### 930 Poll Tax Receipts Issued in Lynn Co.

them to vote in the primaries.

#### To the Public:

I take this method to say to the people of Tahoka that if I have overlooked anyone in the census enumeration of the city, that if my attention is called to the fact, I will gladly enumerate them, as I am wanting to make a thorough job of the work.

Respectfully, H. W. CALAWAY, Census Enumerator, Dist. 179.

Mrs. Will Guinn, of Slaton, was the guest of her parents, sister, Mrs. Billie Sanders, the first of the week.

Miss Jeanie McLear arrived at the home of Mr. and Mrs. V B. McLear on January 29th., and will remain there some

### Crazy Man Wanted in Lubbock Last Sudday

Last Sunday morning the local pastor of the Baptist church, Mr. and Mrs. J. V. Dyer, and Rev. Parker, was awakened from his peaceful slumbers with a telephone call from Lubbock wanting to know if he was the deputy sheriff; and if he had seen a crazy man running loose in these parts that had escaped from a sanitarium in that city. eighteen or more years perhaps. The paster was not long in telling the parties that he did not hold the position as peace officer, Mrs. Shaw, of Lynn county, and had nt seen nor heard nothvisited Mrs. Ollie Whipp the ing of the escaped maniac. It has not been learned whether

#### Oil Well Case Dismissed

This is the case involving the affairs of the Tahoka test oil well, in which so many Plainview and Hale county citizens bought stock, and which proved a failure. The dismissal is a complete victory for Shook and Herring. - Plainview News.

Judge and Mrs. G. E. Lockhart returned Wedneseay from San Saba. Mr. Lockhart was taken sick in that city some two weeks ago while transacting some legal business, and his wife was called to his bedside. We are glad to report him as being able to return home.

B. F. Maxey and wife, of Lubbock, with the Bradley Auto Co., and formerly citizens of Tahoka, came in yesterday and will spend a few days with the company here.

### The Soldiers Back at Work

A year ago at this time, many J. A. Brashear, the grain people were worrying as to how

complished with no outbreaks vice men: The soldiers instead of creating trouble, have shown themselves a great stablizing force. Even if they did not get work at once, they have been patient and self controlled.

There has been a lawless and destructive spirit in this country. but the soldiers have had no part in it. Among the trouble makers have been many slackers who could have gone but didn't, and who pulled down high pay while the soldier boys fought and died

Thus the country owes the soldier a second great debt. It should do what it can to pay it, by finding work at once for every one of them.

In 124 cities 41,324 service men asked for jobs during four recent weeks, while only 29,375 found them. Every employer owes it to his country, and to these boys who gave up every thing, to help them get started again, in the world of industry.

Mr. Ground Hog evidently saw his shadow on ground hog day in Lynn county, which, accord-The News correspondent at ing to old traditions, we are in

# HOME TOWN

MAKES FOR BEAUTIFUL CITY

That Citizens Take Interest in Horticulture Is Always an Asset to the Community.

When the publisher of a newspaper in any town is interested in horticulture the people are encouraged to make their homes attractive, and the result is a beautiful city, remarks the New York Times. A newspaper of that kind is a valuable asset to any community.

In the Allentown (Pa.) Leader, a report is given of the bulb planting in the city parks, where next spring there will be eleven tulip beds, which have just been planted with thousands of

Charles Ziegenfus, a leading-business man, has planted more than 6,000 tulip bulbs. Last spring his show of tulips was worth going miles to see and next year the beds will be more gorgeous than ever. Mr. Ziegenfus has planted this season the rarest and most beautiful varieties obtainable.

R. J. Butz, president of the National bank, has made extensive bulb plantings. So also has Col. Young and Mrs. Koch.

Edward A. Kristman, who has won many prizes with his dahlias, will plant more than 4,000 tubers early next spring.

Flower lovers who motor through Allentown will find the tulip beds a sight worth seeing and in the autumn the dahlia beds of Mr. Kristman will make a wonderful show.

The efforts of George Roth, publisher of the Leader, to make his town a show place are appreciated by the citizens, as shown by their co-opera-

#### PECAN TREES ALONG ROADS

Landowners' Association Agrees to Furnish Them, if Proper Care Is Guaranteed.

The attention of the department of agriculture officials has been attracted by the offer of the Georgia Landowners' association to furnish pecan trees for planting on both sides of one mile of permanent hard surface road in the first county in the state that agrees to take care of the trees. This is somewhat in line with the reforestation and good roads movements in the southern states recently started.

"It is hoped," says F. H. Abbott. manager of the Georgia association, in a communication received here, "that this suggestion will result in bordering every mile of permanent highway in Georgia with trees that will be useful as well as ornamental. I believe that the example of the first county will quickly be followed by other counties, and see no reason why a similar plan should not be adopted in other states. The trees for bordering the Georgia roads will be furnished the association by J. H. Wright of Cairo, Ga., one of the largest pecan growers in the South and a member of the board of control of the organization.

### When Pruning Trees.

Shade trees may be pruned any time between the fall of the leaves and early spring before growth begins. Boxelder and maple trees are apt to "bleed" if pruned after the last of February.

Do not leave long stubs but cut close above a side branch when pruning large limbs. Try to avoid leaving upright forks or crotches which are apt to split apart and injure or ruin the tree later. Long, slender branches should be shortened, if retained, so as to encourage greater stiffness and resistance to wind and the weight of wet snow. Of course, the natural characteristics of the tree should be taken into account in pruning and no attempt be made to greatly alter the natural form of the tree. Evergreens are seldom pruned but appear best when permitted to retain their lower branches close to the ground.-B. O. Longyear, Colorado Agricultural College, Fort Collins, Colo.

### Resolve to Set Out a Tree.

A tree, if properly tended and pro-tected, will live for many years. It will even outlast some man-made monuments. What can be more inspiring than the thought that a century hence that tree planted yesterday will be noted by the American people visiting this city, bearing its appropriate tablet? If in every city in this country such a tree were planted now, generations to come, numbering millions upon millions, would note, observe and appreciate the sentiment. And meanwhile the tree itself will be a thing of beauty and afford shade and comfort. Let there be more tree planting in the name of America's heroes!

### Beautify the Playgrounds.

Money spent in ornamental planting of trees and shrubs about the country school is money well spent. The results of the early training the boys and girls receive in practical and ornamental values of planting of shrubs and trees will be shown in the homes of the children. Later on more of the homes of those who remain in the community will be benefited in being more beautiful places in which to live and the value of the real estate will he materially increased.

### JUST HURT ALL OVER

Couldn't Sit, Stand or Lie With Any Comfort. Sister-in-Law Gives Good Advice and Cardui Does World of Good.

