FARMING AND STOCKRAISING

1923

TAHOKA, LYNN COUNTY, TEXAS' FRIDAY, OCTOBER 19, 1923.

NUMBER 7

INCH RAIN REGISTERED IN TAHOKA

Whole of West Texas, the plains, including Lynn County, one of the biggest rains in beginning last Thursday and until Monday of this week. The country is thoroughly drenched. At O'Donnell, on the south of Lynn County, the fall was heavier, the precipitation running as high as nine inches. In gauge in Tahoka only four inches.

In picking was halted for several days, and the streets of Tahoka were swarmed with pickers with but time on their hands. It is reported that many of the cotton left town on the northbound Saturday morning. The season in the soil has been benefited and the range for livestock weathered before frost. The weather of Fall has accompanied moisture, the thermometer ranging forty-four above Saturday. Ways were impassable during continued wet weather. Many have been stalled in the mud direction from town. Many as one hundred cars are having stuck between Amarillo and Plainview, a distance of 87 miles.

City Light and Power Commission under the supervision of W. S. are preparing to place a new ornamental light poles on Main Street.

City Light and Power Commission under the supervision of W. S. are preparing to place a new ornamental light poles on Main Street.

CE CAFE INSTALLS TRIC GRIDDLE & BROILER

Palace Cafe this week installed electric griddle and broiler now prepared to render service to the trade. This addition to the equipment Palace places this popular cafe with the big city cafes. Mr. the proprietor is to be congratulated for his enterprise along the line.

LYNN AND LUBBOCK IN WONDERFUL SHAPE

Lin, Texas, Oct. 10.—There were two Western County Judges in Wednesday and both reported counties in wonderful shape and the entire West is behind the Technological College soon to be opened at Lubbock. They were P. F. Brown of Lubbock and Elliott, of Tahoka, Lynn County presented bond matters to the Board of Education.

Mr. and Mrs. Richard C. Willis, a boy Sept. 16th.
Mr. and Mrs. Willie R. Shepperd, a boy, Sept. 16th.
Mr. and Mrs. Oscar L. Sanders, a boy, Sept. 17th.
Mr. and Mrs. Wm S. Taylor, a girl Sept. 18th.
Mr. and Mrs. Harvey Benson, a girl Sept. 10th.
Mr. and Mrs. Emmett P. Edwards, a girl, Sept. 19th.
Mr. and Mrs. M. G. Jones, a boy, Sept. 15th.
Mr. and Mrs. W. J. Long, a boy, Sept. 18th.
Mr. and Mrs. J. A. Sanders, a boy, Sept. 27th.
Mr. and Mrs. H. W. Edwards, a boy Sept. 12th.
Mr. and Mrs. R. C. Hollman, a girl Sept. 16th.
Mr. and Mrs. Robert C. Hall, a boy Sept. 27th.
Mr. and Mrs. E. W. Medlin, a boy Sept. 10th.
Mr. and Mrs. Maruin Ham, a girl, Sept. 6th.
Mr. and Mrs. W. P. Wheeler, a boy, Sept. 13th.
Mr. and Mrs. Grady LeMond, a boy Oct. 4th.
Mr. and Mrs. Elmer Latimer, a boy Oct. 5th.
Mr. and Mrs. Chas. I. M. Long, a girl, Oct. 2nd.
Mr. and Mrs. M. C. Finch, a boy, Oct. 9th.
Mr. and Mrs. L. L. Freeman, a girl Oct. 9th.
Mr. and Mrs. W. R. Lewis, a boy, Oct. 2nd.
Mr. and Mrs. Harvey Bensen, a girl Oct. 6th.
Mr. and Mrs. Marcus H. Edwards, a boy, Oct. 15th.
Mr. and Mrs. Egbert Evans, a boy Oct. 15th.
Mr. and Mrs. Roy Stephens, a girl Oct. 12th.
Mr. and Mrs. Troy B. Cowan, a boy Oct. 15th.
Mr. and Mrs. Jesse R. Strain, a girl Oct. 17th.

Charles F. Shook, of Waco, came in Tuesday to join his family here. Mrs. Shook and children have been visiting her parents, Mr. and Mrs. H. C. Crie, the past several weeks. Mr. Shook is a licensed chiropractic and stated to a News representative that he would locate in Amarillo on the North Plains. Both Mr. and Mrs. Shook made their home in Tahoka for many years before moving to Waco.

Judge Heare left the first of the week for Amarillo where he will attend the Old Settlers' Reunion and the Tri-State Fair. From there he goes to Austin where he is to appear before the State Commerce Commission. While in Austin he says he will collect the annual dues of the "Never Sweat" Club from Governor Neff and other State officials who have joined the order, but have failed to come across with their annual dues of 3c.—Miami Chief.

2,385 BALES HAVE BEEN GINNED AT O'DONNELL

Through the courtesy of Prentiss Womble, editor of the O'Donnell Index, the News is enabled to give a correct cotton gin report from that little city in this weeks issue, which we were unable to give last week through failure to get in touch with the proper citizens over the telephone. Mr. Womble was kind enough to telephone the report to this office Thursday morning. 2,385 bales had been ginned up to this date at O'Donnell.

J. L. Ryan and family of Crosby county, have located in Lynn county. Mr. Ryan is a most successful farmer-stockman. The News is glad to welcome them among our citizenship.

C. L. Dickson, manager of the Dixon Insurance Agency in Tahoka, took his little son to a sanitarium the first of the week. The little fellow had the misfortune to stick a needle in his knee, part of which had broken off. They returned home Wednesday.

BAPTIST CHURCH

Regular services at the Baptist Church Sunday.

