WE don't know what happened, but picture coverage of the Bulldog opener ended in a picture of a bulldog. Going to have to give Redwine an "E" for effort after scamparing up and down the sidelines, in the process wearing a flashy pink jacket no less.

TIME is most important in composing and publishing a newspaper, and we are constantly looking for ways to speed up the operation. One small item, but time consuming, is poorly handwritten copy, making rewrite necessary. In fact there have been times that copy could not be used because it was not legible.

Copy, if possible should be typed and double spaced. If typewriter is not available, printing is acceptable. Stick to the facts and keep detail brief. An added note, if your news is quite lengthy, please mail it or bring it by, as the margin of error is too great in using the telephone.

I know the opening of the opening of the new bypass is causing some concern and is a novelty. Have overheard several citizens making remarks about joyriding trying it out, becoming confused. Please, remember, this is a high speed pass and tryout traffic might be the cause of a major accident.

You may think that I am wrong in where it is none of my business. Could be, but when one woman remarked she was "trying it out, becoming confused, making a turn in her lane, driving the wrong way, back to the start of beginning to try again," then it is my business. I happen to meet her somewhere between here and there.

THE school bus pulled up to the front gate and six-year-old Bobby appeared as his mother hustled him out the door. Then it all began. She dropped his books, took

## Foreign Student Speaks At Local Rotary Meeting

Rotarians were presented an interesting program last week when exchange student, Miss Elizabeth Brann enlightened the members on the differences in customs of the United States and England.

Miss Brann says that lives are similar in general, except that American homes have more gadgets and devices than those in England. Too, cars are considered a luxury, especially for the youth.

The major differences noted are in government and education, and England has much evidence of its historic background, where America exhibits more of the modern today trend.

Student guests for September are Steve Roberts and Mike Cunningham.

The date for the annual Rotary-Teacher banquet is Monday, September 23. This meeting is one of the highlights of the year.

G. H. Nelson, former resident will be the guest speaker. Mr. Nelson was a former Lynn County Attorney and also served as District Attorney.

All members are urged to attend the banquet and become acquainted with our new school personnel.

## Farmers To Feel Labor Shortage Pinch

The shortage of available labor for cotton producers and processors shows promise of becoming even more acute this fall.

Farmers have had more than a little trouble securing tractor drivers, irrigators and other production workers during the growing season. Now, both farmers and ginners are finding it difficult to line up labor for the coming harvest.

For many years the local labor supply has fallen short of harvest-time demands and the High Plains has depended on trailer hands, ginners and gin hands to come in from South and Central Texas after completing the harvest season in those areas.

But such migration has all but stopped. And gin operators on the Plains fear they will be forced to operate at less than capacity this fall because of insufficient help.

Ginners from the Plains who have attempted to recruit gin workers from South and Central Texas report even these areas, once known as labor-surplus regions, have been short-handed during this year's cotton harvest season.

It is suggested, all ginners and farmers who anticipate a need for additional help this fall, place orders with the Texas Employment Commission as soon as possible.

**Rev. Hugh Daniel Year Around Sportsman**  
Many outdoorsmen who prefer to call themselves year-around sportsmen cannot qualify for the title because their pursuit of the outdoors is limited to weekend jaunts and seasonal hunting. This is definitely not the case with Rev. Hugh Daniel, pastor of the First Methodist Church of Tahoka. Hugh, as he is known to his many friends and parishioners, is an avid hunter, fisherman and camper who shares his love of the outdoors with his lovely wife Joy, and two children, Dawn and Dane. I called Hugh Saturday afternoon and asked to see a hand carved gun stock he had recently finished. The result turned out to be a very pleasurable and memorable visit. For two hours we sat, talking about hunting, looking over Hugh's fine collection of deer rifles and seeing color movies of recent hunting trips. The main purpose of the visit was to see the hand carved stock mentioned earlier. It was indeed a beautiful piece of work. Starting with an ordinary stock from a Remington model 722 222, Hugh worked several weeks hand carving a cluster of acorns and oak leaves on the forearm and a mountain lion and vulture, which he admits looks more like an eagle, on the main body of the stock. His artistic talents are also reflected in the numerous pieces of driftwood he has arranged to lend a rustic outdoors atmosphere to the Daniel home. One arrangement on display depicted a pioneer woman standing over a grave of native stone with a driftwood background, entitled "Hardships." This piece won first prize in a garden club show following the theme "Westward Ho". Hugh reloads his own ammunition in a converted area of the home which once was a two car garage. The double doors were sealed long ago to provide workspace for Dad and growing space for active youngsters. Photography is another hobby followed by Hugh. Since coming to Tahoka he has become the "official" photographer for the Bulldogs. He does his own developing and printing work. The son of a Methodist

