

"Remember The Alamo", Says Chris Adair; Tahoka Needs A New School Bld.

(Chris L. Adair)
 Since Uncle John, Jim, Jack, Bill Tom, Dick, and Harry have been striving to embellish the columns of the News for several months past, it seems high time for your "Uncle Pete" to be heard from once more.

In the first place I have the honor to be the first man in this city to break into print to the effect that the said city should have a school building of durable and fire-proof materials. In this building some of our present day business people and heaviest tax payers completed their education so as to more greatly enhance their earning power by better education than would have been possible in the board shack which many of our greatest minds then solemnly declared was a good enough school building for years to come in a town no larger than Tahoka was then. Will history repeat itself March 6th?

Every man who made anything on land at that time bought the land on forty years time and still owes for it, and many more are glad enough to borrow money on thirty-five years' time to be paid back in annual installments of six and a half per cent, which also includes the interest. It is interesting to note that the terms of the proposed school bond issue are as liberal as those of the Federal land banks. These long-time loans to farmers are justified by the vast improvements thereby made possible in the quality of the calves, colts, and pigs which the farmers will in the future raise on their farms. Are these little animals entitled to more consideration than the young people in Tahoka's free schools? All the leading colleges have students' loan funds which enable poor and worthy students to pay part of their college expenses on the installment plan after their better education has greatly increased their earning powers. What then is wrong in selling an education to your own and other people's children on forty years' time, same as school land farm loans?

Sadly enough, some folks are trying to create sentiment in favor of the school bonds by a line of argument not in accordance with the facts. A favorite argument is that the grown people should give the children a new building and thereby help the children of their poor neighbors. All the gift and all the help the school children really need is to be given a real good chance to help themselves. These children will in the future pay most of the cost of the new building after two-thirds of the opposition to the bonds have gone to their reward, whatever that may be.

Perhaps I owe the News and its intelligent and progressive readers an apology for such a long pro-bond article at this time. It seems almost a reflection on the intelligence of this community to feel that any strong campaign must be carried on to insure the success of the school bonds on March 6th. Strangely enough much of the opposition to educational improvement bonds come from poor and ignorant

people with large families of children. The more intelligent and progressive a community is, the more easily such a campaign goes over.

Remember the Alamo. Ninety years ago next Saturday week, William B. Travis, David Crockett, George W. Lynn, and the rest of that little band of heroes offered on the blazing altar of Bexar their blood, their lives, their all that the four-day-old Republic of Texas might be a new nation dedicated to the proposition that all are created with an equal right to education and opportunity. There was a powerful and effective protest against the medieval system of ignorance and superstition forced upon the masses, which is the curse of every Spanish-speaking country on earth up to this very hour. Their heroic resistance made possible our great educational system of today and no greater appreciation of their kindly valor and noble devotion to duty can be shown on the anniversary of that eventful day in our nation's history than by voting to sacrifice our own wealth, if need be, that children yet unborn may be educated to the highest of American ideals. George W. Lynn, an Alamo hero whose memory was honored in the name of this county, could be counted to vote on the right side in Saturday week's bond election just as surely as he gallantly stepped across the line in the sand drawn by the sword of Travis. This coming Alamo anniversary should be both a day of consecration and of triumph when we shall highly resolve by our ballots the Alamo's heroic dead shall not have died in vain and that the principles to which they rendered the last full measure of devotion shall not perish from the earth.

So, voters, remember the Alamo Saturday, March 6, which is school bond election day in Tahoka, and if you wish to show honor to the man whose name is honored in the naming of our own county don't forget to say it with ballots.

MAN CAUGHT STEALING CAN OF OIL FROM TRUCK

A party from Alpine traveling in a truck had a leather coat and a can of oil stolen from the truck on the streets Friday evening. The officers were notified and a search was made. The oil was found and Officer Parker was set to watch it and it was not long until the thief made his appearance and picked up the can and started off with it. Upon being called upon to stop, the bird dropped the can and gave evidence of having important business with a bunch of clothes-lines in the backyards of several residences which he circled. He was closely followed by Parker who fired a couple of shots at him, but the shooting only made him run faster. He was finally run to bay in a room at the Tourist Park and when Parker went in after him he was "just getting up," so he said. He is now in the county bastille and will have a chance of explaining his conduct to the county judge.—O'Donnell Index.

Brownfield Courthouse Yoakum Co. May Get Better Roads

With another 30 or 40 days of pretty weather, the new Terry county courthouse brick work will be finished, and the workmen will then be put on the inside to hasten the work of finishing the interior. It now looks as if the job will be ready to turn over to the county on contract time, if nothing unforeseen happens to delay the work in the way of getting material, strikes or extremely bad weather.

Citizens are beginning to see what a beautiful structure they are going to have, too, as its graceful outlines are beginning to show fast as the finishing brick and stone trimmings and columns go into place, and on every side we hear remarks about what a pretty building we are going to have among both citizen and stranger. Not only that but they more often than don't, also add that it is going to be a real building, well constructed from basement to roof.

The Morgan Contracting concern, architects and workmen all seem to be working in perfect harmony with the Commissioners Court to give the people of Terry county every value possible for their money expended.

Attorney P. G. Stanford, of Plains, was in our city one day last week and informed us that at the regular meeting of the Yoakum County Commissioners Court, Monday, the 8th, an election was ordered throughout the county to see whether or not the people of Yoakum county wished to bond themselves in the sum of \$100,000 for the building of first class roads in that county.

This is indeed a real progressive step for the county without a mile of railway, and shows the spirit of those behind the movement. The friends of the measure believe the issue will carry by a safe two-thirds majority.

Mr. Stewart, a progressive citizen of the Tokio community in Yoakum county was appointed by the court to fill out the unexpired term of Mrs. Pat McHugh, who recently died, as Commissioner of Precinct No. 1—Terry County Herald.

Professor Joseph Barcroft who remained a week in a glass chamber while all the air was pumped out except the minimum necessary to sustain life, gained a Cambridge University post.

"I believe children lose a great deal if permitted to form their early impressions from the screen, rather than from their own observations of the world."—Dr. Sanger Brown, second chairman of the New York State Commission on Mental Defectives.

Texas has 53,000 square miles more territory than France and 23,000 more than Germany.

COME TO LYNN COUNTY

If you want a home in the best cotton county of the South plains, the opportunity is still yours. We can sell you a quarter section, a half section, or a whole section out of

The Famous T-Bar Ranch Lands

at a reasonable price. This ranch lies west and northwest of Tahoka. Part of it has been sold in small tracts and converted into farms. These farms the past year proved to be among the finest cotton lands of the south plains. Lynn county led all other plains counties in cotton production the past year. Notwithstanding the unfavorable weather conditions that prevailed during the summer and in spite of the unusually early freeze in the fall, Lynn county produced nearly 40,000 bales. In 1924, the government report showed the crop to be 38,215 bales. We can sell you land as good as the black lands of central and south Texas at

ONLY \$35.00 PER ACRE

or a little more, depending on location and other conditions. Come and see these lands.