Subject for morning hour: "Who are Southern Baptists and What is Their Task?"

Sunday School at 10 o'clock. B. Y. P. U., 6:45. All Baptists are urged to attend and strangers will receive a hearty welcome.

J. M. DOSHER, Pastor.

FATAL SHOOTING AT AMARILLO MONDAY

Shot seven times with an automatic pistol, John Wallace, son of a rancher of Canyon, was killed instantly yesterday afternoon at 2 o'clock in the home of H. L. Long, recent employee of the United States Zinc Company smelter but who for the past month has been operating a restaurant at Canyon. "I'm proud I did it," Long told officers when they arrested him at his home, 2301 West North Eighth Street. "He broke up my home."

Wallace, single had been boarding in the home of Long. The husband left home a month ago. Last week his wife filed suit for divorce, charging cruelty.

Yesterday Long came to Amarillo from Canyon. He went to his home to take some clothing to his four small children, he told officers. He found Wallace there. The latter reached in his pocket as though going after a gun, Long told Sheriff Whitaker. "I began shooting and did not stop until my automatic was empty." Wallace was about 50. He is the son of Mr. and Mrs. W. L. Wallace of Silverton, but his parents recently moved to Canyon to enter their four children in college. Wealthy relatives of Wallace are said to reside in Coryell county.

Long formerly lived at Silverton. His mother resides there now. He moved to Amarillo about two months ago when he and his wife opened up a boarding house in the smelter district.

Mrs. Long told officers that she had been keeping boarders to support herself and four small children, two of whom are attending the public school.—Amarillo Daily News.

TEXAS HIGHWAY REPRE- SENTATIVE HERE TUESDAY

Ernest G. Albright, of the Texas Highway Association, was in the city Tuesday of this week in the interest of the State Highway amendment that will give the State authority to take over and build and maintain the state highways under Federal aid. Mr. Albright will return to Tahoka in the near future to go over with the citizens of Lynn County the program of the Highway Association.

SIX NEW BUILDINGS MAY START AT BROWNFIELD

Six new buildings of brick and concrete and modern in design, are projected on the west side of the square and we understand that four of them are practically assured, and if the fifth owner desires to build, the sixth will also build.

Those who are to build are as follows, together with frontage: Brownfield Hardware Co., 45 feet; Arthur Sawyer, 25 feet; Barrier Bros. of Lubbock, 25 feet; M. A. Brownfield, 25 feet; Roscoe Wilson, Lubbock, 25 feet; J. L. Randal, 25 feet.

If these buildings are all erected, and we have every reason to believe they will be, it will leave only two wooden buildings on the west side of the square.—Terry County Herald.

POTATO CHIP FACTORY FOR TAHOKA

Mr. and Mrs. H. S. Cunningham, formerly of Breckenridge, have located in Tahoka and have opened up a potato chip factory in the old Jones building on the south side of the square. We welcome these people into our midst and believe they will enjoy a thriving business from the sale of this product. The merchants of the city are handling this commodity in bags which are selling at 10 cents each.

JACK ALLEY'S TURKEYS WIN FIRST PRIZE

In giving the report of the prize winners during the recent Lynn County Fair held in Tahoka, the News made an error in reporting the prize on turkeys, wherein we reported the turkeys of Jack Alley as winning second and third, when same should have been first and second prizes. Mr. Alley has some of the finest turkeys to be found in West Texas.

Miss Era Small is attending the State Fair at Dallas this week.

Mesdames Redwine and Hatchett were Lubbock visitors yesterday.

Mr. and Mrs. E. R. Allen were Lubbock visitors Wednesday.

Mrs. E. E. Callaway and Mrs. W. O. Thomas are visiting in Fort Worth and Dallas.

W. D. Nevels, local banker and cattleman, made a business trip to Fort Worth and return the first of the week.

C. E. Brown, local land agent, accompanied by his son Frank, daughter, Miss Fay, and Miss Jewel Sherrod, left Wednesday for Dallas to attend the State Fair, now in progress.

Chester Connolly, manager of the Connolly Motor Co., transacted business matters in the city of Dallas this week.

J. L. Fletcher, of Poin, Texas, is a prospector in Tahoka this week with the view of locating. Mr. Fletcher spoke in the highest terms with regard to the wonderful future of the South Plains section.

Tailor Luallen, of O'Donnell, was in the city Monday visiting with his family. Mr. Luallen reported enjoying a nice business at O'Donnell in the tailoring business.

MRS. B. E. SMITH.

Mrs. Ann E. Smith, wife of the late B. E. Smith, pioneer citizen of Coleman county, died Thursday, October 4, 1923, at the old family homestead in the Silver Valley community.

Mrs. Smith was living in her 90th year; she was born February 24, 1843, in Tennessee. Her father was Alfred Polk and her mother's maiden name was Nancy A. Brown. With her husband and children she moved from Shelbyville, Texas, to Coleman county in 1899 and had lived here continuously since that date. Her husband died here in 1908.

To Mr. and Mrs. Smith were born nine children, six of whom survive, viz: Ben E. Smith, L. H. Smith, Miss Annie Smith, Stonewall J. Smith, Marlin Smith and Bland Smith, besides a number of grand-children.

Mrs. Smith was a noble christian woman and she left a priceless heritage to her noble sons and daughter and grand-children. Her five sons and grand son-in-law, Mr. Ed Hector, were pall-bearers at the funeral, which was conducted the afternoon of October 5th. Rev. B. D. Kennedy, pastor of the Presbyterian Church, conducted the funeral services at the home and a host of friends were present to pay tribute to the memory of a grand christian character. Interment was made in Coleman cemetery.—Coleman Democrat-Voice.

