

LYNN COUNTY NEWS

Volume XVI

Tahoka, Lynn County, Texas, Friday, November 14, 1919

Number 10

Lynn County Has Good Thriving Towns

TAHOKA
Tahoka is the county seat. It has a population of 1500. It has a number of very fine brick blocks, a magnificent court house which was constructed at a cost of \$100,000 before the cost of material and labor had made such advances. There is also a fine high school building here well equipped, nine month school term, with all the grades usually carried in high schools.

WILSON

Wilson has a population of about two hundred, is on the Santa Fe, in the northeast part of the county, and like Tahoka is surrounded by a fine farming country, and is sure to make a fine town when further developments are reached. Wilson also has a fine school, churches, a number of business houses and a fine class of citizenship.

O'DONNELL

This town is located in the extreme South part of the county on the Santa Fe. It has a population of about 300. Has lumber yards, gins, a number of business houses, a good school, churches, and is surrounded by fine agricultural lands.

To the man seeking a home, Lynn county should be very attractive, indeed, as lands can be purchased as reasonable as any section of the plains country, and on reasonable terms, if desired, and as the soil is easily cultivated, and the seasons are open more months in the year, a man can cultivate and gather a much larger crop here than in the east. It will pay you to investigate Lynn county for farming, stock farming, or poultry raising, as a man with any ambition to succeed will make good in any of these lines.

Mrs. Minnie Roberts, matron of the Girls Rest Cottage Association, at Pilot Point, Texas, was in Tahoka this week soliciting funds for the home. She received many subscriptions from Tahoka people.

Mrs. W. E. Penney returned to her home in Lubbock Friday. Mrs. Penney had been here several weeks attending the bedside of her daughter, Mrs. J. E. Stokes.

Mrs. F. S. Walker and children, of Amarillo, returned home the latter part of the week, after several days visit with her parents in Tahoka, Mr. and Mrs. L. L. Williams.

Gordon and Clifford Greene left for Post Tuesday where they have a position with the Greene Oil Well Drilling Co. which will drill a test well near Justiceburg.

Mrs. A. D. Shook and grandbaby, Adella, came in Monday from Desdemona, on a visit with relatives.

Newell Bryan, of Lubbock, an employee of the Bradley Auto Co., was in town a short while Monday.

Public Weigher R. C. Wood reports that he has weighed out 1363 bales of cotton in Tahoka thus far.

Extra copies of the News are 5c each.

Singing Convention

The Singing Convention will meet at New Home on the fourth Sunday of this month, Nov. 23. A cordial invitation is extended to all. Each class is asked to elect their delegates to attend to some important business.

W. L. LEE, Pres.

Mrs. Ben King Dies At Gorman Tuesday

The sad news was received here Tuesday of the death of Mrs. Ben King, which occurred at Gorman, Texas, November 11th. Mrs. King's death was caused from a complication of diseases from which she had suffered several weeks.

She leaves a husband and three children, two sons, Bonnie and George, and a daughter, Floyd, to mourn her departure from this life.

The family accompanied the remains to this city, which arrived here Thursday afternoon, and were laid to rest in the Tahoka cemetery, the funeral services being conducted by Rev. L. L. F. Parker, pastor of the Baptist church, of which denomination deceased was a member.

The sorrowing ones have the tenderest sympathy of the people in this community in the loss of a true wife and a kind and loving mother.

Otus Reeves, real estate man of Plainview, was in town yesterday, on business matters. Mr. Reeves recently became owner of the Shook two-story building, now occupied by the postoffice. He stated to the News man that the building would soon be vacated by the postoffice and made ready for another line of business. This is one of the nicest buildings in Tahoka, being well located and is not likely to stand idle for any great length of time.

Grassland Notes

The Baptist church here has called Rev. D. W. Reed for another year at a greatly increased salary. This is his fourth year as pastor here.

There has been 725 bales of cotton ginned here to date.

If the weather continues good, we will probably get 1000 bales by Saturday night.

Carlos Beasley went to Lubbock Monday in Mr. Walker's truck after a load of freight.

Thomas and sons have purchased a Fordson tractor which they are using in hauling seed to Tahoka.

The frost Tuesday morning put a quietus to all vegetation.

Calvin Cooper and Miss Nannie Bullock drove to the home of Rev. Reed and were married Sunday evening. This is the fifth marriage in five weeks.

Scribe.

H. H. Greene and family left Tuesday for Post their future home. They made many friends the short time they were in our town who join us in wishing them success where ever they go.

J. E. Stokes will probably leave the latter part of this week for Dallas and Fort Worth, where he will purchase a car of furniture and enter the furniture business in Tahoka.

Mrs. F. E. Redwine visited with Mrs. and Mrs. W. B. Bishop of Wilson Monday.

Mrs. Marlin Jordan and baby arrived from Ranger Monday and will visit in Tahoka several days.

Rev. L. L. F. Parker transacted business matters in Slaton this week.

Douglas Henderson, of Amarillo, was visiting with his parents in Tahoka the past week.

B. F. Montgomery, grain buyer, made a trip to Wilson Tuesday.

Tahoka Hotels Close Dining Rooms This Week

Tahoka can no longer boast of having hotel dining room eating service. This week the Tahoka and St. Clair Hotels closed their dining rooms on account of not being able to secure sufficient help. The St. Clair will continue to give cafe service which has been in operation for several months. The Tahoka will keep roomers, but will serve no meals. Many regular boarders at these places will be forced to secure meal tickets, or else learn to cook their own meals.

The Show-Down

The demands of the mine workers were unreasonable. The people of America were against granting these demands. The miners made a brave fight, but in the end they realized that the government, which in truth is the general public, was against them and that the strike was doomed.

Had the miners held out longer suffering would have followed, as coal is the popular fuel in this country. But when they realized that they were playing a losing game—that the public was against them, they gave in. Mr. Lewis, in his statement, mentioned the fact that the miners made this move under protest, and that their only reason for calling off the strike was to prove they were American and that they had no intention to go against the government. So far as the general public is concerned, the people who have opposed the strike, care very little about the inside workings of the miner's union. The people of this country want only justice, and they have demanded it.

The miners have at least for one time failed to secure sympathy. The rebellious spirit which was displayed immediately after the injunction was signed proved that they did not have the proper respect for the American government. Later it appears that the leaders realized their standing and in order to clear themselves called off the strike. That was the one great move that America had looked forward to. The miners have failed in their attempt to bully the American people. They have confessed their weakness and are now ready to accept any just and legal settlement.

Let the good work continue.—Amarillo News.

Tuesday Was a Holiday Over the United States

Last Tuesday, November 11th, was Armistice Day, and was observed by every city, town and hamlet in America as a legal holiday. The time was spent by citizens in Lynn county in the cotton patch, every man, wife and children going out early and coming in late. Many hundred school children are helping gather the immense crop. As high as \$3.50 per hundred is being paid for pickers.

Negro Shot at Lubbock

LUBBOCK, Nov. 11.—An unknown negro was shot and fatally wounded at Posey Switch, south of Lubbock, this morning. Emmett Thomas, another negro, was captured after an exciting chase of several miles, and is lodged in the jail at Lubbock charged with the shooting.—Amarillo News.

Mr. and Mrs. W. O. Thomas, of O'Donnell, visited with C. A. Thomas and family Sunday.

Baptist Fifth Sunday Meeting to Meet at Southland

The Brownfield Association will convene with the Southland Baptist Church Nov. 28-30, 1919.

PROGRAM.
FRIDAY, NOVEMBER 28

10:00 a. m. Devotional.....Pastor Earls.
10:20 a. m. Deacons'.....J. H. Mc-
10:50 a. m. Stewardship.....J. E. Anderson.
11:30 a. m. Sermon.....J. M. Rankin.
1:40 p. m. Devotional.....Rev. D. W. Reed.
2:30 p. m. Board Meeting
3:00 p. m. Baptist Responsibility.....H. D. Heath.
3:30 p. m. Baptist Opportunity.....L. F. Parker.
6:30 p. m. Devotional.....Rev. J. G. Cole.

7:30 p. m. Our 75 Million Campaign:
(1) Its Initiation.....J. Pat Horton.
(2) How to Win It.....J. E. Anderson.
(3) Its Results.....J. H. McCauley.
(4) Round Table.....Four Minute Speeches.

SATURDAY, NOVEMBER 29.

9:30 a. m. Devotional.....G. J. Stearns.
10:00 a. m. Baptist Growth on South Plains.....J. M. Rankin.
10:40 a. m. Baptist Education.....H. D. Heath.
11:20 a. m. Sermon.....J. Pat Horton.
1:40 p. m. Devotional.....H. R. Timmons.
2:00 p. m. A Final Word From the Organizer.....L. F. Parker.
2:30 p. m. The Last Appeal From Publicity.
Director.....J. H. McCauley.

SUNDAY, NOVEMBER 30

Church Services on 75 Million Campaign.
(COMMITTEE.)

T---News

We sure having some cold weather these day. Jack Frost has visited us several times of late and it makes things look bare.

Mr. and Mrs. R. T. Bohannon visited at the Estes home Sunday.

Messrs. Holsten Grimes and Hodges from the Midway community are helping W. W. Waltrip gather his cotton crops.

Mr. Simpson and Tyler have got them a new car. Martha Ann wonders what pretty girl will get to ride in bachelor Tyler's first.

Miss Pauline Bohannon and Mr. and Mrs. Charlie Tunstall returned from Waco the last of the week.

MARTHA ANN.

W. H. Green and daughter, Miss Lucy, of Chattanooga, Tennessee, are here prospecting this week.

Coal Strike Getting Serious in Tahoka

The coal miners which went on strike November 1st, is still in force up this time and is getting serious in this section of the state. In Tahoka, as well as many other towns over the South Plains, the coal dealers are entirely out, and orders for fuel is piling up on them every day.

If matters are not remedied in the very near future people will suffer over the state if cold weather would strike us. The weather the past week has been cool enough to require fires.

Dr. C. C. Jesse, of Chicago, Anti-Saloon lecturer, spoke at the Methodist church last Tuesday night on prohibition. Only a small audience greeted the speaker as many people are busy gathering the cotton crop.

The West Texas Gin Company had the misfortune to get a steam pipe blown out the first of the week which caused them to have to shut down a few days.

H. M. McCormack returned Monday from Dallas.

Methodist Conference Held At Lubbock This Week

The Annual Conference of the Northwest Texas Methodist Episcopal church, began its session at Lubbock on Tuesday of this week. Rev. R. F. Dunn, pastor of the local church, and lay workers, were busy the first of this week rounding up their year's work in order to have reports ready for that occasion. Bro. Dunn left for Lubbock early Tuesday.

It is believed that the Tahoka church will have an excellent report to make at this session of the conference.

The regular conference began on Wednesday morning, Nov. 12th, and announcement of the appointments for the various churches over the district will be made next Sunday night.

It is hoped that Bro. Dunn will be returned to the Tahoka church for another year. He has served the church here the past three years.

