## Our Austin NewsLetter

Austin Texas June 6 1910.

The fraternities at the State University are among the latest to feel the recently acts of the insurance companies following their radical changes in the policies of writing insurance in this State and incidentally making the state fire Rating Board law most unpopular. It so happens that the burden of the new rule affecting the fraternities falls heaviest on the young men and young women who are poorest. The insurance companies' under their new rules are refusing to write three years policies on the contents of rented first house for two years' premiums as has been the custom for years. If the frat happens to own its own house and a very few are financially able to do it it may get the benefit of three years' fire insurance protection by paying two premiums but the poorer organizations of young men and young women who live in frat houses which are rented are denied the same privilege and must pay each year's premium straight. The unfortunate part of that as seen by the poorer classes are the victims of one of the insurance new rules which have raised such storms of protest over the State.

The Department of Insurance and Banking Saturday approved the following banks:

Commercial National Bank, Houston for First State Bank, Bronte, Lumbermen's National Bank Kirbyville; First State Bank, Bronte; Palacios State Bank, Palacios. Hanover National Bank, New York, for Nixln State Bank, Nixon.

Stockyards National Bank, Fortworth, for First State Bank, Kirklind.

Commercial Guaranty State Bank, Cushing.

Stockyards Natinal Bank, Fort Worth; Guaranty State Bank, and Trust Company, Dalla, for State Guaranty Bank, Center.

The Secretary of State last week filed the charter of the Pecos and Toyah Lake Irrigation Company, of Pecos, Reeves County, a concern with a capital stock of \$1,500,000. This is probably the largest irrigation project ever undertaken in Texas. Its incorporators are J. N. Levin, of Rutherford, Reeves County and R. S. Johnson and T. H. Beauchamp, of Pecos. Associated with these gentlemen as directors are E. E. Dobbins, Chares A. Loomis and L. H. Baker of Kansas City and Frederick W. Taylor, of Lincoln, Neb.

H. L. Wright of the Fire Rating Board left Saturday night for Tyler and Crockett, in response to request from citizens of those places who are dissatisfied with the high companies for those places.

Hereafter the board wants the insurance companies to give out all information about insurance rates, and will refer the newspapers to the actuary of that company. C. B. Roulett, who has headquarters in Dallas. The key and other rates are made there and promulgated from his office. An amendment to the charter of the Texas Company, the large Houston oil company, increasing its capital stock from \$18,000,000 to \$36,000,000, was Saturday filed

by the secretary of State James L. Austry of Houston, attorney for the corporation, was here to file the amendment.

Charles W. Neill, United States Commissioner of Labor, who has been spending a few days with his sister in this city, has returned to Washington, D. C. Mr. Neill had been to adjust labor disputes between the Southern Pacific and some of its employes.

Commissioner Neill formerly resided in Austin, and later was a professor in Notre Dame University of Indiana. His sister is Mrs. Thos. F. Taylor, who is well known in literary circles here.

## THE PLAINS FOR SUBMISSION

If the democrats don't have another chance to vote in the primary on July 23rd, for submission, it will not be the fault of the rank and file of the party, for a monster petition is being circulated all over the State, and the very best evidence of the high class citizenship of the Staked Plains of Texas can be found in the fact that the party out here are almost unanimous on the question of submission, and if it was left to this part of the State, Texas would soon be as dry as a herring bone.

The whisky interests are already sitting up and taking notice, but it will do them but little good, for it is only a question of time until we have State-Wide Prohibition, and the longer this reform is put off, the more stringent the laws will be and the more rigidly they will be enforced. The common people are long suffering, slow to act and easily fooled by demagogues, but when they finally do become aroused woe to the favored politician who has been false to his trust, he need not ask, for mercy for the end comes sure and soon. Drugs and medicated bitters capable producing intoxication, except for medicinal and sacramental purposes. To the end that you cause apt and appropriate language to be printed upon the tickets to be voted by the voters in said primary election whereby the voters favoring the submission of said amendment to the Constitution may so vote, and those opposing such submission may vote in opposition thereto.

We give below the petition to the State Democratic Executive Committee which arrived the first of the week, and as it had to be sent to Dallas to be in time for action to be taken we only had a day or two to circulate the petition on which 65 signers were secured nevertheless.

