Half Million Dollar Budget Handed City

Public Hearing Is Scheduled For April 28

City commissioners Tuesday were handed an itemized proposed budget calling for expenditures totalling more than half a million dollars during the fiscal year beginning this month.

A public hearing has been scheduled for April 28 at the city hall. General fund expenditures for the year are estimated at \$523,648 in the new budget proposal, representing an increase of \$69,169 over the previous year's appropriations.

A slight change in division of the \$1.70 tax levy is planned, however, due to a decrease in requirements of the Interest and Sinking fund. The city's bonded indebtedness was reduced to \$1,008,000 during the past year, and the amount of taxes levied for that purpose will be reduced from 1.05 per \$110 valuation to 95-cents.

Permanent improvements and salary increases account for the increases in estimated expenditures. Expenditures for street maintenance and improvements have been estimated at \$99,218 as compared \$31,412 for last year.

Total proposed capital outlay appropriation amounts to \$135,555, as compared to \$87,680 for last year. In addition to paving it includes \$20,000 for enlarging settling vats and water storage space at the water treatment plant, \$9,500 for pumps and pipelines to connect two new water wells in the O'Bar field, \$12,500 for extension of water lines, \$8,100 for extension of sewer lines and \$4,000 for additional water meters.

Salaries and wages totalling \$250,532 have been proposed, an increase of \$13,621. The increase represents raises of approximately 10 per cent for all city personnel, with exception of some individual special adjustments recommended by the city commission.

The city expects to receive \$422,920 from regular sources of revenue for the general fund. Based on current estimates, however, total amount available for appropriation is pegged at \$539,422.27. This includes a cash balance of approximately \$60,000 at the end of the last fiscal year, \$26,500 to be transferred from a construction fund to cover cost of water works improvements and approximately \$30,000 to be transferred from the parking meter fund.

Clemency Given To West Texan AUSTIN, April 14. (AP)—Gov. Beauford H. Jester has announced the following clemency actions: John B. Holbrook, six month reprieve, sentenced to four years in 1946 from Midland and Ector counties for burglary and theft.

Taft Backers Lose TEXANS FOR DEWEY WIN COURT FIGHT SAN ANTONIO, April 14. (AP)—Dewey supporters bested Taft supporters in the Texas Republican legal battle before Judge Robert W. B. Terrell in district court here today.

State Considers Del Rio Bridge AUSTIN, April 14. (AP)—The state highway engineer has been directed to study the feasibility of building a toll-free bridge across the Rio Grande at Del Rio. The State Highway Commission issued the order yesterday. It was estimated the bridge would cost at least \$1 million, with Mexico and Texas sharing the cost.

Supreme Court Will Judge Tax Dispute

Hearing Slated On Extension Of City Paving

Last legal obstacle confronting extension of Big Spring's paving contract is due to be hurled tonight at a public hearing on a proposed 27-block project. The hearing is scheduled for 7:30 p. m. at the city hall.

Actual purpose of the session is to determine by legal procedure if the proposed paving improvements will increase value of abutting property to the extent of the paving costs.

Deadline for acceptance of petitions requesting further extensions of the paving program was set for 5 p. m. today. Several petitions already were on hand this morning and others were expected within the time limit.

A decision on new extensions is expected soon. City commissioners recessed until Monday afternoon at conclusion of their business session yesterday, and they expect to study the petitions at that time.

City commissioners Tuesday unanimously approved acceptance of paving improvements on streets already completed by the contractor, and at the same time authorized issuance of paving certificates to owners of property abutting on the streets involved.

Estimated assessments also were corrected by adoption of an amendment to the original paving measure. The amendment provided for adjustments of tentative figures to conform to actual costs. Full payment of the city's part of the cost was authorized.

Bogota Meet Is Resumed BOGOTA, Colombia, April 14. (AP)—The 21-nation Pan American Conference resumed its work today in revolt-Battered Bogota.

Mass Drowning SEOUL, April 14. (AP)—Korean police today received a report that 78 women and five men drowned April 9 off Korea's west coast when a gale capsized a wooden fishing boat.

Legion Vote Set Election of two officers—first and second vice commanders—is scheduled at the meeting of the local American Legion post Thursday evening. The session will be held at the Legion clubhouse, and all members are urged to attend.

'WE'LL STAY OUT UNTIL THEY CLEAR JOHN L.' — That was the sentiment of these Library, Penna., miners as they read that their pension dispute was settled but that John Lewis must still stand trial for contempt.

Local School Vote Hinges On Decision

Exemption Law Key In Battle Over Election The Supreme Court today agreed to pass judgment on a law requiring persons over 60 living in cities to obtain annual poll tax exemption certificates.

In an election contest that started in Howard County, lower courts have held the law constitutional. It requires persons who are 65 years of age or older, living in towns of 10,000 population and above, to obtain annual poll tax exemption certificates to qualify as voters.

Losers in the lower courts asked the Supreme Court to review the case. The Supreme Court granted the review and set May 5 as the date for oral arguments.

The case was styled on appeal George T. Thomas and others versus Ted Groehl and others. The votes of 45 persons in a Howard County tax increase election were directly involved.

Outcome of the election involving an increase of the Big Spring Independent School district tax rate from \$1 to \$1.50 was changed (it had failed of passage by two votes in the initial count).

Laramie Block Swept By Fire LARAMIE, Wyo., April 14. (AP)—A fast spreading fire cracked through an entire business block early today in the downtown section of Laramie, site of the University of Wyoming.

Measles Epidemic Worries Lamesa LAMESA, April 14. (AP)—Health authorities here kept a close eye today on an epidemic of measles reported in Dawson County.

Lewis, UMW Plead Innocent To Charge WASHINGTON, April 14. (AP)—John L. Lewis and the United Mine Workers today pleaded innocent of contempt of court in the coal strike.

Over Half UMW Miners Are Still Idle PITTSBURGH, April 14. (AP)—More than half the nation's 400,000 soft coal miners, resisting a back-to-work movement, today waited to see "what happens to John L. Lewis" before they return to the pits.

DEWEY CRUSHED AGAIN

Stassen Scores Sweeping Victory In Nebraska Race

OMAHA, April 14. (AP)—Tireless Harold E. Stassen lifted himself into the top rank of Republican presidential candidates today with a sweeping victory in Nebraska's GOP primary.

His clear-cut win clubbed Gov. Thomas E. Dewey of New York into political submission for the second week in a row. Dewey was shut out in the April 6 Wisconsin primary when Stassen won 29 of the state's 27 nominating votes.

The former Minnesota governor's victory bashed the prestige of Senator Robert A. Taft. It built new fires under the good-man-but-can't-win theory that has dogged the Taft campaign.

It all but snuffed out the dying hopes of Gen. Douglas MacArthur's supporters. But it left intact the darkhorse possibilities of Senator Arthur Vandenberg, secure in fourth place in

a race he spurned. The count in yesterday's free-for-all primary from 1,429 of the state's 2,024 precincts was Stassen 53,874, Dewey 41,167, Taft 13,973, Vandenberg 5,508, MacArthur 4,556, Gov. Earl Warren of California 1,208, and House Speaker Joseph Martin 566.

Along with his victory in the free-for-all popularity contest, Stassen appeared likely to wrap up as a 41st birthday present the first-ballot support at the Philadelphia convention of at least 13 of the state's 15 delegates.

On the basis of incomplete returns, Dewey had a chance to get one delegate and another possible winner was unpledged. Of the 13 who said they would vote for the primary winner on the first nominating test at the national convention, five also pledged to support him as long

as he has a chance for the nomination. The delegates are not bound by the popular vote in the primary.

Charles Reed, Omaha attorney and Nebraska manager of Vandenberg's unsuccessful presidential campaign in 1940, was leading the list of candidates running in statewide races for seven of the 15 delegate posts. Reed pledged first ballot support to the primary winner.

Those convention delegates were elected in a primary that saw the Democrats choose a 12-vote delegation and give President Truman a pat on the back.

Mr. Truman, running unopposed, polled 24,099 votes in 1,114 precincts in the Democratic primary contest. Senator O'Mahoney (D-Wyo.), running solo for vice presidential endorsement, fell behind with 18,266 votes in 1,043 precincts.

Rebels Believed Near Victory In Costa Rica

Costa Rica's six-weeks-old civil war seemed to be boiling down to a finish—and a rebel victory—today.

Reports were heard in Guatemala that the rebel chieftain, Jose Figueres, has set up a provisional government in Cartago, the country's second largest city, 30 miles southeast of San Jose, the capital.

The U. S. State Department in Washington was advised last night that San Jose is endangered by the rebels and that a house-to-house defense of the capital is expected. San Jose's population is about 65,000.

There are no dispatches direct from Costa Rica because of censorship.

A well-informed traveler from Costa Rica, who asked that his name be withheld, reported on his arrival in Panama last night that President Teodoro Picado Michalski of Costa Rica has accepted peace terms dictated by Figueres which call for Picado to resign when Congress meets May 1.

ACCUSES 'DIXIE CLAG-HORN'S' Lt. Gov. Arthur W. Coolidge (above) of Massachusetts accuses "Dixie Clag-horn" of trying to steal New England's woolen and worsted industry for the South.

Air Power Bill May Be Upped By One Million

WASHINGTON, April 14. (AP)—Congressional backers of a 70-group air force predicted a House vote today adding nearly \$1 billion to an emergency air power money bill.