E. Burdette and son, of Baylor county, were prospecting here this week. Mr. Burdette stated to a News reporter that he was contemplating moving to our city in the very near future. He secured several copies of the News to send back to friends in that county, who are looking for a new location. We would say to them, to come to Lynn county, one of the best on the South Plains of Texas.

Prof. Zornes, formerly superintendent of the Tahoka Public schools, was a business visitor in our city the first of the week from near Brownfield.

Miss Margaret Jones, of Lubbock, who taught in our school last year, was the guest of her aunt, Mrs. B. F. Montgomery Sunday.

Some Cold Weather in Lynn County This Week

Lynn county has experienced some severe cold weather this week. Early Wednesday morning a cold wind blew down from the north, the thermometer registering about 18 degrees above zero. Ice was plentiful Thursday morning. The extreme cold weather has retarded the gathering of the cotton crop to some extent. Living vegetation exposed to the weather has been killed.

W. C. Wells, Asst. Cashier of the First National Bank, is taking a few days off from his work. Mr. Wells contemplates establishing a hardware business in Tahoka in the Wells building on the southwest corner of the public square, but it is not known definitely at this time just when the store will open.

C. L. Aldermen arrived yesterday by way of Lamesa from Big Spring. Mr. Aldermen is president of the Western Telephone Company and intends to move with his family to Tahoka at an early date to make their home. The family will occupy rooms over the Guaranty State Bank.

Bert Williams made a business trip to Amarillo since the last issue of the News.

The News editor made a business trip to Plainview and Lubbock the latter of the week.

Mrs. G. W. Harrison returned Friday from a visit with her son, B. P. Harrison of Midland.

Mrs. R. F. Dunn left today for Lubbock to attend the Methodist Conference.

More Cars Coming, Says Marvin Jones

F. R. Jamison, Sec'y P. P. C. C., Amarillo. Director General of Railroads advises that on November 10th sixty-nine cars passed Newton and eighty cars passed Wellington enroute to Plains division Santa Fe. One hundred and twenty-four cars received through Sweetwater now enroute to Amarillo. All these to be loaded in Panhandle of Texas. Also two hundred and ninety picked up and received on orders at Kansas City and sixty-nine at Chicago good part of which will be assigned to Panhandle Plains division Santa Fe, making total six hundred and thirty-four cars enroute.

(Signed) MARVIN JONES.

M. M. Herring, wife and daughter left for Ft. Worth where they will reside for a few months. Mr. Herring did not burn the bridges behind him. Tahoka's latch string is always hanging out for such citizens as M. M. and family.

H. M. McCormack has leased the Bailey brick building between his Hardware and General Merchandise stores, and will enlarge his stock, in order to accommodate his large trade.

Mr. and Mrs. Hal Bradley accompanied by Mrs. J. T. Woolridge passed through Sunday on their to Lamesa where Mr. Bradley went to deliver a car.

Mr. and Mrs. Joe Baldrige, of Lubbock, accompanied by Mr. Baldrige's mother were the guests of Mrs. B. F. Montgomery Sunday.

S. B. Thomas, of Gause, father of Mrs. L. F. Parker, arrived Wednesday to visit his daughter and look after his land he owns near New Home.

Miss Quace Chewning went to Post Tuesday where she will reside for a short time. We prophesy she will return in the near future.

Douglas Henderson, of Amarillo, is visiting his parents, Mr. and Mrs. Howard Henderson for a few days.

Mrs. W. C. Wooten, of Clovis, N. M., was here this week in the interest of their land they own east of town.

Rev. L. W. Williams, of Slaton, missionary for the Brownfield Baptist Association, was in our city Tuesday.

Mrs. Charley Shook and children came in from Eastland Monday on a visit with her parents, Mr. and Mrs. H. C. Crie.

Craven Wasson, of San Angelo, was a business visitor in Tahoka the latter part of the week. Mr. Wasson formerly resided here.

Mrs. W. O. Thomas, of O'Donnell, has accepted a position in the Bank of O'Donnell, and has entered upon her duties.

Champion Cotton Picker

We were summoned to the First National Bank to witness a check earned by one boy, Carson Smith, of New Home, for picking cotton one day. It covered the neat sum of \$19.50 the amount paid for picking 650 pounds. If any one has beat this, we would like to hear from them. Come to Lynn county, where labor is plentiful and wages are good.

MINERS AND PUBLIC ASSURED PROTECTION

GOVERNMENT PUTS ON FIGHTING CLOTHES IN PREPARING TO CONTROL COAL STRIKE

PROFITEERING IS PROHIBITED

War-Time Prices Re-established and Priorities List of Industries for Fuel Announced

Washington.—The government has put on its fighting clothes to meet the coal strike.

While order after order popped out with startling war-time swiftness, the long arm of the law reached out to protect the public and those miners willing to remain at work in the face of union demands to quit.

Most drastic of all moves is the order of the railroad administration for seizure of coal in transit for roads requiring it, with rationing of stocks on hand to essential industries.

So far as the government is able to prevent, there will be no profiteering while the grim specter of winter, with coal bins dangerously low or bare, looms big and close at hand. Almost the first step was drafting of an order fixing a maximum price for all grades of coal. Re-establishment of the priority list will put coal where it is most needed and if it comes to that the government will curtail consumption.

Breaking down the barriers which had kept members of the cabinet away from his sick room, President Wilson has taken a hand in the fight and personally approved every detail in the general plan of dealing with conditions likely to arise with the walkout of the soft coal miners. The president, propped up in bed, went over with Attorney General Palmer the various steps, heard what orders had been issued and was put in intimate touch with all arrangements. The president, it was said, was especially gratified to learn of protective measures, both for the homes and the mines.

State and city police and regulation constabulary forces will be used first, and troops will be called only as a last resort, according to those familiar with the program. Secretary Daniels announced that sailors and marines will be shifted to land duty and attached to military organizations, if their services are demanded by the president.

LAST AMENDMENT TO TREATY HAS BEEN SWEEPED ASIDE

Fight Is Launched on Labor Provision and Bids Fair to Be Long

Washington.—The 48 amendments attached to the peace treaty by the foreign relations committee have passed into history. The last survivor of the group, a proposal by Senator Moses (Rep.) of New Hampshire, to revise voting strength in the league of nations, has been consigned to the discard in the senate by a vote of 47 to 36.

As if gaining impetus by this accomplishment, the senate then upset two more proposed textual changes in the treaty, brought in by individual senators. One of them, presented by Senator Sherman (Rep.) of Illinois and proposing to write into the treaty preamble a reference to the deity, was laid on the table by a vote of 57 to 28. The other, sponsored by Senator Johnson (Rep.) of California, offering a new solution for voting inequality in the league, was killed outright by a count of 43 to 35.

The effort to hasten final action has struck an obstacle which seems likely to prevent further progress for several days. A determined group of senators will launch a fight to eliminate the labor section of the treaty, opening a debate which, in view of unsettled labor conditions over the country, is expected by the leaders to last for at least a week. The battle is expected to be the more spirited because it is regarded as holding out whatever hope remains of writing any amendment into the treaty.

MEXICAN RAILROADS TO BE RETURNED TO OWNERS

Announcement From Mexico City That Merger Made in 1908 Will Be Dissolved

Laredo, Texas.—The great merger of the railway system of the republic of Mexico, which was effected in 1908 under the administration of the late President Porfirio Diaz, when all the railroads operating in Mexico, including the Mexican National line from Laredo to Mexico City, were merged into what has since been known as the national lines of Mexico, is to be dissolved and the various railway properties are to revert to their private owners.

Sends Officer Into West Virginia

Chicago, Ill.—Colonel E. H. Humphrey, chief of staff to General Leonard Wood, commander of the central department of the army, has departed for Huntington, W. Va.

Robbing Graves of Soldiers' Bodies

Brussels.—Grave robbing in military cemeteries has become more or less frequent of late. The thefts of bodies are generally committed by persons hired by families anxious to have their dead brought to a particular cemetery.

JOHNSON AMENDMENT IS REJECTED 28 TO 40

ADMINISTRATION FORCES TAKE BY SURPRISE BARELY BLOCK REPUBLICAN PLAN

Washington.—By a vote of 38 to 40, the senate has defeated the Johnson amendment to the peace treaty to equalize voting strength within the league of nations. The vote came unexpectedly at the request of Senator Lodge after Senator Hitchcock, administration leader, announced he would ask for unanimous consent to vote at 1:30 p. m. Monday.

"I see no reason why we cannot have a vote right now," Lodge declared, and the roll was called without a further delay.

Republicans voting against the amendment were:

Coit, Edge, Kellogg, Keyes, McCumber, McNary, Nelson and Sterling.

Gore was the only democrat who voted for the amendment.

Immediately after the defeat of the amendment Senator Johnson of California introduced a second amendment which seeks to accomplish the same object as his first one.

A number of senators were absent when the roll was called, no advance notice of the vote having been issued.

The final result, however, would not have been changed, as all absentees were paired with senators taking opposite positions.

TEXAS PRINTERS ADOPT NEW NAME AT CONVENTION

R. C. Dyer of Dallas Is Elected First President of Texas Typothetae

Dallas.—Selection of a permanent name, election of officers and a decision to use a standard cost finding system among printers of Texas were matters of business completed at the final session of the convention of the Master Printers' association in Dallas.

The new name of the association is the Texas Typothetae, a term that is used almost universally throughout the country for printing organizations. Officers elected were president, R. C. Dyer of Dallas; vice president, Frank W. McCurdy of Houston. The office of the secretary-treasurer will be filled later. The convention city and the time of holding the next year meeting were left to the action of the executive committee.

"A majority of the printers of Texas will install a standard cost finding system," Mr. Dyer said, basing their action on the decision of the state association at its Dallas meeting. This system was originated by the National Typothetae and has had the indorsement of the federal trade commission. By a standard cost finding system is meant a scientific, tangible plan by which printers may determine the cost of printing.

TO RETURN RAILWAYS BY DEC. 1 REPORTED

New Plan Is Decided on to Prevent Confusion and Disruption

Dallas.—As the first preliminary step toward actually returning the railroads to their corporate owners, the United States railroad administration Dec 1 will turn the various railroad lines now under its control over to the executive heads of their corporations, continuing them, however, for a time, under government guarantees, according to reliable information obtained in Dallas railroad circles.

According to this information, orders already have been received by the two federal managers located here from R. F. Bush, regional director of railroads at St. Louis, but the orders have not so far been transmitted to the lines themselves.

AMERICAN IS RELEASED FOR \$150,000 RANSOM

Mexican Bandits Set William O. Jenkins, Consular Agent, Free

Washington.—William O. Jenkins, American consular agent who was robbed and kidnaped by bandits near Puebla, Mex., has been released on payment of the ransom of \$150,000, according to a message from the American embassy at Mexico City, received at the state department.

