Victory Loan Opens Monday, 21

County Judge C. H. Cain, is Chairman for the "V" Loan. Our Quota Not Announced.

Monday, April 21, 1919, is the date set for the opening of the Victory Loan drive all over the United States. The people of America are asked to subscribe four billion, five hundred million (\$4,500,000,000) dollars to the loan, and every person is asked to subscribe. It took millions of dollars to end the war and the people expected to assist in the payment of this debt.

County Judge C. H. Cain is the Chairman of the Fifth Liberty Loan for Lynn county, and while the quota for this county has not been named, he is confident that the amount specified for Lynn County to raise, will not be more than our citizens can loan the government in the payment of this great war debt. As everyone knows, our county has been hit hard by the drought and the Loan committee at Dallas, who will submit our quota are well aware of this fact.

Subscriptions will be received during the Loan campaign for the wholly tax exempt notes bearing 3 1/2 per cent securities with partial tax exemption. Emphasis, however, will be laid by solicitors on the 4 1/2 notes, and an effort will be made to round up the bulk of subscriptions to these securities, which may be converted at any time into the 3 1/2 per cent notes.

Let every citizen in Lynn county who possible can, invest in these bonds. Lend as you never before.

Terry county is more lucky this time, as it made a very good crop last year, but it was very glad to take advantage of the fund last year. Mr. and Mrs. J. N. Jones entertained about fifteen of the young people of the town Friday evening. Music and games were greatly enjoyed by those present. If every home in Tahoka was opened to the young folks as this home is, they would never lack for amusement. It is as essential for the younger set to be furnished with innocent amusement as it is for them to have pure air to breathe. Open your doors to the young folks, and permit them to enjoy the best years of their life.

Victory Loan Reasons

Every crippled American soldier will have a chance to fit himself for some line of work. When he leaves the hospital he can enter a school established by the Government for disabled soldiers. That's how Uncle Sam will show his gratitude to the men who fought for him. Just another reason for the Victory Liberty Loan.

EASTER

It is Easter, the gladness of Easter is round me!
 It is Easter, the sweetness of Easter has found me!
 The newly leaved boughs of the trees are low swinging,
 The birds have come back to their homes and are singing,
 The blossoms I missed have come back to the meadow,
 Every last cloud has gone, and gone with it its shadow!
 And each grief that was crowding about me and shoving
 Is gone: for my loves shall come back to my loving.

It is Easter: the lilies of Easter are swaying!
 And the babies, their tresses all wind-blown, are playing!
 And their wee fingers fashion me garlands of clover—
 It is Easter—I grieved but my grieving is over!
 For the ones whom I loved, and who left me back yonder,
 Have grown nearer with Easter, grown nearer and fonder;
 And when the breeze touches the tree-boughs low-swinging,
 I almost feel their loving, I almost hear their singing.

And so all the gladness of Easter is round me,
 Its gladness, its love and its peace have all found me;
 To the ones whom I grieved for my arms are now nearer—
 They were far and apart, now they're nearer and dearer!
 And each Easter that comes brings me near to the going—
 I will find them and love them. I know they are knowing!
 I count up the Easters until I have found them.
 With my lips on their hair and my arms tight around them.

LIFE AFTER DEATH

"Except the Grain Fall in the Earth and Die, It Cannot Bring Forth Fruit."

PERHAPS because the power of rising from death is in man so integral a part of his nature he uses it familiarly without surprise, never quite realizing its God-quality. From his daily deaths of trouble and struggle, from the death of goals he cannot reach, the deaths of gladness and love, of hopes that die with each sunset, he is reclaimed a thousand times. He cannot really die, for all the seeming deaths that daily attend him. They fall into the ground and die. He rises, raised by the power of life in him, and new hopes, new works he brings forth.

To set this life-power to eternal things is hard for him, being within a material world of his own creation. He has lost the intensity of desire for

two things which kept that early group humbly apart and fed it with profound wisdom—the desire of eternal love and a simple, uncompromising will to see the truth.

He feels so strong a life-power within him now that he is impelled to create his own lesser truth, wondering then at his dissatisfaction.

Sincere in Rejoicing.

It is not so much belief as perception that he lacks—looking in the wrong direction with eyes dulled by dwelling on material objects. When the brightest day comes for celebrating

the Risen Spirit, he goes to the laded churches, rejoicing in the flower-beauty that surges into bloom for the feast and in the massed choral singing of anthems. Surely he is sincere; thus loving, thus praising, thus entering into the service which the priests, and people hold? With less keenness of sight, however, for the pure spiritual proving of the truth than those few were blest with who long ago, at the earliest Easter, after long sorrow and waiting, saw the real resurrection, yet perceived the greater spiritual one through it.

But he knows it is in the churches that he will find the mystery of the new flower that is to rise. It is always there, to be realized at each kneeling, to be sown anew in each heart, to give fostering care, to brood over and bless the soil of the heart while waiting, to tell over and over again at every time the questioning heart is lifted up to it that what the mystery of life can do for the lesser grain it is bound to do by an ever truer measure of the same law for the spiritual growth.

Teaches Great Truth.

One can turn better, after that realization, to the full springtide and feel even gladder than nature, knowing the touch of the eternal flower within. Wandering amid the old myths, filled with their beauty and their deathless attachment to life, one feels always under the shadow of ended things, upon the verge where all reality has gone down in darkness. The lasting and perfect poetry of these myths lingers like gothic of unspoken sunsets. As the latest comer among them many may class the great Christian story of the resurrection. It is indeed a great myth, a superlative myth in the real meaning of the word as a narrative founded on a remote event. But the singular, lone truth it symbolizes like a direct shaft of light separates it from the darkness of the old myths forever.