DANDRUFF

CAUSES THE HAIR TO FALL OUT— AND THE HEAD TO BECOME BALD

Dandruff is a germ disease and known as a scaly form of Tetter or Favus. This microbe lives on the scalp and feeds on the hair of its proper nourishment, causing it to fall out and the head to become bald. Get rid of dandruff before it is too late. Wash the scalp well with hot water and soap, dry with a soft towel and apply Hooper's Tetter-Rem (Don't Scratch), rubbing it in well. Then steam the head with hot towels. Ask your barber for Hooper's Tetter-Rem scalp treatments. Hooper's Tetter-Rem is positively guaranteed for all scalp and skin diseases. Two sizes 7c and 15c. Sold and guaranteed by

Everything to Build Anything

Great Crowds Attend C. of C. Gathering at Littlefield

Crosbyton was yesterday selected as 1927 convention city by the South Plains district of the West Texas Chamber of Commerce, meeting at Littlefield. Ralls and Lamesa also bid for the honor, the latter city receiving 103 votes to Crosbyton 133 in the final ballot.

As the last item on the all day program participated in by the 3000 delegates and visitors at the convention, school children from twelve South Plains cities debated on the merits of their respective towns, in the "My Town" contest. J. W. Huit of Ralls won first prize, Miss Lorena Eagan of Littlefield second. The following also competed: Miss Beatrice Eastham of Clovis, N. M.; Homer Haidberger, Lubbock; Brenner Nelson, Floydada; Ralph Grant, Lamesa, Anton Young, Slaton; Ged Waller, Lockney; Miss Ruth Kennedy, Olton; Rides Dodson, Idalou; Hugh Buck, Crosbyton, Gulsie Holman O'Donnell.

Resolutions were adopted by the convention pledging adherence to the prohibition law at the West Texas C-C convention at Amarillo in June, and assuring that no street dances would be held.

The district convention of the West Texas Chamber of Commerce at Littlefield yesterday could well be taken as the strongest endorsement that has ever been accorded a single organization by all of the towns of the South Plains, more than three thousand delegates assisted by five bands and two specially trained musical organizations having gathered there to sanction the work that has already been done by the world's greatest commercial club and to assist in formulating plans for its future activities.

Littlefield was well prepared to entertain the delegation. Flags were seen flowing from atop all of the buildings in the city, business was all but suspended as store and office managers formed themselves into one great committee to see that all delegates were shown every courtesy, the streets were filled with automobiles throughout the day and the convention sessions were so well attended that despite the spacious places provided for the three sessions was difficult to take care of the crowds.—Lubbock Avalanche.

Notice of Sale of Personal Property

The State of Texas, County of Lynn.

By virtue of an order of sale issued out of the honorable county court of February 1926, by the county clerk of Lynn County, Texas, in the case of Lynn County, Texas, on the 15th day G. W. Small Hardware and Furniture Company Versus J. J. Boydston, No. 382, and to be directed as the sheriff of Lynn County, Texas, directed and delivered, I will proceed to sell on the 1st day of March, 1926, within the hours prescribed by law, to wit: between the hours of 10 o'clock A. M. and 4 o'clock P. M., at Tahoka, in Lynn County, Texas, the following described personal property, to wit: 1-McCormack-Deering 10-20 Tractor; 1 Two Row Lister complete and 1 No. 411 Lister complete levied on as the property of J. J. Boydston to satisfy a judgement amounting to the sum of 453.86 in favor of G. W. Small Hardware and Furniture company and costs of suit.

Given under my hand this the 15th day of February, 1926.
J. W. Simpson, Sheriff of Lynn County, Texas.

Noah Webster, author of the American Dictionary of the English Language, was responsible for the change in America of the "our" ending to "or". Thus labour, honour, behaviour, became labor, honor and behavior in America.

"At 23 years of age, plodding boys are at a level with those who were brilliant scholars. At 30 they pass them," says Dr. Cyril Norwood, head master of Harrow.

THINGS THAT MAKE A TOWN GREAT

"A little more praise and a little less blame
A little more virtue and a little less shame
A little more thought for the other man's rights,
A little less self in our chase for delights:
A little more liking, a little less hate
Are all that is needed to make the town great.

"A little more boosting, a little less peering;
A little more trusting, a little less fearing;
A little more patience in trouble and pain;
A little more kindness worked into strife,
Are all that are needed to glorify life.

"A little more kindness, a little less creed;
A little more giving, a little less greed;
A little more smile, a little less frown;
A little less kicking a man when he's down;
A little more laugh, and a little less cry;
A little more flowers on the pathway of life,
And fewer on graves at the end of strife.

"A little more honor, a little less greed;
A little more service, a little less creed;
A little more courage when the path way is rough
A little more action, a little less bluff
A little more kindness by you and by me
And oh, what a wonderful town it would be!"

4000 POUNDS MAIL ORDER CATALOGS RECEIVED

Postmaster J.C. Buchanan called us over to the postoffice Wednesday morning to view the huge piles of mail order catalogs that were received Monday and Tuesday, and he explained they only represented three of the leading houses. Forty-one sacks were received Tuesday alone, weighing approximately 100 pounds to the sack, which kept Mr. Newton pretty busy during the rest of the afternoon after the train arrived to haul them to the postoffice. Mr. Bohannon informed us that he was afraid to try to put them all up at once as they were liable to break down his fixtures.

there the Herald advertising man called on every dry goods man in Brownfield. They needed nothing—not a thing.

The Herald spent upward of \$200 for a casting machine, and something like \$12.00 each month for mats, besides the work of making and mounting the cuts, which costs the merchant nothing for their use, in order to help them meet this competition with nice illustrations.

The Herald turned down an order from one of these houses amounting to \$500.00 for space in the Herald this year, and they wanted to furnish all cuts ready to insert in the paper.

Now we are not asking the merchant if they think they are treating the Herald exactly right. We are only asking them if they think they are treating themselves—their business right? And don't they believe the Herald has always fought on their side of the battle?

Next week when our solicitor comes around, try to have an ad ready. Make liberal use of our cuts; use all you want of them. You don't have to take a great big ad, if you don't want

it, but keep hammering away and let's stop this constant flow of thousands of dollars per month to Fort Worth and Dallas—Brownfield Herald

Night travelers in the wooded rural sections of Smoland, Sweden, will meet couples, men, or even single girls riding bicycles on their way to or from old-fashioned barn dances. The Villians in Chinese drama have no hair on the upper lip, for only good characters wear a mustache.

THE AMERICAN PRESS ASS'N.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the
reputation or standing of any indi-
vidual, firm or corporation, that may
appear in the columns of the News,
will be gladly corrected when called
to our attention.

The guy who writes all those
heavy-weight editorials for this
column has been so busy attending
meetings of one kind or another,
visiting kin-folks, gathering school
data, looking after the ads, taking
in subscriptions, chasing down news
items, cursing the cat, and playing
the devil generally in this shop that
he has not had time to write any
long-winded editorials this week,
to the great relief of our many sub-
scribers. We can't promise to be
good long, however. We may fire a
double volley at our readers next
week. No telling.

J. F. Eubanks and R. E. Edwards
constituting the J. F. Eubanks
Grocery Company of O'Donnell came
to Tahoka Wednesday and placed a
big ad in our paper. They are typi-
cal of the progressive spirit of the
people of that little city, a spirit

which has been the secret of its
rapid growth during the past three
years. They know that advertising
pays and they are willing to spend
their money not only in their home
paper but in the paper of the neigh-
boring city of Tahoka in order to
get their message to the people.
We have no complaint to register
against the business men of Tahoka
but this incident only shows that
our merchants must hustle always,
offer the best inducements possible
to the farmers of Lynn county, and
spread a lot of printers ink if Taho-
ka is to maintain its rightful place
as the chief city of Lynn county.

