Much Interest Is Shown Here In County And District Races

2,600 VOTERS CAST BALLOTS

Simpson and Smith, Re-Elected. Miss Ellis Defeats Mrs. Lowrey; Price Is Elected

Dan Moody swept Lynn County for Governor last Saturday. He received more votes than all five of his opponents combined, his vote being 1323 against 1241 for all of his opponents. His plurality over Mrs. Ferguson was 441, her vote being 882. He carried the county over Mrs. Ferguson at the exact ratio of three to two. As had been predicted by all who keep well in touch with politics, Lynch Davidson was a poor other three candidates received a third, his vote being only 341. The total of 18 votes.

Dan Moody carried nine of the twelve boxes in the county, six of them by a majority vote, to-wit: South Tahoka, North Tahoka, O'Donnell, Draw, Grassland, and Three Lakes. His vote in Tahoka was overwhelming. In the two boxes here he received 455 votes against 223 for Ferguson and 91 for Lynch Davidson. Ferguson carried New Home, Magnolia, and New Moore. Lynch Davidson did not carry a single box in the county.

Interest in local politics was also lively. Perhaps the greatest interest centered in the Sheriff's race. Simpson won over his opponent, Tom Preston, by 182 votes. Miss Viola Ellis defeated Mrs. Zoe Lowrey for County Treasurer by a majority of 38. R. B. McCord of Grassland was elected over J. S. Wells, the present incumbent, by a majority of 31. County Clerk Happy Smith defeated his opponent, T. B. Cowan, by a vote of almost 2 to 1. Judge Cain, county judge, L. C. Heath, county attorney, J. S. Weatherford, tax assessor, W. J. Faies, commissioner of Precinct No. 2, and Uncle Ike Metcalf, Justice of the Peace, were elected without opposition. R. C. Wood, public weigher, was successful over his opponent E. Lam, by a majority of 99 votes. Van Bates, constable, was defeated by Guy Sherrad by a vote of 3 to 2 in favor of Sherrad.

Perhaps the greatest surprise of the election was the result in the race for Representative, Emmett L. Whitaker carrying the county over J. K. Wester, the present incumbent, by a majority of 3 to 2.

T. L. Price of Post, candidate for District Attorney carried the county by a vote of more than 2 to 1 over his opponent, A. W. Gibson of Lameza, the present incumbent.

All day long the two polling places in Tahoka were crowded, especially in the afternoon. The vote was considerably heavier here than in any previous election. Nearly 800 votes being polled in the two Tahoka boxes. There were nearly 2600 votes in the county. In the Governor's race 2564 votes were cast against 1939 for governor in the first primary two years ago. In the Sheriff's race 2542 votes were cast against 2129 in the first primary in 1924.

Large Crowd Out Last Political Rally

Ed H. Yeiser of Austin addressed a large crowd on the court house lawn last Thursday afternoon in the interest of Dan Moody for Governor. The speaking had been well advertised and people were here from many parts of the country to hear him.

Mr. Yeiser is not the type of speaker that arouses great enthusiasm but his speech was most effective nevertheless. He devoted most of his time to a review of Jim Ferguson's record and he marshalled his facts in a forceful manner. The Tahoka band afforded music for the occasion.

CHAMBERS DIED ON SATURDAY

"Uncle Johnnie" Was Old Settler Here; Died In Home of His Daughter

J. R. Chambers, affectionately known as "Uncle Johnnie," died at the J. W. Elliott residence in Tahoka early Saturday morning. The funeral services were conducted by Rev. B. N. Shepherd.

"Uncle Johnnie" was 87 years of age and had been in bad health for a number of years. He was a native Texan, having owned a tract of land in the early history of this state on which the city of Fort Worth now stands. He removed to Lynn county twenty-three years ago and owned much property in this county. He was well known to all the early settlers here and was universally loved and respected. A great concourse of friends and relatives followed the remains Sunday afternoon to their last resting place.

A most useful and highly respected citizen has gone to his reward.

Boy Falls From Horse; Arm Broken

Billie Speight, 14, son of T. H. Speight of this city, was thrown from a horse last Thursday and one of his arms was broken in two places. The wound was dressed by a physician here but it was found necessary to take him to Lubbock for an X-ray examination of the injured member. It was discovered that the bones were badly broken and the ligaments torn. The wound is healing most satisfactorily, however and it is hoped that it will entirely heal at an early date.

The accident occurred while Billie and one of Mike Redwine's boys were driving some stock from Mr. Redwine's place northeast of town to New Home. They had hardly started when the horse which Billie was riding stepped in a prairie dog hole and fell, throwing Billie violently upon the ground.

Mr. and Mrs. G. W. Douthit and Mr. and Mrs. Allan Watts of Frost are here visiting Henry Douthit and family and other relatives. Mr. Douthit expressed himself as being highly impressed with this country.

A ex-Mr. Williams and family will move to Tiban, New Mexico, about the middle of August, where they have bought a quarter section of land.

