Lynn Blue Ribbon Fruit Country

Lynn County Orchards Are Just Commencing Into Bearing. Abundant Crop—Prop up Limbs to Save The Trees

If you have any doubts as to this being a fruit country, we would like to sight you to the young orchards right here in town. All the orchards in Tahoka are, comparatively speaking, young; only a few having yet come into full bearing. But take a look at the W. S. Swan orchard and vineyard on the old Bartley place in North Tahoka, and you will see little trees fairly groaning under the burden of fruit and vines hung thick with great clusters of ripening fruit; go to the G. W. Snider residence (the old Swan place), the R. D. Morris home, the G. M. Clayton home, G. W. Coughran and C. E. Brown places, and then to the T. C. Leedy place and at every one of them you will find peach trees with the branches dragging the ground with the load of fruit, and the apple and plum trees are the same way. Some have had to prop up the limbs to save the trees. Those who had cherry trees old enough to fruit this year have already gathered a full crop, and the grape vines are as full of fine fruit as they ever get to be in any country. At the S. N. McDaniel residence can be seen some wild plum bushes that are lying almost flat on the ground they are so heavily loaded with green fruit. Everyone should plant more fruit trees this fall, as fruit of all kinds is successful here to a wonderful degree.

Molly Bailey—Tahoka—Wednesday

COUPLE ELOPE AND MARRY

The same old story often presents itself where the parents refuse to give up their last girl, the baby as was the case of Mr. Moore, of McDonold, when last Sunday the father of the girl, in no uncertain terms, pointed out the road, which lead down the lane, to the girl's lover with a two barrell shot gun. But the romance did not end there; the girl loved the young man and he loved her and this only intensified their love. So each night a note was exchanged at their postoffice—a big rock down by the lot.

By previous arrangement, last Tuesday night between 10 and 11 o'clock the girl arose and quietly passed out thru the room where parents and brother were sleeping, passed thru two other rooms, raised a window and left the house and went forth to meet her lover, who had about lost hope of her escape that night and had started to the postoffice.

They lost no time in getting to the hidden buggy and started at once for Rev. R. S. Harris, who had the licence and lived 20 miles away on the Texas line. At King they stopped and secured more wraps and proceeded at once for Bronco but it rained and got dark and they spent most of the night rambling around in the rain and at daybreak found themselves 8 miles from their destination. So at 6 o'clock they drove up to the house and at once Prof. W. R. Lewis and Miss Bill Moore were made man and wife. The groom is of a popular and well known family and is a Normal Vocal music teacher and has many friends. The bride is an accomplished, popular

Lynn Locals

Lynn, Texas, June 26th.

Several of the Lynn people attended the debate at Tahoka last week.

We had a fine rain Saturday which was sure fine on crops and prospects were never better.

J. I. Bartley and family visited H. S. Hatchett and family Sunday.

J. T. Curb and family visited at C. T. Beards Sunday.

Mrs. Murrah and daughter, Miss Lola, visited Ragtown Saturday and Sunday.

L. R. Bartly and family visited Boyce Hatchett and wife Sunday.

C. T. T. Beard was a business visitor at Post Friday.

J. A. Rhoades was a business visitor a Post Monday.

Lynn Sunday School isto have a Sunday School Rally, Singing and dinner on the ground first Sunday in July. Every body invited.

Mrs. D. H. Hatchett is on the sick list this week.

I. W. Meyers was a business visitor at Slaton Monday.

Cecil and Bryan Shaw were visitors at Post Sunday.

HOOSIER

and one of the most energetic young ladies of the country. The Progress joins their many friends in wishing them a life of prosperity.—King (N. M.) Progress.

Let Frank and Jumb do your hauling and Tom Higgins will look after the bills for you. 41-44

Grandma and Miss Lessie Shook left on the Monday morning train for Plainview, Miss Lessie returning home and Grandma to visit her son, B. L. Shook, for a while.

FOR SALE—Thorough-bred Berkshire shoats. \$12.50 singly, or \$22.00 per pair.—L. R. Bartley, 11 miles N. E. of Tahoka. 42-43

Kaffir For Sale

Big bundles, extra heavy grain. See J. O. King, two miles north of Tahoka. 41-44

Uncle Sam Singleton came in Thursday afternoon from a trip to Colorado, Texas. He says that while it is rather dry near town, they have had plenty of rain in many parts of the county and grass is beginning to look fairly well.

