2-Year-Old Child of C. C. Jackson, Killed

On Thursday evening, the 8th of September, occurred the tragic death of the little two-year-old daughter of Mr. and Mrs. C. C. Jackson, residing in the Draw neighborhood southeast of Tahoka. The little child had climbed up on the hind wheel of a wagon loaded with feed, which a brother had driven to the house. The boy was unaware that the little sister was near at hand when he started the team. It is supposed that the little ones head either struck the front wheel or came in contact with the hard ground as the wheel turned over, which resulted in her death within a few minutes. A physician was hurriedly called from Tahoka, but owing to the nature of the blow nothing could be done to save the injured one.

The sorrowing family have the deepest sympathy of their neighbors and friends in the untimely loss of their daughter.

Exhibitors Are Asked to Report as Early as Possible.

Everyone expecting to enter exhibits for the Lynn County Fair, should report at their earliest convenience to the exhibit committee, composed of the following named persons: Messrs. C. H. Cain, Frank H. Weaver, A. M. Sullivan, A. L. Lockwood, J. E. Stokes and G. E. Lockhart, Agricultural committee; and Messrs. S. W. Sanford, B. P. Maddox and B. C. King, Live Stock committee. Mesdames C. H. Cain, A. L. Lockwood and Frank H. Weaver, Fine Arts committee. If unable to get in touch with the various committee's, just make your report to S. B. Hatchett, so that all necessary steps may be taken as early as possible.

Already a good number of entries have been made, indicating that the general interest throughout the county is steadily growing and that the people are looking forward with much pleasure to the best fair Lynn county has ever seen. The various committee's and other enthusiastic citizens, composed of both men and women, are doing everything in their power to make the coming fair the best and biggest that we have ever had, and the wonderful success that they have met with thus far, insures the hearty approval and necessary support of the people, both of which are vitally essential.

There will be various kinds of amusements that will loosen up your bones and fill you with pep.

Tell the committee's about your exhibits now, or better still, bring them in to town. If you are a booster for Lynn County, no matter in what community you live, and want to see a good Fair, cut loose and let us hear from you. We need your support and appreciate your interest.

FAIR COMMITTEE'S.

Local Showers

Lynn county was visited by good rains Monday of this week. The fall in Tahoka and immediate vicinity amounted to .60 inches. Four to five inches is reported in the east part of the county.

NOTICE

The meeting as announced to begin last Lords Day, was postponed until next Friday night, Bro. Record not being able to get here, will begin at our meeting house south of the public square. Come and be with us.

N. M. BRAY.

Mr. W. B. Westland, of Tahoka, was over recently suffering from antrum of hynore infection, and was very much pleased to be relieved of pain.—Terry County Herald.

Ladies Take Notice

Mesdames H. M. Larkin and Ben T. Brown will call for your exhibit for the Fair next Tuesday. Please have whatever you are going to send ready so they will not be required to wait on you. A full assortment of canned fruits and vegetables are wanted.

Committee.

Rev. W. C. Hinds returned Wednesday from Abilene, where he conducted a series of meetings at the Oak street Methodist church. Much good was accomplished and thirty additions to the church.

Those attending the district singing convention from Tahoka, held at Lubbock last Sunday, were as follows: S. B. Hatchett, president of the convention, and Mrs. Hatchett, W. M. Lee, Preston Lee, Irvin Bradley, Fontain and Notley Wyatt.

Miss Ruby Davis and brother Otis, left Monday for Clarendon

Parent-Teacher Ass'n. Organized

Several of the patrons and those interested in the welfare of the pupils of the Tahoka school, met at the Court House Friday evening for the purpose of organizing a Parent-Teacher Association. N. M. Bray acted as chairman during the evening and the following officers were elected: Mrs. N. M. Bray, president, Mrs. W. T. Clinton, vice-president; Miss Perle Franklin, secretary. The committee appointed at the opening of school, vis., Mesdames J. W. Elliott, H. C. Crie, N. M. Bray, and J. R. Singleton, prepared the constitution, which was read and adopted. Mayor, J. R. Singleton, Mesdames H. C. Crie, and W. D. Nevels were appointed to prepare the By-Laws.

The association will meet this afternoon at 3:30 o'clock at the school house in a business session, and the next Friday night at the court house for a social meeting. A large program for this ensuing year will be outlined this afternoon, but without the hearty co-operation of every parent in this district the efforts will all be in vain and the association will be a failure, but we feel sure that such will not be the case in Tahoka.

Six Tahoka Girls Off to Simmons College

Misses Leona Key, Leota Knight, Mary Walker, Ida Small, Inez Edwards, and Audie V. McCormack, Tahoka girls, who have spent a wonderful, delightful summer with congenial relatives and friends here and elsewhere, left Wednesday to enter Simmons College at Abilene with renewed energy and capacity for work and pleasure. After such a vacation the brain and very soul seems swept and garnished; sunshine seems to permeate the entire being and as a consequence they are better prepared to take up the tasks of life, and with confidence happily look forward to their years work.

F. E. Redwine and family of Tahoka were business visitors at Lubbock the first of this week. Mr. Redwine was sheriff of Lynn county for several years, but is now engaged in farming. Rains are needed in Lynn county. Mr. Redwine stated, but the general conditions of the crops are very good and will make fairly well

Miss Sallie Callaway returned to her home in Fort Worth Saturday, after visiting with her brother, Dr. E. E. Callaway.

Before You Are Two of the Leading Autumn Dress Styles.

These dresses are both of them **Pandoras**,---and when a dress bears that name you can count on its style correctness, the materials in it and the care used in making it.

The sketches give a suggestion of the originality of design---but it is seeing these dresses which accentuates in your mind that element of their makeup.

The upper one combines in a most effective way, henna Canton crepe and navy point twill. The lower sketch is of a navy point twill coat dress with an especially handsome design applied with black braid stitched on with gray. The foundation is black satin. **Priced up to \$65.00.**

Complete lines of all ready-to-wear and prices to please all purses.

Come to see us during your visit to our Fair at Lubbock, Oct. 4th, 5th, and 6th. If there is something you can't get in your home town buy from us then.

THE RIGHT THING AT THE RIGHT TIME

CHILDREN'S MANNERS
Whatever you do, do wisely and think of the consequences.—Lester Romanoum
THE minute a child begins to eat with the assistance of its own small hands, the first lesson in table manners must begin. There is little excuse for the disgusting table manners of some children. They are due, really, to the fact that the mother or other caretaker finds it less trouble to let the child search aimlessly for its small mouth than to insist that it locate it daintily, surely and without experiment.

A very small child can be taught to eat nicely. Teach it that spotted bibs are beneath contempt. Patiently show it how to hold its spoon and cup, and help it to eat slowly. The lesson is a hard one for the teacher as well as for the child. But perseverance is the only way. And once the child has learned to eat daintily, the storeways of untrained children when they are eating will be as distasteful to it as you would find them in a grown-up person.

Remember that children ape the manners of their elders. For this reason the greatest care should be used in the choosing of nursemaids, governesses or any one else who comes in constant contact with the child. Many well known men have talked, when excited, to their dying day in the brogue or burr of their childhood nurses. And who can doubt that much of the gentleness of character and strength of spirit of Robert Louis Stevenson were inspired in him by the dear old nurse to whom he dedicated his "Child's Garden of Verse"?

The imitative method is the easiest whereby a child may acquire its manners. The small boy who adores his gallant father seldom forgets to take off his hat and stand in the presence of women. The small girl who looks up to her mother with affection is the pattern of loving courtesy to her father. Children often affect the graces of their elders in a most laughable way. But don't laugh at them. They will outgrow this priggishness. It is only a case of their imitative acquisition of manners.

It is the vogue of the day for small girls, up to the age of ten or twelve, to curtsy when they meet their elders. After that they, like small boys, stand and shake hands. It is also proper for children to be quiet and unobtrusive when they are in the company of grown-ups.

Some of the set rules of children's manners, like these, they cannot learn by imitation. But if they are courteous, thoughtful and happy they will take an interest in acquiring these little superficial manners that will make their acquisition easy.

THE FAIR

By Douglas Malloch.

We wrest no subterranean store from out of caverns deep and dark,
Nor with the blood-red hand of war make harvest of a nation's tears.
Ours is the wealth of God's good soil, and on his earth we leave no mark
But furrows of the farmer's toil, the business of a thousand years.

Here we assemble what we grew, here we have gathered of the yield.
The products of the work we do, our answer to the ones who ask.
These are the children of the seed, arisen in the fertile field,
A world of weary ones to feed—a noble duty, honest task.

Even in joy of labor done we have our hour for deeper thought,
To see the glory of the sun in smiling fruit and golden grain;
Even in the frolic of the fair we realize how God has wrought
Till herds increase and blossoms bear, fed by his sunshine and his rain.