GAINAT SHOT SELF IN KNEE

Local Citizen Accidentally Shot At Floydada While Cleaning His Pistol

After having loaded his pistol and while cleaning it up, D. W. Gaignat accidentally shot himself through the knee in a tourist camp at Floydada Friday night. The ball entered above the knee, plowing its way through the bone, and emerged below the knee. He was rushed to the West Texas Hospital at Lubbock for treatment, and it is said that the wound is recovering so rapidly that he will probably be back in Tahoka before this paper reaches its readers.

Mr. Gaignat says that he does not know exactly how the accident occurred. He was preparing to retire for the night and was cleaning his pistol just before doing so, when in some way he accidentally discharged it. He says that he felt no pain and did not know that he had been wounded until he had gotten up and put the pistol away, when he discovered blood trickling from the wound.

Mr. and Mrs. Gaignat were on their way home from Kansas City, Kansas, where they had gone to visit the former's mother, leaving Tahoka on July 24th.

His many friends here deeply deplore the accident and hope that the injury will not be permanent.

Tahoka Marine Is Selected For The President's Guard

Washington, July 27.—Among the U. S. Marines who are serving as a special guard for President Coolidge during his summer vacation in the Adirondacks, is Wyeth Ormond Wilson, of Tahoka, Texas, who was especially selected for this duty. He is now encamped with the marines in the grounds adjoining White Pine Camp.

The guard is comprised of fifty U. S. Marines, each of whom was carefully chosen in view of his special military qualities. Its members, who hail from nearly every State of the Union are under the command of 1st. Lieut. F. E. Stack. They will patrol the grounds in the vicinity of the camp, and are scheduled to remain until the President's vacation is ended. Each marine takes a special pride in his selection as a guard of the temporary "white house."

Wyeth lived at the home of his father, Albert Cass Wilson, Rural Route A, Tahoka, before he joined the Marine Corps in April 1924. With other members of the guard he was present to render formal honors to the President upon his arrival at the camp, July 7. The camp is on Lake Osgood, 1600 feet above sea level and three miles from the little village of Paul Smiths.

This is the second time the local marine has had the honor of guarding the President. Last year he performed the same duties while the President was vacationing at Swampscott.

Monday afternoon when it became apparent that Moody had won by an overwhelming plurality if not by a majority, Mrs. Ferguson announced her withdrawal from the race and at the same time called a special session of the legislature for September 13, for the purpose of validating Texas road district bonds and to investigate any department of the State they may see fit to investigate.

Mrs. Ferguson also announced that she would resign as governor just as soon as the legislature meets and disposes of the matters submitted to it for consideration, which she "hopes" will not be later than November 1st.

Harley Wells Marries Miss Cubanna Keltner

Harley Wells and Miss Cubanna Keltner were married at about two o'clock last Sunday morning at the residence of Rev. B. N. Shepherd. The wedding was to have occurred at 8 o'clock Saturday night, but Wells was helping hold the election in the South Tahoka precinct and did not get relieved of his duties at the polling place until after one o'clock Sunday morning. Upon being released, he found his bride patiently waiting for him and they hastily prepared for the wedding ceremony. Repairing to the Baptist parsonage they awoke the good minister and told them their troubles and he fixed the matter up to them in almost the twinkling of an eye.

Sunday afternoon, a number of friends of the young couple captured them and staged a parade around the public square, of which they were the center of attraction and in order to be sure that the nuptial knot was tied good and fast they engaged Judge Calaway to perform a second ceremony.

Mr. and Mrs. Wells departed Monday for McAllen, where Mr. Wells will buy cotton during the coming season, after which they will return to Tahoka.

County Court In Session This Week

She was acquitted. A local citizen is to be tried this week on a charge of making indecent pictures, appealing from the justice court.

ELECT MOODY BY A BIG VOTE

Governor Will Not Resign Until November 1st But Withdraws From Race

DALLAS, July 27.—With a total vote counted by the Texas Election Bureau of 767,799, a record for the first primary election in Texas, Dan Moody lacked but 760 votes of a majority over all his opponents in the race for Governor. The returns were from 248 counties, of which 129 were complete. This leaves only four more counties from which no returns have been received and 119 counties from which only partial returns have been received. The missing counties are sparsely settled and cast only a small vote, while the missing boxes in the counties not yet complete do not contain a large number of votes. Those in charge of tabulation at the Texas Election Bureau express the opinion that there is a possibility that the missing votes may give Moody a majority when the count is completed.

Latest reports from the Texas Election Bureau Tuesday night gave Moody 383,520, Ferguson 263,637, Davidson 115,165, Zimmerman 2,421, Johnson 1,727, Wilman 1,349.

The totals shown in the other State races were:

Attorney General—Allred 118,113, Brachfield 117,006, Christopher 39,053, Hornsby 78,204, Irwin 107,002, Pollard 127,103.

Treasurer—Ball 113,059, Christian 44,487, Garner 30,728, Garrett 67,015, Harris 46,159, Hatcher 179,518, Johnson 53,935.

Superintendent of Public Instruction—Bennett 142,278, Humphries 129,657, Marrs 307,425.

Commissioner of Agriculture—Boilin 131,048, Terrell 326,217.

Land Commissioner—Robison 296,116, Terrell 280,819.

Railroad Commissioner—Baughman 111,287, Speer 153,168, Terrell 296,164.

Judge Court of Criminal Appeals—Hawkins 329,412, Pierson 239,628.