The rebels who held him near Puebla demanded ransom of \$150,000 in gold. The message says that the third secretary of the embassy, Mr. Matthew E. Hanna, who was sent to Puebla by the embassy, notified the embassy that Jenkins had sent him a message from within the Mexican federal lines that the ransom had been paid to the kidnapers and that he was on his way to Puebla. The department is awaiting more details.

Finds Cotton Belt Road Unsafe

Austin, Texas.—The railroad commission officially finds that the lines of the Cotton Belt railroad of Texas east of the 96th meridian are unsafe for normal operation.

To Close Movie Merger

Dallas.—Y. B. Freeman and A. L. Barnard of Atlanta have arrived in Dallas in connection with the wind-up of the legal side of the merger of the Lynch-Hulseley motion picture interests.

Oklahoma Boundary Suit Filed

Washington.—Attorney General Freeling of Oklahoma has filed papers with the clerk of the supreme court in the suit of the state of Oklahoma against the state of Texas to determine the boundary between the states.

MEXICAN FISHERMEN SLAY U.S. AVIATORS

BODIES OF FLYERS BROUGHT TO SAN DIEGO ABOARD AMERICAN DESTROYER

San Diego, Cal.—It is officially announced here that Lieutenants Cecil H. Connolly of San Diego and Frederick B. Waterhouse of Weister, Idaho, army aviators, missing since Aug. 21, were slain in Lower California by two Mexican fishermen.

The announcement was made upon the arrival here of the destroyer Aaron Ward, bringing the bodies of the two aviators from Bahala Los Angeles on the gulf of Lower California, to which point they had flown, losing their way in a border patrol flight from Yuma, Ariz., to San Diego.

According to Major R. S. Bratton, head of the military party sent here to recover the bodies, the slayers were from a Mexican sloop, their identity is known to the United States and Mexican government and steps are being taken to capture them.

The destroyer also brought a part of a story of the sufferings endured by the young aviators, in the form of notes scrawled in part on the wings and fuselage of their De Havilland airplane, in which Connolly and Waterhouse made their last flight. Some of these messages, evidently written when the aviators had almost lost hope of being found, were of such a tragic nature that Major Bratton asked the newspaper reporters to refrain from using them, out of consideration for the officers' families.

BOLSHEVIKI CONSIDER EVACUATING RUSSIA

Denekine Says Plan Is to Abandon Moscow and Withdraw to Turkestan

London.—The bolsheviks are considering the evacuation of soviet Russia, according to reports reaching General Denekine. The reported plan is for the removal of the cabinet to Tashkent after the abandonment of Moscow and the withdrawal of troops on all fronts to Turkestan.

Reports similar to the foregoing reached Copenhagen Oct. 14 from Helsingfors. One dispatch predicted that if Tula, 120 miles south of Moscow, was taken, the bolshevik commissaries would abandon their present capital and retire into Turkestan.

Recent reports from General Denekine's front announced that the soviet forces had begun to fortify the suburbs of Tula. War Minister Trotsky having declared that a general battle must be fought outside that town.

RAILROAD MEN DEFY ANTI-STRIKE MEASURE

Would Precipitate Revolution, President of Brotherhood Tells Congress

Washington.—Timothy Shea has notified congress that the Brotherhood of Locomotive Firemen and Engineers, of which he is acting president, would not observe pending anti-strike legislation if enacted into law.

Such an attempt to single out railroad employes and deprive them of what he termed the economic right of workers to strike to prevent injustice, must be accepted, he said, in connection with other information which the railroad brotherhoods have, as a foregone conclusion that the railroads contemplate a general reduction in wages when the government surrenders control, and desire such a measure to forestall a strike.

New Orleans Sugar Shortage

New Orleans, La.—New Orleans has gone back to war rationing of sugar. Restaurants have removed sugar bowls from the tables and grocers hold onto what they have. Most stores are entirely out and those that had a little sugar allowed only regular customers to get one and two pounds. Hotels are dropping the two spoonfuls in the coffee before serving. With this condition staring the city in the face and with the public howling for sugar, the first shipment of 331 barrels of plantation yellow arrived from the M. J. Koha plantation, near Port Allen, and sold on the exchange for the record price of 20½¢ per pound. About the same time a large catering firm was forced to secure a small quantity of sugar, and they paid a wholesale house 22½¢ for it.

Conference Meets at Terrell

Terrell, Texas.—Arrangements are being made to entertain the north Texas annual conference, which meets in this city Nov. 5. A committee is securing homes for the visiting ministers.

Spanish Employers Declare Lockout

Madrid.—The congress of Spanish employers, sitting at Barcelona declared a general lockout of workmen throughout Spain. The lockout order will be effective Tuesday, Nov. 4.

Business Men to Hold Meeting

Dallas.—The fall meeting of the state federation of business and professional women's clubs will be held in this city Friday and Saturday, Oct. 31 and Nov. 1.

Trotzky's Staff Is Taken

Copenhagen.—The entire staff of Leon Trotzky, bolshevik minister of war and marine of Russia, has been captured at Tsarkoe-Selo, according to a Revel dispatch to the National Tidende.

PRO BILL IS PASSED OVER WILSON'S VETO

PRESIDENT WILL REPEAL WAR-TIME RESTRICTIONS WHEN TREATY IS RATIFIED

Washington.—The senate has passed the prohibition enforcement act over the president's veto and made immediately effective machinery for preventing sale of beverages containing more than one-half of 1 per cent alcohol.

The vote was 65 to 20, or eight more than the necessary two-thirds majority. While there was a wrangle over taking up the measure in place of the peace treaty, which had the right of way, there was doubt as to how the senate stood. It was overwhelmingly "dry" like the house, which repassed the bill within three hours after the president had vetoed it.

Before congress finally clinched enactment law, despite presidential objection to linking war-time and constitutional prohibition acts, there came from the White House the announcement that the war time law, which was put into effect after the cessation of hostilities, would be annulled the moment the senate formally ratified the German peace treaty. It was the most definite of official or semi-official statements bearing on the war-time act. Prohibition leaders were plainly disturbed by the news, for they had counted firmly upon the country reaching the effective date of constitutional prohibition—Jan. 16, 1920—without reopening of saloons.

Washington.—President Wilson unexpectedly vetoed the prohibition enforcement bill Monday, and within three hours the house had repassed it over his veto by a vote of 176 to 55. The total vote was barely more than a majority of the entire membership.

The president refused to sign the bill because it included the enforcement of war-time prohibition. The objects of war-time prohibition, he said in his veto, had been satisfied, and "sound public policy makes clear the reason and necessity for its repeal." It would not be difficult, the president held, for congress to deal separately with the two issues.

Nobody had really professed to know that the president would veto the bill. Republicans and democrats alike—and the countless multitude that had sorrowfully watched the passage of the bars—through it would become a law without his signature. Attorney General Palmer, it was said, had declared it constitutional.

FOURTEEN PERISH IN LAKE STEAMER WRECK

Gales on Lake Michigan Dash Craft to Pieces Against Pier at Muskegon

Muskegon, Mich.—With 14 dead and six or more missing, only time can bring an accurate count of the toll of the great seas which lifted the Crosby passenger steamer Muskegon, formerly the City of Holland, and smashed her to pieces on the piers at the entrance to the Muskegon harbor.

The steamer, a side-wheeler, bound from Milwaukee, after outriding a night of gale, made for the harbor but is said by Captain Edwin Miller to have struck the bar at the entrance. The wheel paddles jammed in the sand, checking headway, and the great combers threw the ship about and hurled her into the pier. There she hung momentarily, and then shipped off into the deep channel, going down in fifty feet of water.

WHEAT IN PANHANDLE ROTTING ON GROUND

Conditions in Several Counties Are Explained in Washington

Washington.—The condition of wheat stored in some sections of the Panhandle was explained to officials of the railroad administration by J. C. Paul of Amarillo. In Gray and Carson counties, he explained, 1,500,000 bushels of wheat are on the ground at Pampa, White Deer and Panhandle, and rapidly deteriorating.

Representative Jones, who also visited the railroad administration, declared that while the United States grain corporation had reported that 75 per cent of the Texas wheat had left the farms, such might be true as to the state generally, but was not the case in the Panhandle section.

Lansing Rejects Italy's Proposal

Paris.—Notification has been given the peace conference by a representative of Italy here that the proposal made by Foreign Minister Tittoni for the settlement of the Fiume problem had not been accepted by the United States. It is declared in Italian quarters that, although the reply of Secretary Lansing was unfavorable as a whole, a considerable portion of the Tittoni proposal was accepted and that the exchanges with the United States on the subject will be continued.

Cuba Has Plenty of Sugar

Washington.—Nearly 400,000 tons of sugar, enough to meet American demands until the next crop is produced, is held in Cuban warehouses, says a cablegram from President Alejo Careceno of the Cuban Sugar Manufacturers' and Planters' association. "Cuba is willing on reasonable returns to protect further contingencies," said the cablegram, "but the blame is not with Cuba, which should not be penalized because the American market is unbalanced."

Texas News

Caldwell voted in favor of good roads at an election held last week.

The sum of \$225,000 will be spent at once in improving the roads of Anderson County.

The attorney general has approved \$65,000 of Hallettsville Independent School District bonds.

This year promises a banner crop of San Saba pecans. Many of the trees have an average of 800 pounds.

The Bexar County League of Women Voters came into being Friday. The league will be affiliated with both the state and National League of Women Voters, which were organized recently.

Judge J. Adams of Orange has been appointed by Governor Hobby as judge of the first judicial district of Texas, which includes Orange, Jasper, Newton, Sabine and San Augustine counties.

Crops of all denominations in most sections of the state are literally going to waste because of shortage of labor, combined with heavy rainfall, states Secretary Lyday of the Texas Farmers' Union.

As a result of placing all state funds in depository banks the state treasurer has cashed in the United States treasury time certificates and put the money in the several depository banks. The aggregate was \$3,000,000.

The governor has appointed Mark E. Ragsdale of Brownwood and Charles Archer of Dallas to be members of the board of examiners of land surveyors. The land commissioner, J. T. Robinson, is the third member of the board.

Santa Claus will aid in the Red Cross Christmas sale this year and will appear on the little holiday stamps of good health. This has been announced by the Texas Public Health Association, which will direct the sale of 20,000,000 of the seals in the state Dec. 1 to 10.

Terry's Texas Rangers will hold their annual reunion in Austin, Nov. 5 and 6. Terry's Rangers, officially designated during the war as the Eighth Texas Cavalry, was a famous command, and a handsome granite and bronze monument adorns the state capitol grounds in commemoration of the deeds of the gallant Texans.

According to figures filed with the railroad commission for the month of September the oil pipe lines operating in Texas had a storage total of 16,917, 789 barrels on September 30. They held 2,310,163 barrels in storage for others; owned and held 8,911,889 barrels for themselves and had 5,695,932 barrels capacity unfilled.