SELF-CAPTAINED

Clarksville Times: One thing that
Mont Adams did besides breaking
the world's record growing cotton
was raising sufficient meat for 19-
26, says the Tyler Courier-Times. He
killed an 800 pound hog and has a
400-pound hog left in the pen. Be-
sides these two fine hogs, he has
plenty of chickens and cows to assist
in cutting down the grocery bill. We
would have a better country if
more farmers will emulate Adams
in raising something else besides
cotton.

The farm upon which Mont Adams
made the sensational cotton record
is not an exclusive cotton farm.
State Press has seen that farm
himself. Mr. Adams is said to have
bought the farm for \$1,700, eighty
acres, including a pretty good house.
But State Press, who is not much of
a land shark, would have looked at
\$1,700 for about seventeen years be-
fore he would have given it for Mr.
Adams' place at the time of pur-
chase. It is sandy land, sloping away
from the hill on which the house
sits. At the edge of the field is a
little drain, with three or four acres
of bottom land. The hillside has been
terraced by Mr. Adams to hold it in
place. When he became owner the
tendency on the hillside was to wash
down and mingle with the branch
waters. He has anchored it with
terraces, and upon these terraces he
grew the sixteen bales on a five-

acre reserve. While Mr. Adams has
eighty acres, he doesn't seem to need
more than half of it. His home site
takes up three or four acres, his non-
fertilized cotton field consumes ten
or twelve acres and his pet field five
acres. The rest he gives the Leg-
horn chickens ranging the whole
place, a couple of bashful little Jer-
sey cows, a piggatorium with a nice
prospect for meat next fall. And
he knows the owner has a fat bal-
ance in the bank, with another fine
crop coming on this year. That is
prosperity. It is prosperity plus in-
dependence, plus satisfaction, plus
pride, plus everything worthy.—State
Press in Dallas News.

UPKEEPING

Gainesville Register: A man in
charge of a gasoline filling station
in one of the near-by cities reported
that one of the features of the
retail gasoline business during the
last season was the large number of
people who rode up to the station
and purchased but one gallon of
gasoline. The reason they did
not purchase more than one gallon
was that they did not have enough
money to purchase two, five or ten.

Very likely that was the reason.
It certainly is the reason why State
Press buys only one gallon at a
time, sometimes. The cursory ob-
server might think that S. P. was
typical of a vast contingent of
trainers who invest everything in a
car and have little left for its fuel.
They may or may not be accurate.
But, if it is accurate, it is no new
condition. In the horse age, only

recently past, there were ten-
thousands of horse owners who
ought horse feed by the dime's
worth. State Press has seen horses
whose owners didn't feed them at all,
according to appearance. Upkeep
has always been one of the main
problems of life. We are given a
physical organism free of charge,
but we have to struggle to keep it
going, to finance the bread and but-
ter necessary to its prosperity. We
join a church without paying a cent,
but our membership involves an ex-
penditure for upkeep which we can
not decently ignore. We establish
homes, and the upkeep keeps us
hustling. We buy a cow, and her
upkeep amounts to more than her
milk comes to, if the labor of milk-
ing be calculated at its true value.
We invest in an automobile, a dollar
down and a dollar a week. The up-
keep comes in and absorbs so much
of our income we sometimes have
only enough money to buy a gallon
of gas when we drive our mortgage
up to the filling station. Life is
a series of upkeeps. And the great-
est of these is the upkeep in keeping
up with our neighbors.—State
Press in Dallas News.

H. M. Larkin, Alfred Beard, John
Beard, and Fred Smith will leave in
their car next week for Florida. They
expect to be gone about thirty days.
They are going prepared to camp
out and do their own cooking and
they are hoping that they will find
plenty of fat Molly cotton tails on
the route.

Rev. and Mrs. Jno. E. Eldridge
are back home again and Brother
Eldridge requests that we announce
that there will be services at the
Methodist Church at the regular
hours next Sunday and regularly
each Sunday thereafter. For
various reasons he has been out of
town a number of Sundays recently.

H. F. Ray, who recently married a
wife and bought a home out near
Slide just over the line in Lubbock
county, not so long ago, decided
that he needed the Lynn County News
in his home and came in Saturday
and ordered it sent to his address.
Thanks.

No pauper's grave will be the
fate of any resident of the town of
Milton, Massachusetts. The town has
a beautiful cemetery in which any
citizen may have a lot for the ask-
ing.

THE STATE OF TEXAS

County Of Lynn.
To those indebted to, or holding
claims against the estate of J. N.
Jones, deceased.

The undersigned having been duly
appointed administrator of the estate
of J. N. Jones, deceased, late of Lynn

Fashion Dictates a Riot of Colors For Spring

The new year is just beginning as far as Dame Fashion is concerned. The first days of this year were devoted to getting a "new start," and now we are coming to the place where we want to change from the "stuffy" things of winter to the brighter garments of Spring. Our buyers with their many years of experience have assembled an array of Spring things that we are just a little proud to show our friends and customers.

Spring favored materials and colors are:
Flat Crepes, Crepe Satins, Georgettes
and prints in Bois de Rose, Fallow, Phantom Red, and Love Bird.

THE HOME TOWN PAPER

When the evenin' meal is over an' the dishes put away, An' you settle down to store your mind with happenin's of the day:

Comes a peaceful feelin' o'er you brushing from your face a frown

As you scan the weekly paper from your ol' home town.

It tells you all about who's sick an' those who come and go, Likewise the comin' vendue at the farm of Jabez Stowe, The burining of the cider mill belonging to Hub Brown

Gets a write up in the paper from your ol' home town.

There ain't an entertainment or a meetin' where they pray But what I know about it though I'm livin' far away.

If the chicken-pox is rangin' or the mumps is goin' roun'

I peruse it in the paper from my ol' home town.

I read the mornin' papers and the evenin' papers, too,

An' I sometimes pick a novel up an' sorter skip it through;

But when I wa nt some pabulum, which nowhere else is foun'

I unwrap the little paper from my ol' home town.

They say our good an' bad deeds are sorted up on high,

So that God can classify us when it comes our time to die.

If that be true, I know a man who's goin' to wear a crown—

He's the gent who runs the paper in my ol' home town.

—John Kelly in Chicago Tribune.

Study Class Meets With Mrs. Thomas

The Study Class of the Methodist Missionary Society met with Mrs. C. A. Thomas Monday afternoon. Chapter III, Contacts with the Mexicans of the book "From Over The Border" was the subject for the afternoon. Mrs. Fenton conducted the lesson and brought out that language, color, fear, ignorance, prejudice and money are some of the barriers that keep the Mexicans and the citizens of the United States from a sympathetic understanding of each other. When we can overcome these, we will be in a position to help each other more. The next lesson will be "Education," Chapter IV.

Refreshments of Karo pie and hot chocolate were served to the following: Mesdames Fenton, Callaway, Brown, Stewart, Slaton, Donaldson, Clinton, C. A. Thomas, Turrentine, and Weathers. Mrs. Clinton was hostess for the afternoon.

Next Monday will be business meeting with the program for March in our Year Book: "Japan Missions and Immigration." Mrs. Sid Sanders will be leader with Mrs. Stewart as discussion leader.

St Louis will abandon gas lights for street illumination. The new electric system will require 375 miles of cable, weighing 2,000,000 pounds and will require a train of fifty freight cars to transport it.