All mindful of our work again another season yet to be,
Let us come forth rejoicing then to pass a merry week away—
Proud of the treasures that are ours, with merriment and industry
Taking of earth both fruit and flowers, taking of life both work and play.

FAIR TIME AGAIN

The Purpose of Our Own Festival and a History of Some Others

WHY is a fair? We can't all answer that from a single viewpoint. It means something different to practically every one of us. There is no doubt, though, that the feeling of gaiety is universal—even to those who must work like Turks to make the occasion a success.

The man or woman with a grouch has no business at our fair this year. You must go prepared to enjoy the blare of band music and the million noises that aren't music. You must be keyed up to revel in the sight of thousands of chattering holiday makers, of bright decorations, of pretty girls, of sideshows and ballyhoos, of popcorn balls in red tissue and sweating glasses of orangeade, of sizzling sandwiches and ice cream cones, of live-stock and household and implement displays, of pattering trotters and pacers and running horses, of buzzing grandstand, of golden sunshine and yellow dust-clouds. Yes, and tired feet and whimpering babies with heat-rash and smart alecks here and there—for we haven't reached the land of perfection yet.

Now let's peel the surface off the situation and see what's inside. This year's fair is going to be a pretty fine advertisement for our whole community—the surrounding farm lands and farmers, the town and its enterprising, public-spirited merchants. And really that is the rock-bottom purpose of holding a fair—advertising. It is a community aim and effort to show its people how much they amount to, and to show outsiders that this is a mighty good place to live in—prosperous, progressive country and neighborly people. A man looking for a place in which to settle down couldn't reasonably ask for anything more or better.

Courtesy to Visitors.

The folks of this community understand one another. Our farmers know the town business men with whom they deal. Our business men are pretty well acquainted with most of the people who come into their stores. Now we want to show—all of us—our spirit of kindness and intelligence to the strangers within our gates during the festival season. It is the best sort of advertising we can put forth.

It is inestimably worth while to us if visitors go home and say: "I always like to attend their fair. The whole town seems to wiggle its lathstring at me. And they're the 'whitest' people!—go out of their way to be polite—ready to give information or do a little favor—I'm certainly going back oftener and get acquainted with some of them."

In order further to answer the question which introduces this article, we take down our handy reference book—a large red volume—and turn to page 426. Therein we learn that the word "fair" is derived from the Old French "feire," the modern French "foire," the Italian "fiera," the Latin "feria," meaning holiday, and that this is connected with the Latin "festus," meaning feast.

In the United States there are no fairs of the kind that have been common in the Old World. The term here is applied to a variety of exhibitions, such as church, charity and agricultural exhibitions, and local, state, national, or international expositions or fairs. The fact is, the term is applied to all exhibitions where people are expected to bestow patronage or make purchases.

Bits of Fair History.

The most common kind are agricultural fairs—county and state, as you know. This kind got their start as a regular thing in America in 1819. At Albany, N. Y., there was a prosperous merchant, Elkanah Watson, who believed that such an enterprise would encourage farming and manufacturing and help business. He used his influence with the state legislature, and that body appropriated \$10,000 yearly, for six years, for premiums on agricultural products and family manufactures.

Since then annual county, district and state fairs are quite generally held. The district and county fairs especially are held, not mainly for the sale of goods, but for advertising purposes—as we have said. City

street fairs, where amusements of various kinds are furnished, are intended to promote the welfare of the city by attracting traders to them. The same goes for world's fairs which are held in this country. While commodities are sold, the primary object is to advertise.

In the Old World the fair or bazaar is an ancient institution. If we could find files of the daily papers and country weeklies when old Mr. Pharaoh was kinging for a living, when Professor Plato was discoursing on pure democracy and the what and how of a republic, when the thousand and one events of the Arabian Nights Entertainments were being worked out, we should probably find articles like this one—an editor's write-up of the annual fair in his town.

Barter and Exchange Places.

People throughout Europe look upon the fair as a meeting held for the purpose of exhibiting and selling goods. Originally fairs were held at stated times and places, some for the sale of a particular class of merchandise, others for the sale of goods of a general character. People resorted to them to exchange goods and to collect their stores to last for several months. Princes and the magistrates of cities encouraged them and some of the privileges granted long ago still remain in force.

Such fairs as these flourish today on the outskirts of civilization, as in Siberia, Manchuria, Asiatic Turkey, where people live isolated for long stretches of time and do their buying no oftener than once or twice a year. They originated in the church festivals, which were found to afford the best opportunity for commercial transactions, the concourse of people being such as took place upon no other occasions.

Other European Practices.

In some parts of Europe persons of all ranks still wait for the great annual fairs to make their principal purchases of articles of every description. This applies especially to parts of Europe where trading facilities—including transportation, advertising announcements and the like—are not as highly developed as in all parts of America today.

One of the most noted of the old fairs was that of Saint Bartholomew in London, founded at the beginning of the twelfth century.

The greatest fairs in Germany are those of Frankfurt, Leipzig and Brunswick. Other noted and historic fairs held yearly or semiannually in Europe are those of Zurich, Switzerland; Budapest, Hungary; Sinigaglia, Italy; Lyons, France (before the war), and Nizhni-Novgorod, Russia. The last named yearly attracts buyers from all parts of Europe and central and northern Asia, and merchandise worth \$100,000,000 changes hands. At Mecca, in Arabia, the fair is held in connection with the annual pilgrimage of Mohammedans, and is one of the most picturesque in the world.

We hope this array of solemn facts—all guaranteed to be reasonably true—will not put a damper on your frivolous mood and spoil our own fair for you. Doll up in your gayest drapery and set your heart on having a regular picnic this year—just like the year you were sixteen and had a sweetheart; when you had tintype pictures made together and exchanged them. Remember?

AN EXCHANGE FOR NEW IDEAS

Besides, It Appeals to All of Us Who Want to Be Amused While We're Learning—Closer Touch With Home Lives of Neighbors.

The fair is an educational clearing house. It is an agricultural and industrial institute for residents of both town and country. It is a short course in better farming and better living. It is a physical demonstration of why the man who farms with his head instead of with his hands must inevitably succeed.

It is a comprehensive exhibition of what the ambitious boy or girl may achieve in agriculture, live-stock raising, dairying, horticultural, home, gardening, domestic science or household economy. It is an exposition of the marvelous improvement in farm machinery and agricultural implements. It is an object lesson in the great part which improved machinery plays in the development and cultivation of the farm and the increased prosperity of the farmer.

Look for Yourself.

The chief educational value of our fair lies in the fact that it is demonstrative in character. The eye is a more convincing instructor than the ear. We are slow to accept and believe in any new method until we have had optical proof of its superiority over the old.

Often it is difficult to secure the attention of the busy man or woman long enough to give such a demonstration. Not infrequently it happens that farmers who would be most benefited by better methods of farming are not sufficiently interested to be present at any special meeting called for the purpose of discussing the subject.

But the fair appeals to that trait of mankind which demands entertainment

and amusement and becomes a common forum for the discussion of all matters having to do with agriculture, industry, the home and the school.

In this clearing house of education the farmer learns what the manufacturer, the merchant and the banker are and have been doing to make his labor less arduous and his farm more profitable and the town resident learns what rapid progress is being made in agriculture. A bond of common interest is created which means much to both town and country.

Value to Everybody.

The farmer learns by actual observation of the newest devices and improvements in agricultural implements. He learns their use and benefits. He learns in what way they assist in soil cultivation, in plant growth, in sowing, in harvesting, in threshing. He learns the economic value of the more modern machinery, of the silo, of motor power on the farm.

The urban dweller is furnished a vivid picture of the agricultural resources of the community. He learns about the fertility of the soil in the vicinity; of what is being done to increase the farm yield; to improve the quality of the stock, and to multiply the total dairy product.

Every man and woman, whether town or country resident, is brought into closer touch with the home life of others. All imbibe that broader education which means co-operation—that ideal education which is service to self and all humanity.

THE TRIALS OF A HOUSEWIFE

How They Have Been Endured and How Overcome by Lydia E. Pinkham's Vegetable Compound

Experience of a Providence Woman

Providence, R. I.—"I took Lydia E. Pinkham's Vegetable Compound for a female trouble and backache. It began just after my baby was born, and I did the best I could about getting my work done, but I had awful bearing-down pains so I could not stand on my feet. I read in the papers about Lydia E. Pinkham's Vegetable Compound and the good it was doing other women, and I have got dandy results from it and will always recommend it. You can use these facts as a testimonial if you wish."—Mrs. HERBERT L. CASSEN, 18 Meni Court, Providence, R. I.