To the honorable state Democratic executive committee:

We the undersigned Democrats who are legally qualified voters of the state of Texas constituting ten per cent of the democratic party in said state, as shown by the last primary election vote respectfully petition your your honorable body to submit to the voters of the Democratic party, at the general primary to be held on the 23rd day of July, A. D. 1910, next preceding the state Democratic Convention:

Whether the voters favor the submission by the Thirty-Second Legislature of this State of a Constitutional amendment to the people for their adoption or rejection prohibiting within the State of Texas the manufacture, sale, gift, exchange and interstate shipment of spirituous, vinous and malt liqu-

## TAHOKA TO CELEBRATE

### THE ADVENT OF HER NEW RAILROAD. PICNIC, BARBECUE GUBERNATORIAL CANDIDATE

It was decided long long ago that we would have a grand picnic and perhaps a barbecue to celebrate the advent of our new railroad, even before we knew it was to be the Santa Fe that would build the first railroad into Lynn county and Tahoka, we had our minds all made up that when we did get a railroad that we would celebrate the event in a fitting manner.

To those living in the East who if there is not a railroad in their home town have only to go from 10 to 20 miles to a railroad town, it may seem strange that we are so jubilant over our new railroad. However, if they will just think a minute of how long many of us have put up with the expense and inconvenience of living 85 miles from a railroad, paying 50 to 75 cents for every hundred pounds of stuff we used, and when we had some thing at the road and sent a freighter after it and he got our stuff it would be a week before we received it, while if it rained or he was over loaded it would be two, three or often four weeks before we got the stuff we needed so badly. Then if we wanted to go anywhere on business, pleasure or in case of sickness, it was two days hard riding on the hack or six hours on the auto with a good chance of a breakdown with the alternative of a two to six hours wait or a two to five mile walk.

We are proud of our railroad, we are proud that Tahoka is in the center of a county that the Santa Fe people thought good enough to

build a road into, and if you will come to this picnic we will show you such a fine time that you will be proud that you came.

As to the date on which we can have the celebration; why not have it Thursday, June 30? We have the assurance that we may have Hon. Cone Johnson with us on that date as the following letter shows:

Lynn County News, 5-27-10  
Tahoka, Texas,  
Dear Sir:-

We are planning to have Mr. Johnson in your part of the country the 30th of June. He will be in Lubbock on the night of the 29th and you can have Mr. Johnson most any time during the day of the 30th. We would expect you people to meet him at Lubbock and see that he gets over to Tahoka, and possibly see that he goes from there to Big Springs. This is the date we have planned and have written Mr. Johnson's Campaign manager to that effect and as soon as we can hear from him will notify you.

Yours very truly,  
D. E. Ansley, Sec.

The above letter puts it up to us. Do we want to hear one of the candidates for governor speak? There are hundreds of towns in Texas as large and larger than Tahoka that have never had the chance to entertain a candidate for governor. Let's have our picnic the 30th of June and all come and have a royal good time and celebrate our railroad in a manner befitting the occasion.

#### TRADES-DAY

First Monday or Trades Day was quite a success all things considered. Quite a large number of people were in town and we all feel encouraged to think that it is going to be possible to make Trades Day a permanent and successful institution in Tahoka as it is in so many towns in lower Texas.

Some fine stock was brought in and some as fine specimens of fruit displayed at E. D. Skinner & Son's office as one could wish to see, ranging all the way from green grapes, plums, apples and peaches to fine ripe dewberries and cherries.

The baby show at the store of J. E. Ketner general merchant, was the important event of the day. Seven fine, fat and laughing babies were entered for the prize offered by Mr. Ketner, two of them being boys. J. M. Northross, Uncle Alex Vaughn and Pap Moore were the judges, and when handsome Coleman Welcher was awarded the prize every one seemed pleased. The prize offered by Mr. Ketner was a nice dress with all the trimmings for the winning beauty.

Every one will either come to Tahoka or go some where else on the next First Monday for it is the Fourth of July and who can stay at home on that day?

#### FATHER DIES

Mr. O'Donnell, father of T. J. and A. F. O'Donnell of this place, died at the ripe old age of 79 years, at his home in Oklahoma, Sunday a week ago.

Mr. O'Donnell came to this country from Ireland when 14 years of age, and located in Ross county, Ohio, afterward moving to Douglass county, Illinois, then to Wichita, Kansas, where he lived about two years. He then took up a claim in what was known as the Iowa Reservation, Oklahoma, where he lived to the day of his death.

He leaves six sons and two daughters to mourn his loss. John, Jim, Tom, Mary, Kate, Dan, Henry and A. F., all of them except Tom and A. F., living in Oklahoma.

The saddest thing to the two sons here, is that their father was dead and buried before they received the wire telling them of their loss.