Returns from 117 counties, including 86 complete, show the following totals for candidates in the Republican primary:

Governor—Haines 6,990, Scott 3,197.

Superintendent Public Instruction—Garrett 4,581, Lindsey 2,409.

Returns received by the Texas Election Bureau at 6 o'clock Tuesday evening show that the total number of votes cast in the Democratic primary election on last Saturday was the record for the first primary election and is nearly equal to the top record made in the second primary election of 1924, and this notwithstanding the number of qualified voters this year is small than in 1924.

The total number of votes for Governor in the primary election of last Saturday reported up to 6 o'clock Tuesday evening was 767,799; total in first primary election of 1924, 703,123; total in second primary election of 1924, official, 729,760, unofficial, 789,031. Returns from some 35 counties were not made officially. The total number of qualified voters in 1924 was 1,375,009, in 1926 is 1,310,109.

The Texas League of Women voters put on a "Get Out the Vote" Campaign.

PRECINCT CONVENTIONS ENDORSE DAN MOODY

The Precinct conventions held in Tahoka Saturday afternoon passed resolutions endorsing the administration of Dan Moody as Attorney General and sent solid Moody delegations to the county convention, instructed to vote as a unit. The county convention will meet next Saturday afternoon.

METHODISTS WILL BUILD ASSEMBLY HALL NEAR CANYON

The following is reprinted from last weeks issue of the News by request on account of a small error in the last line.

The Missionary Societies of the Methodist church and the Northwest District Conference have been prostrated \$10.00 each for the purpose of helping to build an Assembly Hall at the Girls' Encampment Ground in the Palo Duro Canyon near Canyon, Texas. Our president instructed each member of the Tahoka society to earn fifty cents and bring it to the meeting with a suitable rhyme telling how it was earned. The following poem was voted the best. It is by the oldest member of the society, Mrs. Adair.

For The Encampment Assembly Hall
You call on us to make some rhymes
And tell you how we earned five
dimes,
That we may build in our fair land
A hall, commodious, airy, grand,
Where our girls may gather year by
year,
The sacred truths from God's Word
to hear
From consecrated lips each day,
Where together study, work and
play
Combine to show how they may best
Serve God while mind and body rest,
Delight derive from Nature's Lore,
The canyons wild and deep explore,
Refresh themselves in the liquid pool
While they attend the Bible school,
These teachers tell God's wondrous
love,
Of Jesus, our Savior, who came from
above
To reveal to us God's plan
Of redemption full for sinful man,
That these dear women who work
and play
To lead them up God's shining way
May see fruits of their teaching of
truth
Grown up in the hearts of joyous
youth,
Hear high resolves for God to live,
For this my little bit I give,
Did you ask how this I earned?
From God's Holy Word this law I
learned:
One-tenth of what he puts in our
hands
We return to Him to work his plans.
This is what and why and how,
I give to you this half-dollar now,
So let the work move blithly along
With study and play and worshipful
song.
And that near the place no evil waits
"Dad" Eldridge keeps watch at the
outer gates.

THE OLD CATTLE TRAILS
The old cattle trails that once marked the wide open spaces of Texas' prairies and which led from Brownsville, Texas, to Dodge City, Kansas, and other points North, are discussed in a forthcoming article in the August Monthly Magazine of the Lynn County News which will be issued August 12th.
These old trails have almost disappeared, but in some spots still dimly remind us of an age when the cattle business thrived, before the advent of railroads, and when cattle were driven afoot to the far away markets in the North and East.
Mr. and Mrs. W. G. Briley and family and Mrs. Blair and son, Clyde, returned Saturday night from Christoval where they attended the annual Encampment this year and heard the Baptist Encampment. They report that a large crowd attended the encampment this year and heard many stirring addresses by noted Baptist speakers.

**First 24 Hours of Life
Baby's Hardest Time**

By MARIE K. JOHNSON

Undernourishment is one of the most common of the causes of infant mortality, according to a survey recently undertaken in Chicago.

Marie K. Johnson

Statistics show that of 4,522 babies under one year of age that died in 12 months, 688 died in the first 24 hours. Eight hundred and seventy-six died in the first six days, exclusive of the first 24 hours, and 1,708 died from the seventh day to the sixth month. Eight hundred and sixty died in the last six months of the year. The survey indicated that a surprisingly large number of infants are artificially fed, which condition, doctors agree, had a marked bearing on their undernourishment. Naturally, no one food may prove satisfactory in every case, although the survey showed that evaporated milk in many cases had proved an excellent substitute for mother's milk. This may be explained by reason of the fact that evaporated milk is simply pure, concentrated cow's milk from which 99 per cent of the water has been removed. It contains practically every element necessary for good health and is consequently an excellent builder of bone and tissue.

Although authorities on health recommend evaporated milk as a baby food, like other substitutes for the natural supply, it should not be considered as a food complete in itself. Addition of orange or tomato juice, barley water or lime water is important in providing adequate diet for the infant.
For babies, milk of dependable purity is essential. Market milk will not keep for any length of time and is also liable to contamination, especially in hot weather, while evaporated milk, hermetically sealed in sterilized containers, remains as fresh and pure as on the day it was canned.
Sterilized evaporated milk, authorities agree, is one of the most important points in its favor. In processing, evaporated milk is subjected to 240 degrees heat for a half hour, thereby removing all possibility of bacterial life being present in the milk. Heat is the only preservative for this type of milk and the heat has the further beneficial effect of making the curds of milk more flocculent and easier to digest.

