

THE LYNN COUNTY NEWS

TAHOKA, LYNN COUNTY, TEXAS THURSDAY, MARCH 27, 1924

NUMBER 30

COUNTY AGENT ARRIVES

Robertson, the county agent, on the job. He arrived Sunday ready for business and early Monday morning, he must first make a survey of the situation, get acquainted with the people to a certain extent, and then himself as to local conditions before he can really begin to do things which he hopes to accomplish.

There must be some preliminary foundation work, before on the superstructure besides, his is the kind of work that grows gradually as the people become more acquainted with its nature and the benefits. His usefulness will be largely on the degree of acquaintance that the farmers and the people of the county have with him.

Robertson spent Monday in the business people and on Tuesday he went to Lamesa with Mr. Watson, the county agent there, whose work has been so much in the development of the splendid county. Known conditions in the two counties, he felt that Mr. Watson would give him some suggestions that would be helpful. After Mr. Elliott had conferred with the business men of the county, it was decided to have a meeting on Wednesday night to discuss the situation in this county.

Mr. Robertson is a gentleman. He is a graduate of A. & M. College of Texas. He has been a student in that college for four years. He comes from Young county, Texas. He is a native of that county. He is a native of that county. He is a native of that county.

CITY WATER PIPES BEING LAID

The City is laying 8,000 feet of 2-inch water piping in the south portion of the city. One line of piping extends down Sweet street, another down the second street west of Sweet, and still another down the second street west of that. The laying of this pipe will enable practically all the residents of that portion of the city to be supplied with water and will materially add to the desirability of lots in that locality.

SPRING OPENS WITH RAIN

Rain began falling sometime before midnight on last Friday, March 21, and continued to fall throughout the remainder of the night. The total precipitation amounted to about one-half inch, and as it fell slowly it all soaked in the ground. Following the fine snow which fell last week, this rain put the soil in the finest condition possible for the planting of crops. Perhaps ninety per cent of the old land has been "put up" and is ready for the planter. Crop prospects at this time of the year were never much better.

NEW MOORE FARMER DIES

J. M. Sanford, a farmer living in the New Moore community, died Sunday. Internment was had at the O'Donnell cemetery Monday. Mr. Sanford had removed to this county a few months ago from Stamford but during his brief residence here he had made many friends in his community.

TAHOKA V. A CLASS VISITED SLATON DAIRY

Six members of the Vocational Agriculture Class of Tahoka, with their teacher, J. A. Stark, visited the Massingill Dairy farm four miles south of here Saturday, and inspected their stock of Pure-bred Holstein milk cows which is considered one of the best dairies of this section of the state.

Mr. Stark stated that his class would probably enter the stock judging contest at Canyon and A. & M. College in the near future, and believed that they have a fine opportunity for the championship. Slaton appreciates the visit of these people and invites them back again.

PANHANDLE PHYSICIANS TO MEET IN LUBBOCK FOR NEXT CONVENTION

Dr. Wm. L. Baugh returned to his home here Thursday morning from Amarillo where he attended a regular meeting of the Panhandle District Medical Society and reported that on an invitation from all the doctors in Lubbock the members of the society voted unanimously to meet in Lubbock at their next meeting, which will be in September.

JACKSONVILLE MAN BUYS HOME IN LYNN COUNTY

It's a long cry from old Cherokee county down in the pines to our own Lynn county up here on the plains. But A. M. Walton of Jacksonville, Cherokee county, heard of the unmatched opportunities of this section, his imagination was fired, and he came to see. Having seen, he was captivated; and the result was that he sold his east Texas holding and invested in a quarter section of Lynn county dirt, as good as a crow or any other kind of bird ever flew over. He is now the owner of the W. J. Henson tract lying about seven miles north-east of Tahoka. The sale was consummated by the South Plains Realty Company. He and his family have already moved out and they will take possession of their new home immediately. Here's hoping that Mr. Walton and every other Lynn county farmer makes at least a half bale of cotton per acre this year together with an abundance of feed and watermelons, especially watermelons. We like 'em.

BOOST FOR YOUR HOME TOWN!

MEADOR TRIAL BEGINS AT SWEETWATER

The case against William Meador, charged with the murder of Asa Rawls, was called for trial at Sweetwater Monday morning and both parties announced ready for trial. Information reaching Tahoka is to the effect that about half the jurors were selected Monday.

It will be remembered that William Meador and his father Andy Meador both of Lamesa were indicted for the murder of Asa Rawls, the homicide having occurred in Andrews county. The William Meador case was tried once at Barstow, resulting in a 99-year sentence, but the court of Criminal Appeals reversed the case, whereupon it was transferred to Sweetwater. Andy Meador was salos tried and convicted at San Angelo and was given a 20-year sentence, but a new trial was granted and the case is still pending on docket of Tom Green county.

These cases attracted widespread attention at the time of the offense. Meador and son were wealthy ranch owners, their ranch lying in Andrews county. Meador was an employee on the ranch. At the former trials, the wife of the deceased related a blood-curdling story of the tortures that she claimed were inflicted by defendants upon deceased in the perpetration of the homicide. The defendants claimed self defense. The outcome of the trial at Sweetwater will be watched with much interest.

It is said that more than a hundred witnesses are present in response to subpoenas issued by the State and the defendant. The State is represented by District Attorney James T. Brooks of Big Spring and former District Attorney B. W. Baker of Midland, while the defendant is represented by G. E. Lockhart of Tahoka and Lud Williams and Clay McClellan of Waco.

YOUNG MAN DIES AT DRAW

Ollice Parks, nineteen years of age, the son of Mr. and Mrs. I. H. Parks, died at the family residence in the Draw community last Thursday. His remains were laid to rest in the cemetery at that place Friday. The funeral services were conducted by Rev. Eldridge of O'Donnell. Death resulted from pneumonia.

The death of this young man would have been sad enough under any circumstances, but was made immeasurably sadder by the fact that at the time of his death his mother lay seriously sick, unable to sit up, and a sister herself lay at the point of death.

It is such catastrophes as this in the affairs of men that stirs the sympathy of the hardest heart and makes every normal being wish that he could apply some healing balm to the broken hearts of the bereaved ones. The News joins a host of friends and acquaintances of the family in extending sympathy to all the bereaved.

ANTI-KLAN SPEAKER ADDRESSES LARGE AUDIENCES

W. C. Witcher of Fort Worth addressed an audience that packed the lower floor and the galleries of the district court room Saturday afternoon, a number of persons being turned away for lack of room. Mr. Witcher spoke on the alleged evils of the Ku Klux Klan, and the large audience present seemed to enjoy his remarks, his hardest hits drawing frequent applause. Another address was delivered to a somewhat smaller audience that assembled at the same place Saturday night, after which an organization opposed to the Ku Klux Klan was organized.

HAS ANTIQUE NEWSPAPERS

In discussing old relics a few days ago, Dr. J. R. Singleton stated that members of the Singleton family have acquired a lot of old newspapers. Among them is one published in 1799 and it contained an account of the death of George Washington. Dr. Singleton's grandfather was a newspaper editor in the early days of Texas, in the city of Marshall, and the family yet have files of all the issues of his paper issued during the year 1848. They contain much information relating to the Mexican War.

No garden seeds are to be sent out this year by members of Congress, the appropriation for such being defeated at the last session of Congress in the interest of economy.

UNIDENTIFIED MAN SHOT AT SOUTHLAND

SOUTHLAND, March 20—An unidentified man was shot here late tonight following what is thought to have been an attempt on his part to break into Russell's Mercantile store. The bullet took effect in his head, but it is thought by attending physicians that the wound will not prove fatal.

A local youth was asleep in the store, he says when he was aroused by someone evidently trying to force an entrance to the building. He opened fire with the above result. The wounded man is a stranger here, and as he has not yet been able to make a statement, nothing whatever is known of him. He is of medium build dark complexion and has but one eye.

