Blood Donations Fall Far Short

Big Spring blood donations fell far short of the goal during the two days the bloodmobile was stationed at the First Presbyterian Church here.

More Gifts For Tornado Fund Noted

Additional gifts were received today for the aid of storm victims at San Angelo and Waco.

Honor Students

Janice Boardman, right, and Myrna Talley, were announced as valedictorian and salutatorian, respectively, at Big Spring Senior High commencement exercises Tuesday night. Miss Boardman had a grade average of 95.517 during her four years in high school, while Miss Talley's average was 93.843.

### HS Graduates Urged To Learn All They Can About A Vocation

"Confidence in one's self to face life—that's self-reliance," Dr. W. A. Hunt told the Big Spring High School graduating class Tuesday night. Dr. Hunt, president of Howard County Junior College, cautioned the 1953 seniors that they could not expect to face a world with open arms. "You'll face more problems than any other graduating class in your school's history," he declared. However, he warned against an attitude of despair, and suggested that each senior choose a vocation as early as possible and then "learn all you can about it." These are days of adult labor, he explained, and it is imperative that young people continue their education so that they can take their places in business and professional life that call for highly skilled personnel. Dr. Hunt set forth some fundamentals which he said he believed to be essential to a full life: Get all the knowledge you can; develop an appreciation for beauty; make the best possible use of time; and cultivate a love for fellow man, and above all, for the Creator of the universe.

Dr. Hunt's address climaxed what possibly was one of the fastest moving and smoothest commencement ceremonies ever held here. Two student speakers, Jody Miller and Steve Kornfeld, gave their respective viewpoints on the commencement theme, "Self-Reliance in a World of Decision." "Our lives will be what we make them," Miss Miller said. She reminded that Shakespeare had only 26 letters in his alphabet, just as we do today, and that Gershwin produced his great music from the seven-note octave that is available today. "To be self-reliant, we must make our own decisions," Kornfeld declared. "The best weapon to use in difficult decisions is a good education," he suggested.

Janice Boardman, daughter of Mrs. Portia Boardman, was introduced as valedictorian of the class. Her grade average was 95.617. Salutatorian was Myrna Talley, daughter of Mr. and Mrs. L. G. Talley, with an average of 93.843. Howard Smith was highest ranking boy with an average of 93.18. Miss Boardman will get her choice of a scholarship to either a state school or a church related school, while Miss Talley and Smith won scholarships to any church related school they may choose.

Other scholarship awards presented by Wilder Roe, director of guidance at the Senior High school, included the following: Mabel Dene Choate, scholarship to HCJC covering tuition, fees and books, awarded by city P-TA council; Frances Walker, scholarship awarded by HCJC; and Rosemary Rice, scholarship to HCJC awarded by the Business and Professional Women's Club of Big Spring.

Jody Miller was presented with the award she won in a contest sponsored last Christmas by the Midland Junior Chamber of Commerce to select the outstanding senior girl in the Permian Basin oil-producing area. W. C. Blankenship, superintendent of schools, presided at the commencement. Diplomas were presented by R. E. McKinney, member of the school board, following certification of the 87 graduates by Principal Roy D. Worley. The graduates were introduced by Mayron Shields, assistant principal. Shirley Wheat and Frances Walker presented vocal solos, and Dr. R. Gage Lloyd led the invocation and pronounced the benediction. Myrna Talley played the processional and Janice Boardman the recessional.

### Shivers Vetoes Bill On TV Sets In Autos

AUSTIN (AP)—You can leave that TV set in your car. Gov. Shivers vetoed yesterday the bill that would have banned car sets visible to the driver. The veto was based on Atty.-Gen. John Ben Shepperd's opinion that the bill would have been unconstitutional. Shepperd said the bill was invalid because its application was not restricted to vehicles operating on public streets and highways. Signed into law by the governor was a bill making available to Lamar Tech oil lease bonus money. The funds can be used for campus buildings.

### Mexicans Think Disease Might Cut Meat Price

MEXICO CITY (AP)—Some Mexicans say the outbreak of foot-and-mouth-disease in Veracruz, although an economic blow to the nation, would bring more and cheaper meat to their tables. Meat was becoming increasingly expensive and actually scarce in Mexico City markets in recent weeks as cattlemen found it more profitable to export livestock.

The outbreak of the disease closed the U. S. border to all Mexican cattle. Livestock men will now be forced to sell more meat at home, some Mexicans said. Efforts were being made to eliminate the disease, concentrated in Veracruz state among about 500 head of cattle on four farms.

Mexico's secretary of agriculture has said he believes the outbreak has been brought under control. Reports from Veracruz said livestock men, after the initial alarm, are resigned to the situation and that "tranquility" has been restored.

From the nearby state of Queretaro, there was a reserve twist to the situation: Livestock men, holding a special meeting to discuss the problem, voted to import no more breeding stock from the United States until the disease had been cleared up in Veracruz.

### Tanker Breaking Up

SANTIAGO, Chile (AP)—A Shell Mexican oil tanker, No. 43, snapped its moorings in a violent wind and rain storm at Valparaiso port and was reported breaking up today on rocks offshore. There were no reports of any injured or dead.

### Baby Food Is Recalled After Odessa Infants Are Stricken

PHILADELPHIA (AP)—Spasmodic symptoms in infants at Odessa, Tex., after they had been fed a liquid baby food has resulted in recall of the product by the manufacturers.

Wyeth Laboratories said yesterday some batches of the food, Sma, have been recalled because it was found to produce what Wyeth called "certain unexplained reactions" in the babies fed.

Wyeth sent out more than 500,000 letters to grocers, doctors, and druggists over the nation advising recall of the product. The Federal Food and Drug Administration has approved steps taken by the company, a Wyeth official said.

First reports of the spasmodic symptoms came from Odessa, where there had been a prolonged drought. A very small percentage of infants receiving liquid Sma were affected. In nearby Midland, Tex., where large numbers of infants were fed Sma liquid, no cases could be found. In Midland, however, it was common practice to use bottled spring water for drinking and cooling whereas the highly mineralized water at Odessa was used for the infants' food.

While these cases were being studied, a few cases were reported in scattered communities in Arkansas and from Lancaster, Pa., and Richmond, Calif. Batches of the food in question, a company official said, were manufactured in 1951 and 1952. He said the vitamin potency was reduced, possibly by the high temperature used to sterilize the product.

Wyeth officials reported the vitamin in question may prove to be essential of which in human nutrition had not heretofore been recognized. "It is plausible," the company said, "that a slight change in the fat composition of Sma could result in the inactivation of vitamin B6 during the sterilizing period of high temperature."

Wyeth said only a small proportion—three-tenths of one per cent—of infants fed liquid Sma evidenced hyper-irritability. No trace of toxic substances was found, Wyeth added.

The Sma cans put on the market in 1951 and 1952 had been 95 per cent recalled, the company said, and replaced with a product based on a formula used previous to 1951. None of the company's Sma powder was involved, officials said, and only certain batches of Sma liquid were affected.

### Liberal Party Wins In Nova Scotia Vote

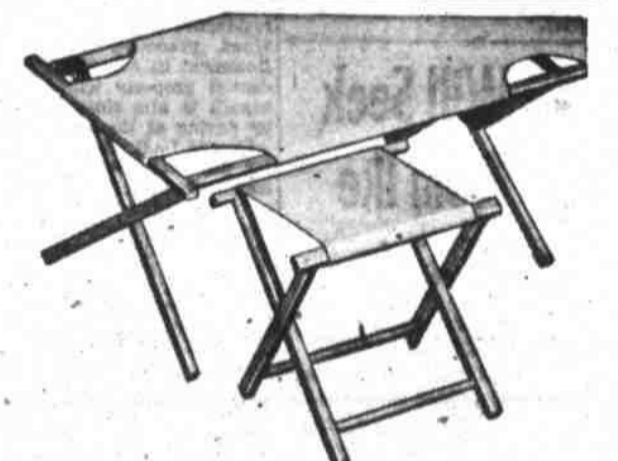

HALIFAX, Nova Scotia (AP)—Election returns gave the Liberal party renewed control of Nova Scotia's government today for the 21st straight year, but with a reduced majority in the Provincial Legislature.

The Liberals, headed by Angus L. MacDonald, won 22 seats of 37 in general elections yesterday. The Progressive Conservatives took 13 and the Socialist Cooperative Commonwealth Federation two. The Liberals in the last legislature held 27 seats.

# You really GO

When you go Ford V-8 you get this fine car power without paying a premium!

What kind of engines are you finding in more and more of America's finest cars? Yes, V-8 engines. For no other type of car engine available today can beat V-8's for compactness and smoothness. And Ford and only Ford offers you a V-8 engine in a low-priced car! It's the result of Ford's experience building more V-8's than all other makers combined... over 13,000,000 of them. And Ford's V-8 costs you little to run—thanks to gas-saving Automatic Power Pilot.

### ECONOMY FLASH!

A Ford Six with Overdrive was Sweepstakes Winner in the recent Mobilgas Economy Run.

# when you go V-8

Fifty Years Forward on the American Road

It's just one of 41 "Worth More" features that make Ford worth more when you buy it... worth more when you sell it!

Imagine! A car so low in first cost keeps its value better than any other car on the American Road. Used-car figures on last year's cars prove that. And with its 41 "Worth More" features, this newer, finer '53 Ford holds still greater promise of long-lived value. You'll find built-to-last... built-to-stay-in-style Crestmark Bodies. You'll find a new kind of ride that practically "repaves" the roughest roads. You'll find advances like Center-Fill Fueling... suspended clutch and brake pedals. And these are but samples of the reasons why Ford is worth more when you buy... worth more when you sell.

# Separated Siamese Twin Meets Press

By ROBERT GOLDENSTEIN  
CHICAGO (U)—Rodney Dee Brodie has moved off the critical list and plunged into the rigorous role of a celebrity—and he loves it.

Rodney, the only head-joined Siamese twin to survive a separation operation, was taken from his sheltered life in a hospital room yesterday and placed before a battery of camera-snapping news photographers.

He faced up to the occasion with

a big grin and a loud, "hi." The photographs are in preparation for the first glimpse the public will have of the 20-months old boy whose parents risked all in the hope the twins would have a chance for a normal life. His brother Roger died Jan. 20.

Mr. and Mrs. Royt Brodie have authorized publication of the photographs in newspapers, magazines and newsreels June 4 when their son, Rodney, appears on the March of Medicine program to be telecast from the annual meeting of the American Medical Association.

Lolling in his play pen on the sun-swept grass court of the Illinois neuropsychiatric institute yesterday, Rodney watched the news photographers go through their paces with an interest sometimes bordering on fascination. He even obligingly waved his rattle at them.

Doctors described Rodney's progress in the last two months as excellent, but he still has a long way to go.

So far, the top of his brain is protected only by a cover of skin and hair. In another two months or so, surgeons hope to build a hard skull roof of bone, metal or plastic and insert it under the skin cover.

The nurses who have cared for him daily say he is as far advanced mentally as any 20-months old boy and should make it when all surgery and physical therapy is completed.

