Marshall Swan Badly Hurt

While Driving at a Rapid Gait
Wagon Hit Grub And Threw
Him Out. The Fall Re-
sulted in a Broken Arm

Marshall Swan sustained a painful injury last Saturday afternoon. He left town to go to their country place 17 miles north of town to get a load of feed; when only a short distance from the house the wagon run over a knoll about two feet high and threw him out, breaking his left arm. Fortunately Mrs. Izzard, who lives on the place, saw him fall and sent her son out to help him to the house. Dr. Inmon was summoned and his mother was notified. All haste was made to procure a way to go in a hurry, as there was not a car to go had they went in a couple of buggies and it was a three hours before help could arrive from town. The broken arm was nicely set and Marshall is well soon be about again. Mr. Swan was away from home at the time of the accident.

Rev. J. R. Miller, of the New Home community, was in Tahoka Thursday with a bale of cotton.

The Demagogue

The passing of the demagogue has marked an important epoch in the progress of Texas. Like the desperado and the cowboy, he has had a thrilling and exciting career and like them he has been compelled to give away to the trend of civilization.

He was the product of the times and the harder the times the more perfect the product. A Prince Albert coat, a puch hat and a strong pair of lungs and he was ready for the hustings to turn the people against the approach of capital. He thrived best upon life and dissension and his principal reputation was in shrewdly arraying his case against class and then leading a stronger against the weaker force. With star defying audacity he would publicly attack the character of a prosperous industry and argue its demerit with all the logic and stinety of a Plerim father pleading for the burning of a witch. He was a creature of ignorance and genius, and would hunt out prosperous corporations and make their success a snarl on which he could bound into a spotlight by denouncing capital as sapping the life blood of the people then proceed to argue hypothetically the cause of the down-trodden masses with the earnestness of a young lawyer pleading his first case. He was a patriot for applause and politician for revenue and he sought goal of his desire with the intuition of a gifted criminal and he would track prey with the instinct of a hungry cat. But he is gone and may his low never again darken the shadow of Texas.

Good Roads

A farm with bad roads is worse off than a farm with bad water. It is to understand how a farmer, or other enterprising, should be back in building roads. Travel through our rural districts and you find farmers with blooded stock, highly cultivated and premises kept and with public highways bog up an empty wagon six hours in the year. Build roads and up with the procession.

Back to the Soil

There is too much money going for luxuries of city life and not enough for country improvements.

The cry of "back to the soil" should be to money as well as to men. It is the coin of the realm to improve, build public highways and farm life profitable and attractive.

BABY FALLS FROM TRAIN NEAR LOCKNEY

Last Saturday morning a baby about eighteen months old fell from the train between Lockney and Floydada while the train was in motion. The train had gone two miles before the baby was missed, and when it was picked up, after the train had backed back, the little fellow was so cold it could not cry. It was badly bruised and scratched but not seriously injured.

The child belonged to a painting gang on the road, and its fall was from a bunk car. That it escaped instant death was a miracle.—Lobkney Beacon.

The same paint gang spent the last of last week in Tahoka, and the baby seemed none the worse for its fall.

THE NEW MAIL LINE!

Washington, D. C., October 31, 1911.—Mr. J. D. Eernes,—Dear Sir:—Referring to our recent correspondence on the subject of your mail supply, I beg to say that I am today in receipt of a letter from the Fourth Assistant Post Master General in which he advises me as follows:

"I beg to advise you that petitions for the establishment of service from Tahoka by Brownfield, Gomez and Plains to Bronco, Texas, have been referred to the Chief Inspector, with request that investigation and report be made as to the advisability of establishing such service.

As soon as the report is received the matter will be given careful consideration.

Petitions for service from Lubbock to Bronco have been received and will be considered in connection with those for service from Tahoka, but both services would not be warranted."

I will keep you advised of any further developments.

Very truly yours,

W. R. SMITH.

THE PUBLIC SCHOOL is one of the greatest factors in our country. When reinforced by good, wholesome, reliable newspapers, it gives the American child a practical education.