Ohio woman for three years could hardly keep about and do her housework she was so ill. Made well by Lydia E. Pinkham's Vegetable Compound: Fayette, O.—"For about three years I was very nervous and had backache, headache, dragging-down pains, could not sleep at night, and had no appetite. At times I could hardly do my housework. I got medicine from the doctor but it did not help me. I saw Lydia E. Pinkham's Vegetable Compound advertised in a newspaper and took it with good results, and am now able to do my housework. I recommend your medicine to my friends and you may publish my testimonial."—Mrs. CHESTER A. BALL, R. 15, Fayette, Ohio.

An Illinois woman relates her experience: Bloomington, Ill.—"I was never very strong and female trouble kept me so weak I had no interest in my housework. I had such a backache I could not cook a meal or sweep a room without raging with pain. Rubbing my back with alcohol sometimes eased the pain for a few hours, but did not stop it. I heard of Lydia E. Pinkham's Vegetable Compound, and six bottles of it have made me as strong and healthy as any woman; and I give my thanks to it for my health."—Mrs. J. A. McQUITY, 610 W. Walnut St., Bloomington, Ill.

The conditions described by Mrs. Cassen, Mrs. Ball, and Mrs. McQuity will appeal to many women who struggle on with their daily tasks in just such conditions—in fact, it is said that the tragedy in the lives of some women is almost beyond belief. Day in and day out they slave in their homes for their families—and beside the daily routine of housework, often make clothes for themselves and for their children, or work in their gardens, all the while suffering from those awful bearing-down pains, backache, headaches, nervousness, the blues, and troubles which sap the very foundation of life until there comes a time when nature gives out and an operation seems inevitable. If such women would only profit by the experience of these three women, and remember that Lydia E. Pinkham's Vegetable Compound is the natural restorative for such conditions it may save them years of suffering and unhappiness.

There is hardly a neighborhood in any town or hamlet in the United States wherein some woman does not reside who has been restored to health by this famous medicine. Therefore ask your neighbor, and you will find in a great many cases that at some time or other she, too, has been benefited by taking it, and will recommend it to you. For more than forty years this old-fashioned root and herb medicine has been restoring suffering women to health and strength.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

The Difference. Miss Lena Ashwell's part in "Mrs. Dane's Defense" was one night taken by an understudy. In the audience was a warm admirer of Miss Ashwell, who wept bitterly as the piece continued. "It is lucky for you Miss Ashwell isn't playing," said her friend. "If this moves you so much, you wouldn't be able to stand that." "Miss Ashwell not playing?" said the admirer, and at once began to dry her tears with a resentful expression.

BLOUSES LOOK WITH FAVOR UPON THE VOGUE OF BLACK

IN THE pursuit of novelty designers have succeeded in making blouses the most versatile of our belongings. They reflect every new idea that enters the field of fashion, besides exploiting some that are their own. The charm of novelty is about all that can be added to them—they have captured the most beautiful fabrics, made the whole range of colors their own and are developed in as many different styles as dresses are. The overblouse grows in popularity; it is a dominating affair that determines the character of the toilette, and it is vastly becoming because it disposes of the waistline in such a satisfactory way.

The vogue of black, and black and white, has been made the most of in a distinguished company of blouses for late summer and for fall. They are all in the overblouse and tie-back styles and nearly all of crepe de chine, georgette or other crepe weaves in silk. In many of them georgette is used in combination with other crepes as in the blouse pictured here, which has a yoke and sleeves of black georgette and body of white crepe de chine.

It is cut in the kimono style and gathered into a short, smooth fitting peplum that is split at each side and laces together with black silk cord ending in small silk tassels. White bands outline the neck, shoulders and ends of the sleeves and they are scattered over the body of the blouse like small jewels, each with four little black beads about it, to set it off. There is nothing more distinguished than this combination of black and white when it is well balanced.

Blouses made of the various black crepes nearly all show touches of one or two colors, with henna and sapphire much considered. Bands or placements of these colored crepes are introduced by the aid of stitching or embroidery in the body of the blouse, but the colors are sparingly used. Sometimes a single flower motif in applique or embroidery is ingeniously placed near the waistline or near the shoulder, and it seems to emphasize the brilliance of black in these crepes. Cross-stitch, ladder-stitch, herringbone, and zig-zag, as well as French knots play important parts in the finishing of new blouses.

AUTUMN HATS PROMISE RICH WINTER MILLINERY

NEARLY all the hats presented at the early showings of autumn millinery can cheerfully undertake to see their wearers through the winter. They are handmade hats, of fabrics that have a warm look, and many of the colors in these fabrics are glowing. Velvet, plain or panne, a heavy satin that suggests hatter's plush, duvetyne and all its numerous kindred, make lovely mediums for autumnal colors—the purple, fuchsia, cerise, red-browns and pleasant tones, bright red and strong, clear blues—even the new dark grays refuse to be cold and could not well be, in the fashionable fabrics.

One may gather at a glance over any of the displays of new hats, that they are draped affairs and that they are soft as to lines. Also, both in their making and trimming, they bear witness to the handwork of professionals that are adepts in their art. Hats appropriate the decorative features of gowns—and go farther. To embroiderers, beads, braids and ribbons, they add many millinery ornaments, and among these are new arrivals made of metal—that it is hard to call by name. Brim edges, and other edges find themselves finished with small metallic oblongs bent over

them, and numerous danglers are used in the same positions. "Nail heads" are used, and have been elaborated. The hat at the top of the group has metallic ornaments set about the up-turned brim edge, making an attractive finish for the duvetyne drapery. At the left of it a felt hat with satin drapery approves lacquered fruits and demonstrates the beauty of two small apples that hang on the brim. Velvet is responsible for the richness of the spirited shape at the right, with flower motifs applied in chenille about the brim edge.

One of the new large-crowned shapes finishes the group. It has a velvet facing on the under brim, edged with folded ribbon across the front, and is otherwise covered with duvetyne, having a metallic net drawn over it

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble. Don't delay starting treatment. Dr. Kilmor's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions. Get a medium or large size bottle immediately from any drug store. However, if you wish first to test this great preparation send ten cents to Dr. Kilmor & Co., Binghamton, N. WASTEFUL DRIPPINGS OF OIL

Leaks From Cap Screws Make Frightfully Messy Engine and Should Be Attended to.

Oil drips frequently come from the cap screws being loose on the crankcase, from the bearings, from the plungers or tappets above the cam shaft. In addition to being wasteful, drips of this kind make a frightfully messy engine and should be attended to promptly. In some cases where oil drips from the bearings the fan picks it up and scatters it over the inside of the hood.

IMPROVED UNIFORM INTERNATIONAL

Sunday School Lesson

By REV. P. H. FITZWATER, D. D., Secretary of English Bible in the Moody Bible Institute of Chicago.

LESSON FOR SEPTEMBER 18

ABSTINENCE FOR SAKE OF OTHERS (TEMPERANCE LESSON).

LESSON TEXT—1 Cor. 10:24-33; 2:16, 17. GOLDEN TEXT—Whether therefore ye eat, or drink, or whatsoever ye do, do all to the glory of God—1 Cor. 10:31.

REFERENCE MATERIAL—Rom. 12:1; 14:13-21; 15:1-2; 1 Cor. 4:5-20; 5:13-27.

PRIMARY TOPIC—A Clean, Strong Body.

INTERMEDIATE AND SENIOR TOPIC—Presenting One's Body as a Living Sacrifice.

YOUNG PEOPLE AND ADULT TOPIC—The True Meaning of Temperance.

The occasion of this teaching was the uncertainty as to the right attitude toward "things sacrificed unto idols." This problem was most vital while the Christians were in the midst of the heathen, and with some modifications no less vital still. In mingling with society many perplexing questions arise, such as amusements, way of spending Sunday, enjoyment of luxuries, owning stock in certain corporations, etc. Our lesson contains principles adequate for our guidance in all these problems.

It was customary to divide the animal offered in sacrifice into three parts. One part was consumed on the altar, another part was given to the priest, and the third part was kept by the party bringing the offering. The priest's part was frequently sold in the markets. The part which the offerer kept was sometimes eaten at home and sometimes in the court of the temple. The Christian who bought meat in the market was liable to get meat which had been dedicated to the idol god. Then, too, one would be invited to eat socially at the table of someone who had kept his portion of his offering and now set it before his guests. Some with adequate knowledge had no scruples about it; others with less knowledge thought it sinful. The one who has knowledge should bear with the weak one, and at the same time should seek to teach his brother the truth, so as to set him free from bondage of superstition. The glory of God should control in all things.

I. "All Things Are Lawful for Me" (v. 23).

This declaration is limited, of course, by things which are right in themselves. It is not true that a Christian is free to do those things which are wrong. The Christian can only indulge in "lawful things" as they are expedient and unto edification. As individual Christians we have liberty to do many things which because of their influence on our fellow Christians we should abstain from.

Even with one's self that which is not edifying should be ruled out.

II. "Let No Man Seek His Own" (v. 24).

The Christian is under the control of love. The controlling principle of love is unselfishness. The one dominated by love considers the other's interests rather than his own.