Holland, Texas .- Mrs. Nannie Messer, of this place, states: "About three years ago I was in a very critical condition. I had been suffering for some time. To tell how I hurt would be impossible.

I just hurt all over.

I cou'dn't sit, stand or lay with any comfort, my back, sides and head all gave me a great deal of trouble.

I was especially bothered with a light swimming in my head. My people were very uneasy about me and sent me to my relatives to see if a change would do me any good.

I stopped at a sister-in-law's and she being a great believer in Cardul, asked me why I didn't use it. I decided to try it . . .

I had only taken a few doses when I felt it would do me good. This gave hopes and I used it right along ard it did me just a world of good, since which time I have never ceased to praise Cardui."

Cardui is recommended for simple female complaints and womanly pains and has been found to benefit in thousands of such cases when not due to malformation or that do not require surgical treatment. Try it .- Adv.

#### Why Women Go Mad.

"You used to say I reminded you of woodland sprite," she complained. "You never tell me any more that I'm as beautiful as the dawn or that my eyes are translucent pools in which you see reflections of Elysian vistas." "I know," he replied, still studying the market page. "Since I have to give so much of my attention to hard facts I seem to have lost my imagina-

#### YOUR COLD IS EASED AFTER THE FIRST DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the grippe misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiff-

Don't stay stuffed-up! Quit blowing and snuffling! Clear your congested around to the belief that it is wicked head! Nothing else in the world gives such prompt relief as "Pape's Cold them and boasting how many they Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine-Insist upon Pape's !- Adv.

No Affinity.

"There is one queer thing about the old sea dogs." "What is that?"

"They don't seem to take to ocean greyhounds."

#### ASPIRIN INTRODUCED BY "BAYER" IN 1900

Look for name "Bayer" on the tablets, then you need never worry.

If you want the true, world-famous Aspirin, as prescribed by physicians for over eighteen years, you must ask for "Bayer Tablets of Aspirin."

The "Bayer Cross" is stamped on each tablet and appears on each package for your protection against imitations.

In each package of "Bayer Tablets of Aspirin" are safe and proper directions for Colds, Headache, Neuralgia, Toothache, Earache, Rheumatism, Lumbago, Neuritis, and for Pain in

general. Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicy. licacid.-Adv.

Unreasonable Complaint.

#### "I don't see why Grubb is always complaining of his cold house." "Why not?"

"I understand his wife makes it hot enough for him when he is some.'

### STONE MOUNTAIN SHEEP.

"Well," said Stephen Stone Mountain Sheep, "what have you to say for yourself?"

"I might ask the same question of you," said Sam Stone Mountain Sheep. "Some folks," said Stephen, "call us black mountain sheep but we're really stone sheep even though we look so dark. We come from an old famlly of stone sheep."

"Of course it is rather mixing because there are so many different kinds of sheep," said 3am. "There are different relatives of ours, too. Take some of the sheep not far from us, and who sometimes are with us, they have white heads and gray-colored bodies.

"Then we live around the same parts of the country as the mountain goats do and the caribou family and the moose family and the families of some of the bears."

"But," said Stephen, "they couldn't get us mixed up with them."

"That's so," said Sam, "but there are a lot of sheep they could confuse us with. There are the Rocky Mountain Sheep and the Dall Mountain Sheep and the Fannin Mountain Sheep, oh, lots of us."

"But we may be like them, these others," said Stephen, "and still have

our own special looks and ways. "We have golden, amber-colored horns which are so graceful and which

curve so exquisitely!" "You don't flatter yourself," said

Sam, laughing. . "I was speaking of you, too," said Stephen.

"That's so, of course," said Sam. Well, that does make a difference." "I thought it would," chuckled Stephen.

"I've heard people say," continued Sam, "that we were so friendly and

"Nice and Amiable."

that we traveled around in places where everyone could get to, so we should be protected." "What did they mean?" asked

Stephen.

"They meant that we were rather fearless and so nice and amiable that we mightn't often be on the lookout for cruel enemies, and that, at least, people who always carry guns should be forbidden to attack us."

"Oh, that would be quite wonder ful." said Stephen.

"Do you know," said Sam, "that people are more and more coming to kill animals for the sake of killing

have been able to get on a trip."

"Oh, that sounds so nice to my ears," said Stephen. "People say that we're fine animals and that we should be protected, and the time is on the way when more and more and more people will study animals and will find out all they can about them and maybe take their pictures with cameras, but they won't go

looking for us with their guns. "Most animals deserve good treatment. They have their own good points and their own brave ones and their own unselfish ones, and soon, not so far away, people won't hunt for animals to destroy them!"

"Oh," said Stephen, "how you do cheer me up."

"Yes," said Sam, "for no longer do boys think it is manly to hurt something which can't defend itself. No longer do they think it is fine to be brutally strong. Now they think their strength should be used to look after those who are weaker.

"And girls are doing their part in

trying to look after the birds. "So many girls, they've said, nowadays would not, for anything, wear a Paradise bird's plume or an aigrette from a heron.

"And so our family will not be wiped out," said Stephen.

"No, they say we deserve good treatment for we're fair and good and they say that we will get it!"

### The Only Test.

It is often harder to face the critieism of friends than the censure of enemies. To feel that we are disappointing those who love us, is more bitter than to stand against the ridicule and scorn of those who hate us. But the test to which every action should be put is not whether it satisfies our friends, but whether our conscience can put upon it the stamp of its approval. Loyalty to principle may sometimes mean disappointment to our friends. Yet those who really love us would not have us anything but true to the best that is in us. -Girls' Companion.

### **GOOD PROFIT IS** FOUND IN KELP

Besides the Commercial Potash Many Valuable By-Products Are Turned Out.

### EXPERIMENTS ARE SUCCESS

Plant Established by Government in California Demonstrates Profit Can Be Marie With Production on Commercial Basis.

Washington.-Kelp, apparently, is going to be a profitable source of potash, an important fertilizer ingredient that the United States formerly obtained almost wholly from Germany. During the war an experimental kelppotash plant was established by the United States department of agriculture at Summerland, Cal. Before the second year of operation was completed it had been determined not only that the plant could be made self-sustaining on the basis of potash alone. at \$2.50 a unit, but that a number of valuable by-products could be profitably obtained. The chief of the bureau of soils, which bureau operates the enterprise, estimates that if the plant turns out \$300 worth of potassium chloride a day, it may at the same time turn out \$269 worth a day of the four principal by-products. Many By-Products.

