VOLUME 4 NUMBER 31. TAHOKA, LYNN COUNTY, TEXAS, FEBRUARY 28, 1908. PRICE \$1.00 Per Year

Purely Personal.

Miss Pope, of Central, spent Saturday night with Miss Ruby Black and dined with the Misses McGonagill Sunday.

Sumner Clayton was a pleasant visitor at the News sanctum Tuesday afternoon.

Misses Lura Howell and Grace Leedy spent the day Sunday with Misses Odessa and Johnnie Henderson at their home east of town.

Mr. and Mrs. S. N. McDaniel spent Sunday afternoon with Rev. Shattuck's family east of town. They were accompanied by their son, Fred.

Mr. and Mrs. W. D. Nevel spent Saturday night and Sunday at the ranch north of town.

Fred McDaniel is digging a cistern for Walter Pinnell at his new place in the east part of town.

Mrs. W. L. Davis was a visitor at the News office Tuesday morning.

Tom Cade paid us a call Thursday morning.

Elton George of T-bar was in Tahoka Wednesday and called on the News.

W. M. Moore was among those who remembered us with a pleasant call Wednesday.

Joe Stokes spent last Saturday and part of Sunday in Lubbock visiting relatives.

Jim Hanna, who returned to Tahoka a couple of weeks since, is clerking for Wells & Welcher.

Mrs. Walter Robison spent Tuesday afternoon with Mrs. Cris.

Misses Annie Cowan and Robbi Chisum dined with Mrs. Hone last Sunday.

Miss Mattie Dyer was in the office smiling at the News for one day last week.

B. B. Wise spent a pleasant half hour with us last Friday afternoon. He tells us that plowing is fine on his way and a good season is in the ground.

Alvin Parks arrived in Tahoka Thursday from Waco to visit his uncle J. P. Marrs. He left last Saturday morning for the H ranch now owned by Mr. Robertson.

Stanton Getting Scared.

From all indications the people of Stanton are becoming possessed by a large fear that they are going to lose their much talked of new railroad. In its last issue the Stanton Reporter devotes its entire front page to "an appeal to the people of Stanton, Lamesa, Tahoka and Lubbock" to at once raise the bonus required by the West Texas & Northern, the line which has been projected through these places.

It seems that the Reporter and the people of Stanton have heard of the Panhandle Short Line's plans to build from Dalhart to Midland and thence to the gulf. As this road practically parallels that of the West Texas & Northern the Reporter concludes that only one of the lines will be built and that if Stanton doesn't do some tall hustling theirs won't be the road to materialize.

We have only the kindest feeling for our neighbors on the east and we hope they will get their railroad. At the same time any one who knows anything whatever about these two projects realizes that the Panhandle Short Line proposition is in the better condition, has the strongest backing and is by far the more likely to be constructed. In fact we believe there is little question that his road will be built within the next two years. And when it shall be built there can be scarcely a doubt that it will cross the Texas & Pacific at Midland.—Midland Examiner.

Yes, we have heard of the P. S. L.'s plans to build from Dalhart to Midland and from Hereford to Stanton and from Hereford to laughter and from Hereford to fortita and from Hereford to ng Springs and in fact there is hardly a town on the T. & P. that the P. S. L. hasn't monkeyed with more or less for the past two years and if the road has such strong backing we don't see why it doesn't finally settle on what it wants to do and then do it.

We, like The Examiner, have the kindest of feelings for our little neighbor on the west, and trust she will continue to flourish like the proverbial green bay tree but wish to caution her people not to become unduly excited over the P. S. L.'s capers as Midland is the fifth town she has made love to and we are about to put her down as merely a flirt.

However, if this road means business and is seeking a desirable place to cross the T. & P. Stanton will extend a helping hand to assist her over.—Stanton Reporter.

LOCALS

Sheriff Roberts of Lubbock shot and fatally wounded Jim Haines at the barber shop at that place last Saturday evening. Mr. Haines lived until nine o'clock Sunday morning. We have been unable to gain any particulars.

Mrs. Porterfield has some artistic creations in dress hats. It makes us wish we were young again and those who are young and pretty had better get busy.