**Potash and Oil
To Be Developed
At Brownfield**

From Terry County Herald.

M. V. Brownfield has leased a portion of his big east ranch to H. S. Gerson and associates of Amarillo for both Potash and Oil developments. We understand that Mr. Gerson is a geologist of some note, and has opened offices in the State Bank building for the present.
A large standard oil rig was unloaded down there some two weeks ago, and we understand that a real deep test for oil is to be made.
As to the Potash developments, we have been reliably informed that a number of shallow tests have been put down with a common well drilled in a shallow water section of the ranch, and which water has never been fit to use. It is said that these waters which are found about fifteen feet under the surface contain a high percentage of Potash, as well as lots of nitrates salts and numerous other chemicals including arsenic, all of which are valuable. It is understood that the nitrates are just as valuable to agriculture almost as potash. Indeed the two are used in making fertilizer.
Of course there has been much rumor some of it indicating a large plant to cost \$3,000,000 to work out these chemicals, but this is only talk so far, as Mr. Gerson has not given out anything for publication. It is not expected that he will until further investigations and financial arrangements are made.

Those close to this gentleman also say that he is also confident of finding oil on the Brownfield ranch, as indications of it are plentiful on the surface.
As a matter of fact when it can be shown that either potash or oil is to be found in workable quantities, there will be plenty of capital provided for working it, and a combination potash and oil development here would not ruin anything except transform our town into a thriving city.—Terry County Herald.

"Doubtless one of the big reasons for this condition is that modern young men don't expect the girls they marry to know much about cooking," said Miss Maxwell.
"In the future, before man pops the question, he's going to find out whether the girl knows what calories are and whether she's wise to the elements of a balanced diet."
"A few questions before the minister asks, 'Do you take this woman?' would save a thousand recriminations later."

THE VOICE OF THE LIBERTY BELL

This is one of the two new official posters of the Sesqui-Centennial International Exposition, opening in Philadelphia June 1 to celebrate 150 years of American Independence. The Exposition will continue to December 1. Dan Smith, the artist, has symbolized the epoch in history which the tolling of the Liberty Bell in Independence Hall, July 4, 1776, marked and has depicted the growth of the United States from the original thirteen states, represented by the thirteen stars which emerge from the mouth of the Liberty Bell.

Drilling On Oil Well Has Been Resumed

Drilling on the oil well a few miles west of Tahoka has been resumed. Two drillers began work Monday morning. On Tuesday one of them was called away on account of the death of a nephew but other drillers are to come in his place and work is expected to proceed now without interruption, according to J. B. Nance, who returned Monday from Fort Worth, where he had an interview with J. J. Hart.

About fifty schools will be represented at the convention.

The News failed to mention last week that Fred Haney had returned from a vacation trip to New Mexico, Colorado, Wyoming and other Western states. The trip was made in company with Everett Duncan of Roscoe and they report having had a great time and having seen much beautiful scenery.

A real liquid refreshment had been forbidden the aged Scotchman, who felt that his end was near. He called his gude wife to the bedside and asked her would she carry out certain wishes of his when he was dead. She promised to do so, and asked what they were. "Ah, weel," said the moribund, "I thocht 't would be nice if ma freen's had a drink afore the funeral." His worthy spouse agreed that it would be. "An' efter they returned," Again she agreed. "I suppose," he added, with a sly grin, "as I winna come back I might get bath mine noo." —San Francisco Argonaut.

CLASSIFIED ADS.

WANT-ADS PAY

Last week G. H. Speer of Wilson, Route 3, advertised that he had a stray mule. Soon after the appearance of the paper a subscriber living in the Wilson vicinity read the ad, recognized the description as that belonging to a mule he lost several months ago, paid Mr. Speer the cost of the ad, and took his mule home.

The twelve line ad cost the owner of the mule but a small amount, however he is many dollars to the good for having found the animal.

This is only 1 small instance showing the results that may be received from a small classified ad. in the News, inserted at a small cost. If you have lost something, found something, have something to sell or trade, or rent, or want to buy, or rent something, insert a little Classified Ad. in the News and you are almost sure to get results.

KIWANIANS ENTERTAINED AT CENTRAL CHURCH

The Women's Missionary Union of Central Baptist Church entertained the members of the Tahoka Kiwanis Club at a banquet last Friday evening. The feast was spread on the Church lawn and it certainly was a great feast.

After all Kiwanians and others had done justice to the occasion, the crowd assembled in the church, where music was rendered by the Tahoka Band and speeches made by

some of the visitors and citizens of the Central community.

G. H. Nelson, secretary of the Tahoka Chamber of Commerce, spoke concerning the fair to be held in Tahoka this fall, inviting and urging the people of that part of the county to join with us in making it a success.