Definite plans for the standardization of the course of study and equipment for home economics in Texas have been formulated by the state home economics committee, appointed by Miss Annie Webb Blanton, state superintendent of public instruction. The committee adopted recommendations to be made to the state committee on affiliation to the state superintendent and to the high school division of the state department of education. The committee gave hearty endorsement to the bill to provide an appropriation of \$3,000,000 for home economics work in the United States.

The act of the thirty-fourth legislature, regulating the business of loan brokers and requiring bond was held to be unconstitutional by the court of criminal appeals at Austin, Texas, Wednesday, when the court, in an opinion written by Assistant Judge Lattimore, in the case of C. O. Juhan from Collin County, granted appellant's motion for rehearing and ordered the case dismissed. The court further ordered that the case of ex parte Huttsell holding the law unconstitutional is overruled.

The state banking board has granted authority to do business to six new state banks, as follows: First State Bank of Stephenville; capital stock, \$125,000. Wilson State Bank of Wilson, Lynn County; capital stock, \$15,000. Tarrant County State Bank of Grapevine; capital stock, \$25,000. Farmers and Merchants' State Bank of Walnut Springs, Bosque County; capital stock, \$25,000. Guaranty State Bank of Carrizo Springs, Dimmitt County; capital stock, \$25,000. All the banks adopted the guaranty fund plan for protection of depositors.

The board of examiners of land surveyors Saturday announced that an examination of surveyors who desire a land surveyor's license will be held at each county seat Nov. 7 and 8. This examination will be conducted by the county board of examiners for teachers' certificates. The applicants will pay a fee of \$10. The license will be for life and its holder will be an official surveyor anywhere in the state of Texas. His work can be placed on record in the county and in the general land office.

It's all right to demand justice. First be sure that you want it!

MOTHERS PREPARE

When a girl becomes a woman, woman passes through the change of middle life, are the three periods when health and strength are most to withstand the pain and distress caused by severe organic disturbances. Many other women would testify to the following:

Houston, Texas.—"When I was a girl I suffered from irregularity and Dr. Pierce's Favorite Prescription relieved me of all pain and suffering. I have been completely restored to health. Since I have taken a special tonic I have taken 'Favorite Prescription' and have my system amply repaired for any more comfort and strength it has given me. Mrs. M. Freeman, 414 Marie St.

Waco, Texas.—"It is a pleasure to recommend a medicine that has done so much good for me as to raise my family. I have taken 'Favorite Prescription' as a tonic during pregnancy and it helped me in every way. It is an ideal medicine for mother to be."—Mrs. Beulah Owen, North 4th St.

Galveston, Texas.—"When I was a young girl I had a terribly bad spell. My stomach was affected so I craved food all the time, and I could not sleep at night. My doctor advised me to take Dr. Pierce's Favorite Prescription (sold by druggists), and in half the bottle had been taken I was able to rest well at night. I have never had a condition since that time, so I can say that the 'Favorite Prescription' cured me of my nervous ailment."—Ellen Laswell, 1614 19th St.

LOST HOME AND TWO CHILDREN SUES FOR \$51,000

A rather unusual suit, involving a community co-operative business and a tragedy, with a hint of some of the problems growing out of the Great War, and in which local attorneys are interested, has just been filed in Castro county. The Plainview News of last week carried the following account of the matter, which is said to substantially cover the case.

"John McCormick, a prominent Castro County citizen, has entered suit in the district court of that county for \$51,000 damages, citing as defendants twenty-five persons connected with the co-operative colony at Nazareth, in the eastern part of Castro county, west of Tulia.

"He alleges in his petition, so we are informed, that a can of kerosene which he bought from the co-operative store, was really gasoline, and that it exploded while one of his children was kindling a fire in a stove last April and burned the house two of his small daughters perishing in the fire.

"Nazareth colony is a co-operative community of German Catholics. There are, we understand, about fifty families, and they are thrifty and peaceable, and ethnically. The whole social life of the colony centers in the Catholic church, and the priest is the leader of the people. They own and conduct a store co-operatively. They buy their farm implements and other supplies together, and often in carload lots. They are said to hate German autocracy and militarism, and during the war always subscribed their quotas to liberty bonds. Red Cross and other war activities the first day. A former Tulia lawyer declares that none of the members have figured in courts.

"It is said that Mr. McCormick was a member of the county council of defense, and some suspicion that because of this fact he made enemies of some of the Nazareth colony, and

that the sale of the kerosene was a deep plot. But the Germans say that the oil was bought wholesale in Plainview for kerosene, and that it was bought by Mr. McCormick a month before the holocaust, and had nearly all been used up.

"The case will come up for trial at the next term of the Castro county district court in Dimmitt, and will be followed with interest."

A GOOD RECORD FOR LIFE INSURANCE COMPANIES

During the past ten years, according to Bradstreet's, there have been over 100,000 commercial failures, with liabilities of over \$1,600,000. During the past ten years 600 banks and trust companies have closed their doors with liabilities of over \$380,000,000. During the past ten years there have been railroad receiverships, with stock and bond issues involved, of over \$600,000,000, while of life insurance it can be said that for more than THIRTY years (three times as long) there has not been one failure of an old-line life insurance company which has been conducted on the legal reserve basis.

Unlike most other investments that pay a fair rate of interest and depreciate in value from use, life insurance pays a good rate of interest and increases in value. Stocks and bonds often fluctuate. Often a defective title ruins an individual mortgage, a policy is secured by a multitude of bonds and mortgages. The mortality among people is large, but among investments it is still larger. Most investments are expectancies, while life insurance is a certainty. Real estate has made thousands rich, but it has also made millions poor. If the wealthy men have brains enough to accumulate wealth, they have brains enough to invest it, and they are the largest insurers. It is easier to accumulate an estate thru the aid of life insurance than by any other way.

CAMPAIGN INAUGURATED AGAINST COTTON PESTS

College Station, Texas, Oct. 31.—The ravages of insect pests in the cotton fields and the consequent loss has been an expensive lesson to the Texas cotton farmer. It would be futile to attempt to express the extent of the damage in monetary terms, but it is a safe prediction that much more consideration will be given preventive measures in the future.

Through the medium of publications and the efforts of specialists and county agents much information has been distributed on this subject during the past few years, while the co-operating newspapers of the State have rendered every possible assistance. At a meeting of the District Agents and Specialists called by T. O. Walton, Director Extension Service A. and M. College of Texas, for the consideration of farm problems, it was disclosed by reports from every section of the country where season permitted and proper precautionary methods had been carefully observed that from one-fourth to one-half bale to the acre would be made, whereas, in neighboring fields where such precautions had been neglected or improperly observed the yield was practically nothing.

In discussing this matter Mr. T. O. Walton said that after consultation with W. B. Lanham, Assistant Director in Charge of Specialists, M. T. Payne, State Agent in Charge of Demonstration work, and A. P. Swallow, Entomologist, it has been decided that since cotton is the largest and most extensive crop in Texas that the work of the entomology department should be devoted in a large part to cotton insects during the coming year. In carrying out this work it has been decided to start at the base of insect control measures by inaugurating a State-wide fall clean-up campaign. It is estimated that nearly two million boll weevils are produced by one pair of boll weevils from early spring until October 1st. This fact indicates the necessity of destroying all hibernating weevils possible. This clean-up campaign has been started through the community councils and through farmers interested in insect control measures. We feel that a county-wide demonstration of this kind will not only show great results in the reduction of insect pests during the coming year, but will also increase the yield considerably and permit the farmers of the community to see for themselves the results of such demonstrations when properly conducted, and learn something of the difference in results as contrasted with methods practiced in a careless slipshod manner. In fact the success of any method depends upon its correct application. The measures recommended as fall insect control methods are practically the same as those demanded by good farming, such as fall plowing, destruction of the remnants of old crops, cleaning fence rows and corners, destruction of weeds, etc.

It has also been considered advisable to establish demonstrations in dusting for the boll weevil. This work will be carried on under the direction of A. P. Swallow, Extension Entomologist, in the same manner it has been conducted in Mississippi, Louisiana and Texas. Ten counties have been chosen with one demonstrator in each county, who must be a farmer raising a pure strain of cotton, who will furnish the necessary machines and poison as well as keep the required records on the demonstration. Up to the present time it has not been deemed advisable for the Service to encourage work of this kind until the U. S. Department of Agriculture and the Experiment Stations have proved the possibility of success under Texas conditions. This has been clearly demonstrated and we are now able to give the farmers the benefit of this information. In addition to these projects this service has reserved forty per cent of the time of the specialist to be devoted to emergency work and we hope to be able to render a great deal of assistance this year should the emergency arise.

LIBERAL RESPONSE TO RED CROSS SUBSCRIPTIONS

Dallas, Tex., Nov. 3.—Evidence of the support of the Red Cross Roll Call is reaching the State headquarters from all sections of Texas. Throughout the district chapters have reported since the opening of the campaign on Nov. 2 a ready response on the part of citizens when asked to renew their subscriptions of last season or become a member of the American Red Cross for One Dollar. The campaign will be concluded on November 11th.

No single dollar spent individually can accomplish a small percentage of the benefits that the Red Cross dollar does, because of its splendid or-

ganization and means of reaching those who are in need. It has come to the attention of Red Cross chapters every where that many people do their sole contributing through the Red Cross because of its means of reaching those actually in need.

The Red Cross is not asking contribution for 1920. It is asking in the furtherance of its peace time program nothing more than "a heart and a dollar." It wants the support of its members as well as it does that without that co-operation its funds will avail it nothing.

President Wilson, Secretary of State Lansing, Secretary of the Interior Lane, Vice President Marshall, Governor Hobby, the American Legion and countless thousands of others have given the Red Cross an indorsement. The work it contemplates at home is held to be equally as important as that rendered in war time.

Memberships can be secured thru the local chapters or Red Cross officials or from the State headquarters of the Red Cross in Dallas. W. H. Prather of Dallas is Roll Call Director.

THINKS ANY MAN CAN OWN HOME ON SOUTH PLAINS

"Any man who is willing to work, can own a home on the South Plains" says John W. Lain, a farmer of Ralls, who was here last Friday trading and attending to business matters. Mr. Lain says he came here about a year ago with his wife, bought one hundred and sixty acres at \$32.50 per acre. He and his wife farmed this land this year and were out only \$9 for hired labor. He says he will gather more than a half bale of cotton per acre for which he expects to get no less than forty cents per pound. If they have reasonable luck in gathering the crop, Mr. Lain says they will gather 35 bales of cotton. Besides making a living, he will pay for the land and have several hundred dollars left in the bank. This is characteristic of many farmers this year.

You oil countries! You'll have to bring in some big gushers to get even with this country.—Avalanche.

Put the War Savings Stamp skid chains of Thrift on your car in preparation for a rainy day.

U. S. FLEET TO BE BIGGEST IN WORLD IN NEXT YEAR

Washington, Nov. 3.—Predictions that ships flying the American flag will be almost equal in tonnage to those of Great Britain by the end of 1920 were made in the senate today by Senator Jones of Washington, Republican, chairman of the senate commerce committee, in introducing his bills proposing an alternative for the permanent federal ship building policy.