Rep. Kilday (D-Tex.), spokesman for members who have been pushing the 70-group plan, told reporters he planned to ask the extra money during debate on the \$2,376,100,000 (B) appropriation measure scheduled for quick House passage.

"I believe it will pass," he said. "I believe the country wants an air force of 70 groups. This is merely a question of procurement, and my amendment would give the Air Force a head start on its purchasing program."

The bill would enable the Air Force to start building from its present strength of about 14,000 planes, to an eventual 20,541 planes spread among 70 groups.

These were other national defense developments, meanwhile: 1. The House Armed Services Committee called for additional testimony on a draft bill to boost the armed forces to 1,944,000 men in the next two years after hearing that Russia not only is building the largest air force in the world but has far more submarines than the U. S. Navy.

State Considers Del Rio Bridge AUSTIN, April 14. (AP)—The state highway engineer has been directed to study the feasibility of building a toll-free bridge across the Rio Grande at Del Rio. The State Highway Commission issued the order yesterday. It was estimated the bridge would cost at least \$1 million, with Mexico and Texas sharing the cost.

FIRST SINCE '45

Spring Floods Hit Ohio River Valley

CINCINNATI, April 14. (AP)—A five-state Ohio River Valley area today was the focal point of wide-spread spring floods which also spilled into some Florida and North Dakota lowlands.

Experiencing its first major flood since March, 1945, the serpentine Ohio was 10 feet above flood stage in some areas and rising steadily throughout the 500-mile stretch. Tributaries went over their banks throughout the watershed.

Florida's state capital, Tallahassee, was isolated from peninsular Florida except by air or round-about routes through Southern Georgia. Branford, Fla., was hardest hit when the meandering Suwannee River left its banks. There were no reports of flood deaths or injuries.

Minn., when the Red River crested at 40.70 feet, 12.70 feet above flood level. National Guardsmen dynamited ice jams there to save bridges. Grand Forks' power plant was out of order.

Red Cross disaster workers said thousands in the Ohio Valley would be homeless unless streams crest swiftly. River experts refused to predict a crest until near-continuous rains, now in their third day, come to a halt.

Cynthiana, Ky.'s 3,800 population was without public water supplies after the rain-gorged South Licking River crested at 23 feet, nearly twice flood stage. About 100 families were homeless there, and at Cincinnati and Millford, Ky., the 200 Claysville, Ky., residents moved to higher ground last night while 40 families were evacuated at Aurora and New Albany, Ind., and Marietta.

**Rome Paper Sees Italian Demo Win**

ROME, April 14. (U)—The authoritative morning newspaper Il Messaggero predicted today that Premier Alcide de Gasperi's Christian Democrats would finish well ahead of the Communist in Sunday's elections. The paper said there is no doubt of it.

Although rightist in its sympathies, Il Messaggero had maintained strict impartiality in its news columns throughout the campaign, printing speeches of all candidates. In that policy it has been almost alone among Rome papers.

A front page editorial said today that until a month ago mathe-

matical experts, statistics and predictions indicated the Communist-led Popular Front would have the largest vote of any single party or bloc.

"Today," said Il Messaggero, "there is no doubt that Christian Democracy will defeat the front by several lengths."

Other morning newspapers, however, said the Soviet refusal to give Trieste back to Italy means Russia has given up all hope of a peaceful communist victory in Italy.

But if Russia's act was a blow to the hopes of Italian Communists, they didn't show it.

Communists heckled and shouted at De Gasperi yesterday in Milan and there were fist fights and cracked heads as police moved into the crowd, swinging clubs.

De Gasperi spoke in the big Duomo Square, and police were hours clearing it even after De Gasperi had finished his address and left.

Late last night a caravan of trucks and buses taking Christian Democrats home from the Milan meeting was stoned by leftists near San Giuliano Milanese. Two persons were hurt seriously, 20 suffered minor injuries. There also were disorders at Pesaro, Bologna and Venice.

Italy's north is predominantly leftist.

The issue of the United States versus Russia in the campaign was sharpened up by new Communist blasts at the American ambassador.

**West Texans Will Attend Oil Meet**

SAN ANTONIO, April 14. (U)—Oil industry representatives from six states were in San Antonio today for the opening of the spring meeting of the production division of the Southwestern American Petroleum Institute.

Participating on the three-day program will be industry leaders from Alabama, Mississippi, Louisiana, Arkansas, Texas, and New Mexico.

Dr. George S. Benson, president of Harding College, Searcy, Ark., will be the principal speaker at tomorrow morning's opening general session.

Other speakers tomorrow will include Jake L. Hamon, Dallas, the institute's vice president for the division of production; E. B. Armstrong, Honolulu Oil Corp., Midland; J. B. Harrell, Jr., Gulf Oil Corporation, Odessa; S. H. Rockwood, Shell Oil Company, Oklahoma City; and Emil Kaye and M. L. Freeman, Jr., Atlantic Refining Company, Dallas.

**Italians To Hear Story Of Negro Opportunities**

OKLAHOMA CITY, April 14. (U)—Italians will be told Saturday how a junk business and a serious illness combined to provide Negroes with a \$431,000 dollar hospital here.

This story will be described on the State Department's "Voice of America" broadcast to prove to Italians that Negroes have opportunities in America.

Communists have discounted free enterprise in America in propaganda designed to sway the April 18 Italian elections to their side.

W. J. Edwards, 55-year old Negro junk dealer of Oklahoma City, reaped a fortune in the junk business.

His 30-year old wife was stricken with a serious illness. The only hospital in Oklahoma City available to her had only one ward crowded with five other Negro patients.

It was impossible for her to receive treatment under those conditions so she was flown to Mayo Bros., Rochester, Minn.

Sunday, April 18, a 105-bed hospital, patterned after the Mayo Clinic, will be dedicated in Oklahoma City and on the same day Italians will vote in their crucial election.

Furthermore part of the cost of construction of the hospital was provided by Uncle Sam—some \$42,000 dollars. The Edwards paid the rest. They even took up duties as foremen to speed up construction, which started 18 months ago.

**It's Time To File Social Security Tax Returns Again**

It's time for employers to file their quarterly social security tax returns again, but the Social Security Administration doesn't want the money.

George D. Clark, manager of the San Angelo social security office, has advised that his office again has received a number of tax returns, with money enclosed, which should have been sent instead to the Collector of Internal Revenue.

When mailed, the quarterly social security tax returns should be addressed to the Collector of Internal Revenue, Dallas, Texas.

When sent by error to the social security office, returns are delayed in reaching the Internal Revenue, Clark explained.

He reminded employers who have not completed the return for the quarter ending March 31 that they should exercise care in reporting the complete name and actual social security account number of each employee who worked, for no matter how long a period, during January, February and March. Returns for that quarter must be filed not later than April 30.

**Residential Building Shows Marked Gain**

A heavy increase in new residential projects produced \$30,950 in new building contracts yesterday morning, F. W. Bettle, city building inspector, reported.

Permits issued yesterday included five new residences, three of which were obtained by the Nasworthy Construction Co., which plans to construct 15 new units in Washington Place at estimated costs of \$5,500 each. Other permits for new residential units went to G. R. Simmons, \$4,250, and to W. M. Yater, \$7,500.

**Lamesans Will Vote On School Proposals**

LAMESA, April 14.—Voters of the Lamesa Independent School district will ballot on May 1 on two proposals directed at enlargement of district facilities.

One will be on increasing the tax rate from \$1 to \$1.50 per \$100 valuation, and the other will be a million dollar bond issue to finance construction of a new high school building. The district recently was enlarged by the addition of about one-third of the territory previously in the dissolved Sparenberg district.

Perfume ingredients are not all floral — they include ambergris from the whale, castor from the beaver, musk from the deer and civet from the civet cat.

**Scarcity Is Seen In Texas Snap Beans**

AUSTIN, April 14. (U)—Texas snap beans will be scarce on the dinner table this year. But the supply of early spring potatoes will be about the same as usual.

Prospective snap bean production as of April 1 is 1,742,000 bushels, a 25 per cent decrease from last season and 10 per cent less than the 10-year average production of 1,938,000 bushels, the United States Department of Agriculture said Wednesday.

**Group Establishes Nursing Fellowship**

GALVESTON, April 14. (U)—The Texas Graduate Nurses Association, in annual convention here, announced establishment yesterday of a \$20,000 nursing fellowship.

It was designed to improve the quality of nursing care in Texas and to recognize and encourage graduate nurses.

**Mortars Create More Turmoil In Holy Land**

JERUSALEM, April 14. (U)—Gunfire and mortar duels kept the Holy Land in turmoil throughout last night but casualties were believed small.

Jaffa Arabs and Tel Aviv Jews duelled for four hours with mortars and machine guns. In Jerusalem sniper battles raged. Three Arabs and one Jew were reported killed in the Holy City.

A two-inch mortar shell landed 15 feet from the public information booth in Jerusalem where a dozen newsmen were working. It was a dud.

The six-hour battle which followed yesterday's Arab attack on a convoy bound for Hadassah Hospital claimed the lives of 35 Jews, five Arabs and two British soldiers, casualty lists showed today. Jewish sources said most of the Jews killed in the skirmish, which took place on the slopes of Mount Scopus, just outside Jerusalem, were trapped in a blazing bus. Twelve of the victims were doctors who were in an ambulance in the convoy, they said.