They taught the underworld, where the shades moved in a half life or pale regret conscious of lost joy, without hope. A mournful idea of immortality that satisfied no heart and from which the great thinkers of that age reached out in vain for light.

That light appears in the great simple law, "Except the grain fall in the earth and die it cannot bring forth fruit."

BEGINS HOLY WEEK

For Many Centuries Palm Sunday Has Been Day of Peculiar Significance.

PALM SUNDAY is the name usually given to the sixth and last Sunday in Lent and the beginning of holy week, after the custom of blessing branches of the palm tree or of other trees substituted in those countries in which the palm cannot be procured, and of carrying the blessed branches in procession. In commemoration of Christ's triumphal entry into Jerusalem.

Palms and branches of the palm were used in this historic entry because the palm was then regarded as an emblem of victory and the carrying and waving of its branches was emblematic of success and in honor of royalty.

The date of the first observance of Palm Sunday is uncertain. In the Greek church it was apparently observed as early as the fourth century.

In the middle ages the palm, worn as a decoration, denoted that the person so adorned had made the pilgrimage to the Holy Land.

In some countries people made use of figures of Christ seated on an ass, carried out of wood, which were carried in religious processions and even brought into the church. In other countries it was the custom to strew flowers and green boughs in church yards.

The palms used in the procession of the day are taken home by the faithful and used as a sacramental. They are preserved in prominent places in the houses, barns or even in the fields, and thrown into the fire during storms. From the blessed palms are procured the ashes for use on Ash Wednesday.

Where palms cannot be secured other trees are used. In Rome olive branches are distributed to the people, while the clergy carry palms frequently dried and twisted into various shapes. In parts of Bavaria large swamp willows, with their catkins, and ornamented with flowers and ribbons, were used.

Because every great feast at this time was in some way a remembrance of the resurrection of Christ and was in consequence called Pascha the Spanish term pascua florida had its origin. Thus it was that the state of Florida, which was discovered by the Spaniards, indirectly received its name.

SABBATH OF LIGHT

Holy Saturday a Great Day for the Pilgrims Gathered in Jerusalem.

DURING holy week the Christian and Moslem pilgrims in Jerusalem visit the sacred river Jordan. On Holy Thursday the Greek patriarch washes the feet of 12 pilgrims. This service and ceremony is performed in the open court in front of the cathedral, on a temporary platform decorated with olive boughs. The patriarchs of the Catholic and Armenian communities perform a similar service inside the cathedral, to which the general public is not admitted. On Good Friday all-day services are in order, and special services with ceremonies commemorating the crucifixion take place from six in the evening until midnight. On Holy Saturday, also known as the "Sabbath of Light," all lights in the cathedral are extinguished. The Greek and Armenian sects relight their lamps, candles and fires from a flame which is believed by them to appear on the holy sepulcher on that day. This is the crowning event of Lent to the Greek, Armenian, Syrian and Coptic creeds. Millions of wax tapers and candles are lighted at this flame, burned a few minutes, then carefully

The Winding Jordan.

packed and treasured as sacred relics which are carried and distributed over the whole civilized world.

At midnight the service of the resurrection is performed, after which many of the pilgrims start on their homeward journey.

Mere tourists, of course welcome, because they are somewhat of the trade of the country, but they stay one or several days at the longest, and do not understand the real religious significance of the people of the land, and consequently are regarded as outsiders.

THE SEPULCHRE

By Annie Johnson Flint

"The third day he shall rise again... So they made the sepulchre sure, sealing the stone... He is not here; for he is risen, as he said." —Matthew 20: 19; 27: 66; 28: 6.

The Man had died on the cross,
 And they laid him in the tomb;
 The Living Stone in the stone,
 The Rock in the rock-hewn room;
 They left him alone with Death,
 And sealed the stone at the door;
 They made the sepulchre sure,
 And set their watch before.

"Lest his friends should steal him away,
 And say that he rose," they said.
 But Life escaped from Death,
 And the God-man rose from the dead.

The skeptical minds of men
 Still think the sepulchre sure,
 But Christ had said, "I will arise,
 And the counsels of God endure.

Still his disciples go
 To carry the wordworn word:
 "The Lord is risen indeed!"
 "We know, we have seen and heard."
 And the tomb men think so sure,
 With the seal of their scorn on the door,
 The place where the Lord once lay,
 Is empty forevermore.
 —Sunday School Times.

IS GREAT ESTABLISHED FACT

Skeptics Have at All Times Failed to Disprove the Resurrection of Easter Morning.

The lesson of Easter involves the question of the divinity of Christ. There are two great miracles upon which Christianity rests. The miraculous birth and the resurrection go together. If we believe one we can believe the other. The former is not subject to historical proof. The latter has been proved and is one of the best-established facts in history.

Those who imagine themselves to be too "modern" to accept the resurrection as a literal fact, are deluding no one but themselves. There is nothing new in the effort to explain away the great event. Men have been trying out explanations ever since the guards who went to sleep on duty around the tomb excused themselves by saying the disciples stole his body away while they slept. Explainers have risen and fallen as the ages have come and gone and the deeper the explainer has gone into the matter, the more apparent has become the fact. The simple Gospel narratives gave enough of the physical details of the event to make it convincing; the fact that the disciples themselves do not expect the resurrection and were forced to believe it by his presence among them; by exhibition of his sacred wounds and the fact that it became the burden of their preaching in the future all go to make up the indisputable collateral evidence of the literal fact. Every one of the disciples is said to have died a martyr and his resurrection is testified to by the people of the land, and consequently are regarded as outsiders.

