## Lynn County Conditions Best Erath

**J. F. McManis Says Old Lynn County Looks Good to Him and That We are in Better Condition than Counties East**

Mr. and Mrs. J. F. McManis and small son, of the New Home community, returned Thursday of last week from a two weeks visit to Erath county where they went to visit Mrs. McManis' father, J. E. Parmer, who lives about nine miles out from Dublin. A family reunion was held at the Parmer homestead at which every one of the 20 dependents were present, children, grandchildren and all.

Mr. McManis says he would not take anything for his trip. He says he had no idea that the country back in the lower counties was so rough, rocky and so crowded as it is; and most of the people, that is to say, the renting farmers, are in very hard circumstances. In debt and everything mortgaged to its full value. The county clerk told him that there were more mortgages on record in Erath county the first of January than there are voters in the county.

Mr. McManis says that if any of the farmers in Lynn county are dissatisfied with their circumstances here, "Just let them take a trip to their old home and that they will come back perfectly satisfied with Lynn county conditions."

He said that, "The risks certainly look good to me, and that the farmers of Lynn county have many reasons to be extremely thankful for the condition of their lot here."

This is a good year for the citizens of Lynn county to send The News to their friends and relatives back in the old home, so they may learn about the splendid opportunities cut here for making a home.

### I HOPE YOU WILL GIVE THIS YOUR ATTENTION

A young eastern lady would like to get acquainted with a gentleman of the west, this is a bold method of getting acquainted but is the only resort I have of becoming a westerner.

I am sincere and will marry if suited. I understand from my friends that there a good many in the west tired of single bliss and lonesomeness. Hence I am thankful to the editor if he publishes this article I would appreciate the acquaintance of an honest and honorable gentleman. For further particulars, please write to the undersigned.

C. E. L.  
P. O. Box 33  
Teledo, Ohio.

The young people of Tahoka had the pleasure of attending a dance in the Major's building on Main Street, Wednesday night. The weather was fairly warm and they had good music and every one reported a fine time. Several couples from the neighboring towns came over to enjoy the dance.

## Change Officials Of First National

**W. D. Nevels Elected to Vice Presidency and Retires From Active Business; W. B. Slaton is Elected Cashier**

The annual meeting of the stockholders of the First National Bank, of Tahoka was held on January 9th and the same board of directors elected for the ensuing year, the same officers were elected except W. D. Nevels was elected to the Vice Presidency and W. B. Slaton as Cashier.

All Parties interested are well pleased with the showing made by the bank for the year just passed and since going into the new quarters anticipate still better things for the future.

The Board of Directors passed an order to eliminate the overdraft feature of their business, which was necessary in order to comply with the demands of the Comptroller of Currency at Washington, and which was required because of the decision of our courts, and all customers of the bank will act accordingly.

The condition of the bank on January 1st 1912 compared with January 1st 1911 shows a steady growth in the business and is as follows:

Jan 1, '11—Jan 1, '12	
Cash	\$29,039.00—26,921.00
Sur & Prof.	4,645.00— 6,853.00
Loans—Disc.	57,425.00—68,001.00
Deposits	1,09,043.00—68,757.00

Mr. Nevels says he expects to retire from active participation in the bank affairs sometime in the near future in order to give his personal business more attention which he can not do and remain in active management of the bank. W. B. Slaton who has been assistant cashier will now take charge of the bank. Mr. Nevels says he wishes to thank their customers for their patronage in years past and to assure them of the banks desire to continue the same pleasant relations for the future.

From now on, no bills will follow the Lynn County News. If you are receiving The News and have not paid for it yourself, some one has and when the time paid for expires, The News will stop coming to you.

## TEXAS NEEDS GREAT MEN

XX. IMPOSTERS

**A** KING OF DENMARK was murdered by one of his subjects pouring poison in his ear and then seizing the throne. This method of acquiring power is frequently resorted to by modern politicians who are able to succeed only by pouring poison in the ears of the people and seizing authority. No government can long survive incompetent and inexperienced management. We must place in position of power men whose hands have held the plow and the hammer, whose hearts have felt the glow of industry and whose vision can sweep the horizon of twentieth century civilization.

POISONING A KING

Let those who would travel the golden roadway to fame first rise to the sublime peaks of human rights, soar in the lofty atmosphere of progress, scatter germs of civilization and conquer the world forces of progress. Texas needs great men.