2,200 TEXAS CATTLE SOLD FOR SUM OF \$100,000

Amarillo, Texas, October 12.—A cattle deal involving more than \$100,000 was closed here yesterday when Judge T. C. Word of Amarillo sold 2,200 cows with calves by their side to the Livestock Exchange of Des Moines, Iowa, and Midland, Texas.

The calves will be shipped to the feed lots of Illinois and the cows to Midland where they will be used for breeding purposes. This herd of cattle is one of the most noted and has won ribbons at all the big shows of the country.

QUINCES THRIVE IN TAHOKA

Quince, a fruit, a native of North Persia and Anatolia. It is now as widely known as apples, and succeeds under like climatic conditions. The quince is a harsh acid fruit. This makes it of little value as an edible fruit in the raw state, but it is excellent for canning, for a kind of a marmalade, and also for imparting sharpness to more mild-flavored fruit such as apples, with which it is sometimes mixed for cooking. The quince is easy of cultivation in heavy, rich, somewhat moist situations. It is much used as a stock for dwarf pears. A number of varieties are cultivated in the United States, chief of which are, Champion and Orange, or Apple. The quince is propagated by hardwood cuttings 10-16 inches long made in the fall or winter, also by stooling. It is commonly grown in gardens as an ambush, but in commercial planting as a tree. In the orchard the trees are spaced 12 to 15 feet apart each way and cultivated like apple orchards. Trees 8 to 9 years old should yield about one bushel of fruit each.

Mr. H. C. Crie, Tahoka citizen, residing in the east portion of the city, brought to this office the first of the week, a short limb with three large quinces on it, to prove to us that this particular fruit would grow in Lynn County. They were the first we had ever seen, and we find that we are not by ourselves in this matter, as there have been a number of people in the office who had never seen any real live quinces before. Invariably anything will grow in Lynn county.

THE SORORITY SINGERS

The Sorority Singers, comprised of four young college girls with beautifully blended voices appeared at the High School Auditorium, Tuesday evening as the first program of the Dixie Lyceum, fostered by the Parent Teacher Association.

Miss Estelle Van Horn, first soprano, Miss Ethel Carter, second soprano, Miss Muriel Shewan, first alto, Miss Northam second alto and pianist. Each member is a professional singer, and their combined voices produce a lovely effect because of the quality of tone.

The program was well balanced consisting of a group of numbers given in strict concert style, others in costume with specialties introduced, sacred, readings and musical monologues. A special feature of the program was a group of college songs which had been specially arranged for a quartet of women's voices.

The next number will appear Nov. 14th. Remember the date.

DOBE BUILDINGS CAVE IN AT O'DONNELL

Reports reached Tahoka Sunday that several of the business houses constructed of dobe in O'Donnell, caved in during the recent continued wet weather last week.

PROMINENT SLATON MAN IS SHOT AND KILLED

James S. Lanham, age 48 years, 11 months, died Wednesday, Oct. 10th, about 1 o'clock, as a result of knife wounds inflicted by James Walker. Mr. Lanham was rushed to the office of Dr. Adams and expired within a few minutes.

Full details of the trouble that led up to the killing are not available, but it is stated that it started over remarks made by Mr. Walker about prohibitionists.

A complaint was filed before Justice of the Peace Paul P. Murray, a warrant issued charging murder, which was served by local officers on Mr. Walker at his home, it is stated. Deputy Sheriff Less George and County Attorney McWhorter of Lubbock came down to handle the situation after being notified by Chief of Police Abel. Mr. Walker waived examining trial to await the action of the grand jury, and bond was furnished in the sum of \$25,000.00.

J. S. Lanham was one of Slaton's most progressive and most highly respected business men. He was born at Troup, Smith County, Texas. Before coming to Slaton in 1915 he was engaged in business for a number of years at Santo, Palo Pinto County. It was there he married Miss Mina Latimer on Oct. 8, 1902.

He was a consistent member of the First Baptist church of this city and for a number of years has been on the Board of Deacons. He was also a member of the Odd Fellows Lodge.

He is survived by his wife, three children as follows: Louise, age about 16; James S., Jr.; about 12, and Elizabeth, about 10. Another child was born to them who died in infancy and is buried at Santo.

He is also survived by his father W. S. Lanham of Santo, a brother, F. H. Lanham of Benjamin, Knox County, and the following sisters: Mrs. A. L. Maddox of Las Vegas, N. M.; Mrs. G. C. Jones, Mineral Wells; Mrs. R. A. Collins, Port Arthur. All have arrived in Slaton, as well as his stepmother Mrs. W. L. Lanham, Mrs. F. H. Lanham, Chas. A. Morehouse and James A. Stephens of Benjamin, to be present at the funeral.

Funeral services will be held from the Baptist church at 10 o'clock this morning (Friday), conducted by the pastor, Rev. Jno. P. Hardesty. Burial will follow in Englewood Cemetery. The undertaking department of Foster Furniture Co. have charge of the funeral arrangements.

In the passing of J. S. Lanham Slaton has lost one of its best citizens, his family a loving husband and kind father, the Baptist church one of its most consecrated members, and the Odd Fellows Lodge one of its most devoted followers.

We join a host of friends in extending sincere sympathy to all upon whom bereavement has fallen.—Slaton Slatonite.

County Judge J. W. Elliott returned the past week from Austin where he went on official business.

"This is the forest primeval."
—Evangeline.

We have few places where we can see forest primeval; but many places where we can see forest primeval in the making—for a primeval forest is not, as its name might seem to indicate, an original growth. It is the final step in a forest progression, an ultimate forest that will stand until cut by man or razed by an ice sheet or fired by lightning. The early experiments in white pine reforestation failed, because the experimenters failed to treat white pine as the final step in an orderly progression.