NOTICE.—No hunting allowed with guns or dogs in the Brownfield ranch. 11-tf

RAY BROWNFIELD.

Barbecue Tuesdays, Thursdays and Saturdays at the Cash Meat Market. 31-tf

Buy a Tahoka made broom at the Parkhurst Broken \$ Store and you will get the best broom sold on the Plains. 41-tf

J. N. Watson, of Lames, came up and spent the day in Tahoka transacting business, returning on the evening train.

Molly Bailey—Tahoka—Wednesday

Mrs. Temple Skinner and her sister, Miss Lura Howell, came in this, Friday, morning from a visit with Mr. and Mrs. Bob Ware, of near Stanton.

MONEY to Loan on Real Estate at 9% per cent. No Red Tape.—J. B. Walker, Tahoka. 41-44

Colorado-to-Gulf Auto Highway Meeting at San Angelo June 25

Quite a large auto party party passed through Tahoka Tuesday morning on their way to San Angelo. The party consisted of seven autos with 26 prominent men of Colorado, New Mexico, and the towns north of here, among whom were several editors, all on their way to attend the Colorado-to-Gulf Auto Road meeting that took place in San Angelo Wednesday.

A car from Lubbock contained R. I. Tubbs, S. J. Winn, B. O. McWorter and Albert Taylor, of Lynn county, who represented Tahoka in the balloting; a car from Trinidad, Colorado, containing E. J. Welch, editor of the Trinidad Advertiser, Victor M. Friar, Secretary, Chamber of Commerce, H. E. Wilby, Chas. Summerall and E. J. Rice; a car from Raton, New Mexico, containing J. H. Conway, editor of the Raton Ranger, Prof. Conway, superintendent of public schools, E. C. Sperry, auto aget., and Dr. O. T. Whitecomb; a car from Clayton, New Mexico, containing N. E. Charlton, Mayor, Judge O. T. Toombs, State Representative for New Mexico, and R. T. Maasker, Sheriff of Union County; a car from Amarillo, containing Frank A. White, V. P. Amarillo Chamber of Commerce, Tom Currie, T. Amarillo Chamber of Commerce, C. O. Wolfen, President of the Potter County Good Roads Association, Seth B. Holman, Sec. Amarillo Chamber of Commerce; Clarendon Ions came down to Plain-

view and drove his car from that city with three other occupants; the seventh car contained E. E. Roos and B. O. Brown, editor of the Twice A-Week Herald, both of Plainview.

The party left Plainview at five o'clock Tuesday morning, took breakfast in Lubbock and passed through Tahoka between eleven and twelve o'clock, arriving in San Angelo at night, making a drive of 273 miles.

There were 150 with over 300 delegates in attendance at this meeting at which they perfected the permanent organization of the Colorado-to-Gulf Highway Association, and the following officers were elected: H. E. Jackson, San Angelo, President; T. W. Conway, Raton, N. M., First Vice.; D. E. Culp, San Antonio, Second Vice.; B. O. Brown, Plainview, Secretary-Treasurer; E. E. Roos, Plainview, Advising Engineer.

The Highway was routed as follows: Colorado Springs, Trinidad, Raton, Dalhart, Amarillo, Canyon City, Plainview, Lubbock, Tahoka, Lamesa, Big Springs, Sterling City, San Angelo, Kerrville, San Antonio and Corpus Christi.

The next meeting of the Association will be held on the fourth Wednesday in June, 1914, at Trinidad, Colorado.

San Angelo furnished the delegates a fine barbecue Wednesday and a big dance at night.

GRABS FOR ALCOHOL DRINKS CARBOLIC ACID

Saturday, the 14th of this month, a prominent citizen of Midland county tried to swipe a drink of Alcohol and got a drink of carbolic acid instead. The citizen, Geo. P. Arthur by name, walked into a doctor's office in Midland and told the doctor he was sick and wanted a drink of alcohol. The doctor told him he had only a small amount and could not spare it. Then while the doctor was called into the outer office, the man saw a bottle on the shelf that had some liquid in it that looked like alcohol and tipped it up and down it went. He straightway called the doctor to relieve him, but died in a few minutes in great agony. Mr. Arthur leaves a wife and six children.

WEDNESDAY, JULY 2. MOLLY A. BAILEY'S SHOW HERE

Leonaad Hoyle, who was badly cut in an affray a week or so ago in Plainview, is said to be recovering rapidly and will be able to be out in a few days.