TURKISH NO MORE

Whole World Rejoices That "the Infidel" Has Been Driven From Holy City.

EASTER will be celebrated in Palestine as never before this many centuries, and all the Christian world will celebrate with greater fervor and deeper reverence now that the hand of the "infidel Turk" is removed.

It is exactly 674 years since the Turk drove out the Christians and took possession of Jerusalem, after it had been taken by Frederick II, March 17, 1229, who crowned himself king of the Latin kingdom. In imitation of that earlier king of Jerusalem, Godfrey of Bouillon (1099).

Land of Pilgrimage.

Palestine had been assigned to the Emperor of the East in 305 A. D., and was nominally Christian at that time, when pilgrimage to the Holy Land became almost a cult and the finding of relics became a regular pursuit in all the places identified with the life of Jesus.

This was the period that might almost be termed the Christianizing of Palestine, for Christianity had developed far more vigorously at Rome and in other parts of the Roman empire than in the Holy Land itself, up to this time. Constantine had made it the state religion and Helena had found the "True Cross," so that there was a great stirring of interest throughout the land. Many fine churches were built, and Justinian erected the Golden Gate and part of a great church, now the El Aksa mosque (527-565).

Christians Persecuted.

It was in 614 that Chosroes II, king of Persia, made his great inroad, persecuting the Christians wherever he found them, especially in what is now Armenia, and capturing Jerusalem. The Emperor Heraclius managed to regain control (629), but he had to yield before the might of the Caliph Omar (637), who erected many great structures, especially the mosque called after him, upon the great rock which had been the site of the temple of Solomon.

For more than 400 years the Mohammedans held sway, until as a result of the Crusades Godfrey of Bouillon took possession in 1099. The Christian powers could not, however, hold possession, for they were always fighting among themselves, and so Saladin, the mighty leader of the Moslems, gained a permanent hold over the land of Palestine and Jerusalem in 1187.

It was during the next century that the Christians under the leadership of Frederick II gained possession of Palestine for the last time, until our own day. But with dissension among the Christians of that time it was not difficult for the Turks to regain control in 1244 and retain it ever since, in one form or another.

Surrender of Jerusalem.

The surrender of Jerusalem to the British forces last December, and the subsequent conquest of much of the rest of the land now establishes Christian control, at least for the present, and the doubt has been raised whether any Christian power, even Germany, will dare to suggest that the holy places again be turned over to the power of the Moslem, no matter what the terms of peace may be.

Precisely what local changes in privileges of worship will come out of the change may not be foretold. For a long time a strange situation has prevailed in Jerusalem. The holy sepulchre, for example, with its relics of Christian treasure, has been used by Greeks, Armenians and Western Christians in alternation, the control remaining with the Turkish authorities. Naturally many disputes have arisen out of so strange a situation.

This Easter Significant.

When the city was captured by the British there was great local anxiety as to what might result. With the entry of General Allenby, with his staff and certain French and Italian officers, these anxieties were quickly set at rest. The Jewish population soon learned that all was to be well with them and other sects represented in the citizenship of the historic place were equally reassured. A sense of peace, liberty and security had its immediate effect and influenced profoundly the preparations for the new, unexampled Easter as well as for future worship of every sort in the troubled Holy Land. In Jerusalem as elsewhere began to appear a conviction that, no matter how long world peace might be delayed, a new spirit was abroad throughout the earth.

This Easter, then, has a special significance, in view of all the centuries of struggle for holding the places consecrated to Christianity by the activity of its Savior.

Morning

A RESURRECTION

MORNING—not the dawn of a new day so quickly shrouded by the breaking of an eternal sunlight.

WHAT an overwhelming heart which holds the reins of the passing day and the rising sun! Today heavy shadows fall of sorrow—tomorrow all gone, light that shines from that one Today heaviness of disappointment of ignorance—tomorrow, resting cloud, no time intervening, but Jesus, Jesus who came Jesus who who suffered, Jesus who died, and who glorified in his resurrection.

NOW the hazed and indistinct vision of perfect sight and the strife—then the rest! Now the weeping and the sighing and the tearful eyes! Now, now, dying—then no more parting! Dividing—then no more parting! grave's farewell—then the rest! Now the night winds chilling and the morning light and bright on the mountains! Morning! Morning with an eternity in it morning!

We shall find our loss will meet us as reunions, loss forgotten in eternal gain, our hidden struggles swallowed up in a section of France restored—there was Elizabeth, Chunky Elizabeth, Spunky Elizabeth!

WANTS NO ARTIFICIAL

Believing Christian Can Doubt Concerning Resurrection of Jesus.

To the normal mind no compromise, writes the Houston Post, is to be made in the history of the fraud in the history of the Gospel is either a complete "faked" or the utterance, the whole matter is foolish and an evangelize and "Barnum" synonymous terms. Do of Christian missions, to the twentieth century, fraud, or even of delusion, man to evangelize all men after the resurrection.

After all the arguments marshaled before the glorified body, the Jesus live can be any believing Christian proof. If like Paul, he believes, doubts about the event of the resurrection not concern him.

The Hare and the Tortoise.

The origin of the Easter story is unknown. There is a tradition that it was originally a bird and was quadrupled by the Gaidar in gratitude to Odin, who exercises its obligation to lay eggs for the festival day. The children of Pennsylvania Germany on morning that the laid the colored eggs to them, or which were at some convenient place to find them.