CHURCH COMMITTEE VISITS LUBBOCK SUNDAY

W. L. Knight, D. T. Rogers, and the editor were invited to seats in the car of E. R. Allen Sunday for a drive to Lubbock. Other occupants of the car were Mrs. Allen and daughter Mary.

No, we were not out just taking a joy ride. It was a church committee of the Tahoka Baptist Church, and their business was to gather some information preparatory to the building of a new church edifice in Tahoka. The committee attended church services in Lubbock. It was a fine service too, a large congregation in a new church, a splendid sermon, great singing and it was inspiring. How different to some of the near-jazz music that we sometimes hear in church services.

As everybody knows, Lubbock itself is growing rapidly now, especially in the residence sections. A fine little city Lubbock is going to be. And the country between Tahoka and Lubbock great! As we drove along the road and noted the thousands of acres of virgin soil just recently touched by the plow for the first time, it was one new residence after another came within the range of our vision we were thrilled by the prospect. New homes everywhere! Most of them, we are persuaded, will be happy homes. Not half of the future glory of this country has yet been told! It's great!

BOUGHT MILLER GIN REPAIRING IT NOW

Berry Davis and son, Herman, came in from Gracemount, Oklahoma, and were so well pleased with the future outlook of O'Donnell that they bought the Miller gin and will become permanent citizens. Mr. Davis states that he will give the gin a thorough overhauling and will add one more stand to the four seventies now in place. A seed and cotton storage house will be built and a steam power equipment will take the place of the gas engine. Mr. Davis is a competent gin man, having spent all his life in this work and says that he will leave nothing undone for the convenience of the patrons of his gin. He is now in Oklahoma to pack his belongings and move his family out. O'Donnell Index

AN UNUSUAL OPPORTUNITY

Dr. E. E. Robinson, Presiding Elder of the Lubbock District, announces that a Standard Training School is to be held for Pastors and Sunday School workers of the district at Lubbock, during the week beginning Sunday, April 6, next. Classes will be conducted in four subjects: Sunday School Organization and Administration. Pupil Study. The Principles of Religious Teaching. Bible Study. Class work will be conducted for two hours each evening beginning, Monday April, 7, at 7:30 o'clock. These classes will be conducted by experienced and capable instructors, approved by the General Sunday School Board, of the M. E. Church South.

These classes are open and free to all who desire to become more efficient in religious work. All are invited.

SONGFEST AT O'DONNELL

The News is requested to announce that the O'Donnell Singing Class will meet at the Methodist church in O'Donnell next Sunday afternoon, March 30, at 1:30 o'clock and spend the afternoon in singing. Good singers from many communities in Lynn county and from a distance are expected, and it is hoped to make the occasion a most pleasurable one.

C. H. Mansel of the Mansel Bros. Mercantile Company is the president of the class and L. L. Busby, public weigher at O'Donnell, is the secretary. They extend a special invitation to Tahoka singers and others to be present.

Alvin McAllister and family of Pasadena, California, are visiting the family of his father, W. M. McAllister.

Herman Turner has been confined to his room this week with a severe case of indigestion.

COCHRAN COUNTY ELECTION HALTED

Injunction to Restrain Election Granted

LUBBOCK, March 24.—The last stand has not yet been taken in the battle for supremacy in Cochran county by the powerful Slaughter interests represented in Lubbock by C. A. Pierce, and Morton J. Smith, nationally known cowboy who has sought to organize the county despite the stubborn resistance given his efforts by the Slaughters who have unlimited financial resources at their hands with which to carry on.

Wednesday, C. A. Pearce, representing the Slaughters, procured an injunction through his attorneys, Bledsoe & Pharr and R. A. Sowder, all of Lubbock, vs John Doyle county judge of Hockley County and the various election judges appointed to hold the election in Cochran County, and enjoined the officers for Cochran County and to complete the organization of the county. The injunction was granted by District Judge Clark M. Mullican, Wednesday.

The plaintiff secured the injunction under the claim that the petition presented to the commissioners court of Hockley county did not contain the names of the necessary 75 qualified voters in Cochran county. This number of legal voters names being signed to the petition is required by the laws of Texas.

There were 84 names signed to the petition, but alleged disqualifications among the signers were said to eliminate them to a figure below the required number. The plaintiff alleges many irregularities in payment of poll taxes that renders the petition void and the election ordered under it ineffective.

The case is to come up for trial at the regular term of District Court in Hockley County on June 16th, 1924.

This is the second effort made to organize Cochran county, the first having been made in 1923 and after the election was held an injunction was filed restraining the election judges from declaring the results of said election. At the June term of District Court 1923 this case was tried at which time the injunction was perpetuated. The defendants appealed the case to the court of civil appeals at Amarillo and there the judgement of the trial was affirmed.

Attorneys Bledsoe & Pharr and R. A. Sowder, of Lubbock represent the plaintiff, while the defendants will be represented by Attorney G. E. Lockhart of Tahoka and the law firm of Wilson & Douglas of Lubbock.

Morton J. Smith, cowboy land man of Lubbock, and a number of land owners in the Morton vicinity are interested with the defendants in the organization of the county and will in all probability continue their efforts to have the county organized at a later date.

A meeting of the plaintiff and defense attorneys with District Judge Mullican was held at the office of the judge at the courthouse Thursday afternoon at which time efforts were made by the defense attorneys to get the judge to alter his opinion on the injunction and permit the election to be held, but he reaffirmed the first decision to uphold the injunction restraining the county judge and commissioners from holding the election.

The News is requested to announce that the O'Donnell Singing Class will meet at the Methodist church in O'Donnell next Sunday afternoon, March 30, at 1:30 o'clock and spend the afternoon in singing. Good singers from many communities in Lynn county and from a distance are expected, and it is hoped to make the occasion a most pleasurable one.

C. H. Mansel of the Mansel Bros. Mercantile Company is the president of the class and L. L. Busby, public weigher at O'Donnell, is the secretary. They extend a special invitation to Tahoka singers and others to be present.

Alvin McAllister and family of Pasadena, California, are visiting the family of his father, W. M. McAllister.

Herman Turner has been confined to his room this week with a severe case of indigestion.

AMERICAN LEGION HAS SMOKER RESOLVE TO BUILD HALL AT ONCE

The American Legion boys held a smoker last Thursday night. Forty members of the Marion G. Bradley Post were present and interest and enthusiasm in the work was fine.

The most important item of business considered at this meeting was the building of a Legion hall. At this meeting additional subscriptions to the building fund amounted to \$1385.00 and the boys decided to proceed immediately with their building program. They authorized the drawing of plans and specifications for the building and announce that the contract will be let this week. The building will be 25 by 80 feet in size, two stories high, constructed of brick. The Legion Hall will occupy the second floor, while the lower floor will be rented and used for a business house. It is thought that work will begin within thirty days. The building is to be constructed on the American Legion lot immediately north of the Guaranty State Bank.

P. P. Brewer of the Joe Bailey community was in the News office a few days ago, and he was very optimistic over the crop outlook. He says the recent snows thoroughly wet the ground and that conditions for crop planting could hardly be better.

HOW

THE WORLD'S BREAKFAST COFFEE IS GOT READY.—Preeminently Brazil is the land of the coffee tree. What corn and cotton are to our nation, coffee and rubber are to Brazil. Especially does the aromatic berry predominate among her products. She fills the coffee cup of the world. Jahu, in the coffee region of Brazil, is some 400 miles from Rio de Janeiro, over a good railway. By the time one reaches Jahu he is likely to find that he has been transformed into a red man, for he is powdered from head to foot, very likely, with the reddish dust of the region, the dust of the soil which the coffee tree especially delights in.

In most lands people simply drink coffee, but in Brazil, especially in the coffee districts, people, as well, talk coffee and dream coffee. The prosperity of the region depends altogether upon the yield of the coffee berry.