Hall Robinson went up to Lubbock on the Wednesday morning train and returned Thursday accompanied by Mrs. Robinson and baby, and little Miss Hazel Alley, who had been visiting relatives in Lubbock for about a week.

Horace Peters, who was arrested as an accomplice in the alleged killing of J. M. Muncey by his wife, Mrs. Birdie Muncey, at Lockney, on May 24th, has been released on \$5,000 bond. Mrs. Muncey is still confined in the jail at Plainview.

C. E. Brown, one of Tahoka's real estate men, made a business trip to Sweetwater this week, returning home Thursday afternoon.

J. B. Walker left on the Tuesday morning train for South Texas, where he expects to round up some prospectors.

Three Lakes

Every thing fine and flourishing since the last showers.

Misses Cordelia and Linnie Babston visited with Mrs. Marshall Monday.

Mr. Strong and mother and son, John, attended the singing at Edith last Sunday.

Mr. Yates and family attended the debate at Tahoka Sunday.

Mr. and Mrs. Carter visited with Mrs. Marshall Sunday.

W. B. Edwards was a Tahoka visitor Saturday.

Mrs. Curry and daughter, Miss Alma, were out in this community since our last.

Three Lakes can boast of finer crops and gardens than have been here in the past five years.

Hershall Hines had business at Mr. Marshall's last week.

Miss Linnie Babston and Mrs. Noble were Tahoka visitors Tuesday.

BEAVER.

Rev. and Mr. J. R. Balch left in a buggy for their home in Brownfield Monday morning after attending the great Baptist debate in Tahoka. Rev. Balch is the Missionary Baptist pastor at Brownfield, and was well pleased with the way Dr. Jarrell handled the Missionary side of the debate—"Winning every point."

TRESSPASS NOTICE

Any one found cutting wood, or dumping trash or carcasses of any kind on the T-Bar lands will be prosecuted to the full extent of the law.

S. W. SAMPFORD, Mgr.

Mr. and Mrs. W. J. Pittman, who had been visiting in Tahoka for a week or so to attend the debate, returned to their home in Quay County, New Mexico, on the Monday morning train. They were members of the Primitive church and were highly pleased with the outcome of the debate, as they considered that Elder Newman had sustained his side of the debate in a masterly manner.

Ice in carload lots at the Cash Meat Market. 31-tf

Mrs. Belle Wallace and daughter, Miss Jewell, of Dallas, came in on the Monday evening train to visit Mrs. Wallace's sister, Mrs. W. K. Ray, of South Tahoka.

THE MERRY WIDOW IN TEXAS

Uncle Sam has just put our merry widows on the adding machine and finds we have in Texas 116,712 "sod" and 9,283 grass-widows, a total of 125,995 of all ages. We have a total of 64,140 widowers and 57,862 are "sod" and 6,278 grass.

We have 717,000 people in Texas who tread the narrow board-walk of matrimony each year and 5,000 make their exit from wedded life thru the divorce courts. A pessimist once said, "eat, drink and be merry for tomorrow you may be married." Our divorce records would fare better if, like the English sparrow, people would make themselves at home whether wanted or not.

In the garden of love there seems to be weeds as well as flowers and what cupid needs most is a good pair of goggles so there would be fewer weeds plucked.

Postoffice to Move onto Main Street

Petition Circulated the First of the Week to Move Postoffice Onto Main Street Gets Plenty of Signers--To Move Soon

The Tahoka postoffice will be moved from its present location to the new brick building, now being finished on the corner of Main and Harper streets, just as soon as the carpenters and painters finish their work. This is an ideal location for the postoffice as it gives a good cement sidewalk from both ways and it will be in a dust proof building; one that will be cool in the summer and warm in the winter. There will be lots of light and the lobby will be large and conveniently arranged. The room in which the post office will be located is 18x45 feet in the clear with 14 foot walls. This will give Tahoka one of the best if not the very best postoffice in West Texas in any city of its class. Let the gook work go on. Come to Tahoka where everyone lives up to the motto; "Nothing short about Tahoka but its past"

MOLLY A. BAILEY'S RAILROAD SHOW HERE WEDNESDAY

You just ought to hear the men around town telling of their gardens, what fine ones they have, just like they had not let their wives do all the work.

Mrs. G. F. Patterson and two went up to Slaton Tuesday morning to visit her sister, Mrs. Grover Shaffer, of that city, for a few days.

