#### Local Citizen Receives Numerous War Relics

C. A. Thomas, of the firm of Thomas Brothers Drug Co., received this week a number of war relics, which were sent him by Corporal, J. C. May direct from France. Among the souvernirs were many pieces of Belgian and German money in denominations of \$1.00, 50c, 25c, 10c, 5c and 1c pieces. The money resembled our American silver in many respects, in size and ring. Two belt buckles were among the collection with the Hun inscription, "Gott Mit stamped on them. A large shell and several other articles were included in the relics. Mr. Thomas is indeed proud of the war souvernirs, and has placed them on exhibi-

Work at the oil well south of town is progressing nicely and the indications are that Tahoka and Lynn County can soon boast of a gusher. The formation coming from the well consisting of a blue shale dirt is proof enough that the oil sand is not far off, not over a few hundred feet at the most. The company has had a force of men at work changing the steam boiler to an oil burner and drilling operations have been suspended until this work is done. At present they are waiting for the flues for the boiler, and we are authorized to announce that drilling will commence again about Monday and mabe before. ### GERMAN LABOR NOTE **U. S. TRANSATLANTIC** FLIGHT IS DELAYED

EXCESS OF FUEL OIL CAUSES TWO MACHINES TO GIVE UP **EFFORT TO "HOP OFF."** 

## THE NC-4 IS AT TREPASSEY

Three Naval Scaplanes Now Massed for Even Start on Overseas Trip When Weather Permits.

Trepassey, N. F .- The "jinx" which visited the NC-4 on the initial leg of the navy's transatlantic flight last Thursday, compelling her to put in at Chatham, Mass., for repairs, turned its attention to the NC-1 and NC-3. holding them harbor-bound while the NC-4 caught up with them for the

big overseas "hop." The NC-4 landed here at 6:37 o'clock, Halifax time (5:37 New York time), swooping to its moorings in the harbor over the NC-1 and NC-3, which had just returned after an ineffectual attempt to get away on the 1,350-mile flight to the Azores.

Lieut. Commander A. C. Reed of the NC-4 hoped to have his machine overhauled and ready to fly with the other planes.

The crew of the NC-4 owes it chance for an even start from here with the sister planes to the fact that the NC-1 and NC-3 refused to rise from the water with the heavy loads of fuel which had been taken aboard.

The NC-1, commanded by Lieut. Commander P. N. L. Bellinger, taxied off down the harbor at 5:04 p. m., Halifax time (4:04 New York time), hoping for a getaway. The NC-3. Commander John H. Towers' flagship, followed eighteen minutes later to the accompaniment of great cheering from the crews of the base flotilla and groups of New Foundlanders on shore.

A short time later, however, both reappeared and, coming to a stop near the mother ship, began, apparently, to discharge excess fuel to reduce their weight. A second attempt to "hop off" was not made, however, and the big seaplanes returned to their mooring places.

#### Make First Lap on Boston Trip.

Dallas .- With a mighty roar from the exhausts, accompanied by gusts of black smoke from the giant Liberty motors, five United States army aviators took off at Love field at 11:02 o'clock Thursday morning on the cross-country flight from Dallas to Boston. They reached their first stop, Oklahoma City, in less than two hours.

#### Removal of Body of Edith Cavell.

Brussels .- The body of Miss Edith Cavell, the nurse who was executed by the Germans, which is being sent to England for burial in Norwich Cathedral, has been removed from Brus-There was a most impressive sels. ceremony and the streets were draped in mourning. Dense crowds stood the curbs while military honors were rendered by British, American and Belgian troops.

#### Physicians Elect Officers.

Waco, Texas .- The following officers of the Texas State Medical association have been elected: President elect, T. T. Jackson of San Antonio: vice presidents, Dr. M. E. Taber of Dallas, Dr G. H. Lee of Galveston and ALLIED COUNCIL OF FOUR SENDS REPLY TO COMMUNICATION FROM GERMAN ENVOYS .

IS NOT CONSIDERED

Paris .- The council of four has declined to consider the note from Count von Brockdorff-Rantzau, chief of the German peace mission, relative to international labor legislation. In a note sent to the German delegation M. Clemenceau, president of the peace conference, says "that the allied and associated governments are of the opinion that their decisions give satisfaction to the anxiety which German delegate professes for the social justice, and insure the realizing of reforms which the working classes have more than ever a right to expect after the cruel trial to which the world has been subjected during the last five years."