The British, who rushed troops to the scene, opened fire with two-pound cannon and succeeded in driving off the Arabs.

**Scout Ranch Fund Drive Hits \$195,000**

The Buffalo Trail Council Scout Ranch campaign has resulted in pledges and contributions totalling approximately \$195,000, according to a new tabulation released by council headquarters in Midland.

Of this total \$30,837.55 is credited to Big Spring district. Local contributions and pledges by campaign divisions include the following: Automobile, \$1,356; Clothing, \$2,400; construction, \$1,709; financial and insurance, \$1,188.05; foods and bottle goods, \$3,933; furniture and amusements, \$746; educational, \$504.50; professional, \$3,214; public employes, \$869.50; public service, \$5,504.50; oil, \$4,985; residential, \$440.

The district figures also include \$3,433 from Stanton, \$455 from Fortson and \$100 from Coahoma.

Latest audited figures show that \$8,075.50 has been subscribed in Colorado City, including \$50 from Westbrook.

The goal for the campaign is \$200,000.

**Perjury Defendant Faces Prison Term**

BALLINGER, April 14. (U)—A San Angelo woman today faced a two-year prison term after she was convicted of perjury.

A jury in 119th district court here yesterday found Mrs. Mildred Blackstone guilty of perjury in testimony she gave in a grand jury investigation of the death of Mrs. Cliff Clary, a school teacher. Her body was found in the burned ruins of a ranch house.

Clary was indicted on a charge of murder in his wife's death. District Attorney O'Neal Dency said Clary would probably be tried in May.

**AAA Supervisors Plan Soil Program**

County supervisors from the dozen West Texas counties comprising AAA District Seven met here Tuesday with Vic Dziewas to discuss and make recommendations on the 1949 soil conservation program.

Counties represented here were Howard, Glasscock, Ector, Nolan, Coke, Fisher, Scurry, Borden, Concho, Tom Green, Sterling and Mitchell.

Dziewas is field representative of District Seven.

M. Weaver, AAA county supervisor of Howard county, was ill and could not attend.

**WAKE UP YOUR LIVER BILE—**

The liver should pour out about 8 pints of bile juice into your bowels every day. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. Then gas builds up your stomach. You get constipated. You feel sour, sunk and the world looks pink.

It takes those mild, gentle Carter's Little Liver Pills to get these 8 pints of bile flowing freely to make you feel "up and up." Get a package today. Effective in making bile flow freely. Ask for Carter's Little Liver Pills, 66¢ at any drugstore.

**CARROLL NAMED DEAN**

**Baylor Faculty Will Get Salary Hike**

WACO, April 14. (U)—Baylor University faculty members in Waco today looked forward to salary increases that become effective in September.

The pay raises were authorized by the board of trustees in annual spring meeting last night.

Dr. W. R. White, who was inaugurated president of the school yesterday announced that the trustees had:

Elected Dr. Wilby T. Gooch vice-president of the university to work with White as his liaison man between units in Waco, Dallas, and Houston.

Elected Dr. Monroe S. Carroll dean of the university.

Authorized the appointment of a "strong and able" field representative to raise money for the Waco, Dallas, and Houston units of Baylor.

Authorized the graduate school to give authority to the research unit at the Dallas branch to prepare courses leading to a master of science degree.

Dr. Carroll had been acting dean for some months and his election as dean was not unexpected. Dr. Gooch served as interim president between the incumbency of Pat M. Neff, now president emeritus, and the arrival of Dr. White. Dr. Gooch remains head of the chemistry department and the graduate school.

Dr. White said a meeting of the Waco board of trustees would be held in the near future to complete the plans for next year's personnel and work.

**Musicians Are Sought By Army**

Authority has been granted to enlist qualified musicians for direct initial assignments to Army bands in the Fourth Army area, Lt. O. L. McFadin, commanding officer of the local U. S. Army and Air Force recruiting station announced Tuesday.

Vacancies exist at Brooks Army Medical Center, San Antonio, and at Camp Hood for qualified musicians who play the clarinet, cornet-trumpet, bass drum, snare drum, flute-piccorno, trombone, tuba or french horn. Lt. McFadin stated.

Men enlisting under this program will be shipped directly from place of enlistment to the unit to which assigned. These men will have a guaranteed assignment of one year to the unit of their choice.

**MONKEYS ARE FREEDOM LOVING**

WICHITA FALLS, April 13. (AP)—Five playful African monkeys continued yesterday to elude all attempts to entice them back in-

to the cage from which they escaped four days ago.

As many as four men at a time have scaled tall cottonwoods around a lumber yard on the edge of the business district in an attempt to ensnare one of more of the small anthropoids.

While hundreds watched, the monkeys leaped on the shoulders of the hunters, who were forced to hang on to the limbs to keep from falling while the monkeys pulled their hair and jerked their ties.

**Sterling Horse Show Slates 23 Classes**

Twenty-three classes will be judged in the Sterling City horse show, set for April 24, it has been announced.

Six classes have been added for Palominos, including 1946 and 1947 fillies and studs, a class for aged mares and aged studs. Previously, it had been planned to judge Palominos with quarterhorses. The other classes will be for thoroughbreds.

Big Spring (Texas) Herald, Wed., April 14, 1948 3

Entry deadline is Saturday, and the feed is \$3 per head. A special feature will be a 15 minute exhibition by D. D. Garrett with his Palomino fillies and a quarter-hour showing of his trained gelding.

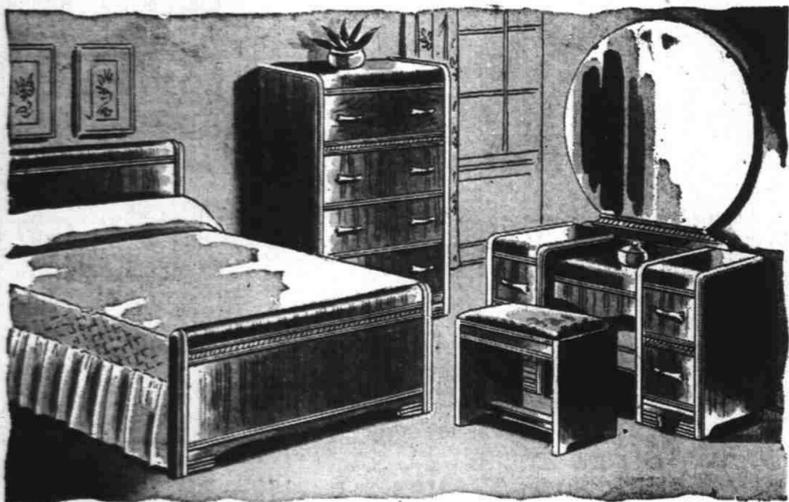

An average of 12,500 ships annually passed through the "New Waterway," the famous Dutch canal linking Rotterdam with the North Sea.

## Homemaker's Class

The Homemaker's Class of the First Christian church will meet at the home of Mrs. A. M. Runyan, 511 Goliad Thursday evening at 7:30 p. m. Mrs. T. E. Baker and Mrs. W. W. Grant are to be co-hostesses.

## Woman's old problem relieved by 2-way help

What is the woman's oldest problem? Functional monthly pain? Many a girl and woman has found the answer in CARDUI 2-way help. You see, CARDUI may make things less easier for you in either of two ways: (1) started 3 days before "your time" and taken as directed on the label, it should help relieve functional period pain; (2) taken throughout the month like a tonic, it should improve your appetite, aid digestion, and thus help build up resistance for the trying days to come. CARDUI is scientifically prepared and scientifically tested. If you suffer "at those certain times", get CARDUI today.

## Starting A Physical Program For Men

On Monday the YMCA is going to start another service which may be in a sense, experimental.

It is the attempting of a moderate physical program for adult men. Certainly this is not experimental in the field of physical culture, but it is in obtaining support of men here.

There surely are many men who do not get the proper amount or kind of exercise in their work. About all some get is walking from the car to the house to the table and bed. There may be time for putting around in the yard or going to watch a ball game. There may be a moment occasionally for a round of golf.

## Caution Indicated For Central Course

There is one peculiar aspect of international tension that is apt to drive us into a course which, only a couple of years ago, we said we would never again follow.

One is the development of a strong, unified Germany; the other is the rapid development of Japan as the dominant power in the Orient. In both cases, the threat of communistic power is the impelling force in this direction.

Obviously, we cannot have a centralized Germany, for one-third of the nation is behind the iron curtain. Recent developments have tended to remove hope of four power control of the Reich and a paternalistic control over administration. Now the talk is to co-ordinate allied administration and perhaps develop a strong state of Western Germany.

The Russians, by their show of force and particularly by iron administration,

But this isn't enough to do the job as it ought to be done. The school has signified its willingness to cooperate by permitting use of the gymnasium for some loosening-up exercises, a touch of the old calisthenics, if you please. These may not be glamorous, but they are effective routines, especially for giving tone to abdominal muscles.

Plans contemplate some friendly volley ball to add fun to an evening's work out. It is an opportunity for men who do not have other recreational opportunities which would better these. Those interested may find it profitable to come by the gymnasium Monday and have a hand in getting the program started.

have won a certain following and admiration. The allies frankly are afraid some of that feeling may splash over into their zone. The counter-move of a government of the western Reich may have some advantages, provided it is not strengthened and sustained solely for the purpose of being the buffer between the Soviet and the democracies. No matter what the exigencies, we need not forget so easily that the development of that buffer after World War I got out of hand and precipitated World War II.