Both bills were referred to the commerce committee for future consideration. With prospective completion of the government's war ship building program by Dec. 31, 1920, Senator Jones said, the United States, including coastwise vessels, would have a mighty fleet of 18,000,000 tons, nearly the same as that of Great Britain, and that the two nations would control about two-thirds of the world's tonnage.

SURGEONS agree that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BOROZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Camel Cigarettes

They Win You On Quality!

Your enjoyment of Camels will be very great because their refreshing flavor and fragrance and mellowness is so enticingly different. You never tasted such a cigarette! Bite is eliminated and there is a cheerful absence of any unpleasant cigarette after-taste or any unpleasant cigarette odor!

Camels are made of an expert blend of choice Turkish and choice Domestic tobaccos and are smooth and mild, but have that desirable full-body and certainly hand out satisfaction in generous measure. You will prefer this Camel blend to either kind of tobacco smoked straight!

Give Camels the stiffest tryout, then compare them with any cigarette in the world at any price for quality, flavor, satisfaction. No matter how liberally you smoke Camels they will not tire your taste!

R. J. REYNOLDS TOBACCO CO.
Winston-Salem, N. C.

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes; or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. _____ had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE CARDUI The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

BETTER PROVISION PROMISED PASTORS

BAPTIST 75 MILLION CAMPAIGN WILL RAISE BIG SUM FOR RETIRED MINISTERS.

CARE FOR THE WIDOWS, TOO

Total of \$5,000,000 Included On Program For This Purpose—Insurance Feature Also Included.

REV. J. M. RUSSELL
Typical Retired Minister.

While the salaries paid the ministers of Baptist, as well as other churches in the South, has been far too small in the past to enable them to lay aside a competency for old age a long step in remedying this situation is promised in the Baptist 75 Million Campaign, which proposes to raise \$2,500,000 for the relief of aged ministers during the next five years, and then bring this sum up to \$5,000,000 during the two years immediately following the campaign.

Looking to the adequate care of hundreds of aged Baptist ministers and ministers' widows in the ranks of the Southern Baptist Convention who are now in need of financial assistance, this body, at a recent session, authorized the creation of the Relief and Annuity Board at Dallas, Texas, with Dr. William Lunston, as corresponding secretary.

Heretofore the average annual salary of Baptist ministers in the South has been less than \$500, meaning that a large number of preachers received considerably less than that sum, making it necessary that they engage in other occupations during the week in order to support themselves and their families, and rendering it practically impossible for them to lay aside any money as a support for their old age.

The establishment of the Relief and Annuity Board and the decision to raise \$5,000,000 during the next seven years for the relief of the aged ministers already in need of assistance and the more adequate care of the men who hereafter give their lives to the Christian ministry without an opportunity to save up a competency to tide them through sickness or care for them in their declining days, has met with a cordial reception at the hands of Southern Baptists, and it is believed the provision of better treatment for the ministers in their retirement will not only tend to cause young men to look with greater favor upon the ministry as a life work, but will bring the members of local congregations generally to see the need of paying pastors more adequate salaries before these pastors become old and helpless.

By the addition of an annuity feature it is possible for retired ministers to receive an annuity of \$500 after they have reached the age of 68, and provided they have been in the ministry for thirty years. If they have served less than 30 years the annuity is reduced by a certain proportion. To participate in this annuity a minister must make monthly, quarterly or annual payments sufficient to bring in an income of \$100 per year when invested, on the principle of regular life insurance, while this is supplemented by \$400 provided by the denomination. A minister's participation in the annuity fund is in addition to his claims upon the relief fund.

If the minister is disabled at any time after joining the annuity fund, he will receive a certain annuity throughout the period of disability. If he dies his widow will receive an annuity of 60 per cent of what would have gone to her husband as long as she lives, and should the widow die her annuity will be divided among minor children until they become self-supporting, marry or reach the age of 21.

The board has received an endowment of \$100,000 from the Baptist Sunday School Board at Nashville not included in the 75 Million Campaign, and this sum will be divided equally between the relief and annuity departments. This enables the board to begin work immediately and assistance is already being given to 285 aged ministers and ministers' widows.

CAMPAIGN WILL SUCCEED, SAY RED CROSS WORKERS

Enthusiasm of Women Workers Is Outstanding Feature of Drive.

ALL RESOURCES TO BE UTILIZED AT CLOSE

House-to-House Canvass Now Under Way in Most Communities—Encouraging Results Are Being Reported.

Vim is being added to the Red Cross drive for memberships now being conducted, by the diligence of both workers, teachers, women volunteer canvassers, Boy Scouts and many returned soldiers, sailors and marines, who have rallied to the aid of the campaign, reports show.

Campaign officials in charge of the drive at Southwestern Division headquarters at St. Louis announced that while a few communities have fallen below the mark set for them, in general, enrollment in the Red Cross has been heavier than had been expected. Thousands of persons in all parts of the Division—Missouri, Kansas, Texas, Arkansas and Oklahoma—applied for membership yesterday. The drive which opened Sunday, November 2, closes Armistice Day, November 11.

Chance of the Southwestern Division equalling or exceeding its quota of 2,000,000 members, set as the number the Division is expected to raise, is very bright, officials of the campaign declared. Edward Hidden, Division Roll Call Director, said that people were responding with a cheerfulness and a unanimity that made the success of the drive seem assured.

Women Hard Workers.

Reports indicate that from the outset women have been enthusiastic, indefatigable workers. That every woman and child in every community in the Division will be given an opportunity to enroll as a member up to and including November 11, is a late announcement from drive headquarters. House-to-house solicitation is now under way in most communities and encouraging results are being announced daily from each state headquarters.

"Our responsibility," Chairman Hidden said, "is to see that not one available person fails to get an invitation to join. We believe that obligation is being fulfilled and that every man, woman and child who is able to comprehend what the program of the Red Cross means, knows that they are not only welcome to the Red Cross fraternity, but that it is a privilege as well as a duty to link up with its membership. The Southwestern Division," he continued, "has always set the pace and the enthusiasm being shown indicates that we may lead the other divisions again. I know of no greater honor and privilege than to be a member of the American Red Cross.

Clergy Endorse Roll Call.

"Clergymen all over the nation have endorsed the Third Roll Call in unqualified terms of approval. Their co-operation is regarded as vitally essential to the success of the drive. The church has the equipment in organization, in buildings already furnished, and in men and women already trained in tasks demanding service and sacrifice. The high standard set by the church itself and its splendid record of work already accomplished impels the Red Cross again to appeal to it to help make the Third Roll Call the finest thing the American people have ever done. The organization is, without doubt, the greatest, the most inclusive and the most efficient charity the world has ever known.

"Not all can volunteer for the actual distribution of relief, but all can have a part. All should be members of this glorious army of armies. The membership fee is only \$1. There is no one too rich or too poor, too old or too young, too proud or too humble, to become a 'Red Crosser' and wear the tiny emblem badge of such as love their fellow men.

The President Issues Summons.

"The President of the United States has asked every American to respond and to his call has been added those of every state governor and every other high official in the country. The necessity for, the success of the Roll Call is not underestimated by these men, who know what the organization has accomplished and what it must yet do.

"The newspapers have performed immeasurable service in presenting the Red Cross message to the public and that service has been reinforced by faithful endeavors on the part of men, women and children workers. We are gratified very much over the work of these agencies and are very proud that our organization has had the good fortune of commanding such devotion and loyalty.

"For the final days of the campaign every available resource will be thrown into the 'driving line' in order to assure the drive's ultimate success."

BIG APPROPRIATION SOUGHT FOR ROADS

Because the people of the United States have grown accustomed to big events, it is likely that few gave attention to the news item that Senator Sheppard of Texas had introduced a bill providing for appropriation of \$400,000,000 to carry out the Federal good roads act. Yet this marks the second step in a long-delayed and necessary journey on the part of this Nation.

For many decades the roads of America have caused derision, discomfort and the waste of many millions of dollars. The latter item include graft, poor construction and loss to the farmers and others who used the highways for transportation of merchandise to market. Foreign visitors could not understand American apathy, seeing the immensity of the business involved and having a distinct recollection of the wonderful highways of Europe. Some States, it is true, learned their lesson, but to the majority a good road was a rarity.

But the American is learning—and quickly. The work started in 1916 has been such a speaking, paying success that there is little doubt Senator Sheppard's bill will pass Congress and that \$400,000,000 will be expended in further improvements from 1921 to 1924.

Big Work Under Way.
The distance across the United States from the Atlantic to the Pacific is approximately 3,500 miles. In three years with the Federal Government putting up practically dollar for dollar with the States, 15,069 miles of good roads have been approved and will be carried out prior to 1921 in every commonwealth in this Nation. Or, by way of comparison, enough roadway to span the nation between coasts four times, with something left over for a detour into Canada.

Considering the magnitude of the crop production of the United States of the present day, it is regarded as indeed fortunate that there are so many miles of good roads for the hauling to market. In fact, there is little doubt that the increased mileage of usable highways has proved a vital factor in increasing crop production and enhancing the Nation's wealth, as statistics testify.

The various commonwealths simply floundered when good roads were considered. Some were progressive, the majority indifferent. It was evident that Federal aid and supervision were necessary to convince the people. The first chapter in the successful story of good roads construction was written in 1912 when Congress voted an appropriation of \$500,000 for experimental purposes. This was expended in worth while demonstrations, and so successful were they that in 1916 little effort was required to get a bill through Congress for an appropriation of \$75,000,000, to be expended in five years, together with \$1,000,000 a year for roads in National parks and forest reserves.

This sum was augmented this year, however, by a supplemental appropriation of \$200,000,000 for the States and \$3,000,000 annually for the parks and forests, carrying the work to 1921. This was a grand total of \$275,000,000 for the general work, and \$19,000,000 for the forests.

But this appropriation has not been entirely expended, even on paper, contrary to methods generally used in expending Governmental appropriations. Up to Aug. 31, 1919, the 15,069 miles of road planned, under way, or actually constructed,

had cost but \$172,078,788, of which the Federal Government had contributed \$70,715,743.

Although the plan was to have the Federal Government contribute dollar for dollar with the States, this is not always done, as the United States cannot expend more than \$20,000 a mile. In many cases States have desired road improvement in particularly unfavorable localities, and in these instances the States have gladly paid the excess costs of construction. This accounts for the discrepancy in the figures cited.

CROP PRODUCTION ESTIMATE MADE BY GOVERNMENT

Washington, Nov. 8.—Crop production estimates issued today by the department of agriculture in its November crop report include: Corn 2,910,250,000 bushels; buckwheat 20,120,000; potatoes 352,025,000; sweet potatoes 102,956,000; tobacco 1,316,553,000 pounds; flax seed 9,450,000 bushels.

