American Superfortresses "in two or three places" tonight (Japanese time).

Recorded by the Federal Communications Commission, the broadcast said it was the fourth incursion over Tokyo by the Superforts today.

The broadcast, intercepted by the federal communications commission, said that "all the planes fled southward, apparently with-

After radio Tokyo reported to the Japanese people that "a small Japanese mainland in several waves," it added:

About midnight, one or two planes appeared off the mainland and another plane came over the Tokaido district.

"In addition, shortly after 3 a m., a single plane appeared over the Shizuoka prefecture area and shortly after 5 a. m., another single plane came over the Tokaido area.

The Shizuoka area was badly shaken up by last week's earthquake and a resultant tidal wave which covered houses with water. Hence the flight may have been for photographic purposes to es tablish the damage sustained.

No mention was made of any Japanese fighter interception. The broadcast, not confirmed by American sources, said one or two of the raiders from the Marianas felw in on Tokyo over the Izu Schichito island group. They penetrated Tokyo skies about 7 p. m. Japanese time.

# **US CARRIES BRUNT** OF WORLD FIGHT

By ELTON C. FAY WASHINGTON, Dec. 12 (P) -

The United States appears to be satisfied with the sharing of Allied fighting strength on the western front.

On that front, where the world's greatest battle of attrition has developed, the United States apparently has committed more men and material than the other Allies in the theater. Asked about this recently, Sec-

etary of War Stimson replied that he is "convinced that all the Allies are contributing to the full neasure of their resources." The allocation of forces is

bined chiefs of staff of the United

States and Great Britain. The war

secretary, in talking to the press, declined to discuss percentages of is to be the hilarous story, "Casaallocation, but available information today gives an indication. On the western front there are The situation in Italy, however is reversed. There, Prime Minis-

ter Churchill reports, three-quarters of the forces are British or No other details as to his the minority. The heavy weight around the corner and gift buying are buying in bonds," in the Pacific war is American.

# FROM TOKYO HOLE On Approaches

American First army infantrymen and tanks moved today within a half mile of Duren, Roer valley defense key, capturing six fortified villages on its approaches and reaching the flooded river on a 1,000 yard front opposite the Dank Hurtgen for-

The approach to the edge of the ruined Brown City of 39,000, 20 miles southeast of Cologne, was at and around Mjriaweiler, which was virtually cleaned out.

These towns fell swiftly to Lt. Gen. Courtney H. Hodges' army: Hoven, 1 1-2 miles northwest of Duren and 500 yards from the Roer.

Pier, five miles northwest of Duren and four southeast of the central Roer bastion of Julich. Patrols entered the village Dec.

Merken, 3 1-2 miles northwest of Duren.

Merode, 3 1-2 miles southwest, Gey, four miles southwest of Duren. Heavy fighting continued around the town,, which final-

ly was cleared. Derichweiler, less than two niles west of Ruren. Shock troops of Lt. Gen. Courtney H. Hodges' army applied the greatest pressure to Duren along

he Autobahn, Hitler's superhighway, which leads to the Roer just north of the city. Other units captured Merode

lar by cellar through a string of two miles west of Duren. The U. S. 7th army advanced wiftly toward the Bavarian Palat-

inate after capturing the supply base of Haguenau, reaching within two and a half miles of the coundary at one unspecified point, I.t. Gen. George S. Patton's Third army fought slowly deeper into the Siegfried line in the

industrial Saarland at Dillingen and beyond Saarlautern, which virtually was cleared after nine days of violent combat.

Patton's heavy artillery moved up just behind the infantry to shell the Saarland cities of Zwelbrucken and St. Ingbert.

Nearly the whole front had rain and low clouds, preventing much aerial support. Medium bombers operating by instrument struck at Manhem, 15 miles southwest of Co' the They also hit Dorsel, 30 miles southeast of Duren. Thunderbolts attacked the fortified villages of Steckenborn and Rollesbroich which form part of the German front south of Duren.

# Severe Cold Is

By The Associated Press

Reassured by the weather bureau, that the crest of the most severe cold wave of the winter is on it's way out, Texas today began taking stock to determine the extent of damage inflicted by the sub-freezing temperatures and frost on winter crops.