 And taught her to hep, hep, hep—

 flew at her spanker the globe and
 the anchor
 And named her Elizabeth Ford.

\$1.50 per Year in Advance

We welcome the Amarillo Daily News on our exchange table. The new editor, R. B. McCorkle is far-sighted enough to see that he needs the country weeklies to make the News what it should be in the way of a city daily. He has improved the paper wonderfully since taking over the management of the Amarillo morning daily, and it gives all the late telegraphic reports from twelve to twenty-four hours earlier than any other daily paper in the Panhandle. We are also glad to mention that this paper has been appointed special correspondent of the Amarillo News, and will send in any news of special interest that may occur in Lynn county.

L. P. LOOMIS GOES TO CANADIAN

L. P. Loomis went to Canadian, Texas, Tuesday where he will be located as editor and publisher of the Canadian Record, which he purchased from Frank Jamison about six weeks ago.—Slatonite.

Your attention is called to the two-page Victory Liberty Loan advertisements in this issue of the News. The firms whose signatures appear at the bottom are doing their bit to promote interest in the approaching campaign, and compose patriotic business firms in Tahoka, who want to see Lynn county go her limit in the drive. We appreciate the advertising from a financial standpoint, as well as the interest shown in launching the fifth Liberty Loan, which has to be raised to pay the debts made by our government in the great world war. Many others would have doubtless given us their names for these advertisements, had we taken the time to have seen them.

The County organization for the Victory Loan drive is being perfected under the direction of the county chairman, County Judge C. H. Cain. The terms of the deferred payments of this issue will extend over six months, and will be much easier for the county to pay off its quota than in the former Liberty Loan drives. As this is being written the chairman has not been informed what the quota for Lynn County will be, but whatever the figures may be, we should all strive to go the very limit of our means to furnish Uncle Sam our part to help pay off the war debts. The big drive opens Friday, April 25.

The Clarendon News announces in its last issue that that city will have a three-days Fourth of July celebration. Tahoka should get busy and have some kind of entertainment on this date, and we hope to announce that arrangements will be made for a big picnic and entertainment held here. Who will help us boost the proposition. This writer has never seen anything of the kind since coming in your midst, and we believe a genuine get-together meeting would help stimulate business and a wider acquaintance among the people of Lynn County. Lets have a Fourth of July celebration and invite people here for miles around.

Many Lynn County farmers are taking out loans made to the county by the State Drouth Relief fund, which will help wonderfully those that were unable to buy the necessary supplies to make a crop this year. Many applications have already been filed for loans at the office of County Judge Cain, and more will likely apply for this help in time.

Tahoka was not represented in the District School meet at Lubbock last week. We are sure if the High School girls basket ball team had entered the contests they would have carried off some of the honors. Both the first and second teams are in fine trim and we hope to see them in several games before the close of the season.

The Lamesa basket ball team returned through Tahoka late Saturday afternoon from Lubbock, where they attended the District School and track meet, which was held there last Friday and Saturday. From what we learned the Lamesa team won out in the games played at Lubbock, and were in high spirits while in Tahoka on their return trip.

Only two more weeks of school in Tahoka. The public should strive to make the best use possible of the remaining few days left for work. We have not learned whether or not there will be any closing exhibition, except the usual graduation exercises which will be held in one of the local churches.

A valuable dressing for flesh wounds, burns, scalds, old sores, rash, chafed skin, is BALLARD'S SNOW LINIMENT; it is both healing and antiseptic. Sold by Thomas Bros.

ALIEN LAND BILL VETOED BY HOBBY

Austin, Texas, April 5.—Governor Hobby late today vetoed House bill 70, known as the alien land bill, and will have his veto proclamation prepared before leaving tomorrow for Laredo.

The bill was a most stringent measure, requiring resident and nonresident aliens owning land in Texas to either dispose of same or become citizens within a specified time; also forbidding aliens from acquiring land in the State. Violation of the law provided for confiscation of land involved and its escheatment to the State. Accompanying the Governor's veto proclamation is a letter written by Assistant Attorney General Maxwell, who expresses no opinion as to the validity of law. He merely calls attention to past history on legislation of this character and the probable effect of the bill. The letter tends to sustain the Governor's veto. The proclamation rejecting the bill follows:

"House bill No. 70 is disapproved because of its confusing terms. It is calculated to make Texas a less inviting market for long-time loans on real estate and because it is possible that undesirable complications may arise with respect to the privileges of foreign citizens in one of the United States at a time when such complications would tend to hamper negotiations which will bring about amicable relations throughout the world. Section 3 of the act declares that it shall not apply to lands now owned in this State by aliens so long as the present owners hold them, and another section of the act declares that the reason for its passage is because there are thousands of acres of valuable and fertile lands owned by aliens who refuse to assume the responsibilities of citizenship and there is no law adequate governing such ownership. In other words, one section of the law provides that present alien owners shall not be disturbed, while another section indicates that it is the intention to bring about forfeiture of ownership by present owners causing them to register.

Would React On Loans.

The act allows aliens to acquire lands in the collection of debts on lands, but gives only five years to dispose of it, instead of ten years, as the present law provides. There is a very large loan business done in the State by aliens who loan money on reasonable terms. The time mentioned for disposal is too short and will mean a forced sale at a loss in many cases, which will probably react on loans on lands in Texas as a similar act did in 1891. This act contains several features similar to the act passed in 1891, found to be unreasonable and impracticable in their application, which caused the withdrawal of money and investments from Texas, serious injury to credits and business to such an extent that Governor Hogg found it necessary to call a special session of the Legislature in 1892 for the purpose of repealing these features of the act. In my judgment, the consequences that might arise from permitting this act to become a law are fraught with dangers too grave and serious to justify its approval by me. A copy of the opinion of the Attorney General with respect to the operation of this act should it become a law is filed herewith and made a part of this proclamation."