SANTA FE BUYS EQUIPMENT

Albuquerque, N. M., June 11—More than \$10,000,000 in cars and locomotives—equipment for handling the crops of the West—has been invested by the Atchinson, Topeka & Santa Fe railway in the last year. It is announced that the final delivery of this order is being received and will be placed in service in time for the accommodation of the shippers.

The equipment orders include more than 8000 cars and 117 locomotives. The locomotives are of the type now in use on the road—Santa Fe type. Consolidation, Pacific and Mikados. The engine delivery will be completed soon.

Nearly 200 furniture cars are among the orders. These cars are of the end door variety—built for the loading and unloading of automobiles. The motor car shipments have grown to such an extent in the last few years, that it has become necessary for the railroads of the west to invest in cars built expressly for their use. It costs as much for a freight as a man will pay for a house. A refrigerator car costs \$1400. An oil tank car costs \$1300. A furniture car costs \$1200. The common box cars cost \$1000 each. Even a flat car represents an expenditure of car fares amounting to a travel of more than 42,000 miles for a single passenger.

A dozen of the returning delegates took supper at the Tahoka Hotel last night and half a dozen more ate breakfast there today.

The Great Baptist Debate did no one any harm and did both of the participating churches much good. Informing the members as to the doctrine, ordinances and practice as believed and followed by both churches.

SMOKE UP!

Wake Up! Get Up
Early In the Morning!

☐ This town has the natural advantages and can secure new industries if it will only GET A MOVE ON!

☐ This town will be a better town if the people spend their money with the Home Merchant.

☐ This town will be more prosperous if it Advertises Itself and draws new enterprises here.

Let them see our smoke!

We notice by the Terry County Herald that the I. O. O. F. and W. O. W. Lodges gave a joint entertainment Saturday a week ago at Gomez. This seems like a good proposition to us, for two or more lodges to go in together in their entertaining. Why would not something like this do for Tahoka Lodges to try.

The issue of Thursday, June 19, of the Jefferson Jimplecote, Jefferson, Texas, marked the beginning of its 46th year. It has a record equaled by few if any—founded and published 46 years by same family. Founded by Ward Taylor, Jr., in 1885; under his guidance until 1885, when death claimed him from the ranks of Journalism:

since his death it has been edited and managed by his son, M. I. Taylor. We hope him continued success.

We went to one of our merchants to solicit an advertisement and he said, "No it wouldn't pay, for every body knows me and kows I am here"

Before we left the above mentioned store the proprietor told us of a Tahoka citizen who sent to a nearby town for a certain article, paid the same price he sold it for and the express besides. "I have had that article in stock for several years," the merchant concluded.

Did the man know the merchant? Cert; he was an old friend. Did he know where the merchant's store was? Sure; he traded there occasionally. Then what was the matter? He DIDN'T know that the merchant had the article in stock. Why didn't he know it; he read the county paper regularly?

Why was it he sent to the nearby town? He saw what he wanted advertised in the paper from the nearby town.

Are you on?

A New Editor

Yes, a new editor on the Herald force and boss of his dad's household; do you get that? Why yes, the only real baby in the whole world according to the unanimous verdict of Mrs. Editor and ourselves, came in Monday, June 9th, and forthwith announced his authority in no uncertain voice, which is pitched to key of G with an occasional p. p. (pound pentfully). But if nothing happens we are going to try to live with the young gentleman the next 21 years if he doesn't get too busy. However for the next few years we will still manage the financial end of the Herald, and will kindly ask you to pay your subscription while you think about, as we see he aims to dress to kill. He already shows a decided partiality for the ladies. Now's the time; pay up.—Brownfield Herald.

We have heard of many different ways to make the delinquent subscribers pay up; in fact all newspaper men are continually trying different schemes to accomplish this great end, but this is positively

Local Druggist Makes Statement

Says Dodson's Liver Tone is the Best Remedy for Constipation and Shirking Liver He Has Ever Sold

Every person who has tried Dodson's Liver Tone and kows how surely and gently it starts the liver to working and relieves billiousness will bear out the Thomas Bros. drug store in this statement about Dodson's Liver Tone.

"It is purely a vegetable liquid, that entirely takes the place of calomel, harmless and pleasant to the taste, that has proven itself the most satisfactory remedy for a slow-working liver that most of our customers have ever tried. A large bottle sells for 50c and we do not hesitate to give the money back to any person who tries a bottle on the strength of this statement and is not satisfied with the results."

