Next school will be out the summer months and plans will begin making vacation plans. This will be an extra heavy traffic on the nation's highways as an increase in potential accidents. Naturally, the traffic, the greater the vacation accidents. Several items sticks in my mind as being the common cause.

Regardless driving can be a real trouble. Vacation persons too often are taking fishing, swimming, sightseeing, and fun rather than keeping their eyes on driving a vehicle. A vehicle becomes a potential accident. Someone has the most careful driver on the road is the one who saw the one ahead of him get caught. This could be the guy behind you.

Frank coffee with Frank Tuesday morning and everything was fine until I took on a startled look and hurriedly began finishing my coffee. He explained, "Gosh, I forgot to eat breakfast this morning." This is so unusual until he explained the situation.

When Frank left the house I went to the post office and while cooking his breakfast this realization hit me. I didn't see him get out of the house. Don't let it be chanced going to work or to school.

Heating of coffee in a microwave oven, have you heard about that? It was promised at the two circuit breaks a while ago.

This is the time of year Tahoka really becomes beautiful. The great-est beauty is the view of the hills. The great-est beauty is the view of the hills.

This year's observance with the theme "Confronting the

Issues," underscores the responsibility which each citizen has in dealing forthrightly with current issues involving stewardship of renewable natural resources.

The Lynn County District and some 3,000 companion districts throughout the nation along with their state and national associations are sponsoring the event for the 15th consecutive year.

Several local events designed to encourage widespread recognition of Soil Stewardship Week have been held in

the county. As a result of the local Minister's Conservation Tour last week, the following ministers have made talks to various clubs of the county. Wilson School Patrons Approve Bond Election

Wilson school patrons approved a \$200,000 construction bond issue in an election held Saturday, May 10. Of the 214 total votes cast, 161 voted in favor of the issue, with 61 voting against.

Construction of the new buildings, which will include a three-in-one structure will begin in June, 1969. Plans call for a central building to include 10 classrooms for elementary students, band hall, and physical education facilities. The new structure will be located on school property now housing the old gym.

The financial advisor recommended that the board adopt the plan of raising the total assessed valuation from \$5,200,729 to \$6,500,948 raising taxes 31 percent with 17 percent being used to retire the additional bonds, and 14 percent used in local maintenance, salary increases, and additional operating expenses. This would be an increase for home owners amounting to \$31.

The physical education facility will be used for practice classes for elementary through high school, and will not be used for spectator basketball games, as it will not be regulation size.

EDITORIAL

Lynn Countians were angered this week because of statements made by an Illinois lawmaker, concerning our "so-called hard core poor." He pin-pointed Lynn County a prime example where "local political leaders do more for wealthy farmers than for the hard core poor."

Rep Paul Findley, R-Ill said that \$8.9 million was distributed in agriculture payments to Lynn County in 1967. "This is especially noteworthy because Lynn showed a population of only 10,814 with 2,282, nearly 25 percent, classified as hard core poor."

I take stand and agree with Lynn County Judge Vernon Jones, in a statement to the Avalanche-Journal. "We do not have any hard core poor and no big welfare problem. We have county and state aid programs that I feel adequately take care of the few welfare needs."

Some of the lawmakers statements need to be clarified, especially the "2,282 hard core residents" and "local political leader role in Lynn County."

We can take care of our local problems whether welfare, political or otherwise without the aid of Findley or other lawmakers more concerned with Lynn County than areas of their home state. Maybe Mr. Findley should take a closer look at the problems of Chicago.

I think Mr. Findley should visit our county and state these same facts on home grounds. Let him review our welfare needs and produce these 2,000 plus hard core poor residents. Let him talk with Lynn County farmers about farm programs. Yes, Mr. Findley, meet us face to face.

Industry Talk Heard At Rotary

Area towns like Tahoka were urged to continue their efforts to secure industrial plants to supplement the farm economy by Bob Mills, Amarillo, an executive of Pioneer Gas Co. executive, in a talk at the Rotary Club last Thursday.

He cited instances in which industry has been brought to this area, but warned secur-

ing new industry is a highly competitive proposition.

His talk was a plea for area citizens to become involved in Chamber of Commerce work for the good of the community and the area. "This is the only way progress of a community can be achieved - the entire citizen-ship working together."

Pioneer Spirit Portrayed In Life Of Lynn County Irishman

BY FRANK HILL

Pat McKibben, 74, retired Lynn County farmer who was buried last week, was an outstanding example of the pioneer spirit and old-fashioned Americanism do-it-yourself that leads to success in life.