The doctors say it is too early to tell either way. But they add there is no evidence that his mental capacities have been harmed by the historic, 12-hour separation Dec. 17.

They describe him as "reasonably bright" and say he is improving from a sort of partial left-side paralysis that followed the separation operation. He has undergone 18 operations.

ALBERT SPALDING

# Famed Violinist, Spalding, Dies

NEW YORK (U)—Albert Spalding, one of the nation's leading violinists and a noted composer and author, died suddenly last night of a cerebral hemorrhage. He was 64.

Spalding, a member of the famous Chicago sporting goods family, collapsed at his New York apartment as he was dressing to go out.

The famed violinist retired from the concert stage in 1950, telling a crowd of 11,000 at his farewell program in New York's Lewisohn Stadium that he wanted to devote his full time to teaching, writing and composing.

At the time of his retirement, he already had written some 60 works for violin, 25 for piano, 30 for voice and four each for chamber music and full orchestra.

He also had authored a novel, "A Fiddle, a Sword and a Lady." Spalding, who won a graduating diploma from the conservatory at Bologna, Italy, at 15, was the institution's youngest graduate since Mozart 133 years before.

He made his debut in Paris in 1905, when he was 17. Three years later he made his American debut at Carnegie Hall.

Spalding was active during both world wars. He was a lieutenant in the U. S. Army Air Service in Italy and France in the first conflict and was with the Italian underground in the second conflict.

He is survived by his widow, the former Mary Vanderhof Pyle, and a brother, H. Boardman Spalding.

# Ike Lunches At Pentagon With Defense Chiefs

By ELTON C. FAY  
WASHINGTON (U)—A Presidential visit to the Pentagon and a session of the National Security Council focused attention today on the administration's defense problems, including its troubles over military money cutbacks.

President Eisenhower accepted a luncheon invitation from Secretary of Defense Wilson to meet with the newly named Joint Chiefs of Staff and the outgoing members, as well as top civilian officials of the Army, Navy and Air Force.

The luncheon provided an opportunity for Eisenhower and Wilson to explain to the services, including the apprehensive Air Force, how it expects to get more defense money through appropriations for the military would be trimmed \$5,300,000,000 below the proposed budget of the former Truman administration.

The meeting of the National Security Council was set for mid-morning and asked to attend it were a group of administration officials and scientific consultants, some directly concerned with military developments. Among them was Gordon Dean, chairman of the Atomic Energy Commission; Robert Oppenheimer, adviser on atomic matters and on the radar warning network, and Dr. Vannevar Bush, a top ranking scientist who has served in various military research posts with the government.

The session of the security council—whose job is to advise the President on the integration of military, foreign and domestic policies—followed by a day an address by Deputy Secretary of Defense Roger M. Kyes in which he said the war-making potential of the Soviet Union "has recently slipped."

# McCarthy On Trip; Mundt Handles Probe

By G. MILTON KELLY  
WASHINGTON (U)—Sen. McCarthy (R-Wis) announced today he is leaving the city tomorrow—perhaps the country—on a 10-day mission for his Senate Investigations Subcommittee. But he declined to say where he is heading, or what he may investigate.

McCarthy turned over to others the handling of his demands for a government crackdown on friendly nations which continue to trade with Red China.

He predicted the Navy Department will modify its refusal to

name publicly the British-owned ships McCarthy contends have been used to transport Chinese Red troops during the Korean War.

The Navy has indicated it may declassify the names of these British-owned ships and the firms which own them," McCarthy told reporters.

He said Sen. Mundt (R-SD), as acting chairman of the subcommittee "has full authority" to call a public hearing to take the testimony if the Navy agrees.

The subcommittee already has the information, McCarthy added, but is barred from making it public by Pentagon and State Department rulings that public disclosure might hinder U. S. efforts to curb trade with Communist China.

McCarthy yesterday called before his subcommittee Aaron Copland, Pulitzer Prize-winning composer and musician, for two hours of closed door questioning in another line of inquiry.

After the session, Copland issued a statement saying: "I testified under oath that I never have been and am not now a Communist; and that as a composer and free man I have always been and am now opposed to the limitations put on freedom by the Soviet Union."

He said he had permitted use of his name by some organizations, which he did not identify, "without the knowledge or intention of supporting Communist or Communist front organizations."

McCarthy said Copland was granted a week "to refresh his

### Reds Charge Truce Area Violations

PANMUNJOM — Communist liaison officers charged today that two armed South Koreans disguised as Red soldiers were picked up inside the Panmunjom neutral zone early today. The Reds said the Koreans were in the area "to engage in sabotage," but did not elaborate. They said both were armed with Russian-type submachine guns. The Communists charged a violation of the neutrality zone and lodged a protest. Allied liaison officers said the U. N. Command would make its own investigation. The Communists request for the meeting had created speculation that they would deliver a letter concerning some phase of the armistice negotiations which are in recess until Monday. A U. N. official said the negotiations were not mentioned.

Medical Society Officers

Pictured above are the new officers for the area medical society. They are, left to right: Dr. Floyd Mays of Big Spring, president; Dr. Majorie Kirkpatrick of Big Spring, secretary-treasurer; and Dr. John Y. Battenfield of Snyder, vice-president. They were elected at a dinner meeting of the 10-county society Tuesday evening at the Settles Hotel.

### Crash Blame Is Set

FORT WORTH — Eighth Air Force headquarters yesterday blamed errors by radio personnel and poor communications for the crash of a B26 bomber near Goose Bay, Labrador, Feb. 12. Two airmen were killed, 14 were injured and Sgt. Carroll W. Butin, first thought dead, was found alive after surviving 36 hours buried beneath the plane's wreckage in deep snow.

### Dr. Mays Is Head Of Area Medical Group

Some 36 doctors and their wives attended a dinner meeting of the

### Abilene Hearing On Milk Market Order Is Over

ABILENE (SC) — The two-day hearing on proposed amendments to the federal milk marketing order now effective in this area was ended here Tuesday afternoon with Midland County producers asking that their county be removed from the area covered by the order. The battle seeking this change as well as the repeal of the entire order was led by J. R. Long, a Midland producer, who has consistently opposed the order even from the time it was first proposed. The order, which became effective last December and which sets a minimum price the plants must pay the dairymen for milk produced and marketed in the area, covers a territory including Abilene, Ballinger, Big Spring, Breckenridge, Brownwood, Cisco, Coleman, Colorado City, Comanche, Eastland, Lamesa, Midland, Odessa, Ranger, San Angelo, Snyder, Stamford, Sweetwater and Winters. Another proposed change, upon which evidence was heard, would enlarge the area. Several changes in the order were proposed and these cannot be put into effect until they have first been approved by the Washington office of the U. S. Department of Agriculture's Marketing Division and then also approved by a vote of two-thirds of the dairymen concerned. One of the changes requested would lower the minimum price the plants must now pay and another would provide that when a dairyman sells his herd he could transfer to the buyer of the cows his "base" or the "quota" of milk he can sell under the order. As the order is now written the buyer of an established herd has no assurance of any market being guaranteed him, and some dairymen say they are staying in the business only because that under this provision there is no market for their cows. None of the proposed amendments, if put into force at all, can be made applicable in less time than about eight weeks, it has been pointed out. The plants and distributors who have opposed the order all along have been given until June 22 to file briefs summing up their opposition. These briefs and the transcript of the testimony taken during the hearing will then be reviewed in Washington and a decision announced. Among the processing plants and distributors represented at the hearing were Borden of Midland; Borden of Abilene; Borden of Lubbock; Banner Dairies; Tennessee Dairies; Gobel's of Wichita Falls; Gandy's of San Angelo; Powell's of Lamesa; Kiser's of Stamford; and the Producer's Creamery of Springfield, Missouri, an area from which a large quantity of milk is being brought into the West Texas retail market. Among those representing the dairymen at the meeting were R. P. Mayfield and D. C. Buchanan of Big Spring.

### Byrd Sets New Trip

NEW YORK — Rear. Adm. Richard Byrd says he will make another expedition to the South Pole as soon as the Korean War ends. The veteran polar explorer, now 64, said yesterday there is an unexplored antarctica land area which has an "untouched reservoir of natural resources"—coal, oil, uranium and other deposits.

### Bowron Defeated For Los Angeles Mayor

LOS ANGELES (AP) — Congressman Norris Poulson, an Oregon farm boy who came here to try his luck in the big city, has ended the 15-year reign of Mayor Fletcher Bowron. A staunch advocate of economy in government, the 57-year-old Republican now in his fifth term in the House of Representatives, scored a decisive victory in yesterday's non-partisan election. He'll assume the \$18,000-a-year job as leader of the nation's fourth largest city on July 1. Bowron, also a Republican, received 252,721 votes in complete semi-official returns from 3,641 of 3,541 precincts. Poulson received 267,619, or 53.2 per cent of the record total of 500,340 votes for a municipal election. The previous record was 488,961 in the April primary. A little over 51 per cent of the city's 1,049,919 registered voters cast ballots, far short of the record of 72 per cent set in 1911. The 65-year-old mayor waged a heated campaign to retain the job he's held since 1938. He conceded defeat shortly before midnight, wishing Poulson "every success in the opportunity he has to carry forward the traditions of honesty, integrity, and clean government which the people of Los Angeles so richly deserve."

### One Of 10 Most Wanted Men Faces U.S. Judge Today

CHICAGO (AP) — David Dallas Taylor, 26, convicted murderer and one of the FBI's 10 most wanted fugitives, was summoned before a U. S. Court Commissioner today. He faced a charge of unlawful flight to avoid confinement on a charge of murder. Taylor had been hunted since last September when he escaped from a train at Birmingham, Ala., while being returned to prison at Kilby, Ala., where he was serving a year term for killing a prison guard. The killing occurred when Taylor made the first of four escapes in June, 1948, from the Walker County Jail at Jasper, Ala. Taylor told FBI agents he had been working for various manufacturing firms in Chicago since last fall. He said he had married Betty Klein, 17, last February. He said the girl, whom he met in a North Side restaurant, knew nothing of his criminal record. She was not held.

### Dies From Injuries

FORT WORTH (AP) — Capt. Maurice Sheehy, 28, died yesterday of injuries received Sunday when his car ran off the road. He was stationed at Carswell AFB on temporary duty from March AFB, Calif.

troil city government through a "puppet" in the mayor's chair. The Times vigorously denied the charges. Bowron has served since being swept into office in 1938 on a reform ticket following recall of Mayor Frank Shaw. He was re-elected three times to four-year terms.

### AF Must Show It Had Right To Send Ex-Airman To Korea

WASHINGTON (AP) — A federal judge ordered the Air Force today to show that it had a right to take Robert Toth, 21, of Pittsburgh, to Korea to stand trial for murder. Judge James Morris agreed to sign the order at the request of attorney Anthony McGrath, who charged Toth had been denied his constitutional rights as a citizen. The order calls upon the secretary of the Air Force to "show cause" why Toth should not be returned to this country. Toth, honorably discharged from the Air Force in December, was arrested May 13 and flown to Korea in connection with the slaying of Kil Bong Soon, a South Korean civilian, in September, 1952. Also under charges in the slaying is Thomas Kinder, 20, of Cleveland, Tenn. He has also been taken to Korea.