My friend, Colonel Feraz of Jahu, kindly invited my daughter and myself to visit his fazenda or coffee farm.

After a few miles, we seemed to be coming into a vast forest of uniform trees, about twelve feet high, with leaves somewhat resembling those of our edible chestnut, and with a rather dense and bushy growth.

As we entered this forest my friend said to me in a modest way, "These are my trees," and we found that as far as our eyes could reach, up hill and down dale, this forest extended. "How many trees have you?" we asked, and he answered, as though stating a very ordinary and commonplace fact, "About 430,000."

In May these trees are covered with red berries which contrast beautifully with the glossy green leaves, glowing like rubies in their dark setting. The berries are about the size of a Cape Cod cranberry, and of the same color, but these are their only resemblances. Under the outer husk of red is a sweetish pulp, and within that, the hard berry of commerce. The berries, which at first are green, turn red and finally dark when they are ripe, until almost black. When they are ripe the berries are shaken off the trees, then gathered from the ground by other workers, and poured by the ton into a vast coffee mill, which, however, does not grind them, but cracks the hull. This is blown away by a strong current of air, while the imprisoned berries drop to the bottom and are then sorted automatically by passing over a perforated screen.

Then, by another set of machinery, these sorted berries are put into bags each of which holds 132 pounds. These are sent by rail to the port of Santos or perhaps Rio de Janeiro, whence they are shipped, after passing through the hands of many middlemen, to every city, town and village, ranch and camp in North America, for Brazil has almost a monopoly of the world's coffee trade.—Rev. Dr. Francis E. Clark, in Christian Herald.

Trade with the merchants who pay the taxes for your country's betterment

The Development of the Railway Net in Texas

By WALTER SPLAWN
Railroad Commissioner of Texas

This land was to be sold one-half in six years and all of it in twelve years. Under this law 67 companies were chartered and 12 of them obtained land. From 1852 to 1882, 41 railroad companies received land in blocks from 49,000 acres to 5,167,000 acres. The total given railroads amounted to 38,900,800 acres. Just what this land brought no one has ascertained. It probably averaged not more than \$1.00 per acre, if that much. In 1890 the capitalization of railroads in Texas was as follows.

Bonds	\$233,000,000.00
Stocks	\$177,000,000.00
Other indebtedness	\$30,000,000.00
Making a total of about	\$440,000,000.00

Just what it cost to build these 8,800 miles we had in 1891 has never been determined, and owing to the absence and destruction of records will never be known with accuracy. Since 1891 railway construction in Texas has continued until we now have about 16,000 miles of railroad. The great problem in the early days

was to get the railroads built. Now that we have the railway net pretty well developed, the problem is how to obtain the most efficient service at the least possible cost.

COTTON GINNED IN TEXAS

The U. S. Department of Commerce reports on March 20 that 4,209,941 bales of cotton of the crop of 1923 had been ginned in Texas as compared with 3,125,758 of the crop of 1922.

The largest cotton raising counties in 1923 were: Ellis, 112,711; Williamson, 110,480; McLennan, 101,586; Collin, 92,270; Neuces, 92,250; Navarro, 89,993; Hill, 89,393; Bell, 71,299; Kaufman, 69,629; Fannin, 65,898.

The largest cotton producing counties in central west were: Jones, 56,768; Rannels, 46,887; Taylor, 41,737; Fisher, 34,818; Mitchell, 30,478; Haskell, 29,928; Coleman, 28,485; Knox, 25,604; Nolan, 18,675; Howard, 18,154; 25,604; Nolan, 18,675; Howard, 18,151.

The largest cotton producing counties in the panhandle and plains section were: Lubbock, 31,719; Hall, 25,886; Lynn, 24,481; Crosby, 23,544; Collinsworth, 22,978; Dawson, 21,410; Wheeler, 18,911; Dickens, 17,142; Hale, 10,824; Floyd, 10,268; Garza, 10,206.

J. R. LOWREY REMOVES TO SLATON

Mr. J. R. Lowrie and family are removing this week to Slaton, where they expect to make their home and where Mr. Lowrie will engage in the insurance business. Sorry to lose this good family.

9999

Nine thousand nine hundred ninety-nine bales of cotton have been weighed up the past season at the local yard according to R. C. Wood, public weigher. He reports that there are about four bales at the gins, however which will be weighed, thereby bringing the total for the Tahoka yard slightly above ten thousand.

MERCHANTS AGREE TO CLOSE AT 6

The following merchants have agreed that beginning with Tuesday, April 1st, they will close their respective places of business at 6:00 P. M. or as soon afterwards as possible every week day with the exception of Saturday.

Knight & Brashear, The McCormack Store, R. A. Thompson, Steven's Variety Store, Jones Dry Goods, J. S. Wells & Sons, H. M. Larkin, R. H. Turner & Son, H. M. Anthony.

This is not a new or untried idea that we have originated. It has been proven a success in other towns and cities, even in towns near Tahoka. We believe that the merchants in our home town are as progressive as the merchants in other towns and cities.

This closing hour gives the merchant and his employee, a little time which he can legitimately call his own. Some time which he can get out of his business, forget it temporarily, and get out of doors. They all spend 10 hours and more in doors, everyday.

As some learned philosopher has said, "we are not in business for our health." That being the case, it behooves us to either regain or retain that health, as the case may be. All authorities unanimously agree, that pure fresh air and sunlight, Gods great out-of-doors, is the greatest little restrainer and regainer, that is known, at present.

Lets cooperate, and allow the merchant to have an undisputed title to the little time from 6:00 on. He can use it profitably. He always has a car that needs limbering up, a garden with too many weeds, a lawn that needs sprinkling or mowing, and a thousand and one other things he'd like to do. At least he can stand on the retainer and regainer, that is Lets work together, merchants and

ing the Chamber of Commerce. Every citizen of the city who is interested in its welfare is invited to be present.

CARD OF THANKS

We wish to thank our friends for the many kindnesses that they have shown our dear father, brother, and uncle, Ira C. Preston, during his illness. We can not express in words our deep gratitude to them. We pray God's richest blessings on each one of them.

His children
His sister, Mary E. McMurry
S. B. Preston.
Mr. and Mrs. H. S. Hatchett and children
Mr. and Mrs. J. B. Hatchett and children.

CARD OF THANKS

To our Dear Friends: We thank you from the depth of our hearts for your unflinching kindness during the illness and death of our "Little One", and our friends at Grassland for their kindness of the grave and funeral arrangements.

Mr. and Mrs. Eugene Latimer
Mr. and Mrs. B. B. Halliburton

WILL PLANT CORN

G. C. Sargent was in the News office Saturday rejoicing over the soaking rain that fell Friday night. He stated that he expected to plant some corn the latter part of next week, the weather permitting. He further stated that he had a few acres in corn in 1921 and made 35 bushels per acre. He thinks the prospects favorable for a good corn crop again this year.

HIGH SCHOOL SENIORS WILL GIVE PLAY FRIDAY NIGHT

At the High School Auditorium, on Friday night, March 28, "Borrowed Money" will be presented by the High School Seniors.

This comedy is one of Parker's best plays. The scenes vary from the attractive spots among the western hills to our great eastern social centers. The Caste have been practicing daily, among which are two negro comedian which give the entire play an air of humor and entertainment.

Miss Lena B. Price, whose ability take the lead in dramatic club is unquestioned, is coaching the play. The proceeds go to the High School Annual.

PRESIDING ELDER HOLDS QUARTERLY CONFERENCE

Dr. E. E. Robinson, the presiding elder of this district, held quarterly conference at the Methodist Church at 3 o'clock Sunday afternoon, and he preached to a very appreciative audience in the district court room Sunday evening.

The corner stone services, at which Dr. Robinson, was to have made an address Sunday afternoon, were again deferred to a later date.