E. I. Hill spoke of the need of cooperation of the rural communities with the Chamber of Commerce.

Judge C. H. Cain, Rev. B. N. Shepherd, Happy Smith and others of the Tahoka delegation made a few remarks, while R. B. McCord, B. J. Emanuel, Bob Parris, W. J. Burkhart and others of Central had many nice things to say about Tahoka and Tahoka people.

All the Tahoka people greatly enjoyed the fine hospitality of the Central folks and left with a tender feeling in their hearts for the people of the Central community.

College Has Large Summer Enrollment

Canyon, July 22, Class work is in full swing for the second term at the West Texas State Teachers College with an increase of twenty-seven over the enrollment for the first term. There are now more than twelve hundred students in attendance, most of these are credit students.

During the first six weeks of the fall quarter, courses will be offered in ten departments aside from the regular fall work on the same basis that they are offered in the summer for the benefit of the teachers whose schools do not start until late in the fall. During the last six weeks of the spring quarter, 1926, a number of courses were offered in this manner and many teachers whose schools closed early took advantage of them.

Milton R. Moskow, twelve-year-old, San Francisco schoolboy who since the age of five has patterned his life after that of Abraham Lincoln, aspires to occupy the White House some day as his hero did. He has been nominated as a candidate for the American Youth Award established by the directors of the Sequi-Centennial International Exposition, held in Philadelphia from June 1 to December 1 in celebration of 150 years of American Independence. Under the plan of the American Youth Award and the American Teacher Award, each state will select a boy and a girl and a woman teacher who best represent American ideals, and they will be given trips to Philadelphia and to Washington, where they will receive medals from President Coolidge.

BACKACHE

Mississippi Lady Benefited by Taking Cardui.

"I took Cardui for backache and a weakened, run-down condition, and it strengthened and helped me," says Mrs. Mattie Hurt, of Coldwater, Miss.

"Before the birth of my children, when weak and nauseated, I took Cardui. After the birth of my children, when just getting up to do my work, I took a couple of bottles of Cardui and it never failed to strengthen and help me when taking it."

"I seemed to enjoy my food and my back would feel stronger. I don't believe I could have kept going had it not been for Cardui and the strength it gave me."

"When change of life came on I got down in bed. Life seemed to be just a terrible drag. I did not have strength for anything. My back hurt. My limbs hurt. I was so nervous I couldn't rest."

"I knew what Cardui had done, so sent straight for it, and it did just as it had done before—strengthened and built me up."

Emergency Pantry Meets Home Need

By META H. GIVEN
(Home Economist.)

Efficiency and economy go hand and hand in the home as well as in the business world.

The emergency pantry, latest innovation in the cuisine of the modern housewife is particularly indicative of the truth of this statement.

This new sort of pantry—it may just be a shelf in the regular larder—does away with

that bugaboo of the home maker, the surprise guest. Every woman has had the experience of welcoming an unexpected visitor when supplies were at low ebb and has searched high and low to find something presentable to put on the table. The emergency shelf in the pantry does away with such worries in short order.

A can opener and— presto—a veritable banquet can be prepared in a few minutes. The housewife may have her choice of many excellent meats, corn, tomatoes, mushrooms. If she is short of milk or cream, a can of evaporated milk, which is simply fresh cow's milk sterilized in the can and with sixty per cent of the water removed will do the trick. In fact she may have two hundred or more savory dishes ready to her hand.

When the surprise guest does arrive the hostess naturally wishes to be hospitable. She doesn't want to be tied to the kitchen range half the afternoon. She wants to entertain as she has been entertained.

It isn't possible if she was to phone frantically for the butcher, the grocer and the baker.

But that's only one of the places where the emergency pantry comes in. Backed by a well-stocked emergency shelf, the wife can get together a splendid luncheon or dinner in a jiffy. The spontaneous wish that comes at the last moment to informally invite a few friends for lunch can be gratified at once with the aid of the new pantry.

Afternoon tea for the bridge club is an equally easy matter. A glass of preserves or jelly, a platter of bread and butter, tea, and a dish of cookies will meet the ordinary demands of the casual caller and a can of evaporated milk will answer the milk or cream need.

CARD OF THANKS

I wish to thank the people of Lynn County for their support in my recent race. Your vote was very much appreciated by me, and I appreciate your kind support as an officer of this county. If Miss Ellis should ever need any help, I am more than willing to help all I can.

Again, I thank you.

TEACHERS INSTITUTE TO MEET IN SEPTEMBER
(Continued from First Page)

the Institute.

All meetings will be held in the buildings of the Texas Technological College. The daily schedule will begin at eight thirty and go until twelve and will resume work from one-thirty to four.

There will probably be one thousand teachers in attendance.

It was agreed that the same arrangement as formerly should prevail as to the expenses of the Institute, namely, each teacher will be expected to pay one and one-half per cent of a months salary.

Arrangements will be made for enjoyment of social and musical nature and also for suitable athletic contests.

One of the outstanding attractions on the program will be the work of Dr. C. H. Judd head of the Department of Education of the University of Chicago. He will speak twice daily on the general program. Dr. Judd is considered the ablest and most entertaining speaker on educational subjects in America. The public will be given an opportunity to hear him.