III. "Eat the Food Set Before You" (vv. 25-30).

It is not incumbent upon us to be on the hunt for occasions of the conscience either of ourselves or others. Exercise your freedom in the enjoyment of all right things which the Lord places before you, but as soon as it is brought to your attention that certain things are to the disadvantage of others, you should desist; that is, exercise self-control.

IV. "Do All to the Glory of God" (v. 31).

This is the grand and supreme rule of life for the Christian. The Christian is not at liberty to do that upon which he could not ask the blessing of God. In our eating, employments and pleasures, we should have as our transcendent aim God's glory. How could one ask God's blessing upon the intoxicating cup, dancing, gambling, theatergoing, Sunday desecration, luxurious extravagance, etc?

V. "Give No Occasion for Anyone to Stumble" (v. 32).

We should so live that no one can ever say that we have been the occasion of their downfall.

VI. Follow the Example of Jesus Christ (11:1).

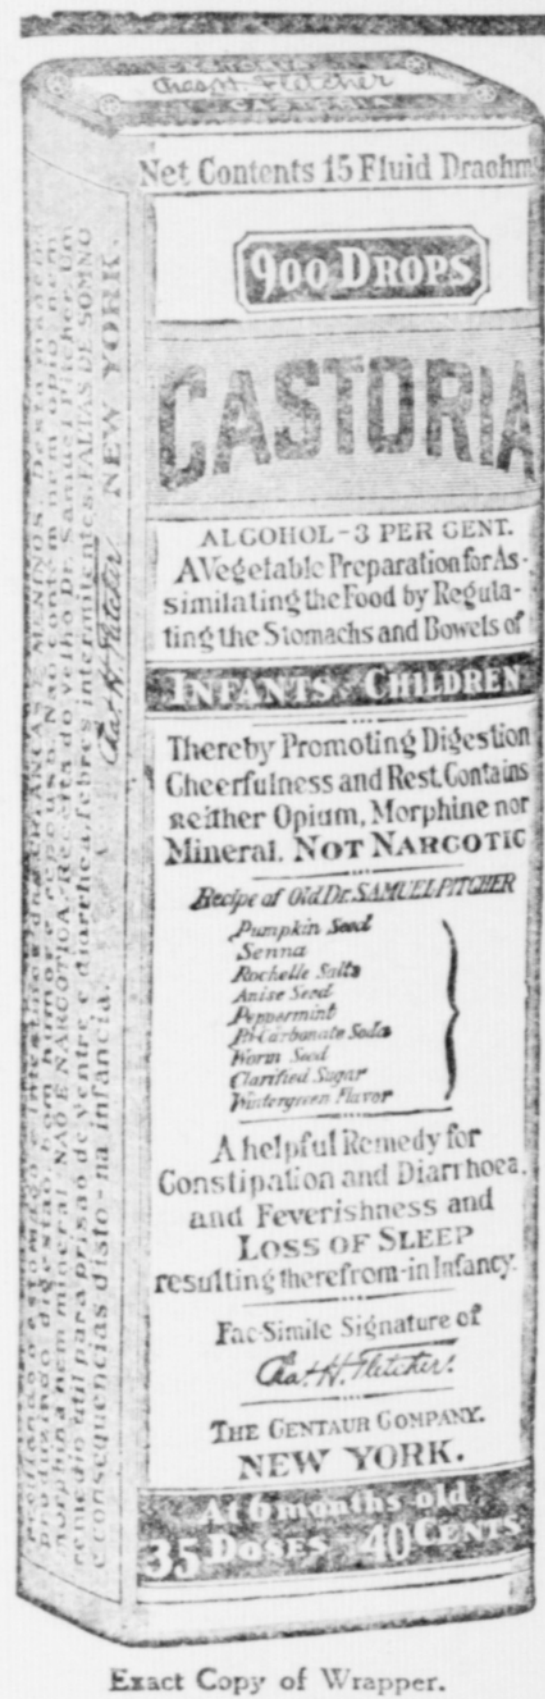

Christ through love gave up all for the sake of others. He did not please himself. Everyone, therefore, who is a Christian should imitate Him.

VII. The Christian's Body is the Temple of the Holy Ghost (3:16, 17).

This great truth is true of the Church as a body, but that which is true of the body is true of the individual composing the body; so the point in this Scripture is the serious consequence of defiling the body.

To Do Our Best. God hides some ideal in every human soul. At some time in our life we feel a trembling, fearful longing to do some good thing. Life finds its noblest spring of excellence in this hidden impulse to do our best.—Robert Collyer.

Patches. No man seweth a piece of new cloth on an old garment; else the new piece that fillet it up taketh away from the old, and the rent is made worse.—Mark 2:21.

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

CAR DRIVING HARD ON FEET

Use of Accelerator Causes "Short Circuit" of Pedal Nerves or "Motor Foot." It is Said.

When car owners return from their summer vacation many of them return limping. A new summer epidemic is at large in the ranks of vacationists.

The new ailment has been given the popular name of "motor foot." In the language of surgical chiropody it is indexed and classified under the name of "metatarsal displacement."

Continuous motoring is the cause of the ailment. It is a right foot trouble caused by the continuous strain occasioned by long motor trips when the driver keeps his foot in the strained position required by the use of car accelerator.

This position causes a displacement of the metatarsal bones which in turn causes them, in motor language, to "short" the nerves of that part of the foot. This in turn is the answer for the pain that accompanies the distinction of possessing "motor foot."

"Motor foot" not only makes walking painful, but practically eliminates golf, tennis or any of the other popular forms of active recreation.

Dustless Highways Increase.

The rapidly with which the American people are turning to the dustless highway is shown in figures recently compiled from reports to the United States bureau of mines. The figures show that in the last eight years 5,000,000 tons of asphalt and asphaltic materials have gone into American highways—a quantity sufficient for 50,000 miles of roads and streets. The asphaltic treated highways in the United States, if connected in one great roadway 16 feet wide, would twice circle the globe.

WHY JOHN WAS NOT SMOKING

Probably the Wildest Idea of His Clubmates Would Have Been Wide of the Mark.

All the men at the club have been watching Johnnie Edwards, the inveterate smoker, for the last week, and there's been much surmising and conjecturing, but Johnnie wouldn't give himself away. It seems that Johnnie has held the prize for the champion smoker of the club for ten years.

In the last week Johnnie has been seen strolling around the room with a dejected, lost appearance and between his lips always the inevitable cigarette. But it was never lighted. Nobody liked to ask him questions and he didn't volunteer any explanation, so it wasn't explained until Jimmie Van-Week overheard him say on the telephone:

"No, you have got to stick to your word now, I swore off if you would, and goodness knows I want one bad enough, but Doc says you've gotta leave 'em alone for a while. Now be a good little mother and remember your promise."—New York Sun.

The Folly of Cheating Nature

Many people get the idea that they can keep their nerves on edge and their digestion upset year after year, and "get away with it." They sleep only half as much as they should—and never get properly and thoroughly rested.

If you tire out easily, if you are getting pale and anemic, if your food doesn't digest as it should, would it not be well to stop and consider whether coffee or tea is having its effect on you?

The caffeine and their found in coffee and tea are drugs, as any doctor can tell you. Is it any wonder that the steady use of these drugs sometimes causes serious damage?

If you really want to be fair with yourself, and

give yourself the opportunity you deserve in order to do your best work, make up your mind to quit coffee and tea for awhile—and drink delicious, appetizing Postum instead.

Postum permits sound, refreshing sleep which builds strength, energy and endurance.

Order Postum from your Grocer today. Drink this hot, refreshing beverage in place of tea or coffee for 10 days and see what a wonderful difference it will make in the way you feel.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

A NEWSPAPER AT AMARILLO

A new weekly newspaper is to be launched soon at Amarillo by Hon. Lee Satterwhite, and the first issue will make its appearance about September 16. The new publication will probably be called The Plains Stockman and Farmer.
Mr. Satterwhite, as a member of the legislature for two terms, has made an enviable reputation. As chairman of the important appropriation committee, it has developed upon him to make provision for the expenses of all state institutions, and keep the wheels of state government going. He will be a candidate for speaker of the next House.

TO BE COLDEST WINTER

The predictions of the weather prophet of the Philadelphia and Reading Railway Company are not scoffed at in his own country. He says the coldest weather in the last 25 years is approaching and warns his brother railroad men there will be many blizzards and it will be difficult to keep traffic open. This man is said to have failed only once in foretelling weather conditions. We believe every weather prophet should be given a chance. Paste this prediction up where you can see it next winter. Then render your own verdict.