Among the by-products whose commercial obtainability has been established are lodine, common salt, ammonia, and bleaching carbon. This bleaching carbon, formerly imported from Europe and sold for 20 cents a pound, has been prepared and sold from the Summerland plant at 15 cents a pound and appears at present about able to pay the production cost of itself and the potash, with good reason to believe that it may ultimately be made to pay the operating cost of the entire enterprise. It has been definitely established by large-scale operations that very little of the nitrogen of kelp is lost in the various processes and that it can be commercially recovered as ammonia, thus yielding another important fertilizer element. In this process enough combustible gas is released greatly to reduce if not to eliminate fuel consumption in the plant. A tar is likewise recovered, and its subproducts, kelp oils and creosote, have been shown to be of value, respectively, as flotation agents and disinfectants. Still other valuable byproducts are likely to be recovered. "The field broadens tremendously as progress is made," reports the chief

#### Submarine "Valley" Found Off Mendocino

of the bureau of soils.

San Francisco.-The approximate location and shape of an uncharted submarine valley, which caused the wreck of the steamer Bear with the loss of five lives in 1916, has been reported by Captain Lukins of the surveying vessel Wenonah of the

The axis of the valley is given as about ten miles to the north and west of Cape Mendocino, Cal., and its head about five miles off shore.

The unknown presence of this formation is blamed for the wreck of the steamer Bear, whose captain was deceived by soundings taken in its vicinity during a storm.

### KERENSKY NOW IN 'BEANERY

Former Russian Leader Said to Be Working in London Restaurant.

New York .- Alexander F. Kerensky, successor to the czar as ruler of Russia, is now working in a "beef and beanery" in London, according to Gregory Zilboorg, who says he was Kerensky's secretary of labor and who spoke here last night at the intercollegiate socialist convention. "The poor fellow is down at the heel," he added. "He is in the same boat as I am."

Bonds for Shelf Paper. Senttle. Wash.—How \$4,000 of Se-

attle improvement bonds, bought by a son for an income for his mother, were used by her to paper pantry shelves. was disclosed when some of the mutilated bonds were brought to the office of City Treasurer E. L. Terry to see if they had any value. According the story told Accountant A. B. Lund, the bonds are the property of an elderly woman who has been living alone in Seattle several years. During a long illness five or six years ago she is said to have suffered a temporary lapse of memory, and when she recovered apparently had forgotten everything about the bonds and their

"Brownies" Quit British Service. London.-The last group of "brownles" has just left the government service, causing general lamentation. These were young messenger girls who were taken on during the war and were called brownies because of their special brown dresses, which were supplied by authorities. It is said that they proved themselves much smarter and quicker than boys.

300,000		8	63	39,680	263,510	303,190	.6062	19,840

The first \$4,000 of net income in excess of the exemption of \$2,000 is subject to a normal tax of only 4 per cent, but all net income in excess of \$6,000 is subject to a normal tax of 8 per cent. After the net income passes the figure of \$5,000 the graduated or surtaxes set in, and in the case of an individual with a net income of \$6,000 he is entitled to an exemption of \$2,000, leaving \$4,000 which is taxable. He pays a normal income tax of 4 per cent on \$4,000, or \$160, and as \$6,000 exceeds \$5,000 by \$1,000 he is also obliged to pay the graduated or surtax of 1 per cent on this amount, or \$10, making a total tax due the government of \$170, as shown by the schedule.

583,510

Getting up into the range of higher salaries, take for example, an individual with a net income of \$26,532.80. The tax on an income of this amount comes in between the tax on a net income of \$26,000 and \$28,000. Now, the schedule gives the tax on a net income of \$25,000 as being \$3,070. The amount in question exceeds \$26,000 by \$532.80, and this amount is subject to a total tax of 20 per cent (normal tax of 8 per cent and surtax of 12 per cent), or \$106.56. /This \$106.56 added to the \$1070 tax on \$26,000 makes the individual in question subject to a total tax of \$3,176.56.

For a single man (whose exemption is only \$1,000) whose salary ranges between \$2,000 and \$5,000, an addition of \$40 must be made to the total tax shown in the above table.

For each child under eighteen years a deduction of 89 must be made from the total tax shown above for incomes ranging above \$2.000 and up to \$6,000. From \$6,000 upward \$16 must be deducted for each child under eighteen years Heavy penalties are imposed for those who fail to file their returns between January 1 and March 15. The full tax may be paid in full at the time

of filing the return, or if it is desired to make the payments in four installments the first must be paid by March 15, the second by June 15, the third by September 15, and the fourth by December 15. The period for which the income tax is assessed is the calendar year of 1919.

Every person whose income equaled or exceeded \$1,000 for single persons or \$2,000 for those who are married must file a return regardless of whether the income is large sough to require the payment of the tax.

### Farmers Convention at Dallas, Texas, January 21-22

Report of Committee on Resolutions We, your committee on resolutions submit the following:

There is great uneasiness, unrest and a genearl demand that something be done to reduce the high cost of living. Never in the history of Answering the call, in Convention or living. Never in the history of the country has there been such a world-wide demand for greater production of the necessities and essentials of life. That there is something radically wrong, all admit and none deny. There must be a fundamental cause for this deplorable condition. The cause must be found dition. The cause must be found

This Nation and State are essentially agricultural. Agriculture is their foundation. No structure can stand whose foundation is weak and

### Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardul. . I began improving, and it cured me. I knew, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

the Woman's Ionic

She writes further: 417 am in splendid health . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, rundown and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medi-cine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

All Druggists

Called by Fred W. Davis, Commissioner of Agriculture of Texas, at the request of the Executive Committee of the State Farmers' Institute, for the purpose of mapping out Farm Plans for 1920. The Honorable Fred W. Davis not being present J. W. Neill, Director of Institutes was elected chairman.

Report of Committee on Resolutions

They have appealed to the Commissioner of Agriculture of Texas, who is a practical farmer, and spent his life studying relief measures for the farmers, to call a meeting of farmers and those who know their troubles, who know the causes which have been driving farmers and farm boys from the farms, and let them tell of their troubles and the remedies, that their friends and the public may

binations or manipulations of gamb-lers, writes its doom economically, morally and socially."

All fair-minded men say we are entitled to a voice in the price of the products we produce, and commer-cial practices require it. Experience and sound judgment have taught us roads which are not durable. The development of the farming and the protection of every other interest, let, we can control the price of them to cost of production plus a reasonable profit, the same as the produceres of manufacturer, if we produce a surplus we must take care of it by carrying it over, and if necessary reduce the supply, which we can and will do.

To control the supply of products to the manufacturer, equires organization among the farmers, which should be among the farmers and taxed.

To control the supply of products to the manufacturer, if the sale of land in Texas, and taxed as other property is assessed and taxed.