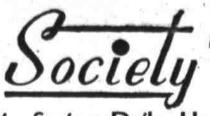

While the earliest killing frost in 24 years was recorded in the valley, growers generally were taking an optimistic view of the damage today pointing out that the bulk of the winter vegetable crop has already moved to market. Willacy county reported some damage to young citrus trees.

The Corpus Christi - Robstown trucking sector sustained little damage from low temperatures and frost with cabbage, onions and spinach apparently unhurt, a survey by the Corpus Christi Caller-Times revealed.

In it's midnight state summary the weather bureau revealed temperatures were slightly higher at many points than 24 hours previously.

Amarillo had 28 degrees, Abllene. 30; Big Spring, 36; Wink, 35; Lubbock, 34: Clarendon. Gainesville, 26; Wichita Falls, 29; Fort Worth, 33; Dallas, 31; Waco, 35 Austin, 38; San Antonio, 36; Sulphur Springs, 28; Navasota, 36;

switched to a peacetime joband remain there - can just as surely expect classification

Men Between Ages Of 26 And 37

It has not been determined yet whether local boards will give registrants who have moved to non-essential jobs time to get back to work contributing to the war effort.

It seems, however, that there will be some provision for this, since the primary purpose of revising the draft regulations to be announced this week probably will make no change in the list of essential occupations which draft boards have been using for months as a guide in granting deferments

The amended regulations are expected to set forth some spec-

And the oftener you enjoy it; the more extra iron you get in your diet. Scientific tests show that Brer Rabbit Syrup is a good source of iron and the iron is in a form almost completely available to help fill the body's daily need.

# PUSHOWER?

# THE JOB IN THE PACIFIC IS STILL TERRIFIC!

F you think Japan is a pushover-you're fooling yourself, mister. Millions I of fanatical Japanese are prepared to die for their country. Every American soldier, marine and sailor in the Pacific knows that he has a tough fight on his hands. You can't tell them their war is over! Even as you read these words, American men are dying in the fight against Japan.

Look into your heart and ask yourself honestly: "Have I stopped fighting? Have I stopped buying War Bonds because I think the war is about over?" You're not a quitter; your answer is "No!"

## It costs billions of dollars a month to fight Japan

The fight in the Pacific calls for a highly specialized type of equipment. B-29 bombers that cost \$600,000 in war bonds; M-4 tanks with bulldozer blades that cost \$67,417; "alligators" that cost \$30,000; millions of gallons of gas. We need more and costlier equipment than any war has ever called for. And that's the reason for the 6th War Loan Drive. Just as long as a single Japanese aims a gun at our men-we must continue to buy War Bonds.

Once again you are asked to buy at least one extra \$100 War Bond. Buy more if you possibly can. Not only is it for the final Victory-it's for your future. Sign up for extra War Bonds on the Payroll Plan. Welcome the Victory Volunteer when he or she calls at your home. Remember-the job in the Pacific is still terrific. We're out to get Japan in the 6th War Loan Drive!

# We Invite You to Taste this Richer Kind of Coffee

#### Treat yourself to a new coffee enjoyment in Mountain Grown Folger's at no extra cost

Many people go through life putting up with imadequate coffee flavor because they assume that all coffees taste about the same. True, many brands are similar in taste but if you will step up to a different kind of coffee then you can have an entirely new coffee enjoyment. So try this richer kind of coffee not.

ost another brand but a different, richer kind . . . Different because it is mountain grown . . . Richer because it comes from the coffee growing paradise of the world in the Tropical Americas where brilliant sunshine, abundant rainfall, even temperatures and volcanic soil combine to produce a miracle of coffee flavor.

The richer flavor you enjoy in an can be directly measured in the sovings you enjoy in the economy of making the coffee; for its richness makes it pos-

sible to use 1/4 less coffice per cup. Enjoy this richer kind of coffee now when it can add so much to life's enjoyet ask your groote for Folger's:

# Not Accomplishing Much

Aside from constituting a source for copy, we can see little hope of accomplishments by the current congressional committee junket to the Eurohean war zones.