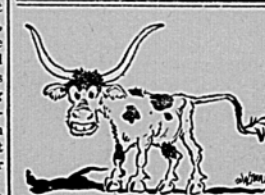

Bulletin On Blueweed Eradication Available

In parts of West and Southwest Texas the Blueweed, a close relative of the common sunflower, becomes a troublesome pest when the land is in cultivation. Experiments were conducted by the Texas Agricultural Experiment Station, at the Lubbock Station 1917 to 1919 looking to the control of this pest and results were published in Bulletin No. 292. The publication proved very popular and the edition was quickly exhausted so that it has become necessary to reprint this bulletin and any one interested can secure a copy now by writing Dr. B. Youngblood, Director, Texas Agricultural Experiment Station, College Station, Texas.

The experiments showed that the weed propagates itself largely from the under-ground stems which live over from year to year and are very persistent and although the weed produces a large seed crop, the seeds are of very low viability and there does not seem to be very much, if any, reproduction from this source. The tests showed conclusively that the Blueweed can be killed out completely in two seasons by plowing at intervals of about two months during the growing season. Plowing seven inches deep proved more efficient than plowing four inches. Listing, or cutting the weed at the surface with a hoe proved less effective as a means of eradication and would require a longer time for eradication than plowing. A combination of deep plowing, smother crops and clean-tilled row crops will prove effective on the larger and more thinly infested areas. The badly infested patches should be uncropped and the weed eradicated by more intensive measures. Reports received at the Experiment Station indicate that liberal use is being made in sections of West Texas of the methods of Blueweed eradication described in this Bulletin.

A survey of textile industries by the Department of Commerce shows that American exports of cotton for the past year have increased 4,000,000 bales. The total crop for 1925 will exceed 15,500,000 bales—about 2,000,000 bales greater than the previous year. American textile mills consumed 850,000 bales more cotton first 11 months of 1925 than in same period of previous year. Cotton prices for 1925 ranged from 23 1/4 cents a pound as an average, to as high as 26 cents—the range for 1924 being from 21 to 35 cents a pound. Reports on wool consumption, raw silk imports and the linen industry show that the whole textile group, as to producers and consumers, is in a fairly good position.

Year-end reports show Georgia's farm crops to have been worth near \$350,000,000 of which cotton had a value of \$220,000,000. The peach crop ran 13,000 cars and brought \$10,000,000.

Some Butchers

Will kill any kind of beef, even a pile of skin and bones like the one above. But we butcher only the best animals. It is needless to say that our prices are right, for all who have tried us know that to be true.

THE COTTON CONTESTANT'S CREED

(From The Dallas News)
I believe in myself and in my soil. I believe that when I make my soil rich it will make me rich. I believe five acres intensively farmed will produce as much cotton as is generally raised on twenty or forty acres.

I believe in "more cotton on fewer acres," which releases land for the feed and food crops that make my farm self sustained.

I believe it is my duty to leave my farm richer for those who come after me.

I believe that I am entrusted with building my land up and not with wearing it out.

I believe in quality cotton, quality corn, quality live stock.

I believe in living at home and making my farm produce my living.

I believe in making cotton a "clean cash surplus" over and above my living.

I believe that the farmer who has full barns and corn cribs, and a well stocked pantry, is on the way to independence.

I believe farming to be one of the most important and noblest of occupations, and that my efforts intelligently directed will bring the same profitable returns as if applied to any other industry.

A SPLENDID FEELING

That tired, half-sick, discouraged feeling caused by a torpid liver and congested bowels can be gotten rid of with surprising promptness by using Herbina. You feel its beneficial effect with the first dose as its purifying and regulating effect is thorough and complete. It not only drives out bile and impurities but it imparts a splendid feeling of exhilaration, strength, vigor, and buoyancy of spirit. Price 60c. Sold by

**March Magazine
Section Interesting**

Two big features in the Lynn Co. News' March Magazine Section will be:

"The Alamo, A National Shrine," and "The Largest Sunday School In The World."

March 6 is the anniversary of the Fall of the Alamo. It marked the beginning of a struggle for independence. Texans won their independence later at the Battle of San Jacinto, but it was the massacre of the Alamo defenders which fired the souls of Sam Houston's men and inspired them to victory.

The largest Sunday School in the world is in Texas and it is in keeping with the spirit of other big things in Texas. Read the story of how 8,000 men, women, and children, which compose the largest Sunday School in the world, study the Bible and make it the text-book for their Sunday School lesson.

RUSSIA RECONSIDERS THE MARRIAGE PROBLEM

Soviet Russia is in something of a quandary about the institution of marriage. On the one hand is the position of theorists that the State is the legitimate and ultimate mother of all. On the other hand is the position of the women who object to being merely a biological convenience for the maintenance of society. They want to be people the same as men. "It will turn Russia into a large family where everyone is married to everyone else," was the simple objection raised by peasants to the law recently proposed to place legitimate and illegitimate marital relations on the same plane.

Public Prosecutor Krylenko, a proponent of the measure, declares in its defense: "Polygamy and polyandry may exist under the new law, but the State doesn't erect any barriers against this development which can not be fought by legal measures. Free love is the ultimate aim of a Socialist State." The law is so framed as to recognize the absolute freedom for men and women to marry, separate and remarry at will. Upon separations the father is liable for the support of his children to the extent of one-third of his income.

Comment upon these provisions in one dispatch printed by a foreign paper calls attention to this contradiction:

So the Communist theory, derived from Marx and Engles, that the family is distinctly a bourgeois institution which should be destroyed, comes into conflict with the equally authoritative Communist theory that the State must insure the care and protection of the children.

At present, it is said, rather loose customs prevail with regard to divorce. "Summer wives," for example, are those married solely for the benefit of their labor, farmers in some communities marrying before the harvest season and divorcing the wife at the end of it, when her labor is no longer desired and her keep during the winter might be financially embarrassing. Women who object to the condition of affairs in Russia declare that men sometimes acquire a new wife every month or so, and that the courts are overwhelmed with actions by deserted wives trying to get satisfaction from their husbands, while Russia has everywhere wandering hordes of children without recognized or known parents. The practical situation is that the State can not take care of these children.

while its dogmatists still rebel at the idea of admitting that there is any sanctity of dignity in the marriage vow.—Dallas News

Stamford—The West Texas Chamber of Commerce will operate a special train to Philadelphia to the Sesqui-Centennial International Exposition there. The train will leave immediately after the Amarillo Convention. The West Texas Chamber

is to send an exhibit to the exposition.
Decatur—Wise County shipped one million gallons of milk during the year 1925. The value of this milk and of the butter fat sold totaled a third of a million dollars. Decatur lays claim to being the largest milk shipping point south of Kansas City.

Childress—A white way of such brilliance that Broadway will blush for shame is going to blaze in Childress. In addition to the high-powered street lights maintained by the city. Merchants are stringing the streets and numerous brilliant electric signs of novel design are being erected.

Perryton—Taxable values in Hutch-

inson County have increased more than ten fold during the past two years. The increase gives this county more than twenty million dollars taxable values. The great increase is because of the discovery of oil in the county.

Douglas fir mills in Washington, cutting 114,000,000 feet of lumber daily, is planning to raise prices \$2 to \$3 to buyers for export.

SICKLY, FEEVISH CHILDREN

Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The sure remedy for worms is White's Cream Wormer. It is positive destruction to worms but harmless to the child. Price 25c. Sold by

Vernon—The purchase of Fair Park by the City of Vernon is proposed and a bond election has been ordered for the purpose.

