UNTIL Tuesday, it was hard for me to visualize a crowd of 5,000 persons, occupying the Bulldog Stadium. I had heard tales of such and it became a reality at the Lyntegar annual meeting. Blankets were spread out picnic style, covering the football field and both bleachers were pretty well filled. Several of the youth, daringly perched themselves upon the goal posts.

The food was delicious, the weather excellent and people were having a good time visiting friends and neighbors. Out of the 5,000 plus attendees, only one small boy reported his parents lost. In all sincerity Tahoka is most fortunate in having such an industry as Lyntegar Electric Co-op.

THE News is losing a top-notch staff member this week as Zacki Price and husband, Stanley will be making their home at Texas A & M. Zacki was the firms bookkeeper and society editor and really did an A1 job. It's just not fair that Tahoka has to lose such a fine young couple.

Betty Jolly will be doing extra duty, helping with the news office and will continue gathering the local news. You too, can help by sending your news items to the News Office on Monday and Tuesday. Betty will make her usual news rounds during these days and will be ready to take your items at the office. Our best wishes go with Zacki and Stanley.

GETTING lost is just about the most miserable feeling I know. Tuesday evening, the night I started searching for the reported plane crash. In actuality, we were never anywhere near the crash site. I thought I knew where the crash site was, but the community was located, but a mixup in directions completely fouled me

I am not going to tell you where we ended up, because I really don't know. About 10:00 we got done was drive in between Slaton, Tahoka and Wilson. We weren't sure we just didn't know where we were. If it had not been for Deputy Woody at Slaton, I suppose we would have continued the fruitless search. I was beginning to think that you just couldn't find us here.

THERE is a bit of information that might be useful in saving your life, while driving on our highways. While depending upon the open road, I usually turn my car lights on, during the day. By doing so, this alerts several motorists to their lights when approaching.

Their actions prove to me that my vehicle can be seen regardless of conditions. The headlights make them aware of an approaching vehicle and alerts them to full control their vehicle, when they are in other traffic. If your life is worth saving, it's worth a try.

SENATE JOINT RESOLUTION No. 39 proposing an amendment to Subsection (a) of Section 62, Article XVI of the Constitution of Texas, relating to establishment of a retirement, disability and death compensation fund for officers and employees of the state, so as to create as an agency of the State of Texas the Employees Retirement System of Texas, vesting the general administration and responsibility of the proper operation of said system in a state board of trustees to be known as the State Board of Trustees of the Employees Retirement System of Texas, authorizing said Board to invest assets of said system in various obligations and subjects of investment, subject to certain restrictions stated therein and such other restrictions as may hereafter be provided by law; providing that contributions of members and the state shall not exceed at any time six per centum (6%) of the compensation paid to each such person by the state; providing that such Amendment shall be self-enacting; providing for the necessary election, form of ballot, proclamation, and publication; and declaring legislative intent that the adoption of this Joint Resolution shall constitute repeal of Senate Joint Resolution No. 3, previously adopted by the 60th Legislature, so that the proposition as set forth in this Resolution may be submitted to the voters of this state in lieu of the proposition contained in Senate Joint Resolution No. 3.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Subsection (a) of Section 62, Article XVI of the Constitution of the State of Texas be amended so as to read hereafter as follows:

"Section 62. (a) The Legislature shall have the authority to levy taxes to provide a State Retirement, Disability and Death Compensation Fund for the officers and employees of the state, and may make such reasonable inclusions, exclusions, or classifications of officers and employees of this state as it deems advisable. The Legislature may also include officers and employees of judicial districts of the state who are or have been compensated in whole or in part directly or indirectly by the state, and may make such other reasonable inclusions, exclusions, or classification of officers and employees of judicial districts of this state as it deems advisable. Persons participating in a retirement system created pursuant to Section 1-a of Article V of this Constitution shall not be eligible to participate in the Fund authorized in this subsection; and persons participating in a retirement system created pursuant to Section 48-a of Article III of this Constitution shall not be eligible to participate in the Fund authorized in this subsection except as otherwise provided herein. The amount contributed by the state to such Fund shall equal the amount paid for the same purpose from the income of each such person, and shall not exceed at any time six per centum (6%) of the compensation paid to each such person by the state.

an agency of the State of Texas, as the Employees Retirement System of Texas, the rights of membership in which, the retirement privileges and benefits thereunder, and operations of which shall be governed by the provisions herein contained and by present or hereafter enacted Acts of the Legislature not inconsistent herewith. The general administration and responsibility for the proper operation of said system are hereby vested in a State Board of Trustees, to be known as the State Board of Trustees of the Employees Retirement System of Texas, which Board shall be constituted and shall serve as may now or hereafter be provided by the Legislature. Said Board shall exercise such powers as are herein provided together with such other powers and duties not inconsistent herewith as may be prescribed by the Legislature. All moneys from whatever source coming into the Fund and all other securities, moneys, and assets of the Employees Retirement System of Texas shall be administered by said Board and said Board shall be the trustees thereof. The Treasurer of the State of Texas shall be custodian of said moneys and securities. Said board is hereby authorized and empowered to acquire, hold, manage, purchase, sell, assign, trade, transfer, and dispose of any securities, evidences of debt, and other investments in which said securities, moneys, and assets have been or may hereafter be invested by said Board. Said Board is hereby authorized and empowered to invest and reinvest any of said moneys, securities, and assets, as well as the proceeds of any of such investments, in bonds, notes, or other evidences of indebtedness issued, or assumed or guaranteed in whole or in part, by the United States or any agency of the United States, or by the State of Texas, or by any county, city, school district, municipal corporation, or other political subdivision of