SOME FIRE DON'TS

By the Fire Marshal.

1. Keep house, yard and outbuildings clear of rubbish and inflammable materials.
2. Do not start an open fire near fence, barn or house; NEVER when a wind is blowing.
3. Be sure all chimneys are safe. Have them examined and cleaned each season before fires are built.
4. Never stop the flue openings with paper or rags. Use only tight metal caps.
5. Watch the stoves. Do not place close to frame walls, and have a good zinc mat underneath.

7. Use only safety matches and keep matches away from children.
8. Never start a fire with kerosene.
9. Never throw waste paper on an open fire place or grate.
10. Do not put ashes in wooden receptacles.
11. Do not empty ashes against fences, barns, or outbuildings.
12. Keep gasoline out of the house and barn.
13. Never use gasoline or inflammable volatile to clean gloves, clothing, etc., in the house. Gasoline vapor is more deadly than dynamite.

15. Do not permit matches in the pockets of clothing in closets and wardrobes.
16. Do not look for missing articles in attic or closets with matches or open lights. Use an electric torch.

23. Do not use paper shades on lamps or electric globes.
24. Beware of the electric iron! Install a red pilot light to the iron connection.
25. Do not use pennies, nails or wire for fuses in electric circuits. Fuses are your electric safety valves, and only the safe kind should be permitted.
26. Have your wiring carefully gone over once each year by a competent electrician.
27. Do not leave oily mops or rags on floor in closets. They are subject to spontaneous combustion.
28. If you smell gas open the windows and call a gas fitter. If you smell smoke investigate until you find the cause.

ANOTHER MILLION INVESTED IN TREASURY CERTIFICATES

Austin, Texas, April 5.—State Treasurer John W. Baker today invested \$1,000,000 of State funds in United States Treasury certificates drawing interest at the rate of 4 1/2 per cent per annum. These certificates mature on Aug. 12. As soon as all of the State funds now in course of collection are turned into the State Treasury, as required by the new depository law, another \$1,000,000 will be invested in United States certificates.

With today's investment the State now has \$9,200,000 in Treasury certificates and the total will soon go beyond \$10,000,000. These certificates can be cashed in at any time at par plus accumulated interest. The State's funds will remain at interest until depositories can be selected under the new law.

BISHOP SLEEPS IN THE KAISER'S OLD ROOM

Bishop James Atkins, chairman of the Centenary Commission of his church, was recently in France in company with other representatives of the church. The Commission stopped at Lille and found the hotel overcrowded. All managed to secure rooms, however, except the Bishop, who had his choice between a miserable little cubby-hole at the rear of the hotel and a commodious room at the front of the hotel, which had been occupied by the Kaiser when he was in Lille. The Bishop hesitated, but finally declared in favor of the Kaiser's apartment. He says the apartment was beautifully furnished and its appointments were complete. However, he added that he did not sleep nearly as well as one would expect of a tired Bishop in a comfortable room!

Walter Royalty, of Lubbock, spent a few hours in Tahoka Saturday, coming down with Joe Hilton. They went from here to Post, from which city they returned home.

TWO DEEP TESTS WILL BE DRILLED NORTH OF AMARILLO

Amarillo, Texas, April 13.—The only well that has ever been drilled in the section of Amarillo, Texas, was drilled by C. M. Hapgood last year, twenty-nine miles north of Amarillo. This well was drilled to a depth of 2,100 feet; no water was encountered below 940 feet. At 1,700 feet a gas snad was picked up that made about 6,000,000 feet. Again at 1,800 feet eighteen feet of gas sand that made more than 10,000,000 was encountered. This well was drilled on the holdings of the Amarillo Oil Company.

The general uplift of this country seems to follow the Canadian river. Many geologists have been in this section and all have reported the structural conditions very favorable for producing oil and gas. The Hapgood well was drilled on the C. N. Gould structure.

SNOW STORM CAUSES SOME CATTLE LOSSES

The 1918-1919 record for freakish weather still holds good. Here it is, April 10, and outdoors the landscape closely resembles what most people would picture as a typical Arctic scene in the dead of winter.

Tuesday was a cold, windy, rainy day, and about six p. m. a blow from the north came up, bringing with it mixed sleet and snow which one local citizen described as a "regular wampus." The ground was soon covered with sleet, and during the night a heavy snow fell, followed by lighter snow Wednesday morning. It cleared up Wednesday afternoon, however, and Thursday the sun is shining brightly and warmly and the snow promises to be gone in a day or so if the sunshine continues.

Estimates on the snowfall vary all the way from seven to twelve inches. Owing to the wind the drifts are piled high in places. Some cattle losses will undoubtedly follow, owing to the weakened condition of the livestock following the hard winter, the cold rain and sleet of Tuesday night. Up to the time of going to press The Brand had been unable to secure accurate information as to the extent of the storm or the losses sustained.—Hereford Brand.

COL. MERCHANT BUYS 800 HEAD OF CATTLE

Col. C. W. Merchant returned from Midland Monday morning aboard the Sunshine Special after a trip of three days duration in the west. He reports grass fine and everything in good shape in that part of the state. Cattle are fat.

Col. Merchant left Abilene Friday, went to Van Horn, where he spent Saturday, reaching Midland Sunday. He bought eight hundred head of cattle on the trip for the Merchant Cattle Co., of New Mexico, and the stock will be placed on the San Simon ranch at once.—Abilene Reporter.