There will probably be present some representatives of the State Department of Education, the State Teachers Association, the State Health Department, and the State parent-teacher work. Places will be arranged on the program for these.

The following members of the faculty for the institute have been arranged for:

Dr. P. W. Horn, Conductor.

A. W. Evans and C. L. Sone, Assistant Conductors.

Dr. C. H. Judd, of Chicago University, general speaker.

Miss Lila Baugh, director of Primary system.

Miss Corinne Nash, director of Third and Fourth grade section.

Superintendent M. H. Duncan, director of Superintendent and Principal section.

Dean A. H. Leidigh, director of Rural section.

Dr. J. M. Gordon, director of Intermediate section.

Prof. A. W. Evans, director of High School section.

Special Committees.

G. N. Atkinson, chairman of Homes.

M. E. Witt, general Secretary-Treasurer.

C. L. Sone and E. J. Lowrey, Athletics.

Mr. and Mrs. Frank H. Weaver of Waco were here Monday and Monday night visiting with the T. J. Bovell family. The Weavers formerly resided here and were at that time enroute to New Mexico to inspect the Carlsbad Cavern and other spots of interest in that state. While here Mrs. Weaver paid a call to the News office and passed many flattering compliments upon the paper.

R. J. English and son, John Alfred, of Blackwell spent Tuesday night here as the guests of the former's brother, D. B. English.

**MAJORITY GIVEN MOODY
IN LATEST RETURNS**

According to the election re-
turns tabulated at 6 o'clock
Wednesday evening, Dan Moody
had a majority of 174 votes
over all opponents. The total
vote tabulated was 796,136,
Moody's vote was 398,155, Fer-
guson 272,864, Davidson, 117,
668.

We confidently expected Mrs. Fer-
guson to keep her promise and re-
sign immediately in the event Dan
Moody should receive more votes
than she for governor. But follow-
ing the advise of Jim, no doubt, she
now announces that she will not
resign until after the legislature
shall have met, but she says that she
will resign by November 1st, at the
latest. This is no compliance with
her election promise. In her chal-
lenge to Dan Moody, she said that
she would resign "immediately" if
he received one vote more than she.
The Ferguson seem to be running
true to form.

Jim Ferguson now refuses to take
his own medicine. He undertook to
make medicine for Dan Moody to
take but Dan handed it back to him.
In her opening speech at Sulphur
Springs Mrs. Ferguson proposed to
resign "immediately" if Dan should
beat her by as much as one vote in
the primary, provided he would a
great or resign if she beat him 25,000
votes. In order to emphasize the

challenge, Jim Ferguson repeated it
with great gusto in the speech which
he made following, to a vast
crowd. The election came last
Saturday and Moody whipped Jim
Ferguson all over Texas. Now
Jim is trying to crawl-fish. His wife
has issued a statement saying she
will resign not later than November
1st. That is more than three
months after the election. Only a
little more than two months of the
Ferguson administration will be left
when November 1st arrives. Jim
Ferguson mixed this medicine and
now he ought to be compelled to take
it. Public opinion ought to scourge
him from power. A man who will
make a clear-cut proposition to his
opponent and then refuse to live up
to it, deserves no consideration at the
hands of honest men and women.
They should say to Jim Ferguson in
a voice that could not be mis-under-
stood, "Get out from here and get fer
some more."

Lynn county is to have a fair a-
gain this fall. Plans are already be-
ing formulated for the occasion, and
it is the hope of the directors to
best fair the county has ever had.
Plans are being made much earlier
than ever before. This year promise
to be a big crop year and pros-
pects are that some of the best farm
and garden products ever raised will
be available. A fair catalogue is to
be gotten out giving the premium
lists for all departments. But, to
make his the greatest fair that Lynn
county has ever had, the farmers, the
gardeners, the stock raisers, and
everybody else in the county that
has anything to exhibit should be
looking forward to the occasion.
They should pick out their best feed,
cotton, canned fruits and vegetables,
cattle, sheep and goats; hogs, poultry,
paintings, embroidery, quilts, curios,
etc. with the view of placing them on
exhibit at the fair. Business men
should give the fair their support,
financial and moral. Communities
should begin planning their commu-
nity exhibits. All citizens of the
county should "talk up" the fair to
each other. Lynn county can have
one of the best county fairs of any
county in west Texas. Why not
have it!

The election is over. It was one
of the hottest in the history of Tex-
as. Many are jubilant because their
candidate won. Many others are
deeply disappointed because their can-
didate was defeated. There are
some sore spots which will require
a long time to heal. But on the
whole, the people have conducted
themselves like good sports. Not
many friendships were broken. Most
people are willing for the other man
to make his own choice and all are
willing to abide by the results. That
is what has made democracy a suc-
cess and America great.

ease. Mr. Sears was manager of the

The remains were buried at Lamesa

Emmett L. Whitaker

**Strings Type As Re-
turns Come In Favor**

Miss Ethel Purnell, Linotype op-
erator for the News, is taking a two-
weeks vacation, visiting home folks
at Lewisville, Denton County, and
Hon. Emmett L. Whitaker, Democrat-
ic nominee for Representative from
the 119th district, is substituting for
her during her absence. Mr. Whit-
aker preceded her as operator on
the News force but left in order to
spend the year in College.