In these days of doubtful medicines and dangerous drugs, a statement like the above is a pleasant assurance that Dodson's Liver Tone is a reliable remedy for both children and grownups. In buying a bottle for immediate or future use it is well to make sure you are getting genuine Dodson's Liver Tone and not some spurious imitation that has copied our claims, but do not stand back of their guarantee. You may be certain of getting the genuine if you go to Thomas Bros. Drug Co. for it. 43-11

the first time we ever heard of utilizing the arrival of a baby for that purpose. Tell us Stricklin does it pay? If it does, it is likely to become the favorite scheme, on the Plains at least.

710 rabbits, 6 rattlesnakes and one badger is the record of a party of 22 Howard county hunters for a one day hunt.

As a disease, appendicitis became known about 30 years ago. Since that time it is estimated that fully 200,000 people in this country have undergone surgical operations as a cure.

Among the seriously injured in a headon auto collesion in Big Springs, was Mrs. Guy C. Brown, whom we understand at one resided in Tahoka. All the party will recover.

In the hope of introducing it into the United States, an expert from the department of agriculture has been sent to Manchuria to get specimens of a peach that weighs a pound.

A large hawk attacked a negro baby near Carthage, Texas, Wednesday, of week before last and painfully lacerated the back of the child's neck. The hawk was killed by the child's mother.

TEXAS INTERCOSTAL CANAL IS OPENED

Galveston, June 13.—The formal opening of the Intercostal Canal between Corpus Christi and Galveston, 200 miles long was held on June 12 with the arrival of nearly 100 small crafts from the towns reached by the canal and connecting waterways, and the spectacular harbor parade which was reviewed by Governor and Mrs. Colquitt and other notables on board the U. S. Revenue Cutter "Windom."

The pilot boat "Texas" was at the head of the parade. Houston, Galveston, Corpus Christi, Angleton, Port O'Connor, Velasco, Freeport, Aransas Pass, College Port, Richmond, Palacios, Matagorda, Port Lavaca and other towns were represented by divisions.

Length of main canal 200 miles, branches included 800 miles. Approximate cost to Federal Government \$564,000, estimated cost of maintenance \$50,000 per annum.

The canal averages six feet in depth, with a minimum depth of five feet of water at mean low tide, with an average width of 75 feet. At every nautical mile—6000 feet—turning bawns have been constructed 25x200 feet.

WHEN YOU Have started a bank account you advance in the respect of the people of the community. It isn't so much the money that the people admire and respect you for. It's the force of character you have developed that causes them to have aded interest in you. It shows you are on the right track. It isn't the dollar, it's you they are proud of.

Let us help you. We will be glad to have you open an account, no matter how small. We extend all accomodations consistent with good banking to our customers.

CITY BUILDING NOTES

Good roads is one good thing that cant be over done.

In the game of life the worker is the one who scores.

While swating the fly don't forget to eliminate his breeding place.

If there were no newspapers to boost it how big would your town become.

The true architect of his own fortune is always planning extensions.

Some men only turn the grind stone of boosting when they have an axe to grind.

There must be organized strength harmoniously working together to build a city.

The town that wins is the town that fights every day in the year for better conditins.

Our idea of wasted effort is continually knocking the knocker—forget him, he will soon hang him self anyway.

Burglarly is the only business or profession that does not require advertising to make it a success.

In city building and planing do not forget to take into consideration the city usefull as well as the city beautiful.

To attempt to try to conduct a business without advertising it is like trying to fish with out bait.

Some people will not lend their their moral support without charging for it—they are not city builders.

Get acquainted with new ideas, new viewpoints, new angles of vision—new people. This is an age of progress. Be not afraid of the new.

The man who doesn't believe in advertising is always located on a side street, and pretty apt to stay there.

METALS IN TEXAS IN 1912

The value of the mine output of gold, silver, copper, lead and zinc in Texas in 1912, according to Chas. V. Henderson, of the United States Geological Survey, showed an increase, compared with the yield in 1911, of \$66 132. The output of silver, which represent 87 percent of the value of the State yield, was 406,067 ounces, valued at \$249,731, a decrease of 18,327 ounces quantity but an increase of \$34,802 in value. The yield of lead was 65,308 pounds, compared with 122,800 pounds in 1911. The yield of gold and copper was nominal. The output of zinc was 489,232 pounds. The greater part of the metal output was from Shatter district, Presidio county, except the zinc, which came from the Sierra Blanca district, El Paso county.