Although he and his late devoted wife had meager educations, they produced 15 children and in the meantime took care of their own and acquired a section of fine farm land. This in a day when the "new generation", minority groups, hippies, and what-nots whine and demand "opportunity" and "unemployment compensation" or else!

Eight years ago, Mr. and Mrs. McKibben, accompanied by four children and four grandchildren, took a trip back to their old home in Wise County. This trip brought back fond recollections, and Pat took advantage of the occasion to tell some family members how hard it was to get a start back in those days - a story typical of that many early settlers of this country could tell.

He showed the kids the hill he used to climb to school, the bridge where the wheel came off and he had to roll it back to town for repairs, and declared he used to say there wasn't a team of mules anywhere he couldn't follow six long days work. He jokingly said, "Now I can hardly walk from the house to the barn."

The Irishman was born in Patterson County, Missouri March 17, 1885, St. Patrick's Day, and was fittingly named Francis St. Patrick McKibben. His parents moved to Benton Harbor, Michigan, in 1897, but next year spent six months by wagon train coming to Oklahoma.

At age 16, in 1911, young Pat came by train to Chico, Texas where he farmed 40 acres and raised a little corn, cotton, beans, millet, and peanuts. In his spare time he made mine props for 85¢ per hundred and cut cord wood for 85¢ a cord.

By 1918 he was boarding with a brother and wife in Newcastle while he worked in the Belknap coal mine. He and Mrs. Pat were married in Lancaster, Dallas County, September 21, 1918.

The next year, the couple moved to a 25-acre farm between Chico and Bridgeport, and he rented another 25 acres on the side. It took a half day to go to Bridgeport and back, but if he walked he would bring home an armload of squirrel, but at age 70 he said he couldn't hit one now with a rock.

In 1920, they moved to a 120-acre farm, now 75 feet under water of Bridgeport Lake, and the first child, now Mrs. Ruby Griffith of Lubbock, was born.

Moving to a 40-acre farm in 1922, he rented 25 acres on the side, and here Pat Jr., now of Lamesa, was born.

and in 1923 another daughter, Mrs. Opal Dinkins Belt, Houston, made her arrival.

Mr. Pat told his children they would go down to the river bottom, pick a sack full of cotton, hook up an old jack to the buggy and pull it out. While picking cotton, they would put Opal in a tub, sit the tub across a stick, and Ruby would rock it.

Farming 86 acres on a hill near the present lake, he had his brother, Glynn, as a helper, and gave him his board and a horse in pay. Pat started a house from rocks there 45 years ago, and recently the rocks were still there in a pile as he left them.

Another daughter, Mrs. Add Triola of Houston, was born at Chico, where he farmed 60 acres, counting wash-outs and all, until 1926. That year, he raised some good corn, but didn't have time to gather his cotton before he left for West Texas and it rotted in the field and he never got a cent for it.

He had traded a mule, for a 1922 Model T Ford, and sold four cows, four calves, a sow, and three shoats for \$150, eight wagons of corn at \$23 a load, and used this to pay his debts.

The family started out for the Plains with the Model T, five horses, four mules, corn to feed them, and \$150. Mrs. McKibben drove the car with the four kids, Pat Sr. and her brother, Ernest Kirkland, brought the buggy, wagon and teams. The trip took a week, and they slept in the wagon.

Near Rule, a bridge was being built, and during a nighttime rain, all the horses got lost.

Between Claremont and Post, they were crossing a bridge during a rain, the horses got to crowding and one fell off the bridge onto its back. Figuring the horse was dead, Pat went down to salvage the bride. About that time the horse came to and liked to have run over him.

On a bridge just outside Post, during the rain, water got up into the buggy and wagon. That night, he'd turn over in the bed and feel and hear the water slush. He took it until about 2 a. m., and finally pulled out and made it to Draw by 4 p. m.

While farming 80 acres of the Thomas farms at Draw in 1927, the fifth child was born, Don, now of Lubbock. The next year, he farmed 220 acres for Hayden Williams, with help from Lee Veach.

and another son, Warren, was born.

Horace Cook helped him farm the same place in 1929, and he and Pat Jr. farmed the same land in 1930 and 1931. By now, he and Ruby and Pat Jr. could pull a bale of cotton a day. The seventh child, Frances Matthews of Hearne, was born in 1929.

McKibben moved to O'Donnell in 1932 and farmed 220 acres of land and 80 acres in pasture. Joyce Ware of West Point was born in 1933, Joe of Tahoka in 1936, and along came the 10th child in 1938, Patricia McClellan, Tahoka.