Take the burned-over slashings of our northland, for example. There the aspen and birch seed in and cover the scarred ground within a decade. The inquisitive will observe that almost from the beginning a war is waged between these two lovely, graceful species. Both cast a delicate fretwork of shade, but the shade of the birch is a bit the denser. Where a birch spreads a twig above a twig of aspen, the latter is starved for sunlight, and it is but a matter of a couple of decades until the aspen is crowded out. Meanwhile seedlings of the maple and other denser-shaded deciduous trees are beginning to crowd the birch. While the birch is being choked out, the pine and hemlock seed in and begin to dispute place with the victor.

The ultimate forest differs in the species that make it up in different regions. In one place it will be pine and hemlock; in another redwood; in another, oak; and so on.

In Finland's epic, the Kalevala, we have a most interesting picture, of the beginning of forests and of the growth of a forest primeval. Sampo Peller-voinin sowed the trees:

"On the hills he sowed the pine trees, On the knolls he sowed the fir trees, And in sandy places heather; Leafy saplings in the valleys. In the dales he sowed the birch trees, In the loose earth sowed the alders, Where the ground was damp the cherries, Likewise in the marshes, willows, Rowan trees in holy places, Willows in the fenny regions, Juniper in stony districts, Oaks upon the banks of rivers."

All the seed grew and flourished except that of the oak. The acorn would not sprout until conditions were especially prepared for it. Finally, however, it sent up a forest primeval, a growth so tall and dense that:

"In their course the clouds it hindered, And the driving clouds impeded, And it hid the shining sunlight, And the gleaming of the moonlight."

"I made a voyage to Grand Cairo, on purpose to take the measure of a pyramid."—Sir Roger de Coverley Papers.

If we had to gather all our information at first hand as the Spectator did, we should know much less than we do; but what we did know would be more likely to be accurate.

Stefansson, the great Arctic explorer, has recently written a short article on "Educated Ignorance," in which he speaks of "the self-perpetuating quality common to the educated man's ignorance." The primary purpose of his article is to set us right on the subject of Eskimo dwellings. These dwellings are ordinarily made of "sod and wood, earth and wood, wood and moss, wood and skins, or a combination perhaps of bones, stones and wood." They are not made of snow except during emergencies, such as being caught abroad in a storm.

Practically all textbooks state that Eskimos live in snow houses, and leave the impression that all Eskimos live in such houses all the time. Many of them state, too, that the temperature inside the houses cannot be allowed to go above 32 degrees, or the house would melt. Stefansson says he has been in a snow house when the temperature indoors was 60 degrees above zero, and that the roof was perfectly dry.

Take the matter of the porcupine as a further example. Some hundreds of years ago a book on natural history stated that the porcupine threw his quills at his pursuers. The statement has been disproved by scientist after scientist, but the makers of textbooks keep right on copying the error from older books. It is possible to find books of quite recent date that say porcupines throw their quills, yet the best-informed scientists say such a thing is pure nonsense.

There is, too, the matter of the ostrich and his habit of burying his head in the sand when danger threatens him. Explorers who have spent years in Africa declare the ostrich never buries his head in the sand under any circumstances.

It always comes as something of a shock to me to find that some bit of information that I have clung to for years is erroneous. Time after time I have gleaned information from printed sources that seemed authentic, only to discover that statistics quoted for last year were the ones that belonged to a year a quarter century past, or something equally disconcerting.

NOTICE IN PROBATE

THE STATE OF TEXAS.

To the Sheriff or any Constable of
Lynn County—Greeting:

You are Hereby Commanded to
cause to be published once each week
for a period of ten days before the re-
turn day hereof, in a newspaper of
general circulation, which has been
continuously and regularly published
for a period of not less than one year
in said Lynn County, a copy of the
following notice:

THE STATE OF TEXAS

To all persons interested in the
welfare and estates of Roy Callico-
atte, Delos Callicoatte and Johnny
Fay Callicoatte, Minors, J. P. Jensen
has filed an application in the County
Court of Lynn County, on the 4th day
of October, 1923, alleging that he has
been duly and legally appointed
guardian of the estates of each of
said minors by the County Probate
Court of Mesa / County, Colorado,
where said applicant and said minors
are alleged to reside, and that he has
duly qualified and is acting as such
guardian, and he prays that he be ap-
pointed non-resident guardian for
said minors in Texas, which said ap-
plication will be heard by said Court
on the 22nd day of October, 1923, at
the Court House of said County, in
Tahoka, Texas, at which time all

Bible Institute of Chicago.)
(© 1923, Western Newspaper Union.)

LESSON FOR OCTOBER 21

ISRAEL IN THE MIDST OF THE NATIONS

LESSON TEXT—Josh. 1:1-4; Isa. 2:3-
4; Isa. 19:23-25; Ezek. 5:5.
GOLDEN TEXT—"Look unto me and
be ye saved, all the ends of the earth."
—Isa. 45:22.

PRIMARY TOPIC—The Beautiful
Land of Israel.

JUNIOR TOPIC—The Land God
Chose for His People.

INTERMEDIATE AND SENIOR TOP-
IC—Israel in the Midst of the Nations.

YOUNG PEOPLE AND ADULT TOPIC
—The Strategic Position of Palestine.