Mr. Daughtry, the blind piano tuner, was a caller at our office last Friday evening. He will come to Tahoka the first of March and stay about ten day tuning and renovating musical instruments, pianos being his specialty. We have known of Mr. Daughtry and his excellent work for some years and we can say without reservation that he is at the head of his profession. Those in town having fine pianos, will do well to have him tune them.

After starting on the track for thirty or forty days waiting for some one to claim them, the 37 cars of bondurantties, shipped here for the West Texas and Northern, are being unloaded on the right-of-way and it is claimed the new company will begin hauling them out as soon as Mr. O'Donnell returns from Dallas.—Stanton Reporter.

Work on the artesian well, which has been stopped for a time has been resumed. The old hole has been abandoned on account of the casing collapsing and a new one has been started about ten feet from the old one, and it is to be hoped that work can be pushed to an early and successful termination. Big Springs Enterprise.

Miss Julia Crie and Mr. George Riley visited Mr. Slovers family Sunday afternoon. Mrs. Slover and the children have the measles.

W. L. Tunnell sends the paper to his brother-in-law, J. H. Moore, at Hye, Texas. That's the way to get folks interested in the Plains; let the News keep them informed.

J. A. Wilson left Sunday for Light, where his wife has been visiting her parents for sometime. She will return home this week in company with Mr. Wilson.

Misses Clara Porterfield, Orene Millman, Bessie and Isabel Crie spent Sunday afternoon with Misses Pearl and Lucy Robison.

Tahoka Leads Again.

Dr. M. E. Miles, of Boulder, Colorado, and his wife Dr. Amy Miles have located in Tahoka and will make their future home among us. Here is where Tahoka is ahead of the rest of the neighboring towns. The two physicians who have been here ever since the town started, are two of the best anywhere and Tahoka has had to furnish medical skill for about five counties. Dr. Miles is a very pleasant gentleman and will be a social as well as a professional addition to our town. Dr. Amy Miles is an accomplished lady and is well up in her profession, having practiced several years. She is not merely her husband's assistant but has an independent practice of her own and will answer her own calls. While Mrs. Miles is the first lady of her profession to come to Tahoka, she is by no means alone in the cities and large towns. The practice of medicine is a calling peculiarly adapted to women especially when she makes the diseases of women and children a specialty as does Mrs. Miles. The ladies of Tahoka are exceedingly fortunate and should extend to Dr. Amy Miles the welcome she deserves.

Accounted For.

Bill—Is it true that heat ascends?

Jill—Oh, yes. That is why so many hot headed men get cold feet.—Yonkers Statesman.

Hall Robinson and Otho Thomas spent Sunday in Lubbock.

Dwight, the infant son of W. B. Edwards, died Wednesday morning, Feb. 26, at the family residence twelve miles southwest of town. The funeral took place at the Tahoka cemetery Wednesday afternoon in the presence of relatives and friends.

Miss Annie McLarry went to Lubbock last Saturday morning with Miss Patterson and her party. Miss Annie returned Sunday accompanied by Miss Lena Brown, who spent Monday and Tuesday in Tahoka.

Joe M. Marrs, who is a brother of John P. Marrs, arrived in Tahoka from Waco last Wednesday and will make his home here. He is a member of the land firm of Marrs Bros. & Company.

Dr. J. H. McCoy reports a new girl at the home of Bob Anderson, about twenty miles south of town. The little lady arrived Monday, February 24th.

FRIDAY, FEB. 28, 1908

We made the assertion last week that 25 families have moved to Lynn county on account of the rumors that we would have a railroad in the near future. If you don't believe this assertion, ask all the new comers you know why they came here and see what answer you will get.

The railroad promoters have secured 45 miles of steel, they have 15 or 20 miles of ties at Stanton; they have 100 teams on the ground, and they are going to build a road from the Texas & Pacific northward. It seems to us that it is simply up to Stanton, Lamesa and Tahoka as to where this road is built.

We hardly take up one of our exchanges that it does not contain a "Quit Business Sale," a "Closing Out Sale," or a "Bankrupt Sale." And we are inclined to be thankful that The News has had none of this kind of advertising to do as yet. Not only are none of our merchants being forced to close out, but most of them are fully prepared to take care of their old customers, and some are advertising for new business.