### Dulles Is In Athens

# Elizabeth-Phillip Affair Was A Real Love Match

When Elizabeth II is crowned next Tuesday her husband will kneel before her and speak his homage as her "Ligeia man of life and limb." Here is the story of the romance that made Phillip the Queen's husband. This is the second of four articles on the Queen's life.

By JAMES F. KING  
LONDON (AP)—Elizabeth was only four years old when the first speculation about her husband-to-be began under the ungrammatical headline in a London newspaper: "Who will the princess marry?"

The publicity on her heart affair never ceased until millions by radio heard her soft-spoken marriage vows.

In spite of this the romance of Princess Elizabeth and Prince Phillip of Greece was a real love match by all accounts.

Both are great grand children of Britain's Queen Victoria. They grew up in the same circle of British aristocracy, and undoubtedly attended the same children's parties. But Phillip, five years older, was more interested in ships than girls at that age.

"When I grow up," he was quick to tell everyone, "I'm going to be a naval officer like my Uncle Dickie."

Uncle Dickie is Adm. Lord Mountbatten, dashing cousin of Elizabeth's father. He was then a palace favorite and still is.

The Princess was only 14 and Phillip was a young cadet at the British Naval College at Dartmouth when they made their first impression on each other. Elizabeth went with her parents for the presentation of the "King's Dirk" to the Prince as the top member of his class. The blond six-foot Prince and the Princess saw a lot of each other that week end, and out of the meeting grew a letter-writing relationship that continued through the war years.

But royal romances have their handicaps. Even after Elizabeth was sure Phillip had won her heart, protocol dictated that they must not be seen together in public too often. Postwar night club visits—usually in groups of six or more—meant only a couple of dances together. People might talk.

But the young couple did not succeed in concealing their feelings for each other. Whenever they stepped onto the dance floor, the band would swing into Lilibet's

favorite tune, "People Will Say We're in Love."

Phillip had none of the drawbacks of the German, Prince Albert, who became the consort of the earlier Queen, Victoria. Nevertheless there were some political considerations to overcome.

Phillip was a refugee, a royal Greek Prince, and he was baptized in the Greek Orthodox Church.

He was sixth in line for the Greek throne, and there was controversy in Parliament as to whether Britain should be tied up with the monarchy in that civil war-torn land.

Phillip was born in Corfu but has no Greek blood in his veins. He is a grandson of Prince William of Denmark who accepted Greece's throne in 1863 as George I. He is a descendant of Queen Victoria on the maternal side.

Phillip was brought to England as a one-year-old by his Uncle Dickie after a rebel Greek government forced another uncle, King Constantine, to abdicate. He was brought up as a typical aristocratic school boy and in the Anglican faith. In World War II he took part in Mediterranean fighting in a number of ships and served on convoy duty around the world.

As a 20th century Princess, Elizabeth was free to marry of her own free choosing with two restrictions. The throne's lies with the Church of England barred her from marrying a Roman Catholic, and she could not marry without the King's consent.

Close friends took the engagement for granted when Phillip spent his summer holiday with the royal family at Balmoral Castle in Scotland, and then took out British citizenship and renounced his Greek title in the winter of 1946-47.

But palace officials, sensitive about the private life of the heir, were issuing denials of any impending marriage.

The only palace announcement was that Princess Elizabeth was going on a four-months tour of South Africa with the King and Queen. A lovelick girl took off on the battleship Vanguard for the long journey to meet Zulu war-

riors and other polyglot future subjects.

She carried off her role well, in line with her training for the queenship, and won the affection of the South-Africans, though there were times when she was bored. She complained about meeting so few young people.

The cold war was beginning and Elizabeth came of age during the South African tour but like any young girl in love, she was anxious to see her fiance, now just plain Lt. Phillip Mountbatten. And she let go with a few dance steps on the quarterdeck and hummed, "People Will Say We're in Love" when the Vanguard docked at journey's end.

Elizabeth was sure in her mind, and within two months, on July 10, 1947 the palace officially announced the engagement.

A world radio audience heard the wedding ceremony in Westminster Abbey on Nov. 20, 1947.

Tomorrow: A prince is born, and the U. S. sees Elizabeth.

**Witnesses Are Called**

VERNON (AP)—More State witnesses were called today in the trial of Earl Robertson, charged with murder in the stabbing and beating death of Victor Smith, Amarillo filling station employe.

Italian tobacco shops often sell cigarette butts one or two at a time.

In January, 1953, the United States had 23,966,000 head of milk cows and heifers.

## Six Rotarians Inducted Into The Local Club

Six Rotarians were inducted into the Big Spring club Tuesday during luncheon ceremonies.

Dr. P. D. O'Brien gave the installation talk and W. C. Blankenship presented each of the new club members with lapel buttons and manuals.

Inducted were Dr. Jackson H. Friedlander, Rev. Jordan Grooms, Rev. William Boyd, Raymond River, Malcolm Patterson and John R. Hatch. Rev. Grooms and River are transfers from other clubs; the others became Rotarians for the first time.

Dr. O'Brien termed the Rotary Club a balancing influence in an unbalanced world, and a "leveling" organization in that it brings persons from different walks of life together on a common ground.

"It is a grassroots fellowship among men of every walk of life," he stated.

R. P. Kountz announced plans for a Red Cross first aid course to be offered at Howard County Junior College June 2 to July 2. There will be 10 classes of two hours each, instructed by Otto Peters Sr., he said.

Persons desiring the training should contact Peters or Mrs. Moree Sawtelle, Red Cross secretary. Kountz advised. The course is being sponsored by the American Business Club.

Guests at the Tuesday luncheon were S. C. Cooper of Lubbock, A. B. Youngblood of Abilene, and H. O. Dean of Sweetwater.

# BRAVES AMAZE ALL FOLLOWERS

By ED CORRIAN  
Associated Press Sports Writer

Everyone knew the Milwaukee Braves were improved over last year, but even Manager Charley Grimm, the optimist eternal, didn't dare dream that his outfit would be leading the National League with more than a month of the season gone.

Grimm's club staggered home seventh last year, 32 games behind the Brooklyn Dodgers, who won the pennant and his prediction this year was fifth and with plenty of breaks perhaps fourth.

This is a team that should get better before it gets worse, too. Neither Sid Gordon nor Andy Pafko have been hitting, and these veterans figure to be the mainstays of the attack along with Eddie Mathews and Joe Adcock. Both Gordon and Pafko are under .250.

Grimm's club staggered home seventh last year, 32 games behind the Brooklyn Dodgers, who won the pennant and his prediction this year was fifth and with plenty of breaks perhaps fourth.

This is a team that should get better before it gets worse, too. Neither Sid Gordon nor Andy Pafko have been hitting, and these veterans figure to be the mainstays of the attack along with Eddie Mathews and Joe Adcock. Both Gordon and Pafko are under .250.

Grimm's youth movement is panning out even better than he expected, but in the long run it will be the veterans like Gordon and Pafko, along with pitchers Max Surkont and Warren Spahn who will spell the difference between a struggling club or one with confidence.

Spahn, a four-time 20-game winner, hurled the Braves to a 6-0 victory over the Cincinnati Redlegs yesterday to pull his team a game and a half ahead of the second place St. Louis Cardinals. It was a smooth four-hit job.

The victory was the 12th in the last 16 games for the Braves. They scored once in the second inning, and that was all Spahn needed. But just to make it emphatic, they blasted four Redleg hurlers for 15 hits.

The Cards lost a half-game to the Braves when they split a doubleheader with the Chicago Cubs. The Redlegs won the opener, 6-3, but dropped a 3-2 decision to Turk Lown in the nightcap.

St. Louis has been cutting a swath through the league, too. The defeat in the afterpiece was only the fourth in the series.

MILWAUKEE (AP)—Edward Charles, former heavyweight champion, knocked out Larry Watson in the fifth round of their 10-round Tuesday night fight to score his tenth straight victory in his comeback campaign for a shot at the title now held by Rocky Marciano.

Marciano watched the fight from a ringside seat and said afterward about Charles: "He sure is a busy, smart fighting man... he never lets up."

Charles Knocks Out Foe In 5th

MILWAUKEE (AP)—Edward Charles, former heavyweight champion, knocked out Larry Watson in the fifth round of their 10-round Tuesday night fight to score his tenth straight victory in his comeback campaign for a shot at the title now held by Rocky Marciano.

Marciano watched the fight from a ringside seat and said afterward about Charles: "He sure is a busy, smart fighting man... he never lets up."

Charles Knocks Out Foe In 5th

MILWAUKEE (AP)—Edward Charles, former heavyweight champion, knocked out Larry Watson in the fifth round of their 10-round Tuesday night fight to score his tenth straight victory in his comeback campaign for a shot at the title now held by Rocky Marciano.

Marciano watched the fight from a ringside seat and said afterward about Charles: "He sure is a busy, smart fighting man... he never lets up."

the half in the last nine games. Harvey Haddix had an easy time in the opener with Red Schoendienst supplying most of the power. The second baseman had a perfect three-for-three, including a home run.

In the second game, the Cards looked to be on their way to another triumph. They were leading, 2-0, in the sixth inning on the strength of bases empty home runs by Vinegar Bend Mizell and Enos Slaughter. But the Cubs got rid of Mizell in the sixth and held off the Redbirds the rest of the way.

They were the only games scheduled in the National League. Both the Cleveland Indians and the Chicago White Sox picked up a half-game on the idle New York Yankees in the American League. The second place Indians fought off a ninth inning rally by the Detroit Tigers to pull it out, 5-4, on a home run by Larry Doby, and the Pale Hose polished off the St. Louis Browns, 8-2. Both were night engagements.

Although they're eight percentage points ahead of the White Sox, the Indians trail the Yankees by two and a half games, while Paul Richards' operatives are two games out of first place.

Philadelphia and Boston were rained out, while the Yanks and Washington Senators weren't scheduled.

# American Stars Are Casualties

HOYLAKE, England (AP)—Two of the top American contenders, Big Jimmy McHale of Philadelphia and Frank Strafaci of Hempstead, N. Y., were knocked out of the British Amateur Golf Championship in their third round yesterday.

McHale was beaten on the 19th hole by an American unknown, Robert Abrahams of La Grange, Ill. Strafaci lost, 3 and 1, to Gordon Whitehead, the Manchester, England, fishmonger who yesterday eliminated English champion Gerald Micklem.

McHale was the first top-rated American eliminated, although Jack Munger, the well-liked Dallas veteran, was put out in the same round yesterday.

Morning matches today were played in a heavy downpour. Bill Campbell of Huntington, W. Va., another of the favored American contenders, came through into the fourth round with a 2 and 1 victory over Dr. G. H. Owens of Scotland.

Ernest Arend Jr., of Deal, N. J., reached the fourth round when he beat Ralph Duncan of Scotland, one up on the 20th.