Without the aid of newspapers the public school can not give a boy or girl that degree of general intelligence that you wish your children to have. During the month of November you can get the Lynn County News and the Dallas Semi-Weekly Farm News for one year, three papers a week, for \$1.50. Hand your name and money to the publishers of the Lynn County News before the first of December and get both papers twelve months for yourself and family.

Texas Needs Great Men

XII. ORGANIZATION

ALEXANDER the Great organized the Macedonian Phalanx and his army conquered the world; Caesar marshalled the Roman Legions and his minions swept Europe. The important changes in civilization have all been wrought by the plastic hand of a master mind that could feel the powerful impulse of a great world as it frets and moans for able leadership. In every age progress has waited in attendance upon real strategic men who could comprehend the sweep of human action and see world-wide opportunities as they twinkle in the distance.

A MACEDONIAN PHALANX

Let those who would weave at the loom of civilization and read the destinies of nations first organize the mighty forces of progress, occupy the frontier of human thought and produce specifications for the conquest of the world's commerce. Texas needs great men.

THE MAN WHO WINS

The man who wins is the man who works—
The man who toils while the next man shirks;
The man who stands his deep distress
With head held high in the deadly press,
Yes, he is the man who wins.

The man who wins is the man who knows
The value of pains and the worth of woes,
Who a lesson learns from the man who fails,
And a moral finds in his mournful wails;
Yes, he is the man who wins.

The man who wins is the man who stays
In the unsought path and rocky ways,
And, perhaps, who lingers, now and then,
To help some failure rise again,
Ah! he is the man who wins,

Geo. Rilev, the druggist of O'Donnell, was in Tahoka Thursday, meeting his old friends and talking up his tailoring department. NEW METHODIST PASTOR PREACHES HERE SUNDAY

Rev. R. J. McElrath, the new Methodist pastor will preach here Sunday at 11:00 o'clock and again at 7:30 in the evening. Come and hear him and get acquainted. This is the beginning of a new conference year and the members of the church should get together and work for the masters cause.

Little Irma Small received quite a cut on her head Monday. While at play one of the smaller children climbed onto a chair and reached for a butcher knife. The little fellow accidentally dropped the knife and it struck Irma on the head. The gash bled freely, but proved not to be serious.

STOKES-McGONIGAL

Joe Stokes and Miss Gladys McGonagill, were married last Sunday afternoon November 12, at 2:30 o'clock.

The young people accompanied by Mr. and Mrs. Bud Milliken, sister and brother-in-law of the bride, drove to the home of Ellis Payne where the ceremony took place. They were met at the gate by the family party from the Hotel.

Bro. Balch pronounced the ceremony that made them man and wife, and never did the time honored words bear a sweeter significance than when pronounced by the beloved pastor to the young people of his church.

The bride and groom number their friends by the score and all join in wishing the bride much joy in her journey through life and hearty congratulations to the groom in the possession of so peerless a bride.

Miss Gladys has been a resident of Lynn county since she was a little girl and has endeared herself to all who know her. Joe is one of the rising young men of the town and we are proud to claim him as a citizen.

The young people will be at home in their pretty bungalow in the west side of town, a recent purchase of the groom in anticipation of the happy event.

Dr. J. B. Hall, the dentist of Plainview, whose card can be found in our professional column on the second page of this paper, came in Monday according to schedule, and has been busy all the week, as usual when here, for the Doctor is well known and well liked in Tahoka.

Fire Alarm Sunday Night

Alarm Given About 7:30 Sunday
Night That P. B. Hall's Residence in West Tahoka Was
on Fire, Slight Loss

Last Sunday night the alarm was given the P. B. Hall's residence in west Tahoka was on fire. Everybody that heard the alarm rushed to the scene of the fire and every one went to work to put out the fire and save the furniture.