John Slaughter has signed one of the new notes for \$1,000 and he writes that he will give \$500 more when the railroad runs into Tahoka. Who could ask more from a man who pays no taxes in Lynn county? What tax payer in Lynn county has done as much as this? If a man who owns a lot in Tahoka, or who owns land in Lynn county, and has not signed one of the bonus notes for a reasonable amount, does not feel ashamed of himself when he reads of the generosity of Mr. Slaughter, how will he feel?

In one of our exchanges we see that the Real Estate agents advertising is conspicuous by its absence. Is it possible that all the Real Estate firms in that town have gone busted? No we do not think so, is it possible that since the hard

times the land owners in that country no longer wish to sell their land? No! In times of stress, if a man has land to sell, he is still more anxious to sell than when money is easy. What then is the cause of this sudden cessation of advertising? They say, "We are selling no land now so we have to economize," and yet they live in the same fine house, keep the same well furnished office and pay the same grocery and dry goods bills, and many of them put in the slack time improving their home places. Their living expenses are the same but they economize on their business expenses. They cut out all advertising, they order no more stationery, the dust accumulates on their typewriters and they go home and look after their gardens or farms. They make no effort to sell the land that is listed with them. To the man who has land for sale, we will say: Beware of the real estate man who does not advertise, or who cuts out his advertising when the slack time comes. When times are flush, when prospectors are flocking in, you don't need a real estate man to sell your land. It will sell itself. It is when times are hard and prospectors few and you want so badly to sell, that you need the help of the real estate man, and you need the man who is trying to sell your land, and the man who spends \$5, \$10 or \$20 a month for advertising is the man who will try to sell your land. Why? Because he not only invests his time, but he is putting his money into the business of selling your land. The real estate man, who does not advertise, is like the candidate, who doesn't announce his candidacy. He has invested nothing but "hot air" and he will not put forth the effort that the man will who has invested his money in his race or in his business. It is still true that where a man puts his money, there will be put his best efforts also. If you really want to sell your land, list it with a firm which does everything that the others do, and which goes still farther and put their own money into the business of selling your land.

The Beacon, for last week, states that \$6,955 has been subscribed in amounts ranging from \$5 to \$500, for the purpose of erecting a \$10,000 concrete school building at that place. In the list of 51 names published, five men gave \$500 each, one man \$300, seven men \$250 each, two men \$200 each, two men \$150 each, nine men \$100 each, leaving the balance of \$805 to be subscribed by 25 men. At the above rate, if Lockney has 22 more men of the same general

average liberality, they will build their \$10,000 school house.

Tahoka school district has about 125 men within its boundaries, who will average right up with these 51 men at Lockney in material worth, and yet our children are going to school in a three room barn so rickety that if the wind

blows hard enough to turn a windmill we are afraid for their lives. Some one in Tahoka should head a subscription list with \$250 and see if we can't do half as well as Lockney.

The assertion was made in our hearing the other day that there would be more land planted in cotton in Lynn county this year than was in cultivation last year. That sounds good to us. Down east all the papers are advocating "Diversified farming," but out here where we raise more cotton and better cotton, it is a good crop and it takes people to work it, and more money and more people is what we need here.

FOR SALE—A milk cow with a young calf.—T. C. Leedy, Tahoka, Texas.

When you wrote to your friends or relatives back home and told them they could do well out here, did you say anything about our having railroad prospects? Is it right for you to try and induce them to come out here by telling them that we are likely to have a railroad in the near future, when you are not doing all in your power to secure it? Get right up and help make this possibility a probability.

Good Banking Conditions.

We wish to call attention to the statement of the First National Bank of Tahoka, which we publish in another column on this page. The statement we published last December was an extra good one, but this one is still better. Last December the loans and discounts were \$51,920.55, now they are \$44,775.31; overdrafts were then \$4,693.01 against 1,006.27 now; the undivided profits are now \$2,344.14 an increase of \$480.77; the deposits have increased \$5,811.54; in fact while the gross business of the Bank has increased from \$75,911.50 then, to \$31,297.85 now, the entire showing is also much improved. If any other town can make a better showing than this, let's hear from you.