HAMMERS THE TABLE GETS ACTION

The positions occupied by Chas. G. Dawes and O. D. Young as members of the American committee of the Reparations Commission, working out a plan to rehabilitate German finances, are unique in the world's history.

The American members of this com

mittee are paying their own expenses in Europe are not obligated to any foreign power and are not hampered through fear of overstepping some point of diplomatic etiquette. The neutrality and independence of both men has made them outstanding figures in this work for world rehabilitation. Unconcerned with political expectations and anxieties of the various European governments, they have been able to play a dominant part in shaping the course of the expert's work.

Dawes, puffing his pipe and occasionally hammering the table, makes his points efficiently and keeps the committee seeking a purely business solution. Young coolly handles the matters as though he were dealing with an ordinary business problem in the board room of a corporation. The keen directness of the men has inspired confidence and also admiration. Five years of political jealousies and intrigue have almost wrecked Europe. A few weeks of business consideration of its problems by competent men will evolve a business-like solution of the question at issue, which European kings, presidents or premiers will not dare disregard.

The activities of Dawes and Young are having a greater effect on Europe today than the work of any American since Woodrow Wilson.

Industrial News Bureau.

The Department has advised Congressman Jones that it had authorized the establishment of a motor rural route "A" from Perryton, Texas, effective May 16, 1924. The new route will reach territory southwest and south of the office and will afford improved mail facilities to approximately 120 families.

CAROLINA'S LATEST ROAD PROJECT

North Carolina, having beaten all the States to a complete hard-surfaced road system, by connecting all its 100 county seats, has not finished its program of highway progress. It now proposes to make its road system still more attractive by beautifying the borders of its highways. A large state organization has been formed to promote this wonderful program. Engineers, foresters and landscape gardeners have been employed and plans made to plant trees,

shrubby and flowering plants all along those concrete roads, grouping them in small parks at suitable places in order to "appeal to the aesthetic sensibilities of the motorist." In round numbers, the area of North Carolina is 52,000 square miles, and taken as a whole, it would be difficult to find so beautiful a landscape of similar area anywhere else in the world. It is a heavily timbered region. There was no open country there when the first white settlers came. All of the carolina farmers were forest land and they tell of the plodding industry of the axmen of the seventeenth and Eighteenth centuries. Even despite the scars the lumberjacks have left upon the State's surface, the Old North State's vista of surpassing natural beauty and is a joy to the motorists who travel over its hard-surfaced highways.

But to line those highways with shrubby and flowers, and to plant trees where the landscape has been denuded, with park systems at eligible points, is a conception that is bound to evoke universal admiration of Carolina progress and idealism.

We have thought of such improvements in Texas. A few years ago somebody proposed to plant trees along some of our Harris county roads, and thus relieve the monotony of spreading vistas of prairie but nothing came of it. It was said by some that we might do this as a memorial to our fallen sons, and we cherish the hope that some day the plan may yet be executed.

But the Carolina plan to convert a great and beautiful State into a vast park system is one to take one's breath.

The encouraging part of it is, the people of North Carolina themselves are enthusiastic about it. With the building of the roads tens of thousands of motorists are visiting the State and the roads have been the means of placing much outside money

STATE OF TEXAS
COUNTY OF LYNN

Whereas, by virtue of authority granted to me as trustee, named and acting in a certain deed of trust, recorded in Volume 7, page 291, of the Real Estate Mortgages of Lynn County, Texas, executed and recorded to me on the 23rd day of February 1921, by P. H. Northcross, better securing the payment of certain promissory note dated November 7, 1920, for the sum of \$100, signed by P. H. Northcross, payable to the order of the First National Bank of Tahoka, Texas, due on the 7th day of June 1921 bearing interest from maturity until paid at the rate of 10 per cent per annum, and providing for 10 per cent attorney's fees if the same is placed in suit or if suit is brought on same, and premises described in Section No. 505, Certificate No. 1, in Block No. 1, G. C. & S. F. original grantee, situated in Lynn County, Texas,

whereas, the said P. H. Northcross on the 28th day of October 1922, sold and conveyed the described land to W. W. Wallis, certain deed in writing of that consideration, among other things, and agree to pay off and discharge the above described note, and the same became and is a part of the chase money for the above described land and premises.

whereas, the said First National Bank of Tahoka, Texas, is the owner of said note and the said P. H. Northcross and W. W. Wallis are in default in the payment of the above described note, and same has been placed in the hands of the undersigned for collection, and the same is now past due and unpaid, principal, interest, and fees by reason of default, as set forth in said deed of trust, and said note is now being now agreed to by interest and attorney's fees, \$1578.28; and, whereas, I requested by the said First National Bank to enforce said trust, for sale between the legal heirs, between the hours 10 A. M. and 4 o'clock P. M. at the highest bidder, on Tuesday in May, A. D. 1924, being the 6th day of May, at the courthouse door of Tahoka, in Lynn County, Texas, the above described premises, with all the rights and appurtenances thereto belonging.

My hand this 17th day of March, 1924.

THE WIND

posed to be the windy year on the Plains, and elsewhere in the Northern Hemisphere. Plainview housekeepers dread the spring winds, but this spring on account of the winter rains and snow there will not likely be many dust storms. However, one reason why the Plainview country is so healthy is that the winds come and stir up the atmosphere, purify the air and give us healthful ozone. Then, here on the Plains there has never been a cyclone, as on account of the altitude such dreaded storms cannot form. Therefore, to the Plains people the winds are a blessing instead of the curse that some people hold them.

Of all the phenomena of nature the wind seems to be the one that is most strikingly endowed with personality. Sunlight, starlight, moonlight, thunder and lightning, rain and snow—there is no wide range of expressiveness in any of them. But the wind has moods and a many-sided character; indeed there is no human emotion, no virtue and no vice of the human soul, that does not find its representation or its symbol in the blowing of the wind. The insane, destructive fury of mankind at war has its counterpart in the tornado and the hurricane. Violent gales, though less demoniac in temper, show occasional outbursts of brutality corresponding to those that human beings sometimes exhibit. Then there are the mean-spirited, ill-natured gusts that do spiteful, malicious things and play disagreeable practical jokes; experiencing them we feel that the wind is at heart a vindictive bully. At other times it is better disposed, yet not quite amiable—boisterously humorous, usually at the expense of people who dislike boisterous humor. But even those people will admit that now it has got rid of its malice and is merely prankish and not above playing the clown.

When the wind ceases to be aggressive it becomes gentle, confiding, sympathetic affectionate; it soothes and caresses, it stimulates and refreshes. It seems then to have the most agreeable personality of all the forces in the natural world. To the poet's imagination it becomes a lover murmuring endearments to his lady, or a mother singing a lullaby to her babe, or an old nurse crooning softly to a child.

The wind is like people; it cannot always be at its best. And however much we may object to it and denounce it or long for and welcome it, of one fact we may be sure; we can never do anything about it.

Plainview News

O'DONNELL STILL GROWS

The News man made a friendly call to the little city of O'Donnell last Friday afternoon and found the town still growing and the people still imbued with the "booster" spirit.

The first place we visited was the office of the O'Donnell Index. Mr. Kellis presides over the destinies of this young but thriving newspaper, and he is publishing a paper that the town and community are justly proud of.

Among the many business houses which we visited were the two drug stores, in one of which we met our old-time friend Dr. Campbell, who formerly resided at Blackwell, Nolan county, then decided to go to Oregon and "get rich quick" raising prunes, and after a few years experience there decided there was no place in the world like the plains of Texas. So, in January he came to Lynn county and hung out his shingle in the next best town in the county and is enjoying a lucrative practice. Other physicians there are likewise doing well, notwithstanding the fact that it is a most healthful country. In the other drug store we found our friend W. L. Christopher, who

has been in business there only since October 1, 1923, but is doing a nice business. Time and space would fail us to mention the various places of business which we visited and many which we did not find time to visit on this trip.