To control the supply of products to the market, requires organization and the farming and the manufacturer. Therefore, be it Resolved: That we ask our Department of Agriculture to continue to cont

To control the supply of products to the market, requires organization among the farmers, which should be encouraged and aided by all governmental agencies which are interested with the execution of the laws which effect farming and agricultural interests in this State. To control the following the garn to money direct to farmers on approveducts to market, will materially interfere with the profits in speculation and gambling, and correct the said Act amended as here suggested.

Served. that such rights be assessed and taxed as other property is assessed to the destruction of cotton stalks and the destruction of cotton stalks and the destruction of cotton stalks and support the destruction of cotton stalks and support the destruction of cotton stalks and the destruction of cotton stalks and support the destruction of cotton Decision must be made as to whether we will preserve peace, plenty and a satisfied citizenship of the whole people, or preserve a profitable system of gambling and speculating to a few. When this decision is made in favor of the producers, then the "Back to the Farm" movement will begin by men of determination to own a home and make rural life what begin by men of determination to own a home and make rural life what it is desired to be. Then farmers will be financially able to improve their farms and their methods and do the things which those not quainted with farm conditions, urge the farmers to do. Therefore in view of the premises, be it custom has, in some localities, entailed an average loss of at least \$20.00 to \$35.00 per bale on the last year's cotton crop.

In view of this unfortunate state of affairs we recommend and insist that necessary laws be passed at an early date for the prevention of such practice and to avoid the occurrence.

of the premises, be it
Resolved, 1. That we urge all
agencies and influences interested in farming and agriculture, to render every assistance possible to make farming profitable, and farm life attractive; to perfect a marketing system for all farm products through which the producers of farm prowhich the producers of farm pro-ducts will receive the cost of produc-tion and a reasonable profit for such

That all friends of the farming interests are requested to aid in establishing a system by which those interests can finance their operations

3. That as an aid to making attractive farm life and rural conditions, we demand the immediate improvement of rural schools so that there will be no cause for moving from the farms to the cities and towns in order to secure educational advantages, and in this connection we insist upon the adoption of a system of vocational training in all grades of the rural schools.

2. Be it-resolved: That we request the Hon. Fred W. Davis, Commissioner of Agriculture, to call, at the earliest date possible, farmers' meetings at central points throughout the State, to be held under the auspices of the State Farmers' Institute, for the purpose of discussing farming plans and activities during 1920.

3. Be it resolved: That we request the Hon. Fred W. Davis, Commissioner of Agriculture, to call, at the earliest date possible, farmers' meetings at central points throughout the State, to be held under the auspices of the State Farmers' Institute, for the purpose of discussing farming plans and activities during 1920. That as an aid to making at-

building in the State should be so planned and put into operation as to first accommodate and develop the farming interests of the several localities in the State, rather than in the establishment of tourist highways, and we condemn the waste of public funds in the construction of roads which are not durable. The development of the farming and the protection of every other interest, demand that all roads be built so as products are offered too freely the products are offered too freely the products are offered too freely the production. Agriculture for tabulation. We further recommend that as far as possible these tabulations be made with destructive work.

Soil Erosion.—In view of difference in cost of production in the difference in cost of production in

to \$35.00 per bale of the control of the control of affairs we recommend and insist that necessary laws be passed at an early date for the prevention of such practice and to avoid the occurrence lows:

| Tor Flanting, the trol; 7. Plant Pathology; 8, Soil Eroston, Our recommendations under these eight general heads, and the two sub-heads under Cotton, are as follows:

Experience has taught us that if a profitable price is desired for cotton, it must be secured by organization among the farmers, which is made more effective by producing a living at home as far as possible. In this connection, the State Department of Agriculture is at the head of a cottage. connection, the State Department of Agriculture is at the head of a cotton growers' association. It began an educational campaign in 1917 to instruct the public how the price of cotton is made and how it can be controlled by the producers, which has produced satisfactory results. Beginning with 1920, the Department is organizing the farmers into a strong compact cotton growers' association under State authority, supervision and expense, thus forming the strongest and safest cotton growers' association that it is possible that the twerver possible, farmers practice the interchange of labor, especially in any emergency; that idle labor can be forced into helping cultivate our farms. We also recommend that the less essential work on farms be not allowed to interfere with crop production.

2. Livestock.—We recommend the better grades of livestock, and that better grades of livestock be brought on the farms. We also recommend that farmers grow enough feed crops to care for their livestock.

3. Diversification.—We recommend that farmers grow enough feed crops to care for their livestock.

3. Diversification.—We recommend the diversification of crops in accordance with the need and quality of soil and climate, at least to the extent of providing for the found and

Department in forming this association and carrying out its aims.

Miscellaneous Statements and Res-

olutions.

1. Be it resolved: That we instruct the Secretary of this Conven-1. Be it resolved: That we instruct the Secretary of this Convention to prepare copies of the reports of Committees on Resolutions and Farm Plans for 1920, and furnish same to all the leading daily papers for publication in their issue of Sunday, Feb. 1st, and to farm papers and such other publications as will han-

and secure their necessary supplies dle same for publication at their con-

venience.

2. Be it resolved: That we

we insist upon the adoption of a great maissioner of Agriculture of Texas, who is a practical farmer, and spent is life studying relief measures for the farmers, to call a meeting of farmers and those who know their troubles, who know the causes which have been driving farmers and farm boys from the farms, and let them tell of their troubles and the public may know where the weak place in the fire in by hunger, lack of clothing and general poverty.

Answering the call, in Convention assembled, we give as our opinion from self-knowledge and from practical experience, that the principal cause for the exodus from the farm has been for the past forty gears, and is yet, that the farmer has not had any voice in the products he and his family toil in to produce.

With our livestock, the packers have had the pricing at both ends with the mode with the ligislation and such as the pricing at both ends with the mode with the products and and the pricing at both ends with the mode with the products and the pricing at both ends with the mode with the products and the pricing at both ends with the products and the pricing at both ends with the products and the pricing at both ends which are practical farmers and those and the pricing at both ends which are practical farmers have had the pricing at both ends with the products and the products and the pricing at both ends with the products and the products and the pricing at both ends with the products and the products are producted to the products and the pricing at both ends with the products and the pricing at both ends with the products are producted the products and the pricing at both ends with the products and the pricing at both ends with the products and the pricing at both ends with the products and the pricing at both ends with the products and the pricing at both ends with the products and the pricing at both ends with the products and the products are producted to the products and the pricing at both ends with the products and the pricing at both ends with the pro

broducts he and his family toil in to produce.