Berlin.-The declaration by Chancellor Scheidemann in the national asembly that the peace terms were "unacceptable," brought the members of the assembly, the spectators and those in the press gallery to their feet in a hurricane of cheers and applause.

The chancellor reached the climax of his statement on the peace terms a few minutes after he began. He paused in his address and then thundered out the word which announced the German government's rejection of the Versailles conditions.

"This treaty," he said, "is in the view of the Imperial government, unacceptable, so unacceptable I am unable to believe that this earth could bear such a document without a cry issuing from millions of throats in all lands, without distinction of party. Away with this murderous scheme.

With the exception of the independent socialist, led by Hugo Haase, all factions in the assembly arose and cheered vociferously.

After the chancellor's speech, the leaders of the vaious parties, with the exception of the Haase group, made speeches in which they declared they backed up the government.

The chancellor described the peace treaty as a "dreadful and murderous" document. He said it would make an enormous jail of Germany, in whick 60.000,000 persons would have to labor for the vicious in the war. The chancellor said German trade would be strangled, should the peace terms be accepted.

He criticised President Wilson and said that the president, by his attitude, had deceived the hopes of the German people.

The chancellor said that the occas ion was the turning point in the life of the German people, as the assembly was to decide the attitude toward "what our adversaries call peace conditions."

#### These Heroes Who Helped Make the World Safe for Democracy Return to Their Native Land.

Dallas .- The people of this city, lining the streets 100,000 strong gave their Rainbow troops a truly Texas welcome Monday afternoon.

With the city ablaze with the national colors, bands played and flags waving, the demonstration was one of the most striking in the history of Texas. As the veterans of St. Mihiel and the Argonne swung along in some places they had to literally force ficial total probably would not be through the cheering themselves crowds

At the old Katy depot where the supply train disembarked the crowd probably reached their quotas. simply would not be kept back and stormed the train. Husky literally soldiers bronzed with the sun of France, pulled their mothers and sweethearts up to the windows of the coaches to hug and kiss them. Pret Florida, Mississippi and Tennessee ty girls were present by the hundreds, forming groups about each returning soldier. Finally the three companies formed in line in spite of the crowds and the parade moved off.

Captain T. J. Brooks, of Big Spring. formerly mayor of that city, was in command of the three companies arriving. They were A. and E. of Dallas and D. of Big Spring. The other three south Texas companies went to Camp Travis for demobilization. The, companies parading here Monday left for Camp Bowie Tuesday morning. The men expect to be discharged from the service within the next week or ten days. Under Captain Brooks' command also came a detachment of the 138th infantry from various points in the southwest. These soldiers parad ed with the supply train troops.

The parade was led by General Flagler, commander in chief of the Rainbow division who led the soldiers in France

The final features of the reception to the Rainbow soldiers of the 117th supply train Monday afternoon consisted of a brief welcome to the fighters by Governor Hobby and Mayor Wozencraft and a luncheon where their commander, Major General Clement A. F. Flagler spoke to them and their relatives, telling of the record that they made overseas. Monday afternoon and evening the soldiers were at liberty to visit friends and relatives until they took their train Tuesday morning for Camp Bowie, their demobilization point.

### OVERSUBSCRIBES THE • GIVEN TEXAS HEROES VICTORY LIBERTY LOAN FLOOD OF SUBSCRIPTIONS POURS IN ON LAST DAY AND TOTAL MAY REACH SIX BILLION.

Washington .- The fifth and last popular war loan of the United States has been oversubscribed. Although the approximate total subscriptions will not be known for nearly two weeks, figures available show that the American people had responded generously to the appeal to "finish the

job." Fifteen million 'Americans bought Victory Liberty loan notes in the campaign which closed May 10, according to estimates received by the treasury from federal reserve banks. This compares with about 21,000,000 purchasers in the fourth Liberty loan, 17,000,000 in the third, 9,400,000 in the second and 4,000,000 in the first.

The treasury announces that the ofknown before May 26.

Unofficial advices from the Atlanta and Dallas districts indicated they The Kansas City district reported

a total of \$155,48 150. Oklahoma's subscriptions totaled \$29,499,050.