"MY CIVIC CREED"

My City is the place where my home is founded; where my business is situated; where my vote is cast; where my children are educated; where my neighbors dwell, and where my life is chiefly lived.
My City has a right to my civic loyalty. It supports me, and I must support it.
My City wants my citizenship, not partisanship; Friendliness, not selfishness; Co-operation, not dissension; Sympathy, not criticism; My intelligent support, not indifference.
My City supplies me with law and order, trade, friends, education, rights, recreation, and the rights of a free-born citizen.
I should and do believe in my Home Town, and I will work for it and stay with it on every occasion, so help me God.—Selected.

PRISONERS TAKE GUN AWAY FROM SHERIFF AT LUBBOCK

Sam Cates, charged with murder; Hewlet Smith, charged with forgery; and J. D. Callahan, charged with burglary, made a bold, but unsuccessful attempt to overpower the sheriff and escape, while he was serving their noon meals. The facts as related to the Avalanche are as follows: The sheriff and his wife went upstairs to feed the prisoners at about 12:30 a. m. Mr. Holcomb unlocked the prison door and his wife entered and handed Sam Cates a platter containing the food, but instead of taking the platter Cates rushed past her and grabbed her husband around the waist and cried out, "come on Smith." In response to Cates' cry Smith shoved Mrs. Holcomb aside and pinioned the sheriff's arms behind his back. The sheriff fought with the two men for some minutes before they overpowered him and took his gun, after getting the gun, Cates stepped back a few feet with the gun drawn on the sheriff and commanded him to "throw up your hands, put 'em up."
While Cates was holding the gun on Mr. Holcomb, Smith and Callahan caught hold of Mrs. Holcomb and tried to gag her to prevent her making any outcry. They scuffled and choked her severely while Cates standing in the hallway with the drawn gun on her husband. Just at this time John McCulloch, the deputy sheriff, who had planned for a trip out in the country with the sheriff, appeared upon the scene, from the stairway he discovered the perilous position of Mr. and Mrs. Holcomb and threw his gun down on Cates, the sheriff seeing his deputy cried out, "shoot him John," the deputy fired but missed his mark, the ball passing under Cates' left arm. After the shot was fired Cates sprang for the door where the sheriff was standing but the sheriff grappled with the prisoner and was successful in wrenching his gun from him and the three prisoners made for their cell.—Avalanche.

TALK OF EIGHT CLUB LEAGUE BEING AIDED FOR WEST

Stamford, Texas, Sept 11—Letters are being mailed out today to Plainview, Lubbock, Brownwood, and Stamford commercial organizations, asking those cities how they would consider taking berths in the West Texas League in 1922. These letters are being mailed out by the West Texas Chamber of Commerce. If all four of these cities are favorable, 1922 would see an 8 team league. It is pointed out that Abilene, San Angelo, Stamford, Ballinger, Sweetwater, Brownwood, Lubbock, and Plainview would make a compact circuit and all the towns would show better "pay" than with a smaller circuit. Ranger and Amarillo are also to be considered, if they so desire.

For making home brew;
Chase a wild bull frog
For three miles
And gather up the hops
To them add
Ten gallons of tan bark
Half a pint of schellac
Bar of home-made soap
Boil 36 hours
And strain
Through an I. W. W. Sox
To keep them from working
Then bottle
And add
One grasshopper to each pint
To give it the kick.

Mrs. G. E. Lockhart Entertains Young People

Mrs. G. E. Lockhart entertained the young people last Thursday evening in honor of the girls who were leaving for college. In progressive conversation, the first number of the evenings program, Miss Ida Small received the most votes as the best girl entertainer and Jesse Key as the most popular boy, being allowed just one minute in which to talk to each other. In the bird contest which followed, Miss Montie Draper and K. F. Knight were successful in guessing the most names of different kinds of birds. Louie Weathers appeared as the most mysterious of the various silhouettes and in smiles, the boys proved themselves far superior in this art. Beautiful piano music was furnished by Misses Lola Donaldson and Leota Knight, and they were sometimes joined by a chorus of merry voices.

Delicious ice cream and angel food cake was served to Misses Ida Small, Lola Donaldson, Montie and Grace Draper, Hazel Alley, Fay George, Crickett Baldrige, Leota Knight, Marile Lowe, Audie V. McCormack, Leona Key, Jessie Lee Edwards, Mary Walker, and Messrs. K. F. Knight, Glenn Brashear, John Max, Lee Baldrige, Bart Cowan, Jack Jackson, Sanford McCormack, Gordon Williams, Frank Larkin, Louie Weathers, Beecher Sherrod, Brown Bradley and Jesse Key.

Farewell Party

Mrs. H. M. Larkin proved herself a charming hostess Tuesday evening when she gave the girls who went away to school Wednesday, a farewell party at her beautiful home on South Sweet street.

Letters written to be opened by the girls on their way to college, games, varied amusements and a watermelon feast, gave the guests a most delightful time.

The personnel of the party included the following: Misses Audie V. McCormack, Inez Edwards, Jessie Lee Edwards, Leota Knight, Leona Key, Montie and Grace Draper, Ida Small, Fay George, Crickett Baldrige, and Messrs. A. P. Edwards, Lee Baldrige, Jack Jackson, Sanford McCormack, Gordon Williams, Beecher Sherrod, Brown Bradley, Jesse Key and Frank Larkin.

Mrs. Paul Miller Entertains in Honor of Tahoka Ladies

Mrs. Paul Miller entertained most delightfully on Tuesday afternoon at her apartment over the Carlsbad Pharmacy. The affair was in honor of Mrs. Joe Stokes and Mrs. Walter Slaton, of Tahoka, Texas.

In the count after the allotted round of games it was found that Mrs. Lile Hollis had made the highest score. When the cards and appointments for the games were removed the tables were spread with dainty hand made linens and delicious refreshments were served.

Besides the honor guests those present were: Mesdames Blake Sweatt, L. C. Roberts, Joe Stokes, Walter Slaton, R. F. Rogers and Miss Annie Lee Meyers.—Mineral Wells Index.

Glenn Brashear is visiting with relatives and friends in Plainview and Clarendon this week.

Mrs. M. E. Jones, of Scurry county is the guest of her son, B. H. Jones and family.

Paul Miller, formerly a citizen of Tahoka, came in the past week from Mineral Wells, where the family has resided the past year. Mr. Miller will buy cotton here this season and expects to move his family here

MELLON PRESENTS A NEW TAX PLAN

WILL MAKE PROFIT LEVY RETROACTIVE—REPEAL WOULD BE EFFECTIVE LAST JAN. 1.

ESTIMATES ARE REDUCED

\$4,000,000,000 to Run Government in Fiscal Year if Economy is Put in Effect.

Washington.—Internal revenue taxes during the next fiscal year must produce \$3,200,000,000, according to Secretary of the Treasury Mellon.

This amount, coupled with \$800,000,000 to be derived from the tariff, will meet the Government's bills, Mellon told the Senate Finance Committee Thursday.

The committee has under consideration the tax bill, passed by the House.

The original estimates for the next fiscal year, Mellon informed the committee, were for \$4,554,000,000, it was decided, he said to reduce this amount to \$4,000,000,000 in round numbers.

"If promised governmental economies are made effective, the sum mentioned will be sufficient to meet the Government's needs," said Mellon.

He added that he expected the administration to carry out the economies it had outlined.

Mellon made these recommendations:

Repeal of the excess profits tax for this year, making it retroactive to Jan. 1, 1921.

Repeal of the capital stock tax payable in 1922.

A limitation of 25 per cent in the personal income surtax instead of 32 per cent as provided by the House.

In the place of these two taxes, Secretary Mellon recommended an additional corporation income tax of 5 per cent, making the rate 15 per cent as of last January 1.

The conference with Secretary Mellon marked the close of the hearings on the bill. The committee will now begin its revision, and will make an effort to have it in shape for immediate presentation to Congress when it reconvenes.

PAINTERS AGAIN ELECT HEDRICK PRESIDENT

Dallas.—As the result of the re-election Wednesday of George F. Hedrick of Albany, N. Y., to the general presidency of the Brotherhood of Painters, Decorators and Paper Hangers, and the re-election of J. C. Skemp of Fayette, Ind., as secretary and treasurer, and John M. Finan of Chicago, first vice president, delegates to the convention being held at Fair Park Coliseum were almost unanimous in their belief that the present administration would score a clean sweep of all the offices now open.

Re-election of President Hedrick came after a bitter fight on the part of the Chicago and Ohio delegates, who subjected him to a storm of criticism for his policies during the last eight years.

TEACHERS URGED TO BE WELL PREPARED

Dallas.—"Due to untrained teachers and the uncertainty of funds the teaching profession is not classed with other professions as the physician and lawyers," Miss Annie Webb Blanton, State Superintendent of Public Instruction, declared in an address before the Dallas County Teachers' Institute at Bryan High School. "The public wants trained teachers and will finally demand them."