We urge the farmers of Texas to avail themselves of all present warehouse facilities, and we recommend such legislation and such legislation and such legislation and such legislation and such here were few to sell. and down there were few to sell. and down there were few to sell. and down there were few to sell. and down the bulk had to be sold. Withour wheat, corn, oats and cotton, speculators in futures, who have no interest in our products, farms or families, have been permitted to combine and manipulate the price of our products and cause them to sell for one price today and another tomorrow, and seldom for as much as the cost of production, attaching such hazard to the business of farming so that no intelligent man who can help himself will continue in it. On the other hand the toll taken as commissions, profits and otherwise, makes the profits excessively high to the consumers.

"Any Nation or State, depending upon certain products for existence, that fails to protect their value to the producers, to cost of production and a reasonable profit against combinations or manipulations of gamblers writes its close accommend that the road building in the State should be so lanned and put into operation as to lander the absolute control of the state Department of Agriculture.

S. We recommend that whatever federal aid may be rendered farming activities, should be done through and under the absolute control of the absolute co

ing and gambling, and correct the cause which is creating this unrest.

It has been observed from time to be well and preserve peace, plenty and the preserve peace and the preserve p tire State, much of the cotton has to meet the conditions now existing

Our recommendations have been grouped under eight general heads:

1. Labor; 2, Livestock; 3, Diversification; 4, Home-Marketing; 5, Cost of Cropus 6, Cost on The Cost on The Cost of Cropus 6, Cost on The Cost on The Cost of Cropus 6, Cost on The Cost of Cost on The Cost on The Cost of Cost on The Cost of Cost on The Cost of Cost on Th of Crops; 6, Cotton; The recommendations about cotton have been divided into two sub-heads, (a) Seed for Planting, and (b) Insect Con-

attack. we suggest that the farmer get in touch at once with the Plant Patholo-gist of the State Department of

STATE DEPARTMENT REPORT ON CARRANZA'S CONNECTION WITH PLAN PUT IN RECORD

### JOHN A. VALLS IS WITNESS

Distirct Attorney Who Prosecuted Mexicans at Brownsville Testifies at San Antonio.

San Antonio, Texas-Carranza and a few of his principal lieutenants instigated and directed the long series of raids on American properties that began along the Rio Grande early in 1915, acording to documentary evidence placed before the senate subcommittee investigating the Mexican situation. This was supported by testimony by John A. Valls, the district attorney at Brownsville; L. R. Barnes, in charge of the United States army intelligence work along the border during the war, and other witnesses. The committee secured from them and from documentary evidence information tending to show that not only were the highest Mext can officials cognizant of the program of the raiding parties which was carired out under the provisions of the "plan of San Diego," but that as late as June, 1915, they were still giving encouragement to and aiding those who participated in those raids in plans inimical to the United States.

Incident to the taking of testimony regarding Mexican government officials' connection with the "plan of San Diego," further information was secured as to the success encountered by Germans in bidding for the sympathy and support of Mexico during the war and the present drift toward boishevism.

Summarized, the plan of San Diego was as follows:

"The states of Texas, New Mexico, Colorado, Arizona and California are to be invaded simultaneously, with uprisings of Mexican and negro citizens on the American side. A separate government is to be established and reannexation to Mexico requested. Six other states contiguous to this territory are to be carved out of the United States to form a negro republic under the protection of Mexico. This is to be accomplished in a ruthless manner, all male Americans more than 16 years of age are to be killed."

#### BRITISH MAY SEND TROOPS TO CAUCASUS

Reports From Paris Say Plan Is to Stop Southward Sweeps of Reds.

Paris. - The British contemplate sending a large froce into the Caucasus to stop the southward sweep of the bolsheviki, according to insistent reports here. The protection of Poland and the erection of a barrier against the bolsheviki on the western frontier of Russia will be the work of France and Italy. Official confirmation or denial of it is not obtainable at this time.

That the new French government does not look with favor on a military movement against Russia is. however It is reported in well-inapparent. formed circles that, following the retirement of Georges Clemenceau from the affairs of the peace conference Maurice Paleologue, formerly Russian ambassador to France, would be named as French representative in the council of ambassadors, and that ef forts to overthrow the British plan of military action against the bolshevik would assume definite shape and sub

# many allments which, while they de not cause much distress in the stomach itself, are, nevertheless, traceable to an acidstomach. Among these are nervousness, billousness, cirrhosis of the liver, rheumatism, impoverished blood, weakness, insomnia, melancholia and a long train of physical and mental miseries that keep the victims in miserable health year after year. The right thing to do is to attack these ailments at their source—get rid of the seld-stemmech. A wonderful modern remedy called EATONIC now makes it easy te de this. One of hundreds of thousands of grateful users of EATONIC writes: "I have been troubled with intestinal indigestion for about nine years and have spent quite a sum for medicine, but without relief. After using EATONIC for a few days the gas and pains in my bowels disappeared. EATONIC is just the remedy I needed." We have thousands of letters telling of these marvelous benefits. Try EATONIC and you, too, will be just as enthusiastic in its praise. Tour druggist has EATONIC. Get a big INTERURBANS STOPPED BY ICFBOUND WIRES

Scores Forced to Remain Over Night Are Unable to Find Hotel Accommodations.

Dallas.—Ice and sleet on trolley wires completely paralyzed interur ban traffice between Dallas and Fort Worth and Dallas and McKinney Thursday morning. Traffic south over the lines of the Texas Electric Railway was suspended for an interval of about thirty minutes.

By reason of the suspension of traffic scores of interurban passengers were compelled to remain over night in Dallas. A few found lodging while others, unable to obtain accommodations, spent the night in hotel lobbies or at the interurban station. Principal hotels already overflowing from the influx of visitors to the hardware dealers' convention filled rooms with cots and sheltered as many as they

Junior Chamber of Commerce Planned St. Louis, Mo.—A-campaign to organize a junior chamber of commerce of the United States has been launched at the national causus of junior civic bodies in session here.

Discount Rates Increased.

New York .- A general advance in discount rates on commercial paper, Liberty bonds, Victory notes and bank acceptances is announced by the New York federal reserve bank.

Will Enforce Coal Strike Agreement. Washington.-Attorney Generol Palmer has told officials of the United Mine Workers that the department of justice will enforce the terms of President Wilson's proposition for the settlement of the recent strike.

### CHARGES BY SIMS MUST BE PROVEN

SWEEPING INQUIRY INTO NAVAL AFFAIRS TO BE UNDERTAKEN BY SENATE CONFERENCE.

Washington .- Charges of Rear Admiral Sims that the navy department failed to co-operate fully with the allies during the great war will be investigated by the strate subcommittee before which they were made.

This was decided by the full naval committee, which also authoried appointment of another subcommittee to determine whether there should be an inquiry into the charges made by John R. Rathom, editor of the Providence (R. I.) Journal, that, with the knowledge of Secretary Daniels, "many seamen in the navy have been used for most vile and nameless practices in order to entrap innocent men."