Apples (total) 144,429,000; apples (commercial) 24,416,000; sugar beets 7,298,000 tons; kaffirs (six states) 123,343,000 bushels; cranberries (three states) 546,000 bushels; onions (14 states) 10,784,000 bushels; cabbage (nine states) 388,000 tons; sorghum syrup 33,668,000 gallons; clover seed 967,000 bushels; peanuts 44,996,000 bushels.

The quality of corn was announced as 89.1 per cent, compared with 85.6 last year.

Weight per measured bushels this year is as follows: Wheat 56.3 lbs.; oats 31.1 and barley 45.2.

Stocks of old corn on farms November 1 are estimated at 72,263,000 bushels, compared with 114,678,000 a year ago.

SIMMONS COLLEGE TO CHANGE TO UNIVERSITY

At a meeting of the Board of Trustees of Simmons College held recently President J. D. Sandefer recommended that Simmons College should become Simmons University with the opening of the fall term of 1921.

President Sandefer also recommended a building program calling

for five new buildings within five years to cost \$750,000 and the addition of \$500,000 to the endowment fund.

After discussion by the trustees the Board unanimously and enthusiastically indorsed the President's recommendations and steps will be taken to carry out the program.

Simmons is to receive \$500,000 from the \$75,000,000 Campaign which the Southern Baptist Convention is now conducting, the Texas quota being \$16,000,000.

The buildings to be erected within five years will be: A fine arts building, chapel and library, two new dormitories, one for women and one for men, and a \$300,000 administration building, the completion of which program will give the institution ample housing facilities to properly accommodate a student body of 2,500.—Abilene Reporter.

THOMASON ANNOUNCES FOR GOVERNORSHIP

El Paso, Texas, Nov. 8.—Robert E. Thomason, Speaker of the House of Representatives and until recent years a Gainesville attorney, announced his candidacy for Governor here tonight.

Mr. Thomason is Representative from the El Paso District and was elected Speaker without opposition. He was prosecuting attorney at Gainesville for a number of years before removing to West Texas.

As a member of the Legislature he was the author of the present "clean election law," joint author of the zone bill which enacted prohibition about the army camps and active in the passage of other prohibition laws as well as woman suffrage.

Speaker Thomason was reared on a farm near Gainesville and is a graduate of Southwestern University at Georgetown and also the law department of the University of Texas.

Mr. Thomason will later open headquarters at Dallas and will open his campaign in his old home town of Gainesville.

Lay a bet on rolling 'em with

PRINCE ALBERT

the national joy smoke

ROLLING your own cigarettes with Prince Albert is just R about as joy'us a sideline as you ever carried around in your grip! For, take it at any angle, you never got such quality, flavor, fragrance and coolness in a makin's cigarette in your life as every "P. A. home-made" will present you!

Prince Albert puts new smokenotions under your bonnet! It's so delightful rolled into a cigarette—and, so easy to roll! And, you just take to it like you been doing it since away back! You see, P. A. is crimp cut and a cinch to handle! It stays put—and you don't lose a lot when you start to hug the paper around the tobacco!

You'll like Prince Albert in a jimmy pipe as much as you do in a home-rolled cigarette, too! Bite and parch are cut out by our exclusive patented process. You know P. A. is the tobacco that has led three men to smoke pipes where one was smoked before. Yes sir, Prince Albert blazed the way. And, me-o-my, what a wad of smokesport will ripple your way every time you fill up!

CONTRACT AWARDED FOR WELL IN CASTRO COUNTY

Hereford, Deaf Smith Co., Texas Nov. 8.—Contract has been awarded to the Seven States Oil Company of Memphis, Tenn., by D. C. Laird of this city for a well to be dug on the Laird ranch, about eighteen miles south of here in Castro County. This is the fifth contract to be let and with this well there will be a test in every direction from Hereford and within eighteen miles of this city.

Awaiting your say-so, you'll find tippy red bags, tidy red tins, handsome pound and half pound tin humidors—and—that classy, practical pound crystal glass humidior with sponge moistener top that keeps Prince Albert in such perfect condition!

**BAPTIST WOMEN TO
RAISE \$15,000,000**

FIFTH OF SUM SOUGHT IN FIVE YEAR PROGRAM WILL COME FROM THEM.

ARE DOING A LARGE WORK

Hospitals, Mountain Schools, Good Will Centers and Church Building Funds Maintained by Them in Addition To Regular Gifts.

MISS KATHLEEN MALLORY
Corresponding Secretary, W. M. U., Baltimore.

Evidencing the larger sphere which women have come to occupy in church life, as well as other activities, when the Baptist 75 Million Campaign was decided upon at the meeting of the Southern Baptist Convention in Atlanta last May, the women, through their regular organization, the Woman's Missionary Union, at once agreed to be responsible for one-fifth of the sum sought, or \$15,000,000. This means that the Baptist women of the South will raise for missions of all kinds, Christian education and benevolences, the sum of \$3,000,000 a year for the next five years, in addition to their contributions to local enterprises and special work.

Through the channels of the Woman's Missionary Union, with headquarters at Baltimore, Md., the Baptist women of the South have since their organization contributed more than \$5,000,000 in cash to various denominational purposes. With the addition of boxes of food and clothing sent to orphanages and other benevolent institutions, the total of their contributions through this channel has reached \$5,710,433.71.

Miss Kathleen Mallory is the corresponding secretary of the Woman's Missionary Union, and in appreciation of the service she has rendered in that connection the Baptist women of Alabama have established the Kathleen Mallory Hospital for Women at Lanchow-Fu, Shantung, China. Miss Mallory being a native of Alabama.

Women of many of the other states have also undertaken special enterprises of their own. Those of Georgia, for instance, established the Ayers Hospital for Women at Hwangshien, China, a girls' school at Kumamoto, Japan, the Catherine Bryan Kindergarten School at Canton, China, and the Mary P. Willingham School for Girls at Blue Ridge, Ga., a school designed especially for the education of girls in the mountainous section of that state.

Many of the other state unions have special projects such as Good Will Centers in the tenement, factory and mining districts, where effort is made to bring more sunshine and enlightenment and love into the homes and lives of needy families, especially those of foreign birth; church building funds, scholarships for young women who want to obtain training for special Christian service, and similar undertakings.

The general W. M. U., representing all the women of the Southern Baptist Convention, owns and operates the Women's Training School at Louisville, Ky., which has already sent out 700 trained women for special service in all parts of the world; and has established the Margaret Fund for the education in the Baptist schools of the South the sons and daughters of missionaries on the foreign fields, and the Fannie E. S. Heck Memorial, a church building fund established in honor of one of the greatest leaders Southern Baptist women have known.

But money for the support of these institutions as well as that for the payment of the women's pledge of \$15,000,000 in the 75 Million Campaign, will be raised by the actual work of the women and through economy and sacrifice. Church fairs, bazaars, suppers, ice cream socials and the like, are frowned upon by the organized Baptist women of the South as unworthy means for raising funds for carrying forward the work of the kingdom of God and their contributions will not come from this source, it is announced.

FORMER KAISER WILL NOT BE SURRENDERED

The Hague, Saturday, Nov. 8.—Former Emperor William came to Holland a year ago next Monday. Since that time there has been no demand, officially or unofficially, for his extradition or delivery up to the allies, nor has Holland at all changed its viewpoint toward him.

The Associated Press learned this today from sources that are unquestionable. Holland's viewpoint as regards William Hohenzollern may be stated frankly as follows: The Netherlands, which for centuries has accorded political refuge to all, considers the former Emperor and Crown Prince as refugees—not as royalty, but as persons entitled to the same rights as any plain Johann Schmidt who fled to Holland during the war. This principle is so strongly held by the Government and also by the press of Holland that nothing is likely to change it, it is asserted.

REPUBLICANS WIN IN OKLAHOMA ELECTION

Oklahoma City, Ok., Nov. 8.—At 10 o'clock tonight sufficient returns, although unofficial, had been received from today's election for Congress in the Fifth Oklahoma District, to show that J. W. Harrel, Republican had defeated Claude Weaver, Democrat, for the unexpired term of J. B. Thompson, Democrat, who died recently. Figures at Democratic headquarters gave Weaver the four southern counties of the district—Garvin, McClain, Murray and Cleveland—aggregating a majority of 2,112, while the three northern counties of the district—Oklahoma, Logan and Payne—went strong for Harrel, giving him a lead of 2,700. Republican headquarters claims the office for Harrel by 700 to 1,000 majority.

Weaver made his race on a platform pledged to support the League of Nations and President Wilson's policies in general, while Harrel is pledged to opposition to the League of Nations, peace treaty and other administration policies.

Recent calls for labor to work in the cotton fields and the condition of the crop, together with poor weather, held the vote down, according to election board officials. The normal vote of the Fifth District is approximately 50,000, but women voting today hoisted the total possible to 100,000.

DERRICK COMPLETED FOR WELL AT LAMESA

Lamesa, Texas, Oct. 27.—The Lamesa Oil and Gas Company of La-

mesa has the derrick up and machinery on the ground for their first well to be drilled on the southwest quarter of section 27, block 33, Dawson County. It is expected that drilling will begin about the first of November.

This company holds 15,000 acres in Dawson and Borden counties, they have been reported highly favorable for oil by several geologists. Leasing is becoming active, and much interest is being shown in a development of this section of the country.

**AROUND THE WORLD WITH
THE AMERICAN RED CROSS.**
In the Arctic Circle.

Wherever American soldiers went during the war and after, there also went the American Red Cross. This policy carried Red Cross workers to far corners of the globe and here they are seen near the rim of everlasting ice and snow in North Russia. Automobiles were used whenever possible but on many journeys the reindeer pictured here proved most effective.

**AROUND THE WORLD WITH
THE AMERICAN RED CROSS.**
In Italy.

Arriving at one of the most critical stages of the war, when the Teutons were forcing the Italian army back to the Piave, the American Red Cross rushed emergency relief from Paris and revived the drooping spirits of the whole country. In addition to furnishing rations and comforts and medical attention to the fighting men, the American Red Cross instituted 42 soup kitchens, 36 children's hospitals, 10 children's dispensaries, 14 artificial limb factories, five homes for refugee children, 10 rest stations for refugees. This photograph shows a group of Italian refugee children being fed by the American Red Cross at one of the numerous relief stations.

CHILD'S NECK BROKEN IN FALL FROM HORSE
Farwell, Farmer Co., Texas, Nov. 8.—The 5-year old son of John C. Bulloch, living at Bovina, fell from a horse Thursday and broke his neck. The boy had been placed astride the horse and as the animal started to walk away the little fellow lost his balance and fell off. Death was instantaneous.

SOME HEALTH NOTES FROM THE STATE DEPARTMENT

Austin, Texas.—“Over two out of every three school children of Texas have defective teeth,” declared Miss Pearl N. Hyer, Public Health Nurse of the Texas Public Health Association, today.