In spite of a big growing family and having weathered the depression, he was able to buy the T-Bar farm in 1937. However, everyone told him it wasn't any good, so he stayed on the O'Donnell farm until 1939. The T-Bar half section turned out to be a fine farm.

Here Jerry of Tahoka was born in 1940, then came Mary Rowe in 1941, Tommy in 1943, Shirley of Lubbock in 1944, and finally the 15th child, Kay White of Lubbock arrived in 1946.

With 15 children, Pat said he always wanted a boys' baseball team, but he ended up with a girls' team and just two-thirds of a boys' team.

In 1962, Mrs. Pat (Lottie) developed sugar diabetes, and Pat decided to quit farming and rent out his two half section farms. They moved to 1621 N. 4th Tahoka and while living here Mrs. McKibben passed away in November, 1966.

Now alone and lonesome, he spent many days visiting Mrs. Pat's mother, Mrs. Mary Kirkland, in LaVoy's Convalescent Home until she passed away last year.

The McKibbens were devoted to their children, and looked forward to having them at home. One Christmas, nearly all of them and their families came and spent five days. During this time, they consumed a beef, two hogs, and \$250 worth of other groceries.

Mr. McKibben was a devout Christian. His children remember him regularly sitting in a special place reading the Bible aloud. There was never a meal in his house that was not preceded by prayer.

He spoke of Faith and of God to all his children. Many times, the children heard him say, "When you see the trees and the sky, flowers blooming, and green grass growing, how can one say there isn't a God?"

Taxes - H.B. 955, a "sleep-er bill" originally designed to limit the sales tax on industrial production machinery and equipment to 3% and 1% for city, was changed completely and was heard by the House Committee on Revenue and Taxation this past week. As changed by the author and submitted to the Committee, this bill would remove the sales tax exemption on farm machinery and equipment and would remove the sales tax exemptions on food and utilities. At the present, it doesn't seem probable that a tax bill will be passed during this session.

Transportation - S.B. 293, a bill providing that permits for hauling agricultural products in their natural state shall be issued by the Railroad Commission to applicants without a finding of public convenience and necessity, was heard again before the Senate Committee on Transportation. Sex Traps Are Keeping Close Check On Weevil Infestation

A "Dragnet" formed by boll weevil traps along the edge of the Caprock and running all the way to the New Mexico line is keeping close check on the weevils as they once again attempt to invade the High Plains.

"This year the traps are being used on a large scale basis to monitor this movement," reports Lyndon Almond, Extension area entomologist located at the Texas A and M University Agricultural Center north of Lubbock. The traps were put to their initial test last year and proved to be a valuable tool in detecting the movement of weevils.

"To date, three weevils have been trapped in this string of 233 traps which are each one to two miles apart," according to the entomologist.

"One was found recently in southeastern Lynn County about 3 miles east of Draw. Another weevil was trapped about 8 miles east of Tulia while a 3rd was picked up some 9 miles southeast of Silverton."

The pheromone traps, or sex traps as they are called, are bright yellow and each is sexily baited with four live male boll weevils. The trap itself stands about a foot tall and is coated with a sticky substance which snares weevils as they are attracted to the caged live weevils in the center.

Each week the traps are inspected for trapped weevils and are replenished with a fresh supply of bait weevils, explains Almond.

"The system of traps will enable us to keep tabs on the

movement of weevils into the High Plains area to pinpoint "hot spots," points out the entomologist. "This will enable effective treatment of such areas under the High Plains Diapause Boll Weevil Control Program which has successfully prevented significant weevil migration into the area for the past five years. Monitoring of the boll weevil movement is a vital part of the overall objective of this program."

The line of traps begins in northern Briscoe County and extends along the edge of the Caprock through Floyd, Crosby, Lynn, Garza, and Borden counties to southeastern Dawson County, then turns westward across Dawson County and follows the Gaines-Andrews County line to New Mexico.

Brazil Theme Used At Society Meeting

The Women's Society of Christian Service of the First United Methodist Church met April 30 in the church parlor for a program from the book "Now Prophets." Using a map of Brazil and a background of products from Brazil, Mrs. R. M. Stewart and Mrs. Louie Weathers directed the study. Different members in costume had parts on the program. Mrs. Hugh Daniel sang a solo "Christ for the World We Sing." Mrs. C. A. Thomas led the closing prayer.

A social time followed and Brazilian refreshments were served.

