Rural Water System Under Consideration

A rural water system is under consideration by residents comprising seven districts. Clinton Kennedy, with the Muleshoe FIA office and Ralph Douglas, city engineer, met with a group of interested persons at 7:30 p. m. Tuesday in the Bula

school to discuss the feasibility of the plan. Should the plan be carried out, as it has in many rural areas of West Texas, it would take water into rural homes as is offered for homes in cities. The pressure and water would be tested often for bacteria and be for domestic use only. It would be based on a \$6 minimum fee per month with 40 pounds of pressure. Fire plugs will be installed at all places of business and at homes where they are desired.

Men working on the project in the seven different districts will be contacting every land owner in these districts and explaining the project thoroughly for the land owner's consideration. Working closely with the project, those who are heading up the movement feel that it will bring much more potential to the communities, such as price of land, and lower insurance rates.

It was related that 400 members should be secured as a minimum figure to make the project work, and the officials pointed out that it would be much cheaper to install the water system when the original lines were installed rather than having it done at a later date.

Kennedy told the group that from the FIA standpoint, they were ready to start assisting with the project with a \$1,000 loan per user.

Heading the movement from each district and the districts are Vic Deresing, Pep; Don Fincannon, Pettit; Eddie Wallace, Bula; R. T. Newton, Enoch; Raymond Gage, Circleback; Fred Grisson, Bull Lake; Mar-

vin Bowlin, Beck and Pete Pootee, Needmore.

Bob Kirk, Littlefield, is legal advisor for the groups and the second meeting has been planned for October 30. Time and place to be announced.

The districts will be Needmore and Circleback, District One; Beck and Frenship, District Two, West of Littlefield to Bull Lake, District Three; Enoch, District Four; Bula, District Five, Pep, District Six and Pettit, District Seven.

Reports which have been received by the Journal show that five bales of cotton have been ginned in Bailey County this week.

E. J. Cox took the first bale reported to the Farmer's Co-op Gin at Enoch Wednesday afternoon. The bale weighed 435 pounds and was machine-stripped.

The second bale reported was taken to Bailey County Gin by Bert Seales and weighed 490 pounds, with 2,000 pounds of seed.

In the Bula community, Donald Joe Cox gathered and ginned the first bale for that area. His farm is between Bula and Enoch.

One bale weighed 435 pounds and the other weighed 528 pounds. Young's Gin received one of the bales and the other

Carla Parker Accident Victim

ONE KILLED--Three-year-old Carla Parker was killed as the car driven by her father hit the rear of a stalled vehicle on U. S. 84 at 11:30 p. m. Thursday. Three others were injured in the mishap.

Three-year-old Carla Irene Parker, daughter of Mr. and Mrs. Carlton Parker was pronounced dead on arrival at West Plains Hospital about 11:30 p. m. Thursday following a two-car accident 2.7 miles southeast on U. S. 84. Three others were injured.

Injured were parents of the child, and Mrs. Scottie Morris, a long-time resident of Muleshoe. Parker and Mrs. Morris are being treated for injuries in West Plains Hospital where their condition is reported to be good and Mrs. Parker was transferred to Methodist Hospital by Singleton Ambulance where she underwent surgery for head injuries and is reported in serious condition there today.

The accident occurred as a car being driven by Donny Mack Parson had been pushing the Morris car and made a U-turn, parking on the highway median facing on-coming traffic from

the southeast. The Morris car was stalled on the highway without lights and Parker, returning from Littlefield was blinded by the headlights of the Parson vehicle and did not see the stalled vehicle. Young Parson is a grandson of Mrs. Morris.

The impact threw both vehicles to the embankment on the north side of the highway. The accident was investigated by Highway Patrolmen Gene Sizemore and Freddie Jack.

Funeral arrangements for Carla are pending at Singleton Funeral Home here. In addition to her parents, she is survived by her grandparents, Mr. and Mrs. Byron Douglas, Littlefield; Mr. and Mrs. Monroe Parker and a great-grandmother, Mrs. Stella Parker, Anton.

Parker is the tax assessor-collector for Muleshoe Independent School District and the Morris' operate a local service station.

Officials Urge Citizens To Prevent Costly Fires

Observance of National Fire Prevention Week, October 8-14, in Bailey County is being urged by both rural and city fire prevention leaders.

Muleshoe Fire Chief Earl 1954 and James Warren, President of the Bailey County Farm Bureau, urge citizens of Bailey County to pay special heed to the observance this year by taking steps to prevent costly fires.