County commissioner W. J. Faires dropped into our office Wednesday and we hi-jacked him for a dollar and a half. No, "hi-jacked" is not the right word, for he will get several dollars worth of good reading matter out of the Lynn County News for another whole year.

Lee McFadden, who lives out on Route B, decided that it is not good to be without the home paper in his home, and he came in this week and gave us his name and address and the necessary coin of the realm to keep the paper going out his way for twelve months.

Tahoka Represented At C. of C. Meeting

The editor and wife visited relatives at Littlefield Sunday and attended the district meet of the West Texas Chamber of Commerce held in that city on Monday. About thirty west Texas towns were represented, most of them lying on the plains. There were possibly between 400 and 500 accredited delegates present and a large number of visitors. A banquet was served at the noon hour in the gymnasium of the high school building at which a number of addresses were made, songs were sung, bands played, and a general good time had. One of the features of the hour, or rather the three hours, was the one-minute speeches made by a representative of each town represented. Most of these speeches were spicy and to the point, each fellow endeavoring to say as many good things about his town and county as possible in the one-minute allotted him. Following the outbursts of music and oratory at the banquet table, the delegates met in the auditorium of the school building to carry out the set program. It was generally pronounced one of the most enjoyable meetings of its kind ever held.

The town of Littlefield itself was dressed in gay colors. It is one of those prosperous towns that has sprung up almost overnight in that rapidly developing portion of the plains, and its business section presents the usual admixture of wooden shacks and handsome new brick structures characteristic of such towns.

Strange as it may seem, it has a population of 2500 to 3000 while there are more than 1500 children in its public schools employing 36 teachers. Half of the pupils live in rural districts, some of them 20 miles or more from town, and 25 trucks are used by the district in transporting the children to and from school. The school building consists of three large structures, one for the primaries, one for the grammar grades, and one for the high school, all on the same campus.

Littlefield is growing rapidly in spite of the freeze which destroyed so large a per cent of the cotton crop on that part of the plains last fall and the surrounding country is likewise developing rapidly.

A number of former Tahoka and Lynn county people are there and are boosters for their town and country.

While Tahoka had only one representative at Littlefield, Lynn county was much better represented, for O'Donnell was there with her band and helped to furnish music for the occasion.

Tahoka Girls Lose To Wilson 21-8

The basketball girls team of Tahoka High School reached the climax of its season Wednesday afternoon when they played Wilson for the county championship. The girls played the game under many disadvantages. Several had been sick, and they all lacked practice due to this fact and weather conditions. The wind was cold and very disagreeable for a game, but the girls fought hard for the game and played a very good one. The Wilson team seemed to be in better shape and had a slight advantage in the last half due to the wind conditions.

There was a large crowd of students out to see the game and, we feel that the spirit of athletics among the girls has greatly improved with the contests this year. The year as a whole cannot be considered a failure as the team has won several games and eliminated O'Donnell early in the season.

The personnel of the team for this year has been, mainly: Maybelle Draper, Jonnie Walker, Evelyn Hatchett, Margaret Lam, Ina Floyd, Velma Jones and Allene Taylor. Several other girls have helped to make it possible for the girls to have a team by furnishing opposition. All the girls who have been mentioned and possibly several other deserve favorable mention in as much as they have made their work and the team also. You will hear from some of them in tennis.—A. B. S.

EIGHT BALES FFOUR WAGONS BURN IN WILSON FIRE

Wilson, Texas Feb. 20—The Wilson Co. Gin here burned at 2 a. m. today, eight bales and four wagons being destroyed. Forty five other wagons in the yard were saved by quick work with a truck. Two of the burned bales were ginned and four on wagons. Sparks ignited another bale on the railroad platform 700 feet away.

Gining will continue at one of the other two gins here, which have been closed for some time.

SHERIFF COMES TO LUBBOCK ON HOT TRAIL

Lubbock—Feb. 21—Burglary of five houses in Littlefield Friday night was revealed here early Sunday morning, according to Lubbock police, when Sheriff Irvin of Lamb County arrived in town on a hot trail after a suspect. It was not known here what houses were robbed or the extent of the loss, but one man unknown, to the officers, told them that about \$60 had been stolen from his home. No arrest had been made at an early hour this morning.

O. B. West, who lives on the McGonagill farm eight miles east of the city, came in Tuesday and ordered the paper sent to his address for the next twelve months. He recently removed to this county from Grayson and he wants to get acquainted and to keep up with the county news.

Wives are still purchased in the region of Persia known as the "Roof of the World," a common price being 100 shape.

CARLOAD OF MULES

We will have a carload of good mules at both Lamesa and O'Donnell by February 18th and will have good mules at both places until Spring. We will also buy any kind of livestock you have for sale. Progress or Stagnation--Which?

Our scholastic population is steadily and rapidly increasing, as the scholastic census for the past few years will show. The scholastic census for the past seven years, excepting the year 1922 for which we were unable to find any record, is as follows:

1919	222	1923	435
1920	274	1924	537
1921	278	1925	548

The scholastic census for 1926 has not yet been taken but a total of 706 pupils have been enrolled to date in the school term of 1925-1926.

How is Tahoka taking care of her school situation?

The following information gathered by Superintendent Nelson will show.

Amount Invested in School Buildings	Scholastic Population of Independent District
Colorado \$280,000	Stamford 1252
Midland 240,000	Lamesa 955
Lamesa 223,000	Ballinger 893
Ballinger 160,000	Colorado 769
Comanche 160,000	Comanche 753
Stamford 149,000	Tahoka 706
Rotan 130,000	Brownfield 700
Canyon 130,000	Brady 680
Brownfield 92,000	Hamlin 667
Brady 76,000	O'Donnell 650
Hamlin 60,000	Canyon 627
Anson 55,000	Midland 612
Wilson 53,000	Anson 611
O'Donnell 50,000	Rotan 527
Tahoka 45,000	Wilson 309

Thus it will be seen that while Tahoka stands sixth in scholastic population in this list of fifteen west Texas towns, she stands last in the amount of money invested in public school buildings, and she stands third in this respect in Lynn county, *Both O'Donnell and Wilson having spent more money on their public school buildings than Tahoka has done.*

Nelson Invites Use Of School by Public

The school plant should be more widely used for civic, social, and recreational activities.

Unhampered by the divisions and sectionalism brought about by differences in creeds, the school is practically the only institution which is of common interest and holds the same degree of importance for each individual in a community.

Because the school is common property and hence of interest to all alike, it is the logical center for all activities of community interest. There is no reason why a building representing such a large expenditure of public money should not function for the betterment of the community for a greater per cent of the year. There is no reason why the school plant should be deserted from June 1st to September 1st. Moreover, there is no reason for the

general attitude that it is a place to shun on Saturdays and Sundays. It was once the case in the history of our nation when the school house was the center of activity for the entire community, but due to inventions and the general trend toward city life the situation has practically been reserved during the past generation or two, leaving the school plant deserted for all occasions except the five school days of the weeks during school terms, hence it has finally come to the point, it seems, that people regard that edifice in their community as only a place for the children to grind out a given number of years of their young lives.

The Tahoka public school building should be used more extensively, not only for general meetings of such nature as, national and state holiday celebrations, the purpose of which is to instill patriotism in the hearts of the people and to memorialize the character and principles of our proven heroes; Parent-Teacher associations which foster a better community spirit by linking home, school and child; Boy Scout and Girl Scout meetings; Community sing-songs and lectures of general interest; but also the equipment of the various departments should be capitalized.