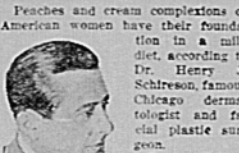

Closing out the campaign for Rep-
resentative Friday night Whitaker
rested Saturday and took care of his
preaching appointments Sunday be-
fore coming to Tahoka Monday morn-
ing. He left Thursday noon for Sem-
inole to issue the Seminole Sentinel
and preach in Andrews county re-
fore returning for the next weeks
run on the News.

Headless of the first returns on
the race Rev. Whitaker expressed
his desire and confidence for the best
will of a democratic people to be car-
ried out. Then when it appeared that
he had accomplished what his friends
called a miracle in defeating a man of
age well known over West Texas and
becoming one of the very youngest
men ever elected to the Texas legis-
lature he stated that friends that he
had unconsciously made through the
years were largely responsible for
his success. However, he requested
that rejoicing be deferred until every
vote was counted. He appeared more
enthusiastic over the success of Dan
Moody than over his own returns.

The Honorable Mr. Whitaker asked
the News to express his appreciation
and thanks for all the support that
had been given and expressed his
desire of making the best Representa-
tive the district has ever had. He
has indicated his willingness to serve
the people of the district in any way
possible at every opportunity.

Mr. and Mrs. Grover Stewart leave
today for a trip over to Carlsbad and

ico.

**Be a Milk Tippler,
Says Dr. Schireson**

Dr. Schireson.

Peaches and cream complexion of
American women have their founda-
tion in a milk diet, according to
Dr. Henry J. Schireson, famous
Chicago derma-
tologist and fa-
cial plastic sur-
geon.

Doctor Schireson has come by beau-
tifully young and beautiful
Fanny Brice's nose, rejuvenated Eva
Tanguay's face, removed sixty-four
pounds of adipose tissue from Truly
Shattuck in one operation, straight-
ened the cross eyes of the leading
lady of Singer's midgeets, and has per-
formed other corrections for making
people young and beautiful.

Doctor Schireson has one infallible
prescription for the attainment of
beauty. It is: "One quart of milk a
day, one hour of sunshine, and re-
peat ad libitum."

"Beauty specialists and cosmetic
makers," says Doctor Schireson,
"would be driven out of business in
a few weeks if all the women of
America would drink their quart of
milk a day."

"Babies and children have com-
plexions of angels for the reason that
they are fed largely on milk. Milk
used externally or internally is a
beautifier. Anna Held, I believe, was
the first actress who adopted the milk
bath. While this was a novelty at
the time, and her press agent un-
doubtedly made the most of it, the
principle in itself was sound. But a
beauty secret of even more value is
the daily quart of milk taken as a
part of the diet."

"The milk-fed girl is easily dis-
tinguished by the velvety texture and
the healthy color of her skin. Milk
is a wonderful body builder, because
it contains every structural element.
It is, in a way, an elixir of life."

"Authorities agree that milk is the
most nearly perfect food but it is an
extremely delicate one as well. Heat
sufficient to kill all bacteria is the
essential of absolutely pure and
sterile milk. One of the advantages
of evaporated milk, which is simply
fresh cow's milk with sixty per cent
of the water removed, is that it is
entirely sterile and is more easily as-
similated than ordinary market milk."

"Milk is mentioned forty-seven times
in the Bible. The Promised Land of
the Israelites was said to flow with
milk and honey" and Ovid graded
milk as second only to nectar, the
drink of the gods."

THE STATE OF TEXAS

COUNTY OF LYNN
IN TENNES COURT
LYNN COUNTY, TEXAS
SEPTEMBER TERM, 1926.

TO THE HONORABLE JUDGE OF SAID COURT:

Now comes the Lynn County Court House Office Force, hereinafter called plaintiff, complaining of one Mattie Will Seroyer, hereinafter styled defendant and for cause of action plaintiff would respectfully represent and show to the court:

First. That the plaintiff is a private corporation duly incorporated under and by virtue of the 1926 rules of Texas, having its place of business located on a vacant lot directly back of the residence of W. E. Gadberr, and that defendant is a bona fide citizen of the town of Tahoka, Lynn County, Texas, and having her principal place of domicile in Tahoka, Lynn County, Texas.

Second. That hereafter, to-wit, on or about the 15th day of July A. D. 1926, the defendant left without due notice to said corporation, with malice aforethought and knowing well that said vacancy would cause great damage to said court, whereby the defendant became liable and bound to pay the plaintiff two bushels of ripe, red Alberta Peaches, four fried chickens and one bushel of plums.

Third. That the defendant, the often requested, has failed and refused and still refuses, to pay debt or any part thereof to the plaintiffs damage in the sum of the two bushels of peaches, four fried chickens, and one bushel of plums.

Wherefore, plaintiff prays that the defendant be cited to appear and answer this petition, that upon final hearing thereof, it have judgment against the defendant for its debt, principal and attorney's fees, for the cost of this suit and for all other and further relief in law and equity that it may be entitled to receive, for which it will ever pray.

IN TENNES COURT
LYNN COUNTY, TEXAS
SEPTEMBER TERM, 1926.

