A. & M. EXPELL 466 STUDENTS

Saturday, February 1st, 466 students of the A. & M. College, at College Station, Texas, presented a preemptory demand to the faculty the 27 cadets, who had been expelled for hazing, be reinstated, and further, declared their intention not to attend classes until their demands were granted. The faculty dismissed the entire crowd. 150 of the dismissed students left for their homes Sunday.

In his report to Gov. Colquit, Pres. Peet, of the board of directors, asserted that nine-tenths of the boys were acting under the coercion of a few leaders and that all those who were coerced into signing the petition or did not favor making the demand may apply for reinstatement, and that their application will be considered after a thorough investigation has been made. Several boys have already applied and it is thought that the majority will as soon as they hear from their parents.

Gov. Colquitt commended the faculty on their stand, and there are already measures under consideration by member of the Legislature against hazing as a check against further A. & M. College trouble.

We mentioned to one of our most prominent men one day this week that we were slated for an early spring if Brer Ground Hog had anything to do with it. He said, "yes he sure didn't see his shadow Sunday, but when I was a boy back in Tennessee the reckoned February 14th as Ground Hog's day and I'm going to wait and see what happens then before putting any thing up on the weather."

That Brer Ground Hog saw his shadow sometime Sunday is a fact that we believe few will doubt. As Monday was cold and damp with a good breeze out of northeast, however it cleared up Monday evening until it was a repetition of Monday. Wednesday was very nearly the same as the preceding days of the week however it was somewhat more raw and cold. Thursday dawned, or rather didn't dawn, with a drifting mist from the east with everything covered with a thin coating of ice and frost. Being neither the one and we and coming. Mrs. Parkhurst threatens to fine any one who fails to report to her. The out of town member may find out any particulars about the change of meeting time by enquiring at headquarters.

WILL CONSIDER STOCK AND BOND AMMENDMENTS

Austin, Texas, Feb. 1—Hon. J. E. Kaufman, chairman of the Committee on International Improvements in the Senate, and Hon. J. T. Goodner, chairman of the Committee on Common Carriers in the House, have before them the consideration of the ammendments to the Stock and Bond Law, railroad consolidation bills, and other important measures.

These committies have in their power, subject to the approval of the Legislature, the influencing of millions of dollars of capital to Texas; they can double track the State, standardize the service, and inaugurate an era of railroad building and improvement in Texas by squaring our statutes with the Twentieth Century condition.

Kill your dogs now. McGill has the Government receipt. It Is The Best. 21-1t

Mrs. H. C. Smith, of this city, left on the Wednesday morning train for Callahan county to attend the bedside of her mother who is very sick and is not expected to live.

FORCED TO KNEEL AT OVEN

Robbers Ransack House While St. Louis Woman Is Kept Under Cover of Revolver.

St. Louis, Mo.—As Mrs. W. C. Rollman was kneeling at the oven of her range, putting the finishing touches on a turkey, two negroes entered the kitchen and, at the muzzle of a revolver, forced her to remain half an hour on her knees before the hot oven while one of the intruders ransacked the house, obtaining \$15.

Mrs. Rollman's four-year-old son, who was watching closely the operations on the turkey, was forced to kneel beside his mother.

The robbers did not molest the turkey. Two suspects were arrested.
Burro Robs Hens' Nests.
Gilest, Colo.—Napoleon, a young burro, owned by Edward Mapes, has been proved a robber of hens' nests. Its second visit to the same henhouse resulted in its downfall. The owner lay in wait and discovered the burro was the offender and was eating eggs, first smashing them with a hoof.

PLANS CONCILIATION COURT

Cleveland Ready to Try Scheme to Reduce Costs of Small Suits—Mail to Aid.

Cleveland, O.—Judges of the municipal court, who have been considering ways and means of lowering the costs of court procedure, adopted a resolution urging the creation of a "conciliation court." This court will, it is understood, start its work January 1, 1913. All claims of less than \$50, garnishments, attachments, replevins and similar suits, will be heard in the "conciliation court," which will be presided over by a special judge, to be appointed by Chief Justice McCannon. The new court will attempt a settlement of the claims which are presented to it without the institution of formal proceedings. Costs of suits which will be considered in the court will be greatly decreased.

Service of subpoenas by registered mail was also discussed by the judges as a method of further lowering the cost of legal proceedings.

MORE OF ITS KIND NEEDED

The place in North Tahoka being improved by A. N. Thomas of Ennis, father of Clifford Thomas of this place, is beginning to make a showing. The Tony Chisum house of the south part of town has been moved on to the lots and placed but has not as yet had the trucks taken from under it; J. B. Lowe is busy drilling a well, which by the way seems to be a slow job as he has struck some rather hard boulders, he drilled four inches on day. We understand that the place is to be enclosed by a cut picket fence and otherwise improved in the accepted manner, repaired, repainted and papered, etc.