While the senate committee was in session, Secretary Daniels announced that Admiral Sims would be called on to make good his charges either before the senate or a naval board.

Simultaneously Chairman Butler of the house naval committee announced that Major General Leonard Wood would be called before that committee to explain statements attibuted to him that American naval vessels were "floating deathtraps." General Wood explained at Portland, Maine, that what he said was that naval ships manned by untrained crews would be death-traps in battle."

#### DUTCH DISTURBED OVER DEMAND FOR WILLIAM II.

Measures Will Likely Be Taken to Induce Him to Surrender Voluntarily.

Brussels.-Deep emotion has been aused in Holland by the allied demand for the extradition of former Emperor William of Germany, according to a dispatch. Belief is expressed at The Hague that measures will be taken with a view to inducing him to voluntarily placing himself at the disposal of the allies.

Paris.-Holland is told in the allied note demanding the extradition of former Emperor William that she will "not fulfill her international duty" if she refuses to associate herself with the entente powers in chastising crimes committed by Germans during the war.

#### TEXAS INSTRUCTED TO INCREASE ITS MILITIA

War Department Says Bring National Guard Up to Full Strength.

Austin, Texas .- The . war department has instructed the adjutant general of Texas to bring the national guard up to full strength. It was stated at the adjutant general's department that the entire Texas guard is in good shape now, but that the work of getting it up to standard would proceed at once.

A good part of the Texas ranger force have been here in conference at the adjutant general's department, but the nature of the subject discussed was not disclosed.

#### SCANT HOPE FOR VOTE ON TREATY BEFORE FEB. 1 total of 889 cast.

Round Table Conferences Continue, But Slight Progress is Made.

Washington.-Hopes for final action

Efforts of republican and democratic leaders to adjust disputes over reservations will be continued this week but the time required for subsequent negotiations with the rank and file of the senate ad the debate which will follow in the senate itself, are expected to preclude final action before February, at the earliest.

Radical Deportees Welcome to Russ'a Terijoki, Finland.-Russians who were deported from the United States were given what might be termed an official reception just outside this village. In the crowd that greeted Alexander Berkman, Emma Goldman and their "comrades" was M. Zorien member of the all-soviet executive committee, who, after a brief conference with Berkmanu agreed to permit the whole party to enter bolshevik Russia.

Australian Railroad Run at Loss Melbourne.-The loss on all commenwealth railway lines for financial year ending June 30, 1919. amounted to nearly \$700,000, it is shown in figures in the annual report of the railway commissioner.

Influenza at Camp Dix.

Trenton, N. J.-Camp Dix has been closed by quarantine because of an epidemic of influenza and diphtheria with many cases of other diseases.

### To Hold Community Fairs.

Denton, Texas .- A series of community fairs culminating in a countywide fair for the winners is being planned for the boys and girls' clubs of Denton county.

Says Open Shop Prevents Wrangles Oklahoma Cty, Okla.-The open shop, as it prevails in Michigan. keeps that state virtually free from labor wrangles, insuring high-speed production, according to Governor Albert E. Sleeper of Michigan.

### WILL CHECK UP ON RENT PROFITEERING

TENANTS TO SHOW AMOUNT OF RENT AND TO WHOM PAID ON INCOME TAX REPORTS.

Washington.-From now until the night of March 15 the annual returns covering income for 1919 will be figured out and filed by citizens and residents, together with payments of tax due.

The burden of fulfilling this obligation is laid by law squarely on the shoulders of those who are American citizens or residents. Every person must determine for himself whether his net income for 1919, figured according to the revenue law, was sufficient in amount to require a return. Through the collection of taxes on

1919 incomes, the government will wage war on profiteering landlords, with "sweet revenge" in prospect for "the tenant who has had to dig deep into his earnings to pay a high rental in 1919." First intimation of this new aspect

came in announcement of Daniel C. Roper, commissioner of the bureau of internal revenue, that forms for making income tax returns, which are in the hands of all revenue collectors and ready for distribution, contain. a section providing that tenants shall include in their statements the amounts of rents paid and to whom it was paid. This information will be turned over to the department of justice to be used in its high cost liv-

ing campaign.

The tenants are doing the driving and holding the whip," Mr. Roper "Profiteer landlords will be held to the straight and narrow path in the payment of their income taxes. Revenge is sweet to the tenant who had to dig deep into his earnings to pay a high rental in 1919. Gathering his family around him, he takes his scratchy pen in hand and with the last drop of ink in the bottle informs the commissioner of internal revenue that he, Bill Brown of Hallroom Apartments, paid to John Smith, 13 profiteer avenue, \$1,200 for his threeroom flat in 1919.

"By gathering these reports from all of the Bill Browns who are running themselves ragged to pay their rent, the internal revenue bureau will have all of the information needed to see that the profiteering John Smiths pay proper tax or face prosecution."

While the work of collecting the income taxes will be just as heavy this year as it was in 1919, the government will receive less revenue. Instead of collecting 6 per cent on incomes between \$2,000 and \$4,000 from married persons, as was done last year, only 4 per cent will be collected this time. The filing and paying must be done

before midnight of March 15, or he is classed as a delinquent and is subject to severe penalties.

#### DESCHANEL IS ELECTED PRESIDENT OF FRANCE

Receives 734 Votes Out of a Total of 889 Cast in the National Assembly.

result made shortly after the ballot had been counted, while not chang ing the Deschanel total, accounted for only 866 votes in all. The vote: Deschanel 734, Charles Jonnart 66, by the senate on the peace treaty this georges Clemenceau 56, Leon Bour-month virtually had vanished. geois 6, Captain Jacques Sadoul 1,

> Paul Eugene Louis Deschanel, statesman and author, is known as one of the most brilliant public speakers of France. He was born in Brussels in 1857, during the exile in Belgium of his father, Emile Deschanel. senator and professor of the College of Paris.

> while Deschanel has not won the presidency by such outstanding services as those rendered by Premier Clemenceau, he is a man adapted for the position, which requires careful tact, and is, above all, a safe man.

> Cotton Assocation Called to Meet Dallas.-The Texas division of the American Cotton association has issued a call for a mass meeting to be held in Dallas on Jan. 27. Although the American Cotton association has been functioning for almost a year the organization in Texas had been a temporary one. The organization determined at the mass meeting on Jan. 27 will be the permanent organization for the current year.

### Examinations for Radio Operators.

Waco, Texas.-Arthur H. Kopper, government raido inspector, will visit Waco within the next two weeks to conduct examinations for those who desire to qualify as amateur radio operators.

#### Millerand to Form New Cabinet Paris. - The cabinet of Premier

Clemenceau has resigned. President Poincare has asked Alexander Millerand, governor of Alsace, to form a new cabinet.