Temp Skinner was down from Wilson Saturday on business matters. Temp was formerly a Tahoka boy, and has many friends in this city who are glad to see him in town now and then.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. Nothing seemed to help me until, one day, . . . I decided to

IS HIT BY SHELL WHICH KILLS FOUR OF UNCLE SAM'S MEN

Y. M. C. A. Man Returns With Story
of Finding Huns in French
Uniforms.

Under shell fire and gas for three weeks, the buildings in which he ran his canteen hit six times, and finally knocked out by a shell which killed four men, wounded thirty and put him in a hospital for two months, Guy A. Willis, a Grand Rapids lumberman, has returned on crutches from France with some evidence of the zeal with which the Y. M. C. A. canteen men worked with the troops in the St. Mihiel and Argonne drives.

Willis was attached to the Three Hundred and Fifty-fifth regiment, Eighty-ninth division. In the Toul sector, which the division held until the St. Mihiel drive began, Willis' Y. M. C. A. outfit had a canteen near Mont Sec, at Beaumont, and one of his pleasant jobs was to drive almost daily around the famous Dead Man's curve on trips to get supplies for his canteen. Willis entered Benny, in the St. Mihiel drive, three hours after the Germans had been thrown out of it.

In a shell-wrecked building he found a German kitchen with three big cauldrons. For several nights he made co- coo—hundreds of gallons a night—which was rushed in cans, shell cases,

palls and whatever else came handy out to the boys. Three times shells crashed through what was left of the roof of the building in which the Y. M. C. A. had set up shop, but they kept on at their work and ran the canteen there for three weeks, until they were shifted to the Argonne.

While at Benny Willis was busy in the canteen one night when two officers entered. They wore uniforms of the Fiftieth French artillery. The canteen was full of doughboys getting cigarettes and chocolate, and the Frenchmen, who seemed in a great hurry, picked up several pieces of chocolate and started to go out. Then they hesitated and turned back toward the counter. As they did so a doughboy heard one of them say to the other, "We viel?" (How much?).

A group of eight or ten doughboys entered at that moment, and in the crowding and jostling and dim light the soldier who had heard the remark lost sight of the officers for a moment. When he looked for them again they had vanished. Headquarters was telephoned that spies had been in the canteen, but the pair made good their escape in the darkness.

In the Argonne drive Willis was at work in a first-aid station when Captain Baker was wounded in the barrage. Willis went back through the barrage, serving as a litter bearer, and helped carry wounded down through the mud for four kilometers to the ambulances.

Two days before the last drive in the Argonne Willis went back into the village of Romagne to get supplies for a first-aid station. As he entered the town the Germans opened up on it with a battery of 88s, and the second shell sent over landed in the street within twenty-five feet of him. The shell killed two soldiers on a truck, setting fire to the gasoline tank and cremating one of the men. Two others were killed and thirty wounded, one of whom was Willis, a piece of steel being driven through his foot.

The field hospital to which he was taken had been shelled ten minutes before he arrived, and four hospital attendants and several engineers had been wounded. A few minutes later some German airmen came over and bombed the place, one of the bombs ripping a piece of cloth from under the head of a doughboy; two stretchers away from the Y. M. C. A. man. The doughboy was not even scratched.

While at Benny Willis was busy in the canteen one night when two officers entered. They wore uniforms of the Fifth French artillery. The canteen was full of doughboys getting cigarettes and chocolate, and the Frenchmen, who seemed in a great hurry, picked up several pieces of chocolate and started to go out. Then they hesitated and turned back toward the counter. As they did so a doughboy heard one of them say to the other, "Wie viel? (How much?)."

COMING!

Medals made from captured German cannon will be given to every worker in the Victory Liberty Loan campaign. It just goes to show that the Government appreciates what its soldiers at home have done toward winning the war. It will mean to the Liberty Loan worker what the Distinguished Service Cross means to the American soldier.

WANT A GERMAN HELMET?

Bona Fide Victory Loan workers will have a chance to win one of these trophies to be distributed among patriotic Americans who kept the home fires burning. About 3,000 of these souvenirs of the greatest war in history have been allotted to this District, to be distributed among Liberty Loan workers by their County Chairmen.

HERE COME THE TANKS

Tanks played an important part in the big battles of the war. Twenty of these armored vessels will visit this District, manned by boys who actually handled the tanks in France. They called these boys the "Treat 'em Rough" boys, because that's what they did to the boche. The tanks are fully equipped with guns and ammunition just as they went onto the battlefields, and you will get a real taste of war when these guns are fired. Eloquent speakers will accompany the tanks to tell you all about them, and what it cost your Government to "Treat 'em Rough." Your Victory Liberty Loan County Chairman will have charge of the routing of these tanks in your county. Don't fail to see them.

SEE GREAT WAR FILM

Among the pictures which will aid in floating the Victory Liberty Loan is the remarkable film, "The Price of Peace," in the taking of which one of the photographers was killed. The film tells the animated story of the great attack at Chateau Thierry; shows a German airplane being destroyed in the air; shows a field gun and its crew being destroyed by a high explosive shell, and concludes with scenes of the American Army in Germany. The film is 5000 feet long. This picture will be shown without admission charge in as many theatres as can be reached during the Loan campaign.

WATCH THE SKIES

Probably every one of you has seen an aeroplane in flight. But how many of you have seen it make a landing? How many of you have seen its pilot at close range and have talked with him about it? You will be given the opportunity to see these boys and to talk with them. Arrangements are being made to secure planes to visit the majority of the towns in the Eleventh District during the Victory Liberty Loan drive. Remember the aeroplane, the "eyes of the Army" played a big part in winning the war. Watch the skies.