Miss Hyer based this estimate upon the nursing work and physical examinations in twenty Texas cities where she has examined 2,482 school children. Out of this number, she has found 1,760 to have defective teeth.

Among the 2,482 children whom she has examined during the twelve months ending November 1, 1919, Miss Hyer has found a total of 4,345 defects.

“One can scarcely realize the number of children in the State who have some physical defect,” said Miss Hyer. “Even the parents of the children do not realize that their little ones may have some defect, which may be easily corrected in childhood. This shows the necessity for a public health nurse in counties and schools—to recognize and help remedy whatever is wrong. This is one of the things which the Texas Public Health Association is trying to bring to the people of the State.”

Many of the children examined by Miss Hyer are afflicted with defective hearing, according to her report—302 in number; while 384 have been found to need glasses to correct their vision. Those suffering from granulated eyelids were 100 in number; while 272 have diseased gums. Another serious defect found was that 1527 of the Texas children whom she examined were suffering from chronic trouble of the tonsils.

Miss Hyer's work consists of personal examination of children and adults; giving health lectures to nurses; carrying out Child Welfare work; lecturing to school children; doing regular nursing work, and assisting in carrying the Modern Health Crusade to the children of Texas. She has talked to 11,596 people in the Crusade work, and during the year has reached over 21,000 Texans, mostly school children.

Miss Hyer is carrying on the work of the Texas Public Health Association in advocating a Public Health Nurse for every county, city, and large community. The Association is financed in this work by means of the sale of Red Cross Christmas Seals, and the Campaign this year will be held from December 1st, to 10th. The Texas quota for good health is \$200,000 for 1920, ninety per cent of which will be used exclusively in the State towards fighting tuberculosis and in the betterment of general health conditions.

MIDLAND YOUNG MAN KILLED AT RANGER

I. Roe Pollard, a young man from Midland, Texas, was shot in cold blood shortly after midnight last night by a man he had never seen before. The tragedy occurred in front of the Metropolitan cafe on Pine St. L. C. Gordon, of Muskogee, Okla., was placed under arrest shortly after the shooting. He is now in the city jail awaiting action by county authorities.

Pollard had just stepped out of the Metropolitan cafe, according to eye witnesses to the shooting, when a man approached him, said a few words, and shot him. The bullet passed through the victim's kidney, liver and intestines.

Pollard was rushed to the Ranger General Hospital in a Jones-Cox ambulance and physicians performed an operation in an effort to save his life. Little hope is held for his recovery.—Ranger Times.

PLANTING COTTON SEED WILL BE SCARCE

The State Department of Agriculture is receiving many letters asking where cotton seed may be bought for next year's planting.

These inquiries come as a result of excessive rains which have ruined the germinating qualities of many thousands of tons of seed and unless farmers get their cotton seed now and store them, it is almost certain that no enough seed can be had next spring to plant a normal acreage.

Therefore, we are writing this letter to the members of the farmers institutes, urging them to buy their cotton seed this fall, if they need any, for fear that they may not be able to buy them at all next spring.

Again, if you have good sound seed for sale, write T. S. Minter, Director of Bureau of Markets, Austin, giving him the variety, quantity and quality of the seed you have for sale and he will list your offering in the Market Journal free and otherwise assist you in finding a market for same.

If you wish to buy cotton seed for next year's planting, write Mr. Minter and he will give you a list of those who may have seed for sale.

Bear in mind that we do not handle any one's money nor the seeds offered. We simply put the buyer and seller in direct communication with each other.

We would appreciate any assistance that any local newspapers may give by publishing this letter, and thus assist the farmers in the sections where said papers go to buy or sell their cotton seed.

Sincerely yours,
J. W. NEILL,
Director of Farmers' Institutes.
T. S. MINTER,
Director of Bureau of Markets.

THIEVES TAKE FISH, MONEY AND SMOKING TOBACCO

Thieves have made several hauls lately in our city, taking with them various kinds of articles. One man reports that at his hotel, thieves have made several trips, each time taking money, or in all trips they have carried about \$85 away with them. The last time they visited at this place the man says they took money, cigarettes and even all the smoking tobacco in sight. Officers are watching carefully and if these thugs don't watch, they will wake up some bright sunny morning to see a nice view of our city, through windows, protected by heavy bars.

One of the last heard of thefts here and probably the most peculiar was when three cans of fish, sent out from San Marcos Texas by the Bureau of Fisheries, of Washington, to Messrs. J. M. Marcy, A. V. McCarty and G. M. Eubanks. Mr. McCarty happened to be at the train on which the fish were brought in; they were accompanied by a government official who was caring for them. Mr. McCarty signed up for the fish from the officer and went back to town to secure conveyance for the fish. After he did this he went back to the depot and found it there, but the cans and the fish gone—they haven't returned yet.

Carroll Thompson says they will find the fish or the cans, for the cans bear the government ownership label. Mr. McCarty says he will gladly give the man who took the fish away \$5 if he will only return the cans.

Irregular bowel movements lead to chronic constipation and a constipated habit fills the system with impurities. HERBINE is a great bowel

MOVE TO REVISE CALENDAR

Advocates of Change Will Bring the Matter to Attention of League of Nations.

One of the first projects to be laid before the League of Nations, when it gets ready for new business, is one to revise the calendar and make it uniform throughout the world. Bureau officials of the United States, Switzerland and Great Britain got into touch with church officials before the war on the subject of calendar revision, and have kept up consideration of the matter since. Church leaders say an agreement has been reached and a uniform report is nearly ready to go to the league.

The calendar has not been revised before because of objections from the churches to dates for the great religious feasts. These objections are said to be removed. A fixed date for Easter, the adding of a thirteenth month, the making of every week begin with a Sunday and having exactly 28 days in each month—these are the main features agreed on. Church people favoring the revision say that if the league itself cannot act, it can designate a calendar congress to do so, to sit at Geneva.

Many men get ahead by inducing other men to put their shoulders to the wheel.

BITTER TASTE SOUR STOMACH

Pills and Strong Medicines Made This Lady's Troubles Worse, But Thedford's Black-Draught Improved Her Appetite and Took Away Her Bile.

Nancy, Ky.—Mrs. Cora Waddle, a resident of this place, gives out this statement: "I have taken Black-Draught and found it to be the best liver medicine I ever used. It has just been fine for indigestion, sour stomach and a bitter taste in the mouth.

I used to get bilious and constipated and had to take something. Pills and other strong medicines would only tear my stomach up and leave me in a worse fix than before taking. I began to have sick headache.

After learning of Black-Draught I took it and was cured of sick headaches. One or two doses a week, or a pinch after meals, kept the bowels open and took away all bile. I have a good appetite, due to my use of Black-Draught."

If your liver is not acting properly you may suffer from such symptoms as headache, biliousness, constipation, indigestion, etc., and unless relief is obtained serious trouble may result. In its 70 years of successful use, Thedford's Black-Draught has been found to relieve these ailments and stimulate the liver to do its work.

At all druggists.—Adv.

NOT STRONG ON GRATITUDE

Careless Driver Apparently Unable to See Wherein He Had Been Given Any Help.

The horse had run away, and was tangled up in the wire fence at the side of a muddy road. Its half-witted owner had kicked and sworn and tried to lift the animal till he was out of sorts and covered with mud.

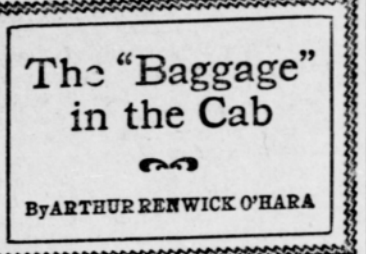

A well-groomed man came along, took in the situation, and suggested: "Spring the fence back, then he can get his feet free."

The owner of the horse did as he was told. "Now give him a cut with the whip and he'll get up himself." This the owner also did. Then he looked at the horse, up and ready for travel, looked at himself, covered with mud, and looked at the immaculate gentleman in the road. Wrath filled his soul.

"Well, he grumbled, "thank you just as much as if you'd helped me."

They're Practical Men.
"Would you call a successful author one who makes from \$10,000 to \$15,000 a year, but will be forgotten 12 months after he dies, or one who literally starves to death and is famous ever after?"

"Well, I would say the second type was the truly successful author, but I fear his landlord, his butcher and his baker wouldn't agree with me."—Birmingham Age-Herald.

The "Baggage" in the Cab

By ARTHUR RENWICK O'HARA

(Copyright.)

"Yes," said Engineer Martin, as he finished oiling round on the 629, as she puffed and panted in the siding, waiting for the south-bound express. "I've worked for this company for ten years. I've only taken one lay-off, and I've only been fired once, and that wasn't for overlooking orders, reckless running, or sleeping while on duty, but for carrying freight in my cab."

"Defraudin' the corporation that furnishes you your bread and butter out of its just dues, eh?" remarked Conductor Watson jocosely. "A sort of bitin'-the-hand-that-fed-you business? I'd never have thought it of you, Martin."

"They couldn't fire a man for that nowadays," said the section boss, who was an arrant dynamiter.

"We've got to have a hearing. An official's got to have a reason for firing a man besides not liking his style."

"It's a good thing for the companies, too," remarked Conductor Watson, who had lately passed through a most trying "investigation." "It keeps 'em from losing many a good man."

"I was mighty scared they was goin' to make up their minds to lose you when they had you on the carpet last month," drawled the engineer, with twinkling eyes.

"Well, anyway, I hadn't been loadin' my caboose with freight," retorted the conductor. "Was you movin' your household goods in your cab, when they caught you, old man?"

"No, the freight I happened to be carryin' didn't belong to me," he said placidly. "It was the very choicest possession of my fireman, Johnny Rhodes."

"One night, when I was hustlin' round, gettin' the engine ready on a short call, Johnny came to me and said: 'Martin, I want you to promise me that you'll carry something to Santa Barbara for me.'"

"'All right,' said I, carelessly, going on with my work. 'Remember, I'll hold you to your promise if it takes your scalp,' he says, and then I noticed for the first time that he was considerably stirred up about something."

"See here, young man," said I, stopping short, 'have you been stealin' and now expect me to help you smuggle your loot out of town for you? I asked him.

"Before God, what I want you to carry belongs to me and to no one else," said he solemnly.

"Well, then, jump around and fill your rod cups and stop this nonsense. I answered, rather cross, for we were late.

"Swear that you'll carry something for me, Martin," he begged, lookin' wild-eyed and desperate.

"Oh, go on, I'll do it to get shut of you," I said at last.

"With that, he gave my hand a bone-crushing squeeze and rushed off. I didn't lay eyes on him again till we were just ready to pull out, and then I'll be blessed if he didn't help a young woman into my cab and install her on his seatbox as cool as your please."

"Right then a bit of gossip flashed through my mind. There had been rumors that Johnny had had the nerve to fall in love with the superintendent's daughter and that the young lady had something more than just a faint likin' for him.

"Johnny was a nice young fellow, steady and industrious. He showed mighty plain that he come of good stock. Of course, he was poor, or he wouldn't have been shovelin' coal on an engine, but he was a fine boy—the best fireman I ever had.