Atlanta estimates that every state in that district would reach its quota. were all safely over. Tennessee led the states of that district in oversubscriptions.

Labor Shortage in Rural Districts. Dallas. - Not in recent years has there been the demand for farm labor as the present demand, according to conductors of labor bureaus in Dallas. In many parts of the county and north where excessive rains have Texas fallen, the shortage of labor is said to be a most serious problem. Not only is there a great demand for farm workers, but there are many applicants for work. The greatest trouble. according to the officials of labor bureaus, is getting men suitable for the place where workers are needed.

#### Demand Trial of Austrians.

Paris .- In the peace treaty with Austria, now well toward completion, a responsibility clause has been inserted identical with that in the German treaty with the exception that the first clause providing for the trial of former Emperor William is omitted. The remaining clause makes provis ions for the trial of military offenders by an international court martial. The frontier delimination of the new Austria presents the one serious issue in the drawing of the treaty.

#### Hines to Visit Texas.

Dallas .- W. D. Hines, director general of the United States railroad administration, will visit Dallas the latter part of the week. He will arrive from Texarkana in his special train. on which he is making a tour of the country. Mr. Hines will be accompanied by B. F. Bush, regional director of the Southwestern region, and a party of other officials. Information was given by Mr. Bush, regarding the intended visit of Mr. Hines.

#### Brief Message to Congress Expected.

Paris .- President Wilson's message, which will be cabled to congress May 19, is expected to be exceptionally short. It is said it will not submit the complete text of the peace treaty or the proposed Franco-American engage-Germany, both these subjects being erved for personal presentation on

While the pre-war methods which so frequently suggested the use of yeast were far ahead of the pre-historic practices of soaking grain in water until softened, then making into a paste and baking into a hard, granitic cake, the necessity of using baking powder with substitute flours in the various war recipes has antiquated the old, slow, cumbersome methods which for centuries have handicapped cooks, without sacrificing taste, texture or technique.

Where I leaned alone against the rail my eyes followed the Spaniard in doubt and questioning, nor could I entirely banish from mind Haley's description of that buccaneer bearing a similar name. Yet, in spite of my unconscious desire to connect these two together, I found it simply impossible to associate this rather soft-spoken, effeminate dandy with that bloody villain.

West Texas land is not much in demand. The land office received very few bids on the land advertised to go on the market May 1 and there were no conflicts. As a matter of fact, the land offered has been prett; well "picked over" at previous sale; and the West Texas drouth was also a most discouraging factor. There have been few forfeitures of land recently.

Much interest is manifested by residents of Road District No. 1 in Gillespie County in the election ordered to be held May 20 to decide whether bonds will be issued to build good roads in the district. The Puget Sound-to-the-gulf highway is in the district, extending from the Kendall County line on the south through Fredericksburg to the Mason County line on the north.

An opinion given Saturday by the attorney general's department was that in cases of emergency supplies and materials for the use of the county, including stationery, books, blanks, records and other supplies for the county officers to an amount not in excess of \$50 may be purchased upon a requisition to be approved by the commissioners court without advert'sement for bids.

After June, 1919, men who have been in the United States military service are entitled to have their official discharges recorded free of charge by the county clerk of their home counties, holds the attorney general of Texas. The county clerk is entitled to receive 15 cents for each 100 words recorded. This is to be paid by the commissioners' court out of the general fund of the county.

"Oh, a sorter swashbucklin' Spanish don-the kind whut likes ter dress up an' play the dandy. He's got a pink an' white complexion, the Castilian kind, yer know, an' wears a little mustache, waxed up at the ends. I heard he wus about forty-five; I reckon he must be thet, but he didn't look older than thirty."

Haley dropped off to sleep, but my mind continued to wander until it conjured up once again this West Indian pirate. His name and the story of his exploits had been familiar to me ever since I first went to sea. While only one among many operating in those haunted waters his resourcefulness, daring and cruelty had won him

an infamous reputation, a name of horror. In those days, when the curse of piracy made the sea a terror, no ordinary man could ever have sucreeded in attaining such supremacy in crime.

Black Sanchez-and Haley pictured him as a dandified, ordinary appearing individual, with white and red complexion, a small mustache and flashing dark eyes-a mere Spanish gallant, without special distinction. Why, that description, strangely enough, fitted almost exactly this fellow on board, this other Sanchez.