On May 5th, the society and the Wesleyan Service Guild observed the annual Fellowship Day with the society serving as hostess for a guest tea.

Mrs. R. M. Stewart, president of the society, welcomed the guests. Mrs. Rudy Johnston, president of the

guild, introduced the speaker, Mrs. Fred B. Hegi. Mrs. Hegi reviewed the book, "To God with Love" by Jean Reynolds Davis. This book is made up of letters to God from a busy housewife and mother who brings a good message. Mrs. Hegi, in a most impressive way, used the first person in reviewing the book.

Mrs. Hugh Daniel and Mrs. V. F. Jones offered prayers. Mrs. Jones arranged the

That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section 49-d-1 to read as follows: "Section 49-d-1. (a) In addition to Texas Water Development Bonds heretofore authorized to be issued by Sections 49-c and 49-d of Article III of the Constitution, the Texas Water Development Board is hereby authorized to issue \$3,500,000,000 in aggregate principal amount of bonds. No part of such additional bonds shall be issued prior to approval thereof by the vote of two-thirds of the elected members of both houses of the Legislature. (b) The proceeds from the sale of such bonds shall be deposited in the Texas Water Development Fund. (c) The bonds herein authorized and all bonds authorized by such Sections 49-c and 49-d of Article III shall bear such interest and mature as the Texas Water Development Board shall prescribe, subject to the limitations as may be imposed by the Legislature. (d) The Texas Water Development Fund shall be used for the purposes heretofore permitted by and subject to the limitations in said Sections 49-c and 49-d and in addition thereto for the purposes of developing water resources and facilities for the State of Texas, both within the State and without the

Provided, however, that financial assistance may be made pursuant to the provisions of such Sections 49-c and 49-d subject only to the availability of funds and without regard to the provisions in Section 49-c that such financial assistance shall terminate after December 31, 1982. (e) Under such provisions as the Legislature may prescribe, the Texas Water Development Board may receive grants and, in addition, execute contracts with the United States or any of its agencies, other states of the United States, foreign governments and others, for the acquisition and development of such water resources and facilities for the State of Texas. Such contracts when executed may be secured by the general credit of the state, and if so secured shall constitute general obligations of the State of Texas in the same manner and with the same effect as Texas Water Development Bonds. If facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the state's investment. The aggregate principal amount of Texas Water Development Bonds authorized herein and in said Sections 49-c and 49-d shall be reduced by the aggregate of principal payments committed under such contracts, plus general obligations of the state. The provisions hereof shall not be construed to limit the authority of the Texas

Water Development Board to execute contracts or issue revenue bonds when such contracts or bonds are not secured by the general credit of the state.

"(f) Texas Water Development Bonds and such contracts secured by the general credit of the state shall after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas.

"(g) Should the Legislature enact enabling laws in anticipation of the adoption of this amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on Tuesday, August 5, 1969, at which election all ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment broadening the powers of the Texas Water Development Board and the purposes of the Texas Water Development Fund, eliminating the interest limitations on Texas Water Development Bonds; raising the authorized amount of Texas Water Development Bonds by \$3,500,000,000; extending the maturity schedule on Texas Water Development Bonds; eliminating such contracts constituting general obligations of the state; and the curtailment of the date of financial assistance to be provided by the Texas Water Development Board."

The Legislature shall have the power, by general laws, to provide, subject to limitations herein contained, and such other limitations as may be deemed expedient, for assistance grants to and/or medical care for, and for rehabilitation and any other services included in the federal laws as they now read or as they may hereafter be amended, providing matching funds to help such families and individuals attain or retain capability for independence or self-care, and for the payment of assistance grants to and/or medical care for, and for rehabilitation and any other services to or on behalf of: (1) Needy aged persons who are citizens of the United States or non-citizens who shall have resided within the boundaries of the United States for at least twenty-five (25) years; (2) Needy individuals who are totally and permanently disabled by reason of a mental or physical handicap or a combination of physical and mental handicaps; (3) Needy blind persons; (4) Needy dependent children and the caretakers of such children. "The Legislature may prescribe such other eligibility requirements for participation in these programs as it deems appropriate. "The Legislature shall have authority to enact appropriate legislation which will enable the State of Texas to cooperate with the Government of the United States in providing assistance to and/or medical care on behalf of needy persons, in providing rehabilitation and any other services included in the federal laws