"We urge everyone to develop good fire safety habits which include such things as care with matches and smoking, good housekeeping to get rid of rubbish, proper use of electrical fuses, appliances, and extension cords, and a constant general awareness of the ways of fires start and how to avoid them," the local fire chief said. He added that fires killed over 12,000 people and the cost was approximately \$2 billion in the United States last year.

The local Farm Bureau President said the fall and winter months are the most vulnerable times of the year for rural fires. "When fire occurs on farm or rural property, damage is three to six times greater than the average city fire," Warren said.

Warren said that Farm Bureau has two programs designed to help curtail fire losses. The local organization, in cooperation with the Texas Farm Bureau, sponsors the attendance of local volunteer firemen at the annual Firemen's Training School each July in

College Station. Local firefighters sponsored this year were Owen C. Jones and James Wallace. The state and local Farm Bureau organizations also pay \$75 to local fire departments for each call made in rural areas involving fires of Farm Bureau insured property.

In addition to these programs County Farm Bureau sponsors a graphic 45-minute fire prevention film on Page 2, Col. 1

Wayne Williams Is Commissioner Post Candidate

Harvey Bass, Bailey County Democratic chairman, has announced that Wayne Williams has filed as a candidate for County Commissioner, Precinct One, Bailey County for the coming primary to be held next spring.

Williams, 47, is co-owner of Williams Bros. Office Supply and has been a resident of Muleshoe for the past five years. He and his wife, Louise, have three children, Julie, employed by an Insurance firm; Annette, a Junior in Muleshoe high school and Roger, who is in the 7th grade.

L. M. (Be) Stinson has revealed that he will not be a candidate for the post which he has served as Commissioner of Precinct One for the past several terms.

County Agent Emphasizes Care in Soybean Harvest

Soybeans in Bailey County are fast approaching maturity and will soon be ready for harvest. Approximately 10,000 acres are being grown in this county.

"However," says this County Agricultural Agent, J. K. Adams, "the moisture content of the beans should be checked closely before taking the combine into the field."

Ideally, this moisture should be below 12 percent," points out Adams. "At that time the beans are fully mature and the pods have not yet begun to shatter."

"If the beans are harvested at a higher moisture content, they will likely wrinkle on drying and will deteriorate rapidly in storage," explains the agent.

"In turn, if they are harvested after becoming too dry or harvest is delayed, serious losses will result from shattering," Adams points out, "that when the moisture content of the beans is less than 10 percent at harvest time, they will be more susceptible to mechanical damage."

Four Cases Tried In County Court

In county court this week Robert Hawkins was fined \$75 plus court costs on a guilty plea of possession of alcoholic beverages in a dry area.

W. T. Brown was fined \$50, and court costs, on charges of carrying a knife and Nathaniel Williams was fined the same amount on charges of carrying a pistol. Both pleaded guilty to the charges.

Kenneth Raulston was fined \$200 plus court costs and sentenced to four months in jail after pleading guilty to driving while license was suspended.

D.C. Mustangs Tromp Mules

The Muleshoe Mule-Denver City Mustang battle on the football field Friday night ended up with the same score on the board at the end of the final quarter as was the half-time score, a 31-0 victory for Denver City.

The ball, the plays and the breaks all fell Denver City's way during the first two quarters of the game, but the defensive team came through to hold them down in the last two quarters of play.

In the first quarter, Mustang Marshall Dolloff crossed the line to put the first points on the board with the kick for the extra point good.

On the return play, Mule Charles Beaman passed to Bobby Julian and the scramble was on. Julian gained from the scrimmage line to the 45-yard line on the short pass play.

A total of approximately 35 yards in penalties were handed the Mules on "off-side" rulings on the next three plays, then they came back to gain three yards down the center of the field before losing the ball to Denver City.

The Mule kick was received by Mustang Robert Hernandez, pulled down on the 47-yard line by the Mule pack.

Denver City again scored when 16 yards were gained rushing and Hernandez ran the ball over the goal to bring the score to 13-0. A sneaky play, executed by the Mustangs, allowed the conversion to be run

across, bringing the score to 15-0. Robert Kizer, Denver City Mustang, pulled his shoe off in preparation to kick the ball for the extra points, then the Mustangs passed to make their points.