1. Israel's Geographical Position
(Josh. 1:1-4; Ezek. 5:5).

Israel, God's chosen and most fa-
vored nation, the nation to whom He
came nearest and gave most in order
that it might pass on His goodness to
the other nations of the world, was
given a most strategic position in the
earth. "Palestine was adapted as no
other country for God's great purpose
of preparing a pure religion and send-
ing it to all the world. To this end
a single nation was selected, trained
and placed in the center of the world,
so that when the time came to publish
the true religion all lands could be
reached. Palestine was central and
isolated, yet accessible, for when the
time came for the apostles to go from
Palestine by the Mediterranean sea to
the lands round about it, and from
there to other lands, their way was
open."

1. Their Leader (Josh. 1:1). Joshua
was Moses' assistant. He led the Is-
raelites to victory over the Amalekites
soon after their escape from Egypt.
He was with Moses in the Mount when
the law was given. He was one of the
spies sent into the land of Canaan.
When Moses knew that his time of de-
parture was nigh he appointed Joshua
his successor.

2. Condition of the Possession of the
Land (v. 3). The land was theirs by
God's promise, but it became theirs
only as their feet advanced to take
possession of it. Because of their lack
of faith, courage and obedience they
never enjoyed the full possession of it.
Christians today lack the riches
of the Heavenly Father's blessings be-
cause of their want of faith and cour-
age.

3. Its Boundaries (v. 4). On the
north it was bounded by the rugged
mountains of Lebanon; on the east
by the Euphrates river; on the south
by the "great and terrible" desert, a
barren region through which the chil-
dren of Israel had wandered for forty
years; and on the west by the Medi-
terranean sea. It included all of
Mesopotamia. Israel's lack of faith
prevented them from possessing fully
this land.

11. Israel's Spiritual and National
Position (Isa. 2:2-4; 19:23-25).

This pictures the place of influence
which shall be exercised by Israel in
a future time.

1. When It Shall Be (v. 2)—"In the
last days." By "last days" is usually
meant in Scripture the times of the
Messiah, for this is the primary sub-
ject of all prophecy.

2. What It Shall Be (v. 2). The
restoration of the kingdom of Judah
to the place of pre-eminence among
the nations of the world. "Mountain"
in Scripture symbolizes kingdom (see
Dan. 2:35; Rev. 13:1, 17:9-11). This
vision of Zion's glory refers to the
millennial age, at which time other
nations of the world will learn the
true God through the chosen nation.

3. The Result of (vv. 2-4). The re-
turn of God's favor to this chosen peo-
ple shall be "life from the dead." To
the nations of the earth (Rom. 11:15).

(1) Nations shall flow unto it (v. 2).
This pictures the masses of the people
moving toward Jerusalem like streams

We carry the product of the most re-
nowned makers, particularly the popular advertising

PHONE 91

from all parts of the earth. (2) Na-
tions encouraging each other (v. 3).
All jealousies are now taken from na-
tions, and with good will to each other
they are moving to Jerusalem, the
world's capitol. They are going there
to be taught of God the right ways to
walk. They go to be instructed out
of His holy Word. There is but one
way to peace in the world, that is, back
to God through His holy Scriptures.
(3) Peace in the earth (v. 4). When
Israel shall be in her God-appointed
place with Jesus Christ as king, then
war will be over. The implements of
war will then be destroyed. (4)
Friendly communication (Isa. 19:23-
25). As soon as wickedness is taken
from men's hearts they will establish
means of friendly communication.

Good Tidings.

How beautiful upon the mountains
are the feet of him that bringeth good
tidings.—Isa. 52:7.

Holy Scripture.

Holy Scripture is a stream of run-
ning water, where alike the elephant
may swim, and the lamb walk without
losing its feet.—Greg. the Great.

Cultivated Countries.

Countries are well cultivated, not
as they are fertile, but as they are
free.—Montesquieu.

Worship.

Be not so bowed to any custom as
to worship it at the expense of truth.
—Zimmerman

With the High School Classics

By MARGARET BOYD

(© by Margaret Boyd.)

"The seeming truth which cunning
times put on
To entrap the wisest."
—The Merchant of Venice.

Little evil is done in the world by
obvious untruth; the danger is from
untruth that passes for truth. People
do not willingly believe a lie. Early in
life children ask of tales told them, "Is
it true?" They continue to ask the
same thing all their lives.

It is not, however, always easy to
learn what is true. Some of the an-
cients said truth lived at the top of a
very steep mountain; others said she
lived at the bottom of a well. No
matter which dwelling place was
ascribed to her, all acknowledge that
it was difficult to catch a glimpse of
her. Whether we climb to truth by
hard mental labor or dig for truth
among the thoughts of other men, truth
will never be found without work and
inconvenience.

Emerson said: "God offers to every
mind its choice between truth and re-
pose. Take which you please, you can
never have both. Between these, as a
pendulum, man oscillates ever. He in
whom the love of repose predominates
will accept the first creed, the first
philosophy, the first political party he
meets, most likely his father's. He gets
rest, commodity and reputation; but
he shuts the door of truth. He in whom
the love of truth predominates sub-
mits to the inconvenience of suspense
and imperfect opinions."

When we look about us the earth
seems flat. Hills and mountains seem
to rest upon it as objects on a table.
For centuries the wisest men believed
the earth was flat and so taught their
pupils. The seeming truth of the
world's shape was disproved less than
five centuries ago. When the truth of
a simple physical fact, such as the
earth's shape, was so hard to come at,
it is small wonder that the truth of
facts involving human actions and the
truth of ideas and opinions is so dif-
ficult to learn.

We are wont to look upon history as
truth; but Carlyle defined history as
"a distillation of rumor," and Na-
poleon defined it as "a fable agreed
upon." While Voltaire, writing upon
one phase of history, pointed out: "So
many hidden causes are associated at
times with the apparent cause, so
many unknown springs may be at
work in the persecution of a man that
it is impossible, centuries afterward,
to discover the hidden source of the
misfortune, even of distinguished men."