"Supplementing legislative appropriations for assistance payments authorized by this Section, the following sums are allocated out of the Omnibus Tax Clearance Fund and are appropriated to the State Department of Public Welfare for the period beginning September 1, 1969 and ending August 31, 1971: Three Million, Six Hundred Thousand Dollars (\$3,600,000) for Old Age Assistance, Two Million, Five Hundred Thousand Dollars (\$2,500,000) for Aid to the Permanently and Totally Disabled, and Twenty-Three Million, Nine Hundred Thousand Dollars (\$23,900,000) for Aid to Families with Dependent Children. Such allocations and appropriations shall be made available on the basis of equal monthly installments and otherwise shall be subject to the provisions of currently existing laws making allocations and appropriations for these purposes. "Provided further, that if the limitations and restrictions herein contained are found to be in conflict with the provisions of appropriate federal statutes, as they now are or as they may be amended to the extent that federal matching money is not available to

the state for these purposes, then and in that event the Legislature is specifically authorized and empowered to prescribe such limitations and restrictions and enacts such laws as may be necessary in order that such federal matching money will be available for assistance and/or medical care for or on behalf of needy persons.

"Nothing in this Section shall be construed to amend, modify or repeal Section 31 of Article XVI of this Constitution; provided further, however, that such medical care, services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision. Nothing herein shall be construed to permit optometrists to treat the eyes for any defect whatsoever in any manner nor to administer nor to prescribe any drug or physical treatment whatsoever, unless such optometrist is a regularly licensed physician or surgeon under the laws of this state."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday in August, 1969. At the election the ballots shall be printed to provide for voting "FOR" or "AGAINST" the proposition: "The Constitutional Amendment providing for assistance to and/or medical care on behalf of the needy aged, the needy blind, the needy disabled and the needy dependent children and their caretakers; establishing Eighty Million Dollars (\$80,000,000) as the maximum amount that may be paid per year from state funds for assistance only; allocating and appropriating additional sums supplementing current legislative appropriations for assistance grants; and authorizing the Legislature to enact such laws as may be necessary in order that federal matching money will be available for assistance and/or medical care."

Proposed CONSTITUTIONAL AMENDMENT NUMBER EIGHT ON THE BALLOT (HJR50)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III, Constitution of the State of Texas, be amended by adding a new Section 50b-1 to read as follows:

"Section 50b-1. (a) The Legislature may provide that the Coordinating Board, Texas College and University System, or its successor or successors, shall have authority to provide for, issue and sell general obligation bonds of the State of Texas in an amount not to exceed Two Hundred Million Dollars (\$200,000,000) in addition to those heretofore authorized to be issued pursuant to Section 50b of the Constitution. The bonds authorized herein shall be executed in such form, upon such terms and be in such denomination as may be prescribed by law and shall bear interest, and be issued in such installments as shall be prescribed by the Board provided that the maximum net effective interest rate to be borne by such bonds may be fixed by law.

"(b) The moneys received from the sale of such bonds shall be deposited to the credit of the Texas Opportunity Plan Fund created by Section 50b of the Constitution and shall otherwise be handled as provided in Section 50b of the Constitution and the laws enacted pursuant thereto.

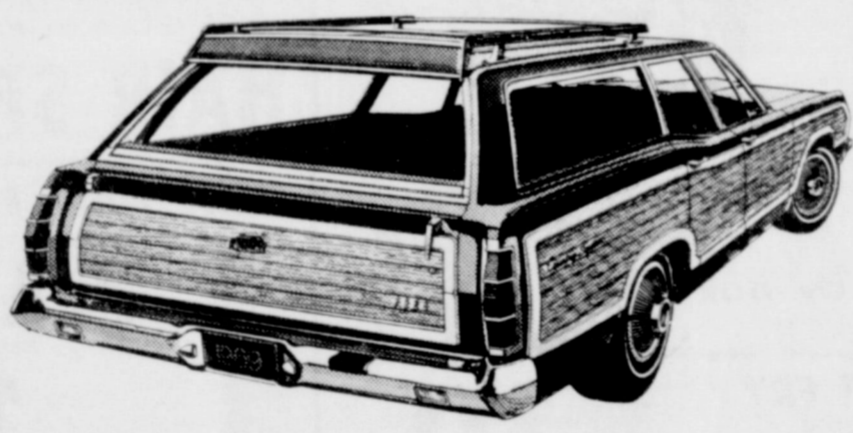

"(c) The said bonds shall be general obligations of the state and shall be payable in the same manner and from the same sources as bonds heretofore authorized pursuant to Section 50b.

"(d) All bonds issued hereunder shall after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under this Constitution.

"(e) Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment such acts shall not be void because of their anticipatory nature."

Sec. 2.