### FOR TAX ASSESSOR

**Mr. F. E. Redwine Announces For Tax Assessor, Subject to Democratic Primary**

In this issue of the Lynn County News will be found the announcement of F. E. Redwine as a candidate for re-election to the office of Tax Assessor for Lynn County, Texas.

Mr. Redwine says he has no new promises to make for this campaign, but will repeat his old one, that he will do the very best he can to keep the affairs of the Tax Assessor's office up in good shape. He believes that he knows more about the requirements of the office than he ever did and that he is therefore better qualified to fill the office than when he was elected. Mr. Redwine courts the closest investigation as to the manner in which he has handled the business of the Tax Assessor's office and will appreciate the support of every satisfied voter in the county.

**WANTED—**

18-1f THE FAIR.

Emory Butler and his brother Charley were in town the middle of the week, trading with our merchants.

### FOR COUNTY JUDGE

**T. G. Marks Aspires to the Office of County Judge of Lynn County Texas**

We are authorized this week to place the name of Mr. T. G. Marks in our announcement column as candidate for the office of County Judge of Lynn County Texas, subject to the actions of the Democratic Primary.

Mr. Marks is a native of Missouri, and graduated at the Missouri State Normal. He has lived in Texas 23 years and has had 13 years experience as a teacher in the public schools of this state. He has been reasonably successful in handling his own business and feels fully competent to administer the affairs of Lynn County in a satisfactory and economic manner if they are entrusted to him as County Judge. Mr. Marks court's inquiry as to his qualifications to fill the responsible position to which he aspires. He wishes to carry on a straightforward and honorable campaign and will appreciate the support of the voters of Lynn County but will harbor no ill will against anyone who cannot give him their support. Inquire into his morals and qualifications and vote for him if you can consistently do so.

## Does It Pay To Advertise

**Ask The Manager of Any Mail Order House; Or Get Their Figures on the Amount of Advertising Done**

We mentioned advertising to a Tahoka merchant the other day and he said: "Every body in the county knows me." Possibly; but, does every body in Lynn county trade with him? Almost in the same breath he began to complain about the thousands of dollars he had out in accounts. Has he ever held out any inducements for the cash trade? Doesn't he charge just the same price for his merchandise to the man who pays the cash when the goods are wrapped up as he does the man who pays at the end of 30 or even sixty days? With the exception of an occasional "cash sale," he holds out no inducements whatever for the cash trade. And yet complains about his accounts. He says everyone knows him and where he is located; certainly, and as long as he sells goods on one, three, six and twelve months time he will not need to use any printers ink, for any merchant can get all the "time" trade he can handle for that kind of trade is self advertising, but who wants that kind of trade anyhow. Another thing about the credit trade is, he has no competition outside of Tahoka; while if he wants any of the cash trade he comes in competition, not only with the other Tahoka merchants, but with all of the neighboring towns and the various mail order houses as well. We can prove to the entire satisfaction of anyone, that there are several mail order houses spend more money for advertising in Lynn county than some of the Tahoka merchants do, and some of these mail order houses do a larger cash business in Lynn county than the "non-advertising" Tahoka merchant does, as could easily be proven if we had access to the mails.

Any merchant can do as much credit business as he can handle and perhaps make a living at it, if he has the capital, charges a heavy profit and is careful as those he gives credit. And he will need no clerks, for the man who gets his goods on time will raise no kick even if he has to wait an hour or two for his purchases, provided the "time" is long enough. He will need no advertising, for if a man is allowed to open an account he will come back again as often as the merchant will let him, and he will tell his neighbors too. It is a self advertising business; but, it is risky. The merchant who takes in the cash runs no risk whatever. However, a merchant who thinks he can sit in the back part of his store while the cash trade comes to him is badly mistaken. And when it comes to a question of the cash trade it is not the Tahoka competition that a Tahoka merchant need fear; it is the competition neighboring towns and particularly the mail order houses. Why? Because they are ever-

## Big Blizzard Hits Amarillo

**Worst Blizzar of the Winter Hit Amarillo Thursday Morning About 3:00 O'clock; Stock Suffering From Cold**

Amarillo, Tex., Jan. 11—Amarillo is in the grip of the worst blizzard that has swept the north Plains for years.