Clifford Dickson, manager of the
Dickson Insurance Agency, in Tahoka
took his little son to Lubbock Tuesday
for an operation.

TEXAS CONGRESS OF MOTHERS

By Phebe K. Warner

The Texas Congress of Mothers was organized October 19, 1909. On that day this year the State of Texas will observe the birthday of one of the greatest organizations in the State. Only fourteen years have passed since this organization was created but today there are 800 affiliated Mothers' Clubs and Parent-Teacher Associations in the Texas Congress of Mothers.

These organizations are scattered from one corner of the State to the other. No other organization has had such rapid growth in the history of Texas. But there is just one reason for this marvelous growth. Look at this motto: "The love of childhood is the common tie which should unite us in holiest purpose." This is the compelling power of the Texas Congress of Mothers. The love of childhood is the strongest love in all this life. And when Mrs. Ella Caruthers Porter tapped the fountain of Mother Love in Texas and started that fountain to pouring out mother love for all the children of the State she set free the greatest power for good in the State.

There is nothing like it. Oh, where would this old world be today if all the mothers from the day the first woman ever became a mother until this hour had worked together for the welfare of all the children? Do you think our nation would lose 300,000 little babies every year through disease and ignorance and carelessness and overwork and bad food and crime? Do you think we would have the child labor laws we have? Do you think there would be so many unwelcome children in our land? Do you think three-fourths of our school children would be diseased? Do you think there would be so many homeless, friendless children drifting through life just living any way until they are old enough to make their own living?

The whole world and everything in it of human interest is utterly dependent on the children for its perpetuation. How many people are here today that were living a hundred years ago? How many people are here today and able to work that were here even fifty years ago? Just the few who have been so fortunate as to live beyond the average life of men and women. In fifty years from today the most of us will be gone. And a new generation will have taken our places. Most of them not born yet. After all what is our greatest mission in this

life? Is it not to leave a better generation to take our places than we have been? How many folks do you really think are thinking much about how folks are to live after them?

Here is the only difference we see between the mothers of today and the mothers of yesterday. Our mothers and our grandmothers loved their children just as dearly as the mothers of this day love their children. They gave their time and strength and all they had to their children. But they loved only their own. They may have loved all children but they had no way of proving it. They had no way of serving all children. They lived, suffered, labored and died for their own. Was their method of child rearing a complete success? If it had been we would be a more perfect world today. Have you ever asked yourself where all the selfishness of today came from? No do not blame it onto our mothers. She was as unselfish then as now. She seldom thought of herself, her rights, her comforts, or her pleasure. She was so completely buried in her home and family duties that she seldom ever thought of HER duty to all the children of the whole country. She did not know that she should or that she could. What is the result? Why, we men and women of this day who were reared by such devoted and indulgent mothers are the most selfish folks on earth. Most of us think the whole world ought to treat us and wait on us and humor us and put up with us just like our mothers did.

But day by day and year by year times have changed. Because with each new generation of free MEN a new generation of women were born with the love of freedom in their veins. Men have always thought of their fellowmen. It has been taught that they should since the creation of man. And women, being the daughters of men naturally inherited the same instinct to befriend women and to befriend their own blood. And at last women have seen that to protect their own children best they must protect all the children. At last women recognized their mission as world wide mothers and state wide mothers. At last women recognized there were duties in common for all motherhood. And on the 19th day of October, 1909, in the city of Dallas, a few mothers met from over the State of Texas and banded themselves together for the welfare of all Texas children.

In celebration of this event, Mrs. S. M. Marrs, president of the Texas Congress of Mothers and Parent-Teacher Association is urging every P. T. A. in the State to observe this day with an open program. Mrs. Marr suggests that this program be given at night that more of the fathers and teachers and children may attend. The object of the program is to help everybody better understand the great work the Mothers' Congress is doing throughout the State and Nation. Whether you have a Parent-Teacher Association or a Mothers' Club in your school district or not it would be a fine time to have such a program and organize one. Wherever there are enough children to make a school there are enough teachers to have an organization.

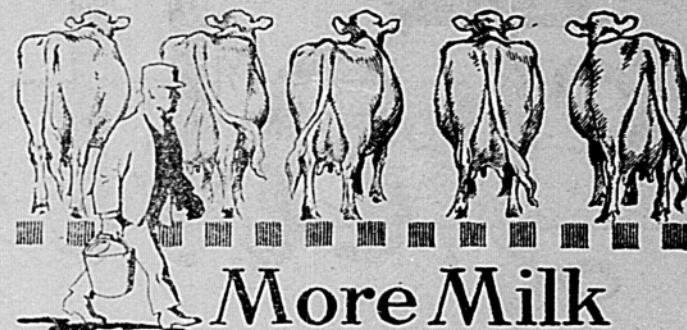

The following program is offered by the Texas Congress of Mothers for the occasion:

Program—October 19, 1923.
Song—America.
Congress Prayer—Page 3 in hand book.
Aims and Purposes—Inside cover of the hand book.
History of Organization—(See bulletin)—By President.
Message of State Chairman—(See bulletin)—Mrs. Ella Porter.
Message of State Superintendent—Mr. S. M. Marrs, Page 3, year book.
Message from State President—Page 12, year book.
Why a P. T. A.?—Page 6, hand book.
What the P. T. A. is NOT.—Page 24, year book.
What the P. T. A. has meant to our school.—By Superintendent.
What the P. T. A. has meant to our community.—A Parent.
What the P. T. A. can do for me.—A Pupil.
What the State and National organization does for the local.—Hand book.
What the local organization can do for the State and National.—Hand book.
The Endowment Fund.
Birthday Offering.
Social Hour.
If this program is not convenient then plan one all your own.