Look out for my ad next week for it will make you smile. — Our Cash Store. 43-It

#### FOR SALE.

Worth the money—a first class soda fount, fixtures, stock and Etc. Write P. O. Box 178, Alvarado, Texas. 44-2t

The practice of making our streets speedways for autoists is going to be stopped and hereafter drivers of auto's will find it to their advantage to keep within the speed limit. A party of gay riders were compelled to pay a fine for speeding last Friday night. They were having such a jolly time that repeated summons from the city marshal failed to disturb them and it was not until a shot was directed at the tire of a wheel that the gay riders could be induced to stop a minute and receive a little advice about fast driving. — Big Springs Herald.

## BAPTISTS ELECT MISSIONARY

June 10th A. D. 1910.  
To the Baptists of the South Plains Association.

Dear Brethren:-  
Whereas, at our last Board and Workers meeting, held with the Gomez Baptist church, our Beloved B. F. Dixon tendered his resignation as Associational Missionary. And, whereas, the Board could not transact any business on account of an insufficient number of the members of the Board.

Therefore, It was resolved, That the Board have a call session which was called by unanimous consent of the Board, and met at New Home Church June 9th 1910.

And whereas the Board accepted the resignation of B. F. Dixon. And whereas, this writer was elected as Missionary of the Association.

And whereas, the time is short in which to arrange for meetings, and for a general outlay of the summer's work.

Therefore I resort to this method of announcing myself ready for the work, and those desiring my services this summer, in meetings, should write or come to see me as soon as possible.

My Dear Brethren, as I give myself over to the Work, I pray God that you may give God your prayers in my behalf, that I may be an instrument in his hands, to accomplish good in his name, and for his Glory, and for your hearty co-operation 1 yearn.

I am your humble servant,  
A. L. ESTES, Missionary.

Walter Robison and Pap Moore, of the North-East corner of the county, were in town Monday and they were wearing the kind of a smile that a farmer always wears when he has just received the good rain that he so badly needed. The rain that they got Sunday night was the one they have been looking for, all the spring. They reported that the water was still standing in the furrows when they left home for Tahoka Monday.

The German people who recently purchased land from Soash in the northern portion of Martin county, are laying out a new town to be known as Lyolo City. The new town has the assurance from big officials of the Santa Fe that the road will build through in the near future. The new town is between Brownlee and Lamesa and is about 36 miles from Stanton. Henry Kovermann and Barney Otterbruck are making extensive improvements there also. We want to see these prosperous people build up that section and hope it will continue to grow like the green bay tree. — Stanton Reporter.

## Good Road Proposition

The Commissioner's Court last term, decided to open up and put in first class traveling condition, the public road running east from Brownfield to the county line, there to intersect the road from Tahoka, and Commissioners Gist and Copeland were sent to inspect the road, and see the Commissioners at Tahoka. They returned Tuesday evening and reported that the Lynn county Commissioners would at once put a grader at work on the road in their county and have it cleared out and graded to the county line. The people of Tahoka very promptly made up \$150 in cash, and turned it over to our Commissioners for work on the road. The Commissioner's Court of this county will convene in special session Monday next to let the contract for grading the road to the county line.

This part of the road is very sandy, but with some work and expense can be made into a fine road, meeting the Lynn county road at the county line, will give us a splendid roadway to Tahoka. The trains are now running into Tahoka, which is only 26 miles east of here, and no doubt most of the freighting and travel will be to that point for railroad facilities, for this and Yoakum counties, and the road will be greatly needed, and of convenience to practically all of Terry county. The Herald believes that bad roads cost more than good ones, and we are glad to see this progressive step taken and hope that by our next issue we can report much work in actual progress. The Tahoka people know a good thing, and are spending money and are making efforts on the road, and Lynn county will build the road and in her boundaries out of its own funds. It will be a great thing for Tahoka, and no small item to Brownfield, Comez and Terry county, thus it is a commendable step. The following is names of those who have contributed to the enterprise with the amount set opposite their names.

Judge Perryman	\$ 5
Burton-Lingo	10
Wells & Welcher	10
Ed Ketner	10

operated by steam power.

Somebody has evidently got his facts and figures jumbled. The present editor of the Hesperian has on first hand knowledge in regard to the matter but he has bin informed that J. C. Molloy put in a cotton gin at Floydada in 1902 and did ginning for the Lockney country until the fall of 1904 when the Lockney gin was installed.

Bro. Foster shows some uncertainty about dates himself, when he says "in 1602 or '03." His last guess was getting pretty close; missed it only one year.