### Transport Powhatan Leaking.

New York.-The United States Army transport Powhatan, reported to be leaking badly about 700 miles east of New York, is in no immediate danger and probably will be ficated into Halifax.

### SOCIALISTS' COUNSEL SOUNDS A WARNING

HILLQUIT TELLS ASSEMBLYMEN IN NEW YORK REVOLUTION MAY BT LET LOOSE.

Albany, N. Y .- Morris Hillquit, chief counsel for the five suspended socialist assmblymen, declared at the opening of their trial by the judiciary committee of the New York assembly that if the assembly permanently ousted the defendants the "act will leave loose the violent revolution which we socialists have always endeavored and are endeavoring to stem."

Mr. Hillquit added this "one word cf solemn - warning" after asserting that the Romanoffs and all instruments of oppression in Russia had been destroyed after the government had tried to outlaw the socialist movement, and that "we are not afraid of suppression at the time one half of the world is under socialist control."

The "warning" was later interpreted by Martin W. Littleton, associate counsel for the committee, as "a warning to the country, a threat to the committee and an admonishment to the assembly that they do not dare deal with the gentlemen here present unless they wish to invite revolution to Mr. Hillquit denied this country." that his remarks were intended as a "threat," and said, instead, he had "made a sort of love offer" that "we socialists are ready to see the thing through in a constitutional manner and by peaceful methods."

#### METHODIST MERGER PROPOSAL ADOPTED

Convention of Bishops and Laymen At Louisville Indorses Plan.

Louisville, Ky.-Agreement on a constitution for what would be the Methodist Church to be submitted to the general conferences of the Methodist Episcopal Church and the Methodist Episcopal Church, South, for ratification was reached by the commission on unification, in point session here. The Methodist Church, under the proposed organization of reunion, would have a supreme general conference and seven regional conferences, six of which would consist of white members averaging 1,000,000 each and the other of which would consist of the entire negro membership numbering 303,000 Some of the power now invested in the general conference would be transferred to the regional conferences

Each local conference would have entire control of its region, except in matters affecting the entire church. Bishops are to be chosen by local bodies. although the larger body would retain powers of confirming and ordaining. There is a judicial council called for to review constitutional matters acted upon by a!. conferences. This body will be a final court of appeals. It will consist of fifteen members. The general council would consist of 800 members to be chosen by the regional Conferences in proportion to their memberships and would meet every

DR. MARQUIS AND ESKIMO CHILDREN

OMEN without noses are not usually considered beautiful, yet those of the older generation of Eskimos in Alaska are intensely proud if their appearance has been thus changed. It is to them a

continual reminder of the fact that they were the belles of the village and their mutilated faces advertise this distinction to all who see them.

"The men of the Eskimo tribe have few bad habits," says Dr. John A. Marquis, secretary of the Board of Home Missions of the Presbyterian church in the U. S. A., who recently sufferer had broken out with loathreturned from an extensive six months' trip to Alaska. "But they are inordinately jealous of their women. This jealousy was formerly so strong that before they learned better, fathers would bite off their pretty daughters' noses in order to keep them in the family longer, but more often an Eskimo, after marrying, would bite off the nose of his beautiful wife so that she would no longer have attraction for other men."

This nose-biting was practiced frequently not because the Eskimos them- Not dismayed, however, the missionwalking off with their neighbors' wives, fitted his condition. On this sled and but because men from other races from it, Joe Sokonik determined to the world operated by the Presbytewould happen along and be unduly at- teach his people. Daily he may be rian church, tracted. According to Dr. Marquis, seen in the village of Kivalina bumpthere are many old women today who ing along on the rough sled, pulled walk about honored and respected, and either by dogs or by some willing as proud as queens, because their hands. Despite the fact, however, that Euro pean and American influence have made some changes, the life and language of the Eskimo still remain very much like those of the stone-age in- not mind; he is teaching his people habitants of Europe, of whom they are said to be the last surviving representatives. One peculiar feature noted by Dr. Marquis was that the Eskimos, while living in groups or villages, appear to have no chiefs or rulers. For tunate circumstances. the hunt they elect a chief who is chief for the hunt, and when that is over his authority ends until the next hunt.

This Presbyterian secretary noted in one village, however, Kivalina, Alaska, an Eskimo who seemed to have an unusual degree of authority. This was especially unusual because the man in question was a cripple and was confined continuously to a seat in a rough sled which had been constructed for him. His name was Joe Sokonik, Dr. has not yet failed them. From his Marquis learned, and he was a school teacher. Investigating, it was found

that he had a remarkable story. Some years previous he had been taken down with a serious illness in which, because of the filthy conditions surrounding the homes of the Eskimos, he went through much suffering. As a affection of the spine, which almost claimed him. prevented him from moving. An Amer-

"They seemed to have no resistance to the epidemic," said the Presbyterian secretary. "Probably their dirty conditions of living and homes helped to spread the disease, and undoubtedly their habit of herding together and not separating the well from the sick accounted in large measure for the inroads made."

JOE SOKONIK

teresting stories of the Eskimo race,

concerning their customs and their

condition. He especially stressed the

terrific havoc wrought by the influenza

epidemic of last year in which nearly

half of the Eskimo population of

Alaska was wiped out.

If it had not been for government regulation which prevented any traders going to the infected districts or from the infected districts to the Eskimos, It is probable that there would have been very few left of this race at the end of the epidemic last year, declared Dr. Marquis.

One peculiar custom noted by the Presbyterian secretary was the Eskimo habit of building fences of whale bones about their cemeteries. It used to be precious, but because of the many successful substitutes that are now being used, it has lost much of its commercial value. What peculiar property attaches to the whalebone that it should be such an excellent material for cemetery fences is not known, unless the scarcity of other material makes its use cheap and desirable.

Dr. Marquis, with his daughter from New York city, made an unsuccessful attempt to reach Point Barrow, Alaska, the northernmost mission station in

World to Eat Reindeer.

Reindeer will furnish the future meat supply of the world-or of a scientists. Incidentally, the reindeer and the caribou are the same animal. except that the reindeer was domesticated before history began.

In Alaska there are more than 100. 000 square miles of land suitable for which he teaches. At the close of the the grazing of reindeer; they grow fat where cattle would starve. The reindeer herds double every three years.

In Alaska 12 years ago the reindeer industry was put on a commercial basis with 1,200 reindeer. Now there are over 200,000. The surplus males were killed this year to the number of 30 000.

The enthusiasts are looking to the day when Alaska can ship 5,000,000 carcasses a year. These can be delivered at Seattle for \$4 a carcass. The average weight is 150 pounds. A prothat leader is none other than the af- duction cost of 1 cent a pound is the goal toward which the enthusiasts are working.