Soon after midnight last night the wind veered into the northeast and gradually shifted till it was blowing blue and cold out of the north and the thermometer fell with a thud. The warm southwest wind of yesterday had brought up rain clouds from the Gulf and when struck by the norther were soon congealed into driving clouds of snow, and by six o'clock the north Plain was in the grip of a howling blizzard.

This latest freak of the weather will probably cause the loss of a considerable number of stock as the cattlemen from all over this part of the Plain report cattle dying on account of the severe weather.

This storm is traveling southward and will probably have the south Plains in its icy grip by tonight.

Eld. T. A. Dunn, of the Primitive Baptist Church, will preach Monday and Tuesday after the third Sunday in January at the Tahoka Baptist church. Every one is cordially invited to come out and hear him.

Henry Lindley returned Tuesday from a trip to Comanche county. He said he believed it was colder there than here. He also said that general conditions are much better here than there.

**WANTED—**  
We want eggs at 25 cents per dozen (in trade.)  
18-1f THE FAIR.

### COLDEST SPELL OF THIS YEAR THURSDAY NIGHT

Thursday morning the wind veered from the east to the north and began to freshen and grew steadily colder until when night came it froze everything that was unprotected. By the time morning came the mercury had dropped to only two degrees above zero. It has cleared off and moderated considerably but is still exara cold as we go to press. We have heard of no damage done further than the bursting of numerous water pipes.

This morning after S. S. Ramsey, the contractor and builder, had built the kitchen fire he discovered that his water heater had frozen and burst Thursday night. The heater holds forty gallons, but Mr. Ramsey says at least fifty gallons of water ran out on the kitchen floor where it promptly froze in a solid sheet.

lastingly advertising. The only way the Tahoka merchant can possibly hope to compete with them is to get in the game and advertise for the cash trade.

## MEETING POSTPONED

On account of the cold wave which struck here about ten o'clock Thursday morning the revival meeting at the Methodist which began last Sunday was postponed at the morning service until the weather moderates.

The recent cold weather has kept our windmill doctor, Newt McReynolds, busy keeping the windmills in running order.

S. S. Ramsey and J. C. Nevill are repairing the south part of the Alley Building and putting it in shape to be occupied by I. P. Metcalf's restaurant and cafe.

Candidate cards at the News Office.

Will Cathey came in from his place in the south-west part of the county Tuesday and stayed over to the I. O. O. F. Tuesday night. He spent the night with Ed Redwine returning Wednesday morning.

Mr. Ben Franklin, Sr., of Draw, spent Tuesday night at the home of S. N. McDaniel.

A. J. King, one of our progressive farmers, spent Tuesday night in Tahoka.

## "LEAP YEAR PARTY"

The "Leap Year Party" given on Monday night January 1st, 1912, at the hospitable home of Mr. and Mrs. J. D. Donaldson in honor of Miss Ruby Black, was by the young people declared the most delightful occasion of the holiday pleasures, twelve couples being present.

A list was carried round and each girl checked the boy of her choice and made the date with him.

The merry bunch met at the hotel and came up in couples. Upon arriving the girls were ushered into one room and the boys in another. A pencil and a sheet of paper (with the name of a young lady present) was handed each young gentleman and was told to write a description of the young lady whose name he held.

Er M. M. Herrig was the lucky one receiving the prize for the best description. Every one called for a speech; it was great.

Miss Carter then favored us with a vocal solo, after which the proposing began.

Each girl had two minutes to propose and receive the answer and at the top of a bill she moved to the next expected girl.

When the ball had been rolled a young contest took place and Miss Carter carried off the prize for putting up the best proposal. Her speech caused roars of laughter.

Mr. Paul Miller was also awarded a prize for giving the best answer. He begged off and instead of a speech told one of the many proposals he received which was most truly laughable.

Miss Coy Williams, with her beautiful touch, played several selections on the piano.

A hat was then handed each young lady and she drew the name of some handsome youth and escorted him to the dining room where very dainty refreshments were greatly enjoyed by all.

