VICTORIA FOUR-THIRTY," by Cecil Roberts; (Macmillan: \$2.50). Delights of all delights! Here is a book without a smidgeon of the class struggle. Cecil Roberts has written if, and it is misnamed a novel, quite understandably. It had

to be called something, and it fits

no category precisely. It is a kind of railroad "Grand Hotel." That is to say, it deals with a number of pessengers from London on the Ariberg-Orient express, some of whom are interesting because of themselves, and some because of what they do. Most of the stories could be lifted out of the book and published separately, yet in the end they all are seen have their places in a loose but well

For this reader the three prizes were the escaping machinist, Percy Bowling; Mr. Bekir, the tobacco merchant, who married a charming French girl and got the latter's formidable but rather likeable mother as well, and Nikolas Metaxa, the Greek restaurant man on his way to marry the Athenian girl of his choice.

> And Mr. Bekir with his quiet efficiency, his inconspicuously managed millions, his handsome family, his genuine affection and his long absences in Salonica-what a surprise his Salonica activities would have given his wife!

And that Nikolas Metaxa, who for five long years kept the girl he loved waiting for him, went at last to marry her and became a restaurant owner in Athens-what a sur prise he had when he arrived, and how beautifully and tenderly he managed it. Certainly Mr. Roberts has done summer readers a favor with "Victoria Four-Thirty."

means giving the mileage It's strictly up to me to make this business go,

because I own it myself. I never did a smarter thing for my place than featuring Conoco Germ Processed oil, with all its long mileage for you. We both know that talk doesn't make mileage or customers, but I can tell you what does . . . Oil-Plating your engine with Germ Processed oil. The patent Germ Process makes oil actually take ahold of every working part and keep it coated with a durable Oil-Plating. This Oil-Plating is entirely extra to the regular so-called moving type of oil film. Oil-Plating backs up the oil film while the car is running, and never drains down during hours of parking. Then you'll never make one start-or a hundred-without good lubrication. And at the end of your longest run on a scorching hot day, your engine will still have its full safe plating of Conoco Germ Processed oil. THE NEW PROTECTION Much light was cast upon rue character of the wages and ours bill by the action of Senator Henry Cabot Lodge, of Massachusetts. Mr. Lodge introduced an amendment which would have forhidden the importation of goods from any foreign country in excess of the average for the past five years unless it can be proven to the labor standards board that the goods were produced under conditions at least as good as those prevailing in this country. The amend-ment was defeated, though the bill as passed contains an invitation to raise the American tariff.

The interesting thing about Mr Lodge's amendment is that it de fines so clearly the directing sentiment behind the bill. It is the desire to create a legally protected area for the maintenance of relatively higher wages of the northern industrial states. Lodge, though he was defeated on his amendment, voted for the bill. Mr. Lodge is a republican from Massachusetts, and yet no scruples about delegating power, about centralizating power, about any of the principles that republicans profess,

deterred him from voting for

Why? Because Senator Lodge in perits and firmly believes in the tariff philosophy of his party. And saw, much more clearly than the liberals who supported the bill, that in effect it means the establishment of an internal protective foreign countries but turns rather gladly to the idea of erecting bar within the United States. The bill provides for the creation of what might be called regional tariffs deof the newer ones.

Given his economic philosophy which is that of the Hawley-Smoot tariff carried to its logical extreme, Mr. Lodge was quite right in vot-

A never-say-die band of old

timers, who many years ago rode hard and shot straight to bring law and order to this state, carried on their yearly celebration today. But their presence empha-sized the fact many of their fellows were gone.

There were only 11 showed up this year for the eighteenth annual reunion. It was typical of their traditional determination, though, that they already were planning for next year's meeting and another chance to trade reminiscences of fights against Indians and the lawless back in the 70's. One who could not be there to-

day to talk about the old days was C. M. Brady of Brownwood, usually the guiding spirit of the reunions. He fell recently and critically injured his hip. Another missing figure was Capt. John R., Hughes of El Paso, who always traveled in a model-T. He suffered a sunstroke and likewise was critically ill. Past 80, he had not missed a previous reunion