That was a nice boost Bro. Foster gave Lockney, but if the statement here quoted is a fair representation the whole article, he will find it a boomerage. We would advise the broiner here after when he ventures to write a special article to put his informants on oath.—Floyd County Hesperian.

Thanks Bro. Guthrie, the Beacon stands corrected with reference to the cotton gin. It is well for the Hesperian man that he was not here to see that Molloy Ginnery which was of that type that it would jump on a bale of cotton early in the morning and after worrying it a day or two would turn out something that looked like a bale of cotton, else he would not have revered it. It was a COTTON GIN the Beacon had reference to. In regard to putting our informants on oath, it is not necessary. Had we done so in reference to the so-called gin at Floydada in 1902, there is scarcely a man in Floyd county, who cares anything for his reputation, that would swear that that outfit was a cotton gin.—Lockney Beacon.

The only excuse we can offer for butting into the above scrap between the Hesperian and the Beacon, is that we were running the Hesperian about the time that Molloy built his cotton gin, and also we hate to see a pioneer held up to ridicule. Molloy put every thing he had, into that gin, worked hard a year or two and went completely broke. If it had not been for this gin or some other makeshift gin, the McCollum gin would never have been built. It took all of Floyd, Crosby, Lubbock and Hale counties to keep the Molloy gin busy for a month or two the first two seasons, and it was seeing how much money the Floydada merchants (not Molloy) were making out of the gin that caused McCollum to put in a sure encuga plant. Another thing we will call your attention to Uncle Joe, the Molloy plant, as a cotton gin, compared well with the newspaper plants(?) of the Hesperian, Beacon, and the Messenger, in which office we had the pleasure of making your acquaintance.

All honor to the pioneer who blazes the way in any of the avocations of life. His ways and his implants are always rude and slow, put how many industries spring into perfection at the start. It is always the Molloy type that paves the way for the McCollum success and then is either forgotten or dispised.

## A BARGAIN FOR YOU

### A India Drouth Resisting Crop

This week L. Baskin received from Congressman Campbell of Kansas four pounds of Guar seed a product of Indian. Mr. Baskin has been working for five moats to get some of this seed from the government but failed up to the time that J. L. McElhenie, a land agent who is to move here shortly from Pittsburg Kansas took it up with Congressman Campbell with the result that seeds was sent to Mr Baskin A pound of guar seed represents \$2 and Mr. Baskin received two pounds. He has given out 75 packages to farmers in the Hereford country each packages containing enough seed to plant 124 hills, two kernels to the hill. Congressman Campbell requ that those who planted it keep a record of the results for the season and forward it to him as the Guar was in its infancy.

Guar is an erect-growing East Indian annual legume, very different in appearance from any legume grown in this country. It is characterized by an enormous production of pods, and the pods do not break open at maturity like others legumes. When supplied with plenty of moisture guar grows to a height of 5 or 6 feet, but under arid conditions only 3 or 4 feet. Guar is especially characterized by its enormous drouth resistance.

At Chico, Cal., a fine crop was produced without a drop of rain falling upon it from the time it was planted until nearly ready to harvest. During these seasons those pods showed no suffering whatever from drouth which seriously effected adjoining plots of kaffir corn and sorghum. It is believed therefore that this crop will be especially valuable as a legume for the arid southwest quarter of the United States.

In India the plant is grown both for green forage and for the seed, which is used mainly to fatten cattle. The seeds are highly nutritious, containing over 32 per cent of protein. The green pods are also used as a vegetable in the manner as string beans.

Guar may be sown broad cast using a bushel of seed to the acre. This will produce a dense stand and comparatively slender stems, so as to permit of easy harvesting or it may be drilled in rows far enough apart to cultivate, sowing the seeds two or three inches apart in the row.

Guar can be harvested with an ordinary binder and threshed with an ordinary threshing machine. The indications are that the yield even under a serve drouth will reach from 15 to 20 bushels per acre and per haps more.

It should be remembered that that this crop is as yet in an experimental stage in the United States, but the indications are exceeding promising that it will prove to be of high value in the arid regions where the seasons are warm enough for it to mature.

Mr. Vanderburg of the Recorder was the recipient or a package of Gur seed presented to him by Mr. Baskin and has a plot of ground in which he intends to give the seed a thorough test.—Hereford Recorder.

## The Opportunity For Buying Land Cheap

Will never again be as good in Lynn County as it is at present. We are selling lands cheaper today than the same lands will ever sell for again. Opportunity knocks once at every mans door.

Purchase a home now while a little money will pay for it. The valley of the Nile will not surpass our Lynn County land for productiveness; nor will it produce a greater variety of crops. Few Bargains, Look them over.