Bruce Thompson of England eliminated Lieut. Howard Culbreth of Greensboro, N. C., one up. Thus, somewhat earlier than usual, the championship evolved into pretty much of an All-American show. The chances for an All-American final Saturday are extremely bright.

The crestfallen British, who invented the game and viewed this year's event with more optimism than usual, were pretty well convinced the Yanks would carry the cup back across the Atlantic. American players have won five of the seven Amateurs played since the war.

Robert Sweeney of Palm Beach, Fla., another of the favored American contenders, came through into the fourth round with a 2 and 1 victory over Dr. G. H. Owens of Scotland.

Ernest Arend Jr., of Deal, N. J., reached the fourth round when he beat Ralph Duncan of Scotland, one up on the 20th.

British amateur champion in 1937 and runner-up in 1948, defeated J. Bennett, an English unknown, one up, in his third round match.

Harold Ridgeley of Philadelphia beat Ian Calder of England, 2 and 1. Joe Case of Hendersonville, N. C. defeated Charles Darwin of Cookeville, Tenn., 6 and 4.

Hubbers Retain Circuit Lead

By The Associated Press  
There was action a-plenty in the West Texas-New Mexico League Tuesday night with seven games played but when all the tallies were in it was still Lubbock at the top.

The Hubbers won their game, a single, 7-1 from Albuquerque with Rene Vega pitching a six-hitter.

The second-place Clovis Pioneers split a double-header at Plainview, winning the first, 9-8, on a five-run seventh-inning rally. They came fast in the second game also rallying in the last inning, but were beaten 9-7.

Borger swept their twin-bill from Abilene by scores of 5-3 and 11-6. Amarillo and Pampa also swapped wins with home runs deciding both games. In the opener Pampa broke a 7-7 tie in the sixth inning when Quincy Barbee hit a grand slam homer, winning by an 11-7 count.

Five home runs gave the Gold Sox a split as they bombed out an 11-7 victory in the nightcap.

### Caldwell Insists Sub Rule Will Help Build Pro Gates

By HUGH FULLERTON, JR.  
PRINCETON, N. J. (AP)—"Will the new substitution rule save you money? If so, in what way?" Charley Caldwell, Princeton's head football coach, and line coach Dick Colman had their heads together over one of the many questionnaires that keep coaches busy at this time of year.

### Rails, Devils Achieve Wins

The Rails upset the Cargo Kings, 5-4, in a Pony League game played here last night.

### El Pason Wins Pistol Tournery

DALLAS (AP)—Registering 2,573 out of a possible 2,700 points, Buck Fisher of El Paso led the south-west pistol tournament in overall shooting here yesterday to win top honors in the 27th meet of the marksmen.

### Miceli And Saxton Vie

DETROIT (AP)—Johnny Saxton and Joe Miceli, two high-ranking welterweights with contrasting styles, are rated even for their 10-round bout at Olympia Stadium tonight.

### Pooler Becomes Longhorn Ump

ABLENE, (AP)—Unconditional release of umpire Frank Tyler was announced Tuesday by Longhorn League President Hal Sayles.

### Webb Batters Houston Team

Webb Air Base's Dusters coasted to a 7-1 softball victory over Ellington Field of Houston here Tuesday night behind the one-hit pitching of Mel Haverman.

### Thiebaut Assigned To Greenville Club

SAN ANGELO (AP)—Royce Thiebaut has been assigned outright to Greenville of the Cotton States League by the San Angelo Colts.

### Two Are Assigned By Carlsbad Club

CARLSBAD, N. M.—Contracts of Alvin Sanders and Alvin Williams Lee have been optionally assigned to Dothan of the Alabama-Florida League.

### Oilers Sign One, Release Another

ODESSA (AP)—Orland Zraggan, a pitcher, has been obtained by the Odessa Oilers from Laredo of the Gulf Coast League.

### Colts Stumble Before Pots

The San Angelo Colts atop the Longhorn League and they blew a three-run lead, dropping a 6-4 decision to the Carlsbad Potashers who climbed back into a first-place tie Tuesday night.

### Colts Stumble Before Pots

The San Angelo Colts atop the Longhorn League and they blew a three-run lead, dropping a 6-4 decision to the Carlsbad Potashers who climbed back into a first-place tie Tuesday night.

Infield Combination

Here's a foursome who can man the infield combination of the Big Spring Broncos. Left to right they are First Sacker George Murphy, Third Sacker Wally Hanna, Shortstop Red Cowley and Second Sacker Jess Jacinto. Cowley has been alternating at short with Carl Harris.

# Broncs And Boiling Pots Meet Tonight

## Hosiery Will Go To Ladies

Deprived of the chance to play in Artesia last night by the elements, the Big Spring Broncos returned home to await a collision with Pat McLaughlin's red-hot, the Carlsbad Potashers.

Game time is 8:15 p.m. The Potashers, now tied for the league lead, will remain over for an engagement Thursday night, after which the Steeds again hit the road.

Tonight, 50 pairs of silk stockings will be given away to women fans on hand, or rather certificates for same. They can be redeemed at C. B. Anthony's Store.

The Broncos are now in fifth place, 2 1/2 games behind fourth place Midland and 6 1/2 lengths behind the co-leaders, San Angelo and Carlsbad.

The Broncos won the only game on their invasion of New Mexico, beating Artesia, 5-4, behind the classy hurling of Oscar Reguera. Chances are Arnaldo Lopez, newly acquired righthander, will toe the slab against Carlsbad this evening.

McLaughlin has saved back Lefty Marshall Epperson to face the Broncos. Epperson is the league's leading hurler and has yet to suffer a defeat. He especially likes to go against Big Spring because most of the local swingers are lefties.

After the Carlsbad set, the Broncos move to San Angelo for two games.

# Nine Linksters Licked Boros

In all, \$43 was raised at the two local courses on National Golf Day last Saturday, all of which will be turned over to sponsoring groups for use in charity work.

Of the 43 linksters who played, nine won medals signifying they beat Julius Boros, the National Open champion.

Using a 20-stroke handicap, Toby Keaton, playing at the Munny Course, reported the day's best score, a 64.

Others of the 28 Munny golfers who won medals were Robert Antel, C. G. Bolling, L. T. Claxton, Ray Brady and E. P. Smith.

Three Country Club golfers, among 15 who played, won medals. They were Son Powell, Earl Reynolds and Mary Gerald Almgren. Reynolds shot a 75 and had a six-stroke handicap.

# LOOKING 'EM OVER

The won-lost percentage of the Big Spring Broncos at Steer Park would, no doubt, be a lot healthier were the local hurlers not as prone to deliver up gopher pitches to the opposition.

Visiting clubs have taken much better advantage of the short left field fence and the prevailing winds here than have the provincials. In 12 ball games played here to date, the opposition has cracked out 28 hits against which there is no defense. On the other hand, the Steeds have managed only 13 of the four-masters.

The ball being used these days may have more rabbit in it but there's no difference in the spheroid being dished up by the Bronco hurlers and those of the opposition.

Oddly enough, much of the long ball hitting has been done by the banjo bitters who ordinarily can't find the fences with their blows.

TRIPLES COME WHOLESALF AT STEER PARK  
A three-base blow is one of the most difficult hits to come by but ball clubs appearing at Steer Park this season have collected more than their ratio.

No less than 15 triples have been hit in the 18 games here this year, nine of them by visiting clubs.

To get three bases in Steer Park, a batter usually has to place the ball between the center and right fielders and drive it all the way to the wall. A ball powered between the left and center fielders is ordinarily played off the barrier before the hitter can maneuver past second base.

Juan Izaguirre, who couldn't hit the size of his hat band when he wore the livery of the Big Spring Broncos, was leading the Evangelina League at last report, with a .361 mace average. Juan is with Crowley.

Only Conk Meriwether, a teammate, topped him with runs batted in, too.

Tommy Azinger, the young Iowa hurler who was optioned to Borger by Big Spring last week, didn't hang around that WT-NM League team long.

He jumped the club and returned home. Azinger looked to advantage but needed experience in Class D ball.

Manny Junco, a great favorite with the fans here a couple of years ago, is punishing the ball for Charlotte of the Tri-State League. The speedy outfielder is hitting .339 for that Class B club.

# Cook's Grabs Lead In Softball Loop

COLORADO CITY (AP)—Cook's Appliance Store of Big Spring took undisputed possession of first place in Colorado City Softball League standings by belting Cuthbert, 13-3, here Tuesday night.

The Big Spring club now leads Coahoma by half a game. Cook's got behind Pitcher Cotton Mize with an 11-hit attack,

and scored five runs in the first and three more in the second.

Every player in the Cook's line-up scored at least once but Brown, the center fielder, Martin paced the winners' attack with three singles.

Mize set Cuthbert down with three hits, two of them by McCullum, who had a first-inning single and a fourth-inning home run.

Shields got the only other blow for Cuthbert, a sixth-inning round-tripper.

Mize struck out ten men in the six-inning go.

# Webb Batters Houston Team

Webb Air Base's Dusters coasted to a 7-1 softball victory over Ellington Field of Houston here Tuesday night behind the one-hit pitching of Mel Haverman.

The Dusters scored three times in the first inning on two hits, an error, a passed ball and a long fly.

Sproesser hit a home run for the Big Spring club in the fourth inning, at which time the Dusters were in the process of scoring four runs.

Besides Sproesser, Orland, Bryant and Thompson collected base hits for the winners.

Haverman struck out five men and was never in trouble.

The two teams play again at Webb at 8 o'clock this evening.

ELLINGTON 100 000-1 1 4  
WEBB 300 401 x-7 4 1  
Wright, Kenyon and Odum; Haverman and Thompson.

# Pooler Becomes Longhorn Ump

ABLENE, (AP)—Unconditional release of umpire Frank Tyler was announced Tuesday by Longhorn League President Hal Sayles.

Joining the staff next week is Gerry Pooler, a veteran umpire and former member of the Longhorn League staff. Pooler is an instructor at North Texas State College.

# Chaney Optioned To Gainesville

ODESSA (AP)—The Odessa Oilers have optioned James Chaney, rookie catcher, in Gainesville of the Big State League, where he has become regular backstop.

Chaney attended Odessa high school. He is subject to 24-hour recall.

ODESSA (AP)—The Odessa Oilers have optioned James Chaney, rookie catcher, in Gainesville of the Big State League, where he has become regular backstop.

Chaney attended Odessa high school. He is subject to 24-hour recall.

# Court Orders Ike To Produce SEC Report

NEW YORK (AP)—The New York Herald Tribune said today the U. S. Court of Claims has ordered President Eisenhower to produce a secret report prepared by the Securities and Exchange Commission 10 years ago on the Empire Ordnance Company.

The company, a World War II munitions firm, "has been involved in many controversies with the government" the story noted.

A Washington dispatch to the Herald Tribune by Jack Steele said the court action was "believed to have few if any legal precedents."

"In an unusual twist," the story related, "it was attorneys for Empire Ordnance who petitioned the court to direct the President to make available the long - secret report, even though it is reputedly critical of some of the activities of the company and its president, Frank Cohen."