"But when I had a look at the young lady I had to own up to myself that he had some excuse for puttin' our jobs in jeopardy, for Miss Barbara Mayo was about as handsome as they make 'em."

"She was just as dark-eyed and olive-complexioned as Johnny was blue-eyed and sandy. They'll make a mighty handsome couple, if her father will only give them the chance," thinks I to myself.

"When we slowed up at Grover, the hind brakeman, who was evidently in the secret, came into the cab and whispered something to Johnny that made that young man look rather sick."

"What's the matter?" I asked the hind brakeman. "Her father is on the train," said he. "And he's in one of his worst tantrums."

"With that I give my pair of turtle-doves up for lost, and I guess they felt pretty blue themselves, for they clung to each other like a brace of castaways on a desert island.

perintendent makin' his way to the engine.
"He was nearly alongside the engine, when Miss Mayo says: 'I can't have him find me with Johnny; you must hide me.' And she crouched down on the floor of the cab.
"In the twinklin' of an eye Johnny covered her with his long rubber rain-coat, and then set my greasy old canvas grip on top of that. He was shovelin' coal for all he was worth, when the superintendent poked his head into the cab.
"Well, he looked at his would-be son-in-law's back and snorted. He was achin' to find fault. Anybody could see that.
"You handle your coal-pick like it was a croquet mallet," said he, after he'd observed Johnny's maneuvers for a few minutes.
"'Yessir,' said Johnny meekly, breakin' up coal for dear life.
"Finally, he says to me, 'What makes you keep your cab lumbered up this way, Martin? It looks like some cluttery old woman's bedroom. Now what in time is that bundle over there in the corner? Do you carry your whole wardrobe with you? You must be quite a dude.'
"Oh, that's just a little baggage I'm a-carryin' down to Santa Barbara for a friend of mine," said I, quite unconcerned, with the cold sweat tricklin' off me in streams.
"Baggage for a friend, hey? he sputtered. 'And was your friend's baggage too precious to be trusted to one of the company's cars? Well, I'll have you know you can't cheat the company, that gives you your bread and butter, out of its freight. You can't make a charity baggage wagon out of your cab and work on this road. May the fends fly away with friend's baggage! I'd kick it out of the cab for a cent.'

"Well, he stormed and staved around for full ten minutes and that plucky little girl huddled up under the slicker, never moved or made a sound. I don't believe she felt the relief that Johnny and I did when her father finally went storming back to the coach.
"No, sir, she came out from under cover, drew a long breath, straightened the bent feathers on her hat, and set her hair to rights at the little mirror we kept hangin' opposite the water-glass, as cool and composed as if she'd growed up in a cab.
"Well, I s'pose we made as good time as usual that trip, but it seemed to me that we crawled along the rails like a tortoise. At every stop Superintendent Mayo paid us a call and give me a chunk of his mind about my friend's baggage.
"The young lady was sure game. She was the coolest of the three.
"When we pulled into Santa Barbara the hind brakeman told me that the superintendent wanted me to come to his office right off.
"I can see our finish," said he, lookin' sick.
"Of course I wasn't surprised when the superintendent handed me my walkin' papers, but I was mad clear through.
"Johnny and Miss Mayo insisted on me goin' with them to be married, and after gettin' fired by her father, you may reckon it was some satisfaction to me to go. I only wished that he had half a dozen girls, and that I could help 'em all elope. I told my wife that I enjoyed Johnny's weddin' more than I did my own.
"The old man was hoppin' mad when he found out how they had give him the slip.
"It was nearly two years before the old man made up with 'em. Not until Mister Rhodes, junior, come along. They give him his grandpa's full name, James Burton Mayo, and that sort of melted him. He couldn't hold out against the kid.
"As soon as the superintendent took them back into his favor they showed their gratitude for my share in their weddin' by worryin' him till he put me back to work, and I've been workin' for this road ever since."

"I'll bet you was pretty cautious about carryin' extra baggage in your cab for a spell," remarked the section boss, who had been an interested listener.
"Was shy about even carryin' a cold lunch with me," agreed Engineer Martin cheerfully. "And I wouldn't have told a runaway bride in my engine cab—not even if she was elopin' with Mr. Superintendent Mayo himself."

Her Own Version.
A little girl in Connecticut, aged two and a half years, was allowed to go to church Christmas Sunday on condition she would not talk out loud, but could join in the singing. The first hymn happened to be "Joy to the World," sung to "Old Antioch." She recognized the tune and felt her opportunity had come. But the only words she associated with that tune were not the words of Isaac Watts. This made no difference, and the congregation was convulsed to hear a high, childish voice ringing clear above the voices around her: "There was a man in our town, and he was wondrous wise. He jumped into a brambly bush and scratched out both his eyes!" Especially effective was the repeat of the last line when, instead of hearing: "And heaven, and heaven and nature sing," they heard, "And scratched, and scratched out both his eyes."—Phila delphia Public Ledger.

Knew It Wasn't Safe.
Doris had a box of candy on the top of a book case. She would slide a chair to the case, climb upon it, and get her candy. When her father took a forbidden package from her and placed it on the case beside the candy, Doris said: "No, daddy, don't put it there. I'm afraid I will get it."

"What has your husband done?"
"Used a can opener on my first pie?"

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it. A prominent druggist says: "Take for example Dr. Kilmner's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmner's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism. You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmner & Co., Birmingham, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Adv.

Don't pay any attention to the disagreeable things people say about you—if they are not true.

A single dose of Dr. Peery's "Dead Shot" will expel Worms or Tapeworm. Its action upon the Stomach and Bowels is beneficial. No second dose or after purgative necessary. Adv.

For a storage egg slogan, why not "To the consumer belongs the spoiled?"

American Milk in Hongkong.
In 1918 Hongkong imported a condensed milk valued at \$3,886,640. It came from the United States valued at \$3,584,854, or 92 per cent of the total imports of that commodity.

The use of soft coal will make laundry work heavier this winter. Blue Cross Ball Blue will help to reduce that grimy look. At all grocers, etc.

HEARTBURN Caused by Acid-Stomach

That bitter heartburn, belching, eructating, indigestion, bloated after eating all are caused by acid-stomach. But are only first symptoms—danger signs warn you of awful troubles if not stopped. Headache, biliousness, rheumatism, nervousness, listless feeling, lack of energy, dizziness, insomnia, even cancer and all are traceable to ACID-STOMACH.

EATONIC is the most wonderful stomach remedy ever discovered. Brought them relief when nothing else failed.

**Notice of Sale of Real
Estate Under Execution**

STATE OF TEXAS, County of Lynn:
In the county court of Lynn County,
Texas, Guaranty State Bank, plain-
tiffs and N. Smith and E. R. Edwards,
defendants.

Whereas by virtue of an execution
issued out of the county court of Lynn
County, Texas, on a judgement render-
ed in said court on the 29th day of
April A. D. 1919, in favor of the Gu-
aranty State Bank, a corporation, and
against said N. Smith and E. R. Ed-
wards, No. 155 on the docket of said
court, I did on the 4th day of Novem-
ber A. D. 1919 at 5 o'clock P. M. levy
upon the following described tracts
and parcels of land situated in
Lynn County, Texas and belonging to
the said N. Smith, to wit:

All of the south 1/2 of survey No. 420,
Block No. 9, Cert. No. 144, E. L. & R.
R. Co. containing 320 acres,
same being in the southeastern part of
said county; and on the 2nd day of De-
cember A. D. 1919, being the first Tues-
day of said month, between the hours of
10 o'clock A. M. and 4 o'clock P. M. on
said day, at the court house door of
said county, I will offer for sale and
sell at public auction, for cash, all the
right, title and interest of the said N.
Smith in and to said property. Dated
this the 4th day of November A. D.
1919.

This stuff will be sold in ten
days after advertised, according
to law.

MARSHAL SIMPSON,
City Marshal, City of Tahoka

We call your attention to the
two-column advertisement of A.
M. Sullivan in this issue of the
News Mr. Sullivan has the
agency for the Overland "4"
automobile, covering the counties
of Lynn, Terry and Yoakum.
He is selling quite a number of
these machines in this territory.

The News family is indeed
thankful to Elder R. T. Harris
for a generous gift of sweet po-
tatoes and squash which he brought
to this office Saturday. The po-
tatoes were exceedingly large and
the very finest variety.

FOR SALE or TRADE for
good young cattle or work stock
my resident block in Tahoka.
Well improved. N. M. Bray.

For results place an advertise-
ments in the News each week.
It pays

FOR SALE—Good work
horses, mares and mules; cash or
good notes. Will Montgomery.

WANTED—to trade good
Overland car for cattle or work
stock. See. N. M. Bray

Box Supper

There will be an old fashioned
box supper at Draw Church
House Saturday night, Nov. 15th.
Proceeds will go toward paying
for parsonage. Every body
cordially invited to attend and
bring well filled boxes.

COMMITTEE. 10Itp.

FOR SALE—Farrand and
Votey Organ at a bargain. As
good new. N. M. Bray

It Pays to Advertise

SOME PEOPLE think
ADVERTISING is simply
SPENDING MONEY
BUT THE wise man knows
IT'S THE surest way to make
more.

THE ONLY problem is
WHAT MEDIUM to use.
CIRCULARS and hand-bills
COST A LOT of money
BUT YOU give them away
SO NOBODY wants them
ON THEIR front porches
NOR IN their morning mail.
THE SUBSCRIBER
PAYS REAL money
FOR HIS newspaper
AND THAT'S why he values
it

MORE HIGHLY
THAN A circular.
HE BRINGS his paper home
SO THAT every member
OF THE family
CAN READ and enjoy its
BREEZY, up-to-the-minute
news

AND PROFIT by heeding
THE HOME-TOWN merchants'
BID FOR their trade.
AND THAT'S a good reason
FOR ADVERTISING
IN A newspaper.
AND NOT only that
BUT
THE MERCHANT using hand-
bills

AND CIRCULARS hopes
FOR TEN readers
TO THE hundred bills,
IF WILLIE delivers the 100
WHEREAS the newspaper ad-
vertiser

IS SURE of at least
FOUR READERS to
EVERY COPY of the papers
AND THEY all read and heed
HIS ADS
AND THAT'S why he
LOOKS pleasant
AND GROWS fat in the
BANK ACCOUNT.

The Overland "4"

The Overland 4 is a car that is built
for service and pleasure, weighing only
1800 pounds, equipped with Ford size
casings and is extra easy riding; holds the
road like a heavy car, owing to the Cantilever
spring swung from the front and rear axle
extending the opposite direction from
any other car on the market. The motor,
transmission, fly wheel, clutch and univer-
sal joint all being built together and run-
ning in the same oil, so when you put your
oil in your engine you have the whole
thing oiled and ready to run.

Don't fail to drop in and see this car
and take a ride in it whether you want to
buy or not.