The Home Economics department for instance, being the best equipped if not the only one in our county could furnish laboratory equipment for the various Home Demonstration clubs or inquiring individuals who seek to improve themselves in the art of homemaking. In a recent interview with Miss, Peek, head of Home Economics, and with Miss Halsey, our County Demonstration agent, the State Department of Vocational each expressed the idea that we are not getting the maximum return for our expenditures. Miss Halsey said she wished for the opportunity to use the Home Economics laboratories on Saturdays for demonstration work with women of rural districts who could not have the equipment out there, adding that many women of our own district would gladly avail themselves of such opportunities. Are all the house keepers of Tahoka as well-equipped for their duties as they desire to be? If not, is there any reason why they should not use their own school property for their improvement? Such could be accomplished by means of sewing clubs, cooking clubs, etc. in night classes. A small fee would pay instructors and replace materials.

From time to time during the school year we have reminded you of the advantages of wider use of the Vocational Agriculture instruction. At present many local farms are being improved and terraced by this department. Again, our library, small as it is, contains a mint of interesting and profitable reading and entertainment for any who will be interested enough to call for the books. No greater friend hath any man than a good book. Such literature as we have in our school library should replace "Wild West" and "True Story" magazines in many of our homes.

In townships where there is a gymnasium in connection with the school, the citizens are merely cheating themselves if they do not make it a public playground after school hours.

POLITICAL Announcements

We are authorized to announce the following candidates, subject to the action of the Democratic primary election the fourth Saturday in July, 1926.

For District Attorney: T. L. PRICE of Post A. W. GIBSON of Lamesa

For County Superintendent: H. P. CAVENESS

For Sheriff, and Tax Collector: J. W. SIMPSON TOM PRESTON P. A. WIMBERLEY

For Tax Assessor: J. S. (JIM) WEATHERFORD (re-election)

For County and District Clerk: W. E. (Happy) SMITH (re-election) T. B. (T) COWAN, Jr.

For County Treasurer: MISS VIOLA ELLIS

For County Attorney: L. C. HEATH (re-election)

For Public Weigher, Prec. 1: R. C. WOOD (re-election) E. LAM

For Justice of the Peace, Prec. 1: I. P. METCALF (re-election)

For Co. Commissioner, Prec. 2: I. M. DRAPER

Four Lamesa Stores Are Broken Into
Four business houses of Lamesa were broken into on Saturday night of last week and small raids made by prowlers. The four places receiving the visits were; Butler Drug Company, City Grocery and Market, Cornelius Grocery and Market and G. R. Saverance Grocery Company. From the nature of the places visited it is surmised that the folks making the calls must have been hungry and in need of medicine.

None of the victims report any great losses. In one or two places small sums of money was taken from the cash drawers and the rest of the loot consisted of small amounts of merchandise.

Local officers report that they are working on a number of clues in connection with these cases.—Dawson County Journal.

Some Facts About Kregg's Art Studio

Kregg's Art Studio is Tahoka's studio, the Studio which is here to stay, the Studio that helps to build Tahoka, that helps build your schools and churches. Whatever I make, I get back to the county but I do not take all the money I can from the county and then pack my things and go somewhere else and what does the Community and County get out of it? Nothing.

Remember that all photographers claim to be the best in the state but the truth is that it is not what photographers think of himself but what people think of him that counts. I am trying to do the best I can, I have different styles of Portrait folders that will meet any taste and any pocket.

For Kodak work I have an automatic Electric printer which turns out as many as 200 prints per hour, I have a rapid self Dryer which dries prints in 10 minutes; I put the best gloss on Kodak prints, the gloss that stays and protects print and which cannot be found in many studios as it requires attention and care to produce which other photographers don't care to do. Kodak films brought in before 10 a. m. will be ready for delivery the same day at 5 p. m.

With every dollar or over worth of Kodak work at one time I will give one enlargement FREE; also with all portrait orders amounting over \$5.00 I give one large portrait. What could be fairer? My work can be seen either in my Studio or on display at Tahoka Drug Co. and at Limit Sundry Store.

Special attention given to Mail orders. Try me out. KREGG'S ART STUDIO South Side of Square.

SEED REQUIRED FOR THE GARDEN

An ounce of celery seed will produce 3,000 plants.

It takes one ounce of cauliflower seed to produce 2,000 plants.

From two to three pounds cucumber seed are required to plant an acre.

To plant an acre of beans, an average of a bushel of seed is required.

On an average five pounds of watermelon seed is enough to plant an acre.

A half pound of pepper seed will be required to produce plants enough for an acre.

Enough plants to set an acre of tomatoes can be produced from one-fourth pound of seed.

To plant an acre of cantaloupes, about three pounds of seed is needed.

On an average, five pounds of seed or 12 bushels of sets is the amount required to plant an acre of onions.

On an average, four pounds lettuce seed is required to produce enough plants to set an acre. An ounce is exposed to produce 3,000 plants.

One ounce of cabbage seed should produce, on an average, 2,000 plants, thus showing that to set the plants thick and provided for some loss, one-half pound seed is needed to produce plants for an acre.—Progressive Farmer.

INCREASE IN CENSUS

O'Donnell is a growing town. There is no doubt about it and the newcomers are of the best families in the world. Read on and see. Born Tuesday morning a twelve-pound girl to Mr. and Mrs. J. E. Baker.

Later in the day there arrived at the home of Mr. and Mrs. A. W. Gibbs a fine little girl and at about the same time the stork visited the home of Mr. and Mrs. W. A. Brown and left a fine little girl. The mothers and babies concerned in the births are doing fine but the daddies are said to be acting like they were the only laddies in the world—O'Donnell Index

The government subsidy, voted English coal miners to prevent a strike, is increasing. The figures are: September, \$9,000,000; October \$13,250,000; November, \$13,250,000; December, \$16,000,000.

Milton did not live in poverty as is often stated. He lived in financial ease on the profits of large real estate transactions conducted by his father and himself.

PREVENTS INFECTION

The greatest discovery in flesh healing is the marvelous Borozone, a preparation that comes in liquid and powder form. It is a combination treatment that not only purifies the wound of germs that cause infection but it heals the flesh with extraordinary speed. Bad wounds, or cuts which take weeks to heal with the ordinary liniments mend quickly under the powerful influence of this wonderful remedy. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. BILIOUS SPELLS

Kentucky Man Finds Relief from Dizzy Attacks.