The newspaper quoted Empire Ordnance Atty. Bartley C. Crum as saying in New York that he planned to make public the complete SEC report—if Eisenhower complies with the court order—regardless of any criticism of the company of Cohen that the report might contain.

The story continued: "The report, which reportedly involved several top Democratic politicians including Frank M. Hale, former national committeeman from Indiana, in activities in

behalf of Empire, was sealed by President Roosevelt in 1943. Both Mr. Roosevelt and former President Truman refused to make it available to congressional committees."

The court order was sent to the White House last Friday, and there has been no public indication whether the President will obey it. Court attaches said they could recall no other service of a court of claims order on a President.

"The Court of Claims presumably could not force the President to produce the report, but his defiance of the order might cost the government nearly a million dollars now involved in litigation with Empire Ordnance."

Empire Ordnance has filed suit in the Court of Claims to recover a \$935,000 contract award to the company which the government impounded to satisfy tax claims against subsidiaries of the firm.

## Legislator Demands Apology For Error In Congress Record

WASHINGTON (AP)—Rep. Bender (R-Ohio) said today he wants a formal apology from the public printer for what he calls an "incredible garble" in the Congressional Record.

Bender, in a House speech a couple of days ago, talked about President Eisenhower's first four months in office.

The stenographic transcript shows that Bender said: "Unlike his predecessors, he (Eisenhower) believes in works and not pleasant conversation."

But this is the way it came out in the Congressional Record: "Unlike his predecessors, he believes in words and not pleasant conversation."

## Bond Issue Okayed

KERRVILLE (AP)—A \$400,000 bond issue to finance new school buildings and a gymnasium was approved, 389 to 307, by the Kerrville Independent School District yesterday.

# Avalanche Hits Snowplow; Man Dead, 1 Missing

GLACIER PARK, Mont. (AP)—An avalanche slammed a snowplow and four men off a 2,000-foot drop yesterday, killing one and burying another, who was rescued after hours under eight feet of snow.

The smashing wall of snow left another of the four missing and the fourth injured. They were working to open Glacier National Park's Going-to-the-Sun Highway for tourist travel.

Rescuers, working under the glare of portable lights, inched through the huge slide, an night attempting to find George Beaton, 45, of West Glacier, Mont.

His cap was found Tuesday night at about the same time rescuers dug out Eugene Michael Sullivan also of West Glacier. Sullivan was talking rationally shortly after being dug from the snow that entombed him for over eight hours.

He said Beaton was standing by the snow plow as the avalanche smashed down.

Bloodhounds were due to be taken to the slide area in the Park to aid in the search for the missing road worker. They will be allowed to sniff his hat and then be sent across the tumbled snow.

William Whitford, 45, an Indian from West Glacier, was killed as the bounding, rolling snow mass smashed over the snowplow he was driving, crushed it and scattered parts over a three-quarter-mile area.

Whitford and Frederick E. Klein, 31, of Sleepy Eye, Minn., were found 500 feet from the scenic highway.

Klein and Sullivan were taken to a hospital at Kalispell, Mont., southwest of the national park. The Minnesota man suffered multiple fractures and was reported in critical condition. Despite his ordeal, Sullivan was reported apparently suffering no serious hurts.

## 80 Herefords Sold Tuesday By McAlister

Eighty registered Herefords sold at auction Tuesday at the Bar M Ranch of O. H. McAlister near Rhome brought an average of \$385. Nine bulls averaged \$644 while an average of \$377 was made for 59 heifers and an average of \$390 for 12 cows. The sale totaled \$30,825.

The top bull was M. Proud Mixer, and he brought \$1,535 on a bid of Herbert Ferguson of Decatur. This bull was calved Jan. 2, 1951 and was sired by Mixer Royal B 7th, one of the chief sires in the McAlister bull battery.

Sam Johnson of Denison purchased the young bull, M. Proud Mixer 12th for \$1,000. He had previously purchased three heifers from McAlister.

G. L. Griffin of Bowie paid \$900 for M. Proud Mixer 22nd. He was calved July 4, 1952. He also purchased a heifer.

Silver Creek Stock Farm, Fort Worth, purchased several heifers and one of the bulls purchased was M. Proud Mixer 20th on a bid of \$500.

Winston Pettes of Graham paid \$700 for the young bull calf, Proud Mixer M 12th.

Top selling heifer went to Jones Hereford Ranch, Rhome, and the price was \$1,000. The heifer was M. Miss Mixer 12th, calved May 15, 1952. She is by Mixer Royal B 7th and out of M. Miss Star Domino 5th.

Among the purchases made by A. R. Bacon of McWhinney was the heifer Lady Laura 4th that brought \$635.

J. K. Dobbs purchased for his ranch near Newark the better Miss Royal Domino 27th on a bid of \$600. He was the major buyer of the day, getting 28 other of the heifers.

Pony Creek Ranch of Paluxy purchased a number of the cattle and the Van Winkle Ranch of Buffalo purchased several. Jesse M. Brown of Fort Worth purchased some heifers and a bull. Two of the better heifers went to the Ditzzy Dean Ranch near Kaufman.

The auctioneers were C. H. Shaw and Walter Britten. O. R. Peterson of the National Auction Company, Fort Worth, was sale manager.

## Senate Okays Appointments

AUSTIN (AP)—A long list of appointments by Gov. Shivers was confirmed by the Senate yesterday.

Among them were: Chairman and executive director of the Texas Employment Commission — Weldon Hart, Austin.

Veterans Affairs Commission — Johnny Foster, Lubbock; Albert Brown Jr., San Antonio.

Pecos River Compact Commissioner — J. C. Wilson, Pecos.

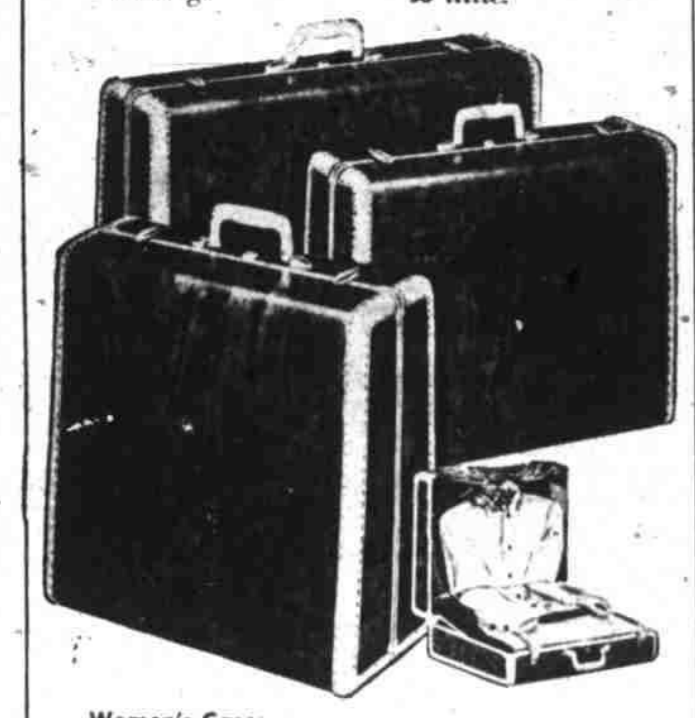

Livestock Sanitary Commission — Clyde Stevens, San Antonio.

## N. M. Judge May Not Release Ballot Boxes To Senators

ALBUQUERQUE, N. M. (AP)—The chairman of the Senate elections subcommittee contends the group doesn't want to interfere with New Mexico elections, but "we're going to do the job we've been given."

The subcommittee, made up of Sen. Barrett (R-Wyo.), chairman; Sen. Hennings (D-Mo) and Potter (R-Mich) arrived by plane from Washington late yesterday to look into the dispute over one of New Mexico's Senate seats.

Republican Patrick Hurley is contesting the election of his opponent, Sen. Dennis Chavez (D-NM). The Senate decided upon a recount, but District Judge H. F. Deacon Arledge, Democrat, told clerks of Bernalillo, Sandoval and Valencia Counties, all of his district, not to release ballot boxes and election records except by his order.

The next step was the subcommittee's orders to Arledge and the county clerk of Bernalillo County to deliver ballots, ballot boxes, ballot box keys and voting records when the formal subcommittee session opened today.

If they didn't, a possible contempt of the Senate charge hung over their heads.

Pin Bollworm Commission—Gus Schneider, Maxwell.

## Regret Expressed For Embarrassment Caused Mrs. Horton

WASHINGTON (AP)—The State Department says it was a "cumbersome mechanism" of its own that caused Mrs. Mildred McAfee Horton to lose out on a United Nations assignment.

Acting Secretary of State Walter Bedell Smith yesterday wrote this explanation to Sen. Jackson (D-Wash):

The State Department asked the FBI for the routine full investigation report on Mrs. Horton when it was decided to nominate her U.S. delegate to the U. N. Economic and Social Commission.

The report was received April 16 and its evaluation took 10 days.

Then it became apparent the nomination "could hardly be properly processed" in time for the opening of the commission's May 4-22 session.

Smith expressed regret at embarrassment caused Mrs. Horton, wartime commander of the WAVES and former president of Wellesley College.

SECTION II BIG SPRING, TEXAS, WEDNESDAY, MAY 27, 1953 FOOD

Salvage Of No. 650 Ends Railroading Era

Salvage workers in T&P Railway's Marshall shops begin dismantling No. 650, foreground, the last of the railroad's great Texas-type steam locomotives. In the background is another Texas-type engine, No. 616, which already has been stripped. The steam behemoths whisked T&P freight trains over West Texas prairies at a 60-mile-

an-hour clip for over a quarter of a century before they were crowded out of action by modern Diesels. No. 650, the last of the herd of 70, made its last run on Aug. 12, 1951, pulling a freight train between Marshall and Fort Worth.

## Last Of Old 600 Fleet Being Salvaged By T&P

The last of T&P Railway's famed fleet of 70 Texas-type steam locomotives—the "600s" as they were commonly known—went the way of the wooden coach, the news-butcher, and the potbelled depot stove today when welders with cutting torches in the railroad's Marshall shops stripped and "cut up" old No. 650, the last Iron Horse on the railroad.

The scrapping of the very last "600" and last steamer marked the end of a great railroad era on the T&P. Designed by and for the Texas and Pacific, this class freight locomotive was one of the largest, most powerful ever to be operated on American railroads. Their special wheel arrangement, one pair (2) of small wheels in front, five pairs (10) of drivers, followed by two pairs (4) of small wheels under the cab, gave them their 2-10-4 technical designation, which became known on the world's railroads as the "Texas-type".

Built in 1925 by the Lima Locomotive Works of Lima, Ohio, the first Texas-type engine—a shiny, powerful giant numbered 600 and costing \$104,000—was delivered to the T&P that year. The railroad eventually bought and placed in service 69 more of the huge locomotives between 1925-29.

Weighing 725,606 pounds with its tender loaded with 14,000 gallons of water and 5,000 gallons of fuel oil, carrying a steam pressure of 255 pounds per square inch to turn its sturdy, 63-inch driving wheels, No. 650 was equipped with a locomotive booster, feedwater heater, superheater and everything in the book that made for power plus.