More rent houses of this kind is a crying need in Tahoka at present, and, before another school year opens, we hope to see just such houses scattered all over town on what are now vacant lots; houses improved to a degree that the well-to-do farmer is not ashamed to live in them while he is sending his children to school.

Come to Tahoka and invest your surplus capital in good rent houses. The day when people lived in shacks has passed away in Lynn county, good rent houses are the only kind that are a paying investment, but good houses will bring and are bringing good returns.

OUR SCHOOL PROGRESSIVE

The Tahoka Public School is fulfilling the expectations of those who gave of their time and labor to secure present edifice and efficient corps of teachers.

It has become the place where all Lynn county boys and girls come to finish their common school education. We now have quite a number of boys and girls enrolled who live in the country and are boarding in town while they go thru high school, there are still others whose parents have moved to town to put one or two of the older ones in high school and placed the younger one in the lower grades.

Another thing that the Tahoka High School is doing that entitles it to a place among the most progressive schools of the State is a review class for the benefit of those who wish to take the teachers examination for a second grade certificate, and all others who want to do review work. This work is optional, any one above the seventh grade may take the work, any part or all of it so long as they keep their regular studies up. Each of the three teachers who have charge of the high school and intermediate grades have taken proportional part of the subjects to be reviewed, thus lightening the work all around. The review classes are held in the room under the supervision of Supt. A. E. White, as most of the tenth and a good proportion of the ninth grades who are in that room are taking the work. The other pupils, and teachers who handle different studies, come to that room for recitation.

Our school this year has been and is a credit to the board and faculty as well as the pupils and patrons, and we think that all have a just right to be proud that they are a unit in an organization that is doing as much good work as the Tahoka Public School.

Come to Tahoka or Lynn county, we need you in our business and want your children in our school for the school term of 1913-14.

Parkhurst's Broken Dollar Store has been selected as headquarters for the circle going hope not the other we do not feel at liberty to forecast the weather for the remainder of the week, but would not be surprised if it was a ditto of the fore part.

Patrio Henry, Jr.

ATTITUDE TO AID DEPENDENT CHILDREN

Texas, Feb. 4.—Patrio Henry, Jr., who represents the 18th District in the lower house of the legislature, will introduce a bill to be known as the Juvenile Law modeled along lines of now in effect in Colorado. The bill will provide: first a more liberal definition of a delinquent and dependent child and, second, will assign an adequate remuneration for the services of probation officers; providing for one officer in two counties of 30,000 population, two such officers in counties of 75,000 population or more; two to four such officers in counties of 100,000 population or more; making such officers optional in counties of less than 30,000 population; third, will assign the powers of Sheriff or Deputy Sheriff to probation officers; fourth the appointment of guardians for dependent children; fifth, continued protection for children placed in institutions or homes; sixth, the exclusion of children from county jails and the making of penalty for the violation of this provision; seventh, provision for detention homes; eighth, the supervision of institutions and associations by State inspectors; ninth, the regulation of the operation of institutions for the care of children; tenth, providing for the appointment of guardians for dependent children; and eleventh, providing for the appointment of guardians for dependent children.

R. L. Sullivan

UNIVERSITY STUDENT MEMBER OF THE LEGISLATURE

Austin, Tex., Feb. 1.—Perhaps the youngest member ever elected to the Texas Legislature is Hon. R. L. Sullivan, who represents the 55th District in the House of Representatives. Mr. Sullivan who is barely twenty-one years old, has been a law student at the State University during the past year and will complete his studies at the adjournment of the Legislature. He is a farmer along with the mail order house catalogues, and you will get the business, simply because you can not only sell as cheap, but because your goods are better, a fact that every experienced man knows.—Sentinel-Leader.

TAX INVESTIGATION DEVELOPS STARTLING INEQUALITIES.

Welfare Commission Recommends Remedial Legislation.
Tedar, Texas.—The report of S. A. Lindsey, of the Texas Welfare Commission, is now off the press and ready for distribution. The investigation developed startling inequalities in assessment of property. Real estate was found to be under assessed from 19 to 89 per cent and not more than 2 1-2 per cent of the intangible personal property goes on the payroll. The intangible property of railroads amounting to \$174,645,044 is of course assessed by the state tax board at full value. In discussing the effect of our tax system upon railroad securities, Mr. R. S. Lovett, executive head of the Harriman lines, said: "It is almost universally true that no property is assessed for taxation at its full value and of course railroad owners know that fact. Railroad investors know of excessive and unreasonable assessments against railroads wherever they occur. It is their business to keep posted about such things. The financial world knows that the railroads of Texas are assessed for the purpose of taxation at about twice what they are valued by the Railroad Commissioner of Texas. It does not stop to see whether they are under-valued for the purpose of taxation. But the idea that the state of Texas will assess for the purposes of taxation railroad property for twice what it values it at for rate-making and steel and bond purposes is so utterly unreasonable that nothing more is needed to foreclose almost any discussion of Texas railroad securities in an eastern financial center." Mr. Frank Trumbull, head of the Katy system, said: "My general attitude on the matter of taxation has always been that we are not only willing, but we want to pay our just share of supporting the government. We are, however, very reluctant to pay other peoples taxes, and if the basis of assessing us is higher than it is to a man who owns real estate, we are paying a part of his taxes and so far as we are concerned we are too proud to ask anybody to pay a part of our taxes." The commission recommends remedial legislation and urges the Thirty-third Legislature to appoint a capable and non-partisan Special Tax Commission.