"Slimy Taste"

"When I feel stupid, get constipated, or bilious, I take a good dose or two of Black-Draught and it sets me straight," writes Mr. George B. Haislep, of R. F. D. 2, Columbia, S. C. "It cleanses the liver and I feel all right, and have not used any other medicine as I do not see the need of it. I am a guard at the State Reformatory, and have been for three or more years. When I first heard of

BLACK-DRAUGHT

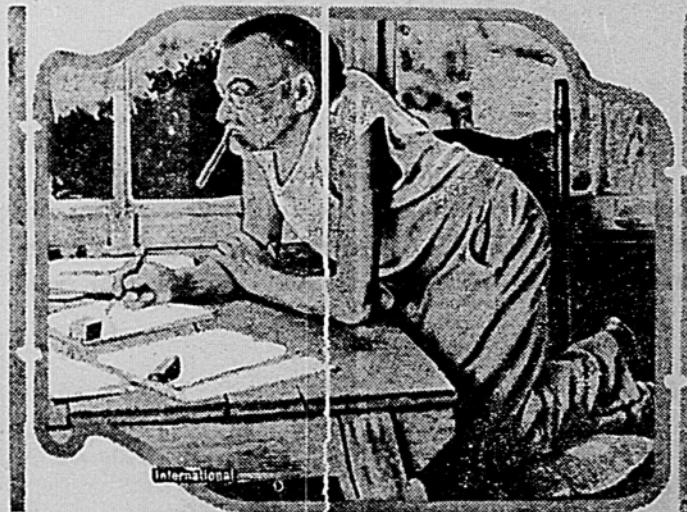

Liver Medicine

and the good medicine it was, I had been having a tired feeling when I'd get up in the morning. I would be stiff and sore, and had a slimy, bad taste in my mouth, but didn't think so much of it till I began to feel stupid and didn't feel like eating—then I knew I needed medicine. It was then I began Black-Draught, and I felt all made over, ready for any kind of work, ready to eat and sleep. So, for any return of this trouble, I take Black-Draught, and for 25 years it has been my medicine, and I wouldn't be without it at all. My work is constant. I am on my feet a lot. I am out of doors, and fresh air and Black-Draught are all the medicines I need. I recommend it to others for I know it is good."

Scene in the gasoline laboratory of the bureau of standards, Washington, after the explosion which resulted in the deaths of several men attached to the bureau and the injury of others.

To Maintain State Highways

accord with the provision of H. 11 of the regular session of the Twenty-Eighth Legislature, the State Highway Commission expects — on January 1, 1924—to take over the maintenance of all the designated highways.

For your further information we to advise that the State Highway Commission considers maintenance to mean keeping a road in as condition as it may be at the time it was taken over. No extensive improvements, either in quality or will be made upon any road by maintenance organization for the time that the funds provided are sufficient to make such improvements a part of maintenance, and have sufficient funds to continue making those progressive counties have voted bond issues, in building their roads.

There is reason to believe that in number of counties, the Commissioners' Courts are not expending respective portions of the Motor Vehicle Fees in maintaining the designated state highways, but are neglecting the maintenance of such highways in anticipation that the State Highway Commission will—on January 1st—do the necessary maintenance work which the Commissioners' have failed so far to do.

In these counties, roads are allowed to get in bad condition for lack of maintenance, the Highway Commission, as stated before, will maintain these roads in as good condition as they may be in when over January 1st, 1924, and citizens of these counties will only their respective Commissioners' Courts to blame for this condition.

If funds were available the Highway Commission would gladly take over and maintain all the roads in the state for the benefit of the people as a whole, but as a matter of fact, as justice to the counties have bonded themselves for the purpose of building good roads, the Highway Commission must keep in position to them. The law directs the Highway Commission to use their registration funds until January 1924, in maintaining designated State Highways. If the counties of the State are this and it would be an injustice to these counties for the Highway Commission to improve the roads of counties that have failed to do their duty under the law.

We therefore hope that the Commissioners' Court of the different counties will make every effort to

keep the designated highways, not only in the best condition possible, but to improve them as far as their funds will permit in order that they can be turned over to the Highway Department in good condition and be kept this way by our maintenance organization. We know that many counties are loyally trying to do this and we hope that all of them will realize the importance of such action.

J. D. FAUNTLEROY,
State Highway Engineer.

With the High School Classics

By MARGARET BOYD

(© by Margaret Boyd.)

"... death, a necessary end."
—Julius Caesar.

Suppose science could today check all death, then all growth, too, would cease; for all growth is at the expense of life. As Holland expressed it:

Life evermore is fed by death,
In earth and sea and sky;
And that a rose may breathe its breath,
Something must die.

Or suppose death were abolished for man alone. In a century or two there would not be space on the earth's surface to accommodate all that lived.

Renan, in welcoming Pasteur to the French academy, said: "Death, according to a thought admired by M. Littré, is but a function, the last and quietest of all." Then he added, of his own belief: "To me it seems odious, hateful, insane, when it lays its cold blind hand on virtue or genius."

Singularly enough, this last sentence implies what has seemed to various men to be one of the chief reasons why death is "a necessary end" of our existence here. If death were not to strike down genius, it might soon become impossible to limit the human race to this sphere. We have an inventor, for example, who has mastered the laws of gravitation, and enabled men to fly; we have another inventor who has enabled men to communicate with each other over long distances without wires; and we have a scientist who seems to be at the threshold of a knowledge of the origin of life. The minds of all these men are filled with knowledge that they cannot communicate to anyone else, cannot communicate to anyone else. Suppose these men were not to die—what might they not reveal to us! What might they not accomplish for us! Similar reflections led Willis to write, decades ago:

FOR SALE—Rhode Island Red Cockerels. Owen Farm Strain.