To be sure it may give the congressmen some first hand pictures of what is going on, but they cannot hope to accumulate sufficient, balanced information in the short space of time they will be among the men for the basis of broad action. What they see will be more or less like taking a few pages or a chapter out of a ponderous novel.

About all that has come to the public attention thus far is the many antics of Rep. Clare Luce, whose proclivities for stirring up teapot tempests might entitle her to apply more conventional spelling to her surname. Some of the solons have sent word back that we are not getting a clear picture of what is going on in the war. That may be true, but it is not particularly news. The picture sent back by correspondents is as clear as over-zealous and sometimes mutton-headed censors will permit,

We venture if more steps will be taken such as by Gen. Patton in lifting many restrictions on correspondents with the Third Army, the picture correspondents will send back will be a lot more accurate, unclouded by personal bids for fame, will require a lot less loss of time and equipment than needed to wheel the congressmen around, and in the end will save the taxpayers a penny or so.

#### Adult Interest Is Needed

Dr. Huber Hurt, director of reading for the Boy Scouts of America Sunday listed seven things he wanted for youth, and we believe these will bear repeating.

They are: A chance to do something on their own; to bear responsibility; to be dealt with as an individual; to have adult friends; to have appreciation; hobbies and skills, to learn to love democracy; and to have a touch of the religious in their lives.

Scouting fortunately inculcates these objectives in its program. That is how it has such an enviable I of citizenship training and character building over these nearly 35 years.

Dr. Hurt's objectives, it might be noted, are not improvisations as so many of the so-called solutions for our juvenile problems. It also might be noted that one of his points includes "adult friends," which calls to mind the oft repeated and still timely reminder by H. D. Norris, local field executive. that time is the thing most needed in solving the youth problem. If we can find enough men and women who will give time to boys and girls, we need not worry.

# The War Today

by Dewitt Mackenzie Associated Press War Analyst

Word from London that Germany reportedly is getting set to launch a counter-offensive in 1945 means-if the report is substantiated-that she has real hopes of standing off for a considerable period any wholesale Allied invasion of the reich.

Well, it must be admitted that the way the tides of fortune have been favoring the Hitlerites on the western front does provide some basis for their hope that they may be able to continue their delaying actions for a time. Foul weather, floods and mud-plus Allied transportation problemshave done for the Nazis what their military skill couldn't have done with the badly knocked-about war machine at their disposal.

Naturally the longer the Germans are able to keep an all-out Allied offensive from maturing, the better will be their chances of getting ready for a counter-blow in the new year. More young school-boys will have got big enough and strong enough (irrespective of age) so that they can be flung into death's meltingpot-for mere kids are dying for Hitler these days. Vital supplies like synthetic oil and gasoline may be replenished somewhat.

Now of course there are counter-offensives and counter-offensives, and we shouldn't assume that the Hitlerites contemplate a great drive with ground forces. As a matter of fact I don't believe they can have that in mind for it would be futile against the vastly superior armies opposing them.

The reports received in London from many sources seem to concern the development of 'secret' weapons-improved flying bombs and rocket bombs, and a submarine equipped with radical new devices for underwater breathing. This leads to the thought that the projected counter-drive will revolve largely about these inventions. In other words it will be a long-range counter-offensive which they even hope to make effective in some degree against

The Germans boast that improved bombs will be ready for use in the immediate future. In fact they claim that the V-3 can be sent against New York City before this year is out. That's a threat not to be ignored, though it's nothing to get panicky about.

There's no argument about the submarine device, for the Allies know it has been developed.

# His Idea Builds Assault Ships Faster

You'd have to be a welder to appreciate the welding machine improvement that Jesse S. Sohn thought up in a U.S. Steel shipyard. But it's a welding device that helps turn out LST's there faster than ever. "Suggestion Boxes" in U.S. Steel plants encourage new ideas among workers and help them win suitable rewards and promotions. New ideas by ingenious, enthusiastic workers helped raise production of U.S. Steel products to an all-time high during the major part of 1944.