HON. H. B. TERRELL

TERRELL TO INTRODUCE HIGHWAY BILL

West, Tex., Feb. 3.—Hon. H. B. Terrell of this city, representing Senatorial District No. 8 in the 33rd Legislature, has prepared a bill which will be introduced into the senate, proposing to create a non-salried highway commission of five members with authority to employ a skilled highway engineer at a salary not to exceed \$4000 per annum, whose duty it shall be to make a general highway plan of the State, to gather information and compile statistics relative to the mileage, character and condition of the highways of the highways of the different counties of the State, and give the County Commissioners the benefit of his counsel in matters pertaining to road construction. The department is to receive its support from a tax of \$2 per annum on automobiles. The necessity of a public highway department is generally recognized, and the bill prepared by senator Terrell opens up the subject for legislative discussion. The enormous loss which the public highway fund undergoes annually through lack of efficient supervision would many times support a public highway department. Taxes is approximately \$30,000,000 or 17 per cent spent on the highways of the State.

TEXAS DRAWS HEAVY GREEK IMMIGRATION.

Sons of Greece Prosper in Lone Star State—Race May Again Claim Pinnacle of Power.
The report of our Federal Immigration department shows that 37,000 Greeks came to the United States last year to find homes and Texas is the state most favored by Greek immigration. The per cent of Greeks departing from the United States is less than that of any other nationality. Their occupations show that they do the chores of industry rather than manage its affairs or rule in the professions, yet notable exceptions encourage the hope that this fallen race may again climb to the pinnacle of power. They are the descendants of men who spoke with the tongues of angels; whose nation lifted civilization to its most towering heights, and whose citizenship gave the world the most polished and powerful products of the human race. Cut loose from the source of their inspiration, they have lost their way in civilization and while we study with profound reverence the masterful works of their forefathers, the present generation blacks our shoes, sells us popcorn and runs our errands. There is no better location on the globe for these people to regain their lost prestige than in Texas; we are fast being recognized as the nursery of art, science, literature and industry, and society is laden with healing balms that will revive stunted races and invigorate subdued mankind. The history of the Greek race affords a most fertile field for the study of government, society and man. As a nation their statesmen struck the solid rock of wisdom and a stream of inspiration gushed forth filling the world with power, ambition and beauty. Watered by the fountains of government, society yielded its golden fruit and fired by an ambition to serve mankind its people made civilization quiver with poems, tremble with eloquence, charmed with art and mastered with philosophy. This gem of nations when touched by the blight of dissension in government and folly in leadership withered and fed away. There is no greater force in human life than government and to wield its powers intelligently is the highest function of man.

Couldn't Walk!

"I used to be troubled with a weakness peculiar to women," writes Mrs. Anna Jones, of Kenny, Ill. "For nearly a year, I could not walk, without holding my sides. I tried several different doctors, but I grew worse. Finally, our druggist advised Cardui for my complaint. I was so thin, my weight was 115. Now, I weigh 163, and I am never sick. I ride horseback as good as ever. I am in fine health at 52 years."

TAKE The CARDUI Woman's Tonic

We have thousands of such letters, and more are arriving daily. Such earnest testimony from those who have tried it, surely proves the great value of this vegetable, tonic medicine, for women. Cardui relieves women's sufferings, and builds weak women up to health and strength. If you are a woman, give it a trial. It should help you, for it has helped a million others. It is made from pure, harmless, herb ingredients, which act promptly and surely on the womanly organs. It is a good tonic. Try it! Your druggist sells it.

U. S. Officers Recover \$12,000
Stolen From Louisiana.

Detroit Jewel Theft Causes Puzzle—
Police Believe Substitution of Paste
Glues Occurred Before
Robbery.

Jersey City, N. J.—A chest containing \$4,800 in cash is in the possession of deputy United States marshals here, and the seizure is alleged to be part of \$12,000 which several petty officers of the battleship Louisiana stole while the vessel was in New York harbor.

The money was found in a search of the house occupied by connections of George P. Davis, who was a commissary steward on the Louisiana. Davis is alleged to be one of the conspirators and has been under court martial, according to local federal officials, at Norfolk, Va.

Detroit.—A thief entered the home of C. F. York in this city recently and stole a quantity of jewelry. The owner of the articles placed their value at \$3,000. Later it was discovered the jewels were paste. Mr. York insists the thief made the substitution since the burglary, but the police believe the jewels were stolen once before and that the first thief, to insure his escape, put paste in place of the real gems.

