Church Notes

BAPTIST CHURCH NOTICE!

Please let everybody who is concerned, remember, that the services at the Baptist church will be held at seven o'clock on Sunday nights from now on. This new order begins with Sunday, March 2nd. Services at 11 o'clock in the morning and seven at night.

We have two fine B.Y.P.U.'s, now, which meet just before preaching at night, and this will greatly help along the work. These B.Y.P.U.'s are to be under the fine leadership of Mrs. Frank Weaver. All the young folks are cordially invited to join in with these Unions.

We have an exceedingly fine set of young people in our town, and why not the older people wake up and try to make life interesting and worth while for them?

Mrs. R. B. Haynes is going to organize the little folks into a Sunbeam band at the church next Sunday afternoon, and we would be glad for all the children from 12 years down to be on hand and get into this wonderful organization. Mrs. Haynes loves little people and will make an excellent leader, and you will do a great thing parents, for your little fellow, by putting him in this work.

We are always glad to have visitors at our church at all of the services. We want them to feel at home with us, so let the members be a little more thoughtful about inviting their friends to church when they come to town. Instead of staying at home on Sunday's when your friends come, bring them to church, we will be glad to have them.

Cordily,
L. L. F. PARKER.

West Texas Chamber of Commerce is Now Assured

Organization Means Much Toward Development of this Section of the Great South Plains.

At a meeting of the Executive Committee of the West Texas Chamber of Commerce, held at Mineral Wells, February 18th., Mr. Chester A. Crowell, staff writer for the Dallas News, was selected as Publicity Manager, Mr. S. E. Miller, Secretary of the Chamber of Commerce at Mineral Wells, and Mr. Geo. W. Briggs, Secretary of the Chamber of Commerce at Lubbock, were selected as Field Managers.

The general plan of the work as outlined by the Executive Committee is as follows: Mr. Crowell, who is an expert in publicity will devote the greater part of his time to that line of work, and will do other development work as the need may arise. The Field managers will begin work March 1st, putting their entire time in the field, organizing West Texas, and putting the West Texas Chamber of Commerce on its feet, and will also be prepared to step in to any county, and assist that county in any development work they may desire.

It is the intention of the Field Managers to visit every county in West Texas at some time in the near future. While all West Texas will be benefitted by this organization, the individual counties will naturally receive much more benefit through active participation in the work. The plans include a wide publicity throughout the United States on the resources of West Texas.

A number of committees, such as Agricultural, Stock Raising, Irrigation, Good Roads, etc., will be appointed to take care of the development along these lines, with the assistance of the field men, and will work for the advancement of West Texas along every line. The future of the West Texas Chamber of Commerce is assured.

Judge and Mrs. G. E. Lockhart, Mrs. R. B. Haynes, and Misses Leona Key and Lota Knight were Lubbock visitors Monday.

Miss Kate Elliott, of Sweetwater, arrived Monday and will have charge of the Millinery Department at the McCormack Store.

Mr. and Mrs. J. E. Ketner returned from Dallas, Texas, Friday where they spent last week buying supplies. They report a nice trip.

Marvin Wood has returned to Toyah, Texas, after several weeks visit with his parents, Mr. and Mrs. R. C. Wood.

Oil Promoters After Gaines County Leases

E. T. Pendley, of Jones, Okla., has been here this week securing oil leases in this county for himself and associates.

Mr. Pendley hopes to secure 30,000 acres in a block, or as near this amount as can be had around the town of Seminole, and proposes to drill a test well to the depth of 4,000 feet, unless oil or gas is found in paying quantities at a lesser depth.—Seminole Sentinel.

Y. M. C. A. STILL BUSY ENTERTAINING SOLDIERS

Camp Travis, San Antonio, Texas, Feb. 18.—It took 922 entertainers to carry on the program which was put on last month by the Army Y. M. C. A. at Camp Travis—almost a regiment. This was shown in the figures just made public by the "Y" heads. There were 92 entertainments, aside from moving pictures and socials and the attendance at these affairs totaled 23,483. Eight socials were put on for the men by various church organizations in "Y" buildings and 5,535 men attended such events. Movies played a big part in amusement, for the "Y" used 168 moving picture programs, involving 765,000 feet of film. These programmes were shown before 59,574 soldiers.