This big fellow and the railroad's dozens of similarly-equipped 600's were used to pull 60-mile-per-hour merchandise trains, long oil drags, and other heavy trains east and west over the 800-mile run between Texarkana and El Paso, Texas.

All 70 engines were used in over-the-road freight runs and for hauling heavy Pullman troop trains and military equipment during World War II. Founding through the red clay hills of East Texas and across the vast reaches of West Texas, driving rods flashing, oil smoke streaming from their stacks, and throaty whistles moaning, they were a thrilling, inspiring sight.

Beginning in 1946, when modern, speedier, more economical and more powerful Diesels began replacing steam on the T&P, a steady procession of aged Iron Horses have headed for the last roundhouse to be chopped up at the company's Reclamation Plant in Marshall.

No. 650, last of the T&P behemoths and last of the entire herd, has been stored at Fort Worth since making its last run on August 12, 1951, pulling a long freight between Marshall and Fort Worth. In March, 1952, the railroad reached complete dieselization and the last steamer was retired.

To build a big engine like No. 650 from blueprint takes more than

80,000 man-hours. It can be broken up in about 48 hours.

Tuesday, a track crane chuffed up, a cable was hooked, and the silent, rusting, once-proud giant of the rails was towed onto the dismantling track.

Salvage workers with acetylene burning torches began systematically splitting and cutting through its tough steel sides. In a matter of hours, the superstructure, boiler, underframe, and wheels were dismantled. What's left will be loaded into gondola cars and hauled away

for scrap—dumped into railroad's history's dust bin.

Like the horse, however, the colorful 600's are practically extinct, but not altogether. Even though they've disappeared from T&P rails—victims of progress—two of them remain elsewhere as memorials to their might.

At Texas State Fair Park in Dallas, and on the Will Rogers Memorial Grounds in Fort Worth, two of the famous freight engines are on exhibition, gifts of President W. G. Vollmer and Texas and Pacific

## Food Prices See-Saw Hits Balance Here

Despite a few ups and downs in prices of various goods at local grocers, it still costs about the same to feed a family now as a month ago.

Big Spring grocers say that while prices have fluctuated somewhat, there is no great change in the "cost of eating."

"One item might go up some this week and down some next week," one grocer said. "Or perhaps when one item goes up, another has been a little higher some down."

The way grocers here explain it, prices scales are pretty well balanced. The increase in one item is offset by a decrease in another.

There has been a marked increase in shortening prices during the past few days. Some store managers say prices are up two to three cents per pound.

However several grocers pointed out that certain brands of shortening have come down. "It just leaves us in a position where we don't know what to expect next," one man said.

Slight increases have also been noted in sugar and dry pinto beans. "It's not enough so you could tell it though," a dealer said. The beans are up from three to four cents per pound in most places.

All grocers agreed on one thing. The profit is not what it used to be. "We have a larger turnover of goods now, but we have to work on too small a margin," a store manager stated. "There's not too much difference in the wholesale price and that of the retail."

Grocers admitted that mark-ups and mark-downs have been common over the past several months. Yet specific items were not named. All simply said that prices still "averaged out" on the same level as all along.

It was the consensus that prices were "very" unstable and yet appear to be stable.

## State Draft Quotas Still On Downgrade

AUSTIN (AP)—With a July call for 1,268 men, state draft quotas are still on the downgrade, headquarters said today.

The figure is the smallest in Texas since September. The June call was for 1,749 men, and May for 2,823, now almost filled.

Draft boards were told to fill the July call with men 20 or older where possible.

Local quotas for July will be mailed by June 1. Quotas for July physicals will be mailed May 27. Less than 50 of the 137 local boards will receive physical examination calls in July. Only 1,123 men are scheduled to be sent for physicals that month, 2,678 less than in June and 3,733 less than in May.

## Relax, Fellows, It's Only Phone Ringing

NEW YORK (AP)—A mysterious buzzing coming from two packages sent from the same place made employees at the Brooklyn, general Post Office suspicious yesterday.

So the police bomb squad was called. The officers took the packages to a nearby vacant lot and carefully opened them.

Inside each package was a toy telephone set, operated by batteries and accidentally turned on.

management a few years ago when they were first retired.

Enjoyed by thousands of persons— young and old—who eagerly climb over them each year, they stand quietly as proud symbols of a colorful era in railroad history.

## Crude Production Increases In Week

TULSA (AP)—The nation's daily average crude oil and condensate production increased 16,200 barrels during the week ended May 23, the Oil and Gas Journal said today.

The total was 6,346,350 barrels,

bringing to 919,086,075 the Journal's figures of 1953's cumulative production, compared to 885,732,400 barrels a year ago.

Oklahoma increased 1,700 barrels to 534,300. New Mexico fell 100 to 189,925. Arkansas was up 800 barrels to 37,800. Louisiana gained 250 to 702,175.

Production was unchanged in Texas at 2,717,000.

## MEN IN SERVICE

O. D. O'DANIEL JR.

CLINTON HITCHCOCK

Clinton S. Hitchcock, formerly of Westbrook, and O. D. O'Daniel Jr., formerly of Coahoma, have been assigned to the "Lucky Seventh" Armored Division at Camp Roberts, Calif., for basic training.

O'Daniel, whose wife Mrs. O. D. O'Daniel Jr. lives on South Route, Coahoma, has been assigned to Company A, 31st Medium Tank Battalion. Hitchcock is also in a tank unit.

Camp Roberts, one of the largest replacement training centers during World War II, is located halfway between Los Angeles and San Francisco.

Jesse R. Crane Jr., son of Mr. and Mrs. Jesse R. Crane of O. K. Trailer Court here, is serving on board the destroyer USS Tausig in the Pacific Ocean.

He has been assigned to the communications division in the operations department as a radioman-seaman. Before joining the Navy in Jan., 1952, he was graduated from Crawfordville High School.

Robert L. Pepper, son of Mr. and Mrs. R. F. Pepper of Knott, was right in the big middle of the prisoner of war exchange held recently in Korea.

He served on the USS LST 1096, one of the first ships to transport Communist Chinese sick and wounded prisoners of war from POW camp at Chejudo Island to Pusan.

From Pusan the 770 prisoners

boarded trains for their final repatriation in "Operation Little Switch" at Panmunjom five days later.

Pepper was on board the LST when the prisoners refused to leave. They objected to curious on-lookers on the docks with cameras. Everyone was cleared from the docks except the security guards, and then the prisoners objected to being fingerprinted.

After hours of deliberation, Navy and Army authorities gave the prisoners an ultimatum: Pepper then saw the POWs leave peacefully. Pepper is a commissary-man third class.

Pvt. Clyde A. Earnest, 204 Owens, is in Big Spring on a seven-day delay-in-route before being shipped to Europe.

Earnest, who has just completed artillery training at Fort Bliss, will report to Camp Kilmer, N.J., from here for the boat trip. He does not know where he will be stationed in Europe.

### State Orphans Home Benefits From Will

CORSICANA (AP)—John Wende, pioneer Austin business man, has remembered the State Orphans Home here in his will, now being probated.

R. W. Vowell, educational director of the Board for Texas State Hospitals and Special schools, said business property in Austin had been left to the board with the stipulation income from it go to the Corsicana institution. The amount of the bequest and income was not estimated.

Wende died last month. His widow, 80, survives.

## Homeowners Here Don't Dismiss Weather Lightly

Most Big Spring homeowners have lived in West Texas too long to dismiss the weather lightly.

That's the report from local insurance agents who say that windstorm and hail protection is held in equal esteem with fire insurance.

And Big Springers are "insurance minded" one local agent believes. He estimates 60 per cent of local homeowners carry insurance on their houses. That is way above the national average of about 40 per cent.

As a result, Big Spring property owners probably won't ever suffer a loss comparable to that experienced in Waco a couple of weeks

ago when a tornado smashed its way through the city.

Many Waco residents weren't protected against storm losses, a number of Texas insurance adjusters report.

An old Indian legend had it that Waco was in a location where tornadoes wouldn't strike. Until this year, there never had been one, either.

Property owners believed the legend, the insurance men say, so very few went to the expense of taking out windstorm or hurricane insurance, to go with their fire insurance.

That's not the situation here, local agents say. Nearly everyone

that has fire insurance on his home also carries the "extended coverage" which provides compensation for damages resulting from windstorm, hurricane, hail, or explosion. The policy also covers vehicle or aircraft damages to homes or other buildings.

The "extended coverage" costs \$3 per \$1,000 per year. Fire insurance may cost a little more, depending on type of construction, hazards, etc.

The fire insurance coverage ranges from about \$1.50 per \$1,000 to around \$3.50 per \$1,000. That's for a year, also.

Most public buildings here are "protected" against weather violence, as well as fire. The Big Spring Insurance Association insures all buildings owned by the city, school district and county under a plan whereby both responsibility and premiums are shared by the various member agents.

## Monnet Thinks U.S. Of Europe Is Closer

NEW YORK (AP)—Jean Monnet, president of the six-nation Western Europe coal-steel pool, says he thinks a United States of Europe is closer than most people believe. Monnet, a Frenchman, and Franz Eitel, former German Parliament member and vice president of the pool, arrived here yesterday aboard the Queen Mary for two weeks of talks with U. S. officials at the request of President

## Big Spring And Colorado City On Honor Roll

Big Spring and Colorado City are listed on the 1952 "honor roll" of the National Safety Council.

They won the distinction by getting through 1952 without a traffic fatality.

Big Spring and Sweetwater are the only West Texas cities in the 10,000 to 25,000 population bracket named on the honor roll.

Joining Colorado City in the 5,000 to 10,000 population class were Pecos, Alpine, Ballinger, Brownfield, Levelland and Littlefield.

The honor roll was released by the National Safety Council after a study of traffic records compiled in the National Traffic Safety Contest for 1952. The local police department supplied statistics on Big Spring traffic last year.

Listed on the honor roll are 799 cities with more than 5,000 population.

The National Safety Council said this was an increase of 52 from the number on the 1951 Honor Roll. The largest no-death city in 1952 was Evanston, Ill., with a population of 73,600.

Hobart, Okla., a city of 5,400 population which state records show has never had a traffic death since its incorporation in 1901, maintained its perfect record through 1952 for the longest sustained performance among cities of more than 5,000 population.

Among cities of more than 10,000, top honors for sustained no-death records went to Belmont, Mass. (27,400), with a record of six consecutive death-free years.

Although the number of sunspots varies in an 11-year cycle, the actual length of individual cycles may vary from 7.5 to 16 years.

Traffic Commission Preparing For Strong Program Of Work

It is encouraging to note that the newly created Citizens Traffic Commission of Big Spring and Howard County is getting around to opening for business. While it has been several weeks since the organization was formally created, directors have not been idle in looking for the proper man to serve actively for the CTC as its executive secretary.

It should be an asset to the new organization. As a matter of fact, every one connected with the CTC is inexperienced by necessity. Everyone will have to learn how this organization should function for the best effectiveness.