From appearances, almost the entire town has been built within the past year and the numerous small wooden structures give it somewhat the appearance of a young boom oil town. A number of substantial business houses have already been built, however, and others are now under construction. Among those noted were a brick business house 35x64 feet being constructed by A. J. Warren, sheds and offices for a lumber yard by the Cicero Smith Lumber Company, an oil distributing station by the Magnolia Petroleum Company, a filling station, and numerous residences. The basement for a new Baptist church is also to be built immediately, and bonds have just been voted for a \$25,000 school building in addition to the nice brick structure already in use.

The original townsite, according to information given by one of the citizens, consisted of about 2400 lots, all of which have been sold except about 400. Forty one lots were sold in a single week recently.

The evidences are that the growth hereafter will not be so rapid but more substantial buildings will be erected, and in many instances brick houses will replace the numerous wooden structures now found in the business section of the town. Verily, O'Donnell is a live wire.

O'DONNELL NEWS
(From O'Donnell Index)

Hugh McLauren moved Monday to Newmoore where he will make preparations to plant 600 acres in cotton. He has been in Lynn county for 21 years and is probably one of the most successful farmers of this section, having at one time over 2500 acres in cotton and feed stuff. Mr. McLauren is a large land owner but has not taken up with the tractor, still W. P. Moore and son, Tom, have purchased a section of land about six miles west of O'Donnell and are mak-

ing preparations to plant 400 acres in cotton. Mr. Sanders has installed a new power plant for making juice to propel his fans in the State Theatre during the coming summer nights. The engine is a six horse-power Fairbanks Morris and the dynamo of sufficient capacity to give power to the six oscillating fans and the five-foot blower in the rear. The fans are not in place but will be installed soon.

R. F. Barrett, of Lamesa, who for several years was tax assessor of Dawson county, has purchased a one half section west of O'Donnell which he will plant to cotton.

Mr. and Mrs. C. E. Donaldson, left this week in their car for an extended camping trip in Rio Grand valley. They will visit Del Rio, Laredo and other points of interest, expecting to be away a month or more.

Joe T. Moore, of Grand Prairie, Dallas County, has just completed a new five-room residence on the half section which he recently purchased just west of P. G. Phipps place, near the Wells school.

C. H. Doak is backing up his belief in a good crop year by placing over 400 acres under cultivation. With the amount of moisture in the ground resulting from the rains and snows of the past few months Mr. Doak feels assured of a good crop.

William DeBusk, of Mineral Wells was here last week and purchased two lots on Broadway facing north, where he will build a home. Mr. DeBusk is a Garage man and later expects to put in a garage and filling station.

Mrs. M. E. Mitchell, of Lubbock, died Saturday, March 15th and was buried Sunday afternoon. Mrs. Mitchell was 73 years of age and leaves five children. The children are: H. E. Baldridge, of Tahoka, Joe Baldridge, Mrs. L. O. Burford and Mrs. Mary

McBride, all of Lubbock, and Mrs. Minnie Mathews, of Wellington, Texas. All of the children and sixteen of the grandchildren were present at the funeral.

While in town Saturday, H. L. Brewer was a caller at the Index office, and in regard to the prospects for a bumper crop this year, he said that conditions were right—plenty of moisture in the ground and the planting season was so near that the larks were already singing. The one thing Mr. Brewer fears is the over-production of cotton, thereby lowering the price to where it will not pay the farmers for their labor. He believes that every farmer should plant at least sufficient feed crops to carry him through the coming year, and will back this belief by planting 75 acres of his 150 acre farm to feedstuff, reserving the other 75 acres for cotton. This is a question that every farmer on the Plains should give due consideration before planting their entire farms to cotton.

We appreciate mail orders and fill them promptly.

Underwood seems to be the underdog over in Georgia.

Lynch Davidson declares that he doesn't believe in Lynch Law.

The way McAdoo walked around all over Underwood over in Georgia the other day makes it look like he is getting ready to run like greased lightning. He seems to have gotten just enough oil publicity lately to have lubricated his running gear perfectly.

A few weeks ago we wrote an editorial relating to the religious attitude of the people of Tahoka. Last week one of our exchanges came to our desk, containing this editorial word for word and letter for letter except the name of its town was substituted for "Tahoka" where that name appeared in our editorial, and of course no credit was given to this paper. Of course, we appreciate the fact that another paper thought our editorial matter good enough to swipe but it has been our invariable custom to give credit to the other fellow when we use his thunder. We don't believe in theft, even of valueless editorial effusions.

Now that the county agent for Lynn county has arrived, the News hopes that our people will lend him the most hearty cooperation and support. We are aware that there are many people in the county who are skeptical as to the benefits which a county agent can render. We are aware that there are some people who are positively opposed to the employment of such an agent. The American people are a conservative people. They like to be sure that they are right before they go ahead. It is well that this is so. But the News man has no doubt as to the great benefits that the farmers of Lynn county will derive from the employment of a county agent; if they will only lend him their friendly cooperation, if they will permit him to be of service to them. We say this because we came from a county where the same agent has been employed for a period of more than twelve

years. The farmers in that county would be the last class of people in the county to agree to discontinue the work. At first, they were skeptical. They had to be shown. But they were willing to be shown. And now they feel that the county agent is the one office in the county that most vitally serves them. He is their agent, their servant. Let any one who doubts these statements write to any farmer who has resided in Nolan county for any considerable length of time and find out if these are not the facts. The home demonstration agent there has likewise been of great service to the people, and they appreciate her work. We believe that a great work can be done in and for Lynn county. We believe that Mr. Robertson is thoroughly capable and fitted to do that work. But let us not cripple his work by opposition until he has had a trial. Give him a fair trial, and then if the people think his work is not worth the money, let him go. But let's give him our support and a fair chance to make good.

"Let me write the songs of a nation and you may write its laws", was the observation of some wise philosopher long years ago. If that be true, the flood of jazz music, of silly and suggestive "popular songs", and even of so-called sacred compositions that are being produced in this day, does not augur well for the future of this country. A little of the best jazz might be tolerable, but all this swelling tide of voluptuous music, so-called, that appeals only to the sensual nature in man and that tends only to chloroform modesty in woman, is an unspeakable curse to the human family. It seems that this age is incapable of producing any great and clean lyrics, such as some of the fine old love songs that have come down to us from the years ago. Even the cheap and shoddy variety of music seems to be invading many of our churches. Many so-called sacred song books are being published and scattered throughout the land, especially in the rural districts, that are filled with little but the silliest doggerel. These songs contain no literary merit; the meter is faulty; the thought and sentiment, if they contain any, are the most puerile; and the verses in many instances don't even make good rhymes. This stuff is sung to a kind of a "skip-to-my-lou" tune, or with a kind of a jazz whang, that render them really nauseating to thoughtful and cultured human beings. They incite no spirit of devotion, of prayer, of penitence, or of praise. They carry no religious inspiration nor instruction. They make no spiritual appeal. They touch no emotional chord in the human heart. On the other hand, they are levity and frivolity personified. They bandy the name of God and of Christ the Savior in about the same tone of familiarity and irreverence as the modern flapper uses when she greets an associate with "Hello, Kid". We would not give one of the great old hymns that have come down to us through the years; that have touched their millions of human hearts and left them more humble, more tender, more courageous; that have been balm to the broken hearted, an anchor of hope to the despairing, a battle-cry to the faltering and defeated, in every age and every country in which they have been sung; we would not give one of these good old songs

for a whole train-load of the silly, senseless stuff that are these days being sung in some of our churches and at most of our "singing" conventions. Why do people prefer to sing trash, when they have such a rich treasure of fine old songs, -sacred songs, love songs, even popular songs' from which to draw? May the Lord forgive us for the music that we are producing and singing and playing in this country, and may some good Spirit call us back to sanity and real devotion in the songs that we write and sing. God save America.