Unless investments authorized herein are hereafter further restricted by an Act of the Legislature, no more than one per cent (1%) of the book value of the total assets of the Employees Retirement System shall be invested in the stock of any one (1) corporation, nor shall more than five per cent (5%) of the voting stock of any one (1) corporation be owned; and provided further, that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid cash dividends for ten (10) consecutive years or longer immediately prior to the date of purchase and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its

successors; and provided further, that not less than twenty-five per cent (25%) at any one time of the book value of investments of said Fund shall be invested in Government and Municipal Securities as enumerated above. Gin Manager Workshop Is Slated At Lubbock Today

Where cotton is "king" ginners must also be tops. Effective gin management is vital to the overall cotton industry, and ginners from throughout the Texas Plains will have an opportunity to "come up" on management at a workshop slated at Lubbock Thursday, August 15.

The Ginners' Management Workshop will be held at the KKKo Palace with registration beginning at 9 a. m. and dances Billy C. Gunter, district agricultural agent with the Texas Agricultural Extension Service.

Keynote speaker at the workshop will be Extension

Director John E. Hutchison who will address the group at a noon luncheon. Extension Economists Kenneth Wolf and Johnny Feagan will conduct major segments of the program.

The program will be kicked off with discussions by Wolf on "The Management Lag and Process" and "Planning and Organizing for Action." This will be followed by a talk on "Internal Economic Considerations in Operating a Gin" in which Feagan will discuss ways and means for better efficiency and maximum use of equipment and labor.

"Diversification" will be the lead-off topic at the afternoon session. Basic principles of diversifying business and applying them to a cotton gin will be discussed by the economists. A talk on "Personnel Utilization" by Wolf will feature labor problems, new employees and use of labor the year around.

A discussion period will be directed by Bill Thompson of Lamesa, president of the Texas Ginners Association.

The workshop is being sponsored jointly by the Plains Ginners Association and the Extension Service.

Bill Griffin, County Agent, Says

Screwworm fly cases have taken a sharp rise this year, and producers are being asked to remain on the alert for infestations in their herds.

Many factors have added to the increase in activity of the pest in Texas, but only by good management can the fly be brought under control again.

Some ranchers have had a tendency to become lax in their efforts to keep the pest from their herds. Treating all dehorned, sheared, or castrated animals with approved screwworm "dope"

coupled with close observation of livestock can once again rid the state of the profit-robbing pest.

Although wet weather has kept many ranchers from getting close to some animals in their herds, now is the time for them to inspect all livestock for open wounds and possible infestation by screwworms.

Ten specimens should be taken from an infested wound and sent to the Mission laboratory for identification so that control measures can be initiated in the area if the sample is positive.

For more information on collecting and shipping samples of suspected screwworms and for mailing containers, livestock men may contact my office.

New Lynn County Producer Director To Be Elected

Joe D. Unfred of New Home and Ardie Pace, Rt. 2, O'Donnell, have announced that the Lynn County producer director to Plains Cotton Growers, Inc. will be elected at a meeting on Thursday, August 22, 8 p. m. in the Lyntegar Room, Tahoka.

Unfred, the current producer director from Lynn County, and Pace, the business director, are inviting all cotton interests in the county to be on hand for what they

term "an interesting and educational program."

An up-to-date report on the present position of the government cotton program and prospects for its extension, plus a review of the PCG activities for the past year will be presented by a member of the PCG staff.

In addition, arrangements have been made for a commodity broker to explain use of the cotton futures market in hedging cotton prices.

PCG's Board is made up of two directors from each of the 23 Plains counties it represents. Producer directors are elected on even numbered years and business directors on odd years, each for a two year term.

"These directors govern all policy of the organization, and each cotton producer, ginner or other businessman should have a voice in the selection of the Board member from Lynn County," Unfred said.

Grass Planting Deadline Is Past

The time for planting improved irrigated pasture grasses is almost over says Don Reed, Soil Conservationist. August 15th is considered the last date to plant grasses and expect them to grow to a good stand.

Grasses planted after this date may not have time to develop a root system that is capable of storing sufficient food to carry the grass through the winter until next spring. Also they will not have time to grow to sufficient height to protect the soil from blowing. Dryland grasses should not be planted now and be expected to develop a stand that will survive the winter.

People establishing lawns in town can run into the same dangers, says Reed. Lawns planted after August 15th stand a chance of winter damage.

Persons wishing to establish grass next year should begin to make plans now so they will be ready to plant next spring. Cotton burs, sorghum residues, and other organic material on the land help keep land in condition to plant early. Grass should be planted on a firm seedbed whenever possible.

He received the CIB (Combat Infantry Badge) for the battle of Doc To for being under fire in Vietnam.