A man giving the name of L. W. Hazzay and describing himself as a waiter from New York, has confessed, the police say, that he took the jewelry from the York home, but says he did not manipulate the stones. In fact, he is much incensed at the way he was cheated.

All the stolen articles have been recovered, part being found in pawnshops and the remainder in Hazzay's room.

"I am certain the jewels never were stolen before," said Mr. York. "It is absurd to think they could have been taken, the stones changed and then returned without our knowing it."

However, the police are of the opinion the substitutions had taken place before Hazzay appeared on the scene.

JUDGE WILLING TO PLEASE

Protesting Prisoner Escaped With
Light Sentence After He Had Put
Up an Argument.

Judges were very considerate in the old days. Lord Brampton, in his "Reminiscences," relates a story illustrating this:

Baron Martin, a famous English jurist of the old school, whose native leniency and sense of fun often placed him at the mercy of the very men he was trying, was once about to sentence an old offender charged with a petty theft.

"Look," said the baron, with an assumption of severity; "I hardly know what to do, but you can take six months."

"I can't take that, my lord; it's too much," said the prisoner, respectfully but firmly. "I can't take it. Your lordship sees I didn't steal very much, after all."

The baron indulged in one of his low, chuckling laughs before replying:

"Well, that's very true; ye didn't steal much," he said. "Well, then, ye can take four months. Will that do—four months?"

"Nay, my lord, but I can't take that, either," was the reply.

"That's nearer the mark, my lord," the prisoner said, approvingly. "But I'd rather you made it two, if you will be so kind."

"Verra well, then, tak' two," said the judge, with the air of one who is pleased to have done the right thing at last. "And mind, don't come again. If you do I'll give yer—well, it all depends!"

Forty and a Bittock.

The novelist, Barrie, has given a new phrase, a Scottish phrase which may be adopted into the English language. It is to take the place of the awkwardly polite terms of "a woman of uncertain age," or "on the wrong side of forty," or "of years of discretion." His phrase is "forty and a bittock." A "bittock" is Scotch for a bit more or a short distance. It may mean five years or twenty years. In the case of Madame Yale, Lillian Russell or that woman of imperishable youth, Sarah Bernhardt, it might mean even more years beyond forty.

HAS COWCATCHER FOR AUTOS

Instead of Catching Animals It Rescues Persons While Traveling at High Speed.

London.—An inventive genius has been giving demonstrations in Regent's park with a contrivance, fitted to the front of an automobile, which appears to be an elaboration of the cowcatcher on locomotives, but with the essential difference that it is intended to safeguard the unwary pedestrian, no matter if he happens to get in the way of a car traveling at 20 miles an hour.

The apparatus consists of a bar between the front wheels, covering the entire front of the car, and as soon as this strikes a pedestrian it springs back and a scissor-shaped bar grasps the person struck, under the knees, forces him to sit down in a net, and holds him until released.

A member of the Motor club thus describes what he saw of the test: "I was walking along the path with a chauffeur, when the man suddenly left me and started to run across the road. A short distance away a motor car was coming along the road at a speed of at least 20 miles an hour. The car dashed straight into the man, but, instead of knocking him senseless, picked him up and carried him ten or fifteen yards until the car stopped. I ran forward, and when I reached the man he was sitting in the apparatus laughing, without a single scratch."

"The only persons near, besides those interested in the demonstration, were two women, who screamed when they saw the man hit. Their surprise when they saw him released from the automatic fender and laughing at the incident may be imagined."

SAVED FROM TRIBE

Alaska Indian Maiden Is a Modern Pocahontas.

Chief's Daughter Marries Chinese Sailor—
She Rescued From Death, and
Now They Are Living in San
Francisco.

Nashville.—Under date line of Washington, D. C., Mrs. L. M. Cheshire contributes the following unique story to the Nashville Banner:

"Pocahontas has been outdone by an Alaskan maiden. John Smith was only in danger of having his brains splattered over the surrounding real estate when Pocahontas rescued him with her love. The John Smith of Alaska was not only in danger of being killed, but of being eaten when the women in whose eyes he had found favor saved him.

"The Alaskan John Smith was not a titled explorer when he fell into the hands of savages, nor was his name John Smith. He was only a common yellow-skinned sea cook. His name is Ah Wing, and there is nothing attractive about him. He is about as homey by a mixture of Chinaman and Malay pirate as could be found in a day's walk. His Pocahontas answers to the name of Julie now, but nobody knows what her Indian name was. She is a long way of being Pocahontas' equal in beauty, and the Siwash features of generations were consolidated when her face was made.

Ah Wing some nine years ago was a cook in the employ of the navy department and was shipped north on the Jamestown. While on the Sitka station Wing's time expired, or he deserted—just which is not quite plain—and he shipped aboard a whaler. The whaler was wrecked and Wing was cast upon an inhospitable ice floe. Julie was the daughter of a chief of a tribe of Indians, and while hunting with her father discovered Ah Wing, who was as near dead from starvation, cold and exposure as it was possible for him to be and retain life.