480 acres First Class Farm land, 100 acres in cultivation, good improvements. To exchange for small well watered ranch.

We also have an Electric Light Plant for sale or exchange for Prains land. Plant situated in a town of 3500 people, about 900 drops, 30 street lamps, 3 arc lamps, 3 dynamos and one nearly new Corless engine. Receipts from lights about \$500 per month. Expenses about \$300 per month. Earnings could be increased to \$800 per month with but very little extra expense.

We have one of the best improved 320 acre farms in Lynn county to exchange for good mule or horse teams. Will take 4 to 8 good mule or horse teams on the first payment and good terms on balance.

No. 2. Is 320 acres of improved patented land with 80 acres in cultivation, house, small orchard, well and windmill, 5 miles from a railroad town. Price \$18 per acre, or will trade for a small stock or goods or small well improved farm in the East. This is first class land.

No. 3. Is 640 acres of smooth level land, fenced on three sides, to trade for good rental (Brick) property.

No. 4. Is 2080 acres of good farm land to exchange for good rental, brick buildings. Buildings must be worth the money, and well located in good town.

No. 5. Is 320 acres patented land within three miles of a railroad town. Price \$8.50 per acre with 1/2 cash, balance in 10 annual payments at 8 per cent.

No. 6. Is 4160 acres of first class farming land, three sets of improvements; a splendid proposition for colonization. Price \$13.50 per acre, good terms.

No. 7. Is 640 acres of patented land Price \$10 per acre, \$2000 cash, balance 1, 2 and 3 years at 8 per cent; or will take \$5,500 cash.

No. 8. Is 320 acres of school land; \$2 to the State. Price \$8.50 per acre cash. This is first class farm land, and lies within 6 miles of a railroad town.

No. 9. Is 320 acres, patented land, 8 miles from a railroad town, all first class farming land. Price \$11.50 per acre 1/2 cash, balance easy.

No. 10. Is 640 acres of first class farm land, 8 miles from a railroad town. Price \$14 per acre, 1/2 cash, balance in 1, 2, 3 and 4 years at 8 per cent interest.

No. 11. Is 320 acres of patented land, within 1 mile of railroad and 4 miles of a railroad town. All first class land. Price \$13.50 per acre, with \$5.50 per acre cash, balance in 1, 2 and 3 years at 8 per cent interest.

No. 12. Is 640 acres of patented land, within 4 miles of a railroad town. All first class farm land. Price \$15 per acre, 1/2 cash, balance easy.

No. 13. Is 160 acres, patented, three room house well and windmill, 35 acres in cultivation, all first class land and every foot tillable. Price \$25.00 1/2 cash balance, 1 and 2 years at 8 per cent.

No. 14. Is 320 acres; one of the best improved farms in the county. 140 acres in cultivation, two dwellings, well and windmill, good young orchard, all first class farm land. Price \$20 per acre, with 1/3 cash, balance easy terms.

No. 15. Is 320 acres, improved, good house, well and windmill, 80 acres in cultivation, good orchard. Price \$20 per acre, \$2500 cash, balance easy at 8 per cent.

No. 16. Is 640 acres of patented land; every foot tillable. \$10500 cash.

No. 17. Is 640 acres of well improved farm, 80 acres in cultivation, good house, well and windmill, all first class farming land. Price \$17.50 per acre, 1/3 cash and balance easy at 8 per cent.

No. 18. Is 320 acres of patented land, all first class. Price \$13.50 per acre, \$2000 cash, balance easy.

owners risk but all care will be taken.

## P. P. BREWER

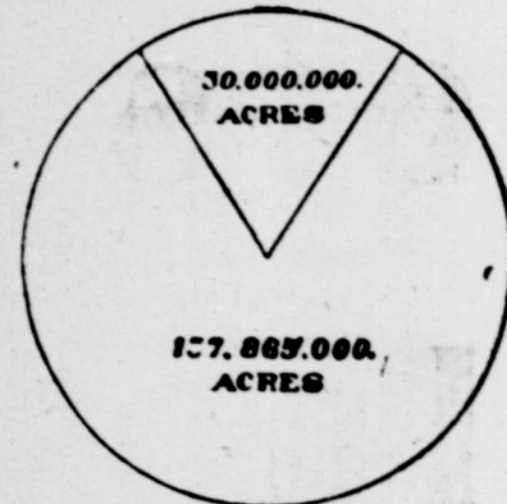

Don't wait till the fire insure Now  
with McMill Clayton.