"I suffered with severe bilious attacks that came on two or three times each month," says Mr. J. P. Nevins, of Lawrenceburg, Ky. "I would have dizziness and couldn't work. I would take pills until I was worn-out with them. I didn't seem to get relief. After taking the pills my bowels would act a couple or three times, then I would be very constipated. A neighbor told me of Black-Draught and I began its use. I never have found so much relief as it gave me. I would not be without it for anything. It seemed to cleanse my whole system and made me feel like new. I would take a few doses—get rid of the bile and have my usual clear head, feel full of pep and could do twice the work." Made from pure, medicinal roots and herbs, Black-Draught is nature's own remedy for such symptoms as the above, when due to a torpid liver. Sold everywhere; 25c. C-32

PLAINVIEW, TEXAS

22 Years of Leadership and still Leading in Price ~ Design ~ Quality

	New Price	Old Price
Tudor	\$520	\$580
Fordor	565	660
Coupe	500	520
Touring	310	290
Runabout	290	260

Supremacy Maintained through Features which Established Ford Leadership

- Left-Hand Drive**—Originally introduced by Henry Ford on the Model T car in 1908 and since adopted by most American-made cars.
- Three Point Motor Suspension**—First used by Henry Ford in 1913, and a feature of the Model T power plant for eighteen years.
- Dual Ignition System**—Dual ignition is provided for Ford cars, (1) the Ford magneto and (2) the generator and storage battery. This has been a great factor in establishing the Ford reputation for reliability.
- Planetary Transmission**—Costs more to build than the conventional sliding gear type but gives better light gear control.
- Multiple Disc-in-oil Clutch**—The multiple disc clutch is generally conceded to be the best and smoothest type in any car. The Ford clutch runs in oil.
- Thermo-Syphon Cooling System**—Extremely simple—always efficient. No water pump to require packing. Circulation of water is governed entirely by temperature.
- Simple, Dependable Lubrication**—Exceedingly simple, combining the principle with gravity flow. No oil required.
- Torque Tube Drive**—Henry Ford originated the Torque Tube 1908—a driving principle now employed in many of the highest priced cars.

"We have never lowered the quality of the car to reduce the price"

35 Per Cent er Than Before, ar. Authority Says

automotive industry is offered unprecedented values it is due to R. H. Grant, vice-president and general sales manager of Chevrolet Motor Company, who has inspected at the New Detroit and Chicago Shows. A large majority of automobiles will receive during 1926 an increase in value for their money they did in 1925," Mr. Grant says.

sent day automobiles are emphasized by the fact that despite all improvements made during the last decade, the ratio of present and pre-war automobile prices is 65 cents per dollar, a reduction of 35 per cent. The average price of all commodities is 67 per cent higher than in 1913.

"The garage in which you shelter your '65-cent' automobile now costs \$1.96 to reach dollar it would have cost in 1913. While the quality of automobiles improved and their prices decreased, the cost of living was rising to \$1.67 per pre-war dollar, the cost of clothing to \$1.74, the cost of shoes to \$1.65 and the cost of household furnishings to \$2.16.

"Most of the cars shown at the recent exhibits are better cars than those offered last year. The industry is not resting on its honors. It continues to progress. In some cases prices have been reduced even in the face of important mechanical improvements and attractive body refinements. The reason, of course, is that the cost per unit drops as the volume of manufacturing increases."

Wagon Runs Over Man; Rib Broken

(Delayed)

J. R. McIntyre, who lives about fourteen miles west of Tahoka, was thrown under the wheels of a wagon which he was driving Wednesday, and quite seriously injured. Two of his ribs were broken, a third was slightly fractured, and possibly his collar bone and other bones fractured.

The accident occurred, according to meager information reaching Tahoka Wednesday night, when he started to alight from his wagon while it was standing still. The mules became frightened and started up and both the front wheel and the rear wheel on one side of the wagon passed over his body.

Postmaster Gives Out Information

D. A. Parkhurst has asked The News to publish the following information for the benefit of local business men and other patrons of the Post Office:

DOMESTIC POSTAGE
FIRST-CLASS matter (letters, etc.) 2 cents per ounce, except drop letters for delivery through general delivery or box at offices not having free delivery, which are 1 cent per ounce.
Second-class, mailed newspapers, magazines, etc., 2 cents for each 2 ounces, etc.
Registration fee (additional to postage), 15 cents according to value. If return receipt is desired an additional fee of 3 cents must be paid.
Special delivery (additional to regular postage), 10 cents up to 2 pounds. Two pounds to 10 pounds, 15 cents; over 10 pounds, 20 cents, whether printed or written, 1 cent. "Post cards" or "Private Mailing Cards," 2 cents.

PARCEL POST RATES
The first figures in each line below represents the zone number, the second figure the distance, the third figure the rate for first pound, the fourth the rate for additional pounds, the fifth the weight limit.
Local \$0.07 \$0.01 @ 2 lbs 70lb
Within 50 mi. .07 .01 @ 1 lb 70lb
1-2 50-150 mi. .08 .02 @ 1 lb 70lb
3 150-300 mi. .08 .02 @ 1 lb 70lb
4 300-600 mi. .09 .04 @ 1 lb. 50 lb
5 600-1,000 mi. .10 .06 @ 1 lb. 50 lb
6 1,000-1,400 mi. .11 .08 @ 1 lb 50 lb
7 1,400-1,800 mi. .13 .10 @ 1 lb. 50 lb
8 1,800 and over .14 .12 @ 1 lb 50lb

On parcels collected on rural routes the postage will be 2 cents less than shown in the preceding table provided such parcels are endorsed, "Mailed on Rural Route" to show they are not subject to the increase in rates.

Restrictions.—size limit, 84 inches in length and girth combined.
Special Conditions.—Farm products such as butter, eggs, fruits, day old chicks and honey bees, are classed as parcel post mail.
Parcel post excludes matter of a character perishable within a period reasonably required to transport and deliver and parcels of form and kind likely to injure postal employees or equipment or their mail matter.
Insurance.—Packages may be insured at the following rates:

5 cents for value not over \$5.00
8 cents for value not over 25.00
10 cents for value not over 50.00
25 cents for value not over 100.00
Fee, 3 cents for return receipt.
Note: A service charge of 2 cents required on all parcel post packages weighing over 8 ounces.
C. O. D.—Sender of parcel on which postage is fully prepaid may have price of article and charge thereon collected on payment of 12 cents additional if amount is not over \$10; 15 cents additional if amount is not over \$50; and for a fee of 25 cents when the amount to be collected does not exceed \$100 A. M. V.

MONEY ORDER RATES
Sums not exceeding \$2.50 .5c
Over \$2.50 and not exceeding \$5.00 7c
Over \$5 and not exceeding \$10 10c
Over \$10 and not exceeding 20 12c
Over \$20 and not exceeding 40 15c
Over 40 and not exceeding 60 18c
Over \$60 and not exceeding 80 20c
Over \$80 and not exceeding 100 22c

THREE BOYS CAUGHT IN FALL OF CAVE ROOF

Three adventurous boys, two of whom are high school students and the other a pupil in a grammar grade, narrowly escaped serious injury when they were caught, in a cave by a fall of dirt, sand, and rocks last week.

The accident occurred Sunday night at 9:30 o'clock. Hugh Dixon, James Talley, and Jack Crowson were in the cave and Buster Speakman was near them at the time of the accident. A. G. Hopkins, a post-graduate of Miami High School, assisted in rescuing the boys. James Talley and Hugh Dixon would have suffocated had it not been for the prompt action of a few men called to the scene.

The boys had dug the cave in a bank of the alley at the rear of the Miami Motor Co., and Sunday night they had gone to the cave for a few minutes of fun. Three of them had entered and the other remained on the outside.

Suddenly the roof of the cave gave way and fell in upon the boys. Young Dixon and Talley were completely buried under several feet of dirt, and Crowson's body was covered up to his neck, his head being above the surface of the dirt. Buster Speakman rushed for help and immediately three or four men were digging the dirt from over the boys, who were soon pulled out of the ruins.

None of the boys were injured other than being hurt from fright and shock. —Miami Chief.

Prices of Ford Cars are Reduced

Probably the biggest recent piece of automobile news is the Ford Motor Company announcement of a reduction in price of the entire line of Ford closed cars.

The new price level ascribed to the trend of closed car buying which has been rapidly developing. According to a statement by the company accompanying the announcement, this trend has reached such a high point that manufacturing economies have been effected, and in accordance with the established policy of the company the benefits of these economies are passed on to purchasers of Ford cars.