AFTER THE FIRE

When your neighbor yells "fire!" in the middle of the night you dash out of bed and without regard to your powers of endurance work to put out the blaze. You offer everything you have in the way of assistance while the flames eat their way through your neighbor's property. You act on a natural impulse to give all that is in you while the excitement is at its height.

But when the fire is out and there remain only smoking embers; when the crowd has gone, how many of those helpful

neighbors will offer shelter, protection and the opportunity to get another home to the unfortunate family?

It doesn't take much of a patriot to offer help when the fire is raging, but it takes a pretty good sport to stand by and finish the job when the excitement is all over.

There will be little background of bloodshed, shot and shell, wounded soldiers and heroism in the appeal of the Victory Liberty Loan. That, like the fire, is over. It is now a question of finishing the job, paying the bills and putting things on even a better basis than when the alarm was sounded.

OTHERWISE UNHURT.

Nineteen bullet holes in his hide didn't prevent one "Y" secretary overseas from going back to his task just as soon as the authorities would let him out of the hospital. That is the word received at Camp Travis by M. D. Kinkaid of "Y" 73, from Sergeant A. G. Hockersmith of the U. S. Marine corps, who at the time of writing was at Melbach, Germany, near Coblenz. Sergeant Hockersmith says about this secretary:

"We have a dandy 'Y' secretary with us, who has just returned from the hospital. When they were in action he was a stretcher bearer. Consequently he went to the hospital with some nineteen bullet holes in him, but since returning he is as active as ever."

TAKE TIME TO LIVE RIGHT.

The season for good resolutions is approaching. Thousands are resolving to begin the New Year by commencing some effort at self-improvement.

Most people suffer from poor health because they say "they haven't time to take care of themselves."

The business man knows he needs exercise, but denies himself because he hasn't time.

Most people run their lives in such a slipshod fashion that they haven't time to eat properly, to think properly, and to rest properly.

And the result is that they die ahead of time because they haven't had time to live properly.

SOLDIER BOY KICKS AGAINST Y.M.C.A.

Serves It on Toast With a Garnish of Scotch Blessings, but the Captain "Stumps" Him.

"If every kick and knock against the Y. M. C. A. service overseas could have been handled as an American captain I know treated one case in his company there would be more in the air of what the 'Y' did and less of what they failed to do," said John M. Currie of Melrose, Mass., who is just home from operating Red Triangle huts in the Calais and Ypres sectors.

The censor one evening came across a letter from a boy to his folks back home, in which the "Y" was panned and served on toast with a garnish of all the Scotch blessings and reverse English the boy had on hand. Now the censor is a pretty tired man, and I should not have blamed him if he had let that letter go. But there was an extra strong touch of exaggeration in it that roused the censor's sense of justice.

So he sent the letter to the captain of the boy's company and the captain called the boy in. This is the conversation that followed:

"Did you write this letter?"

"Yes, sir."

"Read it over—is there anything there you'd like to change before it is sent?"

"No, sir."

Then there was a short pause, in which the captain studied the boy and the boy set his jaw stubbornly. Finally:

"Where did you get this letter?"

"The 'Y,' sir."

"Who gave you the paper?"

"The 'Y,' sir."

"It's warm and cozy, and something like home there, isn't it?"

"Yes, sir."

"Where do you get your cigarettes, candy, etc.?"

"The 'Y,' sir."

"You're always sure of finding what you want there?"

"Yes, sir."

"You go to the movies and a real show occasionally?"

"Yes, sir."

"Who runs them?"

"The 'Y,' sir."

"Doesn't cost you a cent, does it?"

"No, sir."

There was another pause, and the boy's face was redder and his expression softer. Then:

"If you don't mind, sir, I'd like to see that letter again."

Without a word he took it from the officer's hand, tore it once across, and dropping it into the basket made his salute, turned on his heel and walked out.

MAYBE THE SOLDIER DOESN'T GO TO CHURCH

But These Figures Will Prove Illuminating to the Sceptic—Only 4,523,343 Attend.

If every man, woman and child in the state of Texas, plus the entire population of New Orleans, La., were to unite in going to church on one Sunday the mobilization would still be less than the attendance at religious meetings in the Army Y. M. C. A. buildings in the Southern department from May, 1917, to December 31, 1918. The total attendance at 24,700 such meetings in the "Y" huts was 4,523,343, according to figures compiled by the religious work department of the Army Y. M. C. A. at San Antonio, Tex.

At these meetings 74,457 soldiers requested prayers—a number greater than the population of Oklahoma City. The number of Christian decisions made by these soldiers was 69,929—more than the number of people in El Paso, Tex. Christian purpose reached by soldiers at such meetings reached the big total of 69,551.

The number of personal Christian interviews which the "Y" secretaries were able to have with the men as they visited the buildings was 318,246, or equal to the combined populations of Dallas, Fort Worth and Houston, Tex. These secretaries also secured from the men a number of other forward-step decisions, including the following: To read the Bible, 111,163; to pray, 54,997; temperance, 4,656; anti-profanity, 9,342; personal purity, 19,509; anti-gambling, 6,925.

Records from November 1, 1917, to December 31, 1918, show that 1,850 Bible classes were organized with a total enrollment of 43,012 men. These classes held 15,365 sessions and had an attendance of 345,398. It was not until May 1, 1918, that records were made of the number of teachers used in these classes, but from that time to December 31 there were 1,446 soldier teachers and 1,335 civilian teachers engaged in conducting the classes.