For days and days Julie nursed him, and he finally recovered to find himself the object of a great deal of attention on the part of the Indians. They could speak no Chinese or English, and Wing had no comprehension of their dialect. He was at a loss to understand the solicitude with which they took in watching the accumulation of fat on his ribs. At last the horrid truth dawned upon him—at least he says so. They were going to barbecue and eat him.

He gave all up for lost, when he was inspired by the sight of Julie in tears. He made love to her. She comprehended and went to ask papa.

The old chief was fond of his daughter and could refuse her nothing. He issued an edict against baking Wing. The remainder of the village protested, and the chief was obliged to state why he desired the stranger's life preserved. The objectors gave in and Wing and Julie were married in Indian style.

Finally he had a chance to escape. A boat's crew came in from a schooner to trade for skins. The cook was dead, and Wing begged them to take him away with them. Wing's father-in-law gave him leave of three months and sent Julie along to insure his return.

Wing's leave of absence has long since expired, but in the confines of civilization he has become his own master, and has no intention of returning to the land of his wife's people.

THIS PIG HUNTS RABBITS

Animal Runs With Dogs Now, but
Owner Will Train It to Follow
Trail Alone.

Dover, Del.—J. H. Lankford of Lewes, Md., a village just across the lower Delaware line, has a pig that hunts rabbits and joins in chases with his owner's dogs.

This pig is a thoroughbred of the Chester County White variety, and is known as Sir Grunter. It first saw the light last August, and was allowed to run around the Lankford homestead with a pair of rabbit dogs, and it followed the dogs to the woods and hunted with them.

When the rabbit season opened and the rabbit dogs went on a hunt, the pig followed. Mr. Lankford tried to fasten up the animal, but in vain. Finally he gave the pig its liberty and permitted it to follow the dogs at will. Mr. Lankford says he will endeavor to train the pig so that it will hunt without dogs.

OLD MANTEL FOR JOHN D., JR.

Son of Magnate to Have One a Hundred Years Old in Hallway of His Mansion.

New York.—A century old marble mantelpiece from one of the oldest colonial houses still standing in New York city is to be the feature of the entrance hall in the mansion which John D. Rockefeller, Jr., is building on West Fifty-fourth street. The mantel is of French workmanship and was brought to America by the Schermhorhorns, a noted New York family, to adorn their home overlooking the East river, near where the Rockefeller Institute for Medical Research now stands.

The house was later bought by Dewitt Clinton, then governor of New York state, and has been used as a day nursery since the Rockefellers acquired the property.

PAPYRI TAKEN FROM EGYPT

Most Nearly Perfect Rolls Ever
Found Unearthed Near Temple of
the Ptolemies.

London.—The numerous large and valuable rolls of historical papyri recently discovered by Robert De Rustafjaell, F. R. G. S., have now been brought to England. Mr. De Rustafjaell has allowed an inspection of the rolls, which are certain to create considerable interest in the scientific world. They were unearthed by a fellah while sinking the foundation of his mud-hut near a temple of the Ptolemies in Upper Egypt, and are of the Greco-Egyptian period.

There are seventeen of them. They are about twelve inches wide, all closely rolled, and some are as much as four inches in diameter. The size of the largest probably will be found to be about fifty feet, which would be a record length for a roll of papyri. The rolls probably are the most nearly perfect ever found.

"It should be borne in mind," said Mr. De Rustafjaell, "that Manetho, the Greek historian, who lived probably about the time that these manuscripts were written, gave us a history of Egypt, and the only framework we possess of the order and number of dynastic reigns.

"With the discovery of the Rosetta Stone we obtained the long-lost key to the language of ancient Egyptians. We think that we are justified in anticipating further and possibly more startling revelations from these manuscripts."

Mr. De Rustafjaell had the good fortune about four years ago to light upon the find of papyri which were published in an interesting book called "The Light of Egypt." At the time they were popularly referred to as "Further New Sayings of Christ." One volume only, however, dealt with the subject. It proved to be Saint Bartholomew's apocryphal narrative by Christ of his descent into hell. This is the only authentic literature extant on which the Litany is based in the passage referring to the descent into hell.

AWAKENS AFTER FOUR YEARS

Remembers but Little of Events That
Transpired in Wand'ring
Around Country.

Los Angeles, Cal.—Attired in the height of fashion, carrying a new dress suit case in one hand and with the other waving a gay farewell to friends who had gathered at the Erie train in New York in June, 1908, to see him depart for Phoenix, was the last remembrance of Albert J. Ryan, who awakened on the sands two miles below Oceanside, dressed in a torn and much patched suit of clothes.

He had been the victim of a four year attack of aphasia, if the story which he related to Central station detectives proves true.

In the interim, according to bits of information which Ryan says he has picked up concerning himself since Sunday, he traveled from the Atlantic to the Pacific ocean, sent back to New York city for Miss Mary Flood, his sweetheart, to join him in California, married her somewhere in the state, became a father and worked for several years in this city and San Diego. Yet he has no recollection of any of these events.