It's Still True: New Graduate Must Be Ready To Take On Work

It is customary about this time of year for all self-appointed advisers of youth to swarm around the new high school and college graduates with a lot of gratuitous advice about job-seeking and job-holding.

camping on the trail of new graduates, practically showing gilt-edged job offers at them, with handsome starting salaries and big pay advances for the future.

These Days-George Sokolosky

Russia Is Formidable As Enemy And Can Act Speedily In A War

The American people are still unaccustomed to having an enemy. Between about 1920 and 1941, some Americans thought of Japan as an enemy and laughed that country off as too insignificant to bother with.

of mineral wealth, much of them is still unexplored. In the United States, the coal, iron and oil deposits are rapidly being used up; in Soviet Russia, they are hardly being used at all.

There are still a great many Americans who laugh away the Russian menace. They say that the Russians will never meet our productivity.

The Communist form of government tends toward a bureaucratic despotism, which is not unlike old Russia. It differs from Czarist Russia in that officials come from the people, rising through various grades of the Communist Party and the official bureaucracy.

Let us therefore have a look at the enemy. Soviet Russia is 8,500,000 square miles spread across 160 degrees of longitude, or nearly halfway around the globe.

Public opinion is controlled by the Communist Party. No divergence of opinion is permitted. Such a dissent, for instance, as Senator Wayne Morse's would not be tolerated. He would either be imprisoned, sent to a slave labor camp or killed.

The Big Spring Herald

Published Sunday morning and weekly afternoons except Saturday by APPLICATED NEWSPAPERS, Inc. Entered as second class matter July 11, 1924, at the Post Office at Big Spring, Texas, under the act of March 3, 1879.

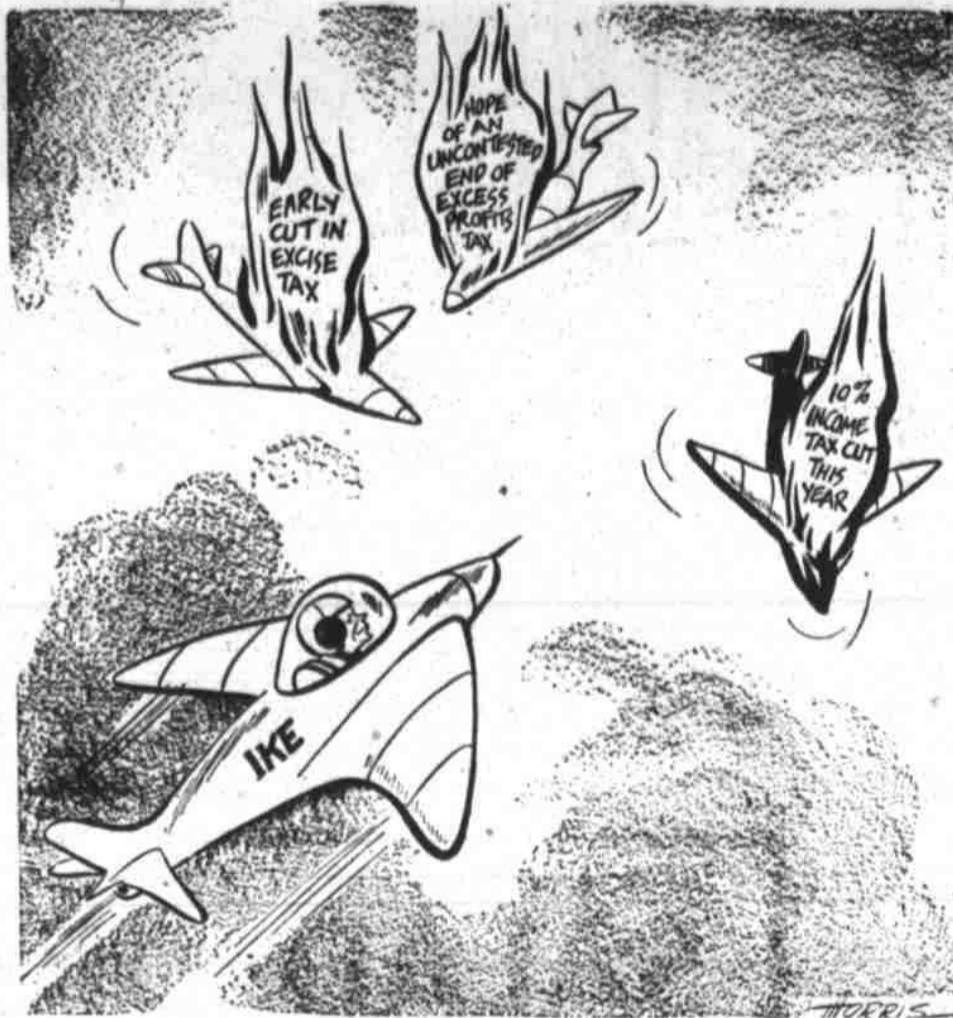

It is important to note that the Russian people accepted oppression for a period of about 600 years, with a few unsuccessful revolutions, until 1917. This is a prolonged period for any European people to submit to autocracy and some form of slavery.

Door Problem

MARBLEHEAD, Mass. (UP)—An "open door" policy has delayed the opening of the new hospital in this town—by the delivery of some doors of the wrong size and the non-delivery of others.

Robs In Cemetery

HONG KONG (UP)—Kwan Wai, 27, a flower seller, was sentenced to two weeks in prison for stealing flowers valued at \$1.80 from a cemetery.

The World Today - James Marlow

New Federal Security Program Which Covers All Employes Goes Into Effect

WASHINGTON (UP)—President Eisenhower's new security program goes into effect today and Atty. Gen. Brownell, who drew it up, is so confident about it he has predicted all security risks will be out of government by autumn.

If fired by the agency head, the accused employe had one further appeal: to the loyalty review board made up of prominent citizens chosen by the President, and not connected with any agency.

Under the Truman security risk program a man accused of drinking too much or talking too much while he worked in a sensitive job, dealt first with a board made up of people from his own agency.

Notebook - Hal Boyle

British Bartenders Use Thimbles To Pour Drinks

LONDON (UP)—The museums and art galleries here all closed by dusk. This leaves only one place for culture-hungry American visitors to go after dark, a night club.

solely by American tourists. Only a wealthy Englishman can afford to go and laugh at the Americans at play.

Human Nose Is Still Taps For Smelling

BALTIMORE (UP)—A smell expert says that 50 years of research on some 4,000 different odors by his company proves that nothing does the job as well as the human nose.

After he pours a drink, the waiter tries desperately to rush it to the table before it evaporates. Most Americans order "a double Scotch" in most night clubs this one will wet most of the bottom of the glass.

This Day In Texas

By CURTIS BISHOP The Madisonville Sidewalk Catechism's Association came up with still another unusual stunt on this day in 1948.

A wise tourist leaves his wallet behind when he goes to a night club. Instead he carries along a medium-sized briefcase stuffed with one pound notes.

MISTER BREGER

"No, no, NO! How OFTEN must I tell you—? Keep your head DOWN!"

Holiday Period Coming Up And Let's All Use Caution On Roads

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald—Editor's Note.

Another Memorial Day week end is upon us and now appears to be the time to stress traffic safety, especially if this scorching heat continues and many residents traverse the highways to cooler areas of the state.

but the fellow crossing your path with the right-of-way is going fast. Speed is another problem. It's serious because many of the state's highways are so void of traffic it often may seem silly to the driver to keep his car under 60 miles per hour.

Perhaps the biggest fault of Texas drivers, as far as this observer is concerned, is the utter lack of driver courtesy on the highway. This, combined with downright carelessness, ring up the increasing toll.

Another, and extremely important thing to the driver behind you, is hand signals. When roads are busy, these signals are vital for they allow the driver behind to better prepare for your actions and not to commit any action which could tie up traffic behind him.

These "stop" signs are put up for a purpose. They were meant to make the driver stop, not just because the state felt like causing trouble, but because of the dangers inherent at that particular intersection.

There are many other necessary and vital rules for driving. You don't need to be able to write them all down on a piece of paper. In nearly all cases, it is simply a question of observing common, ordinary, everyday driving courtesy.

And, another thing, these "stop" signs are not "slow down" signs. You can have a fatal collision if you slow down. —FRED GREENE

Washington Calling - Marquis Childs

Benson Worries Over Election On Restrictive Quotas For Wheat

WASHINGTON (UP)—For all the members of the House and one-third of the senators the Congressional election next year is a small cloud on the distant political horizon.

himself in the spring of 1954 with what is likely to be the greatest surplus of wheat in history. The actual market price may fall well below the support price of \$1.25.

The Secretary would like to find a way to avoid that election. But the bounty of the American earth and the nature of price support laws being what they are, he will probably have to go ahead with it.

On next July 1 the Commodity Credit Corporation is expected to hold in inventory nearly 300,000,000 bushels, which is the largest amount CCC has ever owned.

This presents the Secretary with a personal dilemma. He is convinced that regimentation through programs administered from Washington is evil. In his speeches he talks about freedom and the need to throw off the shackles of government.

The law which provides that an election must be held when the total wheat supply is above a certain level also provides an out. The Secretary can find that an emergency exists making it unnecessary to call for a quota vote.

A few weeks after he took office, of course, he was faced with the overflowing abundance of America's dairy herds producing milk and butter out of season in a vast surplus. The Secretary decided to support butter at 90 per cent of parity, which meant sustaining the going price.

If action had been taken last year and the wheat farmers had cut down their acreage, then Benson would not this year be haunted by the nightmare of wheat running out of every crevice and cranny in every warehouse and storage bin in the country.

That is still going on and the total held in storage by the Commodity Credit Corporation is 175,000,000 pounds, on which the storage bill is several million dollars a year.

Farm income is estimated to drop appreciably this year. The drop will be due not so much to declining prices, since the crops will still be there. But the prices of most of the things the farmer must buy to produce his crops are still going up.

It is hard, indeed, even for a customer to buy what passes for an ordinary drink in America. The bartender doesn't use a jigger. He uses a thimble, and the thimble would be tight on the finger of a lady midget.

The first step is to point out the consequences if two-thirds of the wheat farmers fail to vote for the restrictions. Under the law, the support price then drops to 50 per cent of parity, from 90 per cent.

After he pours a drink, the waiter tries desperately to rush it to the table before it evaporates. Most Americans order "a double Scotch" in most night clubs this one will wet most of the bottom of the glass.

Furthermore, if the farmers reject the quota system, Secretary Benson will find

It is hard, indeed, even for a customer to buy what passes for an ordinary drink in America. The bartender doesn't use a jigger. He uses a thimble, and the thimble would be tight on the finger of a lady midget.

The first step is to point out the consequences if two-thirds of the wheat farmers fail to vote for the restrictions. Under the law, the support price then drops to 50 per cent of parity, from 90 per cent.

Sometimes, nearly illegible pencil marks can be made legible by photographing them with infrared rays on special films.