At a well attended call meeting of the Lynn County 25000 Club, held at the court house Thursday night, it was decided to finish raising the railroad bonus at once, and volunteers were called for to secure the balance; Which as the promoters have unloaded 40 cars of ties, made arrangements to have 45 miles of steel shipped by March 15th, and it is said that both the Texas & Pacific and Santa Fe, are making overtures, should be easy.

A CONSPIRACY.

[Original.]

"Mrs. Martindale, I have a request to make of you."

"Make it."

"It is that you will enter upon a conspiracy with me to marry my father."

The color came to her cheeks, and she bent her head.

"If you are not joking, if you really make this request, you are paying me the highest compliment I have ever received."

"I am in earnest. I assure you, first, because I esteem you very highly and am sure you would make my father happy; second, because that fortune hunter, Anabel Green, is scheming for him, and unless I can turn him into another channel she will get him."

"What do you wish me to do?"

"Nothing except what I at an opportune moment may ask you to do."

"Dear old man! I would gladly make him happy if I could, but never would I entrap him into what he might regret."

"Do you think he would not regret marrying this Green woman? Come; don't be squeamish. I am not likely to turn my own father from the frying pan into the fire. We shall all be at Mrs. King's fancy dress ball tonight. I know father has been seeking an opportunity to speak to 'the Green' for some time and will doubtless find it and speak at the ball tonight. Remain here till I call for you, and when I call be ready to go with me at once."

My father was a gentleman of the old school and had never got over the youthful hallucination that all that is human female is lovely. My mother knew better, and before she died she left me two injunctions—first, to protect my father from the designing ones; second, to be careful in the choice of a wife for myself. My father was always most indulgent with me. I do not remember ever to have been severely reprimanded by him but once, when he heard me make a cutting remark to a girl who had been endeavoring to prejudice me against one who was supposed to be her bosom friend.

"She's a fiend," I said by way of excuse.

"She's a woman," replied my father severely.

My sister Edith was in the conspiracy. We had determined, since we could not prevent our dear father from taking a second wife and, besides, would be glad to have him marry Mrs. Martindale, to bring him into a position where he could not honorably marry the Green woman—I cannot bring myself to speak of her more respectfully—and could not honorably refuse to marry Mrs. Martindale.

"Edith," I said when I reached home, "have you seen 'the Green'?"

"I have, and she told me the costume she would wear—Marie Antoinette. Have you seen Mrs. Martindale?"

"Yes. She makes no promises. I have not asked any. I think she will help us. Now, mind, don't let father get out of your sight a moment from our entrance into the ballroom. I have a plan, but it may be balked. I may, at a moment's notice, choose another."

I went to the ball alone in a coach of my own, in which I had a bundle containing a Marie Antoinette costume. When I entered the ballroom there was Edith—a Queen Elizabeth—hanging on to the arm of father—King Henry VIII. I looked eagerly for a Marie Antoinette and espied one standing alone at the other end of the room. I joined her and asked her to dance. She complied by a nod—she would not speak to me—and it was an hour before I discovered that she was not "the Green."

SUCCESSFUL PLOWING

Can always be accomplished, in all sections and under all conditions, by the **Success Plow**. It is a frameless plow that will last a lifetime. It has been on the market for years, has been tried and proved, and is, beyond question, the simplest, most perfect and most popular riding plow of its class now in use.

**THE P. & O. CANTON
SUCCESS PLOW**

Is the best and cheapest plow for the following reasons: It does the same work as plows that cost a great deal more. It costs less than other riding plows because it is made of fewer parts. On account of its having fewer parts it won't get out of order.

Plows get out of order because they are complicated. The **Success** isn't complicated—it's very simple. A plow that won't get out of order is what you want, isn't it? You would call such a plow **strong and durable**.

That's why the **Success Plow** is named "**SUCCESS**".

Being less expensive than others, doing first class work, possessing the essential qualities of strength and durability, the **Success** deserves all we claim for it. That is why it is the cheapest. **The best is always the cheapest.**

News From Lynn.