## Cotton Harvest Meeting Is Scheduled Here Next Month

A meeting on harvesting cotton for maximum efficiency and quality preservation is slated in Lynn County on October 1 at 2:00 p. m., announces County Agricultural Agent W. B. Griffin.

The meeting will be held at Lyntegar Room beginning at 2:00 p. m.

Featured speakers at the meeting will be Dr. Robert Metzger, area agronomist, Beverly Reeves, cotton ginning and mechanization specialist; and Fred Elliott, cotton specialist. All are with

Quality preservation is a vital step in the overall cotton production picture, so

proper harvesting of the crop is most important.

The session will last about one and one-half hours and all cotton growers, ginners, and others interested in the cotton industry are encouraged to attend.

This is one of a series of 18 similar meetings which are being held throughout the South Plains to provide the latest, up-to-date information on cotton harvesting with reference to the upcoming season.

# Will your water heater's next birthday be a happy one?

It's not uncommon for a water heater to reach the age of retirement on its 10th birthday. Some may just dribble water... others rupture with resulting damage and yet others fail to put out as much hot water as they did in their youthful years.

If your water heater is approaching its 10th birthday then it's time you talked to your Public Service manager about the value of a modern electric replacement.

And, incidentally, should an electric water heater ever need servicing, your Public Service manager will take care of it for you.

### GORDON-SOUTHLAND NEWS

Mrs. Edmund Wilke

Howdy! Say, how about this weather? Nice, huh? The combines sure have been buzzing in the community this past week and if the weather stays nice, it won't be long until the grain harvest will be over for this year! We did have a little rain on Saturday, but don't think it will hold up the grain harvest for long? There is cotton popping out all over, too. One of these days the cotton pickers will be moving in and this community will really see some action! Did you ever watch a cotton picker at work? It is quite fascinating! I still don't quite understand just how they work, but I do know that whoever invented them was a pretty smart fellow!

**IN NEVADA**  
Mrs. Paul Winterrowd received a letter from Mrs. Claudia Monk quite some time ago and she let me read it the other day. I found it quite interesting. As you will remember, Mrs. Monk taught school here for a number of years and just this past May moved to Beatty, Nev., with her family. She says that Beatty is surrounded by barren mountains which are very pretty, especially in the early morning and late evening. Her oldest son, Bill, has started a paper route there, and since nearly all the houses are situated on a hill, he is quite worn out when he finishes his route.

Mrs. Monk will be teaching in a rural school that is 35 miles out on the desert and has only 18 students and she will teach three grades. Since they have been in Beatty, they have gone trout fishing, catching 30 rainbow trout one time, and plan to go deer hunting during the Thanksgiving holidays. Mrs. Monk says that nearly everyone out there is a "rook hound" and that there are so many pretty rocks everywhere. Their address is Box 607, Beatty, Nev., 89003. Why don't you drop them a card? I know they would appreciate it!

**FLASH!** You must get your registration in by Wednesday, Sept. 25th. No tickets will be sold at the door.  
**YEA! EAGLES!** The Southland Eagles journeyed to Bula last Friday night and came home winners with the following:

**IN CRASH**  
Freddie Townsend, son-in-law of Robert Mook, was injured last week in a gyrocopter crash and underwent surgery at Methodist hospital, where he is still a patient. A gyrocopter is a plane without a motor and is pulled with a pickup or other vehicle. Freddie's plane hit a highline and fell. May God grant you a speedy recovery, Freddie.

