iar ideas about prisons. He says that prisons are cruel, absurd, antiquated, vindictive, stupid and suicidal.

His idea is to turn each prison in the country into a college, name it, model it in part on outside colleges, give a diploma for good work, but preventive of chronic liver troubles. blend practical productive labor and industry with the studies. He says give to the prisoners what society ought to have given them before they committed crimes.

He thinks that these prison colleges would soon become models for our literary colleges, whose crucial blunder is that they do not require a question if it fails you, some every student, rich and poor, to do some productive work toward earning his own living throughout the course as part of his education.

This accomplished, the prisons would be a great agency for the them. Remember the guarantee. uplift of those who most need it. Every inmate would be taught a skilled

craft, so that he would be able to support himself after prison graduation. With such a system prison gates, bars and walls, except for a very few, would be needless, for the inmates could be trusted. Such prisons would and you will get the best broom killed beef constantly on hand at build up better characters than are produced by our social institutions. sold on the Plains,