Similarly, we needn't forget so easily that the combination of a strong Japanese central government and industrialists, plus militarists, produced a Pearl Harbor. In both countries, the people are a long, long way from educated in and devoted to the principles of democracy, and we need to go slowly.

"YOU BEEN FORGETTING ABOUT LITTLE OLD ME, PAL?"

Around The Rim—By The Herald Staff

## Meet Planning Lesson

You know, there's all the difference in the world in how we react to meetings.

For instance, the larger the community and the greater the competition for time of participating individuals, the greater the emphasis upon planning and organizing for a meeting. First there is the formidable question of when—what night? It can't be Monday, for that will hub two other affairs. Not on Wednesday because of mid-week prayer services, whether people go or not. Nor Friday, for that is the night the baseball team comes home. But, anon, the evening with the least conflict is selected.

Now comes the second stage of the dilemma. What are we going to have? A talk of course. Who do we want to give it? Not old So-and-So, he's too long-winded; nor the gentleman suggested as a second choice — he's too matter-of-fact. Here again the issue is finally resolved by taking whatever speaker can be had, for those who will stand up in front of a crowd have their meetings, too.

What else will we have? A brief sing-song, of course, for the meal would surely sour on our stomachs were it not preceded by a musical elixir. Shall we have fiddle music, a vocal solo, duets, instrumental music, piano interludes for special music? Again, after much time is consumed in debating this weighty problem, the issue is settled by taking whatever artist will be good enough to donate his talent in exchange for applause and a plate.

With all of this done, the program is pretty well along. The burning problem at hand is how to get people to attend. Once more the

curtain is lifted on extended and aimless debate, and some loose-jointed organization is set up to prod the people into attending. Only one thing remains to be settled—who will preside. Modesty flourishes at this point, but not unduly. The president will preside.

Comes the meeting. We gather, we sing, we eat, we listen and we speak. We adjourn and as the way out, we gather reactions. Some say it was wonderful. Some think the speech was good, some wish the speaker was half as good as he thinks he is, etc. Some liked the music, some never cared for that kind of stuff. And so on. Well, anyway it was good seeing you. Why don't you come over some time? Yeah, we will. Good night.

And so it is past. The thing that put me to thinking about this was a visit in a rural church the other evening. The folks had set an evening for a spring social. Some preparation had been made on the food, some on the program. The main thing was that the folks had gathered. They sang, they listened to special songs, talks and they ate from a bountiful spread between church benches.

But mostly they circulated around and visited. There was no great rush. Nobody was critical of the quality of music or talks. Everybody seemed to just want to stir around and enjoy simple fellowship. And when they went home, I venture they talked about how good it was to see their neighbors and to hear the songs, and what a fine turnout there was. Without fuss or feathers, I'm convinced they know how to regard time and hold meetings better than we do. —JOE PICKLE.

Hal Boyle's Notebook

## Jefferson Loved Gadgets

NEW YORK. — Thomas Jefferson, born 205 years ago yesterday, would have driven the modern housewife to distraction.

He was—with the possible exception of Benjamin Franklin—the first great American "gadget lover."

He owned a small mountain and on it he built a home that was the real passion of his life. He called it Monticello—"Little Mountain"—and he filled it and the fields around it with his gadgets.

Tom designed the house himself. Wouldn't have a bedstead in the place. Put beds in alcoves built into the wall masonry. He hauled his own bed up to the ceiling during the day so it would be out of his way.

He installed the first dumb waiters ever seen in America so he could speed his wine up from the basement. He invented a plough, a hemp break for a threshing machine, a lock-dock for laying up vessels, a folding ladder and a revolving chair. He imported the first "speedometer" to America — an odometer — to clock how far his carriage traveled.

He also kept a daily record of the temperature from boyhood to death — and he lived to be 83.

He introduced Merino sheep to America and was the first to try

to grow nectarines, oranges and pomegranates in Virginia. Had silkworms, too.

He had a different razor for each day of the week and wrote more than 1,200 letters a year—some say 10,000.

Besides his house he designed the buildings for the University of Virginia and the writing desk on which he composed the first draft of the Declaration of Independence.

His wife died in 1782, ten years after their marriage. She had asked him never to marry again. He didn't. He lived 44 years as a widower.

He was of simple habits but inordinately generous. He went through two fortunes, had to borrow money to leave Washington after two terms as President, and died \$40,000 in debt.

His home sold for \$2,500 a few years later. It fell into decay. In 1923 Jefferson M. Levy, nephew of the man who bought Monticello for \$2,500, sold it for \$500,000 to the Thomas Jefferson memorial foundation, which has completed its restoration.

More than 200,000 people visit it annually. Jefferson is buried there. He had wanted an obelisk over him no more than six feet high. Congress put one up twice that high. Overrode his last veto.

Broadway—Jack O'Brian

## Ziegfeld Follies Is Off

NEW YORK.—New Ziegfeld Follies is off, until fall at least. Phyllis Arnold at the Glass Hat, a vocal double for Ethel Merman, was coached by the same fellow, Al Siegel, who helped Ethel make the big time. Jessica Tandy used some tall convincin' to make her movie bosses let her stay with "A Streetcar Named Desire" through June 1, 1949.

Ferruccio Burco, eight-year-old baton prodigy, will lead the Carnegie Hall Pops orchestra during the imminent series. Incidentally, the long-hairs call Ferruccio "The Kid," making a full circle from their nickname for Arturo Toscanini: "The Old Man."

"Teetime of 1948" shutters after Easter week with 422 performances to its credit, a mighty respectable run indeed. D'Oyly Carte Company to wind up their Broadway stay with three straight weeks of "The Mikado." . . . Last time they played "The Mikado" a few weeks ago, it grossed more than \$43,000 in six days, making it by far the most popular of the G. & S. revivals.

Fletcher Markle, CBS producer, is paging conductor Percy Faith to write the music for a Broadway musical. . . The Three Suns, an instrumental trio, has offers to tour Japan. . . Newest addition to Harry Conover's stable of models is Gordana Uscumlic. Harry says she was a Yugoslavian "Chetnick" machine gunner during the war. . . Use her for commercial advertising, mayhap? . . . Sammy Kaye is bankrolling a new noisemaker, The Kaye-Zoo.

Bud Collyer, radio "Superman," now a radio drama lecturer at Fordham. . . Conover's cuties with the unlikely names (including Harry's wife, Candy Jones, whose name was given to her by her former boss—she's boss now, Harry says) have a new dilly, one October Brown.

And now comes the Custom Tailors of America, Inc., to give Percy's duds their custom-tailored blessing by naming the fiddle-minded maestro one of America's ten best-dressed gents.

Others named besides the well-groomed, nicely-chinned, interestingly-pussed, Rhumba-tempoed Percy were Gen. Ike Eisenhower, whose choice came only a few

Washington Merry-Go-Round—Drew Pearson

## Symington Pleads For Strong AAF

WASHINGTON.—Secretary for Air Stuart Symington reversed his stand on universal military training when he faced the Senate Armed Services Committee behind closed doors the other day, and made a desperate plea instead for a strong air force. His boss, Defense Secretary Forrestal, scowled on and said little.

The meeting was of vital interest to every man who may have to serve in the armed forces, and to every other American concerned with the defense of his country. For the first time in a recent Senate committee hearing, Forrestal gave his subordinate, the head of the Air Force, free reign to speak out. Symington made the most of it.

Ever since the meeting of defense chiefs at Key West, it had been suspected that Navy and Army ground forces had held the Air Force down in over-all defense planning. This was confirmed by Symington in last week's testimony.

In forceful language, he warned that it might already be too late to build up the Air Force before Russia got the atomic bomb.

"We said three years ago that your Air Force was going to hell, we said it again two years ago and we say this year that it is going to hell," blustered Symington. "We say this year that no matter how you try to fix it, you are not going to have an adequate air force by the time the Russians have the bomb. It is too late."

Catching the full glare of Forrestal's withering look, he tactfully added: "Mr. Forrestal said we could say what we felt."

"It is true," Symington continued, "that we testified for universal military training. We did that before we knew the Air Force was going to be cut. We felt it would be a 70-group program."

Virginia's Senator Harry Byrd asked whether that meant Symington considered a 70-group air force more important than universal training.

"Yes, sir," he shot back, "and I can go farther than that. I think it is the most important thing that has been presented to this committee from the standpoint of military preparedness."

70-GROUP TOO LOW  
General "Toehy" Spaatz, retiring air chief of staff, broke in: "You can't win a war with 70 groups, but you can prevent the enemy from winning with 70 groups."

On the other hand, Spatz, warned Forrestal's proposal for only 55 group would leave the country dangerously short-handed.

Senator Ed Robertson, Wyoming Republican, suggested that the committee would need more information to sell a 70-group air force to the public. Symington

snapped back that the public was already sold on it.

"We want to be sure the people are not over-sold," broke in Chairman Chan Gurney of South Dakota, who has echoed Forrestal.

Symington pointed out that the Air Force was seeking no more than it had been insisting on for three years, whereas the other two services were taking advantage of the crisis-fanned hysteria to increase their demands.

"The air force is in desperate shape," he pleaded. "For three years we have appealed to mobilize, not on a mobilization plan but on a peacetime plan. In the last two years our appeal has never even gotten to the Congress. At least Mr. Forrestal is letting us discuss it today."