WHAT IS ADVERTISING?

ADVERTISING IS NOTHING MORE OR LESS THAN SALESMANSHIP. BY ADVERTISING YOU SELL TO SEVERAL HUNDRED PEOPLE AT ONE TIME INSTEAD OF TO THE SINGLE INDIVIDUAL. ADVERTISING DOES NOT BELONG TO THE REALM OF MAGIC. IT IS ABILITY TO TALK OF THE PRODUCT IN PLAIN, HONEST AND STRAIGHTFORWARD TERMS THAT APPEAL TO THE REASON AND DESIRES OF THE PEOPLE WHOSE TRADE IS SOUGHT.

HOW DO YOU ADVERTISE?—THERE ARE NO END OF WAYS IN WHICH YOU MAY ADVERTISE; THERE IS THE BILL-BOARD, THE CIRCULAR, THE POSTER, THE WINDOW DISPLAY, THE CIRCULAR LETTER, THE PERSONAL LETTER, BY WORD OF MOUTH, AND THE NEWSPAPER, THE BEST METHOD OF THEM ALL.

WHAT DOES ADVERTISING DO FOR YOU?—ALL ADVERTISING IS INTENDED TO CREATE GOOD WILL FOR THE PRODUCT OR SERVICE ADVERTISED. YOUR ADVERTISING SHOULD CREATE GOOD WILL FOR YOUR STORE THROUGHOUT YOUR TRADING AREA AND THEREBY INCREASE THE VOLUME OF YOUR ANNUAL TURN-OVER.

PLAINVIEW GETS PICKERS SENT OUT IN SERVICE CARS

Cotton pickers are being sent to West Texas in service cars over distances of several hundred miles.

Arrangements have been made between Plainview farmers and the Chamber of Commerce there for sending cotton pickers in service cars from Fort Worth to Plainview. C. W. Woodman, superintendent of the United States Employment Service, announced. As soon as sufficient cotton pickers for an automobile load have been corralled by Woodman, he telephones a local service car driver who takes the cotton pickers overland to Plainview.

The fare is guaranteed and is paid upon arrival in Plainview by the Chamber of Commerce. The farmers who get the cotton pickers then make refund to the Chamber of Commerce.

"Other towns in West Texas can make the same arrangements with this office by telegraphing or writing," Woodman announced.

The service car drivers charge for the trip the same amount charged by the railroads.

FOR SALE—Three Jersey cows; fresh with young calves. Apply to C. H. Jones, 2 miles Grassland. 7-4t

J. Menefee, and the Jacksons stopped over for a short visit with them, after a sojourn of several days at Henrietta.—Floydada Hesperian.

"SIMMONS CLUBS"

Abilene, Texas, Oct. 16.—The first of a chain of "Simmons Clubs" being organized and fostered by the Alumni Association of Simmons College in town through the Western part of the state came into being in Merkel during the past week. Some fifteen or more former students and graduates of the college, the majority of them teaching in the Merkel schools held a meeting and perfected organization of the club. The recently elected president of the Alumni Association, Mrs. Roy Bradley and Mr. Roy Bradley of Abilene, the field-secretary of the association, E. T. Miller, John Alvis and Josh Barrett, ex-students, journeyed over from this city to be present and assist at the meeting.

Holland Teaff, '20 was made president of the new organization, Miss Lucy Tracey, vice-president, and Julia Martin, secretary. The Merkel ex-students made big plans for the home-coming which is scheduled for Thanksgiving of this year. They also pledged support to the Alumni campaign for funds for the new men's dormitory now being constructed, and for the endowment drive.

The association plans organization of such clubs throughout many West Texas towns where numbers of Simmons graduates and exes will gather for loyal support of the activities now involving the association, especially the dormitory campaign.

OLD GRAY MARE BAND

Abilene, Texas, Oct. 16.—When the Old Gray Mare Band of Brownwood rolled into the station of this city Wednesday evening on the Sunshine Special en route as the official band of the Texas legionnaires to the San Francisco convention, they were given an ovation in their own language, so to speak, by the Cowboy Band of Simmons College. A delegation of the Parramore Post of the American Legion was at the station to greet the Brownwood representatives and to do honor to Alvin Owsley, National Commander, also en route in a special car on that train to Frisco. In order to meet the Old Gray Mare, herself, in fitting style the Abilene legionnaires drafted the Cowboys in their own famous and picturesque garb.

A big crowd of Abilene citizens had gathered to cheer Owsley and the Band and when the train came to a stop the tune that broke forth "was none other than the "Old Gray Mare."

The Cowboy Band has gained quite a bit of notice through this section of the state. They headed the Simmons boosters on the college special to Wichita Falls when the Cowboy squad played Austin College at the Texas-Oklahoma Fair; and the Wichita citizens received the college musicians enthusiastically. The Cowboy Band also journeyed this week-end to Fort Worth some twenty-five strong to furnish backing and pep for the gridiron Cowboys in the game against T. C. U. Horned Frogs.

Tahoka Home Damaged

During the electrically storm Thursday of last week the lightning ran through the telephone wire into the home of B. H. Robinson, in north Tahoka, and tore all the paper off the wall underneath the phone. No other damage was reported.

B. J. Leedy returned Monday from Dallas, where he went last week in company with W. J. Crouch to decorate and arrange the Lynn County booth at the State Fair.