SHALL LYNN COUNTY HAVE A WINNING EXHIBIT NEXT FALL AT THE DALLAS FAIR

W. J. Crouch has furnished the News a copy of the Rules and Regulations which will govern county agricultural exhibits in the Dallas Fair next fall.

We are not publishing the same at this time because of the length, but will probably publish them later if their publication seems to become necessary.

What we wish to call attention to now is the necessity for Lynn county to begin right now to get ready for the Fair. Let each farmer plant his crops with the view of producing some prize winning exhibit, or rather of enabling the Lynn county exhibit to be a winner.

With as good cotton land, as good maize and Kaffir land, as good all-purpose lands as can be found anywhere on the Plains, Lynn county ought to stand right at the top of the column next fall in the number of premiums awarded. If we fail, it will probably be because we fail to take the interest and make the preparation that other counties make. Let us begin now to raise samples of the best cotton, the best maize, the best kaffir, the best vegetables, the best fruits, the best everything that this wonderful soil will produce, and come back from Dallas next fall with a bunch of blue ribbons dangling at our belts. Let's get ready for the Fair.

MARY LINK, Editor

Juniors
Juniors gave a sigh of relief after noon, as the last examination was finished. But we consolation, and that is the we will have but one more test, and then comes the We are all trying to be that final day. et that our classmate, Miss ee, was absent last week of illness. However, she to return to school again y morning. rior contestants have been daily for the Interscholas- Jack Link is the only Jun- entered the contest and ve are giving him our full had finished our exami- st Friday afternoon, we fifth grade room and Mrs. y several selections on ng class has just finished roblem, which was a linen

Tahoka High School not showing new Auditorium with basement.

Veta Davis, has been compelled to stop school on account of sickness. The following are also on the sick list this week from our class: H. E. Baldrige, Grayom, Charles Johnson, Eva Cowan, Aline Redwine, Kathleen Lam, and Jauaita Haynes. Our classmate, Herstene Roye, returned to school Monday morning.

THREE LAKES THROBS

The snow and rain were fine. Hope we get more soon. Fogan Johnson was absent from school last week on account of sickness.

There was a large crowd at the singing Sunday night at Wash Hickerson's.

There will be all-day singing and dinner on the ground at Three Lakes School House the first Sunday in April. Every one is invited.

Mrs. Nora Hines and Misses Willie and Rofurn Hines spent Sunday afternoon at Wash Johnson's.

Mr. and Mrs. J. Wright Edwards and children spent Sunday at Mr. and Mrs. Jack Smith's in Tahoka.

Well, that is all for this time. Uncle John

A FRAME-UP TAIL

Johnny an' Lige an' Harrison Tate Are quite inventive, I'm here to state, An' they're alus a-figgerin', some new way To ketch th' moles or to stack the hay.

Now, here o' late, they have bought some cows, An' have been a-turnin' 'em out to browse

Along th' crick, where th' weeds grow high An' th' cockleburs roost—oh, me, oh, my! Them poor old cows git their tails jest full, An' Lige an' Harrison pull an' pull To git 'em out, but th' blame cows kick. An' spill the milk, 'til th' boys git sick! So Lige invented a wire frame For each cow's tail, and they had some game A-gittin' th' things all strapped an' tied, An' th' poor old cows jest all but died! Then them boys watched, when they got all through, To see what their new idear'd do; "For, my only fear," says Harrison Tate, "Is, th' cows may be carrin' too much weight!" Well, along that night, when a cow come back, There wasn't a bur in 'er tail, by Jack! So Harrison grabbed for his milkin' hold, An' she switched her tail—an' knocked 'im cold! —Walter Greenough.

T-BAR NEWS

T-Bar has come back after a long absence. Yes T-Bar is still on the map.

The measles have about given away now.

The land in the T-Bar community is about prepared for planting. With a good season in the ground, we ought to get a good stand of crops.

The pie supper at T-Bar was a success. We will give another pie supper before election, as the majority of the candidates were not repre-

sented. Sunday School is progressing. Quite a number of young people from T-Bar attended church at Wells Sunday night, and also singing Sunday afternoon. While the young people were at Sunday School, Mr. and Mrs. Nichols attended church in Fort Worth Sunday, and yet stayed at home. At least they heard a fine sermon, they say. They can sit in their home and hear preaching, praying, singing, lecturing, fiddling, and dancing, from the Great Lakes to the Gulf. Miss Faye Stokes and Booster Walker were married Friday night, March 23. We wish them a long and happy life. They will make their home near T-Bar. Our literary society will reconvene on Friday night, March 28.

INSURANCE FIRM LOCATES HERE

B. D. Loper has removed here with his family from Coleman to engage in the Insurance and Loan business. He will have associated with him Mr. Farrel Abercrombie also of Coleman, but the latter gentleman has not yet arrived. The new firm will have their office on the second floor of the First National Bank building. The Firm name will be The Lynn County Insurance Agency.

MIDWAY MUSINGS

So far we have escaped the measles. Hope we continue to do so. Mrs. A. L. Payne is reported seriously ill at this writing. Several were absent last week on account of sickness caused by colds. Mr. J. E. Rhodes and family visited his son of Plainview last Thursday returning Friday. Mrs. N. B. Hood is some better at this writing. The singing at Mr. Looney's was well attended Sunday night. Quit a crowd from Wilson visited in the Bounds home Sunday. Fred Barker visited the school Tuesday afternoon and referred a very pleasant basket ball game. Everybody is preparing for the "track" which is near at hand.

Correspondent

The Ways and Means Committee of the House has reported out an additional compensation bill for soldiers of the World War which follows the plan proposed by Congressman Fish, and other service men in the House, which provides for the issuance of paid-up insurance with cash redemption features.

HEALTH PROMOTION WEEK

The week beginning Sunday, March 30, and ending Saturday, April 5, has been designated by the State Health Officer as Health Promotion Week. Sunday is Sermon and Lecture Day. Monday is Health Appraisal and Food Protection Day. Tuesday is Mosquito and Fly Control Day. Wednesday is Disease Prevention Day. Thursday is Child Health Day. Friday is Sanitary Improvement Day. Saturday is General Clean Up Day. A full and complete program for each day has been furnished in the News but it is too long for publication. The main idea is to "take kee yourself."

EXPENSE AND LUXURY.

Panhandle Herald: The total tax on the Herald plant for last year was \$113, divided as follows: State, \$11.25, county \$9.75, local school \$34, city \$58. So out of this total \$113, only \$11.25 was sent to Austin, and when that \$11.25 reached the State Treasury it was divided as follows: Five dollars and twenty-five cents was apportioned to the general revenue, \$5.25 to the available school fund and 75c to the Confederate pension fund. The available school fund is that fund from which the scholastic apportionment is made for the support of the public schools of the State, and Carson County participates in that fund according to scholastic population. So out of \$11.25 sent to Austin, part of it was returned for local school support or out of the \$113 total tax paid, \$101.75 did not leave the community and is in the hands of local officials to spend for the support and maintenance of local public enterprises and to pay salaries of local officials and teachers in our schools.

—Panhandle Herald

There has seldom appeared a more illuminating exegesis on taxation in so brief a space than the above. It is from the pen of the Hon. Lee Satterwhite, editor of the Panhandle Herald and veteran member of the Legislature. The reader-taxpayer will

serve that most of his taxation is voted on himself, or his immediate neighbors. The State, meaning that portion of the Commonwealth which is vaguely visualized as tyrannizing at Austin, really is rather moderate in its demands on property owners. The town, the county and the district are the expensive luxuries. But how can we get rid of the expense without getting rid of the luxury at the same time? That is the problem, and it is to be doubted if any candidate for Governor or other high office can solve it. The best thing to do under the circumstances appears to be to see to it that we get what we pay for in the way of town government, county government and district utilities. When we pay a heavy school tax we want schools that justify it. The way to make sure of getting what we are entitled to is to elect adequate men—or Women—to serve us in our local affairs as well as in our State and national affairs. A good Governor and an able President may count for as much in our favor as a good School Board and a good Commissioners' Court.