The suspicion which had crept into my mind was so absurd, so unspeakably silly and impossible that I laughed at myself and dismissed the crazy thought. Chuckling over it I finally fell asleep.

We'll put up with him tonight. Dme, Sanchez, I believe I'll hail the fellow and find out what he is doing in there."

Sanchez nodded, carelessly striking flint and steel in an effort to relight a cheroot.

We came about slowly. The distance to be covered was not great, and in less than ten minutes we were drawing in toward the high stern of the anchored vessel.

No evidence of life appeared on board, although everything looked shipshape alow and aloft, and a rather extensive wash flapped in the wind forward, bespeaking a generous crew. A moment later my eyes made out the name painted across the stern-Na-

mur of Rotterdam. Fairfax leaned far out across the

rail as we swept in closer, but the Spaniard exhibited no particular in terest in the proceedings. A hundred feet distant I held the dancing sloop to mere steerage-way, while Fairfax hailed.

A red-faced man with a black beard thrust his head up above the after rail and answered, using English, yet with a faint accent which was not Dutch.

"We ran down to see if you were in any trouble. This is a strange place to anchor. What are you-Dutch?"

The fellow waved his hands in a gesture Indicating disgust. "Dat's eet. Ve're ov Botterdan

pletely secure for the night, there remained little work for us to perform on board. The four of us passed the early evening undisturbed smoking and talking together. So the time passer quickly, and it must have been nearly midnight before we brought out blankets from the forecastle and lay down in any spot we chose on deck.

It was a fair, calm night, but moonless, with but little wind stirring, and a slight haze in the air, obscuring the vision. The others must have fallen asleep immediately. At last, despairing of slumber, and perchance urged by some premonition of danger, 1 arose to my feet and moved silently aft.

My startled eyes caught a glimpse of a speck of white emerging from the black shadows-the spectral glimmer of a small sail. The strange craft swept past, so far out that those on board no doubt believed themselves beyond sight from the shore, heading apparently for a point of land, which I vaguely remembered as jutting out to the northward.

What He Could Do.

A good old Quaker was milking a row whose lively disposition had often taxed his patience severely. The pail was nearly full of foaming milk, when in some manner the cow managed to overturn it. #### TO STRAIGHTEN GARAGE DOOR

Suggestion Given Which Is Better Than Planing Off Bottom to Prevent Sagging.

Here is a suggestion for straightening a garage door that has begun to sag which is better than the ordinary method of planing off the bottom. Drive two heavy nails in opposite corners of the door and run some lengths of heavy wire between them. Slip a couple of blocks of wood under the wire and then take another spike and use it as a turnbuckle in the center of the wire. This will draw the bottom of the door up, so that it will fit its frame properly. Finally drive the turnbuckle spike in the center of the door and the cure for sagging will be permanent.

### TO FIX BROKEN INSULATION

Injury May Be Quickly and Easily Repaired by Using a Small Quantity of Tar.

When on the road it is found that wiring insulation is broken with all its attendant troubles, the injured insulation may be quickly and easily repaired by using a small quantity of the tar which is to be found on top of the battery. Melt the tar, and while it is hot spread it over the break in the insulation and cover the whole job with a piece of cloth. Of course, if electrician's tape is at hand this may be used to repair the break; indeed, this is precisely the sort of service for

## The Flow of Meat

Two-thirds of the live stock in the United States has to be raised in the West.

One-half of the consumers of meat live in the East.

In other words, most of the live stock is one or two thousand miles distant from most of the people who need it in the form of food.

Fifty years ago, when live stock was raised close to every consuming center, the country butcher could handle the job after a fashion.

Dut the job got too big.

Now millions of animals have to be moved hundreds of miles to millions of people. Somewhere on the way they have to be turned into meat.

The packers solved the problem. They set up plants where the "live haul" and the "meat haul" were in the right balance. They built up distributing systems-réfrigerator cars, refrigerating plants, branch houses. They saved time, money and meat everywhere. The stockraiser benefited in better markets and higher prices; the consumer, in better meat and lower prices.

As the country grew, the packers had to grow, or break down. Because of its present size and efficiency, Swift & Company is able to perform its part in this service at a fraction of a cent per pound profit.