THE LYNN COUNTY COURT
HOUSE OFFICE FORCE
VS.
MATTIE WILL SEROYER.

Now comes the Honorable Fred Barker, being duly sworn deposes and says:

First. That he is the attorney for the Lynn County Court House Office Force, plaintiff in the above entitled and numbered cause, a private incorporation duly incorporated under and by virtue of laws of the 1926 rules of Texas, having its principal place of business located on a vacant lot directly back of the residence of W. E. Gadberr and daughter, Alice Gadberr, Lynn County, Texas.

Second. That the defendant is a private, bona fide citizen of the town of Tahoka, having heretofore played tennis on said vacant lot back of the residence of W. E. Gadberr and daughter, Alice Gadberr.

Third. That the defendant, Mattie Will Seroyer, is justly indebted to the said plaintiff in the sum of two bushels of ripe, red, Alberta Peaches, four fried chickens, and one bushel of plums, and that the above is the principal, interest and attorney's fees due on said debt.

Fourth. That the defendant is about to eat all of said property with the intent to defraud creditors.

Fifth. That the attachment is not used out for the purpose of injuring or harassing the defendant, but for the purpose of trying to keep defendant from making herself sick eating so many good things, writing plaintiffs about same and bringing them nothing, and plaintiffs will probably lose its chance of getting any fruit this summer unless this attachment is issued.

Cotton Flea May Have Been Pest For Many Years

Considerable interest is shown in why the Cotton Flea (Hemiteles) has only in recent years seemed to have become a serious cotton pest. It is pointed out that the insect has been known and widely distributed for many years, having been described as early as 1876 by Reuter. No attacks by the insect in cotton, however, were recorded prior to 1920, which time the insect has been commonly called the Cotton Flea (Hemiteles) and the attacks have been growing in seriousness until this season when no important section of the cotton growing area has escaped. Suggestions are heard that perhaps the flea caused damage in former years that was ascribed at the time as due to some other cause. Color is not to this suggestion when one recalls certain seasons when what is called the "bottom crop" was a practical failure and the cause was not thoroughly investigated, hence remained unknown. Furthermore, since the flea has been identified as the offender, the damage has been observed to cease about the time the middle crop is setting and the later fruiting of the plant has not been seriously interfered with. It has occasionally come about that a fair bottom crop would set when the middle crop failed and a fair top crop set. It is thought this condition could have been due to the flea.

There are other conjectures, including the idea that perhaps the flea has only in recent years developed a taste for cotton or that the new varieties of cotton possess some quality not existing in the current varieties that may have repelled the flea. They are all guesses more or less, however, and in the meantime the entomologists of the College are making exhaustive studies of the insect and its habits and expect to be able to answer accurately the question which now seem so puzzling. Bulletin 339 of the Texas Experiment Station contains a minute description of the insect, the nature of damage and the most successful means of combating the pest that has been thus far developed.

ONE THRESHER FOR 180 FARMS IN STATE

A harvest of approximately 110,000,000 bushels of small grain will be Texas' contribution to the nation's store of agricultural products this year, according to the Sears-Roebuck Agricultural Foundation. An average of one thresher for every 180 farms in the state will be used in making this vast amount of small grain available for shipment.

"The hum of the thresher at work in our wheat fields should serve to remind each and everyone of us of the enormous expense involved in gathering in the 182 pounds of bread that each of us consumes each year," says Samuel H. Guard, director of the Foundation. "We can not eat our bread without counting the cost. This is the time that the thresherman has to be paid."

Iowa leads all states in the number of threshing outfits with 13,464, while Rhode Island stands at the bottom of the ladder with but 8, according to the Foundation. In North Dakota every seventh farmer has a machine, while in Florida there is a single outfit for every 1,900 farmers. Minnesota tops the list of states in the total grain threshed, with Iowa a close second. Where North Dakota farmers thresh on an average 3,224 bushels per farmer, Florida farmers thresh only three bushels per farmer.

The 140,000 threshing outfits in the United States represent an investment of half a million dollars. The average carrying charge on these outfits is \$560 a year. Each of these outfits last year threshed \$13,833 worth of small grain or a total for all outfits of nearly two billion dollars worth of grain. The payroll for the men running these outfits, averaging three to the machine, is nearly fifty million dollars. The average outfit runs approximately three weeks in the year.

GOOD NEWS TO THE PEOPLE OF LYNN COUNTY

In launching this Clearance Sale we intend to establish a precedent in OUR SALES HISTORY. The policy of this firm has never been to advertise a sale and only put out a number of "sale items" to work up the enthusiasm of our customers and get them to buy our merchandise at the regular prices. We have been here too long to employ such methods. Our aim has been to make "Our Store Your Store"—an institution in your community that will merit your confidence. Honest merchandise at fair prices has always been our aim. With the wonderful prospects in Lynn County it will be necessary for us to make available every bit of space we have to make room for the immense stock of fall merchandise we have ought, hence we intend to make this sale a REAL one and move out of the way some merchandise that right now is strictly season able. Do not come to this sale expecting to buy a twenty five cent article at a saving of fifteen cents but our store is brim full of merchandise that you need every day and all at a big saving to you and you will not be harrassed into buying something you do not need.