NO UNIFICATION YET  
The conflict between Forrestal and Symington finally got under the skin of Senator Wayne Morse, outspoken Oregon Republican.

"We have to get the chiefs of staff to agree on a unified program for total national defense," he reminded the defense chiefs, "and now the Air Force is going in one direction and the Army in another and the Navy in another. I am not convinced that you know exactly what you are doing."

"Unification is something that isn't going to be accomplished by waving a wand," shot back Forrestal. "There is no miracle involved. It will take a long, long time."

Then he added: "We are in the process now."

"I understand that," persisted Morse, "but you want us to pass some legislation which in my opinion we don't have a prayer's chance of passing in this com-

In Hollywood—Bob Thomas

## Disney To Show Alaska

HOLLYWOOD. (A—Walt Disney is planning to show the world the untold wonders of Alaska.

For two years, the cartoon wizard has been gathering material on the northern territory. Last summer he made a thorough tour of Alaska, even into the Arctic circle, and he has posted a man to gather material there the year around.

"Few people realize the immense possibilities of Alaska," Walt said. "It will be an easier land to settle than was the American west, because there are no Indians."

Just cold? I suggested. "It's no colder than Minnesota," he said in defense.

Walt said he plans to use the material as "factual entertainment," similar to the subjects he has made on South America. "I plan to show what is there, plus the fable and legend of the land," he explained. The films will combine live action and cartoon. As yet, he doesn't know whether the film will take the shape of features or of short subjects.

This raised the question of the suitability of such films for television and Walt indicated he has been eyeing the new medium.

"There is no doubt that television is going to be a tremendous field," he said. "It may well be an extension of the motion picture. When there are enough sets sold, it will reach an audience that doesn't go to theaters. The day may come when we will make films for both mediums."

Hollywood sights and sounds. . . Barry Fitzgerald hunched over a piano in a corner of "The Tattlock Millions" set, playing a self-taught classical piece for his own enjoyment. . . Maureen O'Hara puttering around her new dress shop in the valley. . . Charles Ruggles learning to play the slide trombone for "Silver Lining" . . . Vincent Price drooping from his own set to "Washington Girl," to visit Deanna Durbin. . . Linda Darnell talking learnedly about diapers, formulas and other lore relating to her six-weeks-old adopted baby. . . Preston Sturges directing an "Unfaithfully Yours" scene from a horizontal position on a bed beside the set. . . Betty Grable's four-year-old Vicky visiting the "Burlesque" set and asking mama why the assistant director doesn't yell "Quiet!" quietly. . .

Texas Today—William C. Barnard

## Sergeant Keeps Up With The B-29's

You've been around, you say? How'd you like to get around like Sgt. Charles R. Carrell—hundreds of thousands of miles per year? So many miles he loses all count.

Carrell keeps up with the B-29s of the Eighth Air Force, the only air force trained to carry the atomic bomb. Carrell doesn't fly in a B-29—his ship is a C-54, one of 10 planes that make up the air transport unit of the Eighth.

His ship carries men and machinery to service the 29's wherever the 29's go. That means places like France and Germany and Labrador and Alaska and Japan, and Greenland and Puerto Rico.

Carrell knows all those places as well as he knows his favorite spark plug wrench. And he knows that wrench. He's one of the two mechanics on his plane.

That C-54 he flies in will carry 40 passengers and baggage besides the crew of seven. It will carry big B-29 wheels and tires and B-29 engines. Counting its own weight the C-54 will get 73,000 pounds into the air.

"Sometimes," the sergeant chuckles, "we stretch it a little and do better than that."

Headquarters at Carswell Field, Fort Worth, Carrell doesn't know where he will be next week or next month and surely doesn't care. A McKinney, Tex., man of 27, he's a big snub-nosed fellow with brown eyes, black hair and ever-ready grin. His wife and his par-

ents, Mr. and Mrs. A. J. Carrell, live at McKinney.

Carrell farmed until January, 1944, then got into the infantry, trained at San Antonio and Camp Hood, Temple. Then they shipped him out to the Pacific and he was in the fighting at Leyte and Okinawa and then Japan surrendered and he went there. He came home and got out June 16, 1946 and went back to the farm.

"I was never so glad to get out of anything," he said.

But look what happened. By December of 1946, Carrell was back in service, this time the air corps.

"I never was so glad to get back in anything," he said. Since then, Carrell has been flying in the same C-54 and he loves that plane like no fellow ever loved a cut down, painted up Ford.

We've watched him fly in it. When he flies, he has nothing to do, no responsibilities. He has an easy chair back in the tail end and he reads by the hour. Sometimes he manages to lure some innocent passenger into a poker game. He has big thermos jugs of black coffee within easy reach and he can eat twice as many sandwiches per day as you can.

Flying never bothers Carrell, he is fit over the mountains or snow over the plains.

"It was so foggy in New Hampshire that night," he laughs, "that we couldn't see but one light on the airstrip. But we had to take

off. So the pilot lines the '54 up on the runway, locks the wheel for straight ahead, and we take right on off into the soup."

"Worried?" he says "why worry? I never worry about nothing. When your number comes up you're dead and if it's coming up you can't do nothing about it."

Nine days ago today, Sgt. Carrell and his C-54 were flying near Great Falls, Montana. The airport tower radioed "One of your engines is afire."

"I happened to be up in the cockpit, listening to the engines," the sergeant recounts. "Two of them were bad, something wrong with the mags (magnets). The tower says we're afire," the pilot says to me. "How about looking?"

"Sure will," I tell him. I look out and sure enough one of the engines is afire. Two of the others was still missing. That left us one good engine.

"Just then a Lieutenant was carrying as a passenger came up. 'What's the matter?' he says. 'Got a little fire out there,' I tell him.

"He went right white and sat down. 'The pilot was pulling the fire extinguisher and in a minute the fire went out. He cut off the engine and feathered the prop. Then he went on down for an easy landing—wasn't nothing to it."

"But I wish you could have seen that looney. You'da thought there was a real emergency."

The Nation Today—James Marlow

## Long Fight For Freedom From War

WASHINGTON. — Maybe this will shake you awake if you dream the world may be free of the danger of war any time soon.

Secretary of Defense Forrestal: 1. Thinks the United States must keep a huge pool of trained men, in case of war, for at least 50 years.

2. Seems to think it will be a long time before the United Nations is able to keep peace in the world.

He says: "Not in our lifetime, or in that of the next generation do I foresee the time when a strong military potential will not be needed to back up our diplomacy."

And Forrestal adds this: This country will have to try to keep peace in the world until the UN has "gained the maturity and both the moral and physical force

with which to deal with any international act of aggression."

He made those two statements to the House Armed Services Committee. He didn't say we must have huge armed forces for 50 years.

He said, though, we must have "strong military potential," which means men trained and ready to jump in case of war.

Forrestal went before the committee yesterday to argue for two things:

1. A law right now to draft men into the armed forces to build them up.

2. A compulsory universal military training law (UMT) to train youths who can be kept in reserve—without being in the armed forces—in case of war.

At this point you may say to yourself: Forrestal is anxious to

convince Congress of the need for a draft and UMT.

But he's also one of the highest government officials talking of the future and what he thinks are UN's chances for keeping peace.

Wasn't UN supposed to set up an international police force to do just that: keep peace in the world?

Yes. But the big nations haven't been able to agree on an international police force. There's no sign they will in the foreseeable future.

Forrestal didn't say this country will need an armed force big enough to crush Russia. But he did say:

"We'll need a military potential powerful enough to back up 'our diplomacy.'"

Right now our diplomacy is aimed at keeping communism from spreading any further.

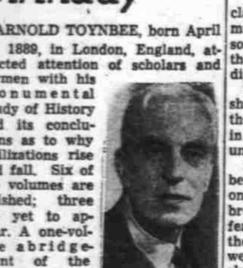

Affairs Of The World—DeWitt MacKenzie

## Reds Quick To Jump In Revolts

Some aspects of the bloody and destructive Colombian rebellion

## Today's Birthday

ARNOLD TOYNEBEE, born April 14, 1889, in London, England, attracted attention of scholars and laymen with his monumental study of history and its conclusions as to why civilizations rise and fall. Six of the volumes are finished; three are yet to appear. A one-volume abridgement of the work by David Somervell has become a best seller. Toynebee, for years research professor of international history at the University of London, recently visited the United States.

Arnold Toynebee

remain obscure, but there is at least one clear warning for every free nation:

Communist cells and parties in all countries are so organized as to take quick advantage of untoward events and develop them to harshest and, if possible, overthrow governments.

The Bogota government declares that the revolt was of communistic origin. Colombia seems so sure of this that she has taken the extreme step of breaking off diplomatic relations with Moscow.

Irrespective of who started the show, there is no dispute but that the Reds were up to their necks in it at least as soon as it got under way.

Naturally there are many who believe the Communists were bent on staging a show which would break up the Pan American conference and thus give the Reds the world over a fresh propaganda weapon. That isn't an illogical conclusion, but this attempted coup may be a boomerang in that it will, we sincerely hope, make the world more aware of the dangers of communism. Apropos of that thought, an American official who saw smoke arising from one of the

twin spires of the ancient Bogota cathedral remarked:

"That's the fire that's going to mark the beginning of the end of communism."

Many students of world affairs are swinging around to the view that communism will die, though it may not die fast. It is an unnatural thing, clashing with human nature and with all the ideals of folk whose way of life encompasses a belief in God and in man's bill of rights.