Copies of the Scriptures distributed to soldiers reached 539,683, or one each for every person in the states of New Mexico and Arizona. Religious literature given out from June 1, 1918, to December 31 numbered 569,249 pieces.

Visiting sick soldiers was a part of the duty of religious work secretaries, and for the period for which records were kept the number of such visits made was 966,192, almost equal to the population of Colorado with most of the people in Kansas City, Mo., thrown in to balance the measure.

FIGHTING PARSON GETS WAR CROSS

John Clifford, Wearing Y. M. C. A. Uniform, Proves Himself Real Hero.

There have been many war heroes, but there is certainly no more conspicuously heroic figure than John H. Clifford, Baptist minister in time of peace, but real fighter in time of war, who has been awarded the croix de guerre for extraordinary heroism in action.

John Clifford, as a Y. M. C. A. worker, braved the red wrath of war. He has been in the firing zone as much as the hardest infantryman and was decorated for a most unusual exploit. He was one of three men who braved incessant enemy shell fire

DOC. CLIFFORD.

while rescuing Col. Albertus W. Catlin, commanding officer of the Sixth regiment of marines. The trio carried the colonel to safety on a stretcher.

Mr. Clifford went over the top many times and came near being killed on several occasions. He is fifty-one years old and was born at Oxford, England, and has preached the gospel in many parts of the world. When given a chance to serve with the Y. M. C. A. in France he knew that it was a good thing, and he jumped at it. His home is at Tucson, Ariz.

HAS A SMALL ARMY OF MEN UNDER HIM

Supreme authority over a small army of men has been vested in H. H. Simmons, Executive Secretary of the Southern department of the Army Y. M. C. A., known officially as the National War Work Council of the Y. M. C. A. of the United States. Mr. Simmons is a prominent business man of Hillsboro, Tex., and is well known over Texas as a member of the state board of the Y. M. C. A. Up until the time of the signing of the armistice

H. H. SIMMONS, Executive Secretary, Southern Department, Army Y. M. C. A.

the personnel of the Army Y. M. C. A. in the Southern military department numbered approximately 1,050, but it is being cut down rapidly now along with the general demobilization of the camps, almost three hundred and fifty "Y" men having been honorably discharged up to February 1. The Southern department headquarters of the Army Y. M. C. A. is located in San Antonio, Tex., and it is from that point that the organization's activities in the camps of the six states in the department are controlled.

LARGEST "Y" HUT.

The largest Y. M. C. A. "hut" in the world is the Hudson Hut, Hoboken, New Jersey, which takes care of 5,000 men daily. In addition to the usual hut conveniences, the "Y" has provided a barber shop, tailor shop, bookblack, shower baths, locker room, a theater, game room with twelve billiard tables, a soda fountain, hostess room, library, and seven fireplaces. The 10-cent shaves and 25-cent haircuts, and with the officers, the 15-cent puttee and shoe shines are immensely popular.

CANADIAN AVIATORS PROVED WISE BIRDS

When the members of the Royal Flying Corps, who trained in the Eleventh Federal War Savings District, returned to Canada, many of them had become enthusiastic buyers of War Savings Stamps. Having been given a taste of buying Government securities for small amounts, they became so insistent that the Canadian Government inaugurate a system of War Savings Stamps, similar to that in the United States.

"The leading men of the world today," recently declared a Canadian financier, "those charged with directing its affairs, realize that the exercise of thrift is absolutely necessary for the restoration of normal conditions in all countries.

"It is to be observed also that these men consider it as necessary for the people of the United States and Canada—countries undamaged by the war—to save as it is for those of France and Belgium to do so. It is the condition on which financial and industrial recovery is based."

THRIFT IS POWER

SAVE AND SUCCEED

WHICH ROAD ARE YOU TRAVELLING?

There are two roads in life. One leads to a quagmire of nothingness. The other leads to success. Both are lined with sign posts to show the wary traveller in which direction he is moving. But many people go along, their eyes on the skies, on the ground, or unseeing in dreamland, never noticing that they are advancing on the wrong highway. Do you know which road you are travelling? Here are the sign posts. The end of one will find you empty-handed. The end of the other will find you with funds for a sunny opportunity—with War Savings Stamps and Liberty Bonds working for you at over 4% interest.

AS AN INVESTMENT ARE YOU SHOWING PROPER REASON?

Have you capitalized your money? If so, are you a profitable investor?

It's all a very simple matter. A few easy calculations will tell you whether you are showing proper reason in your investing proposition.

Suppose your earnings are \$1,000 per year. That's 5 per cent interest on \$20,000. Are you doing with the money a portion of it going back into "operating" stock or is so much being wasted in "operating" that nothing is left?

When you spend a nickel getting rid of all a dollar, you are making for you in a whole. Throw a dime away and you work over time to even it. Squander a quarter and you are kept busy the entire year. Adds another quarter to your savings. Had you ever thought from that angle?

Still supposing that you are getting \$1,000 per year. That's 5 per cent interest on \$20,000. When you spend \$1 for every one is worth just \$2. When you spend \$1 for every one is worth just \$2. Oh no!—you are spending your day's hard labor.

Think of it in that light. Determine what to do. It is worth working five days a trip over to Podunkville to visit your wife's sister's granddaddy that is worth what you fork over \$13.70, but what you are really doing is every cent of your earnings every day or that the interest a whole year is gone. Perhaps there's something being capitalized after about it? Buy W. S. S. dollars work for you.