Even with the soldiers being discharged at a rapid rate, it necessitated 65 "Y" secretaries to keep the buildings open and the work moving. Homegoing made little difference in the letter writing of the men for they used 230,774 "Y" envelopes and \$10,271.99 worth of postage stamps. The "Y" handled 169,569 pieces of mail for the soldiers during the month, too. That many of the men are still sending money home was shown by the sale of \$21,189 in money orders.

Educational work was a big feature of the month's activities, for 1,379 class meetings were held having a total attendance of 11,452 and using 348 soldier teachers and 119 civilian instructors—a force as large as Pershing took into Mexico. Lectures formed a part of the educational work 89 of them being given along civic, historical, health or other lines. These attracted 28,246 persons. It took a lot of reading matter to help in this work, 1,852 current maga-

zines, 9,654 newspapers and 7,168 books being used in the various buildings. In addition to this 57 textbooks and 9,028 educational pamphlets were given out to the men.

The dwindling camp population did not hinder athletic activity. Compulsory athletics, ordered by military authorities and which were handled in part by "Y" athletic men, involved 31,759 soldiers. Formal athletics involving "Y" directors were taken part in by 4,933 men. There were 22,958 men taking part in informal athletics using "Y" equipment or "Y" directors as officials. These athletic events attracted 33,425 spectators.

On the religious side, 252 religious meetings were held, their total attendance being 21,988. There were 169 Bible class sessions, with 97 soldier-teachers and a total attendance of 2,067 men. Normal training classes in Bible study were also held, there being 27 such class meetings with an attendance of 231 soldiers. One hundred and thirty-six soldiers decided during the month to Christian life work, while 468 others pledged themselves to a better life. It took 3,545 copies of the Scriptures or portions thereof and 8,619 pieces of other religious literature. Religious work secretaries paid 8,532 visits during the month to sick soldiers.

GREAT ARE THE TEXAS SOUTH PLAINS

Slaton Slatonite. Last week there were in Slaton two or three financiers from the east with some geologists and engineers going over the land in the counties to the south and west of us. They were supposed at the time to be examining the land with a view to the possibilities of oil; in fact the gentleman in charge of the crew stated to the Slatonite editor that that was their purpose. But the mineral samples they took home with them last week indicated something else, and now it develops that they were examining the deposits of mineral around the hills and particularly the old lakes, some of which cover sections of land and furnish specimens for most any class of geological survey. They were hunting potash and salt mines, and their view of the situation was so good that this may develop into a wonderful source of revenue for the South Plains. Some of the potash rocks contain the petrified remains of fish, mussels, and all classes of crustacean and salamander life. They were attractive curios and thousands of them were carried to homes over the United States. And now it may develop that the little rocks kicked around under foot are a greater source of revenue than the indications of oil. Great are the South Plains.

MARSHAL SUBMITS PLAN FOR RANGER REORGANIZATION

Austin, Feb. 12.—J. H. Rogers, United States marshal for the Western District, who said that he had served as a Ranger for twenty-eight years, today outlined before the Ranger investigation a plan for reorganization of the Ranger force. He thought that there should be only one company of Rangers in the State, and that this company should be under command of a high class captain. Commissioned lieutenants should be appointed with the approval of the Captain, the Adjutant General and the Governor, and non-commissioned officers and privates be chosen by the Captain, who should be responsible for their actions. He thought that the bond provision in the Canales bill would destroy the efficiency of the force and said that under the present system the Adjutant General could not keep in close touch with his men.

J. D. Jackson of Alpine, an ex-president of the Texas Cattle Raisers Association, told of a mass meeting at Alpine at which the citizens appealed to the Governor for protection from border raids. He also opposed the bond feature of the Canales bill and said that the big land owners would go on Rangers' bonds and thus secure control over them.