Prof. and Mrs. Claiborn entertained the young people at a social party last Saturday evening. An excellent time was enjoyed by those present.

Between thirty and forty of the people of Lynn and Morgan communities joined in a big wolf hunt last Saturday in the Wilson county school land pasture. At noon a quite tempting repast was spread near the north mill by the ladies of the party. Cakes, pies, fried chicken, etc., soon suffered a bad wreck, and the party after resting about an hour, resumed the hunt. While not very successful as hunters, the crowd enjoyed a nice outing and plenty of fun.

Rev. H. S. Hatchett preached to a crowded house last Sunday at 11 o'clock; Sunday School was well attended and was a quite interesting service.

J. E. Ketner gave a singing last Sunday evening, which was well attended in spite of the drizzling rain. We are glad to note the revival of interest in singing among the young folks.

Arthur Davis and wife, of the Bresford community were at church at Lynn Sunday last. They took dinner with the family of W. H. May.

Misses Vena and Tommy Elkins visited their home-folks at Post City last Saturday and Sunday, returning Sunday afternoon accompanied by their brother-in-law, Sheriff O. B. Kelly of Post City. Mr. Kelly returned to Post Monday morning.

D. H. Hatchett, L. H. Faw, Wilson Embry, Edgar Milliken, and Misses Ilen and Delia Faw and Clara Milliken took dinner with Mr. and Mrs. S. B. Hatchett Sunday last.

Mr. and Mrs. B. B. Wise and family were at church at Lynn last Sunday for the first time since the illness of their children. They took dinner at the home of W. H. May.

Mr. and Mrs. T. M. Cosstephens, Lewis Milliken and Tollye Marchbanks dined with Jesse Hatchett and wife last Sunday.

Joseph Faw visited Bircha Marchbanks Sunday last.

Quite a good deal of gardening is being done now and some small grain is being planted.

Ben Yarborough and wife and Walter Coughran left Thursday for Tahoka where they will make their future home. We regret to lose these promising young people, but wish them success in their new home.—Richland Springs Eye-Witness.

...Rule Review states that the Mineral Wells & Northwestern which has been constructed and is in operation from Weatherford to Graford, a distance of fifty-three miles, will be built through Jack, Throckmorton, Haskell, Stonewall, and possibly may continue westward through Keft and to Post City. Kent is already on the boom, town lots selling fast, and a big number of people taking up land around the city as they know there is a good future. If this road is built to Kent, it will go through one of the best oil fields in the United States, besides several mines that will soon be in operation.—Western Ligh.

The Devil was given permission one day
To select him a land for his own special way,
So he hunted all over for a year or more
And fussed and fumed and terribly swore
But at last was delighted a country to view
Where the prickly pear and the cactus grew.
As he surveyed the land he said "By Joe,
I'll select the plains of New Mexico."

He saw there was some improvements to make,
For he felt his own reputation at stake.
An idea struck him and he swore by the wind and storms
That he would make it a complete land of thorns.
Then he sowed the land with the prickly pear
And scattered the cactus everywhere
The Spanish dagger, that's sharp pointed and tall
And the thorny mesquite was the worst of all.

The wind that blew seemed to come from hell
And his scented train began to smell;
'Twas legions of skunks he left there to dwell,
To perfume the country that he loved so well.
Then for his life he could not see why
The rivers should any more water supply.

Then he swore if he gave them another drop
His hell in New Mexico would stop.
So he filled them with sand till they were almost dry
And poisoned their banks with alkali
And promised himself on their slimy brink
The carcasses of all who from them should drink.

He saw still another improvement to make
So he imported the scorpion, tarantula and rattlesnake,
That all who might come to that land to dwell
Would be sure to see it was simply Hell.
Then he fixed the heat at one hundred and eleven
And banished forever the moisture of heaven.