The fire seemed to be in the loft and a hole hole was cut in the roof and men and water lowered on to the ceiling. After getting into the loft it was discovered that the fire was down inside of the box around a brick flue and the smoke escaping out of the top of the box into the loft made it appear that the whole upper part of the house was on fire.

As soon as the fire was located it was quickly extinguished, with very little damage, except the holes cut in the roof so the men could breathe and the wall paper damaged by water.

The fire was caused, it is supposed, by the hard wind Saturday shaking it apart down inside of the box.

Mr. Hall first discovered smoke escaping from around the door casing through the middle wall into the west room, the flue being a double one and built into the frame partition. Entire loss covered by insurance.

W. L. Kuykendall, of 8 miles south of Tahoka, is nursing his left hand in a sling this week. It seems that some 10 days ago, while cutting feed, he felt a stinging sensation in his left hand and he thought at the time that a spider had bitten him, but soon forgot all about it. His hand is badly swollen and is painful, but it seems to be improving right along.

"LEST WE FORGET"

To prepare for next year's reading in time The Lynn County News desires to say that all who want to keep up with passing events at home should subscribe for this paper now.

While you are about it, why not take advantage of our November club offer and get The Dallas Semi-Weekly Farm News also for a year? Both papers for the small sum of \$1.50, giving you three papers a week and supplying the whole family with good, wholesome, up-to-date reading matter.

If you forget this offer both yourself and the publishers are losers, but you are the greater loser.

Don't lose out, but subscribe this month while this liberal offer holds good.

To College Under A Tent.

The buildings of the University of Texas have become so crowded with students that the Regents have ordered the erection of two temporary structures, which will probably be made largely of canvas and paper. One building will be utilized by classes in Domestic Economy and education, and the other for a class room and laboratory in Chemistry. Class rooms under canvas will be as novel and unusual in an institution of higher learning, as are the tents at the A. & M. College, in which cadets are yet forced to sleep because of lack of dormitory quarters.

Texas is the biggest and among the wealthiest of the states; it is also one of the most progressive. As yet, however, it is growing so fast that its schools are inadequately provided for. The Houston Chronicle says that "It has been necessary to erect small buildings—mere 'shacks' on the campus to properly house the students and teachers of the University."

THIRD ANNUAL CONVENTION.

Dallas, Texas, Nov., 14th.—Five hundred bright, new \$20 gold pieces, in twenty-nine stacks, the biggest containing one hundred and twenty-five of the yellow disks, will attract the attention of delegates and visitors at the third annual convention of the Texas Industrial Congress, to be held in Dallas on December 20.

Fifteen of these glittering piles of gold will be presented to men who have this year produced the largest and best crops of corn and cotton, ten acres each, and the remaining fourteen will be given to boys under twenty years of age who have cultivated two acres of corn and two acres of cotton. It is possible that some of the prizes may be awarded to women and girls, as they, too, have contested for the biggest yields.

The average yield of corn in Texas in 1910 was but twenty bushels, while the average yield of cotton per acre in favorable years is about one-third of a bale, but the reports, verified by proof, that these contestants will make, are going to be a big surprise in this unfavorable year of drouth, as many of them have yields of corn ranging from thirty to more than one hundred bushels per acre and from one-half to two and one-half bales of cotton.

And these yields can be secured by every farmer who is willing to pay proper attention to the preparation of his soil, the conservation of its fertility, the selection of his seed and the intelligent cultivation of his crops. At the Dallas convention of the Congress the prize winners will tell how it can be done.

S. N. McDaniel, our grain and coal man, made a business trip to Amarillo, leaving here Sunday and returning on the down train Tuesday afternoon. Mr. McDaniel has been writing, telephoning and telegraphing in every direction for coal until he had cars coming all along the line, but as to getting it here was what it seemed he could not accomplish, so he went up the road to see about it, and probably before this reaches our readers he will have several cars of coal unloaded and considerable of it sold.