HORTICULTURAL NOTES

Most small fruits form their fruit buds in the spring.

The quickest growing tree for a shelter belt is the willow.

Remember that the wood ashes are the best kind of fertilizer for the orchard, lawn or garden.

The city dealer profits by the laziness of the grower by grading and repacking his badly assorted fruit.

Young fruit trees that were planted in the autumn of last year, or in the spring of this year, should be examined carefully.

That corky old apple, the Ben Davis, still holds a high place in the city markets because its fine appearance deceives the ignorant buyer.

In very dry weather fruit buds are formed quite early and in case of a wet fall immature fruit buds sometimes change into leaf buds.

Unless rotten apples are promptly removed from the orchard, fruit pests will have an ideal place in which to hibernates during the winter months.

After the raspberries are through fruiting, the old canes are taken out. The canes made this year will produce the fruit next year. Burn the prunings.

Cantaloupes should not be grown near squash, pumpkin or cucumber vines, as the pollen will mix, giving the cantaloupes a flavor of the squash, or cucumber.

Spray the apples twice with Bordeaux mixture to prevent injury from bitter rot. Put arsenate of lead in it to destroy late-hatched insects, such as the fall web worm.

Spraying with kerosene emulsion is one of the best remedies for the rose leaf hopper. Make the first application as the pest first appears and repeat as often as is necessary.

Strawberry plants that have been grown all summer in pots and set this month will bear next spring. Use an abundance of manure in preparing the ground, to insure a good crop.

DAIRY NOTES

A change of pasture is good for both cows and pasture.

Early morning is the time to make the best job of churning in hot weather.

Cows that are not kept in milk well up to calving time never attain their best.

The cow with a good appetite is a better producer than the one that is "finicky."

The only object of working is to distribute the salt evenly and compact the butter.

Wheat bran and linseed meal make the best combinations to give a frothing cow.

Harvest goes on the year around in the dairy business. Something to sell every day.

Cream should be churned at as low a temperature as possible and have the butter come in thirty minutes.

A large udder is not always to be trusted as a sure sign of a good milker. Better see the milk in the pail.

A good pasture lot near the barn where the cows may graze at night will keep up the milk flow during the hot months.

If native pasture does not supply enough grass it will pay well to put a succession of sowing crops in these lots or fields.

Regular careful milking permanently improves the animal as a milk producer, aside from directly increasing the milk flow.

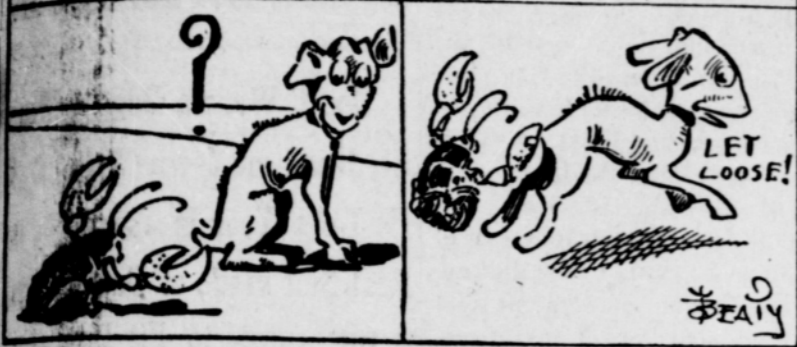

It is well to fight shy of the dairy cow that is offered for sale cheap these days. At best she is probably good only for beef.

One way of keeping dirt, flies, etc., from dropping into the pail while milking is to cover the pail with clean cheesecloth and milk through it.

The next time a cow gives bloody milk give her a dose of Epsom salts, bathe her udder in warm water and rub with camphorated lard. This will often cure the trouble.

FEEDING HENS WHEAT ALONE

Grain Does Not Contain Egg-Making Materials in Proper Proportion—Corn Is Even Worse.

Some years ago Prof. James Dryden delivered an address before the Utah Farmers' institute, from which this extract is worthy of reproduction: "A short study of the composition of wheat and of eggs will explain why a profitable egg yield cannot be expected from wheat alone. Supposing you feed a hen which weighs 3.5 pounds 3.25 ounces of wheat a day.

"Of course, a hen of that weight would not long consume its weight of wheat alone. Supposing, further, then the hen uses 2.75 ounces of that for the maintenance of the body; that leaves half an ounce to be conveyed into eggs, assuming that all food is digested, which, of course, is not the case. In half an ounce of wheat there is about .06 of an ounce of protein. So that assuming that the hen consumes and digests 3.25 ounces of wheat per day; and that she uses 2.75 ounces of that for maintenance of her body, there is available each day just one-fourth enough egg protein for an egg.