—State Press in Dallas News

G. T. BREWER HAS LAND PATENT ONE HUNDRED YEARS OLD

G. T. Brewer exhibited to the News editor a few days ago a patent to a tract of land issued June 1, 1824. It was signed by James Monroe, President of the United States, and by Geo. Graham, Commissioner of the General Land office. The signatures and most of the other written portions of this document were clearly written and are yet almost as legible as if written last year, except where the paper has been worn where folded. The paper is of a thick heavy texture resembling parchment. This patent conveyed eighty acres of land situated in Ray county, Missouri, to Thomas Brewer, who was the grandfather of G. T. Brewer. Mr. Brewer states that he and other members of the family have four other similar patents issued to his grandfather near the date of this instrument. Long years ago these instruments came into the possession of Mr. Brewer's father. Upon his mother's death fifteen years ago, a trunk was left in the possession of Mr. Brewer's brother, J. D. Brewer, of Fort Worth. He had never opened his trunk until a few weeks ago. When it was opened, he and Mrs. G. T. Brewer examined its contents and found this ancient document and other interesting relics. Among other papers found were some letters written to Mr. Brewer's mother seventy-five years ago, still well preserved.

In speaking of his life Mr. Brewer stated that when he married forty-five years ago, he and his wife had practically nothing. Now Mr. Brewer owns several good farms in this county and Johnson county, and his property holding are valued at not less than \$150,000. This he has accumulated by hard work, economy, and careful investments. In the meantime he and his good wife have found time to rear a family of eight children. They expect to hand these relics down to their children and through them to generations yet unborn.

Mrs. Clyde Shaw, a sister of Ernest Patterson, underwent a serious operation in the Lubbock Sanitarium Tuesday and is reported to be recovering nicely.

BAPTISTS SHOW REMARKABLE GROWTH

DALLAS, Texas March 24—Texas Baptists have baptised 112,950 converts since the opening of the Baptist 75 Million Campaign, Dr. F. S. Groner general secretary of the executive board has announced. The campaign was opened in May 1919 and during that year the churches reported 16,481 baptisms. The second year of the campaign brought about 24,279 baptisms and the third year reports showed that 35,469 people were baptised. A total of 36,720 were baptised during the fourth year of the campaign this number being twice that of the first year.

Texas Baptist missionaries have achieved a record in the number of members received into the church by baptism and letter. These numbers totaled 154,935 during the last ten years.

The accomplishments of the missionaries have been largely through their efforts to push the Baptist 75 Million campaign during the four and one-half years in which it has been carried on. The missionaries have assisted materially in carrying out the program adopted in May, 1919 at the Southern Baptist Convention in Atlanta in connection with the five year financial program.

Carey Snyder, publicity director Baptist General Convention of Texas 701 Slaughter Bldg., Dallas.

BIG TRUST INVADES AIR

Washington, D. C., March—1924. About a year ago Congressman Marvin Jones charged on the floor of the House that the so-called "Big Four" had entered into a combination for the control of the air and the entire radio field by means of which if successful they could make every one who uses a broadcasting set pay tribute to them, and could charge such prices as they saw fit.

Mr. Jones offered an amendment to the radio bill, the terms of which amendment authorized the Secretary of Commerce to forfeit the right of any company to engage in that business when such company was monopolizing or seeking to monopolize the business. The House adopted the amendment, but the bill failed of passage in the Senate.

Recently this same "Big Four" have filed suit against a number of independent companies to restrain such companies unless they pay a royalty

or tribute to such companies. Recently hearings have been begun before a House Committee on this same question. The great number of people who have become interested in the radio makes this a very interesting, as well as an important question.

THE CHAMBER OF COMMERCE RE-ORGANIZED TO BOOST O'DONNELL

The Chamber of Commerce held a meeting Tuesday night and a thorough reorganization of O'Donnell's boosters was had and tentative plans laid for the future. C. H. Mansell was elected president and Ben F. Brown will serve another year as secretary and John H. Harberger was elected treasurer. The directors who will preside over the destiny of the organization are: E. T. Wells, J. Hart, R. E. Palmer, C. A. Baskin and W. L. Christopher. T. J. Killis was made an honorary member and appointed to serve as publicity man. It was agreed to hold the regular meetings on the second Tuesday of each month.

Realizing that nothing is worth while unless it costs something and that to carry on the work funds must be had, a small fee of \$10 per year or \$1 a month was assessed against firms and fifty cents a month for individual members. The majority of the business houses of the town have already come in with their membership and assessment and it is desired that every citizen in the town and surrounding country become members and help in the development of the town. There will be no salaries paid anyone and the money realized from the membership dues will be expended in advertising the town and in other ways the directors may see fit. John Harberger is chairman of the soliciting committee and will have two assistants and when they call upon you for your membership, do not hesitate.

WILSON HIGH TIES THE LUBBOCK WESTERNERS

Well, we just can't resist a triumphant "I told you so", for those boys certainly stepped out in great style against the gang from Lubbock High last Friday. It is true that we didn't beat them, but we tied 'em 5-5, after letting them take a 4-1 lead in the second inning. This one bad inning and a bad play by two infielders in the third gave Lubbock her lead.

When we tell you our boys cacked 21 hits to nine for their opponents you can readily see why we should have won. In seven innings Brown struck out eleven men and allowed only three hits. Elmo Stell struck out three in his two innings. But when it comes to pitching baseball Brown simply has what it takes to put it over.

The outstanding thrill of the game was a fine catch in left by W. Young. Lubbock's shortstop pulled down a line drive that looked like a hit. Joe Stell caught a good game and is showing better form every day.

By tying one of the strongest teams in the District we have created quite an interest. The men are very well pleased and will be more confident hereafter. Some weak spots were shown up in Friday's skirmish and Coach is working hard to eliminate them. Hamilton, snappy little short stop, is changing positions with May at second on account of a strained arm. The shorter throw will make it easier on him.

The Prairie Dogs go to Slaton to meet the formidable Tigers Wednesday. Our prediction is that Slaton will think they are up against an entirely new team. They had easy pickings before but time changes--ball teams, too.

WILSON CHAMBER OF COMMERCE HAS BUSY MEETING

The Wilson Chamber of Commerce met Monday night with about seventy present, including visitors from Slaton, Lubbock, and Tahoka. Mr. Harris, the telephone man

from Tahoka, stated that material was on the road to put in a telephone exchange at Wilson.

Mr. J. A. Holden, who recently removed to Wilson, also expects to have a telephone exchange in operation right away, having already done quite a lot of construction work.

The gentlemen from Slaton were vitally interested, it seems, in whatever undertaken for the community good and insisted that the Wilson C of C was welcome to their assistance in every way. We especially appreciate and invite the cooperation of our neighbor towns.

The most important item of business was definite action toward a highway from Tahoka through Wilson to Slaton, etc. The following were appointed as a committee to work out details: C. C. McCormick, Louis Shambeck, and Fred Dawson.

Senior Report

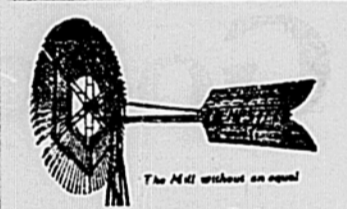

Last week was examination week and we are all glad that it is over and that we made good grades as we did, though we realized we were capable of doing better had we studied more.

