrolet has met the great public demand for a quality car at low cost.

Chevrolet has a construction typical of the highest priced cars—

powerful economical motor and disc clutch, bodies of beautiful design, closed models by Fisher, Duco finish, interior of cars beautifully and substantially upholstered and fully appointed.

Be sure to see these cars that have achieved so great a degree of public favor—and learn how much automobile you can really get for little money.

E. Sikes, Three Lakes; T. A. Hendricks, Ropes; W. E. Howard, Southland; G. W. Herd, Gordon; J. J. Gray Joe Stokes.

Parent-Teachers Now In Swing For Year

A special meeting of the Parent-Teachers was called Thursday afternoon at four. A short business meeting was held and the regular time of meetings was decided, after some discussion, as every other Tuesday afternoon at four o'clock.

Two paramount committees were appointed by Mrs. Miller. The program committee is composed of Mr. Nelson, chairman, Mrs. Weathers and Mrs. St. Clair. A social committee composed of Mrs. E. H. Robinson, chairman, Miss Lois Pressly and Mrs. Raymon Weathers was next appointed.

A very interesting program followed. Several short talks were made emphasizing the needs of a P. T. A., and stress was laid upon the ways a P. T. A. could help our school.

Miss Pressly rendered a musical number, "Narcissus" and Miss Howard gave a reading, "Patsy," both numbers were greatly enjoyed.

The membership fee has been placed at \$1.00 instead of 75 cents, the additional 25 cents to give the local club a working fund.

The membership of the club is as follows:

Miss Seroyer, Mrs. A. B. Sanders, Miss Coltenback, Mesdames Story, Henderson, Townes, Sanford, C. M. Taylor, Craft, B. H. Robinson, Larkin Weathers, Paul Miller, Shepherd, Applewhite, Kemp, Coughran, Briley, Liles, Stiles, Childers, Tunnell, Singleton, W. C. Wells, Nevels, Hill, Small, Messrs. Sanders, Nelson, Lacey, Hill, Shepherd, Misses Galloway, Shanklin, Griffis, Jernigan, Pressley, and Howard.

Fifteen or twenty others have asked for membership whose names have not yet been turned in.—Reporter.

Petty Thief Of Wilson In Tahoka Jail

A gentleman of leisure who has been staying at Wilson the past few weeks was arrested in Lubbock Sunday and brought to Tahoka and placed in jail here Sunday night charged with two cases of theft. He is charged with having stolen some bedding from the hotel where he was staying in Wilson and a wagon sheet from a farmer living near Wilson. This happened Saturday night, when the said hotel boarder slipped away from his room and from the hotel unknown to the proprietor. When his absence was discovered, it was also found that some of the bedding was missing. In the mean time the farmer had missed his wagon sheet. Officers were notified and the escaping gentleman was picked up in Lubbock. The bed clothing and the wagon sheet were identified by the owners.

Officers are making some investigation as to the past record of this man and they are hopeful that information will be brought to light that will help them in the solution of other thefts that have been committed recently.

AN ORDINANCE

Be it ordained by the City Council of the City of Tahoka, Texas that the tax rates for the year 1925 be as follows:

General Fund	25c
E. L. Bond	22c
Street Improvement Bond	20c
Park Warrant	06c
E. L. Warrant	16c
Road and Street	15c
Water Bond	10c
Street Improvement Warrant	17c
Water Warrant S. No. 1	20c

The above rates to be set on each one hundred dollar valuation of property within City and that Interest and Sinking Fund for Water Series 1924 be taken from Ice and Electric Light income funds.

Passed and approved this 18th day of August 1925.

J. R. Singleton, Mayor, City of Tahoka

Attest:—
Chas. N. Tunnell, City Secretary.

DEMAND IS LARGE FOR HOUSES FOR RENT

Several inquires for rent for houses are being made at the News office every day. A number of families have already removed here from other parts of the state and it is becoming almost impossible for them to find houses in which to shelter their families. Tahoka is going to need many more residences this fall and winter.

LEGAL NOTICE

The State of Texas. To the Sheriff or any constable of Lynn County—Greeting.

You are hereby commanded to cause to be published, in a newspaper of general circulation, which has been regularly and continuously published in Lynn County, Texas, for a period of twelve months, for ten days exclusive of the day of publication and the day of return, a copy of the following notice, to wit:

The State of Texas. To all persons interested in the estate of C. E. Brown, deceased.

Mrs. Pearl Brown, has filed in the County court of Lynn, County, Texas, an application for the probate of the last will and testament of the said C. E. Brown, deceased, filed with said application and for letters testamentary of the estate of C. E. Brown, deceased, which will be heard at the next term of said court, commencing on the fourth Monday in October A. D. 1925, the same being the 20th, day of October A. D. 1925, at the court house thereof, in Tahoka at which said time all persons interested in said estate may appear and contest said application, should they desire to do so.

Herein fail not, but have you before said court, on the said first day of the next term thereof this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court at my office this 7th, day of September A. D. 1925.

(Seal) W. E. Smith

BURGLARIES IN TERRY COUNTY LAST WEEK

Last Friday night while the citizens of the little city of Meadow were soundly sleeping a filling station belonging to F. C. Jackson was entered by thieves some time just before day and took something like \$300 worth of tires, tubes and other auto supplies. So far as we know, no clue has been found of the perpetrators. It is said that Meadow will endeavor to put on a night watchman this fall and winter. To our notion, what they ought to do is go on with their incorporation and elect an officer.

There was also a series of burglaries in Brownfield Saturday night but as the business section is guarded the thief or thieves confined their operations to the residential section. The homes of T. M. Flippin, W. B. Downing, R. M. Hendrick, Dr. W. H. Copeland and Carl Aker were entered. So far all that has been missed is

what small change they had in their pockets, two watches, and Mr. Aker is said to have lost a \$60.00 check. In a few instances the clothing was carried away if it suited the looks of the purloiners, but some of the clothing was left in the yard after the pockets were rifled.

So far as the Herald has been able to learn, the officers have no clue whatever to work on.

Terry County Herald.

Miss Wilma Brashear left Tuesday for Abilene, where she will again be a student in McMorry College.

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by