C. E. Berniman, in charge of the Bureau of Investigation of the United States Department of Justice with jurisdiction over Texas, New Mexico and Arizona, said that Ranger Captain W. M. Hanson had given very efficient co-operation with his department and had shown extraordinary judgment in the avoidance of bloodshed. He said that the Ranger force had been one of the strongest aids to Federal officials in Texas and many deserters and slackers have been apprehended through them. Berniman also considered that bending would hamper Rangers.

TEXAS STATE FAIR SET FOR OCTOBER 6 TO 19

Directors of the State Fair Association in annual meeting at the City Club have fixed dates for the 1919 exposition at Oct 6 to 19, and appropriated \$136,000 for premiums and attractions. This is the largest amount ever set aside for the State Fair. The Southwestern show will open on Monday, instead of Saturday and will run for fourteen days, closing on Sunday, Oct. 19.

Of the amount set aside for premiums \$15,000 will go to Hereford cattle and \$10,000 to shorthorn cattle.

500,000 POLICE FORCE UNITED STATES PRO RATA

Paris, Feb. 13.—The United States under the society of nations' plan as it now has been amended, will maintain an army of not less than 500,000 men, which, after authorization of such action by the United States senate, could be used wherever necessary, according to a Havas agency announcement Thursday regarding newly adopted features of the plan. This provision was agreed upon by the society of nations commission, the agency says, as a solution of the difficulties in the way of the plan arising from the American constitution.

If such action regarding the use of the American army in connection with the society of nations as is outlined in the foregoing has been taken by the society of nations commission. It would seem that the action has not in any way been final.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. ... had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

Ossie McClintock made a business trip to Tahoka last week.

We are informed that several drilling propositions are well under way and it seems most certain that a number of rigs will be spudding in in this vicinity before many weeks. Lease speculations, such as should be discouraged, until the first well is brought in, have been quite active for some time. Several test wells are now going down in Stonewall County to the east of us, one in Lynn County to the West. One is soon to be started in the John Slaughter ranch, the contract being already signed. The Geologist has been on the ground for the purpose of locating the exact site. Ten wells have been decided upon covering counties to the North backed by strong interests. These latter are the result of the gas well brought in North of Amarillo some time ago.

HALF RATES ON FEED CANCELLED MARCH FIRST

College Station, Texas, Feb. 12.—

The half way rate on stock feed for the drought stricken regions of West Texas has been cancelled, effective March 1, according to the announcement of M. T. Payne of the Extension Service of A. and M. College. The Railroad Administration will allow each raiser to ship in a three month supply prior to that date, however, and the county agents under the direction of Mr. Payne are urging the stock raisers of West Texas to take advantage of this opportunity before it is too late. By doing this they will be able to get feed at the present rates sufficient to carry their cattle to June 1, and it is thought they will have no need of government aid after that date.

Mr. Payne is in receipt of a letter from Secretary E. B. Spillers of the Cattle Raisers' Association of Texas expressing the gratitude of the raisers for the service of his department in getting the half-rate on feed restored last January when it had been ordered cancelled, and giving him and the county agents credit for having secured the rate in the interest of the distressed cattlemen in the first place.

The county agents over the whole of the western part of the state have given a good deal of their time to helping the raisers take advantage of the rates and they are now doing their utmost to get the farmers and raisers to order their feed before the increased rates go into effect. This work has made the task of the county construction department of the Extension Service of the College very heavy during the last few months, but all the members of the department express themselves as being greatly pleased over what they have been able to do to aid the drought sufferers of West Texas.

A. R. McGonagill, a progressive stockman farmer of the Edith community, renewed his subscription to the News Saturday. Mr. McGonagill is one among our many appreciated subscribers and is prompt to keep his dates well ahead, so that he may not miss a copy of the county paper.

Prof. Hester, teacher of the Edith school, a brother of Miss Grace Hester, teacher in the Tahoka High School, was in town Saturday visiting his sister, and attending to business matters.