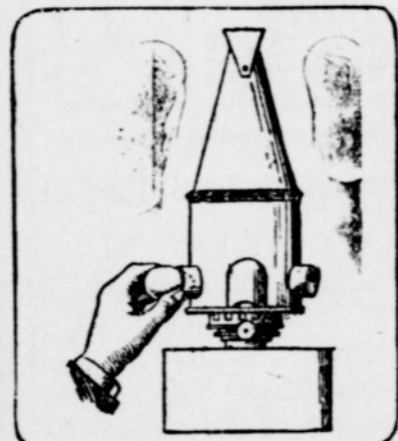

"In other words, it will take four days to get the necessary amount of protein for one egg. But the egg has other constituents; so has wheat. The half ounce of wheat contains about one and one-half times as much carbohydrates and fat as one egg contains. The hen fed on wheat alone has a surplus of one material. In other words, she has enough carbohydrates and fat to make an egg and a half day, but she has only protein enough to make one egg in six days. You place the hen in an awkward position by feeding her wheat alone.

"Wheat does not contain the egg-making materials in proper proportion. Corn is even worse than wheat in this respect."

HANDY FOR THE POULTRYMAN

Powerful Lamp Arranged in Apparatus Invented by Indiana Man Shows State of Eggs.

At their present price eggs occupy the same relation to foods that diamonds do to jewels, and because of the price that any old egg will bring good, fresh eggs are all the harder to get. An Indiana man has invented an apparatus by means of which eggs may be surely tested. A powerful lamp has a conical metal tube fitting over it and around the tube are aper-

Light Deflected Downward.

tures, with collars projecting from some of them. Around other of the apertures are shields for deflecting the light toward the bottom of the device. If you are in doubt about the vintage of an egg, or a basket of eggs, insert them in the collars, turn on the light and look through them. The light will act like an x-ray and show whether the contents of the shell are fresh or stale. At the top of the cone is an opening for the heat to escape.

Most Fertile Eggs.

The eggs from mature hens will hatch better and produce stronger chicks than the eggs of pullets. They are usually larger, too.

GOVERNOR SULZER ON ROADS

In Recent Message to New York Legislature He Laid Down Law in No Uncertain Terms.

Governor Sulzer of New York is a road booster of the right type. In his recent message to the New York legislature he "laid down the law" to the legislators in no uncertain terms, pointed out defects in New York's road laws and pronounced the doom of the spoilsmen who had been fattening on the people's money, says the Southern Good Roads. In his message he paid this great tribute to good roads:

"We know that good roads, like good streets, make habitation along them most desirable; they enhance the value of farm lands, facilitate transportation, and add untold wealth to the producers and consumers of the country; they economize time, give labor a lift and make millions in money; they save wear and tear and worry and waste; they beautify the country and bring it in touch with the city; they aid the social and religious and educational and industrial progress of the people; they make better homes and happier firesides; they are the avenue of trade and the agencies of speedy communication; they mean the economical transportation of marketable products—the maximum burden at the minimum cost; they are the ligaments that bind the country together in thrift and industry and intelligence and patriotism; they promote social intercourse, prevent intellectual stagnation and increase the happiness and prosperity of our producing masses; they contribute to the greatness of the city and the glory of the country; give employment to our idle workmen, distribute the necessities of life—the products of the fields and the forest and the factories—encourage energy and husbandry, inculcate love for our scenic wonders, and make mankind better and happier."

CUTTING BACK FRUIT TREES

Only Three to Five of Best Limbs Should Be Treated, Says a Colorado Press Bulletin.

A great many factors enter into the determination of just how a tree should be cut back. In this article, says a Colorado bulletin, only a general rule can be given. Only three to five of the best limbs should be cut

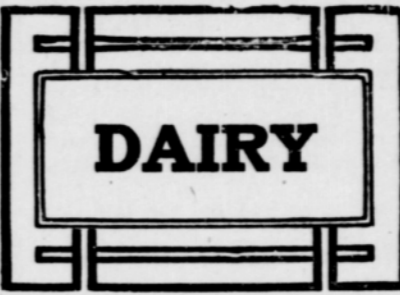

Pruning Young Apple Trees Before Planting.

back to 8 or 12 inches, making the cut just in the direction in which the limb should grow.