Rev. R. J. McElrath, our new Methodist pastor, called on The News Tuesday afternoon. He is to divide time between Tahoka and Lamesa this year, and will move his family here from Lamesa the last of this week or the first of next. The Baptists have services at Lamesa the first and third Sundays in each month, and in Tahoka the second and fourth Sundays it will come just right for Bro. McElrath to preach in Tahoka the first and third and at Lamesa the second and fourth Sundays. So Rev. R. J. will preach one Sunday and Rev. J. R. the next.

Rev. Irl B. Hicks 1912 Almanac.

Before the great drouth of 1901, the Hicks Almanac gave timely warning. For over two years prior to 1911, the Hicks Almanac again sounded a warning of drouth danger. And so for forty years this same friend of all the people has steadfastly refused the offers of speculators and continued to warn the public of the coming dangers of storm and weather. As they should have done, the people have nobly stood by Prof. Hicks, their faithful public servant, who has grown old in their service. Send only one dollar to Word and Works Publishing Company, 3401 Franklin Avenue, St. Louis, Missouri, and get his Magazine and Almanac both for one year. The Almanac alone, a fine book of 150 pages, is only 35 cents by mail. Let every body respond and receive the warnings of our National Seer for the coming year. 12-17-22

Don't Depend On Memory

The chances are that four or five months after you pay a bill, you forget all about it. Suppose that same bill should be presented to you—possibly you could remember about paying it; but nine out of every dozen bills you pay, you forget about in six months. Some you could not recall in six weeks. Pay all bills by check—file your checks. Six years afterward you can turn to the checks, if necessary, and produce undisputable evidence of every bill paid. We will be pleased to explain other advantages of the checking system to you. It is a dreadful thing when idleness, sickness or death comes and there is no money ahead. We urge you to avoid any such situation. Open an account with us even if it is only for one dollar. Make the start to save. It means independence for you.

W. W. Bryan, an unmarried man age 30 years, drowned himself in the lake near the depot Saturday night, in a despondent mood over ill health.

Sunday morning about 11:30 o'clock a small boy, Clyatt Hooks was at the lake and found an overcoat lying on the little platform which is built out over the water just across the tracks from the depot. He examined the pockets and found a note saying the owner had drowned himself. The boy went to the depot and gave the alarm.

Mr. Munger and Carl Wells went to the lake and saw a dark object out about fifty or sixty yards. They got into a boat and rowed to it and found the de-

1st to receive treatment. He began to feel a fever coming on him and it is said he left the Club Hotel Saturday night at about 12 o'clock, and he drowned himself between that time and day.

He left a note scribbled on five scraps of paper, it was to his brother and told of some business—about some money in a bank at Slaton, his life insurance, some notes due him, about his trunk, etc. In arambling way he told of his contemplated suicide, one sentence reading, "I guess I have made it all o.k. with God."

He was a member of the W. O. W. He was born in Tennessee where his aged father and a sister and brother still reside.—Plainview News.

WILL HOGG AND THE UNIVERSITY OF TEXAS

When Will C. Hogg, the eldest son of the late Governor Hogg, stood before the Alumni Association of the University of Texas last June and proposed to raise an eighth of a million of dollars to be used in the enlargement and extension by the State of the University Plan of Higher Education in Texas, there were few who heard him who did not think his plan wild and chimerical. Probably not a man present believed that it would be possible to raise this large amount for the education of the people of Texas as to the value of University training for citizenship. Nevertheless, Mr. Hogg met by appointment, on October the 28th, President Mezes of the University, Chairman Ousley of the Board of Regents, and President Barker of the Alumni Association, and presented 500 subscription card from responsible

for a five year campaign for higher education in Texas. The plans of Mr. Hogg are unique, and nothing just like them has ever been evolved in the education world. Probably no other educational institution has been given it nearly \$150,000 as an advertising fund. The movement has already attracted nation-wide attention.