Central station office detectives say it is one of the most remarkable cases of aphasia that has ever been brought to their attention. There is no charge against Ryan for deserting his wife and child, living at San Diego.

He was cross-questioned at considerable length by detectives, but could not be shaken in any of his statements, some of which later were verified. He was identified by half a dozen men who knew him here and in San Diego before his return of memory. Ryan told the detectives that when he left New York he was employed as a hall boy at the Manhattan club, and that W. E. Guerin and General Burbank, millionaire members of the club, had given him money to go to Phoenix, as they thought he had tuberculosis.

USE LIQUOR TO QUENCH FIRE

Guests at Coney Island Pour "Fire
Water" on Burning Paper Bits
and Save Structure.

New York.—Wine and beer were substituted for water in extinguishing a fire that threatened for a time to sweep through Stauch's restaurant and pavilion, one of the largest buildings at Coney Island.

The fire was started by a lighted match thrown into a pile of confetti. Almost instantly the flames leaped to the ceiling, igniting the decorations. If it had not been for the prompt work of Captain Thomas H. Murphy of the Coney Island police station the fire might have resulted seriously.

Every year Barney Klobloch, manager for Mr. Stauch, gives his confetti dance. There was an unusually large attendance at the dance when the fire started. It was estimated that there were 3,000 persons in the hall. A balcony circles the dance hall and it was thronged when the fire started. At the several hundred tables below were assembled men and women in gay attire.

When the cry of fire was raised and the shaft of flame jumped toward the ceiling, everybody in the hall emptied the contents of their glasses on the fire.

When the downpour of wine came from the balcony Knobloch and many who were dancing were drenched.

That heretofore, to-wit, on or about the 1st day of December A. That on the day and year last aforesaid defendants unlawfully entered said premises and ejected plaintiff therefrom, and unlawfully with holds from him the possession thereof to his damage in the sum of Five Thousand Dollars; that the reasonable rental value of said land is the sum of one hundred dollars per annum.

That plaintiff is vested with a fee simple title to said land holding the same under a patent and deeds duly recorded in the office of the County Clerk of Lynn County, Texas, to-wit: Patent from the State of Texas to Lou Garner, dated the 17th day of November 1878, filed for record the 4th day of September 1911, and recorded in Vol. No. 1, page 167, Patent Records of Lynn County, Texas.

Deed from Lou Garner to T. S. Millhouse, dated the 14th day of October 1901, filed for record No. 12th, 1901, and recorded in Vol. No. 4, page 171, Deed Records of Lynn County, Texas.

Plaintiff further alleges that he and those under whom he holds have had and held peaceable, continuous and adverse possession under title and color of title from and under the State of Texas, of the lands and tenements above described for more than three years next before the filing of this suit, and for more than three years next after the accrual of defendants cause of action, if any they or either of them have.

That plaintiff and those under whom he holds the lands and premises above described have had and held peaceable, adverse and continuous possession thereof, cultivating, using, and enjoying the same under deed and deeds duly registered, paying all taxes due thereon, for a period of more than five years next before the filing of this suit, and for more than five years next after the accrual of defendants cause of action, if any they or either of them have.

That plaintiff and those under whom he claims and holds the above described land and premises, have had and held peaceable, adverse and continuous possession thereof, cultivating, using and enjoying the same for more than ten years next before the filing of this suit, and for more than ten years next after the accrual of the defendants cause of action, if any they have.

Wherefore plaintiff prays the court that the defendants be cited to appear and answer this petition, and that plaintiff have judgement for the title and possession of the above described land and premises, and that a writ of restitution issue, and for his rents, damages and costs of suit, and for such other and further relief, special and general, in law and equity that he may be entitled to receive.

J. W. Elliot, Clerk, District Court, Lynn County, By N. R. Skinner, Deputy.

present. Of course the alderman committed a great outrage and he no doubt knew that you would pay him sooner than dispute with him openly. He had no right to charge you any thing. I receive many letters of a similar kind. My advice to you all is to go to clergymen to be married, and then you will be treated properly. I do not mean to say that all of the aldermen would treat you as this alderman did, but unfortunately some of them would. You say it was all the money you had with you, and that you expected to use it for immediate expenses with your bride. I certainly sympathize with you. If some one had held you up on the street and taken it away from you it would not have been worse. You may sue the alderman to get your money back, but

if you do he will no doubt say you made him a voluntary present of the \$20, and—who knows?—the judge may believe him."

It was said at the office of the mayor that the alderman referred to was Ald. James J. Smith, who represents one of the downtown districts. When a copy of the mayor's letter was shown to Mr. Smith, he said: "I don't remember this man. Perhaps I married him and perhaps I didn't. I marry thousands of persons every year and I can't keep them all in mind. Anyway, I never asked any one for a \$20 fee."

RAID ONLY LAWYER'S JOKE

Crowd Waited for Judge, Lawyer and Store Proprietor to Be Arrested in New York.