At present a reindeer hide is worth about \$4 and the meat sells for about

### LESSON FOR FEBRUARY 1

PETER AND JOHN IN SAMARIA.

(May be used with missionary applications.)
LESSON TEXT—Acts 8:4-25.

GOLDEN TEXT—Ye shall be witnesses unto me both in Jerusalem, and in all Judea, and in Samaria, and unto the uttermost part of the earth.—Acts 1:3.
ADDITIONAL MATERIAL—II Kings
17:24-31: Luke 10:33-35; John 4:1-42.
PRIMARY TOPIC—Telling Others About

JUNIOR TOPIC-Peter and John in a Strange City.
INTERMEDIATE AND SENIOR TOP-IC-Three Missionaries and Their Triumphs.

I. Preaching the Word Everywhere (v. 4).

After the stoning of Stephen the enemies of the Lord were more active than ever in their efforts to stamp out the new faith. With Saul as their leader they rushed back to the city, dragged from their homes and imprisoned those who confessed Christ. In this the devil overreached himself, for the believers took flight and went everywhere preaching the word. The time had come for the witness-bearing to extend beyond Jerusalem and Judea. Preaching was not confined to the twelve. The Lord thus makes the devil's wickedness to further his own purpose: Frequently, in the hour of trial, Christians see more clearly their duty and bestir themselves to perform It. If Christians will not move on, the Lord will shove them on.

II. Philip Preaching the Gospel in Samaria. (vv. 5-13).

Hitherto the gospel had reached only Jews; now its scope broadens and a Jew is preaching to Samaritans, and Samaritans are rejoicing in the gospel of Christ proclaimed by a Jew. His preaching was fruitful for multitudes believed his message. Much joy In this Samaritan city followed the reception of the message. Both Samar-Itans and Jews were looking for Christ, so they were glad to know that the Christ had come. Christ is the one name and person who will break down race prejudice. In him there is unity and real brotherhood, for he is the universal man. The only hope of the world is Christ.

So great was Philip's success that Simon Magnus professed faith and was baptized. Simon was a sorcerer who by magical devices had made a great reputation, gaining control of many of the credulous and ignorant, so that they regarded him as some great one from God (v. 10). The people turned from this sorcerer to the gospel of Christ.

III. Peter and John Sent to Samar. ia (vv. 14-17).

The church at Jerusalem sent two of its best men to encourage the work. They discerned that the Spirit had not yet fallen upon the believers, so they laid hands upon them and the Spirit was given unto them. These Samaritans were really converted, regenerated, but had not yet been filled with the Spirit's gift. Believers should seek the Spirit's gift at once, for this will exclude the interests of the world. The mission of Peter and John shows the unity of the church-the mother church gave sanction to the new work in Samaria. Much of the work of the modern evangelist is a failure because it is not properly followed up by those who will instruct and bring the converts into relationship with the living church.

IV. Simon's Wicked Request ( v. 18-24).

When Simon saw that the power of Peter exceeded that which he possessed and that it was received through the laying on of hands, he offered money for the gift. This act reveals the hypocrisy of this man. He professed faith and was baptized, following after them for a selfish end. To desire and seek the gift of the Spir-It for selfish aggrandizement is to be guilty of Simon's sin. All traffic in sacred things has been called "SImony," from the name of this sorcerer. Peter told Simon that he had neither part nor lot in this matter. that he should repent of his wickedness and pray to God for forgiveness. He requested Peter to pray for him.

Simon practiced the art of sorcery for gain and influence. Now that he found his profits diminishing and his influence waning, he endeavored to acquire new power. All persons who use their religion to further their ambitions to get gain are guilty of this ein. Sometimes men join the church for business, social, and political reasons; sometimes official positions are coveted for the prestige and power they give. Let all who are using the name of the church for business purposes be warned by Peter's rebuke! Let Simon's doom be a solemn warning to all!

The Goal.

The goal on which our eyes most be set is a church that will, in its own corporate life, conspicuously express the Christian ideal of fellowship and brotherhood, and at the same time strive persistently to mold national, industrial and social life in accordance with the principles which are the fountain light of all its days,

Delight in God's Work. All great art is the expression of man's delight in God's work, not in his own.-Ruskin.

#### "CALIFORNIA FIG SYRUP" IS CHILD'S LAXATIVE

Look at tongue! Remove polsens from stomach, liver and bowels.

Accept "California" Syrup of Figs only-look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.

Mother! You must say "California."

Lots of people look easy until you try to do them.

#### SKIN ERUPTIONS ON THE FACE

are unsightly and mar the appearance of many a woman whose face would be otherwise attractive. There is no need for this. Just get a box of Tetterine and use it regularly and you will be surprised how quickly pimples, blotches, itchy patches, etc., disappear and how soft and clear the skin becomes. Nothing better for eczema and other skin troubles than Tetterine. Sold by druggists or mailed for 50c. by Shuptrine Co., Savannah, Ga.-Adv.

A Serious Feminine Illness Remedied By Lydia E. Pinkham's Vegetable Compound.

Casco, Wis.—"After the birth of each of my children I had displacement and was so weak I I found a book
about Lydia E. Pinkham's Vegetable
Compound so
thought I would try
it, and after taking
it I soon felt better. That was fifteen years ago and I have felt well ever since except that I had a slight attack

of the trouble some time ago and took some more of your Compound and was soon all right again. I always recommend your medicine and you may pub-lish my testimonial for the benefit of other women."—Mrs. JULES BERO, Jr., R. 1, Box 99, Casco, Wis. Lydia E. Pinkham's Vegetable Com-

pound, made from native roots and herbs, contains no narcotic or harmful drugs, and today holds the record of being the most successful remedy for female ills in this country, and thousands of voluntary testimonials prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Com-

pound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

### An Obituary

The sweet consecrated life of Grandma Scarborough ebbed out at one o'clock Friday morning, the 30th day of January 1920, at the home of her daughter, Mrs. Dan Odom, a home Grandma held so dear.

This precious mother and friend only suffered eighteen hours with the dreaded influenza when her Lord looked down in pity and bore the soul of this child of His to our heavenly home where suffering comes not.

Grandma's last audable words were the "Lord's Prayer" while clasping close her daughter's hand. He is my Lord, she whispered.

Rev. Reed performed the funeral at the church; four of the family were unable to attend.

The remains were laid to rest in the Grassland cemetery. Grandma enjoyed many good

sermons by noted preachers in her time. Her christian prayers were much comfort, but her pastor had first place in Grandma's prayers and appreciation.

That Grandma's 76 years of love and example shall be her loved ones guide to the home on high is the wish of a friend.