When the happy couples returned to the parlor they were given a small piece of paper and told

Mr. J. B. Duke's Ploughing.  
In spite of the distractions of the Tobacco company's reorganization, Mr. James B. Duke bestows much attention upon the work of developing and beautifying his three thousand acre estate, Duke's Park, near Somerville, N. J. Not infrequently on his tours of inspection he personally directs the laborers. One day he took the plough from the hands of a slow, awkward foreigner, saying:  
"Here, let me show you how to plough a furrow. I've not forgotten how I did that when I was a boy in South Carolina."  
Another day he took the place of the boss of a gang of workmen and before he got through he dismissed five for inefficiency.

to write a "New Year's Resolution," containing not over twenty words.

After hearing them all read it was unanimous vote that Mr. Caine was entitled to the prize. He then rose and in the most impressive manner told of the first New Year's Resolution he thought of making, which sounded mighty fine to all, especially the girls.

Just as the cheering subsided Messrs Temp Skinner and Bob Ware drew fourth their stringed instruments and played, as it seemed to the listeners, as they never played before, for delight was plainly written on the face of every one.

When the strains of "Home Sweet Home" were slowly drawn across those string the realization came that 'twas time to say good bye.

The young men declared their delight that the year 1912 is a "Leap Year."

A GUEST.

## POST CITY IMPROVEMENTS

Planing for Power and Light Plant, Ice Plant, Cotton Seed Oil Mill, Other Items

Post city, Tex., Jan. 8--Post City is calculating more improvements in the way of the immediate rection of an electric plant to furnish lights for the city, and power for the mill and other factories. Also plans are being worked on for an ice plant and cotton seed oil mill.

The Double U Company had shipped in 150 fine black mule cattle. This stock of cattle is a start in the experiment that will be conducted by Mr. C. W. Post in showing the practicability of raising and feeding cattle in this section for market,—for this reason—the black mule cattle are settled upon, as considered by him, the best grade for that purpose.

Some of Mr. Post's ranch lands, he is cutting up, fencing and improving in the best manner for the leasing to stock farmers for a period of time.

Orders have probably been placed for a very complete telephone system for the town and outlying communities. This system will probably be the most complete in this part of the country, being an all-areal, central energy cable system.

The Double U Company, for the coming season, is preparing to cultivate some five or six thousand acres of land planting the same to kaffir corn, maize, cotton, sorghum, peanuts, e. c. It is necessary to that they raise a great abundance of feed adapted for the feeding of their mules and hogs. The January 1st 1912 inventory showed sixteen hundred and fifty head of hogs, many of them unroughed. It can be seen the immense amount of feed and pasture required for the vast increasing business of hog raising.

During the past decade the value of our property assessed as town and city lots, which includes the lands and buildings within our city limits, has advanced in value from \$189,760,828 in 1900 to \$500,255,235 in 1910, making an increase of \$311,495,410 or 167 per cent, but city property not being rendered at its true value it is likely that its actual increase in value will exceed \$600,000,000. No attempt is made to separate the value of the buildings from the value of the land within our city limits by either the State Comptroller or the Federal Census Bureau and the information is therefore not available.

The Federal Census shows that we have built 121 new cities during the past decade, and our city population has increased from 559,872 in 1900 to 938,194 in 1910, making an increase of 378,322 or 67 per cent. We now have twenty cities with ten thousand population and over, and three cities that approximate 100,000 in population.

The per capita increase in wealth of city population, taking the assessed value of city lots and buildings as a basis, has advanced from \$339 in 1900 to \$540 in 1910, making an increase of \$201 per capita or 59 per cent.

Compare these figures with those of the per capita increase in farm wealth and we find the farmer has made an increase of 117 per cent against an increase of 59 per cent within our cities. These figures prove that we have greater opportunities on the farm for money making than in the city and if our citizenship could fully appreciate the force of this comparison it would turn the tide of our population back to the soil.

Texas has probably suffered less from the rush of its citizenship from the farm to the city than any other State in the Union. While our cities have shown a rapid increase in population our farms have considerably more than held their own. Our cities have been built up by immigration, inter-state and foreign, and have drawn very little from the farms.