Coming virtually on the heels of the sweeping improvements and refinements made in Ford cars last fall, the new prices mark the climax of a period of general ascending values. Less than six months ago, Ford bodies were completely redesigned to make possible a greater degree of beauty, driving ease and riding comfort. In line with these developments, all-steel bodies were introduced together with closed cars in color and numerous refinements in the chassis.

These improvements, which were the most pronounced ever made in Ford cars, are now supplemented by the lowest prices at which Ford closed cars have ever sold. The reductions range from \$95 off the cost of the Fordor to \$20 off the price of the Coupe. The Tudor, most popular family car of the Ford line, is reduced \$60.

COMMUNITY CLUB MET WITH COUNTY AGENT

(Delayed)

The program committee of the Community Club met with Miss Halsey, County Demonstration Agent at Tahoka on Saturday of last week. Very interesting plans for the coming year were made. It was decided to make the third Tuesday of each month O'Donnell Day.

On February 16 Miss Halsey will be at home at Mrs. H. L. Hohn where she will demonstrate the making of hot bed and flower boxes. Every woman is urged to attend these meetings, as good things are in store for those who do. Be ready to answer roll call with a new vegetable. —O'Donnell Index.

Help Keep Tahoka Clean!

Texas banking resources have more than tripled since 1910 and are now about one-ninth of the banking resources of the entire country in 1900.

January 1st, statistics show that now costs 71 per cent to live than it did before the war. Food increased in cost 3 per cent the last quarter of the year.

THE Rexall Store

LOCAL SCHOOL

COST IS GIVEN

(Continued from First Page)

months of school and for the month of August, 1925, preceding the present school term are shown below. In explanation of some items below, it should be stated that Superintendent Nelson is paid a salary of \$2,100.00 for twelve months, or \$175.00 on the first day of each month. His services began on August 1. Likewise the vocational agriculture teacher is paid a salary of \$2,000.00, including the special funds appropriated by the State for this purpose, and he is also paid on the first of each month. The other members of the faculty are paid for nine months, their salaries being payable at the end of each month of four weeks.

It should also be stated that by some error made by the secretary or the depository in previous years, not enough funds had been set aside annually to pay the interest on outstanding bonds and to provide the requisite sinking fund, and the board last fall found that there was a deficit in the sinking fund of Bonds No. 1, amounting to \$611.41 and a deficit in the sinking fund of Bonds No. 2, amounting to \$1601.62. The present board had to set aside out of this year's taxes just collected, the sum of \$2243.03 to cover these two deficiencies.

The board also found that there was a vendor's lien note still outstanding in the sum of \$411.65 on certain lots purchased by the school board several years ago, and this note had to be paid out of this year's funds.

The board also found it necessary to purchase about 90 desks at a cost of \$647.80 to care for the increased enrollment this year.

There are other items listed below about which the tax payers might like to have more light but space forbids further comment here. Suffice to say that the secretary of the board has on file itemized statements showing what these items were for and any one sufficiently interested may inquire at his office and get this information.

The items of expenditure are as follows:

Salaries for Superintendent and Vocational Agriculture Teacher for August, 1925	\$341.66
Salaries for 17 teachers in September	\$2197.74
Salaries for 17 teachers in October	\$2197.74
Salaries for 17 teachers in November	\$2197.74
Salaries for 17 teachers in December	\$2197.74
Salaries for 18 teachers in January	\$2240.24
Salaries for 18 teachers in February (including Supt. and Agri. teacher to be paid March 1.)	\$2282.74
Total paid to teachers up to March 1, 1926	\$13655.60
Salary of Janitor Aug. 1, 1925 to March 1, 1926	\$582.50
Interest paid to Bank on money borrowed by trustees	130.17
Commission paid to assessor and collector of taxes	\$868.78
Salary paid to secretary of board	\$30
Fuel	889.68
Books, Records, Crayons, laboratory equipment	\$236.00
Disinfectants for outside and inside toilets, oil for floors, floor sweep, etc.	\$275.72
Desks purchased	\$647.80
Filing cabinet for vocational agriculture dept	33.50
Stove and pipe	\$116.10
Lumber and building material	388.85
Plumbing, electric wiring, repairs and labor	\$212.15
Freight, express and drayage	115.78

Insurance	\$752.63
Lights	\$68.76
Water for year	\$50.00
Telephone	\$21.00
Supplies for Home Economics Dept.	62.73
Printing and stationery	\$73.00
Vendor's lien note paid	\$411.65
Miscellaneous items	\$48.00
To cover deficit in sinking fund No. 1.	641.41
To cover deficit in sinking fund No. 2	\$1601.61
Interest on bonds, amounting to \$15,000, series No. 1	\$750.00
Interest on bonds, amounting to \$30,000, paid and set aside for the purpose	\$1500.00
Paid into sinking fund No. 1 for 1926	\$375.00
Paid into sinking fund No. 2 for 1926	750.00
Total monies paid out and set aside for all purposes	\$25,288.94

As indicated above there are two sets of bonds outstanding; one in the sum of \$15,000 issued in 1911, and one in the sum of \$30,000 issued in 1920. The sinking fund of the first

issue now amounts to \$5625.00, and the sinking fund in the second issue amounts to \$4500.00. The depository pays 3 per cent interest on these funds, which provides some additional revenue for the district not included in the table above.

T-BAR NEWS

Every one seems to be recovering from so much sickness and are able to be up again.

The T-Bar senior girls, junior girls and junior boys played basket ball on the Wells court Friday, the scores all being in Well's favor.

The T-Bar basket ball teams will play on The Three Lakes court next Friday.

Lucy Crews has had the mumps the past week.

Lewis Henderson had the mumps last week.

Mr and Mrs. Roscoe Ward visited relatives, H. W. Crews and family, Sunday.

The pupils who have been out of school on account of sickness are back again.

There was a large crowd at prayer

meeting at T-Bar last Sunday night. There will be singing at T-Bar Sunday evening, prayer meeting that night. Everybody invited to come. Apple Blossom.

W. L. Cash of Hamlin, who has been running a little want ad in The News recently and has been reading the paper, was in town Saturday and dropped around to News office just to say that greatly enjoyed the paper. He accompanied by Mr. and Mrs. Harper of Hamlin, all of whom here on business and were taking a look at our town.

Harley Henderson is in town this week attending to business.

FINE GROCERIES

Going Home With Arms Loaded

When you leave this store, you just cannot help going home with your arms full of the good things we have here for the table. And the satisfaction of knowing that each and every item is fresh and of the choicest quality adds to the pleasure of shopping here.

The most of the Best for the Price

CARLOAD LISTERS JUST RECEIVED SINGLE ROW and DOUBLE ROW

Dependable and Durable

The Oliver Nos. 16 and 17 listers have proved by years of field performance that they are dependable and durable and that they completely meet the requirements of the farmer who needs a one row lister.

The Oliver Nos. 16 and 17 are two wheel listers equipped to plant corn, cotton, peanuts and other row crops. True running bottoms characterize these Oliver listers insuring smooth and even furrows. The frame is sufficiently strong to withstand all stresses to which a lister is subjected.

Accuracy of planting is obtained by use of a seeding attachment that will not skip or bunch the seed. The seeding mechanism is driven by a chain operating from the main axle.

Dependable, accurate listing is assured with Oliver equipment.