"Texas must have a new Constitution with provision for funds for State schools and rural schools. The way to do this is through organized work among teachers and the public to provide for the maintenance of schools. The reason why Texas fought for liberty from Mexico was that Mexico would not provide for schools. As soon as Texas became a free state, land valued at \$4,000,000 was set aside for a permanent school fund, giving Texas the greatest fund of any State."

She announced she would not be a candidate for the office which she now holds at the next election.

Disbursements Exceed Receipts. Washington.—Current operations of the Government during the first two months of the fiscal year show that disbursement exceeded receipts by \$61,464,774.

Good Rice Yield. Anahuac, Texas.—Rice harvesting in Chambers county is under way and indications are that the yield will be good. Labor is cheap and farmers are getting a good price for their harvest.

\$138,545 CUT FROM EDUCATIONAL BILL

AGRICULTURAL AND MECHANICAL COLLEGE AND UNIVERSITY ESCAPE.

Austin, Texas.—The educational appropriations bill was signed by Governor Neff late Tuesday after he had reduced the total by \$138,545. The bill as signed carries \$9,507,684 for the two fiscal years beginning Sept. 1, 1921, and ending Aug. 31, 1923. As it came to the Governor the measure called for \$4,916,274 the first year and \$4,729,381 the second year or a total of \$9,645,629 for the support of the State's educational institutions during the next two fiscal years.

The budgets of the University of Texas, Agricultural & Mechanical College, College of Industrial Arts and all the established normals were left untouched by the executive blue pencil but all of the appropriation for the new Stephen F. Austin Normal at Nacogdoches was cut out except \$175,000 for buildings.

The Governor announced in this connection it had been agreed no part of even the \$175,000 should be withdrawn from the State Treasury before Jan. 1, 1923. He pointed out, however, that contract for the building might be let as early as September, 1922. The veto of this part of the bill will have the effect of postponing opening of the normal till September, 1923.

Besides the reductions made in the Stephen F. Austin Normal budget the following amounts were stricken out: For the John Tarleton Agricultural College \$1,000; Grubbs Vocational College \$2,000; Prairie View State Normal and Industrial College for Negroes \$3,700; Texas School for the Blind \$7,500; Texas School for the Deaf \$4,400.

As the bill was signed by the Governor it carried \$1,394,641 each year for the University of Texas, all branches; \$1,215,402 the first year and \$1,212,681 the second year for A. & M. College, including the experiment stations, extension service and State Forester.

The educational appropriations bill was the last to be acted on by the Governor.

UNSOLD ARMY GOODS REACH HUGE TOTAL

Washington.—"A billion or two dollars worth of surplus army property remains to be sold" according to Secretary of War Weeks.

Weeks made this estimate of the total amount of excess army supplies in announcing that \$1,599,000 worth of goods were sold during the last week. Vast stocks which the army has in warehouses are yet to be declared surplus, Weeks explained.

One of the big problems, he said, is the disposition of ammunition, some \$600,000,000 worth of which is stored in various parts of the country. Three thousand carloads, Weeks said, are in temporary buildings. The percentage of recovery through the sale of ammunition will be small, he indicated.

Another large amount of surplus property applies to motor transport equipment, Weeks said. More than \$900,000 worth of this was sold last week.

JOBLESS MEN PLACED ON AUCTION BLOCK

Boston, Mass.—Jobless men were placed on the auction block on Boston Common Thursday. Stripped to the waist, after the custom of the old slave auctions, each man declared his willingness to work by standing before a crowd of thousands, offering his services to the highest bidder.

"Shorn lambs of unemployment," their auctioneer, Urbain Ledoux, called them. Ledoux, a philanthropic worker who recently opened the "Church of the Unemployed" in the west end, led a group of fifty to the Common to bring home, he said, to the people of Boston, their stories of human misery, just as William Lloyd Garrison pleaded for the slaves on the same spot seventy years ago. It was to prove that his charges were not parasitic floaters, but instead, good citizens out of a job, that he put some of them on the block, he explained.

Warrants Issued For Miners. Logan, W. V.—Forty warrants have been issued here for the arrest of men who last week are alleged to have formed part of the armed forces whose march on Logan County brought Federal troops into the West Virginia coal fields.

Coal Mines To Open At Bowie. Bowie, Texas.—Loading racks have been completed and everything is in readiness for the opening of the Bowie coal mines this week.

745 Cattle Tested at Dallas. Fort Worth, Texas.—More than twice as many cattle were tested for tuberculosis in Dallas during the last month as any other city in Texas, according to a monthly report issued by Dr. Leon G. Cloud, State Veterinarian.

\$1,000,000,000 FARM LOANS ABOUT READY

PREPARATIONS FOR ADVANCING OVER BILLION DOLLARS ABOUT COMPLETE.

Washington.—Preparations for advancing upward of \$1,000,000,000 in agricultural and live stock credits under recent legislation have virtually been completed by the War Finance Corporation. The corporation probably will be ready within the next week or so to function under its enlarged powers designed to afford needed credit relief to farmers, it was said.

To expedite the advances executive committees are being formed in agricultural and stock raising sections of the West and South and will attend to preliminary details of applications, making the necessary investigations and determining the adequacy of securities offered.

Ten or fifteen such committees are being formed now and others will be added as the amount of business in the different localities warrants.

The corporation's policy for financing advances, officials asserted, has not yet been definitely decided, but it is believed that little of the \$400,000,000 balance with the Treasury will be used for agricultural credits. Demands may be made on the Treasury to make the first loan, it was said, but as soon as the volume of needed credits can be gauged it is believed the corporation will begin issuing its own bonds.

GOVERNOR NEFF VETOES CHAIN AND BAT BILL

Austin, Texas.—Governor Neff filed with the Secretary of State Monday two of the reform measures and veto of the third completed executive action on the recommendations of the Legislative Investigating Committee looking toward an entire rehabilitation of the Texas prison system. He signed the bill creating a supervisory board to look after the welfare of the prisoners and appointed the members of the board, but allowed to become a law without his signature the bill calling for relocating of the penitentiary within seventy-five miles of Austin. He vetoed the bill by Senator Hertzberg of San Antonio which sought to abolish the use of chains and limit whipping in the prison system.

Reasons given by the Governor for vetoing the Hertzberg bill are first, that the part referring to chains is needless legislation since the Prison Board had some time ago entered an official order abolishing chains as a means of punishment and, second, that such a law would prohibit the Prison Commission from punishing with the strap convicts "who stubbornly refuse to work and commit other imperatively punishable offenses," that it would make it impossible for those in charge to handle the convicts with any degree of success.

Georgious Parade Feature of Day.

Dallas.—With the inspiring music of bands, elaborately garlanded floats and a generous sprinkling of beautiful women and long files of immaculate men, organized labor laid aside its tools and work clothes Monday and paraded the downtown streets in celebration of the one holiday of the year, that organized labor has consecrated to its own particular purposes. Several thousand men and women took part in the parade.

Telegraphers May Join Big Four

Marshall, Texas.—The Telegraphers' Union of the United States has made arrangements to affiliate with the Big Four Brotherhood Railway Unions and ballots for the members to vote for approval or disapproval of affiliation are now being distributed along the Texas & Pacific Railway. A strike ballot is also being distributed.

Funeral Ship Leaves England.

Flymouth, England.—The British warship Dauntless slowly steamed out of Plymouth Harbor Wednesday with the bodies of Commander Louis H. Maxfield and fourteen of his fellow-officers and men, who lost their lives in the disaster which befell the giant dirigible ZR-1 at Hull recently.

Retail Prices Are High.

Chicago, Ill.—Retail profiteers are the greater obstacle to peace readjustment in the United States, William Jennings Bryan declared in an interview here Monday.

U. S. Trade With Russia \$13,000,000

Washington.—American trade with Soviet Russia, amounting to \$13,000,000 for the first six months of this year, fell far below the corresponding period of either 1919 or 1920.

To Run Full Force

Dallas.—As a result of a personal inspection and a survey of business conditions, F. G. Pettibone, vice president and general manager of the Santa Fe announces that the shops at Cleburne will run at full capacity and the track maintenance force be brought up to full strength. Mr. Pettibone said he found business conditions most promising on the entire system and it is to care for expected heavy fall and winter traffic that the order has been issued.

DODSON SOUNDS CALOMEL'S DOOM

The "Liver Tone" Man Who Fought Against the Sickening Salivating Drug.

Ugh! Calomel makes you sick, horrible! Take a dose of the dangerous drug tonight and tomorrow lose a day.

Calomel is mercury! When it comes into contact with your bile, it cracks it up, breaking it up. Then it goes into your stomach and causes a feeling of awful nausea and cramping. If you are sluggish, if liver torpid and bowels constipated or you have headache, dizziness, sore tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to a drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it can not salivate or make you sick.