## Where There's A Will There's A Way

This is an old but a very true saying, and nothing does it apply with greater force than in the matter of saving money. It is not what one earns but what he saves that makes wealth. Why not start a saving account with us today? Our Savings Department is backed by the entire strength of the bank, affording security for every one. The large deposits and the small are welcomed alike. Deposits may be made at any time. There is nothing mysterious or complicated about opening an account. Indeed if one cannot come in person to the bank, a deposit may be brought in by some one else or sent us by mail. Through the registered mail service, every home can reach the bank, and we advise receipt of every deposit. A bank account will give you a better business standing in the community and may have never enjoyed before. You name would look well on our books. Let us put there today and your money will be bringing you an interest while you sleep tonight.

## First National Bank

Of Tahoka, Texas

## CITATION BY PUBLICATION.

THE STATE OF TEXAS

To the Sheriff or any Constable of Lynn County, GREETING:

Whereas, upon application made by the plaintiff, The Pecos & Northern Texas Railway Company, and in accordance with the statutes in such cases made and provided, the Honorable Geo. W. Perryman, County Judge in and for Lynn County, Texas, did on the 1st day of December, A. D., 1911, appoint the undersigned as commissioners to assess the damages, if any, to the hereinafter described property to be used by said plaintiff as right of way for its line of railway upon which to construct, operate and maintain its line of railway, and it appearing from the plaintiff's said application that the property in this proceeding sought to be condemned is the property of the heirs of Marcus H. Walker, deceased, and that the names and places of residences of such heirs are unknown to the petitioner.

You are hereby commanded to summon the heirs of Marcus H. Walker, deceased, whose names are unknown, to appear at the court house of said Lynn County, in the town of Tahoka in said county, on the 9th day of February, A. D., 1912, at 5 p. m. then and there to answer a petition or application filed with the County Judge of said Lynn County, Texas, on the 1st day of December 1911, in a certain condemnation proceeding wherein the Pecos & Northern Texas Railway Company is plaintiff and the heirs of the said Marcus H. Walker, deceased, are defendants, said petition or application being as follows, to-wit:

"The Pecos & Northern Texas CONDEMNATION railway Co.

vs. Heirs of Marcus H. WALKER, DECEASED.

HONORABLE GEO. W. PERRYMAN, COUNTY JUDGE IN AND FOR LYNN COUNTY, TEXAS.

Your petitioner, the Pecos & Northern Texas Railway Company, a body politic, duly incorporated under and by virtue of the laws of the State of Texas, having its principal office in the City of Amarillo, County of Potter, State of Texas, complaining of the heirs of Marcus H. Walker, deceased, respectfully represents that by the terms of its charter it is authorized and empowered to locate, own, operate and maintain a railroad through certain counties in the State of Texas, including the County of Lynn in said state, and for that purpose has authority under the laws of Texas, and also by the terms of its charter, to receive, take, hold or obtain any lands necessary for the purpose of locating, constructing and maintaining its line of railway that or railroad and other lawful purposes as hereinafter set forth, it is necessary for petitioner to have the possession and use of the following described tract or parcel of land situated in said Lynn County, Texas, to-wit:

All that certain parcel of land situated in the County of Lynn and State of Texas, the same being a part of Survey No. 13, in Block No. 24, located by virtue of Certificate No. 96 issued to the H. E. & W. T. Ry. Co., and more particularly described as follows: A strip of land one hundred (100) feet in width, being 50 feet wide on each side of the center line of said Pecos & Northern Texas Railway Company's main track as now located and constructed over and across said Survey No. 13; said center line intersecting

the east line of said survey at a distance of twelve hundred and eighty-eight (1288) feet south of the north-east corner thereof; thence with the North 42-15' West eighteen hundred and fifty-one (1851) feet to the north line of said survey; containing four and twenty-five hundredths (4.25) acres, more or less.

That petitioner desires to obtain the possession and use of the above described tract of land for the purpose of designating, locating and constructing a right of way and for the construction, maintenance and operation of a railway over and across said lands.

That said tract of land is owned and possessed by the heirs of Marcus H. Walker, deceased, but that said heirs are to petitioner unknown.

That the right of way required by your petitioner and described above has been surveyed and established over and across said property, and is now occupied by your petitioner, but the owners thereof being to your petitioner unknown it is impossible for any agreement as to compensation between your petitioner and said heirs of Marcus H. Walker to be reached; therefore, it is necessary that the said right of way be condemned as prescribed by the statutes of the State of Texas.