So far as concerns the breaking up of the Inter-American Conference—which it's safe to assume was one of the Red aims—that already has been flung back in Communist faces. U. S. Secretary of State Marshall and other conference leaders are determined to carry on, regardless of the difficulties of lost records and the like, and regardless of where the meetings must be held.

Red agents are busy everywhere. They are the product of thirty years of intensive preparations for world revolution. Those preparations began as soon as the Bolshevik rebellion of 1917 succeeded and have been snow-balling ever since.

### SENATE GROUP ASKS NEW LAW

## Report Calls Hughes-Meyers Dealings 'Obviously Corrupt'

WASHINGTON, April 14. (AP)—A report to Congress today labeled as "obviously corrupt" the wartime negotiations between millionaire Plane Builder Howard Hughes and Maj. Gen. Bennett E. Meyers. The Senate War Investigating Committee which drafted the document called for a law to deal with any future case of the kind.

It said such a law should demand that both private citizens and officials "report promptly all attempts at bribery, extortion, or other corrupt acts in connection with the negotiation of government business."

The final report of the seven-year-old committee once headed by President Truman covers the group's sensation-packed hearings of last year.

These began as an inquiry into Hughes' plane contracts but later centered around the wartime activities of Meyers as No. 2 purchasing officer for the Army Air Forces.

As a result of the committee's disclosures, Meyers was convicted of inducing a former business associate to lie to the senators. He was sentenced to 20 months to five years on that charge and still faces two income tax fraud indictments—and possibly a court martial.

The committee report was due to be filed formally with the Senate during the day. It has been

approved by a majority of the 10-member group.

A copy of the document already sent to the government printing office was made available to a reporter. It includes these other findings and recommendations:

1. That War Department and Army Air Force leaders failed to conduct an adequate investigation into previous charges against Meyers and later "deliberately tried to conceal" facts from the Senate committee.

2. That all future inquiries into "corrupt or improper activities" on the part of Air Force, Army, Navy or other officers be conducted by a separate agency to avoid "a tendency to cover up or whitewash" cases involving officers of high rank.

3. That the Hughes Tool Company, in which Hughes holds all the stock, faces a possible "tax deficiency" for 1940-46 of almost \$8½ million although these "preliminary determinations" are subject to review both by the Bureau of Internal Revenue and the courts.

4. That John W. Meyer, free-spending public relations man for Hughes, paid expense accounts totaling \$169,661 during the five war years in an attempt to win favor of Air Force and other officials handling contracts.

5. That all such costs be "disallowed in computing federal income taxes."

6. That the "draft deferments of John Meyer should be fully investigated by the Department of Justice."

### AMERICAN HOUSE

## Life In U. S. Being Shown To Germans

BERLIN, April 14. (AP)—The American Military Government has opened the second "American House" information center, after the first had won patronage which overtaxed its facilities.

In these centers the Germans have free use of well-stocked American libraries and magazine rooms. They are invited to lectures and films and shown exhibits describing the American scene and the American way of life.

The Russians were first in the field here with their big and well-appointed "House of Soviet Culture," and the Americans are now working hard to outstrip them.

The newest "American House" is directed by Dr. Trude Gunther, Danzig-born assistant professor of German literature on leave of absence from Vassar.

Her "house" is established in an eight-room former dwelling. She is building a library which eventually will contain 5,000 volumes. On the walls are pictures of New York, Chicago and other American cities, numerous American authors and educational leaders.

In the film rooms are documentary films. In the lecture room German and American speakers appear and mixed discussion groups meet to exchange ideas.

Dr. Gunther also has plans for the formation of a German-American club composed of educators, journalists and artists. She has found that Germans are hungriest for American fiction and most of the shelves will be filled with such books.

Big Spring (Texas) Herald, Wed., April 14, 1948

### TAFT IN CLASH

## Admits Housing Bill Inflationary

WASHINGTON, April 14. (AP)—Senator Taft (R-Ohio) today agreed with Marriner Eccles that some credit provisions of the Taft-Elliender-Wagner long-range housing bill are inflationary.

But Taft refused to go along with the acting chairman of the Federal Reserve Board on his contention that the bill's credit incentives won't produce more houses.

The controversy: T-E-W bill is designed to encourage construction of 15 million new homes during the next decade. Taft, one of the sponsors, said the Senate might start debate on the measure today.

Taft and Eccles engaged in a brisk exchange over the bill late yesterday while the federal reserve official was testifying on bank credit before the Senate-House Economic Committee.

Eccles criticized the proposed home loan terms, saying they would not increase the construction rate and would further inflate

the price of homes. Taft insisted the bill would produce more homes, but he told reporters he agrees with Eccles that some of the credit provisions are "too liberal."

Taft singled out a section which allows builders to get 90 per cent loans, make no down payment and then sell at whatever profit they can get. As drafted originally, these loans to contractors ranged from 80 to 85 per cent. The Senate Banking Committee liberalized the provision. Taft is not a member of that group.

Eccles told the Economic Committee, which Taft heads, that home loan incentives never will produce more houses until there no longer is a shortage of building materials. Eccles said the price of lumber, for example, is "terrifically high" and "fantastically high" and "will remain so as long as it is scarce."

(The Commerce Department said yesterday that lumber prices "apparently" are receding from record highs.)

### Mowers Lighter

TETERBORO, N. J. (U.P.)—Keeping the lawn trimmed won't be such a chore this spring if you push a 1948 model mower. Wheel and side frames for new models are being cast from magnesium and aluminum at the magnesium foundry division of Bendix Aviation Corp. here. The new mower will weigh about 28 to 30 pounds, or only about half as much as older types.

### Big Business

PROVO, Utah (U.P.)—The largest farmer co-operative in Utah, long famed for its "co-ops," is the Utah Poultry and Farmers' Co-operative, which has an annual business of \$20,000,000. It is the third largest poultry co-op in the country.

ment. He said he doubted if the committee had any more excuse for existence.

Kotikov accused the Americans of taking unilateral action on police matters in the American sector, including use of radio patrol cars.

Col. Frank Howley, U.S. commandant said the crime rate and number of kidnappings of Germans in the American sector had been reduced.

"All evidence in these kidnappings leads to the Soviet sector of the city," he said.

Kotikov agreed to investigate Russian restrictions which have piled up 1,750 tons of parcel post in Berlin. The Russians have refused to move cars carrying mail for Western Germany.

### REDS IGNORE MOVE

## Probe Abandoned On Plane Crash

BERLIN, April 14. (AP)—A British-Russian investigation of the fatal crash of a British and a Soviet plane April 5 was abandoned today when Russians on the investigation commission failed to appear.

The investigation was doomed yesterday when the Russians refused to hear German and American witnesses.

After waiting 15 minutes for the Russians, the British proceeded with their own inquiry. The collision, between a British transport and a Russian fighter plane, cost 15 lives. Two Americans were among the victims.

The Russians forecast today that a separate currency reform will be instituted soon for Western Germany. They blamed the Western Allies for failure to reach a four-power agreement on this issue.

Informants have predicted that if the western powers proceed with financial reform in their zones the Russians will conduct a reform of their own in the East, thus giving Germany two currencies.

The Soviet military administration denounced as "lies" and "slander" reports in the western-licensed German press that the Russians were responsible for breaking off

quadrupartite discussions for a Germany-wide currency reform.

The statement claimed the Russians wanted to continue currency talks, but were rebuffed by the western powers. The Russians terminated four-power government by walking out on the Allied Control Council March 20.

Maj. Gen. Alexander Kotikov, Soviet commandant in Berlin, indicated at a meeting of Allied Commandants yesterday that the Russians might withdraw from the Public Safety Committee which supervises Berlin's police department.

REMOTE-CONTROL BABY SITTING SYSTEM IS DEvised BY STUDENT

SHANKS VILLAGE, N. Y., April 13. (AP)—Baby sitting by remote control is a definite asset to the social life of parent among student veterans living at this converted Army camp. A system of watching babies by radio has been fitted up and put into operation by Major J. L. Wood of Seattle, Wash., who is living here with his wife and two children while studying at Columbia University. His procedure, he explained today, is to place a powerful microphone near the crib of each child. Each microphone is connected with an amplifier in the mother's home and is labeled with the name of the baby being watched. In each client's home an alarm clock is placed near the child. If the clock's ticking is not heard the listener knows the microphone is not working. If the child whimpers the sitter hastens to the spot and provides the necessary change of garments, drink of water or whatever else may be required to soothe him. Several mothers also use the gadget on a cooperative basis so that one can "watch" the children while the others are marketing.

## LOOKING 'EM OVER

With TOMMY HART

Individuals close to the Sweetwater baseball situation suggest construction may start on a new park there around the middle of the year. No city in these United States needs a new plant more.

### CADALSO ON WAY TO TEAM IN NORTH CAROLINA

The Big Spring Bronco management put Manny Cadalso, reserve catcher, on the east-bound bus yesterday. Manny is bound for Newburn, North Carolina, a Class D club.

### LAINE UNHAPPY WITH BIG SPRING-HAVANA TIEUP

Tanner Laine, the Midland scribe reveals that Harold Webb, the Indian manager, has purchased Dwight (Rip) Collins from Oklahoma City. Collins, a second sacker, played most of last season with the Class AA club, according to Webb.

### LOW MOANS HEARD IN ODESSA AND MIDLAND

Low moans were heard both from Lane and Gene Gregston, the Odessa sports chronicler, after they were told Orlando Moreno would be returned here from Havana.