The Coming Contest. "I see your town is going to vote on the question of issuing bonds for a water works system," said a gentleman. "What do you anticipate will be the outcome?"

"Hard to tell," replied the landlady of the tavern at Tamlinville, Ark. "The young people are mostly for it and the folks that have traveled out like to show off, and the newcomers from the North, and so on. But the old-timers are unanimously against it. They say they've never gone swimming in a house yet and it's too late now to learn old dogs new tricks, and, anyhow, they're opposed to paying for the privilege of going into God Almighty's free water. So it looks like a stand-off."—Kansas City Star.

All He Does. "He gets his money," said a man. "Very. All he does is to stick everlastingly."

Why That Bad Back?

Is backache keeping you miserable? Are you "all played out," without strength or vigor for your work? Then find what is causing the trouble and correct it. Likely, it's your kidneys! You have probably been working too hard and neglecting rest and exercise. Your kidneys have slowed up and poisons have accumulated. That, then, is the cause of the backache, headaches, dizziness and bladder irregularities. Use Doan's Kidney Pills. Doan's have helped thousands and should help you. Ask your neighbor!

A Texas Case

Joe U. Bluntzer, Goddard, Texas, says: "My back pained and there was a heavy pain in my kidneys. I had difficulty in straightening after bending and I was annoyed by the irregular action of my kidneys. I had to get up often at night to pass the kidney secretions, which scalded. I used Doan's Kidney Pills and three boxes cured me."

THE ISLAND.

Synopsis—Jane Harding, respectable and conservative old maid—

"Save, save Mr. Tubbs!" implored Aunt Jane. But Mr. Tubbs, overlooked by all but this thoughtful friend, had cannily saved himself. He advanced upon us dripping.

"I was," I announced, moved to defiance by the neighborhood of Mr. Shaw. "Before we started I was so afraid that if you had listened you might have heard my teeth chattering."

CHAPTER V.

The Captain's Legacy.

When in my tender years I was taken to the matinee, usually the most thrilling feature of the spectacle to me was the scene depicted on the drop-curtain. Directly I was seated—in the body—and had had my hat taken off and been told not to wriggle. I vaulted airily over the unconscious audience, over an orchestra engaged in tuning up, and was lost in the marvelous landscape of the drop-curtain. The adventures which I had there put to shame any which the raising of the curtain permitted to be seen upon the stage.

I had never hoped to recover in this prosaic world my long-lost paradise of the drop-curtain. But morning revealed it to me here on Leeward Island. Here was the feathery foliage, the gushing springs, the gorgeous flowers of that enchanted land. And here were the soft and intoxicating perfumes that I had imagined in my curtain landscape.

Leeward island measures roughly four miles across from east to west by three from north to south. The core of the island is the peak, rising to a height of nearly three thousand feet. At its base on three sides lies a plateau, its edges gnawed away by the sea to the underlying rocky skeleton. On the southeastern quarter the peak drops by a series of great precipices straight into the sea.

All the plateau and much of the peak are clothed with woods, a beautiful bright green against the sapphire of sea and sky. High above all other growth wave the feathery tops of the cocoa-palms, which flourish here luxuriantly.

The palms were nowhere more abundant than in the hollow by the cove where our camp was made, and their size and the regularity of their order spoke of cultivation. Guavas, oranges and lemons grew here, too, and many beautiful banana-palms.

At the side of the clearing toward the stream stood a hut, built of cocoa-palm logs. Its roof of palm-thatch had been scattered by storms. Nearer the stream on a bench were an old decaying wash-tub and a board. A broken frying-pan and a rusty axe-head lay in the grass.

In the hut itself were a rude bedstead, a small table and a cupboard made of boxes. I was excited at first, and fancied we had come upon the dwelling of a marooned pirate. Without taking the trouble to combat this opinion, Mr. Shaw explained to Cuthbert Vane that a copra gatherer had once lived here, and that the place must have yielded such a profit that he was only surprised to find it deserted now. Pe'kind this cool, emphatic speech I sensed an ironic zest in the destruction of my pirate.

he explained, "but they didn't use parties' surnames much in classic times."

The glad cry of breakfast put an end to Mr. Tubbs' exposition of mythology.

So does dull reality clog the feet of dreams that it proved impossible to begin the day by digging up the treasure. Camp had to be arranged, for folk must eat and sleep even with the wealth of the Indies to be had for the turning of a sod. The cabin was re-roofed and set apart as the bowery of Aunt Jane and Miss Browne. I declined to make a third in this sanctuary. You could tell by looking at her that Violet was the sort of person who would inevitably sleep out loud.

"Hang me up in a tree or anywhere," I insisted, and it ended by my having a tarpaulin shelter rigged up in a group of cocoa-palms.

Among our earliest discoveries on the island was one regrettable from the point of view of romance, though rich in practical advantages; the woods were the abode of numerous wild pigs. You should have seen how

"No, We Do Our Best to Keep Out of Them."

clean, how seemingly, how self-respecting were our Leeward Island pigs to realize how profoundly the pig of Christian lands is a debased and slandered animal. These quadrupeds would have strengthened Jean Jacques' belief in the primitive virtue of man before civilization debauched him.

Aunt Jane had been dreadfully alarmed by the pigs, and wanted to keep me immured in the cabin of nights so that I should not be eaten. But nothing less than a Bengal tiger would have driven me to such extremity.

"Though if a pig should eat me," I suggested, "you might mark him to avoid becoming a cannibal at second hand. I should hate to think of you, Aunt Jane, as the family tomb."

"Virginia, you are most unfeeling," said Aunt Jane, getting pink about the eyelids.

"Ah, I didn't know you Americans went in much for family tombs," remarked the beautiful youth interestedly.

"No, we do our best to keep out of them," I assured him, and he walked off meditatively revolving this.

If the beautiful youth had been beautiful on shipboard, in the informal costume he affected on the island he was more splendid still. His white cotton shirt and trousers showed him lithe and lean and muscular. His bare arms and chest were like cream solidified into flesh. With his striped silk sash of red and blue about his waist, and his crown of ambrosial chestnut curls—a development due to the absence of a barber—the Honorable Cuthbert would certainly have been hailed by the natives, if there had been any, as the island's god.

Camp was made in the early hours of the day. Then came luncheon prepared with skill by Cookie, and eaten from a table of packing cases laid in the shade. Afterward every one, hot and weary, retired for a siesta. Always around the island blew the faint cooling breath of the sea. No marsh or stagnant water bred insect pests or fever. Every day while we were there the men worked hard and grew lean and sun-browned, and thrived on it. Every afternoon with unflinching regularity a light shower fell, but in twenty minutes it was over and the sun shone again, greedily lapping up the moisture that glittered on the leaves.

"In the first place, I don't believe in your treasure."

Secretarial School: First of Its Kind

W.D. SCOTT UNIVERSITY HALL AND HARRIS HALL

NATIONAL School for Commercial Organization Secretaries, under the auspices of the Chamber of Commerce of the United States, the National Association of Commercial Organization Secretaries and Northwestern university!

Isn't there something new under the sun, in spite of the proverb? Anyway, that is the sort of school that has been going on at Evanston, Ill., right in the vacation days of summer.

Moreover, this National Secretarial school is believed to be a project of far-reaching importance in the business and civic life of the country. John Ihlder, manager of the civic development department of the Chamber of Commerce of the United States, speaking for himself and for President Joseph H. Defrees, puts the situation like this:

"The American business man today stands in a position of greater responsibility and greater opportunity than ever before in our history, for we are becoming predominantly an urban and a business nation. His responsibility cannot be discharged, his opportunity met by individuals acting separately—they must organize. The character and purpose of the business man's organizations therefore are of first importance to the nation. Not only must they be public-spirited and propose to serve constantly and definitely the common interests of their community, but in order that they may so serve they must know that good intentions alone never produce results.

"The effectiveness of a commercial or trade association depends in large measure on the secretary. As he increases in knowledge and understanding, not only of his own business technique and of his local field, but of the general principles that underlie and affect all business and civic interests, he will become increasingly valuable to his organization and to American business generally.

"The National School for Commercial Organization Secretaries will give to these men in a short time what it would take years for them to learn individually, and will in addition give them a sense of their common problems and responsibilities which can be secured only by a group of men representing many communities studying their problems impersonally and under able leadership."

President R. B. Beach of the National Association of Commercial Organization Secretaries sees in the attendance of nearly 200 a real demand and a real field of service for the training course. He says:

"It will create a sound, practical basis for chamber of commerce service as a result of which the chambers of commerce of this country may expect the highest efficiency and competency in business administration and in the execution of their varied activities."

President Walter Dill Scott of Northwestern University is a man of many parts. He is a graduate of Northwestern (A. B., 1895) and of McCormick Theological seminary (1898). He is a Ph. D. (Leipzig, 1900). Probably he is best known as a psychologist.