## Idle Lands.

The prosperity of a community de-  
pends upon the activity of its prop-  
erty and the people. Improved pub-  
lic highways afford facilities for mar-  
keting production, stimulate commer-  
cial activity and otherwise encourages  
agricultural development. To increase  
agricultural production we must bring  
under cultivation idle land and in-  
crease the yield per acre.

We have in Texas 167,865,000 acres  
of land. Of this area there are  
118,000 acres of water surface. All  
our land is susceptible to a high de-  
gree of cultivation except the city  
area and a small portion of our land  
which is mountainous. We now have  
less than 30,000,000 acres of land under  
cultivation, leaving 137,865,000 acres  
of land that has never been plowed.  
Idle land is of course no value to a  
community, and to increase our pros-  
perity we must put activi- into our  
vacant lands. The following cut illus-  
trates the relative proportions of our  
cultivated and uncultivated areas:

## Texas Land Comparison.

There are 109 counties that have  
less than 10 per cent of their land  
under cultivation. There are 43 coun-  
ties that have a larger uncultivated  
area than the total area of the State  
of Rhode Island. The uncultivated  
area of Texas, says the Commercial  
Secretaries' Association, exceeds the  
total area of the thirteen original  
colonies, excepting Georgia and  
North Carolina. We need 3,000,000  
farmers to develop our agricultural  
resources, and no country on the  
globe affords the opportunities to the  
homeseeker that Texas now offers.  
The land agent is an important factor  
in the development of agriculture.  
There are 190 people moving to Texas  
daily, and remain here permanently  
and of this number probably half of  
them go on the farm.

## People Coming to Texas.

At the present rate of agricultural  
immigration it will take 400 years to  
secure a sufficient number of farmers  
to bring under cultivation our idle  
lands. We must get farmers from  
other States and countries more rap-  
idly, and the improvement of our pub-  
lic highways will influence the home-  
seeker by making farm life attractive.

## Fifty Life Scholarships At Half Price Or Less

Fifty Young Men and Wo-  
men Made Prosperous  
Happy and Independ-  
ent for Life

Walden's Practical Business Col-  
leges, Austin, Texas, and Lake  
Charles, Louisiana, will save you  
from \$50 to \$100 on a Complete Busi-  
ness or Shorthand Course. Their  
special \$100 offer will make you a  
Bookkeeper and Stenographer—total  
cost. It pays board, tuition and  
stationery. Scholarships for both  
courses unlimited. No better courses  
anywhere, at any price. Why pay  
more?

## They Went Like Hot Cakes!

Twenty Special Scholarships placed  
on sale the 15th of last August were  
"snapped" up in less than ten days  
—two weeks before the opening of  
the Fall Term. They went like hot  
cakes, and the fifty offered above will  
go in the same way. Why? Because  
this \$100 proposition represents the  
greatest value ever offered by a busi-  
ness college.

## Look To Your Interest.

Young man, young woman, parent  
—why not investigate the above  
special offer?

Tahoka Sunday. These men are  
going to put in a hardware store  
at O'Donnell, the new town on the  
Santa Fe about twelve or fourteen  
miles south of here.

## Toledo Bado

The Weekly Blade is distinctly a da-  
ily newspaper. The one object of its  
publishers has always been to make it  
fit for the American home, for the fire-  
side, and of interest to every member of  
the family. To fulfil this purpose it is  
kept clean and wholesome. The news  
of the world is handled in a compre-  
hensive manner, and the various depart-  
ments of The Blade are edited with  
painstaking care. The Household page  
is a delight to the women and children;  
current affairs are treated editorially  
without prejudice; the serial stories are  
selected with the idea of pleasing the  
greatest number of fiction lovers; the  
Question Bureau is a scrapbook of infor-  
mation; the Farmstead columns are con-  
ducted with the purpose of giving the  
patrons a medium for the exchange of  
ideas and information on farm topics.  
No department is neglected, but every  
feature is taken care of with the idea  
of making The Blade worth many times  
the price of subscription—one dollar a  
year—\$1.50 with The News.  
Sample copies mailed free. Address,  
THE BLADE, Toledo, Ohio. Kindly  
mention The News when writing. All  
subscriptions due at this office.

The seventy-fourth year of its exist-  
ence finds the Toledo Blade more popu-  
lar than at any period of its remarkable  
career. It is now read each week by  
more than a million people. Its field is  
not circumscribed by State boundaries,  
but involves the length and breadth of  
the United States, giving it an unques-  
tionable right of claiming to be the  
greatest national weekly newspaper in  
the country.