### GREAT ARMS AROUND IN BIG SPRING OUTFIELD

As a unit, the Big Spring outfield — as it stands now — owns throwing arms second to none in the minor leagues.

Bobby Fernandez, the left fielder, needs take a back seat to no one when it comes to strong-arming the ball. He's already thrown out several ambitious runners.

### ATHLETIC ASSOCIATION SETS FIRST BOXING SHOW

Present plans call for the first amateur boxing show at Pat O'Dowdy's Sportation on East Third street on April 30. The fisticuffing convention is being planned by the Big Spring Athletic Association, which is in the process of being re-organized.

# High School Golf Team Mauls San Angelo Bobcats In Concho City

Johnny Malaise's Big Spring high school golf team looked for new worlds to conquer after mauling San Angelo's links corps in a series of matches played in Angelo Tuesday afternoon.

The Steer mashie wielders scored 18 points, the limit, in six individual duels with the Felines.

Bobby Maxwell, as usual led the way with a 6-5 win over Tidwell. Clarence Schaefer dropped Templeton by the same score. Bobby Hohertz was even more impressive against Shook, winning, 7-5. Dickie Cloud took Yancy into camp by the same margin.

Sam Thurman roared through Hoy, 4-3, while Paul Shaffer hurried Willis, 6-5.

Malaise plans on taking his forces to Abilene Friday to compete against the strong Eagles, winners of the recent Lubbock invitational tournament. The War Birds are led by Gervis McGraw, Maxwell's chief rival in this sector.

The Steers also play Odessa's Broncs at the Muni course here Saturday afternoon and are tentatively booked to clash with Midland there Monday. Malaise may take his varsity troops to Dallas next week, however, to compete in the State tournament at Cedar Crest in Big D.

## Bovines Train For Lubbock

Coach Mule Stockton gives his Big Spring high school track and field team added seasoning in the South Plains Relays at Lubbock Saturday, which will attract a score of teams from West Texas schools.

The Bovines are expected to show well in the distance races and should finish well up in the team scoring.

The Big Springers are marking time until the Regional II-AA meet, which comes off Saturday, April 24, in Abilene.

## American Legion

\$50,000 CLUB HOUSE

## Swamp Angelo Colts, 13-0

Big Spring's Broncs try the Lamesa Lobos again tonight in an 8 o'clock game in the Lamesa park. Thursday night, the Hosses are booked to square away with Jackie Sullivan's Lubbock Hubbers in Lubbock.

Pat Stasey's troops return here Friday to close out their exhibition program with three games at home. They meet Abilene's Blue Sox Friday night, Sweetwater Saturday night and Lamesa Sunday afternoon.

Humberto Baez, making his first start for Big Spring since 1947, and Gerry Rodriguez combined to pitch the Broncs to an impressive 13-0 victory over San Angelo here Tuesday night.

As more than 600 patrons who braved to cold looked on, the Cuban hurlers displayed mid-season form in baffling the Concho city troupe. Baez did not surrender a safety in the five innings he worked while only Ed Murphy got to Roddy for a bingle, that coming in the seventh inning.

Wee Bertie gave up two walks and hit a batsman. He struck out a half dozen. Rodriguez whiffed seven, gave up a single base on balls.

Murphy's blow dropped out into no man's land in short right-center. It was well hit.

The Cayuses scored most every conceivable way. They hit behind the runner. They pounded across on double steals. It got to be monotonous.

Ace Mendez, the mercury-footed youngster, dropped one just shy of the rightfielder in the fourth and Murphy failed to get to it. That was fatal. As quick as you can say Echevarria Traspuesto Fernandez, Ace was around to third. Jake McClain also hit for three but his blow was well tagged. Jacob never stopped to pick daisies along the way.

The locals got their runs in clusters, bagging four in the first, three in the third, four in the eighth but settled for single tallies in the fourth and fifth.

## HEALTH CLUB IN THE MAKING

The YMCA may soon open a health club for men, Lee Milling, executive secretary, announced Saturday.

Tentative plans are to hold classes two evenings a week from 5 p. m. to 7 p. m. in the high school gymnasium. Although no starting date has been fixed, Milling said he was hopeful that interest would be sufficient to get the first class underway by April 19.

The routine would be a round of limbering-up exercises, followed perhaps by a game of volley-ball.

"Because of interest expressed by several young men of our community, and some who are not so young but would like to retain their youthful appearance, the YMCA is interested in opening this club," said Milling.

"Since there are many adults in Big Spring who cannot find the opportunity to spend an evening in the park or on the golf course, it is felt that this program will strike a ready response in the minds of those who are interested in physical well-being and who, incidentally, would enjoy the fellowship of a friendly game of volley-ball."

Those interested may call the YMCA. The program is contemplated for adults.

## STATES ACT

# New Ring Laws To Help Boxers In Distress

NEW YORK, April 14 (AP)—Spurred into action by two ring deaths within a week early this year, boxing commissions throughout the country are applying new safety measures to the sport.

Seven states where boxing thrives—California, Illinois, Washington, Massachusetts, Wisconsin, Pennsylvania and New York—recently have taken steps to protect fighters.

Others have changes under consideration. Most of the tighter regulations follow, in part, the 23-point program recommended last month by the National Boxing Association.

They call for heavier gloves, stricter examinations and suspension of fighters who hit the deck too regularly. A popular change is the rule requiring an eight-count after each knockdown regardless of how eager the victim is to resume the fray.

The safety measures began mushrooming after the death in Chicago of Sam Baroudi following a bout with Ezzard Charles Feb. 20 and the fatality a week later of Leroy De Catur in Hollywood, Calif.

Washington, Wisconsin and California have all adopted the eight-count knockdown rule. Washington and Wisconsin have decided that a fighter who has been knocked out must remain on the shelf for 30 days and then undergo a strict examination before entering the ring again.

Washington's State Athletic Commission, acting yesterday, also made changes calling for suspension of any fighter knocked out six times in a row or six times within six months.

## Longhorns Lose 9-7 Decision To Angeloans

SAN ANGELO, April 14—Big Spring's high school baseball Steers dropped a 9-7 District 3AA decision to the San Angelo Bobcats here Tuesday afternoon and saw their chances for a title take a nosedive.

The reversal was the second in three starts for the Longhorns while San Angelo, by virtue of the win, improved its hold on the top spot. The Cats have now registered three victories in four starts.

Big Spring was limited to five safeties, one of them Donnie Carter's triple, by Angelo hurlers. Howard Jones and James Boatman were touched for a dozen bingles by the Felines.

The Bobcats go to Abilene Friday for their fourth game of the campaign.

## Bums Face Royals

BROOKLYN, April 14 (AP)—Leo Durocher made his first official appearance in a Brooklyn uniform at Ebbets Field today since the 1946 season as his Dodgers met the Montreal Royals. The Dodgers have a two-game set with the Royals and then meet their first major league opposition of the spring when the New York Yankees visit Friday and Saturday.

## Browns Meet Paris

PARIS, April 14 (AP)—The St. Louis Browns continued their tour of Texas minor league teams today, meeting Paris of the Big State League. Nelson Potter and Clem Dreisewerd were picked as the Brownie pitchers.

## ONE DAY GAME

# Crowds Up To 36,000 May See Texas League Openers

DALLAS, April 14 (AP)—Houston's Buffs, who last year led the way with a pennant and Dixie Series championship, and Beaumont's cellar-dwelling Exporters meet at Beaumont today in the opening game of the Texas league's fifty-third campaign.

Five hours later the other six clubs will be swapping base hits with Fort Worth's favored Cats battling Oklahoma City at Fort Worth. Dallas entertaining Tulsa and San Antonio hosting Shreveport.

Favorable weather was forecast in each area and crowds totaling 36,000 or more are expected at the four parks.

It marks the start of a 154-game schedule in which the teams will play all night ball except on Sunday—that is, barring Beaumont's home opener.

President J. Alvin Gardner has predicted that the season will see more than 2,000,000 paid admissions—the largest attendance in history and the third season in a row to better the record.

New parks, improved parks and mostly larger parks will greet the fans.

The season starts with two clubs under new ownership. Last winter Cincinnati acquired the Tulsa franchise. Last week-end Dick Burnett, Gladewater oil man, bought the Dallas Rebels. Burnett already is shelling out the cash for a pennant-winner. He says he isn't anywhere near satisfied with what Dallas boasts.

Dallas, however, already was rated third in the field by the Texas league writers, just back of Houston, which was close to Fort Worth. Tulsa got the fourth spot.

Opening games with anticipated attendance and probable starting pitchers (times are central standard):

Houston at Beaumont, 3:30 p. m. (7,500)—Cloyd Boyer (16-9) vs Carl Ray (9-13); umpires—Chester Fowler, Albert Atkins and Frenchy Arceneaux.

Oklahoma City at Fort Worth, 8:15 p. m. (10,000)—Ed Garcia (17-10) vs Carl Erskine (19-9); umpires—Perry Hunter, Buster Capps and Carl Sandt.

Shreveport at San Antonio, 8 p. m. (6,500)—Russ Meers (2-0) vs John Pavlick (5-13); umpires—Mike Williamson, Andy Andrews and Ernest Gigliello.

Tulsa at Dallas, 8:15 p. m. (12,000)—Harry Perkowski (17-12) vs Quentin Altizer (13-9); umpires—Bill Wilson, Milt Steengrafe and Fred Sigler.