He was a colonel, U. S. A., 1917-9, and was awarded D. S. M. for "devising, installing and supervising the personnel system in the U. S. army." He is primarily interested

JOSEPH H. DEFREES

in the benefit the country will receive through the increased efficiency of the secretaries. He says:

"The students at our summer school session for commercial secretaries are mature men of unusual ability and leaders in their communities. The effect of the summer school on these men will be to strengthen their faith in the modern, practical, scientific method of dealing with their problems and to strengthen them in their faith in the necessity of analyzing all local problems in terms of wider experience.

"I am particularly interested in this session of the summer school, not primarily for what those who attend will receive, but for the added service they will be able to render their communities upon their return. In this period of reconstruction and readjustment, our progress is dependent upon our application of science and our profiting by experience wherever available. I feel, therefore, that this school will be of inestimable value because of the increased value these secretaries will be able to render their communities."

This secretarial school is, in brief, an intensive course of two weeks in secretarial problems and methods. That there is need of this school is shown by the registration of the first year, which surprised even the officials of the three organizations back of it. This registration of 200 men was representative of every section of the United States, including Hawaii. Canada sent its quota and Cuba was represented. Several women attended.

While most of those in attendance were registered as secretaries of chambers of commerce, the list shows others in considerable variety.

The study was of two kinds, fundamental and technical. The instructors in the former were educators of national prominence and in the latter leading authorities in the secretarial ranks. Harris hall was used as a class room. Two hours a day was devoted to fundamentals and three and a half hours to technical subjects. Munson Havens, secretary of the Cleveland Chamber of Commerce, lectured on "The Secretary, His Relation to the Varied Forms of Service, What Is Expected of Him and What He Should Expect of Himself."

The technical studies and the groups of secretaries who directed the study of them are:

Organization (What It Is), J. A. McKibben, general secretary, Boston Chamber of Commerce, assisted by John Wood, secretary, Roanoke (Va.) Chamber of Commerce, and Colvin B. Brown, chief organization service bureau, civic department, United States Chamber of Commerce.

Ostracism.

At one period in the history of ancient Greece the people of Attica possessed the power of removing from the state, without making a definite charge, any leader of the people likely to overthrow the government. This was so abused that in time it became the right to drive into exile any person who had become unpopular without much regard to the cause of his loss of popularity. The decision was

arrived at by vote, each citizen writing his vote on an oyster shell. The Greek word for oyster shell, expressed in our alphabet, is ostrakon, and because the ostrakon was used as a ballot, the expelling of a person from the state by popular vote was called ostracism, which means blackballing or expelling.

Nine Cents a Day Paid Hatters. The use of beaver in making hats commenced about 1200, for Chaucer mentions it. Flanders turned out the

first. Hatters' guilds began to appear in England, and apprentices were taught the art of making felt hats and decorating them. Nine cents a day was then a hatter's wages. In the sixteenth century the first hat stores began to do business and hats, therefore as widely decorated as poetic fancy, began to be standardized. In other words—style began to rule. By 1600 styles were very much in evidence, but were very changeable. Shakespeare's plays speak of varied types of hats then worn.

Pains Were Terrific

Read how Mrs. Albert Gregory, of R. F. D. No. 1, Bluford, Ill., got rid of her ills. "During . . . I was awfully weak. . . My pains were terrific. . . I thought I would die. The bearing-down pains were actually so severe I could not stand the pressure of my hands on the lower part of my stomach. . . I simply felt as if life was for but a short time. My husband was worried. . . One evening, while reading the Birthday Almanac, he came across a case similar to mine, and went straight for some Cardui for me to try.

TAKE

ARDUI

Woman's Tonic

"I took it faithfully and the results were immediate," adds Mrs. Gregory. "I continued to get better, all my ills left me, and I went through . . . with no further trouble. My baby was fat and strong, and myself—thank God—am once more hale and hearty, can walk miles, do my work, though 44 years old, feel like a new person. All I owe to Cardui." For many years Cardui has been found helpful in building up the system when run down by disorders peculiar to women.

SOME SMILES

Refined Anxieties.
"You say firearms have been barred from Crimston Gulch."
"Yes," replied Cactus Joe. "They make us nervous."
"The boys didn't use to be afraid of a few bullets."
"They're not afraid of bullets; but every time a gun was fired everybody went into a panic, thinkin' maybe one of his tines had exploded."

Quite Likely.
Two busy stenographers in an office in the American building were watching the crowd of men in the street gazing at the baseball score board.
Said one: I wish they would send more heat up here, for I feel chilly.
"No wonder," the other quickly replied. "The low temperature is due to the many 'fans' around."—Baltimore American.

Its Brutal Side.
"Do you regard prize fighting as brutal?"
"I certainly do," said Mr. Gadspur. "On what grounds?"
"Personal grounds. The last time I attended a big fight I was shoved this way and that, elbowed, stepped on and bruised from head to foot."

A Candid View.
"You have been returned to your distinguished position many times."
"I have," replied Senator Sorghum. "Your constituents felt they couldn't do better."
"I won't say that. They were afraid they might do worse."

Recognizing the Inevitable.
"You seem to have your own way about various important matters."
"I try to cultivate that impression," rejoined Senator Sorghum. "When I see which way things are bound to go, I regard it as prudent to assume that it's exactly the way of which I am in favor."

Ready for the Undertaker.
"Well, doctor, if I got to die, I die contented. My life insurance is ten thousand dollars."
"I think with the aid of stimulants, I can keep you alive for a week longer."
"Don't do it, doctor. Der brennium comes due der day after tomorrow."

HOW DO YOU SAY IT?

By C. N. LURIE

Common Errors in English and How to Avoid Them

"DIFFERENT FROM, THAN, TO"

IT IS quite common to hear or read sentences containing the word "different" followed by from, and never by than or to. One hears "Yours is a very different case than his," whereas the proper form is "Yours is a very different case from his." One hears also, "I have heard your story, and John's is different to it," correctly, "John's is different from it," or "differs from it." The Standard dictionary says that the use of different to is an undesirable English colloquialism.

The word "different" denotes distinction or contrast (indicated by the use of from), while comparison is shown by than; thus, "My hat is different from yours, but your hat is better than mine."

And not sit down and idly wait

WARNING!

Post, Texas, 9-12-21.

Mr. R. B. Haynes, Tahoka, Texas,
Dear Sir:- There has been a very virulent outbreak of Hog cholera in this and other parts of the county. I have attended on three sick herds in the past three days and I fear it will spread rapidly over the country and my advice to all that have hogs is to immunize them before it is too late, for after hogs are sick with cholera or Swine Plague the loss is heavy.

I would like for you to tell the people through your paper about this outbreak of Cholera and Swine Plague and point out to them the necessity of immunizing hogs before the county becomes infected. With best wishes,
I am yours very truly,
L. W. Kitchen.

Motley County Roads Bad

J. B. Nance and family have returned from Delta county, having come through in their car. Mr. Nance says the worst roads on the long trip are in Motley county, also there is a toll bridge in that county and each car must pay \$1 to cross it. —Plainview News.

Mr. Nance returned to Tahoka the first of the week, he being secretary of the Tahoka Oil & Gas Co., and is making his headquarters in Tahoka at the present time.

MAN'S HOUSE BURNS AFTER WARNING TO LEAVE CITY

Wichita Falls, Texas, Sept. 11—Fire of undetermined origin early this morning destroyed the residence of H. T. Scott entailing a loss of \$3,500 and endangering the lives of Scott and members of his family. He recently received a telephone warning to leave the city under penalty of violent treatment.

Scott and members of the family awakened by smoke and flames. The entire rear portion of the house was ablaze. Nothing was saved. Scott and members of the family getting out with just their night clothes.

RANCHER WORTH \$50,000 HELD ON VAG CHARGE

Goree, Texas, Sept. 11.—It is pretty tough for a man to acquire a fortune of nearly \$50,000 by hard work and economy and then at the age of 75 be arrested and placed in a jail as a vagrant. But that is exactly what happened to him at Amarillo a few days ago, according to E. M. Coffman of Goree.

Coffman is a pioneer Texas cattleman and was returning from his Sherman county ranch when officers arrested him at the Denver station in Amarillo and, despite his protests, was locked up from Saturday night until Monday morning.

Coffman also holds much property in this vicinity. He had already purchased his railroad ticket at Amarillo when seized. He declares he will prosecute the city of Amarillo and Potter County.

HIGH SCHOOL BOYS ORGANIZE BASKET BALL TEAM

The Tahoka High School boys have organized a basket ball team, and subscriptions were being solicited the past week from the business men to buy the ball and suits for the team. The members state that they expect to have one of the very best teams in the west and will play the teams in the larger cities and towns during the coming season.

The News omitted mention in last week's issue of the nice rain received in the western portion of the county. The lakes are said to be full and this particular section in splendid condition.