Wherefore, petitioner prays for the appointment of commissioners to assess the damages, if any, accruing to said heirs by reason of the location of petitioner's right of way and the construction, operation and maintenance of petitioner's line of railway over and across said lands, and for the condemnation of said tract of land for the purposes and uses aforesaid, in accordance with the statutes in such cases made and provided, and for general relief."

Herein fail not, but have before said undersigned commissioners at the time above set out, to-wit: on the 9th day of February, A. D. 1912, showing how you have executed the same.

Given under our hands at Tahoka, in said Lynn County, Texas, this 1st day of December, A. D., 1911.

## TEXAS PEACH CROP SELLS FOR \$7,000,000

OVER 4500 SOLID CAR LOADS SHIPPED FROM STATE

### TEXAS PEACH IS A WINNER

The Texas peach is the King of Fruits and the fruit of kings. It is invited into the parlors of the great and is welcomed in the hovel of the poor of both hemispheres. It has met its rival at home and abroad on most every table on the globe and by its natural beauty and delightful personality it has conquered all competitors and today its appearance in the market is an annual event of importance in every household in America and its disappearance is the consumer's regret. Public interest is so deeply centered in its arrival at the market that it travels in special trains running at full speed in order to relieve the anxiety of the waiting public and its welcome is so cordial that cold storage plants have been erected in order to prolong its stay in the community. Canneries and evaporating plants are run day and night during the peach season in order to preserve its eating qualities for the table of the nation during the entire year.

The family peach tree can be found in most every county in the State, but the commercial peach belt is confined largely to East Texas. The exact number of bearing peach trees in the State is not of record but competent authority estimates it at seven millions. During the peach season of 1910 we shipped to the market 4500 cars of peaches and supplied our local wants as well as run our canneries during the peach season.

The peach industry has been pouring into the channels of trade a golden stream of wealth. The farm value of the peach production in 1910 is estimated as high as \$7,000,000. The rapid growth of the industry during the past decade and the wide extension of the commercial peach belt has been one of the marvels of our development.

At first the Texas peach entered the market under an assumed name, masquerading as a California product, but it soon threw off its disguise and like all native Texas, stripped its competitors and laid its master—the world's trade.

### Population on Farms Increases Nearly Half a Million.

We have on the tax assessors rolls of Texas 156,946,934 acres of land, leaving approximately 11,000,000 acres of land not on the tax rolls which is owned by the State exempt from taxation, or assessed as town and city lots. The assessed value of land has increased from \$3.02 per acre in 1900 to \$6.51 per acre in 1910, making a total increase of \$550,000,000 in assessed land values and when we consider that land is assessed at probably less than 50 per cent of its true value, we find an actual increase in farm land alone of \$1,100,000,000. The Federal Census reports verify this estimate by crediting us with a net gain of \$1,130,939,000 or 163 per cent during the past decade.

According to the reports of our Railroad Commission we have built 3952 miles of railroad during the past decade and it is estimated that a mile of railroad will add \$64,000 per mile to adjoining property. Railroad construction alone has added a quarter of a billion dollars to land values. The facilities on all roads have been increased, enabling the products to reach the market earlier and in better condition, thereby increasing the value of production. The improvement of our public highways has had its effect in increasing values and the immigration agents are entitled to a large share of credit for our development.

Our rural population in 1900 was 2,488,838 and in 1910 the census reports give us 2,958,838, making an increase of 469,992 people on our farms. The wealth per capita of farm lands and buildings of our rural population in 1900 was \$160 and in 1910 it was \$347 per capita, making an increase of \$187 per capita or 117 per cent, which measures, in a way, the prosperity of the Texas farmer. We have opened up during the past decade 64,187 farms and now have a total of 416,477 farms in operation and the average size of our farms shows a decrease of from 357 acres in 1900 to 262 acres in 1910, or an average of 95 acres per farm, all of which has undoubtedly had a strong influence in increasing the wealth per capita of the Texas farmer.

## FIGS A POPULAR FRUIT

EVE'S FAVORITE BECOMES GOLD IN TEXAS PROGRESS.

### LARGEST ORCHARDS HERE

The fig was the early companion of man. Its leaves furnished the initial garments for our first ancestors, its fruit nourished early civilization and its foliage has shaded and sheltered man and beast since the beginning of time.