New York.—"There's going to be a judge, a lawyer, a department store proprietor and a few others arrested for obtaining money by fraud, under false pretenses," was the tip that was passed out with the further information that the arrest would be preceded by a raid which would be made at eleven o'clock at 652 West End avenue.

The house is that of Samuel J. Goldsmith, an attorney. At eleven o'clock, while the street was filled by reporters, the raid was made. The judge, lawyer and others were dumfounded when a door to the room in which they were pushed open. Three men, one in the uniform of a policeman and the other two who said they were central office men, exclaimed: "The house is pinched."

Then Goldsmith informed his friends, after he had pulled them back in through the windows, that it was all a joke, but eleven o'clock hereafter was the hour for breaking up the card game.

FORM BIRD BANDING SOCIETY

American Association Plans to Determine Where and How Far They Fly.

New York.—The American Bird Banding association has just been organized here for the purpose of tracing identification bands on wild birds. This is said to be the only practical and reliable method by which ornithologists can study bird movements and tell where and how far they fly.

In the majority of the cases aluminum bands will be placed on legs of young birds unable to fly found in nests. The bands will not injure or impede the birds' progress. On each band will be the words "Notify American museum, New York."

SEEKS LOST NIECE

New York Millionaire Offers Fortune in Search.

Miss Marian Ege, Relative of Wealthy Manufacturer, Disappears After Telling Uncle of Being Followed by a Strange Man.

New York.—With a declaration by Jacob Doll, millionaire manufacturer, that he will spend an unlimited amount of money to recover his fifteen-year-old niece, Marian Ege, who disappeared while walking near her home, police of New York and a score of private detective agencies began an exhaustive search of New York and neighboring cities for the missing heiress.

Following the girl's disappearance, the police began a quiet search, but were unable to unearth a single clew except that the girl had spoken to a friend of being followed on the street by a strange middle-aged man.

After two days of fruitless efforts by the New York police, Mr. Doll ordered into the search a number of private detectives and made the statement that he believes that his niece had been kidnaped.

The statements of Miss Ege's friend that the young woman had told her of being followed have been corroborated by Mr. Doll. The aged millionaire said that on numerous occasions reaching back over a period of several months his niece had remarked to him that a middle-aged man, whom the young woman could only hazily describe, had followed her while walking in the neighborhood of her home, and on one occasion had attempted to attract her attention.

Since the search was taken up Mr. Doll has kept in touch almost constantly with the police. As the search continues and no tangible trace of what has become of the young woman is discovered, the aged millionaire reiterates his determination that every power that can be controlled by his vast fortune will be turned toward finding the girl.

The police have carefully questioned many of the young woman's friends, but so far none has been able to give a hint that promises to clear up the mystery of Miss Ege's disappearance. Several possible explanations are being entertained by the police and every angle is being investigated.

It is thought that Miss Ege may have been taken ill and that she now lies, with her identity unknown, in some New York hospital. Friends of the young woman's family in neighboring cities are being communicated with in the hope of ascertaining if Miss Ege, without knowledge of her own family, had gone to visit them.

The main energies of the search, however, are centered on learning the worth of the clew offered by the young woman's previous statements that she had been followed by a stranger.

It is well known that Miss Ege was a favorite niece of her wealthy uncle, and it is hinted by police officials at work on the case that the young woman is being held for ransom by some individual or gang in New York City.

KNEW DOG, NOT OWN NAME

First Tears, Then Candy and Finally Mamma Came to Boy Lost in New York.

New York.—A little yellow dog, tugging at a chain to which a little boy clung, went through 100th street and stopped at Second avenue.

On reaching the corner the boy began to sob and the little yellow dog to bark and whine. Patrolman Murphy came along. The boy was too shaken with sobs to ask, and the little yellow dog snapped at the patrolman's legs and growled.

Murphy took boy and dog under his arms and carried them to the East 104th street police station. There the boy couldn't recall his name and address, but he knew his dog was "Puppy," and he wouldn't part from him.

The two were fed with sweets and delicacies and then placed on a chair behind the desk of Lieut. Shevlin, the dog in his young master's lap. There they remained until 9 o'clock. When a woman ran into the station house and said her four-year-old son, Nathan Klien, was missing from his home, 217 East 100th street. The youngster behind the desk was her lost boy.

FINDS ANGLE WORM THINKS

Professor Yerkes of Harvard Convinced After Making Experiments on Crawlers.

Boston, Mass.—From a series of experiments conducted in his psychological laboratory Professor Yerkes of Harvard has become convinced that an angleworm can think. Knowing that an angleworm will always crawl out of a lighted place into a dark one, the professor put a worm into a glass dish in which were two dark holes. The right hand hole was an ordinary earth cavity. The left hand one, however, contained an electric battery, the object of which was to give the worm a mild shock in case it entered.

After a few trials the worm learned its lesson and could be counted on to turn always to the right when it was out into the dish.

WALK OVER DEAD MAN'S BODY

Wedding Party Not Halted by Corpse After Flower Carrier is Shot Down.