GEORGE WASHINGTON

Written in verse by two Sixth Grade pupils, Tahoka High School:

George Washington was brave,
Each year his birthday's here,
On that day the flag we wave
Reminding us of one so dear;
Glad that we can honor him,
Each year, whose glory never dims.

Working hard for what was right,
Always the love of his country in sight
Safe was liberty in his hands.
Hope has arisen in other lands.
It went with America's brave;
Never to let a tyrant flag wave.
Growing is our nation,
Thanking him for its creation,
Ought we not to honor him?
Nation's praise of him never dims.

—ALICE STOFER.

George Washington was honest, truth-
ful and brave,
Every day of his life from the cradle
to the grave,
On the farm or in Congress the truth
he would tell,
Rough Company he shunned in play
and in school,
Giving his time to mastering each
rule,
Each and every lesson he tried to
learn well

Walking into the garden, a cherry tree
he spied,
And with his little hatchett he chopp-
ed it down with pride,
Saying, "When father sees this, won't
he be mad;"

His father came up and
inquiring said in a tone very sad,

Not knowing 't was he,
'George, who cut my tree?'

Today it was done.

On honor he stood, the truth he would
tell,
Not covering the deed with a falsehood
as well.

The Vice of Gambling

By REV. R. F. DUNN, Tahoka, Texas

No. 2.

In our former article under the above caption, we dealt mainly with the question, "What IS Gambling?" Our answer was, Gambling is a transaction, the motive and purpose of which, is to get something from another without giving him an equivalent in return. Nothing is gambling, in the common meaning of the word, that does not involve that principle. All fraudulent or dishonest transactions involve that principle, but gambling may differ from them, in that all parties agree to the possibility of being robbed, on certain conditions.

To use a common expression, "Gamblers bet on their opinions of judgment." In case of fraud or theft, one is robbed without his consent, being deceived or ignorant of the nature of the transaction.

After pointing out the meaning and nature of gambling, I shall now attempt to show what is the real character of the vice.

What is the result of gambling from the economic side. From this point of view, the gambler is parasite. He creates no values. He produces nothing that is beneficial to society. He lives by getting from others their possessions, without giving an equivalent in return. His success depends upon robbing others; and his employment, in any legitimate business, is undesirable. The Banker is afraid of him, the Merchant does not want him in his employ. A grave suspicion rests upon his integrity. He may be fair in the manner of conducting his business, where honesty and integrity are necessary qualifications, because if one practices the art of getting things without giving value in return, he may be regarded as not altogether safe, in a position of financial responsibility.

Let us now consider the moral effect of gambling. If the business of gambling involves the getting something from another without giving an equivalent in return, it is a violation of the principle which binds us to do unto others as we would have

them do unto us. Even CONFUCIUS, as well as Christ taught this moral principle; for it is so fundamental to the welfare of mankind that the heathen had discovered it before Christ was born.

It does not alter the result, to say that all parties, in a gambling transaction, consent to the possibility of being robbed; the fact still remains that the loser is robbed. His loss is the same as if the thief had stolen his money, or the highwayman had gotten it at the point of a gun.

The gambling vice is so notoriously bad that the places where gambling is carried on are sometimes called "Gambling Hells;" and they have often been annexes of the liquor saloons and houses of prostitution. Those places are usually the resort of the most grossly immoral persons in a community where the gambling resorts exist. This is not saying that all gamblers are grossly immoral, but that the business is one of the favorite habits of every vicious and immoral people, and judged by its fruits, is morally bad, and a curse to society.

But what can be said or the spiritual or religious effect of this vice? Everything that is IMMORAL is IRRELIGIOUS, and fatal to spiritual life and integrity. No one who knows the first principles of the christian religion can deny that gambling is inconsistent with the life of a professing christian. The essential principal of the christian is "To love your neighbor as yourself;" therefore love will not rob his neighbor. The essence of gambling is covetousness, and "Covetousness is idolatry." (Col. 3:5). The Lord Jesus said, "Take heed and beware of covetousness." Gambling is one of the most vicious forms of covetousness, and its effect is deadly. Reformed gamblers say that gambling is the most infatuating vice, and the temptations to continue in it the hardest to overcome, and this fact is confirmed by observation.