It has had more free advertising than any other fruit in the vegetable kingdom. It figured conspicuously in the episode that resulted in closing the Garden of Eden, the Savior used it in a parable and it is closely woven in ancient legends and in the history of nations. To mention the fig leaf makes mankind smile and to mention the fruit makes the whole world hungry.

It is the most sensational, romantic and popular of fruits. It threads its way through the literature of the world. It is a favorite with the sculptor and the painter; it is one of the most useful of medicines, and with the consumer it is the most popular fruit on the market.

The soil, climate and altitude of the coast country for one hundred miles inland is especially adapted to the hardy growth of the tree and the perfect maturity of the fruit and the skillful horticulturist has developed varieties especially adapted to natural conditions.

It responds generously to kind treatment, makes few demands upon its owner, its yield is reliable and abundant and the tree shows remarkable business instinct in making Texas its domicile.

The fig is the pioneer of Texas fruits and the numerous races of the tree have explored most every section of the State, but it has more thickly populated the coast country than any other part of Texas.

According to the Texas Almanac we have 3,710 acres now in commercial fig orchards on the coast country and the planting of an additional thousand acres is under contract. Galveston County leads in fig culture, having 1,235 acres. The largest fig orchards in the world are located in this county. The farm value of the annual output of one acre of bearing figs averages \$250 and the total value of the annual Texas output approximates \$1,000,000.

#### Impossible Road.

Chauncey M. Depew frequently deprecates the comparisons that are drawn between American and European railways.

"These comparisons are unfair to us," he once said at a banquet in New York. "When I'm told how very safe the European railway is I think of the Nola Chucky line."

"The president of the Nola Chucky line once waited on me to request an exchange of courtesies. I interrogated him, and he said proudly:

"On our line, sir, not only has a collision never occurred, but on our line a collision would be impossible."

"Impossible" said I. "Oh, come, I know that the latest automatic safety devices are excellent things, but impossible is a large word."

"It's literally true with us, sir," he replied.

"How can it be?" said I.

"Why," said he, "we own only one train."

#### Taxing Bachelors.

One of the smallest of the German principalities is undertaking a very big experiment in financial legislation. The diet of the elder of the two principalities of Reuss, which lie in central Germany, to the southeast of the Thuringian states, carried recently a resolution in favor of increasing the state income tax by 5 per cent. of the tax on incomes between £150 and £300, and by 10 per cent. of the tax on incomes exceeding £300 a year in the case of unmarried persons of either sex who have reached their thirtieth year. The diet consists of twelve members, and the resolution was carried by seven votes against five. The super-taxation of bachelors has often been proposed in other German states, and was jocularly referred to as a possible form of imperial taxation by the Emperor William.

## MILLIONAIRES MADE RAPIDLY IN TEXAS

ONE EVERY TWO DAYS RECORD OF FATHER TIME.

### PER CAPITA WEALTH GAINS

Father time, single handed, has been making millionaires of the Texas property owners at the rate of one every two days (or its equivalent) and his mint is running along with increased momentum. No gold mine ever poured forth its stream of wealth with such volume and perpetuity as that of the increased values of property in Texas, and no prospector can stake out a claim more promising than a Texas real estate investment.

The assessed value of all property has increased during the past decade from \$946,320,258 to \$2,388,500,124, making a net increase of \$1,442,180,866 or 152 per cent. As the assessed value represents probably not over 50 per cent of the true value of property, we find an actual increase in wealth of approximately three billion dollars during the past ten years. This remarkable increase in wealth must be attributed to either one of two causes; first, increase in property values, such, for example, as land worth \$10 per acre in 1900 and worth \$20 per acre or more in 1910; second, increase in property such as money, building material live stock and movable property coming into the State. However, a careful study of the figures justify an estimate of \$1,770,000,000 as an increase in property values and \$1,230,000,000 as an increase in property.

The amount shown as increase in property values is pure cream and measures, with reasonable accuracy the unearned increment on investments in property and shows a daily ten year average net increase in property alone of \$185,000. The amount shown as increase in property represents the flow of outside capital into Texas and gives a net daily ten year average of \$337,000.

In 1900 our assessed wealth per capita was \$310 and in 1910 it was \$610, making an increase of \$300 per capita or 97 per cent. Our population during the past decade has shown an increase of 27 per cent and our assessed wealth an increase of 152 per cent. No more forceful evidence of progress and prosperity can be produced than the above comparison and it speaks the dialect of every nation.