And he remarked as he heard the hot winds roar
That the heat might reach two hundred or more
Then after he'd fixed things so thorny and well,
He said "I'll be darned if this won't be Hell."
But shook his head in dire alarm
As he thought some poor blame fool might come there to farm

But he laughed outright in merry glee
As he imagined him trying to plow up a mesquite tree.
And now, no doubt, from some corner of hell
He gloats over the work he thought he'd done so well
And thinks some day he may come to dwell
In a land that far surpasses his original hell

Now, should you desire a home out here
For yourself and family so dear
And in New Mexico come to view and look,
Beware of the man that is a crook.
He dresses well and displays his gold
With a heart of fraud, and lies smooth and bold;
He is called a booster, liar and realty man,
And makes you believe he controls all the land,
And when you leave there come I tely busted,
Just thank the realty man in New Mexico you trusted,

Houston Mills, Brick Layer.

Three weeks ago we took charge of the Lockney Beacon as the main high promoter of the same. In the Floyd County Hesperian there appeared a short notice of our departure from Floydada. The Crosby County News gave us ample justice and then some. But the rest of our exchanges have been remarkably silent. We hate to say it but we are somebody come and appreciate the gain of the press fraternity in securing us as esteemed contemporary and if in a short time we do not hear congratulations on all sides we should feel personally aggrieved. We should certainly not like to be forced to desperate means.—Lockney Beacon.

We arise to say that we hastened to extend fraternal congratulations to Mr. Homer Stein of the Lockney Beacon just as soon as we were made aware that he was somebody come. For fear the young brother, in his haste to be received as esteemed contemporary failed to carefully read his exchange, we are sending him a marked copy of the Lynn County News in which we give him a motherly welcome to the Newspaper world. That's right Homer if you get your editorial dignity mashed you just make your trouble known and we'll do our best for you. But now let me tell you son, don't you hitch your 'G Wash' to a star and then feel aggrieved when you get your editorial shins

bumped on the seeming neglect of the afore named contemporaries. You must cultivate a humble attitude and a spirit of meekness in your youth. It's a good thing to learn to dodge things too, so that when you are old and fame come your way you won't be knocking the stars out of their place with your head. Say Hesperian you get busy and notice the Lockney Beacon this is our second effort in that line.

THAT

SUCCESSFUL PLOWING

Can always be accomplished, in all sections and under all conditions, by the **Success Plow**. It is a frameless plow that will last a lifetime. It has been on the market for years, has been tried and proved, and is, beyond question, the simplest, most perfect and most popular riding plow of its class now in use.

THE P. & O. CANTON SUCCESS PLOW

Is the best and cheapest plow for the following reasons: It does the same work as plows that cost a great deal more. It costs less than other riding plows because it is made of fewer parts. On account of its having fewer parts it won't get out of order.

Plows get out of order because they are complicated. The **Success** isn't complicated—it's very simple. A plow that won't get out of order is what you want, isn't it? You would call such a plow **strong and durable**.

That's why the **Success Plow** is named "**SUCCESS**".

Being less expensive than others, doing first class work, possessing the essential qualities of strength and durability, the **Success** deserves all we claim for it. That is why it is the cheapest. The **best** is always the **cheapest**.

OUR MOTTO, THE BEST.

Equipped with the best bottoms made, adjustable front axle; dust-proof removable wheel boxes; adjustable rear wheel; easily set for any depth; works equally well with large or small horses; light draft and easily operated—a **perfect plow**.

A PICNIC.

Mr. and Mrs. Morris Miss Ma y Whipp Miss Annie Cowan Mr. Joe Marrs went to the Indian Canyon last Thursday picnic ing. They had a lovely day for their outing and the twenty mile drive in the early morning was very enjoyable indeed. After viewing the scenery and having some pictures taken a delicious lunch was served to which ample justice was done. More scenery and pictures helped to pass away the afternoon. The young ladies and Mr. Marrs chased some antelope quite a distance in the buggy. The horses got tired before the antelope did and they failed to catch the game. The party returned home late in the afternoon expressing themselves much pleased with the day's outing.

Miss Meta Clayton came home last Friday to spend the weekend with the homefolks. Miss Meta returned to her school Sunday afternoon.

A children's party was the occasion of a very pleasant evening at the home of G. W. Reed last Friday. Misses Georgie and Maud are charming young ladies and gave the children a delightful time.