Furthermore, if the farmers reject the quota system, Secretary Benson will find

Uncle Ray's Corner

Ordered The Coronation Chair

During the past 650 years, almost every British monarch has sat on a certain chair. Known as the Coronation Chair, it has been used by six kings named Edward, also by several named Henry and others named George. The first Queen Elizabeth took a seat there during her coronation.

was taken to England, and was placed where it would be under each new monarch who sat on the Coronation Chair. The Coronation Chair was built by order of Edward I. The old record says that "Adam, the King's workman" made it.

The ceremony for the crowning of a king or queen still has words about the monarch being "lifted to the throne." These words go back to a time when princes were placed on shields and lifted in the air when they became kings.

The Stone of Scone was taken away by three Scottish students on Christmas Day in 1950, but was recovered a few months later. It will be under the Coronation Chair when Queen Elizabeth is crowned next Tuesday.

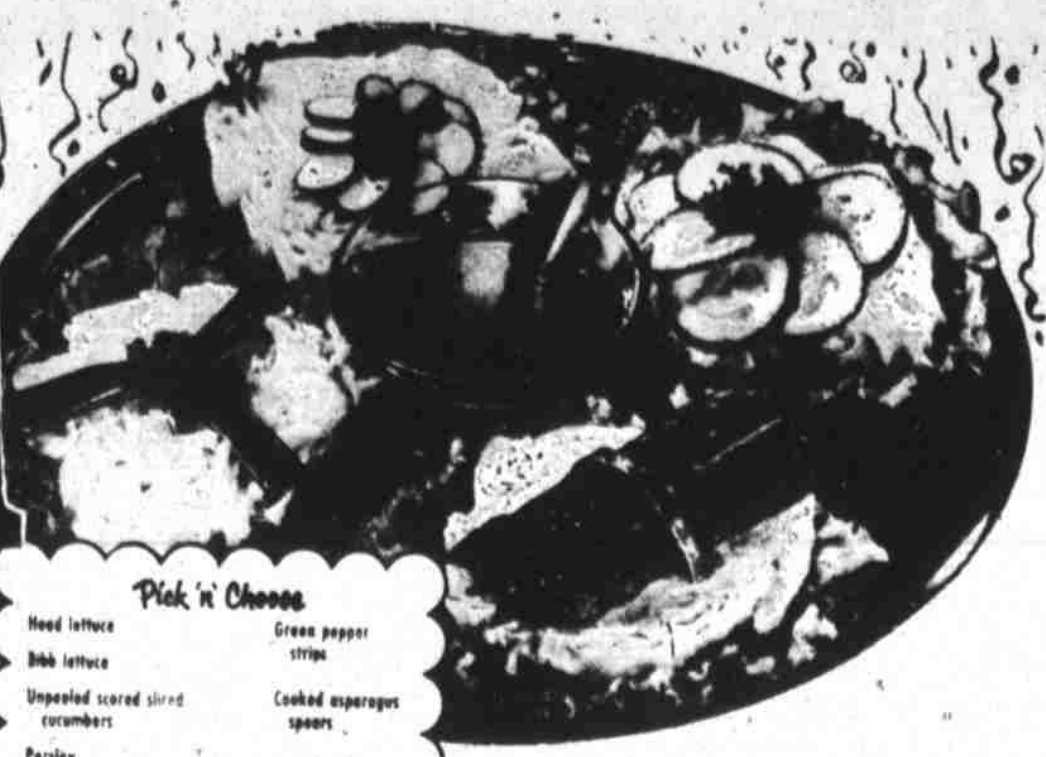

After the Anglo-Saxons gained control of England, some of their customs changed with passing time. It came about that instead of standing on a shield, a new king of England was lifted up, and placed on a chair or throne.

For GENERAL INTEREST section of your scrapbook. Tomorrow: Queen Victoria. SOUTH AMERICA: Many readers have asked for special articles about our neighbors to the south, and Uncle Ray has prepared a new leaflet, "Five South American Republics," which he will be glad to send without charge.

Six and a half centuries ago, the English king was Edward I. He carried on warfare against Scotland, and seized the town known as Stone. There he obtained a thick piece of red sandstone, which the Scots had used during the coronation of several kings.

Enclose a stamped envelope bearing your own name and complete address. Send your letter to Uncle Ray in care of this newspaper.

**Pick 'n' Choose**

Head lettuce	Green pepper strips
Bibb lettuce	Cooked asparagus spears
Unpeeled scored sliced cucumbers	Pimento strip
Parsley	Miracle French Dressing
Sliced radishes	
Watercress	

For each serving, place a crosswise slice of head lettuce on a bed of Bibb lettuce. Top one portion with overlapping cucumber slices; garnish with parsley. Top another with overlapping radish slices; garnish with watercress. For the third portion—wide green pepper strips arranged petal fashion, garnished with parsley. For the fourth—asparagus spears garnished with pimento. Serve with Miracle French Dressing.

**Churches Contribute**

DALLAS (AP)—Baptist churches in Texas have contributed \$5,400 toward rebuilding tornado-damaged churches in Waco and San Antonio. Dr. R. A. Springer, Baptist General Convention of Texas treasurer, said this yesterday. He said \$180,000 and to one church in San Angelo \$70,000.

Riding  
**T.H.E. GRUB LINE**  
With Franklin Reynolds

Future Farmers of America leaders from high schools over a major section of West Texas will assemble at Sul Ross State College in Alpine tomorrow for their annual Area II meeting and Officer Training School.

The delegation, expected to be 150 or more, will be composed mostly of officers in district, area and state units of the organization and of candidates for advanced

FFA degrees. Still other members of the delegations will be winners of district public speaking contests; winners of district FFA entertainment contests; district FFA sweethearts from the seven districts in the area, which includes Miss Jan Burns of Garden City, sweetheart of the Big Spring district, and delegates from the various local chapters comprising the area. Melvin Daniels and Travis Fryar are the delegates from the Big Spring High School FFA Chapter.

The Area II Association is made up of 76 FFA chapters from high schools in West Texas and has more than 3,200 members, according to E. L. Tiner of Big Spring, area supervisor of Vocational Agriculture in the Texas Education Agency. The Area II meeting will be under the direction of Joe Dan Boyd of Winnsboro, state president of the Texas FFA Association; Joe Stephens of Lamesa, state FFA vice president, and Darrell Rogers, also of Lamesa, and president of the Area II FFA Association.

The two-day meeting is crowded with work and play for the Future Farmers and Ranchers, and will get underway early Thursday afternoon. Dr. Bryan Widensthal, president of Sul Ross College, and Bill Winter, past president of the Alpine Chamber of Commerce, will be on hand to welcome the Future Farmers to Alpine. Darrell Rogers, Lamesa High School student, will preside at the meeting.

The biggest job at the convention is expected to be the checking and processing of the applications for advanced FFA degrees and the applications for scholarship awards, according to Rogers. Approximately 75 boys from the various chapters are making application for the Lone Star Farmer degree, the highest degree that can be awarded by the Texas FFA. Among these applicants are Delbert Davidson, Derwood Blagrove and Travis Fryar of Big Spring, and Bryant Harris of Garden City. Truett Vines and Ronald Baumhardt, vocational agriculture teachers in the Big Spring High School, M. A. Barber, vocational agriculture teacher at Garden City, and Travis Jenkins, Vocational Agriculture teacher at the Coahoma High School, were to have left here early this morning, accompanied by Miss Burns, the FFA delegates and candidates.

At Alpine, Miss Burns will compete with the sweethearts from six other districts for the honor of becoming area sweetheart, the winner of which title will receive an expense-paid trip to the state FFA convention where she will compete with the sweethearts of other areas for the title of state FFA sweetheart.

Candidates for the Lone Star Farmer degree must meet many requirements. The applicant must have an outstanding record of leadership in the FFA and must have had in operation, over a three-year period, an outstanding supervised farming program.

One of the highlights of the convention will be the selection of the Star Farmer of Area II. He will win a cash reward of \$100 with another \$50 in cash going to the runner-up, and the third ranking applicant will receive \$40.

The various districts have already selected their candidates for the Star Farmer degree. In the Big Spring district this candidate is Bryant Harris of Garden City. Among other candidates are Earl Brown of Brownfield; Bill Thomas of Haskell; Monte Griffin of Lamesa, and Louis Earl Eisenwine of Pecos.

Examination of the project record books reveal the scope of the farming operations of district candidates for Star Farmer. For example, and prominent among these candidates, is the Pecos FFA member, Eisenwine, who has over \$21,000 invested in his supervised farming program.

Friday morning, an FFA public speaking contest will be held and awards will be made to the three high individuals in this contest, and the top man will represent Area II in the state-wide contest at the state FFA convention at Fort Worth.

On the recreation side of the program, in addition to the election of the Area II sweetheart, will be a dance for the delegation at the Sul Ross Student Union Building Thursday evening. Mrs. Bennie Helen Simpson, sponsor of the

JOE STEPHENS

America Chapter, and her FFA girls will be the hostesses at the dance, Friday evening of the delegation will be entertained with a picnic at Madera Canyon. The Alpine Chamber of Commerce will be the hosts upon this occasion.

The meeting will be concluded with the election of officers and final committee reports Saturday morning.

Among the guests of the Area II meeting will be George Hurt of Austin, chief of the Agriculture Education Service; L. M. Hargrave of Lubbock, professor in the Department of Agriculture at Texas Tech, and W. E. Williams, director of the Division of Vocations at Sul Ross College.

Vines, Barber, Jenkins and Baumhardt, the vocational agriculture teachers, will serve on important work committees making preliminary checks on degree applications and applications for scholarship awards.

**Health Officials Warn Of Food Poisoning Dangers**

Local health officials have joined Dr. George W. Cox, state health officer, in warning against the dangers of food poisoning.

Advent of hot weather has multiplied chances for the disease to strike, warned Lige Fox, sanitarian, and Jewel Barton, public health nurse for the Big Spring-Howard County Health Unit.

Most effective preventive is proper care in the preparation, serving and storing of food, they advise.

As a result of investigations into the cause of food poisoning, Dr. Cox reported that improper food handling was responsible for the illness in most cases.

Food poisoning is commonly caused by bacteria in food. In general there are two types, food poisoning and food infection.

Food poisoning is caused by bac-

teria in the food that produce a poison and usually the symptoms appear within a few hours. In food infection, the bacteria do not produce a poison, but attack the body. This takes longer so symptoms usually do not appear for 12 to 24 hours after eating.

In both kinds of illness the symptoms may be similar: nausea, vomiting, diarrhea, abdominal pain

and fever. In food poisoning nausea and vomiting may predominate while in food infection diarrhea may be the prominent symptom.

As a prevention health officials suggest that all food be protected against flies and other pests. Refrigerate all perishable foods including meats, poultry and cream-filled pastries. Many outbreaks of food infection are caused by leaving food out of the refrigerator.

Also, avoid handling food if you have a sore or an infection on your hands or if you are sick.

**Princess Is Italian Liner's Social Aide**

NEW YORK (AP)—It's not at all unusual for an ocean liner to bring European royalty into the Port of New York.

But there was something different about the arrival yesterday of Princess Sonia Doris d'Angri, of Naples, aboard the Italian liner Vulcania.

She was a member of the crew, making her first trip as the liner's social director.