If this vice has one redeeming quality I know not what it is.

Citation by Publication

THE STATE OF TEXAS:
To the Sheriff or any Constable of
Lynn County.—Greeting:

You are hereby commanded to summon Mrs. Georgia Scott Townsend and John R. Townsend, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 72nd Judicial District, to appear at the next regular term of the District Court of Lynn County, to be holden at the Court House thereof, in Tahoka, Texas, on the 1st Monday in March, A. D. 1919, the same being the 3rd day of March, A. D. 1919, then and there to answer a petition filed in said Court on the 3rd day of February, A. D. 1919, in a suit, numbered on the docket of said Court No. 357, wherein A. B. Roberts on & Elizabeth Scott as Independent Executors of the Estate of Winfield Scott, Deceased, are Plaintiffs, and Mrs. Georgia Scott Townsend and John Townsend are Defendants, and said petition alleging that defendants caused to be filed and recorded in Lynn, Garza, Crosby and Lubbock Counties, Texas, certified copy of a certain final judgment rendered in favor of the said Mrs. Georgia Scott Townsend on January 9, 1915, in Cause No. 33058, in the District Court of the 48th Judicial District of Texas, wherein Mrs. Georgia Scott Townsend, et al, were plaintiffs, and Mrs. Elizabeth Scott, et al were defendants, in an action brought in said Court to break the will of Winfield Scott, deceased. That said judgment provided, among other things, that the plaintiff's herein, in their capacities, as Independent Executors of the Estate of Winfield Scott, deceased, should pay the said Mrs. Georgia Scott Townsend, on January 9, 1917, the sum of \$25,000.00, and said estate was bound for the payment of said sum at said time. That said estate consisted in part of large tracts of land in the Counties of Lynn, Garza, Crosby and Lubbock, and said estate was the primary fund securing payment of said debt, evidenced by promissory note, and the filing and record of the certified copy of said judgment in said counties created lien on said lands, and a cloud on the title thereto. That thereafter plaintiff's paid off and discharged said note and debt, to the said Mrs. Georgia Scott Townsend, who was the owner and holder of said note and lien at the time of payment. That defendants failed to execute and deliver to plaintiff's release of said debt and claim against said estate, and title to the lands belonging to said estate of Winfield Scott, is now clouded of record by virtue of the filing of said

certified copy of judgment thereof in the Deed Books of various counties wherein lands belonging to said estate of Winfield Scott, are found. Defendants' prayer for judgment is that the title to all lands created by virtue of the said judgment be fully paid, and a cloud on the title to all lands for general and special redemption and equity.

HEREIN FAIL NOT, before said Court at its next regular term, this writ will return thereon, showing how executed the same.

WITNESS, B. H. ROBINSON, Clerk of the District Court of Lynn County, Texas, at office, on the 22nd day of February, A. D. 1919.

All Smoking Tobaccos are Flavored

"Your Nose Knows"

The Encyclopaedia Britannica says about the manufacture of smoking tobacco, "... on the Continent and in America certain 'sauces' are employed ... the use of the 'sauces' is to improve the flavour and burning qualities of the leaves."

Your smoke-enjoyment depends as much upon the Quality and kind of flavoring used as upon the Quality and aging of the tobacco.

Tuxedo tobacco uses the purest, most wholesome and delicious of all flavorings—chocolate! That flavoring, added to the finest of carefully aged and blended burley tobacco, produces Tuxedo—the perfect tobacco—

"Your Nose Knows."

Try This Test: Rub a little Tuxedo briskly in the palm of your hand to bring out its full aroma. Then smell it deep—its delicious, pure fragrance will convince you. Try this test with any other tobacco and we will let Tuxedo stand or fall on your judgment—"Your Nose Knows."