## Steers Swamp Ponies, 21-0

By The Associated Press

The University of Texas today was leading the Southwest Conference baseball race with a record of five wins against no losses.

The Longhorns moved ahead of the six-team conference field yesterday by virtue of a lopsided 21-0 win over the Southern Methodist university team of Dallas.

The game, played on the Texas field at Austin, was the only conference engagement yesterday. Play resumes Friday.

It marked the first conference loss for the Mustangs, who had won three straight. The Mustangs now are tied with Texas A. & M. for second place with three wins and one loss each.

Bobby Layne set the Methodists back yesterday with four hits, all singles. It was his 25th conference win for Texas. Tom Hamilton hit a 350-foot home run to score three of four Texas runs in the third inning.

Baylor university of Waco is in third place with a record of two wins and two losses. Texas Christian university of Fort Worth and Rice of Houston are in the cellar. Neither team has won a game. Each has lost four.

A. & M. and SMU meet Friday at Dallas in the first of a two-game series. The second game is scheduled for Saturday.

Rice meets TCU on the same dates at Fort Worth. Texas plays its next game Saturday against Baylor at Waco.

## Barrett To Hill

NEWARK, N. J., April 14 (AP)—Red Barrett, who must have a good season if the Boston Braves hope to win the pennant, was named to start today against the Newark Bears. The contest is the Tribe's last road exhibition of the spring. Bob Elliott, most valuable National leaguer in 1947, is in a batting slump and probably won't play.

## No Bowling Tonight

No matches will be played in the Women's bowling league tonight, it has been announced.

Regular play will be resumed Wednesday, April 21.

### Sabath Takes Easy Win In Illinois

CHICAGO, April 14. (AP)—Illinois voters showed only a ripple of interest in yesterday's lackluster primary.

With no presidential contender and most major state offices uncontested, less than one-third of the state's 4,750,000 registered voters went to the polls.

Cool, rainy weather over most of the state and the progressive party boycott were other factors which kept the primary vote to one of the lowest totals in the last several years.

Rep. Adolph J. Sabath, dean of the national House of Representatives, easily won re-nomination over three Democratic opponents.

The 82-year-old Chicago congressman has served in the House for 42 consecutive years.

### Steel Plant Has Its First Fatality

HUGHES SPRINGS, Tex., April 14. (AP)—C. H. Connelly, 44, was dead today of a freak accident yesterday at the Lone Star Steel Co. plant near here.

He was caught in a conveyor belt and was killed instantly.

His death marked the first fatality at the plant as the result of accidents since operations began 10 months ago.

### Lighting Costly

CLEVELAND (U.P.)—The Street and Traffic Safety Lighting Bureau estimates that inadequate street lighting cost the nation's insurance companies \$216,000,000 in 1947. The amount includes traffic accident claim adjustments, wage loss compensation, doctor bills and property damage.

### DOUBLE FOR JOHN L. LEWIS LOVES TO CRACK JOKES ABOUT MINERS

PITTSBURGH, April 14. (AP)—"Tubby the Clown," a striking double for John L. Lewis, relaxed over his candy-making today while the United Mine Workers president faced an injunction violation charge at Washington.

"Tubby," whose proper name is John R. Thomas, resembles Lewis so much that even hard-boiled miners mistake him for their leader. He has the same shaggy black eyebrows, silvering hair, and pug-nosed jaw. In fact, he's better known around his neighborhood as "John L. Lewis" than John R. Thomas.

"Of course, I get a big kick out of it," said Thomas, 61-year-old retired postal clerk.

When passers-by stop and stare at him on the street in this coal center, he chuckles and peels off a few gags about miners. Comedy comes naturally because he has been an amateur clown 30 years as a sideline.

"I'd rather be a clown than a coal miner," he laughed, with his 210 pounds heaving heartily. "When you're laughing with the kiddies, you're in heaven."

Besides clowning for children in department stores at Christmas, "Tubby" spends his spare time helping his wife make chocolate candy, to make "ends meet."

Like Lewis, Thomas has Welsh blood in his veins. He has never met the miners' leader, but would like to some day "for the fun of it."

"Tubby" also imitates Winston Churchill but friends like most to see him play the Lewis role.

His philosophy of life: "We should clown more to take the hum-drum out of everyday existence. It's all right to take life seriously—but not too much."

### PEACE CLOSE TO WAR

## Spring Drive Seen For Chinese Reds

PEIPING, April 14. (AP)—High officials here predict the Chinese Communists will try this spring to isolate the government corridor into Manchuria, then swing south for a heavy smash against North China.

These sources view current Red operations in Inner Mongolia as a preliminary to such an offensive. It would try, they say, to cut off the government's slim Manchurian holding at its base, near the border of China proper.

After this, they forecast a large scale drive south across the Great Wall into North China—not necessarily aimed at seizing Peiping or Tientsin, but doubtless aimed at completely isolating them.

These two big North China cities would thus be in the same position Mukden occupied only a few weeks ago, when its only link with China was by air.

The Manchurian city now is reported to be connected with China by highway through Chihnsien, but there is no evidence that this has become an effective artery.

Peiping, despite reports of fighting almost within sight of its walls, is about the most tranquil place in China. Visitors who have read of fighting six, 10 or 20 miles from Peiping all are astonished to find this former capital quiet and peaceful.

Local residents are equally astonished to learn from visitors that much of the customary tourist trade is staying away because of imagined dangers.

NEW YORK, April 14. (AP)—Paul G. Hoffman has quit a \$96,000-a-year job to take another which pays \$20,000.

Hoffman resigned yesterday as president of the Studebaker Corporation to become administrator of the \$5.3 billion European Recovery program. President Truman appointed him to the post last week.

Studebaker's board of directors named Board Chairman Harold S. Vance of South Bend, Ind., to serve during Hoffman's absence.

### Employers Must Bargain On Pensions

WASHINGTON, April 14. (AP)—The National Labor Relations Board ruled Tuesday that employers must bargain with their employees on pension plans if the employees request it.

The 4-1 decision was the first on this subject in the board's 13-year history.

### PATIENT DIES

## Nurses Make Cancer Drive Donations

A campaign with the hope of saving lives was to begin officially here today when workers start out to raise a \$2,000 quota for the American Cancer Society's program of education, diagnosis and research.

That it was an appeal that came close to home was borne out in a letter to Ted O. Groebel, chairman, from a night shift of nurses at the Big Spring hospital. Speaking for the group, Ditty Gilluly wrote Groebel that "we lost a patient last night. He died of cancer, and instead of sending flowers, the 11 to 7 nurses are sending the money to you for the American Cancer Society. I hope you get more than the quota and believe you will. Now, more than ever before, people are conscious of cancer."

Indeed, it was a consciousness of the problem that led Groebel to accept the county chairmanship. He had seen a brother-in-law languish and die of cancer only a short time ago.

Several captains have been selected and they were to organize teams for a quick canvass, said Groebel.

Because of the humanitarian appeal and the comparatively low quota, Groebel expressed the hope that the campaign could be completed successfully in the space of a week.

Sixty per cent of the funds raised stay in the state for some research, support of diagnostic centers and education of the public to recognize and report early cancer symptoms. The balance goes to the American Cancer Society for research and education.

## Howard Cash Balances Drop During March

Howard county's cash balance experienced a net decline of \$14,000 during March.

This left the balance for all funds at \$146,117, of which \$36,500 was pledged to bond and warrant accounts. The lateral road fund had a total of nearly \$58,000, leaving roughly \$50,000 for operating accounts.

Of the \$19,755 expended during the month, \$10,588 went to the road and bridge fund, which had no unusual expenditures except for around \$800 for some bridge materials. General fund disbursements amounted to \$3,209, those from the officers salary fund \$4,884, the permanent improvement \$612 and the library \$228.10.

Receipts for the month included \$2,518 for the road and bridge. None of the heavy receipts for automobile registrations have been transferred to the county funds as yet. The general fund picked up \$234, the officers salary fund \$2,784, special road bond fund \$75, the viaduct warrant fund \$2.50, and the library fund \$1.85.

At the end of the month the balance by funds was: Jury \$3,763; road and bridge \$8,284; general \$19,219; officers salary \$6,067; permanent improvement \$4,895; special road bond fund \$3,001; road and bridge special \$35; viaduct warrant \$854; road bond 1945 series \$53,128; road bond 1945 series sinking fund \$4,830; lateral road \$4,830; library fund \$6,333; road machinery warrants 1947 series \$4,080, series A \$6,920, series B \$5,547.

Vitamins were discovered by scientists combatting the tropical disease of beriberi.

## Good tip for any trip!

Take it from those who know travel and travelers best... before any trip, drain out that dirty old winter oil and OIL-PLATE your engine with fresh, new Conoco N<sup>th</sup>!

Conoco N<sup>th</sup> Motor Oil (Patented)\* contains a plus ingredient that acts magnet-like to fasten an extra film of lubricant so closely to metal that your engine's cylinder walls and all moving parts are actually OIL-PLATED!

And because protective OIL-PLATING stays up there where it belongs... won't all drain down even when your engine's idle overnight... N<sup>th</sup> Oil extra-protects from "dry-friction" starts... from power-choking sludge and carbon due to wear!

For extra-powerful, extra-cool, extra low-cost miles...

Make a date to OIL-PLATE!