When you go by the concession stand at the Southland football field, look it over, because the seniors have really fixed it up, inside and out. They built new tables and counters inside and painted it inside and outside. Sure does look great! Thanks a bushel, kids! I am one of the "senior mothers" who will be working in it this year, and I sure am going to appreciate what has been done!

**CAR WASH**  
The junior class had a car-wash this past Saturday, or I should say--they intended to have a car-wash and as you know, it rained. They found one customer soft hearted enough to let them go ahead and wash their car. Mr. and Mrs. Cecil Stolle, so as one of the juniors told me this morning, "we will have \$1.75 toward the Junior-Senior Banquet!" I am sure they will be picking a dryer day very soon to have another car-wash, so let's all support them.

The former Elsa Newman from California and her aunt, Mrs. Earl Cummings from Wilson visited with Mr. and Mrs. Herbert Dunn Friday last week.  
Jackie and Curtis Abshire, sons of Mr. and Mrs. Delbert Abshire, and Bill Bevers, son of Mr. and Mrs. Spence Bevers, have moved to Canyon where they will be attending West Texas State. Bill and Curtis will be roommates and Jackie will be living in the same unit. This is the first year for Bill and Curtis and the second year for Jackie. Good luck, boys.

in the Navy at the time of their wedding and stayed in for twenty years. They have been living in Southland since his retirement nine years ago.

The serving table was laid with a lace table cloth that was a wedding gift from one of Mrs. Mason's aunts. Crystal and silver appointments were used. Mickey and Mike presented their parents with an oil portrait.

## Bruster-Askew Vows Read At O'Donnell

Miss Jo Ella Askew and Dennis Mark Bruster pledged double ring wedding vows at 7 p. m. Saturday in the First Methodist Church at O'Donnell. Howard Swinney, minister of the Church of Christ at Anson, officiated.

The bride is the daughter of Mr. and Mrs. Bertice Askew of O'Donnell. Parents of the bridegroom are Mr. and Mrs. Melton Bruster of Slaton.

The bride, given in marri-

age by her father, wore a traditional gown of the empire style, fashioned of white Dulcette satin and re-embroidered Alencon lace. The moulded bodice featured a bateau neckline and elbow length sleeves cuffed in the scalloped lace. The lace motif was repeated in a jeweled plastron down the center front and lace scallops defined the waistline. Lace medallions over the controlled skirt sweep to chapel length. Her

buffant veil fell from a jeweled satin pillbox, topped with miniature rosettes.

Miss Benna Askew of New York City, sister of the bride, was maid of honor. Bridesmaid and matron were Miss Suzanne Morrison of O'Donnell and Mrs. Lyndol Askew of Oklahoma City. Misses Judy and Jerry Matthews of Lamesa lighted candles.

James Gray of Shallowater was best man, and Warner Salisbury and Larry Beggs of Lubbock were groomsmen.

Ushering guests were Lyndol Askew, brother of the bride, and Weldon Lackey of Lubbock. Sirita Askew registered guests.

A reception, given in the fellowship hall of the church, followed the wedding. Servers were Mrs. Bob Mackey of Loving, N. M., sister of the groom, Mrs. Don Blair of O'Donnell, Donna Rowe and Mrs. Larry Beggs, both of Lubbock.

The couple will reside at 908-D 41st, Lubbock.

## DON'T YOU READ BEFORE YOU BUY?

Most people do.

They count on advertising in print to give them the information they want on products that interest them—information on features... designs... and prices, for example.

People not only read about products and services, they show ads to their family and

friends; they clip coupons for information and samples; they tear out ads to take along when they go shopping.

People read an ad because they want to (it's never forced on them). They can even check back later; the message is still there.

When you add it all up, print advertising—

the kind you read in the pages of this paper—makes sense. And because it gets up to the buying habits of consumers, it makes sales.

Most people read and then buy. Don't