A penalty was thrown on a pass play from Terry Field to Bobby Julian as they moved the ball to the 40-yard line and it was called back. It was the Mustang ball on a Mule fumble with Randal Freeman failing to complete a pass intended for quarterback Pat Rich. Robert Kizer took the ball and passed to Dolloff for another 12 yard gain before Muleshoe took the ball again.

Julian took the pigskin down the field 25 yards on the play, and was followed by Charles Beaman adding 6 more yards to the Mule gain.

A pass attempt by the Mules was flicked out of the hands of the passer and Denver City recovered the ball.

On an interception, Dolloff again crossed the goal, lofting the score to 21 and the dash across the line gave the Mustangs an additional two points bringing the total to 23-0.

Just before the half-time whistle, Dolloff again scored for the Mustangs with the try for extra point good bringing the score to where it stood when the game concluded at 31-0.

Terry Field got away from the Mustang herd in the first play of the third quarter and picked up considerable yardage for the Mules with all the makings of the first score of the game going for the home team. He was brought down by the Mustangs before completing the dash for the goal.

The Mule team played an outstanding defensive game throughout the final half of the game.

Bula Defeated

Wellman's Randall Redman showed his heels to the Bula Bulldogs in the first period of a non-district clash Friday night as the Wildcats trampled the visitors 61-8.

Redman opened with touchdown runs of 18, 10 and 10 yards before the teams changed ends of the field, and Max Hulse scamped 45 yards for another Wellman score for a 27-0 first quarter lead.

The second period went much the same with middle guard Royce Adams starting the tract meet when he blocked a Bula punt and carried it 20 yards for the score.

Ismael Contreras scored on a seven-yarder, and Keith Martin found Hulse open on a 30-yard pass play for a 46-0 lead before Bula got their offense going.

"Well, I wish I was in heaven."
"And I wish I was in a beer garden," groaned the husband.

was taken to the Enoch Co-op Gin.

This acreage was severely damaged by hail and for each 10 bales gathered last year, only two are being harvested this year. The variety is Sweet #75.

Terry Davis took the first bale to Muleshoe Co-operative Gin from north of Muleshoe. Davis reported the first bale of cotton on the land he farms four miles north. The bale ginned weighed 640 pounds with 1,020 pounds of seed. This bale came from an acreage also damaged in the June 2 hail storm and was Paymaster 101 variety.

Three Way Team Loses Game

Sterling City spanked the Three Way Eagles 22-8 Friday night in an eight-man Class B game.

Halfback Esau Vargas plowed for two one-yard touchdowns, halfback Gary Foster sprinted 75 yards for another touchdown. Quarterback Phil Cole passed to Vargas and end Frank Price for a pair of two-point conversions to round out the scoring.
End Wendell Williams, recovered a fumble in the Sterling City end zone for the only touchdown by Three Way. Quarterback Bruce Pruitt passed to Williams for the extra points.

CONGREGATION RETREATS

PORT WORTH (AP)—Evans Avenue Baptist church, a white congregation situated in an area now predominantly Negro, is moving out of the section to merge with another white Southern Baptist church seven miles away.
"Our people can get concerned about Africans but not about the Negroes across the street," explained the Rev. Frank Minton, the pastor. "We have been missionary minded in an impersonal way for so long that when the mission field moved next door we didn't know what to do."

New Oat Variety Good on Plains

A new oat variety, Norwin, developed by the Texas Agricultural Experiment Station and the U. S. Department of Agriculture shows marked winter hardiness and high production of forage and grain.

Foundation seed may be obtained from the Foundation Seed Station, TAES, College Station. Registered and certified seed are available from growers and commercial seedsmen from the 1967 crop.

End Debate, Withdraw Opposition, Force Urges

The Sandhills Philosopher

Editor's Note: The Sandhills Philosopher on his Johnson Grass farm has discovered a new problem but no answer, his letter this week reveals.

Dear Editor:
There are so many new crises turning up almost daily throughout the world, like hurricanes and floods and strikes and car wrecks and international squabbles and crime waves and abuse of the language like calling that zone in South Viet Nam de-militarized when the greatest accumulation of firepower in the history of warfare is concentrated there and being used 24 hours a day, that there are times when I'm not sure I want to see a newspaper turn up out here on this Johnson grass farm, but nonetheless a fresh north wind blew one in yesterday and sure enough it was up to standard.

According to it, school buildings this past summer throughout the country were subjected to record-breaking vandalism.