We are doing some interesting work in the laboratory in Physics. Most all the class made A in their note book work last month. We have been studying "The Vicar of Wakefield" in our English and found it most interesting. Judging from Goldsmith's popularity today, we all agree that he was indeed a popular writer in his own day.

It was our privilege to have Miss Irene Ingram, teacher of Expression in W. B. C., give us a program on last Saturday night. She is very talented in this line and has had much training, having graduated from the "Curry School of Expression in Boston. This is her second visit to Wilson, and we feel complimented to have her appear before us a second time.

Cramping Spells

"FOR MORE THAN A YEAR I had been in a very bad condition," says Mrs. R. E. Kimbrell, of Route 1, Dorchester, Texas. "I suffered with cramping spells which gave me bad pains in my back and sides. Sometimes I would have to catch at something, I would get so suddenly dizzy. . . . I had to quit doing my work. I tried many remedies, but none of them seemed to do me any good."

"In April I went up to Arkansas to visit my sister. . . . She said to me, 'Willie, if you are going to take anything, take Cardui. It will really help you.' I came home and told my doctor what she had said and he said I could not take any better tonic, so my husband immediately got me a bottle and I began it. . . . My case was a pretty tough one, I know, so I kept on faithfully. After the fourth bottle, I began to feel very much better, so much so that I was surprised at myself. I have taken six bottles now and I can truly say I feel like a different woman. . . . I feel fine and I owe it all to Cardui, which I took faithfully."

TAKE
CARDUI
The Woman's Tonic

rapidly from his wounds. We hope he will soon be back in school.

Florence Nagay has been absent from school this week on account of her grandmother being ill.

We have two more months of school. Let's make these two months the most interesting of the whole year, so that they may be long remembered by each member of the Senior class.

Junior Report

Mrs. Williams, the music teacher of the Wilson school, was very sick the past week with tonsilitis.

Mr. R. A. Metcalfe has had the "flu" since last Friday night and is not any better. Mrs. Heath has fully recovered from the measles and is back teaching again.

Mr. Heath was absent from school last Thursday, as he was hit by a baseball bat and became so sick he had to go home.

Miss Myrtle Hembree was a visitor in her home at Plainview from Saturday until Monday.

Mr. Jim Johnson left Sunday to be gone a few days to look over his farm west of Brownfield.

Lubbock and Wilson played a very interesting base ball game on the Wilson grounds last Friday. The score was 5 to 5.

Ninth Grade

We finished examinations last week. Everybody made fairly good grades, although we hope our daily grades are far better than the grades we made on examination.

We have another new student this

week. With the exception of Cordie Miller, we have our entire class back after so much sickness, and have all caught up with our work.

Freshman Class

We are studying Tension's life along with his poem, Enoch Arden.

Mr. Heath was unable to be at school Thursday on account of the accident that happened to him that morning. Mr. Key filled his place and gave us quite a few interesting points on English, namely: Infinitives and Participles.

Mr. Heath reports the History and Algebra grades to be much higher this month than last. We have been working on our History note books the past week. Mr. Heath says he is well pleased with them.

Ila May Wilson returned to school Monday morning after quite a siege of tonsilitis. We were very glad to have her back with us again.

Seventh Grade

The seventh grade pupils were very glad to have J. C. Holden enrolled in their class Monday.

The Junior base ball boys hope to play Dixie here Friday afternoon.

We were very glad to have Averal Richards back in school again. She has been absent the past month on account of the measles.

Several pupils were absent from school Monday.

The Camp Fire Girls are practicing on two programs which they intend to give some time this week.

J. B. What is a mountain?

it is hillier than a hill.

Mr. and Mrs. Rufus Pyburn and Mr. and Mrs. Wilson and little daughter Doreece of Coleman have just returned home from an extended visit with Mrs. Pyburn's and Mr. Wilson's mother, Mrs. Annie Wilson, of this place.

Mr. and Mrs. J. C. Holden and family of Peacock, Texas, have recently moved into our town. Mr. Holden will have charge of the telephone exchange here. These people came well recommended and we are very glad to welcome them to our town.

STOP THAT ITCHING
If you suffer from any form of skin diseases, such as Eczema, Itch, Tetter, Cracked Hands, Poison Oak, Ringworm, Old Sores and Sores on Children, Sore Blistered Feet or any other skin diseases, we will sell you a jar of Blue Star Remedy on a guarantee will not stain your clothing and has a pleasant odor.

HI-WAY GARAGE

Ford
THE UNIVERSAL CAR
Make Delivery Certain!
WITH the entire factory output of Ford Cars being absorbed as rapidly as the cars can be produced, it is certain that plant capacity will be greatly over-sold when spring buying reaches it highest point.
We advise that you place your order at once, taking advantage of your dealer's first opportunity to make delivery.
Ford Motor Company
Detroit, Michigan
If you do not wish to pay cash for your car, convenient installment terms can be arranged. Or you can enroll under the Ford Weekly Purchase Plan.

FOR SALE: Windmill and tower, 2-inch piping, cylinder, and plunge rod, all complete. Jack Alley, at P.O. 29-2tc

BOOST FOR YOUR HOME TOWN!

A GOOD RANCH—\$40,000.00 buys a 100 section ranch in the hills and mountains east of Fort. Stockton, suitable for sheep and cattle, and where you don't have to feed in the winter time—well improved. Will also sell a sand ranch in Odesa country.

Why pay cash commission when you can buy direct from owner who knows just what he has to sell, how to show it and how to price it. W. B. Silliman, Box 931, Phone 1567, Abilene, Texas.

For Sale: 20 acres land two and one-half miles north of Tahoka at \$400.00 cash. Also have 320 acres 14 miles west of Tahoka, one half mile from Brownfield and Tahoka road, 1 mile from school, patented land \$25.00 per acre. For further information write Box 142, Moran, Texas, or see R. P. Weathers at First National Bank, Tahoka, Texas.

STRAY MARE: A large, bay mare no marks nor brands, has been at my place two months. Owner can recover same by paying for expense of feeding her and for this ad. J. F. Wendel. 12 miles north of Tahoka. 29-3tp

Build a Home.

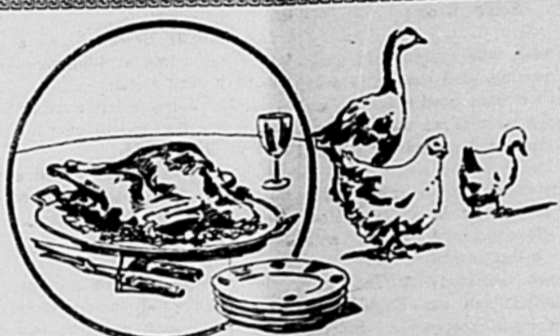

WANTED: One or two rooms for light housekeeping. H. G. Cobb Phone 177. 29-2tp

It is both safe and economical to have the best. For registered cattle apply to H. D. Heath, Tahoka, Texas. Cows now fresh in milk. 24-6tp

FOR SALE: at a bargain, new Coles heating stove, used only three months. Phone 280. 27-c

WANTED: Family wants to rent good residence. Phone or call at the News office.

We only have a few more pianos and talking machines left. Will sell at a bargain. Will trade for good livestock or accept part time sales. Write or call J. W. Boyle & Son, Plainview or O'Donnell.

A REAL TREAT EVERY SUNDAY

When we serve our deliciously tasty, tender poultry.

**SHORT ORDERS AND GOOD STEAKS
HOT WAFFLES FROM 5 TO 11 A. M.**

PALACE CAFE

Open until 12 o'clock at night.

NOTICE: Why order eggs, when you can buy full blood Rhode Island eggs at home. Come and see my flock and know what you are buying. Price \$1.50 setting, \$6.00 per hundred. W. B. Mullins, Phone 149 26-4tp

LOST: a kit of tools in public road near the Shattuck farm several miles northeast of Tahoka. Reward for return of same offered. Bob Parris. 28-2tp