Johnstown, Pa.—George Miluski was a member of a bridal party that went sweeping down the street at Ralplton, Somerset county. He was a flower carrier. Frank Liesba was also a member of the party. He was a pistol shooter, it being his business to make lots of noise, signifying joy. Mary Fleck and Walek Kwashnic were the happy bridal pair.

Miluska, the flower carrier, got in the way of Liesba, the pistol shooter. One of the pistol shots that signified joy killed him. His flowers dropped out of his hands as he tumbled into the street.

As he was leading the procession it was necessary for the rest of the party to step over his body if they kept right on going. That was what they all did. Mary and Walek were duly married without any further trifling interruptions.

In the return from the church the bridal party picked up the dead man. The joyful pistol shooter hunted up a constable and surrendered and some one picked up the carrier's flowers and placed them on the table to adorn the wedding breakfast.

FIND BODY 6,000 YEARS OLD

Predynastic Implements and Ornaments Also Unearthed by Archeologists' Excavations.

London.—Reports have reached here of the discovery near Luxor, Egypt, of a tomb which contained one of the most valuable collections of predynastic implements and ornaments ever found. The tomb contained the dried-up remains of a man lying in the semi-embryonic position.

As the Neolithic Egyptians did not embalm their dead, the body was nearly crumbled up from the weight of a stone slab which had been dislodged from its position as the covering of the tomb. With the body were found a unique double-edged bronze sword in such an excellent state of preservation that the cutting edge remains sharp; several long arrow heads, also in bronze; two gold hair rings, and a lot of the well-known predynastic pottery.

The tomb was probably that of one of the warriors of the first dynasty, during which period the use of bronze was discovered in upper Egypt. According to this theory the body is about 6,000 years old.

Seattle Man Loses Two \$500 Rings in Highway During Scuffle With Woman.

Portland, Ore.—Frank Daugherty, a Seattle promoter, spent an afternoon vainly sifting the dust of Linnton road, near Portland, for two \$500 diamond rings he lost, when in company with Edward Ostner, a wealthy Boise contractor, and two women, he was returning from a round of the road-houses. Daugherty had loaned the rings to one of the girls, but she was slow in returning them when he demanded. Then, the story is, Daugherty snatched at them and they were lost in the scuffle.

BUFFALO KILLS CAMERA MAN

French Court Sustains Widow's Claim for Compensation for Loss of Husband.

Paris.—An important point of law was settled this week when the widow of Paul Fiere, a photographer for cinematograph pictures, sued for compensation, her husband having been killed in Central Africa while taking pictures of big game shooting.

Fiere was sent to Africa a year ago, joined a German mission and went out shooting with Lieut. Graetz. While he was operating the camera Graetz was charged by a wounded buffalo, whereupon Fiere left the apparatus and went to the rescue of the officer, again wounding the buffalo, which then trampled him to death.

The widow was awarded an annual income of \$124 for herself and \$216 for her three children.

DOG-EATER IS A BLESSING

Flushing Man Wants Nescopeck's Mysterious Monster—Many Canines Destroyed.

Nescopeck, Pa.—An echo of the excitement here incident to the visits of a dog-eating animal has come in a telegram from Flushing, N. Y., an Auburndale man wanting the monster if Nescopeck fails to appreciate the blessing it has received.

The dog-eater has been causing havoc among the canine tribe by nightly invasions, but as yet its real identity is a mystery. All it does is to destroy dogs.

That Nescopeck has had a special dispensation of Providence in the coming of this terrifying dog-eater is the conclusion of the Long Island resident, and from whom Burgess Smith has received a letter. He asks that the dog-eater be shipped to his home town at once.

"DEAD" WOMAN IS REVIVED

Mabel Allen, Who Disappeared at the World's Fair in Chicago, Is Now an Heiress.

Boston.—Miss Mabel E. Allen of Brooklyn, who has been legally dead for more than seventeen years, was restored to life by the law in the probate court and incidentally came into some property.

In 1895, when the courts attempted to divide the award of the French spoliation claims allowed to the descendants of Jonathan Merry, an old-time Boston merchant, relatives of Miss Allen declared she had not been seen since the world's fair at Chicago, when she was in the last stages of consumption. The woman was accordingly declared legally dead.

Miss Allen later accidentally learned of the situation and sought her share of the award. Today the decree of 1895 was revoked and she will get about \$2,900.

BILL NYE ON YOUTH.

Youth is the springtime of life. It is the time to acquire information, so that we may show it off in after years and paralyze people with what we know. The wise youth will "low" till he gets a whole lot of knowledge, and then in later days turn loose in an abrupt manner. He will guard against telling what he knows a little at a time. That is unwise. I once knew a youth who wore himself out telling people all he knew from day to day, so that when he became a bald-headed man he was utterly exhausted and didn't have anything left to tell anyone. Some of the things that we know should be saved for our own use. The man who shows all his knowledge and doesn't leave enough to keep house with fools himself.—Bill Nye.