For example, in Chicago 90,645 windows were broken in school buildings, 36,525 were broken in Washington, 25,400 in Los Angeles and over 100,000 in New York, and untold thousands in smaller schools around the nation. Hardly a town or city escaped, and one estimate put the total over a million busted windows.

At the same time, this same paper reported that there is a definite shortage of good pitchers in both major league baseball divisions and it makes you wonder where the schools are falling short. Are they putting up buildings so close to the ground and so thick with windows a boy gets no aiming practice at all in throwing a rock through one?

You break out millions of windpans and not produce a single good pitcher, and you can see something is seriously wrong with the school system.

We didn't have one-tenth as many percent as many windows

WASHINGTON, D. C.—Bob Price, a member of the House Republican Task Force on Crime, today introduced legislation which would amend its Electronic Surveillance Act to bring it within the framework outlined by the Supreme Court in the Berger case, and recently supported by the Judicial Conference of the United States. The Task Force directed Notre Dame University Professor G. Robert Blakey with drafting the amendments.

Panelist Congressman Bob Price and the GOP crime group called upon the President to instruct the Attorney General "to withdraw his opposition" to use of court approved electronic surveillance in the investigation of organized crime by federal and state law enforcement officers. Calling the Judicial Conference of the United States support for wiretap legislation "most significant," Price said, "There is no longer a basis for reasonable controversy over the necessity or Constitutionality of this legislation."

"The time has come to end the debate. Now it is time for action," Price said.
With respect to the Judicial Conference, the Task Force noted that it "is a body of unparalleled prestige" headed by the Chief Justice of the United States Supreme Court. Judicial Conference membership

includes the chief judges of all the Federal Circuit Courts and selected judges of certain Federal District Courts. Their report "represents the considered judgment of a purely judicial body" whose members are "in no way spokesmen for law enforcement."

The GOP statement in which Price joined continued, "Their stated position, volunteered and unsolicited, can only be interpreted in one way. They recognize the need for electronic surveillance in order to effectively fight crime. Moreover, they recognize that law enforcement can be given this tool within the limitations of the Constitution."

Santa Fe Rail Makes Change

All mail will soon be removed from Santa Fe Railway's passenger trains, because of recent far-reaching decisions by the United States Post Office Department, according to John S. Reed, president.

Second, third and fourth-class mail will shortly be moving in Santa Fe's fast freight service, he noted.

"With the loss of mail revenue from our passenger trains, and faced with a sharply declining trend in passenger travel, there was only one course of action left open," Reed said. "In the next few days Santa Fe will file with the appropriate regulatory agencies proposals which will restructure our passenger operations. It is our intent to maintain the Super Chief and El Capitan operating between Chicago and Los Angeles, the Texas Chief between Chicago and Texas, and certain connecting service to San Diego. The future of these remaining fine trains will depend on continued patronage. We propose to discontinue all other service."

"It is believed this approach will give our territory and customers a passenger service more nearly tailored to its present needs," Reed stated.

On September 6 Santa Fe was notified by the United States Post Office Dept. that by October 6, 1967, all but two Railway Post Office cars would be removed from its passenger trains. Additionally, the Post Office Department announced it will pay for the transportation of all second, third and fourth class mail at such a reduced rate it is no longer feasible or practicable to handle this mail in passenger train service.

"Nearly \$35 million of annual mail revenue, the backbone of our passenger trains, will no

longer be available to help support these trains, which were already marginal or operating at a loss. The loss of mail was a sudden, devastating blow," the rail president said.

"For some time railroads have not shared in the rapid growth of travel occurring in this country. On the Santa Fe this recently has been evidenced by a decline of 17.3 per cent in passenger revenues in the first eight months of this year compared to the same period a year ago. We do not foresee a reversal of this trend despite our best efforts to promote rail passenger travel," Reed said.

Reed pointed to the growing popularity of highway and air travel with accompanying governmental expenditures for highway construction, meteorological and guidance systems, and airport facilities, as factors which enticed passengers away from the railroads.

He noted that Santa Fe's passenger loss, under the formula for apportioning passenger train costs prescribed by the Interstate Commerce Commission, was over \$32 million in 1966. He predicted the 1967 figure would be significantly greater primarily because of (1) the mail revenue loss; (2) declining patronage; and (3) sharply increased costs for labor and materials, which continue to rise year after year. "While the validity of the I.C.C. formula is debatable, the upward trend is significant. When the full impact of the loss of mail revenue becomes effective, passenger train losses under any formula will be staggering," he predicted.