COTTONSEED MEAL FOR HORSES

John C. Burns, professor of animal husbandry of the A. & M. College of Texas, says:

As much as two to two and one-half pounds of cotton seed meal per thousand pounds live weight per day may be fed to horses and mules with very good results, but when as much as three pounds or more have been fed less favorable results have been obtained.

Cotton seed meal, added to a grain and ordinary hay ration, is much better than corn alone with hay as it affords a much better balanced ration. By the use of cottonseed meal, I think you can safely count on replacing as much as from two to two and one-half pounds of corn and one pound of meal. In other words where the ration has been 10 pounds of corn per day, by adding two pounds of meal, I think you can feed only six pounds of corn and at the same time have a more effective ration, than with the corn alone.

Notice of Sheriff's Sale of Real Estate.

The State of Texas)
County of Lynn.) Notice is Hereby Given, that by virtue of a certain Order of Sale issued by the Clerk of the District Court of Scurry County, on the 4th day of November 1911, in a certain cause wherein J. W. Templeton was plaintiff, and F. H. Dean, H. E. Ford and C. N. Hutto were defendants, in cause No. 777 in which cause a judgment was rendered on the 28th day of September 1911, in favor of the said plaintiff J. W. Templeton against said defendants, F. H. Dean, H. E. Ford and C. N. Hutto for the sum of Five Hundred Fifty Four and 24/100 (\$554.24-100) Dollars, with interest thereon at the rate of 8 per centum per annum from date of judgment, together with all costs of suit, I have on the 7th day of November 1911, levied upon, and will, on the first Tuesday in December 1911, it being the 5th day of said month, at the Court house door of Lynn County, Texas, at Tahoka within legal hours, proceed to sell for cash to the highest bidder, all the right, title and interest of each of the defendants F. H. Dean, H. E. Ford and C. N. Hutto in and to the following described property, levied upon as the property of said defendants F. H. Dean, H. E. Ford and C. N. Hutto, to-wit:

The north half of Survey No. 156, in Block No. 12, Certificate No. 31, of the Georgetown Railway Company, in Lynn County, Texas, containing about 320 acres.

The above sale to be made by me to satisfy the above described judgment for Five Hundred Fifty Four and 24/100 Dollars, in favor of J. W. Templeton, together with the cost of said suit, and the proceeds applied to the satisfaction thereof.

J. H. Edwards, Sheriff Lynn County, Texas, by M. M. Herring Deputy. Tahoka, Texas, November 7th A. D. 1911.

WHEN TO PRUNE PEACH TREES

"Do you advise pruning fruit trees in November?" is a question which has been put to E. J. Kyle professor of horticulture of the A. & M. College of Texas. Mr. Kyle says:

"I prune peach trees every November because I use the orchard for class work and I cannot wait until the very best time for pruning trees. I have never noticed any serious harm to come from this pruning. The ideal time for pruning peach trees would be just before they started growth in the Spring. The early pruning has somewhat of a tendency to force them out too early, but I doubt if this amounts to very much. My advice therefore, to you would be to wait just before your trees start into growth in the Spring, if you have time to do the work then. If not, it will be alright to prune them now,

O'Donnell, Texas

Rev. Knight, the new Methodist pastor for O'Donnell, arrived at that place on the Wednesday afternoon train with his family. As he has a large family, some of whom are nearly grown, he will rent a farm in T-Bar community, which is near the center of his circuit.

Chas. Casler and family left Tuesday morning for their home in Amarillo. Mr. Casler is the contractor who has had charge of the new school building and the new brick store, both of which are nearly completed.

Mr. and Mrs. Bartley and Miss Albert Hamlin went to Lubbock last Saturday morning and returned Monday. They went to visit Mrs. Bartley's mother, Mrs. Frank Henry, who has been spending some weeks in Lubbock for the benefit of her health.

We had one of the most severe winds and sand storms last Saturday that has visited Tahoka for a long time. The wind was from the west and at times almost became a gale. The wheel to the windmill in the east side of the court house yard was blown from the tower and demolished. Several picket fences and out buildings were blown over.