All trees should be kept low headed. Be careful not to cut off the lower limbs when it is not necessary, as they are usually the very ones to be left. Lowest limbs should be from 18 to 24 inches from the ground. If the tree has been pruned so that the top is much higher than this, it is usually best to cut the entire top off about three feet from the ground and depend upon forming the top from limbs which come out below this point.

Peach trees can stand more severe pruning than either cherry or apple. Peach trees should generally be cut off about 18 inches from the ground, and if there are any branches below that point they should be cut back to the first or second bud. Cherries or plums need practically no pruning except to cut the branches off a foot or so from the trunk.

DAIRY

USE FOUND FOR BUTTERMILK

Utilization of Large Quantities of Hitherto Waste Product Causes Stir in Wisconsin.

In a recent bulletin from the Wisconsin experiment station the making of cheese from buttermilk is pretty fully described, says Hoard's Dairyman. This caused somewhat of a stir in the dairy world, and since it results in the utilization of large quantities of buttermilk wasted every year it is well worthy of consideration. It makes a very acceptable cheese sandwich, and the profit in the enterprise will depend entirely upon whether or not a steady market can be developed for it. Being a perishable product, very much like cottage cheese, it will keep only a few days. The fact of the matter is there is very little difference between buttermilk cheese and cottage cheese, except that the former has a buttermilk flavor.

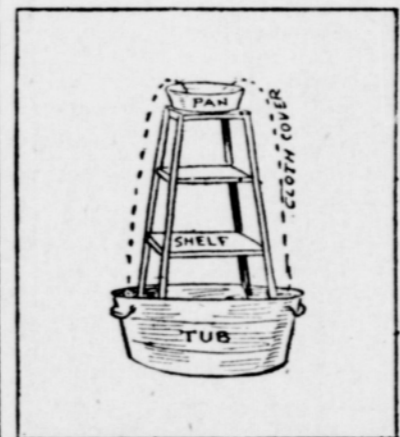

Packing and selling this cheese requires special attention, since the public is not familiar with the product. It may be shipped in butter tubs and retailed in paper pails or other small packages. It will keep for a week or ten days at a temperature of 50 to 60 degrees, but it can be kept longer if the temperature is lowered to 32 degrees or below. It has been sold at three to five cents a pound at the factory and retailed at 7 to 12½ cents. If color is desired this may be secured by adding cheese coloring, the same as used in cheddar cheese.

The making of this buttermilk cheese is inexpensive, as the drainage racks, syphons, etc., can be constructed by almost anyone. When only a very small amount is desired the ordinary utensils of a creamery can be utilized.

MILK COOLER WITHOUT ICE

Evaporation of Water From Pan Will Keep Place Cool—Not Hard to Put Together.

To make a milk cooler like the one illustrated get four narrow pieces of plank four feet long for legs, and set these at any distance apart you wish, writes Dovie Whatley of Sealey, Tex., in the Missouri Valley Farmer. Next get three boards to use for shelves. Let the bottom shelf be larger than the second and the second larger than the first. Set a pan of water on the top shelf and drive a nail in each

An Iceless Milk Cooler.

post on top. Put a thin cloth around the cooler so the end dips down into the water and fasten to the nails. The cloth will drink up the water from the pan and the evaporation will keep the inner space cool. Set the cooler in a tub to catch water as it soaks through.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

The SILO That Never Falls To Staves

There are some kinds of silos that will not last a life time, and there are others that will. When you get ready to build or purchase a silo we want to explain the construction of the

Common Sense Silo

It is so substantially built that there is no danger of the wind blowing it over, or dry weather shrinking it to the point of falling down. Ask those who have used our make of silos the past few years and see what they say about them. For further particulars see or write

We Will Save You Money

By a special arrangement with the publishers of Farm and Ranch and Holland's we can save you a nice sum of money on the following combination:---

Lynn County News \$1.00
Farm and Ranch - 1.00
Hollands - - - - 1.00
\$3.00

To You for Only \$1.75

The News and either Farm and Ranch or Holland's \$1.50
The Lynn County News aims to give you all the local news and as much of the important outside news as possible. Farm and Ranch is the most up-to-date farm weekly in the South, and every number is full of interesting facts which appeal to every man, woman and child on the farm. Holland's runs from sixty to seventy pages each month, and every woman and child who receives this monthly will be particularly well pleased with it.