Reed emphasized that Santa Fe has spent \$136 million since 1946 on passenger cars and locomotives, advertised and promoted aggressively, and introduced numerous fare and service innovations in an effort to attract patronage. "Santa Fe did not abandon the traveling public -- travelers show an increasing preference to fly or drive," he said.

"It is logical to assume that restructuring of our passenger train service will affect some of our personnel; however, we

are unable at this time to forecast with accuracy the impact on individual employees brought about by this change," the rail president said.

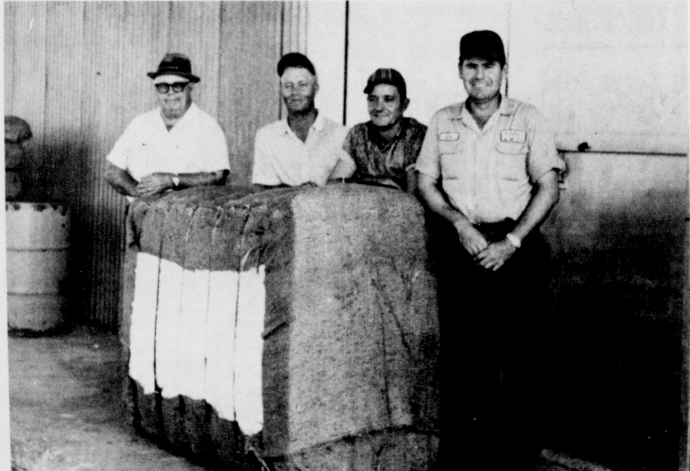

"The territory we serve, our patrons, our stockholders and the largest number of our employees will benefit in the long run if we are relieved of the serious monetary drain which unnecessary passenger train service will impose. Funds for progress and change on a railroad must not be wasted on any services that the public will no longer support. These funds should be devoted to types and concepts of service which will create additional employment opportunities and meet the needs of the public," he said.

Reed noted Santa Fe's recent investment for new freight equipment, diesels, signal and communications equipment, and yard facilities. He mentioned Santa Fe plans for bold new types of freight service in the near future, including expansion of container freight operations and special equipment.

"All of these plans and more will tend to create new employment opportunities. These and other new ideas are being implemented to gain additional business and special equipment better ways to keep Santa Fe a progressive and profitable railroad," he concluded.

Rapid progress made by China in nuclear arms.

This was something unusual since the parent's family members and students were invited to attend this "Pianorina."

Mrs. McKinstry, Mrs. Allison and Jim returned home late Sunday.

On Monday October 2, Mrs. Sam Dameron attended an organ workshop at the Phillips House of Music in Clovis, N.M. This workshop was conducted by Porter Heaps, who is one of America's finalist concert organists and teachers. After receiving his Master's Degree in music from Northwestern

Matinee Set For Carnival

This year, a new kind of fun entertainment will be found at the annual Halloween carnival and it will be sponsored by the Girl's Choir of MHS. Soon, it will be underway and in full swing. The girls are going to show short, funny movies under a tent supplied with chairs. This brilliant idea is mostly for the small children who cannot take part in so many of the other things at the carnival. But, older ones are expected, too. There will be a movie projector and screen set up with several different short movies planned for a little matinee. Parents, please bring your small children, for you can be sure that they will be cared for besides having lots of fun.

Victory in Vietnam certain, Nixon says.

Freshman Team Holds Frenship Close on Football Field Here

By Danny May
 Last Thursday the Freshmen Mules dropped a close game to the Frenship Tigers. The final score was Frenship 20-Muleshoe 14. Muleshoe's first touchdown came in the second quarter

when Keith Turner ran it in. The two-point conversion was missed. The Mules second touchdown came when Steve Black ran it over from fairly close to the goal line. The Mules made the conversion when they faked a kick and Terry Gunter passed to Steve

Black. This gave the Mules a 14-0 lead. Frenship came back, though, when they ran the Mule's kick-off back 80 yards for a touchdown. Their two-point conversion was unsuccessful, making the half-time score Muleshoe 14-Frenship 6. No one scored again until late in the fourth quarter when Frenship ran another touchdown. The two point conversion was good and the score was tied at 14-14. With only 30 seconds to play in the game, the Mules fumbled on their five-yard line giving the ball to Frenship. On the next play, the Tigers passed for the final and winning touchdown. The two point conversion was unsuccessful. The

Mules now stand 1-1 in freshman competition.