The apple has always played an important part in the history of the human race. It was an apple rosy and red that attracted the attention of Eve and she gave to Adam, who according to Holy Writ, "did eat" and ever since that eventful day the apple has been a favorite diet of mankind. It was an apple falling to the ground that stirred the brain of Newton and he gave us the laws of gravitation. It was an apple tree upon which grafters first plied their vocation and so successful were their operations that the profession has since flourished so rapidly as to menace civilization. It was a Texas apple that was awarded the first premium at the World's Fair in St. Louis in 1904 and no State has ever been able to wrest from us this undisputed evidence of our superiority as an apple producing State.

It is the most obedient plant in the vegetable kingdom and yields implicitly to the genius of man; it will change color, size, flavor, maturity and durability at the touch of a master hand. It is undoubtedly the most universal, resourceful and profitable of commercial fruits.

The northern tier of counties has long been known as the banner section in apple production, but is now dividing honors with the Pecos country and the Panhandle.

Some idea of the increase in the apple industry in Texas may be gained when we consider that the number of trees in the State today is more than five millions, while in 1870 there were less than 300,000 trees. The following table, taken from the reports of the Department of Agriculture, shows the progress

## CITATION BY PUBLICATION.

THE STATE OF TEXAS,  
To the Sheriff or any Constable of Lynn County—Greeting:

YOU ARE HEREBY COMMANDED to summon the unknown heirs of Isaac N. Pownall by making publication of this Citation once in each week for eight successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 72nd Judicial District, to appear at the next regular term of the District Court of Lynn County, to be holden at the Court House thereof, in Tahoka, on the Second Monday in March A. D. 1912, the same being the 11th day of March A. D. 1912, then and there to answer a petition filed in said Court on the 6th day of December A. D. 1911, in a suit, numbered on the docket of said Court No. 92, wherein B. T. Sumner is Plaintiff, and the Unknown Heirs of Isaac N. Pownall are Defendants, and said petition alleging:

That Plaintiff resides in Lynn County, Texas, and that the residence of the said heirs of Isaac N. Pownall is unknown to Plaintiff.

Plaintiff shows to the Court that he is the owner in fee simple of a 640 acre tract of land situated in Lynn County, Texas, described as follows: Survey No. 97, Abstract No. 278, Certificate No. 15, Block No. 1, Georgetown Rail Road Company, Original Grantee patented to Morgan A. Pownall, patent No. 22, date of patent Nov. 15, 1879, Vol. No. 51.

Plaintiff shows the Court that he purchased the land herein described, on the 30th day of Oct. 1901, and had his deeds placed of record in Nov. 1901, in Lynn County Deed Record, paying for said land a valuable consideration and the price of said land such price as other lands in Lynn County, Texas, were selling for at that time.

That he at once went upon said hereinbefore described lands, took his family and has lived together with his family from that time to this day, on said land. That he has put valuable improvements thereon, to-wit: Has improved about one hundred acres and has the whole 640 acre tract under fence. Has erected on said land a residence of the value of \$1,500.00, and other sheds and barns at a cost of several hundred dollars. That he has resided on the said land the ten years from November 1901 to November 1911.

Plaintiff represents that some parties representing themselves to be the heirs of Isaac N. Pownall are claiming to have an interest in this land and setting up title to same, thereby casting a pretended cloud on plaintiff's title to this land.

Wherefore Plaintiff prays that they be cited by publication to answer this writ, and that Plaintiff have his title cleared and be quieted in his possession. As in duty bound Plaintiff will ever pray.

HEREIN FAIL NOT, but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

WITNESS, J. W. Elliott, Clerk of the District Court of Lynn County.

GIVEN UNDER MY HAND and the Seal of said Court at office in Tahoka, Texas, this 6th day of December A. D. 1911.

J. W. Elliott, Clerk, District Court, Lynn County, 14-21  
By N. R. Skinner, Deputy.

Year	Population
1870	290,000
1880	550,000
1890	662,000
1900	1,485,000
1910	5,000,000

Texas offers to the orchardist a soil and climate that will give vigor and productive power to the trees, color and flavor to the fruit and an established reputation to the product.