The Ladies Home Mission Society  
of the Methodist Church will do  
any kind of plain sewing, prices  
right, give them a trial. Work  
neatly done.

## Auto Experience.

W. J. Ayers is becoming a  
rival of Barney Oldfield in meet-  
ing up with the number and variety  
of auto accidents. The last was  
a most exciting one and occurred  
about 7:30 Monday evening about  
four miles this side of Soasha. W. J.  
was in a hurry to reach home and  
was battling about 35 miles per hour  
when the right front wheel run  
off. for the next few seconds things  
were picking up and how Mr.  
Ayers escaped serious injuries  
seems a mystery. When the wheel  
scotched off across the prairies the  
car careened over on its side and  
slid along 50 or 75 feet and when  
it finally came to a standstill had  
regained an upright position. It all  
occurred so quickly that Mr. Ayers  
didn't even have time to fall out,  
and aside from the shaking up  
escaped without injury. His feel-  
ings were hurt somewhat because  
he had to hot foot it; back to  
Soash and wait until the next day  
to finish his journey. It looked as  
if W. J.'s machine would have  
to be towed to this city but after  
putting on the wheel and cranking  
the machine everything turned out  
O K and he was able to finish  
his journey in good shape.—Big  
Spring Herald.

Mr. and Mrs. Bob  
of 14 miles northwest, were  
hoka Monday.

Henry Lindly and P.  
the wagon yard and the  
stable men, got in a car  
Saturday and a car of  
hay Tuesday. Grain is  
coming in by the car  
knocks off about 20 cents  
hundred pounds, which  
an item to the unfortunate  
who have to buy feed for  
cows and buggy horses.

scription price of the two pa-  
\$2.00.

## YOU WILL GET

All the Local and County News,  
All the State, National and Foreign News,  
By subscribing to the combination of  
The Lynn County News and  
The Weekly Kansas City Star

BOTH  
ONLY  
\$1.15

The Weekly Kansas City Star is a farmer's and Stockman's weekly newspaper, the subscription price of  
is 25 cents a year. It contains the entire news of the whole world, yet in so concise form as to be readily read  
few hours each week by the busiest farmer. It has market reports of accuracy and great value to farmers,  
stockmen. Has a practical Kansas farmer in charge of the "Farm Department." Publishes short and serial  
of interest. Has a feature for ladies called "Chaperon," giving suggestions and advice on matters of etiquette,  
social usages. "Answers" takes care of inquiries. No objectionable advertising, no fake schemes. Good and  
some for every farmer's home. Send all orders for this bargain combination to the Lynn County News, Tahoka, Tex.

## The South's Greatest Newspaper

## The Semi-Weekly Record

FORT WORTH TEXAS

In addition to subscribing for your home paper, which you cannot well afford to be without, you must have  
high-class general newspaper.

As a trustworthy family paper, The Semi-Weekly Fort Worth Record has no superior. It isn't for any  
ited set of people: it's for every member of every family. If you don't find something of interest in a paper  
issue—well, the editor looks on that issue as a failure. In addition to printing all the news of the day in  
form, The Record has special features for each member of the family. The remarkable growth of The Record  
the best evidence of its merits. Lynn County News and Fort Worth Semi-Weekly Record both at this office.

**PREACHERS SCARCE**

It is undoubtedly a wise provision of God that our earthly vision is iimited to the affairs of life immediately surrounding us; or, when our own affairs went wrong, and we looked out on the World at large and saw how nicely things were going; perhaps we would not put forth the effort required to build up our end of things: Or, when we are doing well, if we could look out and see failure every where else, would we not become discouraged at the comparative littleness of our successes. God in his Infinate Wisdom has limited our vision and our comprehension to those things close to us, and whether we succeed, or whether we fail, we should do our very best and leave the results to Him who judges not the

**For Representative.**

Some time in May we received the announcement of J. J. Dillard, of Lubbock, as a candidate for representative for the 101st District. We put his name in our announcement column, but the copy for his announcement got misplaced and consequently we failed to print it.

Mr. Dillaed is a member of the legal profession at Lubbock, and for years was editor of the Lubbock Avalanche, and has prpbably been responsible for more of Lubbock's growth and development than any other man living there. He was born in Mississippi, coming to Texas in 1877; was raised on a farm. Received a liberal education, and was a successful teacher in the public

**ICE : CONSUMERS : ATTENTION!**

Our new Ice Plant is now in operation and we are prepared to supply the trade with ice in any quantities. We pay special attention to out of town orders and ship promptly. Our plant is new and modern, all ice made from double distilled water and is pure and wholesome. We will appreciate your trade and guarantire to give you entire satisfaction.

**LUBBOCK - LIGHT - & - ICE - COMPANY**

Jack Alley returned the middle of the week from a trip to Dallas.

Cane and Millet seed and Black Eyed Peas for sale at Our Cash Store. 43-1t

J. Harry Binckley, of Lubbock, arrived Monday to push the pencil for the Tahoka Informer, Geo. M. Hill, having resigned the stool of "great knowledge" to return to Lubbock.

**NOTICE**---If you have land in Lynn, Terry, Yoakum, Gains, or Cochran counties to trade for well improved city homes, brick buidings or stocks of merchandise, write us at Lubbock, Texas, and we will get you a trade.---Robinson Bros.

Please remember that you can buy a Singer Sewing machine on terms to suit the times. Write E. W. Hancock, Lamesa Texas, and he will call at your home.

The best paying market is the local one, and Tahoka will consume all the vegetables and fruit that the farmers can bring in.

Two new silver forks were misplaced at the dinner; the marking thread came off and they were put in the wrong box. Finder will please return to this office.

The Preston Majors house in North Tahoka is showing up in great shape.

It is better to be prepared and not have a fire than have a fire and not be prepared. Insure with McMill Clayton. His companies pay the loss.

**THE TAHOKA ART STORE**

The Parkhurst Paint and Paper Store will be known in the future as THE TAHOKA ART STORE. We are now prepared to attend to our retail business, and can supply your wants in any thing pertaining to the painters and paper hangers trade, including all kinds of house and roof paint, and varnishes for every class of work. We also have a good many patterns of wall paper in stock and have the exclusive agencies of the six largest wall paper houses in the United States, therefore we never fail to please the most fastidious. Our Prices Are Right. Let us meet you at THE TAHOKA ART STORE.

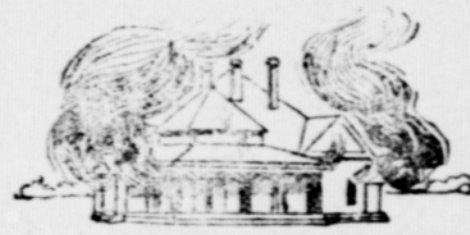

work but the workman.

When the South Plains Baptists Association met at Gomez last August we seemed to be on the topmost wave of prosperity: 10 or 12 churches, all with pastors. Now, we have 17 churches none of which have pastors, and only three or four preachers within the bounds of the Association. Because this Association is temporarily without pastors, does it mean that the Baptist Church is a failure? God forbid. It simply means that from various reasons our pastors have resigned or moved away, and our Churches should awake and call new pastors as soon as it is possible to do so. The thing for us to do, is accomplish with God's help the duty lying nearest to our hand, and God will see to the results.

schools for a number of years. Located in Lubbock in 1896 as a real estate agent. Has been a lifelong democrat.

The Ladies Home Mission Society of the Methodist Church will do any kind of plain sewing, prices right, give them a trial. Work neatly done.

And Fancy Groceries  
J. E. KETNER

Dr. G. S. Fraps, State Chemist of Texas, at the Texas Experiment Station, A. & M. College of Texas, advises the following methods for preserving fruits and vegetables for exhibition purposes:

No. 1. Use one-half to one ounce formalin to each gallon of water. Cover the fruits or vegetables completely and protect them from light as much as possible. It is best to soak soft fruits in a weaker solution at first. After two or three days, remove the colored solution and replace with fresh and somewhat stronger preservative.

No. 2. Dissolve five parts zinc chloride and two and one-half parts formalin in 100 parts water. Dissolve the zinc chloride first, then add the formalin.

Allow to settle, or filter. Use only the clear solution. This mixture is best suited to light colored fruits or vegetables.

Mixture of soda in 100 parts water, and cover the material with the solution. This solution has a bleaching action upon light colored produce, and is best suited for dark fruits, such as oranges.

It is needless to add that the fruits and vegetables preserved by any of the above methods are unfit for food.

Seth McReynolds while climbing around on the scaffolds at the Santa Fe depot on King St. Sunday had the misfortune to get on one that had become loosened and fell with him, fracturing a rib or two and bruising his leg considerably. We are glad to be able to report that Seth is able to be up and around again.

About 14 of Tahoka's Knights of Pythias left for Post City Wednesday to watch the K. of P. team from Snyder, organize a Lodge at Post. The Tahoka Lodge is a young one, and the boys expected to learn considerable by watching the Snyder team put on the work. The Snyder team failed to arrive so our boys had to do the stunts for them.

### DIRECTORY.
